Trial demanded for hijack leader

WASHINGTON (AP) — Top Reagan administration law enforcement officials insisted Monday that a Palestinian guerrilla leader accused of masterminding a bank robbery and hijacking a cruise liner be brought to the United States to face trial.

But the administration, rebuffed earlier by Italy in an attempt to have Mohammed Abu al-Abbas arrested, made no headway in getting his provisional arrest in Yugoslavia, pending a formal extradition request.

In fact, the Yugoslav news agency reported that Abbas, 38, was out of the country. The White House said it had no independent confirmation of that. However, CBS News said in a release that in Tunis, Tunisia, Abbas had spoken to Abbas by telephone in Yugoslavia shortly before 9 a.m. EDT — after the Palestinian leader was already said to have left.

The State Department said the United States was asking the Yugoslav government to our request that Abbas be provisionally arrested pending a formal extradition request from the United States.

More information about asbestos, food preservation, money management and more. Each toll-free message is about two minutes and some are in Spanish.

Mark Becker, a soil science specialist, is a public education specialist at the University of California Cooperative Extension office in Stockton.

By Chuck Buckley

If wooly white fleas are a problem concern arises about planting a winter garden, the Telephone extension office offered through the University of California Cooperative Extension office in Stockton.

Teletip is a collection of more than 300 pre-recorded messages that give advice on gardening, food preservation, money management and more. Each toll-free message is about two minutes and some are in Spanish.

Mark Becker, a soil science specialist, is a public education specialist at the University of California Cooperative Extension office in Stockton.

Becker said the telephones contain a list of messages available, along with the number to call from different areas in the county. In San Luis Obispo the number is 549-3932. The service is available 24-hours a day to people with touch-tone phones. Other phones get the service on weekdays from 8 a.m. to 5 p.m. with the assistance of a Teletip operator.

Becker said the tapes are made at U.C. Davis and U.C. Berkeley. "Each county gets a selection of messages that are appropriate for the area," he said.

Becker said all questions cannot be answered by Teletip. "Telitip is not to discourage people calling the cooperative extension office," he said. Specializations are available there to relay information on livestock, wildlife, marine science, poultry, citrus, field crops, and other agricultural subjects.

More information about Teletip is available at the University of California Cooperative Extension office in San Luis Obispo.

Technical difficulties cited

Adam Ant performance is cancelled

The Adam Ant concert scheduled for Monday night at the Fremont Theatre was cancelled due to "technical and logistical difficulty," promoters said.

Ray Diggins, promoter for Crucial Arts, said the stage at the Fremont Theatre could not be built to the desired size without breaking city fire safety regulations. Diggins said the Adam Ant road company requested more than 30 feet of stage space, but the Fremont stage could only be extended 22 feet. If the stage were extended farther, it would block the fire lane, Diggins said.

We were worried about whether it would be legal or illegal," said Diggins. "We couldn't fit their criteria (the band) and meet city regulations too, so we decided to cancel it." Police came several times to inspect the stage setup at the Fremont.

False reports circulated Monday that the concert was cancelled by the San Luis Obispo City Fire Department. Battalion Chief Bill Callaway said: "We didn't cancel it.

Diggins said tickets were selling well for the concert and he had expected them to sell out before the 8 p.m. performance. Tickets will be refunded at the place of purchase. The concert was to be presented by radio station Z-93 and Rock 'n Chair Productions.

Diggins said the run last week at the Dead Kennedys concert at the Veterans Memorial Building "made him more nervous" about promoting this concert. "The ill-fated Dead Kennedys concert just created a situation where a lot more people were watching," he said.

The ultimate decision to cancel the concert, though, was made by the Adam Ant touring company.

Construction workers spent Monday afternoon setting up the Fremont Theatre. "We worked all damn night and then I came in today in help finish the stage and it was half tore down," said worker Albie Forbes.

The Adam Ant concert at the Fremont was organized just last week, and promoters are not sure how much money will be lost because of the cancellation.

Money and stupidity: a lottery question

Editor — I thought the letter that appeared in Thursday's Mustang Daily was quite interesting. I believe that Mr. Carasso (or Roger if he prefer) has some good points. He impressed me as a good ethical person. Protecting the poor is a good idea I suppose. If I was a poor person however, I believe that his letter would insult me. He maintains that the lottery is an unfair risk to take. He also writes that the poor are the most likely to lose. The connection I see is between poor people and stupidity. I think that the poor deserve more credit.

Lack of money does not make one stupid. College students, are supposed to learn from the past (if they can learn at all). Though there are 'fad' as you point out, without any logical basis. Though there are no good ideas, there are too full hers at Cal Poly. This is not strictly true, but the bottom line (literally) in this country can endorse, they do not appreciate the great job the faculty and staff are doing for us.

Unintelligent students are individuals in particular that need to be recognized. They need help (I will tell them later). I think that the sale lottery tickets will not benefit or sell retail on CSU campuses.

So if you want to gamble, you'll have to be satisfied playing bingo at church, because you can't play the lottery as school.

ON THE STREET

How do you feel about the U.S. capture of the four PLF terrorists?

By Craig Andrews and Kevin Cannon

Nancy Ferkel, English: They should have done it. I just came back from working on a cruise ship. It was scary — you can hijack a ship easily.

Steve Habib, art: I think the terrorists should be shot. It's about time we did something.

Paul Pond, Forestry: I like that a lot. I wish I was flying the jet.

K.J. Silverman, graduate student: I thought it was great. We are doing for us.

Earthquake hits Soviet Union

MOSCOW (AP) — A severe earthquake hit the Central Asian republic of Tajikistan, destroying factories, offices and homes, the Soviet Union said Monday. Tass reported "loss of life," but gave no details.

The official news agency said the epicenter of Sunday night's quake was some 145 miles northeast of the Tadzhik capital of Dushanbe.

Seven sharp tremors rocked the city of Leninabad, which has a population of 139,000, and the nearby small communities of Kairakum and Cufurov, the government newspaper Izvestia said.

Tass said that around Kairakum, "adobe houses were destroyed in villages and a landslide swept away an asphalt-surfaced road."

The agency said the quake registered force 8 on the 12-point Soviet scale. Force 8 is equivalent to 6.2 on the Richter scale in Dushanbe and nearly 5 points in the Uzbek capital of Tashkent.

Two Americans win Nobel prize

CAMBRIDGE, Mass. (AP) — Research into a rare defect in the body's internal control of cholesterol that won the Nobel prize for two Americans is opening up new strategies for understanding and defeating heart disease, the nation's biggest killer.

Dr. Michael S. Brown and Joseph L. Goldstein of the University of Texas Health Science Center at Dallas unraveled a puzzle at the heart of cholesterol. With the help of a small protein, the body's internal control of cholesterol that won the Nobel prize surfaces like a gold mine.

One outgrowth of their research is attempts to rid the body of cholesterol by tinkering with the built-in machinery that ordinarily scours it from the blood.

However, their discoveries have also revealed important clues for understanding how the body's cells absorb vital nutrients and even how genes are constructed.

Judge postpones DeLorean trial

DREXEL (AP) — A federal judge has postponed the fraud trial of former automaker John Z. DeLorean for at least five months because of the complexity of the case.

U.S. District Judge Julian A. Cook Jr. said in an order issued Monday that the two men, who were attending a conference in Cambridge, had won the 1982 Nobel Prize in medicine.

One outgrowth of their research is attempts to rid the body of cholesterol by tinkering with the built-in machinery that ordinarily scours it from the blood.

However, their discoveries have also revealed important clues for understanding how the body's cells absorb vital nutrients and even how genes are constructed.

Students schedule homecoming events

By Della Boxa

Student Sumat has organized a number of campus-related events for the 1983 Homecoming which begins on Wednesday.

Student groups, clubs and organizations can compete in a 10 square foot area display contest. 

The final program will be on Friday at 5 p.m. in the Mustang Stadium.

Student Sumat is working with the Alumni House to build the bonfire. 

"We are trying to emphasize " The band'll play and the cheerleaders'll be there," said Timoney. "It's a spirit thing to generate enthusiasm for homecoming. The bonfire'll last about an hour or so."

The G5 parking lot area will be roped off Friday evening so students can bring wood donas to build the bonfire. 

"There'll be fire units there to supervise the bonfire," said Timoney. "We'll be very careful."

On Saturday a "Mane Event" homecoming parade will begin at 11 a.m. from SLO and Grand Avenue and winds through campus towards the stadium. The parade will have several student groups, the marching band and floats from campus groups, clubs and organizations, said the President of Student Sumat, Mike Hogan.

"The top five to 10 floats will be part of the football game halftime show," said Hogan.
We’re Not All Pomp And Circumstance.

Some companies give recent graduates a fancy title and not much else.

At Applied Magnetics, we value your ingenuity. We give business and engineering graduates the opportunity to assume significant responsibility early in their careers by placing them in a position to make key decisions that affect the way we do business.

If you’d like to find out more about us, just drop by the Placement Center and read our literature.

If you’re interested in discussing the many challenging career paths we have available, please sign up for an interview.

We’ll be on Campus on January 24th.

FALL ENRICHMENT PROGRAM

Courses

Understanding the Sacraments
This course will explore students’ questions about the 7 sacraments in the Catholic Church.
Fr. Jim Nishab
Mon., 4:00 - 5:00 p.m., UCC

Worship and Liturgy
This course is designed to help students plan liturgical services.
Topics also covered: ritual, symbol, memorial and communal worship.
Paul Yierra
Thurs., 6:00 - 8:00 p.m.

From Chaos to Community: A Christian Leadership Training Program
A practical course for exploring styles of leadership and group dynamics.
Bob and Mary Cichowski
Thurs., 6:00 - 8:00 p.m., UCC

The Elusive Presence: the God Who Liberates
Parallels will be drawn between the God of history and our own contemporary world, i.e., career choices, relationships, academic life and social events.
Rev. Gary Weatherly
Thurs., 7:00 - 9:00 p.m., UCC

Growth in Intimacy
Topics to be covered are distinguishing between romantic infatuation and mature love, role of sex and sexuality in marriage, communication skills, constructive ways to handle conflict, the spiritual dimension of marriage.
Steve and Patti Sasso
Tues., 4:00 - 6:00 p.m., UCC

Sign Up Now!
at the University Christian Center
1468 Foothill Boulevard
(across from the Health Center)

STARTS THIS WEEK
**Calendar**

**Wednesday, Oct. 16** — Eugene O’Connor of the business administration department will review the book “Running Your Own Business: How to Evaluate and Develop Your Entrepreneurial Skills,” by Nancy A. Fiesman as part of the Books at High Noon Series of Success. The program will be held in the Staff Dining Room at noon.

**Thursday, Oct. 17** — Lee Friedman, a California Department of Forestry administration officer, will discuss the Las Pilitas fire in the Staff Dining Room B from noon to 1 p.m. The presentation is sponsored by the University Club.

— Christina Orr-Cahall, chief curator at the Oakland Museum of Art and editor of the “Art of California,” will discuss “Art of California: Exploration to Exposition” as part of the Com- municative Arts and Humanities Lecture Series. Orr-Cahall, a former member of the Cal Poly art department faculty, will speak at 11 a.m. in the University Union, Room 220.

— Bailey Hudson of the city of Santa Maria Parks and Recreation will speak on urban forestry at 1:10 p.m. in Engineering West, Room 204. Hudson will speak as part of the natural resources management department undergraduate seminar. All students, staff and faculty are invited to attend. For more information contact Doug Pilto, in the Faculty Office Building 268, ext. 2904 or 2702.

**Friday, Oct. 18** — ASI Outings will sponsor a Mystery Trip. Only the leader will know the destination. ASI Outings is also sponsoring a three-day Catalina Island Trip where travelers will snorkel and explore the fall sun, beginning on Friday. Details and sign ups are available in the Escape Route in the University Union, Room 112 or call ext. 1287.

— A five-part film series titled “Whatever Happened to the Human Race?” will be hosted by the Fellowship of Active Christian Thinkers on Friday and Saturday. Admission for the programs, which begin at 7 p.m. in University Union, Room 220, is free. Episodes one and two will be shown on Friday; episodes three, four and five will be shown on Saturday.

— The Cal Poly Foundation board of directors regular meeting will be held at 9 a.m. in the Administration Building, Room 409. This is a public meeting. For further information about the meeting agenda, contact Al Amarnel, executive director, in Fisher Science, Room 290 or call ext. 1131.

— Saturday, Oct. 19 — The San Luis Obispo County Land Conservancy and KCBX Public Radio will sponsor a “Lighthouse Launch” on Saturday on Sunday with one-hour boat cruises aboard a chartered 42-foot Port San Luis Sportfishing boat. The boat will leave every hour on the hour from 9 a.m. to 3 p.m. Passengers will be able to sip local wine from Martin Brothers Winery and sample seafood hors d'oeuvres on board. Proceeds from the two-day event will be used to match a grant requested from the National Trust for Historic Preservation for a feasibility study of restoration of the lighthouse. Tickets are $10 for adults, $5 for children ages 12 to six and free to children under six years old. To make reservations, call Conservancy staff at 544-9096 or 544-8325, or send a check to the Land Conservancy at P.O. Box 12206, San Luis Obispo 93406.

— Sunday, Oct. 20 — Three poets from Santa Barbara will read their works at Linnema’s Cafe at 1110 Garden St. at 7:30 p.m. as part of a monthly series held every third Sunday of the month called “Corners of the Morn.” The poets are Dennis Holt, Lee Davis and Abd al-Moore. Norman Hammond will provide guitar music between readings. An open reading will follow the scheduled readers. For more information call Karl Kempten at 489-2770 or Kevin Sullivan at 773-4305.

**Thursday, Oct. 21** — Michael Wollman will speak on the topic “An Introduction to Fiber Optic Communications” at 7:30 p.m. in the Engineering Building, Room 110 as part of the Society for Photo-optical Instrumentation Engineers Fall Lecture Series.

**Sunday, Oct. 20** — Michael Wollman will speak on the topic “An Introduction to Fiber Optic Communications” at 7:30 p.m. in the Engineering Building, Room 110 as part of the Society for Photo-optical Instrumentation Engineers Fall Lecture Series.

**Wednesday, Oct. 16** — Bailey Hudson of the city of Santa Maria Parks and Recreation will speak on urban forestry at 1:10 p.m. in Engineering West, Room 204. Hudson will speak as part of the natural resources management department undergraduate seminar. All students, staff and faculty are invited to attend. For more information contact Doug Pilto, in the Faculty Office Building 268, ext. 2904 or 2702.

**Monday, Oct. 21** — Michael Wollman will speak on the topic “An Introduction to Fiber Optic Communications” at 7:30 p.m. in the Engineering Building, Room 110 as part of the Society for Photo-optical Instrumentation Engineers Fall Lecture Series.

**Tuesday, Oct. 22** — Alpha Phi sorority will sponsor the 9th annual together-a-thon from Tuesday to Friday in the University Union Plaza. The women will be riding for 120 straight hours to benefit the American Heart Association. Mayor Melanie Billig will ride from 11 a.m. to noon on Thursday.

**Notables**

**Student Achievements**

— American Society for Metals — three members will be awarded scholarships for their academic achievement. Gwen Stahl and Kevin Maggs will receive $500 and Carol Beer will receive $100.

**Donations**

— Minority Engineering Scholarship Program — the Pacific Telesis Foundation has given $20,000 to this Cal Poly program to award scholarships of varying amounts to students from underrepresented minorities in university engineering programs. Cal Poly is one of three universities chosen by Pacific Telesis for participation in the program intended to encourage minority students to enter engineering. Among the criteria used to select the institutions were the caliber of entering students, the scholastic excellence of their programs in engineering and science and the quality of their minority engineering program. The University of California campuses at Los Angeles and Davis were the other universities selected for the scholarships.

**Deadline for Notables is Monday at 1 p.m. for consideration for Tuesday publication.**

**WHAT WE HAVE AT THE AMPUS STORE:**

- **ANDY:** OAKIES, ORN, EREAL ORNUTS.
- **OFFICE:** AXES, ORN HIPS, HOCOLATE.
- **UP-O-NOODLE, RACERS, APS, ANS.
- **OSMO, LEARASIL, ASH, RACKER JACKS.
- **HUNKY PEANUT BUTTER, IDER, OMTREX.
- **OPPETONE, RANBERRY JUICE, OATTE HEESE.**

**HOURS:**

Monday - Friday 6:30 am - 10:00 pm
Saturday & Sunday 9 am - 10 pm

**CAPPIE CINNAMS**

Available at the Ice Cream Parlor in the UUCampus Store
Surfers gather at Pismo Pier

More than 300 surfers competed in the Western Surfing Association State Invitational Championship at Pismo Beach this weekend.

The competition consisted of the top amateur winners from seven statewide districts. Ages ranged from under 12 Mensurahes to Grand Masters over 47. Surfing categories included knee board, long board and paddle races.

Randy Egner, a senior engineering science student, served as a judge for the championships. Egner and six other judges looked for the surfers' style and ride on the best of four waves.

"It's kinda hectic when a couple of people are riding the same waves," said Egner. "You have to keep things under control."

Special event attracts tennis buffs

By Laurie Magin

The recreational sports singles tennis tournament held this weekend drew more than 35 participants including a special wheelchair division.

"It's kind of a special event tournament," said Stephanie Siger, tournament coordinator.

The sports sponsors six events each quarter, and this is the first event of the fall quarter, said Siger.

The men's AB division drew 16 participants. Chris Dawson won the event, defeating David Clarke in the finals, while Jack Erntis finished third.

A round-robin was played in the Women's AB division, with Robin Glaye becoming the overall winner. Gina Costello triumphed as the winner in the women's CD round-robin.

The Men's CD division winner was Ken Pappas. Thomas Hong finished in second place, and Al Blake finished third.

Four participants were included in the wheelchair division. Chuck Rorabaugh won the round-robin draw.

Rec Sports will be sponsoring a racquetball tournament Saturday. Sign-ups will be held in the rec sports office until 4:00p.m.

Champions corner to meet weekly

The staff dining room will open its doors every Tuesday at noon for a new lunch hour gathering called Coaches' Corner.

All coaches involved with a Fall intercollegiate athletic program will be present to discuss their completed and upcoming games, events, matches or special sports occasions which involve their athletic teams.

"We want to let the students of Cal Poly know that they are welcome to spend one lunch hour a week at Coaches' Corner to get to know the coaches and learn more about what's going on in the Fall sports," said Don McCabe, public affairs officer. "It's more of a social get together than a luncheon."

Coaches' Corner will be held in section B of the staff dining room, and people attending can purchase lunch in the staff dining room.

THE NUCLEAR NAVY. RIDE THE WAVE OF THE FUTURE.

You're deep under the sea.

There are thousands of nuclear powered submarines around you. Your mission is to prevent war.

Your sub is too midget a practice monkyard to do it. Everything about the submarine is designed to make war. You're part of that success and now you're riding high.

In the Nuclear Navy, you learn quickly. Over half of Americans make up the crew.

And that you can't afford to spend much time on the range. You need to be up on your game.

We have six events each quarter, and this is the first event of the fall quarter. The recreational sports singles tennis tournament drew more than 35 participants including a special wheelchair division.

"It's kind of a special event tournament," said Stephanie Siger, tournament coordinator.

"We've not had success in Yugoslavia at this moment, al-
though discussions have con-
tinued," FBI Director William
H. Webster acknowledged.

Abbas, also known as Abul
Abbas, is close to Palestine
Liberation Organization chair-
man Yasser Arafat and heads a
wing of the Palestine Liberation
Front, one of the most violent
factions in the PLO. He has
denied that he was involved in
the hijacking, in which an Amer-
ican, Leon Klinghoffer, 69, of
New York City, was killed.

"We'll pursue Mr. Abbas as we
would any other fugitive. He is
an international criminal."

The administration last Friday
got a federal judge here to issue
a warrant for Abbas' arrest,
charging that the PLF official
violated U.S. laws in connection
with the hijacking and the taking
of hostages.

"I'm not at liberty to discuss
the contents because the (court)
writs have not been made
public," Webster said on AB(!!'s
"Good Morning America." But
he said "the facts of the writ
have been made public."

We'll pursue Mr. Abbas as we
would any other fugitive. He is
an international criminal."

Attorney General Edwin
Meese said "there is no safe
haven as far as we're concerned," he said.

The adminisuation last Friday
got a federal judge here to issue
a warrant for Abbas' arrest,
charging that the PLF official
violated U.S. laws in connection
with the hijacking and the taking
of hostages.
