**Ongoing asbestos cleanup may pose exposure hazard**

By Jerry McKay

Arch-conservative talk show host Wally George appeared Thursday before a packed and rowdy Chumash Auditorium, saying the Soviet Union is an evil empire out to conquer the world. He endorsed the Star Wars program, saying it must continue before the United States does, the United States will be at the mercy of the Soviet Union. "If we give up Star Wars, there will be a Russian flag flying over the White House one day," he said.

George said Richard Nixon was one of our great presidents, and that "the vultures in the news media drove him out of office over a stupid pimple called Watergate."

Fall conference a success

By Sandra Coffey

Students and members of The Society of Black Engineers joined at Cal Poly over the weekend for their fall regional conference to plan development strategies and to update members on the latest industry advancements, a member of the society said.

Chapters from college and university campuses across the West Coast gathered at Cal Poly for the three-day event to conduct technical workshops, listen to guest speakers and interact with companies such as Hewlett Packard and IBM, which were represented at the conference, said Blaine McFadden, a mechanical engineer.

IN QUOTES

All religions must be tolerated, and the sole concern of the authorities should be to see that one does not molest another, for here every man must be saved in his own way.

— Frederick the Great
Double dealing

The reports concerning President Reagan's arms deals with the Iranians get more sickening all the time. And Reagan's defense of his actions is nearly impossible to fathom. As one British leader put it, Reagan's explanation is "stupefyingly incredible." Setting arms to Iran. Think about it. Is this the same Iranian government that held U.S. officials and embassy workers hostage for over a year? Is this the same Iranian government that has been involved in a vicious war with Iraq in the dangerously volatile Middle East?

Reagan's arms to Iran. Is this the same Reagan who reviled Jimmy Carter for even talking with the Iranians during the Teheran hostage crisis? Is this the same Iranian government that held U.S. officials and embassy workers hostage for over a year? Is this the same Iranian government that has been involved in a vicious war with Iraq in the dangerously volatile Middle East?

Hasenfus pardon is doubtful

MANAGUA, Nicaragua (AP) — Justice Minister Rodrigo rejected on Sunday the possibility of pardoning American Eugene Hasenfus, who drew 30 years in prison for his part in a weapons delivery flight to U.S.-backed Contra rebels.

"There is no reason to pardon him," Reyes told The Associated Press by telephone one day after a political court handed down the verdict and the sentence. "The Nicaraguan penitentiary system will guarantee that he fulfills his sentence."

Earlier remarks by President Daniel Ortega had fed speculation that Hasenfus, 45, of Marinette, Wis., might eventually be pardoned.

Ortega has not commented on the case since the American mercenary was convicted and his stand on a possible pardon is not known.

Reyes, chief prosecutor in the case, said, "If a pardon is applicable, I am sure there will be a rejection by the population and the authorities would have to explain that step very well."

Pro-government newspapers on Sunday billed the verdict against Hasenfus as a conviction of the United States as well.

Philippine union calls strike

MANILA, Philippines (AP) — Thousands of demonstrators marched through downtown Manila on Sunday denouncing Defense Minister Juan Ponce Enrile's dismissal of a labor union's demand for a general strike for Monday in Manila.

Defense Minister Juan Ponce Enrile, and a labor official told Associated Press by telephone one day after a political court handed down the verdict and the sentence. "The Nicaraguan penitentiary system will guarantee that he fulfills his sentence."

Pro-government newspapers on Sunday billed the verdict against Hasenfus as a conviction of the United States as well.

Terrorists bomb IBM facility

HEIDELBERG, West Germany (AP) — A bomb explosion heavily damaged an International Business Machines Corp. research center on Sunday, but caused no casualties, police said.

The bomb erupted at about 4 a.m. and damaged the facade of the four-story building and equipment inside, officials said. West German television said the homemade device was placed on a second-floor balcony.

In a letter found nearby, a group calling itself the Hind Alameh Fighting Cell claimed responsibility for the attack.

George

From page 1

George said that finally justice can prevail in California because Chief Justice Rose Bird was voted out of office. He said Rose Bird claims she denied so many death sentences because the cases were flawed. "I say the only thing that was flawed was her brain," said George.

Attacking the immigration law recently signed by Reagan,

"If you're here illegally, get the hell out of the country!"

— Wally George

George said illegal aliens are taking jobs from American citizens. "These liberal wimps try to tell us the illegal aliens are good for America," he said. "If you're here illegally, get the hell out of the country!"

George strongly denounced homosexuals, saying they are primarily responsible for the AIDS epidemic. "I've got the perfect answer," he said. "Let's round 'em up and put 'em on Alcatraz. Give 'em their own little island and let 'em go wild. We could paint Alcatraz shocking pink. They'd love it!"

"I'm in favor of mandatory drug testing," said George. "Except, of course, for college students."

Often well known for sharp verbal confrontations with guests on his talk show "Hot Seat," George describes himself as a very intense person, and says he has been very conservative all his life. "Everything I say I really feel very strongly about," he said. "Whatever I say on the air I truly believe or I wouldn't have any credibility."

If we give up Star Wars, there will be a Russian flag flying over the White House.

— Wally George

George said that of the college campuses he goes to, 90 percent of the audience totally agrees with everything he says. "I'm totally amazed at it," he said. "They give me a little trouble on the drug thing. I'm sure a lot of kids smoke pot now and then. So when I get into the drug issue, they give me a little trouble."

When I get into the drug issue..."
CONFERENCES

From page 1

engineering senior and society member.
McFadden said companies conducted workshops to provide information to students about jobs and answer questions about co-ops and other student concerns. About 200 students and speakers participated in the conference.

Dr. R. Rishidi, history editor for National Black Computer Network, was one of the guest lecturers at the conference. Rishidi spoke about the history of blacks and their contributions to the world. Rishidi expanded on the point that Egypt was originally founded by people of African origin. When asked how he felt about being a part of the fall conference, Rishidi said he was honored and pleased.

"I'm happy to be here with young black scientists who will shape tomorrow and who are already doing it today," Rishidi said.

Willie Coleman, the only Cal Poly professor to speak at the lecture, talked about the effect of higher education on women, and in turn, how that affected their relationships with men. "Women's Rap/Social," was the title of Coleman's lecture, but McFadden said, "there were just as many men in there as women."

Carla Jones, vice president of the Cal Poly chapter of NSBE, explained that the Cal Poly chapter of NSBE was expanded to include students from science so the group could gain a greater membership. Jones said four years ago the group had only 10 members, but now the group has about 40 members. Jones said the group is expanding because events such as the fall conference are making students and faculty more aware of the society. Jones said she feels the society is beneficial to its members because it gives them a sense of professionalism and motivates them for future careers.

Jones said she has already worked at a technical company in Boston for a summer and has received many job offers. Jones attributes her success with companies to exposure she's received by being a part of the NSBE.

Eric Carriere, a Cal Poly chapter member, said the theme of this year's conference was "caring about our past, and building our future." Carriere said a goal of the conference was to give blacks an understanding of their past. "Your parents raise you up to be confident about your past, but if you don't have a past to be confident about ..." he said.

Carriere explained that the lectures by two guest speakers on black history were beneficial to society members because it gave them background information on their ancestry.

The NSBE chapter at Cal Poly (SBES) helps its members succeed at the university with the use of study groups and support meetings, Jones said. The chapter was formed at Cal Poly in 1974 to ensure the academic, social, personal, and financial success of black engineering and science students.

Carriere said the conference seemed to be a success, and many companies complimented the university chapter for its hard work.

ASBESTOS

warning sign, acknowledging asbestos contamination was placed on the tunnel door.
On Nov. 13, 1986 a Mustang Daily reporter went in the utility tunnel under the Science Building and saw several piles of a white material that looked like asbestos. A sample was taken to Ed Naretto, and he confirmed that the material is asbestos. He said the contractor has been told to come back and clean up the asbestos. Thus, 11 months and $15,000 after the initial citation, the workers and the piles of asbestos wait for cleanup.

Poly miscues result in loss to SUS, 43-33

BY ELMER RAMOS

When a football team wins a big upset, it often plays with little emotion in its next game. But in the case of the Cal Poly football team Saturday, there was no emotional letdown.

Instead, physical miscues led to the Mustangs' demise. Despite Poly's spirited fourth-quarter rally, Southern Utah State held on to win an offensive shootout, 43-33.

"There was no letdown, just lots of mistakes," said Poly head coach Jim Sanderson. "There were penalties on defense that kept their drives going, and the offense turned the ball over."

The Homecoming game loss, which comes on the heels of the Mustangs' upset victory over conference-leading Sacramento State, drops Poly's record to 4-5 overall and 2-3 in the Western Football Conference. Southern Utah, a first-year member of the conference, improves to 8-2-1.

Poly came to life in the final period, Heath Owens and Adam Grosz caught touchdown passes to cut the Southern Utah lead to 35-27 with 10 minutes remaining.

Another Southern Utah touchdown appeared to dampen any thoughts of a comeback, but the Mustangs fought back tenaciously. Poly's Cornell Williams bulled 3 yards for a touchdown and quarterback Robert Perez scored a two-point conversion to make it 35-33.

Southern Utah seemed to be headed for another score when Poly defensive back Eric Dick intercepted a pass in the end zone with two minutes remaining. The Mustangs then drove to their own 46, but the rally fizzled when Perez's underthrown pass was picked off at the Southern Utah 22-yard line.

"Their (Mustangs') effort was valiant, they didn't give up," said Sanderson.

Four of Southern Utah's five touchdowns resulted from Poly errors—a blocked punt, two fumbles and an interception. Despite the turnovers, the Mustangs' offense displayed an impressive passing attack. Perez, rolling out often to buy time, completed 21 of 34 passes for 311 yards. He tossed touchdown strikes of 23, seven and 25 yards.

Owens was the Mustangs' leading receiver, with five receptions for 77 yards. Grosz and Martin each grabbed four passes. Jim Oleod was the leading rusher, grinding out 66 yards on 16 carries.

Soccer club ambushed by Northridge Matadors

BY MICHAEL SEAMAN

The Matadors quickly proved that they were not to be taken lightly, scoring their first goal only five minutes into the first half. Poly did not let the goal go unanswered, as Kathy Waldel headed the ball into the goal off a corner kick to score 20 minutes into the first half. Northridge then proceeded to show Poly that they were not by any means finished scoring, as they put two more unanswered points on the board before half time.

In the second half, the Mustangs came out fighting, and rattled off three unanswered goals. The first of these came five minutes into the second half, when Waldel scored by heading the ball in off a corner kick for See SOCCER, page 6

Men's swim team falls in Bakersfield

BY PAMELA VARMA

The Cal Poly men's swimming team had a long drive to the meet at Cal State Bakersfield this weekend and had an even tougher time once they got there, losing badly to Bakersfield.

"We got our lunches packed by them," coach Bob Madrigal said. He said there wasn't even a final score because Bakersfield's electric scoring mechanism failed halfway through the meet and apparently no manual score sheets were kept.

The score wouldn't have made much difference, though, as Madrigal said Bakersfield not only had about 20 more team members than Poly, but their swimmers were stronger than Poly's. He explained that although he was not very pleased with the way his team swam, the team was very tired from having double workouts last week. The team will continue to work out twice a day until Thanksgiving break.

Two swimmers who showed good individual efforts were Troy Trobough in the 200-yard breast stroke and David Baker in the 100-yard freestyle. Although no Poly swimmers took first place in any event, Madrigal said there were a couple of second place finishes.

Poly was without Erik Rinde, a returning All-American who is ineligible until next quarter, but Madrigal said it probably would not have made much difference. "It was Bakersfield's first meet and their only home meet so they were really psyched," he said, adding that Bakersfield is far away the best team in the Division II.

Two team members who were previously unable to participate, Stephen Schiel, who cut his finger, and Michael Kingston, who was waiting for junior college transcripts, were able to compete.

Madrigal said that swimming is different from other sports because dual meets aren't as important as championship meets. He said that the men's team isn't too strong in dual meets, but that it usually does well in championship situation.

SOCCER

From page 5
her second goal of the game. Not to be outdone in the scoring spree, leading scorer Caryn McNamee scored off a Lisa Best pass 10 minutes later. McNamee scored again 25 minutes into the half, this time off a pass from Lisa Shipley. At this point, with the score 4-3, Saremi attempted to slow the pace of the game down so the Mustangs could hang onto the hard-fought game. Northridge had other ideas, and with just five minutes left in the game, the Matadors scored off a corner kick that tied the game and sent it into overtime.

With just two minutes left in the game, the Mustangs managed to fight off a 30-yard penalty kick just outside their goal. After a scoreless first overtime period, the game went into a second overtime, when Northridge was able to score the winning goal with just three minutes left.

After the game, Saremi said that he thought the team played very well, and probably played its best game of the year. However, he said Northridge was able to better capitalize on their scoring opportunities.

Northridge head coach Gary Wolfe commented, "Poly had some breaks in the second half, but we were able to get the breaks when we needed them. Our team was able to capitalize on the few corner kicks we had, scoring three goals that way."

SWIMMING

From page 5
The next meet will feature both the men's and women's teams at Claremont next Saturday. Madrigal said historically Claremont's women's team has not been very strong, but the men's team has beaten Poly each time they've met in the last two years.

Madrigal said after the Claremont meet, the team's short-term goal is to do well at the Northridge Invitational in mid-December. Cal State Northridge and Bakersfield, whom Madrigal called the two best teams in the country, will both be at the invitational, as will Cal State Los Angeles and the University of California at Riverside.

Rec facility designers narrowed to three

By Chris Barks

From 103 applicants, three architectural firms have been chosen for final consideration in the awarding of the design contract for the recreational facility.

Five firms gave presentations before the Architect Selection Committee on Saturday. The proposals included general information about each firm, as well as examples of their designs relevant to the recreational facility. However, no formal plans were submitted.

The Architect Selection Committee includes representatives from the University Union Advisory Board, the ASI Business Office and Recreational Sports.

Bretten Osterfeld, applied art and design senior and member of the committee, said the group was looking for a firm with a lot of enthusiasm for the project. He said “We’ve narrowed it down to the point where each of these firms is about equally qualified. They’ve all done some type of rec facility, so a lot of it is just based on personality.”

Another qualification the committee looked for was whether or not a firm had worked with the state on a project before. “Having to work with the state that knows how to deal with the state,” said Osterfeld. “We want a firm that knows how to deal with the state.”

After listening to the five proposals, the committee chose the firms of Dworsky Associates, Marquis Associates, and ELS to be recommended to Cal Poly President Warren Baker for consideration. Baker will review the proposals, after which the final decision will be passed to the Board of Trustees.

Construction of the recreational facility is scheduled to begin in the summer of 1988 and is expected to be completed in 1990. Students will fund about $5.1 million, with the state providing approximately the same amount.
