Mayor expresses concern with San Luis Obispo's costly planning studies

By Marianne Hinsott Staff Writer

When the San Luis Obispo City Council approved $30,000 for a study to plan the future of Laguna Lake, the mayor had enough. "There have been hundreds of thousands of dollars budgeted for studies," Mayor Ron Dunin said. "We are pushing expenses on the citizen... and spending like there is no bottom."

This isn't the first time a study has been done to plan the future of Laguna Lake. County studies seem to be a common tool to aid in city planning decisions, said Dunin.

"Laguna Lake just brought this to the floor," said an angered Dunin. "I'm beginning to feel very nervous about the consistent studies being done by the City Council."

He was the only member to approve the study of a master plan for the park. "I'm sick and tired of having master plans where they're gathering dust," Dunin said.

In the case of Laguna Lake, there was a master plan from 1961 to 1973 which focused on lake management, said David Romero, public works director. The plan included dredging as well as silt and pollution controls.

The plan was considered no longer valid by the council in 1973, he said, and they decided not to follow it any longer. "We have a good one we can change," he said.

ASI resolution calls for change in tennis court lighting system

Plant operations and UEC will split the cost

By Jason Foster Staff Writer

The ASI Board of Directors passed a resolution Wednesday night confirming that plant operations and the University Executive Committee will split the costs of renovating and paying the annual costs of the tennis court lighting system.

According to resolution 90-03, Plant Operations will pay the new system's utility and maintenance costs for the 1989-90 fiscal year, provided the UEC pays for the renovation.

Funding for the project will come half from the UEC budget and half from a possible grant from Pacific Gas & Electric. ASI estimates the total cost of the renovation at $30,000.

The lights were originally installed 20 years ago and maintained by the Dormitory Revenue Fund up through last year, said UEC chairperson Felice Marocco. "During the winter quarter of 1989, plant operations asked the DRF to renovate the system, but they decided they didn't want to pay for it anymore, since it was really being used mostly by Rec Sports. Plant Operations then approached us with this arrangement."

Marocco said that the UEC was planning beforehand on trying to pick up the costs of the lighting system because "it is a service to students," but they were not sure if they could handle it.

"We had three options," said Marocco. "Establish a user's fee to pay for the maintenance costs, try and pay for all of it out our budget, or not offer the service at all. Hopefully now, with this resolution, we've solved that problem."

Marocco added that once the new, more efficient lighting system is installed, they will be able to maintain it for the future of Laguna Lake.

Former SLO Democratic chair announces bid for Assembly

By Heather Dowling Staff Writer

A former chairman of the San Luis Obispo Democratic Central Committee announced Thursday that he will challenge Republican Assemblyman Eric Seastread's bid for re-election in the 29th Assembly District.

John Lybarger, a former chairman of the Orange County American Civil Liberties Union, was born in Anaheim and has worked on political campaigns since 1976.

Lybarger taught secondary school for 15 years and is now retired, but he does not find this a drawback.

"I'm 61 going on 40," he said.

Lybarger has an 18-year-old daughter, Tiffany. "I know what young people are... and I know the things they face," he said.

Education: key to war on drugs

Everyone knows that education can change behavior. Consider the recent experience with tobacco. The public health campaign about the dangers coupled with new prohibitions against smoking in public facilities have led to dramatic drops in cigarette consumption.

One example of how education has altered undesirable behavior is too numerous to mention, which is why it’s puzzling that William Bennett, the federal drug czar, chooses to minimize the value of education in keeping kids off drugs. Tough law enforcement and stiff punishment are the best deterrents for behavior are too numerous to mention, which is why it’s puzzling

The Red Menace is gone — so, let’s create another one. The Drug Menace, or the Japanese Menace or the Our Students are Too Dumb to Know Where the Mississippi River Empties Menace.

There has been talk about a peace dividend. Since the need for increased warheads and bombers will be passing, it is important to use the funds to improve our workforce and competitiveness.

The answers are found in the economic and educational front. The Japanese are heads and tails, cars and VCRs ahead of the United States. Some people would like to blame the problem on labor costs. But don’t believe the hype. The Japanese auto worker actually makes about the same as the American worker. The real discrepancy is in the amount of money paid to energy on labor.

The U.S. has battleground at home

Removing posters not the answer

Editor — I would like to comment on Theresa Brady’s reaction to the Delta Chi posters (Feb. 2). Admittedly, the posters may be considered threatening to some women, but they were not meant to be.

However, tearing them down doesn’t make sense. If the posters are in her dorm, the process of tearing them up will damage the reputation of the institution posting them. This would seem a more logical and desirable approach to ridding the world of those who are insensitive to your views. Tearing down posters under

Ventura County man in jail for alleged threats to police
NEWBURY PARK, Calif. (AP) — A man angry about the way authorities handled the case surrounding his son's death allegedly threatened to kill a Ventura County prosecutor and an assistant sheriff, officials said.

Charles Flores, 47, was arrested after he allegedly threatened to kill a Ventura County prosecutor and an assistant sheriff, officials said.

Flores was arrested after he allegedly threatened to kill a Ventura County prosecutor and an assistant sheriff, officials said.

UC regents file lawsuit against drug company
SAN FRANCISCO (AP) — The University of California regents filed suit against Eli Lilly & Co., alleging the pharmaceutical giant infringed on its patent covering production of genetically engineered insulin.

The suit, filed Wednesday in U.S. District Court, is the first ever filed by the state university system that claims infringement of a biotechnology-related patent.

The university holds more than 100 patents in that field.

Lilly's human insulin, sold since 1982, was the first major drug to be produced by the biotechnology industry. It was developed and licensed exclusive to Lilly by Genentech Inc.

Genentech, based in South San Francisco, continues to collect royalties on sales. The company was not named in the suit UC.

A spokesman for Lilly said Thursday that the company would not comment until their attorneys see the case.

Since the patent was issued in 1984, UC lawyers said they had tried to negotiate a royalty payment from Lilly, the eighth-largest drug company in the world, based in Indianapolis.

But those talks reached an impasse last summer because Lilly contends the patent isn't valid, said UC attorney Allen Wagner.

The patent, issued to four UC San Francisco professors, covers the use of gene-splicing techniques to produce pro-insulin, a protein used in the process of making genetically-engineered insulin.

ATTENTION: TRANSIT RIDERS!
SLO TRANSIT CHANGES
ROUTE 4 SCHEDULE

As a result of a decision made last Friday to change the County’s Regional Transit Contractor, at the present time the City’s SLO Transit service has only one bus available to provide "tandem service" to accommodate the large number of students using the system during morning peak hours (as opposed to two buses). To meet the needs with a single bus, it is necessary to change the departure time for one of the two buses which previously departed from the Route 4 Ramona stop at 7:48 a.m. Instead, effective immediately, buses will depart as follows:
• First Bus – 7:30 a.m.
• Second Bus – 7:48 a.m.

To take the pressure off the 7:48 bus, students are encouraged to use the 7:30 a.m. bus, if possible. The earlier departure time is necessary in order for the "tandem bus" to complete Route 4 and be available at City Hall for the two Route 1 tandem runs at 8 a.m. and 9 a.m. If you have any questions, please call 549-7123. We apologize for any inconvenience which may have been caused by this abrupt change.

Sports Calendar

Friday, February 9

• Men's Basketball — The men will travel to UC Riverside to take on the Highlanders, who sport a 6-2 conference mark.
• Softball — The women will be in Sacramento on Friday to take on the Hornets in the second game of a four-game road swing.
• Gymnastics — The lady gymnasts will be in Berkeley on Friday to compete against Division I UC Berkeley, UC Santa Barbara and Boise State.

Saturday, February 10

• Men's Basketball — The men will head into Cal Poly Pomona on Saturday. The last CCAA win for the Mustangs was against the Broncos at home, 106-94. Pomona is 2-4 in CCAA action.
• Women's Basketball — The women will also face off against the Broncos. The lady Broncos are on top of the CCAA with a perfect 7-0 conference mark, while the Mustangs will carry a 2-3 conference record into the weekend.
• Baseball — The defending national champions will play their home opener against San Francisco State. The doubleheader will begin at noon at Sinsheimer Stadium.
• Softball — The women will close out their weekend road trip with a game against against San Diego State. Game time is 7:30 p.m. in Mott Gym.
• Crew — The crew team will open the season in Morro Bay with the alumni regatta.

Sunday, February 11

• Baseball — The team will close out the weekend with another game against San Francisco State. Game time is 1 p.m. at Sinsheimer Stadium.
• Softball — The women will close out their road trip with a game against CSU Hayward.
• Men's Tennis — The men will be on the road this weekend playing against CSU Hayward.
• Women's Tennis — The women will open CCAA action this weekend against Cal Poly Pomona. The matches begin at 11 a.m. at Pomona.

Monday, February 12

• Men's Tennis — The men will be at home on Monday to face off against UC Berkeley on Friday to compete against Division I UC Berkeley, UC Santa Barbara and Boise State.

Tuesday, February 13

• Men's Basketball — The men will take on Santa Monica College. The game begins at 10:30 a.m. in Mott Gym.
• Men's Volleyball — The Cal Poly ultimate frisbee club will take on UC Santa Barbara. The scrimmage will begin at 11:00 a.m. in Mustang Stadium.

Wednesday, February 14

• Women's Basketball — The lady gymnasts will take on UC Santa Barbara and Boise State to take on the 49ers.
• Lacrosse — The lacrosse club will play in UC Irvine.
• Men's Volleyball — The men will be at home on Wednesday to face CSU Hayward. Game time is 7:30 p.m. in Mott Gym.
• Men's Tennis — The men will travel to UC Irvine for a game against the San Jose State club. Game time is 2 p.m. at UC Irvine's tennis courts.

Thursday, February 15

• Men's Basketball — The men will travel to UC Irvine to take on the Steamers. Game time is 1 p.m. at UC Irvine's Segerstrom Stadium.
• Women's Basketball — The women will open CCAA action this weekend against UC Berkeley. The game begins at 11 a.m. in Mott Gym.
• Men's Tennis — The men will travel to UC Santa Barbara for an invitational meet.
• Women's Tennis — The women will continue their four-game road swing.
• Rugby — The rugby club will travel to Long Beach State to take on the 49ers.
• Men's Volleyball — The men will travel to UC Berkeley on Friday to take on the Cal Poly ultimate frisbee club. Game time is 7:30 p.m. at UC Berkeley's tennis courts.
• Men's Tennis — The men will travel to UC Santa Barbara. The match begins at 11 a.m. at UC Santa Barbara's tennis courts.

Friday, February 16

• Men's Basketball — The men will head into Cal Poly Pomona on Saturday. The last CCAA win for the Mustangs was against the Broncos at home, 106-94. Pomona is 2-6 in CCAA action.
• Women's Basketball — The women will be at home on Saturday to compete against the San Jose State club. Game time is 7:30 p.m. in Mott Gym.
• Men's Basketball — The defending national champions will begin their four-game road swing.
• Women's Basketball — The women will open the 1990 campaign at two different meets. Part of the squad will be at Occidental College, while others will travel to UC Berkeley for a meet against San Diego State and the 49ers.
• Gymnastics — The ladies will be at Stanford University for an invitational meet.

Saturday, February 17

• Women's Basketball — The women will open CCAA action this weekend against UC Berkeley. The game begins at 11 a.m. in Mott Gym.

Palm Street Parking Structure Art Project

The City of San Luis Obispo is seeking artists from San Luis Obispo, Santa Barbara, and Monterey Counties to submit proposals for a mural or sculpture for the south wall of the Palm Street Parking Structure. The Palm Street Parking structure is located at 842 Palm Street, between Monro and Chorro Streets, in the City of San Luis Obispo. The Palm Street Parking structure is located at 842 Palm Street, between Monro and Chorro Streets, in the City of San Luis Obispo. The materials used for design should be durable, easy to maintain, and compatible with the Parking Structure's design. Approximately $9,000 is available for the art work.

Interested artist are encouraged to submit proposals, along with a resume and slides which show examples of work already completed, to the City of San Luis Obispo by March 1, 1990. Additional information and Request for Proposals can be obtained by contacting Debbi Hossli at (805) 549-7123.

STUDIES

From page 1

He said rather than revise an old plan, new plans are always being created about every five to ten years.

"Personally I'm impatient... there are way too many planning studies," Romero said. "They plan us to death."

Dumin said he is concerned that after paying to conduct "studies galore," "nothing is being done with them. He said that professionals do not need to be hired to gather information, feed it into a computer and come up with an evaluation.

He suggested the council use See STUDIES, page 8

ASSEMBLY

From page 1

include the sick needing proper medical care, an overtaxed middle class needing a tax break while the rich are being under-taxed, the homeless needing shelter, and workers needing adequate wages.

Lybarger also includes "children who need better child care and better education and better protection."

A second area of concern is the environment, which includes land, resources, animals and recreational facilities.

"We're all disadvantaged that those things are being destroyed for us," he said.

According to Lybarger, a third concern is a disadvantages electorate. "We don't have a working member in the assembly in Sacramento," he said.

Lybarger said he wants a government of the people and "we're the people."

"We should have somebody in Sacramento who represents us, and, by golly, I am one of those people to represent you," he said.

Lybarger is confident he will win against Seastrand in primary elections on Jun. 5. Seastrand will be running for a fifth term in office.

"Eric Seastrand, clean out your desk, we're coming," Lybarger said.

A lighting system presently costs between $6,000 and $10,000 in utilities and maintenance every year, Marocco said.

Marocco didn’t have a definite idea when the new system would start to be renovated.

The resolution also says that Rec Sports will implement a new light card system that will ensure proper usage of the courts by students, faculty and staff. Under the current system, too many people have easily obtained light cards that enable them to use the courts without authorization, said Ellen Sanders, chairperson of ASI’s Board of Directors.

"People go to Rec Sports and check out a light card," said Sanders. "They say they lost it and pay the $5 fee. Then they keep the card so they can play free for the rest of the quarter."

"One could guess there are tons of light cards out there in the community, and the system hasn’t been recalibrated for 10 to 15 years," said Marci Snodgrass, Recreational Sports Coordinator. "Under the new system we’ll re-key everything so all the old cards will be null and void."

local resources like Cal Poly before they consider paying for outside assistance. He said that while other cities and counties use Cal Poly faculty and students to aid in research and studies, the council will not utilize the resources in its own backyard.

Zeljka Bilbija, a city and regional planning lecturer at Cal Poly, said the department has already helped several cities on the Central Coast. She said she is not aware of San Luis Obispo involving Cal Poly in planning projects in the four years she has taught at the university.

Recently, Pismo Beach gave the School of Architecture $15,000 to help them update their city plan. City and regional planning students are developing the plan within nine months, and will charge the city for their basic expenses.

Bilbija said students provide a labor force for extremely time-consuming work that is very expensive in the professional field. Romero said the city has not consulted Cal Poly because students don’t have the background necessary to do a study.

Bilbija replied, “Of course they don’t have the experience. But they have the most important thing — enthusiasm, ideas, and enthusiasm they’re doing. They bring something that money can’t buy.”

During the meeting, Councilmember Penny Rappa said she would rather go out to the professional consulting community for assistance.

Bilbija said professional consulting is safer, but perhaps the council is not aware of the advantages of using student help. “This is the best way to combine the resources we have — to give students responsibility and to lower the cost (for the city),” Bilbija said.

Councilmember Jerry Reiss said he doesn’t like spending $50,000 on a study. He added that the council will make sure the consultants will not just stick information in a computer and pull something out.

To leave Laguna Lake without a master plan would mean it could not be developed, it could not be fully utilized by citizens and it could not attract useful facilities, said John Dunn, city administrative officer.

"It’s a very high cost to the community not to have a plan,” Dunn said. “(That money) will give us a professionally prepared master plan, which is better than not having one."
