Feinstein visits San Luis for downtown rally
Candidate speaks to crowd of 400

By Carolyn Nielsen
City Editor

Dianne Feinstein's logic dictates that the U.S. Senate should be representative of the people. "And yet we have two women and 98 men in the Senate of the United States charting the destiny of this country," Feinstein said at a Saturday afternoon rally in San Luis Obispo. "Two percent is excellent for the fat content in milk, but it isn't so good for women's representation in the Senate of the United States."

Feinstein, a candidate for the U.S. Senate, spoke to a sign-waving crowd of about 400 people on the steps of the San Luis Obispo County Government Center. She was accompanied by House candidate Gloria Ochoa and State Assembly candidate John Ashbaugh.

Feinstein, who is running against Republican John Seymour for the seat vacated by Governor Pete Wilson, criticized President Bush's "trickle-down" economic policies, which she said "just haven't worked."

According to Feinstein, Bush's policies have allowed upper income earners to increase their share of the "income pie" by 87 percent. Meanwhile, the lower class has seen its earnings decrease by 10 percent and the middle class has seen reduced upward mobility, she said.

"The rich got richer, the poor got poorer, the middle got squeezed," Feinstein said.

"I'm convinced that it's not just one of us, it's a team for change that's necessary," Feinstein said. "That's why it's important to have Gloria Ochoa, Barbara Boxer and Dianne Feinstein in the Congress."

California has never elected a woman to the U.S. Senate, but polls show both female candidates are ahead of their male opponents.

According to a recent Field Institute poll, Feinstein is leading Seymour by 20 points. In the same poll, fellow Democratic Senator candidate Barbara Boxer held a 23-percentage point lead over Republican Bruce Herschensohn.

Boxer and Feinstein both support the Women's Health Equity Act, which passed in both houses of Congress this year, but was vetoed by President Bush. The bill would have allowed fetal tissue to be used for medical research. "He said if you let fetal tissue be used, a woman is going to be more likely to have an abortion," Feinstein said. "How little he must love us."

Feinstein told the crowd she favors the Freedom of Choice Act which would Roe v. Wade, the case that legalized abortion.

In this election year, dubbed the "Year of the Woman," Feinstein said she is one of many candidates running because "it's a team for change that's necessary," Feinstein said. "That's why it's important to have Gloria Ochoa, Barbara Boxer and Dianne Feinstein in the Congress."

Feinstein shakes hands with a young supporter after arriving at the SLO Airport.

Feinstein opens up on education

By Peter Hartlaub
Editor in Chief

Senatorial hopeful Dianne Feinstein's van headed down Grand Avenue and made a left turn onto the outside perimeter of the campus. As the campaign vehicle drove past the University Union, she stopped looking out the passenger window, turned around and delivered her verdict.

"It looks like you have a really nice school here," she said during the quick tour of Cal Poly, just minutes before her 3:45 p.m. speech.

In an exclusive Mustang Daily interview, Feinstein addressed the problem of education in California and what a Senator can do to help.

"The state universities are all funded by the state," Feinstein said. "But the state has a huge budget deficit fueled by a poor federal economy."

"Over the next few years, we need to see a major federal initiative as a way to improve education everywhere," she said.

Feinstein says the economy is the problem, but education is one of the focus points in her platform as well. In a written proposal, Feinstein stated, "As a U.S. Senator from California, I will propose a National Educational Profficiency Act to set a level of proficiency a student must achieve in the solid subjects and institute nationwide testing."

"Skyrocketing tuition is putting college education beyond the reach of the average Californian," she stated. "University of California, Davis, is an effort by both to use student-centered strategies to continue to operate."

The proposed program, a joint venture between the San Luis Obispo Police Department and ASI, is an effort by both to use students as intermediaries between community complaints and the police department. Ideally, student intervention usually in noise complaints — would abate police involvement altogether, according to program officials.

The SNAP program has been in the conceptual stage for two years, said Police Captain Bart Topham. Discussion by board members Wednesday focused on just how much "policing" the students would do. According to the bill, student patrols would be the first to respond to "specified student-related calls for service."

Students would also conduct "safety patrols in and around student housing areas, and provide a variety of student-oriented crime prevention services."

The program would put two teams of two students each on duty from 9 p.m. to 3 a.m., Wednesday through Saturday nights while Cal Poly is in session.

When the student patrols are not responding to first reports of noise complaints, "SNAP members (will) patrol the parking and student housing areas, and provide a variety of student-oriented crime prevention services."

Audit says bowling alley in the red, Board of Directors may decide fate

By Maria R. Van Schuyver
Staff Writer

An audit made public at last Wednesday's ASI Board of Direc­tor's meeting indicated the bowling facility in the University Union lost over $42,000 last year.

"The program was basically good. On the whole, ASI has nothing to lose and a lot to gain," the proposed program, a joint venture between the San Luis Obispo Police Department and ASI, is an effort by both to use students as intermediaries between community complaints and the police department. Ideally, student intervention usually in noise complaints — would abate police involvement altogether, according to program officials.

The SNAP program has been in the conceptual stage for two years, said Police Captain Bart Topham.

"Mostly the changes involve new requirements for the bowling alley," said Police Captain Bart Topham.

"The changes involve new requirements for the bowling alley," he said. "But the changes involve new requirements for the bowling alley," he said.

The audit recommended several changes to the bowling alley, including the addition of a new manager and the implementation of a new management system.

"We're looking into doing that," said Police Captain Bart Topham. "We're looking into doing that."
Bush takes risk with veto of cable TV regulation bill

WASHINGTON (AP) — Of three dozen bills President Bush has vetoed, none is more loaded with potential political peril than his weekend rejection of re-regulation of cable TV rates.

Behind in the polls and accused by Democrats of callousness to the hardship caused by a poor economy, Bush is gambling that he can prevail in Congress and persuade the voters that the bill was a misguided effort to curb cable rates.

The president has won every veto showdown so far, and White House strategists fear that a defeat now would be viewed as a sign of weakness with the election a month away. To forestall that, the president invited a group of Republican senators to the White House on Sunday.

But if elections are decided on pocketbook issues, this one carries clout. The bill was drafted in part to respond to consumer complaints about spiraling prices, and its sponsors proclaim it loudly as an effective remedy.

The latest bill Bush vetoed would cap rates for basic cable service, open the door to competition from emerging programmers like home satellite services, and let broadcasters seek compensation for cable's use of their signals.

The measure initially passed the Senate, 75-24, and 280-128 in the House, in both instances more than the two-thirds support that would be needed to override the veto.

Firefighters say Eldorado blaze is near containment

CAMINO, Calif. (AP) — Firefighters neared containment Sunday of a Sierra Nevada wildfire that scorched nearly 25,000 acres of timber, destroyed 40 homes and led to the deaths of two people.

Fire crews surrounded 95 percent of the blaze by Sunday morning, said Jim Gaffney, a fire captain with the California Department of Forestry. Full containment was predicted Sunday night even though higher temperatures were expected during the day.

"We've gone from the 70s to the 80s daytime but it's not going to have a major effect... because we've got the perimeter pretty well extinguished," Gaffney said.

Experts predicted light wind, gusting only to 10 mph. Officials on Sunday also planned to let some of the 5,300 firefighters from several agencies go home.

The fire started Tuesday in a campground 140 miles northeast of San Francisco. Since then, it has burned 24,600 acres and 40 homes and cabins and 22 lookout, barns and other outbuildings in the Eldorado National Forest and private land.

Damage was put at $245 million, most of it the loss of timber and estimated reforestation cost, Gaffney said. Cost of fighting the fire was put at $92 million but was expected to rise to $12 million, he said.

Fraternities finding new ways to entice rushers

Less students and no alcohol policy is forcing an image change for many

By Gabe Joynt
Staff Writer

The smell of a tri-tip barbecue wafts through the air. Greek-lettered signs adorn campus lawns. An unusual amount of clean-cut, blue-blazered, power-tied young men can be observed milling around campus dining locations after hours. It must be rush week.

But there's more to rush than steaks, subs, smokes and strippers. Interfraternity Council President Dave Jones said that he's noticed a change rush at some houses.

"When I first came here, the big parties attracted most of the people," he said, "but today's rush draws "a different type of person who's more informed and out to make an informed decision."

Although fraternities still live in the shadow of the "Animal House image," today's prospective fraternity member is looking for friendships, brotherhood, leadership and philanthropic opportunities, Jones said.

"A lot more houses are going towards philanthropy," he said.

"It sounds phony," Jones added, "until you actually look at the amount of work being done in the community by greeks."

Sigma Phi Epsilon President Paul Oliver said, "Greeks are scrutinized more than other organizations."

Oliver said that the "Animal House problem is 'understandable, and sometimes deserved.'""The media tends to project the faults of a few fraternities onto all."

Chris Mortensen, rush chair for Delta Sigma Phi, said his house was "trying to get as many guys out" to rush as possible when they planned a rush event with a stripper which drew 220 people.

"It's a form of entertainment," he said, "a way to get guys here."

Mortensen said with the recession hitting everyone, houses are getting more competitive, as fewer and fewer people turn out for rush.

Jones said this year's "free rush" policy brought in "a lot more people," but the reduction in new student admissions affected the amount of people rushing.

Enrollment Information Center battles budget crisis

By Krystn Shrieve
Staff Writer

Staff members at the Cal Poly Enrollment Information Center say they're doing everything they can to keep things running smoothly in spite of the budget cutbacks.

Academic Records Director Tom Zuur said his department has lost about $300,000 over the last few years due to the recession hitting everyone, as fewer and fewer people are able to access other options.

"We are still open every day from 8 a.m. to 5 p.m., but are meant a loss of more than 65 quarter," Zuur said. "The quarter goes by faster than you think.

"It's difficult to clean messes up at the end of the quarter," Zuur said. "It's much better if we take care of mistakes right away. All these changes should make the process more efficient."

In addition to the drop-only line and the extra week to list classes, students can also take advantage of new open class information. Students can also use their computers to check available classes. The Student Information System User (SISU) lists the open class information available over the Cal Poly News Network.

This means prior to accessing CAPTURE, any student can get information about which classes are open.

"The budget will be tight for the next couple of years, but everything we can do to better utilize our resources and computer systems would help a lot," Zuur said. "The quarter goes by faster than you think. Every minute counts."

CAPTURE drop-only number is 765-7688.

W.O.W. skits reveal diversity

In regards to Tom Pinkston’s commentary on Thursday, Oct. 1, in which he blasted the Week of Women on homophobia, I have three things to mention.

First, it really disturbs me when I see people accuse gays and lesbians of being homophobes. If we walk through the University Union, it is not the gays that are recruiting but the Christians. Or, how many gays have approached you at Farmers Market asking to attend their meetings... NOT.

Second, it might just be me, but when I think of WOW, I think of the Pink Triangle symbol. It is very naive to assume that Jews are the only people killed in concentration camps during WWII.

Finally, the whole point of the Week of Women is to promote the diversity on this campus and to promote the idea of tolerance. Gays and lesbians exist on this campus regardless of your sexual orientation. It is easier to accept everyone as who they are, not as a sexual orientation.

Poly loses 36-35 on field goal in final seconds

By John Cristofano
Staff Writer

In a high-scoring game that saw five lead changes, the Cal Poly football team came up six seconds and one point short of beating Sonoma State Saturday night in front of 4,170 at Mustang Stadium.

Sonoma's Tom Hatchet kicked a 32-yard field goal with six seconds left to complete a fourth quarter comeback and defeat the Mustangs, 36-35.

Cal Poly, whose record fell to 2-9 overall, led Sonoma State 30-19 with 11:15 remaining in the game.

Then behind a potential passing attack and the lethal foot of Hatchet, Sonoma ruined Cal Poly's bid to win its third straight game.

"I was really confident that I would make it," Hatchet said. "I had to," he added.

Cal Poly head coach Lyke Sytemich said he was disappointed with the loss, but satisfied with his team's effort.

"I said to them they played very hard out there tonight," Sytemich said. "But when we needed to get it done, we didn't do it.

Leading 33-33 with 1:56 left in the fourth quarter, Cal Poly freshman Joey Hoffman's punt was blocked, and the Cossacks took over on their own 44-yard line. Nine plays later, Hatchet kicked the winning field goal.

Hoffman was filling in for senior punter/place-kicker Tim MccOo, who sat out the game with an ankle injury. Junior Bob Thomas replaced MccOo as Cal Poly's place-kicker and had an impressive debut.

MccOo's replacement, his team's coach LeCharls Mcdaniel said he was pleased with Hoffman's special team's play, but disappointed by the blocking on the kick.

"I was really proud of the special team," McDaniel said. "Hoffman's been a little bit long (on the punt), but that happens. He's only a freshman. There's no blame on him, it's a 'we thing'."

Sonoma State head coach Tim Walsh said his team never gave up. They came away from the game 35-19 with 1:35 left.

"Bob Thomas filled in in a big way," Walsh said. "He's got a big-league leg, and he's going to be a great kicker."

Leading 10-7 with 10:49 left in the first half, Cal Poly quarterback Daryl Fortenberry lateralized to third-string quarterback "Charlie Hammond, who was lined up at wide receiver, "We were going to try for a 9-yard touchdown pass to Josh Nelson," Walsh said. "But he thought it was good for a pair of touchdowns, one a 9-yard run by quarterback Daryl Fortenberry and another a 7-yard pass from Fortenberry to Quentin Crosby."

Trailing 19-17 at halftime, Cal Poly scored 11 unanswered points to lead 28-19 after three quarters.

The Mustangs led 35-19 after freshman running back Corey Ziemba scored on a 10-yard run. Bowen carried 33 times for 210 yards in the first half, and led the team in rushing another 93 yards to give the Mustangs 309 rushing yards.

The Cossacks began their fourth quarter with a little momentum, with a 10-yard touchdown run by junior running back Johnny Mack, and Pol's defense held the Cossacks on a 45-yard touchdown pass from Fortenberry to Quentin Crosby.

"We made some critical mistakes mentally," Sytemich said. "They got on a roll and got hot at See GAME, page 6

Sonoma State football coach Terry Crawford said his team improved its record to 2-8 with the win.

"It was a great team effort," Crawford said. "We're starting to move forward.

There was, however, plenty of football left to play with two minutes remaining.

Cal Poly recovered an onside kick. See BIG PLAY, page 6

KASSIS scores two goals as Poly beats UCLA 7-0

By Kristie McCall
Staff Writer

Cal Poly received goals from six different players as the Mustangs defeated UCLA 7-0 in a non-conference women's soccer match at University of the Pacific.

"We played really well," said Cal Poly coach Alex Creutzer, whose team improved its record to 5-4. "We're starting to move the ball well on the ground.

Cal Poly outshot UCLA 16-10 with five of their nine shots on goal.

Victories over Dominguez Hills and Santa Clara are important in Poly's quest to make the playoffs.

Cal Poly's next home game is scheduled for Oct. 16 at 4 p.m.
BIG PLAY

From page 5 kick, but failed to move the ball. That brought about a Jury Huf- 
man punt which was blocked to give Sonoma the momentum it needed for the game-winning drive.

Said Scioneich: "There were so many ebbs and flows. I was just hopeful we'll get it rolling at the end of the game. They (Sonoma) got on a roll and got hot at the right time."

Cal Poly started on a roll when Chris Smith took the opening kickoff 44 yards.

Smith, who entered the game as Cal Poly's leading rusher but failed to see much playing time in the Mustang backfield Saturday, showcased his talents on a 56-yard return in which he zigzagged through his team-
mates and Sonoma players until Cossack Gerald Rankin tackled him at Sonoma's 11-yard line.

One play later, quarterback David Hainbruck tossed a touch-
down pass to Joe Wade and Bob Thomas booted the extra-point attempt through the uprights.

It was quite a change from a week ago where Tom McCook was unimpressive. An ankle in-
jury sidelined the senior kicker for Saturday's game.

Hoffman took over McCook's punting duties and the freshman averaged 32.9 yards.

He kicked a successful 23-yard attempt through the uprights on the stadium confines.

A Hoffman punt stumped Cossack Marcus Tyrono, who let the punt roll to Sonoma's 5-yard line before he decided to try and return it. But the ball rolled off Tyrono's fingers and into the hands of Cal Poly's Joy Wells at the Sonoma 7.

Fortenberry completed the 15-yard scoring play when Fortenberry found Marcus Tyrono, who let the punt roll to Sonoma's 5-yard line before he decided to try and return it. But the ball rolled off Tyrono's fingers and into the hands of Cal Poly's Joy Wells at the Sonoma 7. Mustang Corey Bowen scored two plays later.

The momentum continued Cal Poly's way when Mustang Joe Barilar intercepted a Fortenberry pass and returned it 43 yards to Sonoma's 10, setting up another blown touchdown.

Sonoma's defense key play was a down when the Cossacks allowed Cal Poly only 11 yards on 16 plays in the fourth quarter.

GAME

From page 5 the right time."

Cal Poly got the ball back after recovering an onside kick and tried taking time of the clock by calling three consecutive run-
ning plays which resulted in only three yards. With the momen-
tum switching to Sonoma's defense, the Cossacks received another boost when Myron Wil-
liams partially blocked Vallis' punt and gave Sonoma the ball at its own 44-yard line.

Sonoma's game-winning drive moved into field goal territory when Fortenberry found Marcus Tyrono for a 28-yard completion to the Mustang 19-yard line.

Fortenberry completed 15 of 41 passes with two interceptions for 204 yards. The Cossacks to-
taled 430 yards of offense to Cal Poly's 220.

Cal Poly travels to UC Davis on Saturday in the Mustangs' final non-conference game.
SNAP

from page 1 public areas of student areas of student housing locations," the bill reads.

Students, however, are not to take action in crime suppression activities, but are to work as the "eyes and ears" for the police by reporting suspicious or criminal activity, Topham said.

Pandering specifics for SNAP have not been finalized. It is known, however, that the city will be responsible for payroll and training costs and ASI will supply one vehicle, SNAP hats and windbreakers.

Additionally, the city has assumed full liability for the program, according to ASI officials.

Hubquist said the program is now in the hands of the students.

"Each director's vote represents what his or her constituents think," he said. "But if there's no misunderstanding of what the program is designed to do, then I don't see how it can't work."

From page 1 bowling alley posted a $42,322 deficit, has been recommended for review.

Auxiliary Services also runs Second Edition Copy Center and the Games Area, both of which were in the black.

"It's real hard for a bowling area with 10 lanes to compete with the big operations," Conway said. "The (bowling facilities) who make it are those who include food and alcohol sales."

Conway noted that a referendum to close the bowling alley came before ASI two years ago. The board voted then to keep it open.

From page 1
California and California State schools are increasing fees by record amounts, yet financial aid is almost nonexistent for a middle class family. We need to take a new look at helping middle Americans keep their dreams of education alive.

Also in her campaign literature, Feinstein supported the Start program, already in effect in parts of California.

Feinstein said that the program allowed young people a 40 percent better chance of getting a job by the age of 19.

Feinstein feels that a restructured economy will be the key to a better America.

"It doesn't work to prime the economy because if the banks don't lend money, it doesn't matter how low the interest rates are," she said in the Mustang Daily interview.

"I think we have to have a policy that includes tax incentives along with a fiscal policy to prime the pump. Retooling and redesigning are two ways of priming the pump."

Dianne Feinstein's visit was her first ever to Cal Poly, but she is no stranger to education in California.

Feinstein, a Stanford graduate and lifetime San Francisco resident, served as co-chair of the San Francisco Education Fund's Permanent Fund in 1984 and 1989. Feinstein says she has also spent time over the last three years visiting schools throughout the state and has concern for education as a whole, with elementary schools in particular.

In both her address to San Luis Obispo and her Mustang Daily interview, Feinstein's demeanor frequently switched from a feeling of concern for the state to a happy excitement at what was going on around her.

Feinstein feels that a restructured economy will be the key to a better America.

"I believe very deeply that women can play a role in the future of this country in the determination of a safe, fair and humane public policy," she said.

Feinstein said she is committed to improving education.

"The time has come to take our schools off autopilot," she said.

Calling elementary education the "Achilles heel" of American education, she outlined a two-part plan to improve funding for the system.

First, Feinstein said she wants a worldwide "build-down" of nuclear weapons.

Second, she said the United States should make its "well-to-do allies" pay for their own defense.

"We need to return those dollars home and we need to invest in them in America," she said.

Feinstein said her party's platform appeals to the populous.

"We're up in voter registration, we Democrats. People see what's happening. They want a change... We are the people in effect to lead this nation into the '90s."
