Massive death in India
Predawn quake kills 10,000
By Thomas Wagner
Associated Press

NEW DELHI, India — A major earthquake shattered the dawn on Thursday, collapsing mud and mortar homes onto sleeping families in villages across southern India. More than 10,000 died and many more cried for help from the wreckage.

Authorities feared the death toll would rise substantially in India’s worst quake in a half-century.

Many villages were leveled so quickly as the earth shook violently and opened crevices that people were crushed inside their homes while sleeping, news agencies reported.

“The rising sun created darkness for us this morning, swallowed up our villages and made our houses into tombs,” a survivor told a reporter.

Some survived when frantic rescuers heard them shouting for help beneath toppled walls and roofs or saw a hand reaching out from the wreckage, Press Trust of India reported.

Friends, neighbors and police strained to lift stone, brick and wood by hand to free victims.

The quake ripped through southwest India at 3:56 a.m. It was felt at least 400 miles from the epicenter and caused a wide swath of damage.

The death tolls given by state officials and news reports varied from 6,200 to 12,000, and all appeared to be based on

ASI President Marquane Pires has dubbed 1993-94 the “Year of Transition and Evaluation” for Cal Poly student government.

“I see ASI doing a lot of outreach — trying to assess the needs of the students,” Pires said Wednesday after the first fall quarter meeting of the ASI Board of Directors.

Part of the planned outreach is inviting a different organization or group of students to speak at the board meeting every week, according to Executive Vice President Louis Brown.

“This idea is to let those students have the floor,” Brown said. “Let them tell us what they do and how important their organization is to ASI.”

“We hope this will break down the stereotypes that ASI is unspeakable,” Pires said. “We’re students just like they are.”

Judge finds gay ban unconstitutional

Associated Press

LOS ANGELES — A federal judge on Thursday strengthened his earlier ruling that the Pentagon’s ban on homosexuals is unconstitutional by specifying that the military cannot discharge or alter the status of service members because of their sexual orientation.

U.S. District Judge Terry Hatter Jr. also warned that if the Defense Department is later found to be in contempt of his order there will be substantial sanctions, including monetary penalties at a minimum of $10,000 per day.

The amended order was issued after attorneys for Navy Petty Officer Keith Meinhold asked that the Department of Defense be held in contempt of Hatter’s November 1992 ruling that Pentagon policy calling for the discharge of homosexuals was unconstitutional.

In that ruling, Hatter also ordered reinstatement of Meinhold, 31, who was discharged last year after acknowledging on national television that he is homosexual.

Hatter said Thursday he wanted to amend the earlier ruling “so perhaps the court can see more clearly what is intended by this court.

The amended ruling specifically prohibits the military from changing the enlistment status, denying enlistment or creating or maintaining records on gays and lesbians. It also forbids the Pentagon from

AGENDA

Oct. 1

Friday

47 school days remaining in fall quarter.

Today's Weather:

Patchy morning coastal fog and low clouds, otherwise sunny.

Expected high/low: 84 / 54 Thursday's high/low: 80 / 53

Today

• 47 school days remaining in fall quarter.
• Last day to sign up for WPE and EPT/ELM — info: 756-2067
• Last day to drop classes
• Sierra Club full moon hike, Nipomo / 929-3647

Weekend

• Kogerfest '93 community-wide festival — Saturday
• AIDS Support Network Walk for Life — Saturday info: 541-4872
• Sierra Club Adopt-a-Beach cleanup — Saturday info: 781-3660
• Last day to register to vote in Nov. 2 election — Oct. 4 info: 995-1594
• Last day to add classes — Oct. 4

Oct. 5

• Transit Tuesday Fair, corner of Palm and Osos streets — Oct. 5
• Last day to request credit/no credit grading — Oct. 8 info: 756-6784
• American Association of University Women mini-convention — Oct. 9 / 434-0783
• Rec Sports 5K Fun Run/Walk and Women's Resource Fair — Oct. 14 / 756-1566
• Handel Oratorio Choir singers needed for Dec. 11-12 performance; first rehearsal Oct. 17 / 543-7239

UPCOMING

Full-time Cal Poly students who join The Golden 1 Credit Union and open a Student Pack Account during the month of October will get a FREE Golden 1 Sweatshirt!

No sweat! A $1 lifetime membership fee and a $25 deposit into your savings account is all it takes to become a member.

The Golden 1 offers a wide variety of financial services in addition to the money-saving Student Pack: The Student Pack of financial services includes:

• a Student VISA Card — credit in your own name, NO CO-SIGNER!
• a Checking Account with overdraft protection*
• an ATM Card — 24-hour access to your accounts

Come into The Golden 1 office at 852 Foothill Blvd., join today, open a Student Pack Account and take home your Golden 1 Sweatshirt. HURRY! FREE SWEATSHIRT OFFER ENDS OCTOBER 31, 1995!

*For students who qualify

Earthquake in India

**Earthquake:** At least 10,000 die as horrific quake strikes India

From page 1
confirmed statistics and estimates. By nightfall, the death toll was more than 3,000, said N. Raghunathan, chief secretary of Maharashtra, adding that more than 2,000 bodies had been recovered. He said 3,000 people were killed in each of two districts, Umarga and Killari, and that the total death toll was likely 6,000. State-run Deccan Chronicle raised the toll to more than 10,000 and said more than 12,000 people could still be trapped. The United Nations World Food Program later put the death toll at 12,000.

About 10,000 people were injured, Raghunathan said. Officials said they expected the death toll to rise sharply. Telephone, electricity and water lines were cut, and no reports were available from Latur, a city with a half-million people, 20 miles north of the epicenter.

The largest death toll—3,000—was reported from Umarga, 270 miles southeast of Bombay. Sixty percent of the town's buildings were destroyed, Raghunathan said. About 60 percent of the village of Killari, which has 10,000 inhabitants, was flattened, said senior police officer R.P. Wadhere in Bombay, the capital of Maharashtra. About 3,000 people died in Killari, Raghunathan said. Huge cracks opened in the ground, swallowing homes, witnesses said.

Umarga is 18 miles south of the epicenter, which is near Maharashtra's southeastern border with Madhya Pradesh and Andhra Pradesh states. Killari is 50 miles north of the epicenter.

In Karnataka state, south of Maharashtra, 13 people were killed in several villages, Press Trust of India reported.

Soldiers and policemen rushed to the remote areas of southwestern India, bringing stretchers, tents, medical supplies, earth movers, bulldozers and mobile hospitals.

Relief workers had trouble reaching some villages that recently lost their roads and bridges to heavy monsoon rains.

In shattered villages, crowds of people roamed through the debris, praying for lost relatives. The quake also awakened people in Bombay, Bangalore and Madras, up to 400 miles from the epicenter. No deaths were reported in the three major cities. Across southern India, people fled their shaking homes in panic.

More than 50 villages sustained heavy damage and casualties, officials said. Minor damage also was reported from towns and villages hundreds of miles away.

The International Federation of Red Cross and Red Crescent Societies on Thursday sent $86,000 in emergency funds to help. The Geneva-based federation consists of national Red Cross and Muslim Red Crescent societies worldwide.

The stricken region stands over a geological formation called the Deccan Plateau.

"The poor people get hit hard," Krishnan said. "Those who don't have a proper home get hit so hard. With the population so dense, you see a lot of people dying."

Another problem is that people in India don't plan for earthquakes.

"The buildings aren't earthquake-proof," Krishnan said. "They crumble down because they are not on good foundations. They are so close together."

Army officials said four medical teams reached remote areas and engineering units were equipped to set up drinking water points. Community kitchens were erected in the disaster zone.

"The question is, can they handle this tragedy?" Krishnan said.

Food science professor Kris Morey came from Maryland, the state where the quake occurred. But Morey's family lives in India.

Amy Covey's Big Deal

"Hey Wilford, did you hear Dolly Parton died last night?"

"No way, man!"

"Yeah, she was doing a handstand and suffocated! Hee, hee!"

I'd like to know: What is the "big deal.

I was nosing through a couple issues of that ever-so-muscley magazine, "Cosmopolitan," and happened upon a number of articles expressing women's bathing suit top, or the age-old socks-(or other reassuringly voluptuous. Frankly, I am confused.

In a Sept. 23 graphic, Mustang Daily identified the College of English as having 588 new students this year. This should have been 2,371.

The inflatable bikini top may not be such a great idea after all.

The whole protrusion takes up space that could otherwise be used for more productive thoughts.

Push-up bras, the new and innovative pump-up American counterparts in some cases. Some of the sex is good, some is just plain stupid, but for some it is an open-armed and in slow motion."

Somehow, I feel a little bit out of the man of her dreams. They run toward each other, open-armed and in slow motion like a scene from a movie. Romantic.

What was tough was getting into a leadership position," Fisher said of his team's chances for making the playoffs. "We can win every game we have left. We just need a lot of hard work.

This weekend, the Cal Poly football team plays CSU-Sonoma. Fisher said the team has revenge in mind after losing to Sonoma, 36-35, last year after they had a 35-19 lead.

"Sonoma is a talented team. They have a good offensive line and good receivers," head coach Lyle Setencich said. "I think our guys know how good Sonoma is, so there will be no letdown after the Chico game.

This Saturday's game will be at 7 p.m.

Mike Fisher Mustang quarterback

WHAT was tough was getting into a leadership position. It took time for the others to accept me as a player and a leader. When you come in, you have to show it to the people around you that you can play.

MUSTANG DAILY
A jubilant Meinhold said the order would allow him to return to his job as a sonar instructor at Moffett Field Naval Air Station without fear of persecution or reprimand.

"The Navy and the rest of the Department of Defense can go back to its job of defending the Constitution and the nation. No longer will the Defense Department have to fight any of its citizens including gays and lesbians," Meinhold said.

Maguire told Hatter that Meinhold also was given failing scores on evaluations and was told that he would be denied the opportunity to re-enlist.

Meinhold said after the hearing that in February he was told by an officer that his sexual preference would prevent him from being promoted. Subsequently he was not permitted to apply for promotion to chief petty officer.

POLY INDIANS
From page 3
northern part of India and the disaster is in the southern region.

"I am concerned when there are so many casualties," Moray said. "Ten thousand dead is a major disaster."

Moray said he was concerned about the population density as well. Maharashtra is as big as California, but has 20 million more people, Moray said.

Architectural engineering professor Satwant Rihal said the earthquake was centered in an area where construction is very weak, very poor.

"In 1967, they had an earthquake in a similar area and that was about the same effect," he said. "The kind of construction (there) is too weak to resist the shaking."

"A lot of mud, brick and rubble" are the primary ingredients in the country's shoddy homebuilding, Rihal said. "And that's the reason why the casualties are so high," he added.

Rihal, who last visited his native India in 1992 and maintains family ties there, was planning to spend Thursday night attempting to penetrate jammed phone lines to reach his nephew.

"These look like distant stories," he said. "But once you see the immensity, it really hits you."

**Santa Clara's loss; Poly's gain**

Transfer quarterback passes way into starting role

By Jeffrey Joe
Daily Sports Editor

When the University of Santa Clara decided to drop its football program, it uniformly aided the football program at Cal Poly. Ten former Santa Clara players became Mustangs last spring, including new starting quarterback Mike Fisher.

And, so far, watchers of Cal Poly football have been impressed by this young man who originally started his college career as a baseball player at Arizona State University.

"Mike has carried himself well," Petras said. "He looks like the type to be a leader. Right now his performance is very good. He's made the right decisions most of the time."

"I think he will do real well since he's only a sophomore," Petras continued. "He got two more years left with us.

That has not been lost upon his teammates either.

"I like the way (Fisher) came in and acted under control," said running back Brian Fitz. "He's real relaxed. I think he's doing a good job. The quarterback position is improved from last year because of him."

While his coaches and teammates praise him, Fisher remains critical of himself, saying he's going to do "just a little bit more than average. I have made a lot of mistakes so far,"

Mike Fisher: Running quarterback

He is particularly disappointed with the outcome of the UC-Davis game. According to Fisher, the key point of the game was his biggest mistake so far this year. When Cal Poly ran a 2-on-1 touchdown, they took a 20-19 lead and decided to go for two.

"I saw the open receiver and passed. I thought it was a little high and a little behind the receiver," he said. "Then, I hit the ground. When we get up, someone was running".

**Women’s soccer kicks No. 12-ranked UC-Davis out of national polls and reads for CCAA play**
