Protesters rally against ‘racist’ Proposition 187

By Yolanda Salley
Daily Staff Writer

The rally — which lasted for almost an hour — was organized by the Movimiento Estudiante Chicano de Aztlan (MEChA), an organization which represents Chicanos at Cal Poly. See RALLY, page 5

Students polled say yes vote on 187 may cause racial tension

and Jack Powers
Special to the Daily

A majority of Cal Poly students polled believe passage of Proposition 187 will increase racial tension and is the wrong way to deal with illegal immigration. If passed, Proposition 187 would deny public school and social services to illegal immigrants, including those attending state universities. It also requires school officials and medical personnel to report suspected illegal residents. Proponents say the measure would discourage illegal immigration, create jobs and save transportation fees for a statewide initiative they attended in Sacramento. The request has been discussed since mid-October. “This conference will be beneficial to the campus and the community,” said MEChA member and political science senior Jose Urquiza after the meeting. “(ASI) always talks about cultural diversity, as its time to put their money where their mouth is.”

The board voted down the request on grounds it failed to meet guidelines within ASI’s constitution. “You can’t make certain rules

込み合うライン

Proposition 187 is an initiative that aims to deny taxpayer-funded social services to illegal immigrants. If passed, it will prevent illegal immigrants from receiving medical benefits and public education. But many realize time is dwindling as the election draws nearer, and the marchers said they wanted people to understand the detrimental effects the proposition will have.

The nine-day search for 3-year-olds Michael and 14-month-old Alex, which stretched from Georgia to Seattle, ended where it began, in John D. Long Lake near where Smith told police a gunman forced her from the car Oct. 25 and drove away with the boys.

Hundreds of volunteers from the small town turned by the disappearances had combed the area. Divers had searched the lake several times during the past few days, and police cordoned off the area Thursday. The identities of the bodies in the burgundy 1990 Mazda was to be confirmed through an autopsy, Wells said, and Mrs. Smith was scheduled to be arraigned Friday.

He would not take questions and did not discuss a possible motive or how investigators were led to the lake where the car was found. He had been several reports before the news conference that Mrs. Smith confessed.

ASI Board rejects MEChA request for reimbursement

By Maxine Gigue
Daily Staff Writer

The ASI Board of Directors on Wednesday denied a request by Cal Poly’s MEChA Club to reimburse it for money spent travel­ ling to a conference on Chicano student issues.

The decision came despite objections from some MECHA members who saw it as cultural­ ly insensitive. MEChA — Movimiento Estudiante Chicano de Aztlan — is a club that represents Cal Poly Chicanos students. The ASI Board of Directors voted 7-4, with two members abstaining, to deny a $500 re­ quest to reimburse MECHA for

students not only to lend support to Democratic Congres­sional candidate Wal­ter Cappa but to urge students to vote on Nov. 8. Cappa is run­ ning for the 22nd Con­gressional District.

Stephenopoulos, clad in blue jeans and a dark turtled sport coat, told the attentive crowd the only way to make a difference in their futures was to vote in the Nov. 8 election. See VISIT, page 3

...and then they had for a group that is culturally diverse," said College of Business director Leonard Spoto. "It would be un- fair to the rest of the clubs on campus.

The contingency fund provides financial support to campus groups that are faced with unearmarked expenditures. One of the directors gave an example referring to money given to the rugby team in previous years to pay for hotel costs when they made the playoffs.

Because MEChA knew of the conference ahead of time, board members said, they needed to have gone through the correct parliamentary procedures in ad- vance, rather than request money during open forum.

Having not done so, MEChA was ineligible to receive the reimbursement through the con- tingency fund.

"If (MEChA) came to the board at the proper time, we could have pointed them in the right direction," said ASI Execu- tive Vice President Mike Aquino.

At the Oct. 19 meeting, the board recommended suspending the rule allowing the finance committee to at least review the proposal.

MEChA originally had asked the board for $3,000 to cover the costs of the entire conference. But the finance committee decided to lower the proposal to a possible maximum of $500.

"We're just looking for some kind of help coming from ASI," Urquizo said during open forum. After 30 minutes of debate on whether to vote on the proposal that evening or postpone it a week, the board decided to vote immediately.

"I didn't think they were looking at the real issue. It's always felt that ASI is very unapproachable and very insensitive to the needs of the campus."

Jose Urquizo
Political science senior

Tereso said that it would be unfair to spend the student's money without asking them first.

But many board members felt the Board should give ASI the money without asking them first.

"I think there is always the possibility of hidden agendas," said Tereso. "That the finance com- mittee had one — but there's al- ways the possibility."

But many board members felt the Board should give ASI the money without asking them first.

"I would think that ASI would be more sensitive to the needs of the students," said Urquizo.

Colleague of Liberal Arts Director Jerry Burge said he voted to approve the proposal because he felt the Board should give MEChA some sort of financial aid.

"People have a right to vote their conscience," said Burge, commenting on the final vote.

"But what is to be seen is when other clubs come in and ask for money."

Burge said there may be an issue of possible hidden agendas that should be considered and addressed.

"There is always the possibility of hidden agendas," said Burge. "Not that the finance com- mittees had one — but there's al- ways the possibility."

"You shouldn't be able to get
something for nothing,"
Every time undocumented residents buy something, they pay the same sales tax that legal residents pay. In addition, many undocumented residents pay income taxes and social security taxes through legitimate employers, and most indirectly contribute to the property tax base. 

Thus, to say that these people are getting a free ride is simply not true. I'm curious, what exactly does a suspected alien look like? This smacks of racism and will firmly ascribe the status of "second-class citizen" to all foreign-born people in this state.

In the end, though, this really boils down to a human rights issue. Can we, the voters of California, really decide to implement a policy that will cause permanent millions of good-natured citizens to be considered as outlaws? You see, these undocumented residents are really no different than we are. They left their countries-of-origin in search of a better life, with many of the same hopes, fears, and dreams that our ancestors had when they immigrated here. I can honestly say that I can’t blame these people for wanting something better for their lives, and I, a tax-paying citizen, am willing to sacrifice to subsidize these dreams.

Are you?

Len Simms is a human development senior.

Don’t use Jesus for racism

Newhere new. The color of His skin means nothing to me. Perhaps in any way you see fit. In my view, He will still be the Son of God, who preached love and forgiveness for all the people of the world. His message is all that matters.

The most basic principle in ending racism is simple. Teach that it is the importance of one's message, rather than the color of one's skin that truly matters. Unfortunately, you have attempted to do just the opposite.

Emile R. Bourquin

Electronic engineering junior

Stop looking for easy solutions (we can’t afford them)

Once again, the administration is looking for quick-fix solutions to bigger problem. The problem now appears to be that the school needs more money to offset yet another necessity.

The recent problems with the AIX accounts is the result of a lack of planning by good old Warren Baker. Baker wants to make Cal Poly a technological giant which can boast 24-hour access to computer services for all students. Unfortunately, there don’t seem to be any funds to make this happen.

Fearful of upsetting those who are already struggling to remain in school, he has decided to put that plan on the back burner. The next best thing then would be to build an infrastructure that would allow unlimited access to the latest technology buzzword, the Information Super-highway.

Don’t get me wrong, there are tremendous opportunities here; however, let’s stop and ask one important question. One of an ethical nature. Does everyone really need unlimited, 24-hour access to a computer?

How you choose to answer this question is of no consequence to myself. I will have graduated by the time any of this has an effect on the student body of Cal Poly. However, as a student majoring in electrical engineering and minoring in computer science, even I realize that this is far from a necessity.

Maybe an option worth considering is the extent to which we should be promoting the use of the computer system. E-mail has become a cheap answer machine for students and faculty alike. The majority of mail sent in this fashion could be done on a much more personal level without tying up computer resources. If you want to charge people for this, you can bet you will drastically reduce its use.

As for requiring everyone to have a computer, I believe that to be a huge mistake. I spent the last summer working with the kinds of machines that are likely to proliferate if this happens. Encouraging students to buy cheap computers that will be obsolete by the time they graduate is — I mean when you consider the problems they will encounter trying to keep these machines from breaking down repeatedly. The support service requires to handle this problem outweigh the benefits it could possibly bring. For all of you who know enough to fix the minor problems, plan on getting calls constantly from friends and acquaintances as their computers fail when papers are due.

And let’s not forget about the software piracy laws. Do you really think students are going to buy quality software when they can’t even afford the computer hardware? If you need help with this question, you must not be a student.
Garcia and others said while this is a big concern, the possibility of limited — or no — education and health care causes even more concern.

Garcia said children are born not knowing they are considered to be different. They will not understand why they are being denied a good education and health care benefits.

The proposition will expel children from schools, Garcia said, and deny vital immunizations to them. It will also eliminate cost-saving prenatal care for pregnant women.

"It's not fair to punish the children for the movements of their parents," political science professor Roni Garcia said later in the rally.

The protesters said they want everyone to realize that Proposition 187 is put forth to "divide and conquer." Gonzalez said he sees it as a type of slavery that divides the Chicanos from the rest of the nation.

"I don't think it will pass, but if it does, it will be in the courts," the Daily said POLL, page 6.
PROTESTS: Opponents of Proposition 187 are urged to exercise First Amendment rights safely

From page 5

"There is no doubt that any time the kids walk out there is some kind of backlash effect. It reinforces the idea by some that California is being invaded. That's why we are trying to discourage it," said Molina deputy Robert Alaniz. Molina was heading to Alhambra High School later with a similar message.

"Walking out plays right into the stereotype. We want them to channel energies to walking precincts and manning telephone banks, and the vast majority of students were signing up," Alaniz said.

Alaniz said the issue has led to "an emergence of the Latino community that has been here for generations. There is also a lot of home ownership and pride. We don't think it (a violent reaction to voter approval) will happen," Alaniz said.

Shortly after noon, students from San Fernando High School showed up at the office of Assemblyman Richard Katz with a petition signed by up to 1,200 students. "Opposition to 187 was overwhelming," Katz said.

The assemblyman, who is opposed to Proposition 187, said he was impressed with the sophistication of the 10 students who visited his office.

"This is an older established community that has been here for generations. There is also a lot of home ownership and pride. We don't think it (a violent reaction to voter approval) will happen," Katz said.

"We have said there is no advocacy," said Superintendent Sid Thompson.

On Nov. 8, the people of San Luis Obispo, California and the United States will be making choices that will change your life.

If you want to know what they decided, there's only one paper to turn to.

MUSTANG DAILY. The first printed election results in San Luis Obispo. Look for us first thing Wednesday morning. And don't forget to vote.

**FOOTBALL:** Jordan has returned to practice

From page 8

running back Jacques Jordan, who had surgery to his right knee in September, has returned to practice though there is no word on when he'll return to action.

The Mustangs have eight players out for the season and five are questionable for Saturday's contest.

**BRIEFS: Cal State Northridge has a lot of size**

From page 8

"Their size presents us with a problem," said Coach Craig Cummings.

In order to compete with the Matadors, Cummings said, the team needed to try and work their offense to the outside corners of the court.

"We need to get their blocks moving and keep them off balance," he said.

He added that Cal Poly must play well on the defensive front and "keep a lot of balls in play.

"But they have an experienced squad with five seniors. Senior setter Kathleen Shannon is averaging 11.7 assists per game, and is a transfer from Illinois — a school known for its successful volleyball program."

"Their not very fancy," said Cummings. "But they know how to play the game."

Cal Poly hosted Pepperdine Thursday night at Mott Gym but results were unavailable at press time.

The Mustangs were 7-14 heading into Thursday's match. Cal Poly will return to Mott Gym to host Santa Clara Tuesday.

"Franco Castaldini and Troy Peteren contributed to this report

The Mustangs return to conference play next weekend when they travel to Sacramento State on Nov. 12. Conference play, and the season, will culminate on Nov. 19 when Southern Utah visits Mustang Stadium for an afternoon game.

**WATER POLO**

From page 8

really cuts down expenses. "It beats staying in a hotel," said industrial engineering junior Zack Stockwell. "It's nice to have home-cooked meals."

The Men's Water Polo Club has been active for 11 years. But Dahl said he would like to see that number increase to 19 years.

Being an intercollegiate team, Dahl said, "you get more recognition by the alumni."

But according to Stockwell, being a club team is more fun. Stockwell — who competed on the swim team for two years — said having status as a club team allows the team to be less strict.

"Water polo is so laid back," said Stockwell. "If you miss a practice, it's no big deal."

McGuigan emphasized his pleasure with the team and thinks they will be even better next year. He said that there are no overall rankings of club teams, but if there was, Cal Poly would be highly ranked.

"We do like to win. But we are not overly competitive," Dahl said. "Main goal is to have fun."

There is a Cal Poly Women's Water Polo Club as well. Its schedule is in the winter and spring quarters.

Men's soccer takes to road

After an impressive tournament run during the fall, the Mustang men's soccer team will have to add to its success when it travels to face Sacramento State Friday and Cal State Northridge Sunday.

According to Gartner, both teams are capable despite their mediocre record. Sacramento State's overall record is 7-7-2, but Cal St. Northridge stands at 7-4-2.

"Sacramento State has the potential of causing a lot of damage," Gartner said. "We have eaten a lot of very good teams that will help us in the poll standings."

However, Cal Poly cannot look past Sacramento and Cal State Northridge — two teams that beat the Mustangs earlier in the season.

According to Gartner, both teams are capable despite their mediocre record. Sacramento State's overall record is 7-7-2, but Cal St. Northridge stands at 7-4-2.

"Sacramento State has the potential of causing a lot of damage," Gartner said. "We have eaten a lot of very good teams that will help us in the poll standings."

However, Cal Poly cannot look past Sacramento and Cal State Northridge — two teams that beat the Mustangs earlier in the season.

According to Gartner, both teams are capable despite their mediocre record. Sacramento State's overall record is 7-7-2, but Cal St. Northridge stands at 7-4-2.

"Sacramento State has the potential of causing a lot of damage," Gartner said. "We have eaten a lot of very good teams that will help us in the poll standings."
