Architecture designs critiqued by world

By Jeff Bruch
Daily Staff Writer

The World Wide Web now gives students a new sense of learning through criticism from people outside the university.

Architecture students learned first hand how the WWW helps to enhance their education when they displayed their design for a hypothetical building for the web. The site titled "Design Web Chats" gave them more to discuss.

"The whole premise of the idea was to expand the classroom to the world," said Thomas Fowler IV, assistant architecture professor. He established the site titled "Design Web Chats" under Cal Poly's home page.

"I used the web as a teaching tool," Fowler said.

The 16 students enrolled in the third-year architecture design class received feedback from e-mail messages and comments on their projects from people around the world. Alumni, architects firms, or anyone interested in designs commented on the project, Fowler said.

According to the Facility Multimedia Development Center, the students received over 10,000 hits — entries into the site — in only four weeks of being on the web. Fowler said many students get feedback from across the country.

University of California, Los Angeles architecture Professor Robin Legit believes the web can help students because they can view work at other universities. "The web is another way of connecting the link between universities," Legit said.

Fowler said the level of discussion improves because of increased feedback. The time spent together working on the project gave them more to discuss.

"This doesn't replace human interaction between the students and the professor, it helps to increase interaction," Fowler said.

The site was created by Fowler and includes pictures of the students along with some of their work. "Use supplementary locking systems, such as dead-bolt locks and bars to reinforce window locks. Preventing someone from breaking a window to enter a home might be impossible. Homes with secured entrances are less appealing targets.

"Have valuables locked up and properly marked. Engrave your driver's license number on your valuables. The San Luis Obispo police will loan its engraver if needed. Thieves prefer unmarked valuables.

"Most people that break in are looking for cash or valuables that are easy to sell," he said.

"Have someone pick up newspapers and mail, leave a light on, put a radio on a timer and have someone check on your house once a day whenever you're away for any length of time. Thieves are less likely to target homes that appear to be occupied," Topham said.

The Monarch Butterflies have returned to their annual winter roosts at the groves in Pismo State Beach in greater numbers than in previous years. The butterflies will remain in the area until early spring/Daily photos by Joe Johnston.
Government remains shut down

WASHINGTON — Defying President Clinton and Senate Majority Leader Bob Dole, stubborn House Republicans rebuffed a Senate bill Wednesday that would have immediately returned idled federal workers to their jobs.

Clinton called the partial government shutdown "an unnatural disaster born of a cynical political strategy" and said it would not make him retreat in budget talks.

Heeding Republican arguments that the shutdown is applying needed pressure on Clinton in budget talks, the House voted 206-167 against considering a Dole-authored measure that the Senate approved Tuesday that would reopen agencies.

Reps. Connie Morella of Maryland and Tom Davis of Virginia, whose districts are heavy with federal employees, were the only Republicans to support the measure.

As the shutdown spilled into its record 19th day, Clinton declared that the House GOP's position would not affect his own in negotiations over balancing the budget by 2002.

"This shutdown is not speeding our talks. It is only casting a shadow over them," Clinton said at a brief news conference.

The fifth White House session in six days between Clinton and congressional leaders commenced Wednesday afternoon. Bargainers were still trying to resolve differences over how extensive to make tax cuts and how much savings to realize from Medicare, Medicaid and other social programs.

Like Clinton, Senate Minority Leader Tom Daschle, D-S.D., pointed his finger directly at the GOP-controlled House. He, Clinton and other Democrats promptly praised Dole, R-Kan., for Senate passage of the measure.

"We now know exactly where the problem lies," he told reporters. "The problem lies with the House Republican leadership and their intransigence.'"

The vote on Dole's bill was forced by Minority Leader Richard Gephardt, D-Mo., who knew its defeat would focus attention on the House GOP.

Republicans blame the government's closure on Clinton's vetoes of spending bills. They vowed to continue it because they do not trust him to bargain seriously without it.

"The sentiment is we need to stay the course, try and get the president engaged, hold his feet to the fire without opening the government up," said freshman Rep. Ray LaHood, R-III., after House Republicans discussed the shutdown privately.

At their meeting, LaHood and other Republicans said, Majority Leader Richard Armey, R-Texas — one of the budget bargainers — said he has not seen enough evidence that Clinton truly wants a budget-balancing deal to merit lifting the shutdown.

Sen. Pete Domenici, R-N.M., chairman of the Budget Committee, said Clinton was being cynically, by refusing to propose a balanced budget of his own while continuing to "pound Republicans for what they would do." He said Clinton is "as much to blame for the closure of the government as the Republicans, House or Senate."

Dole's legislation would have immediately returned to work 280,000 furloughed employees through Jan. 12 and would have paid them and 480,000 other civil servants who have been working since Dec. 16 without salaries. The affected employees work at nine Cabinet departments and dozens of other agencies whose 1996 budgets have not been enacted.

The Dole measure's rejection by the House also underscored a yearlong intra-party GOP clash over tactics. The Senate's more moderate Republicans have taken a more conciliatory approach to the administration. The more conservative House, spearheaded by its confrontational freshman class, has insisted on keeping the pressure on Clinton.

"It's a cave-in," House Majority Whip Tom DeLay, R-Texas, said of the Dole measure. "The House once again has to hold up the strength of balancing the budget."

In another indication of House sentiment, Republicans voted overwhelmingly at their private meeting against considering a measure proposed by Washington-area Republican lawmakers urging Congress to pay the three-quarter million affected federal workers. The vote was 111-54.

"There's nothing inconsistent about being conservative, wanting a balanced budget and wanting to keep the government open," said one of the proposal's sponsors, Rep. Frank Wolf, R-Va.

At his news conference, Clinton ticked off a litany of federal programs facing dwindling funds because of the shutdown. These included meals delivered to homebound elderly people, toxic waste cleanups and workplace safety inspections.

"It is deeply wrong to shut the government down while we negotiate, under the illusion it would somehow reflect the decisions I would make on specific issues," Clinton said.

Late storms won't prevent dry winter

**MAMMOTH LAKES, Calif. —** Even if forecasts hold true and a big storm finally kicks off California's rainy season this week, there is almost no chance for a normal winter, a conference of hydrologists was told.

"The odds are against it coming," state meteorologist William Mork told the group gathered at Mammoth Mountain on Friday. "Any way you cut it, we have never seen a fall this dry." Meteorologists are predicting rain and snow from the Gulf of Alaska early this week, but it may be too little and too late to change the state's water outlook, water watchers said.

State Department of Water Resources estimated that even if normal weather patterns resume now, the season will reach only 80 percent of normal as a whole. To date, precipitation has been only 10 percent of average throughout the state and only 20 percent in the northern Sierras.

By Friday, the San Francisco Bay area had seen only 4 percent of average rainfall. Sacramento rainfall in Yosemite had been 2 percent, each.

Even the soggiest region in the state, Eureka, has had only 20 percent of its rainfall. Even the wettest region in the state has by this time of year.

Lucile Little, a state meteorologist, said the state's outlook for this winter is "the odds are against it continuing through at least the first quarter of 1996." The state's latest outlook is for at least 30 percent above normal in the snowpack.

"The state is in the welcome position of having increased reserves as a result of the improved economic performance," she said. "This is the right time to balance the books in the face of recession weakened revenues. The new budget is likely to reflect improved revenue projections."

"Through November, revenues were about $700 million below projections, a trend that is expected to continue through at least the first quarter of 1996." The governor's latest budget is expected to come out next week, the governor's office announced.

Take two BuSpar and glorious morning, my blissful state was quietly intruded sank slowly to amused, and quickly fell to feeling decline of the middle class were/are not pretty — and on the story behind these figures I mused.

Christianity tells us that we are ill, ("fallen creatures") within itself both the cause of our ills (bad news) and ironic our world is, that the newspaper could contain — but I digress. Back to BuSpar and the anxiety that of course to turn over the currency of our self (free will) comes with changing times. and that, except for lovemaking, ending is not typically

for physics.

and that problems with our economy stem from the decay that is responsible for much of our anxiety. Striving to creating greater opportunity for every human who finds cats get fatter and in the last six years the real dollar income for a family has dropped over $13,000, and start

up on the streets getting scurvy.

a planet? Maybe I'm getting ahead of myself here. A) Work toward a multiparty system in our country, and I do mean multi. B) Seriously consider leaving when BayWatch goes off the air, I suggest a few alternatives: sure to be an increase in irritability, muscle tension, restlessness, fatigue and disturbed sleep if things con­

Yes, BuSpar, a medication designed for those who suffer bitterly over weeks to relieve anxiety and its symptoms."

But don't despair, I know resolutions that you can make and enjoy keeping.

It is possible for us to make resolutions and keep them, but they must be very modest and easy to do. For

getting any sort of difference in our lives.

But don't despair, I know resolutions that you can make and enjoy keeping.

For the self-righteous nonsmoker, make smokers miserable by lecturing ... in public. Those polluting goad-smokers have no right to exahblate their c motorinnos on handouts passersby. March right up to them and tell them about a relative that died of lung cancer. Tell them they're intentionally inflicting black lung disease on the most innocent among us. Be graphic. You won't change their behavior, but it'll make you feel a lot better.

As for myself, I'm going to Zimbabwe and Botswana for the summer. Maybe there is room for one more eclectic bed and breakfast, one more expat litera­

These should give you many ideas of horrible things men who issue from within. Maybe you'll get peelú at the cuticles. Offer trick hot pepper gum to the gum popper. Invite a nailbiter over for a manicure and coat the nails. Ask him to let you see the minilayers and the cuticles. No one on a diet can resist. Leave them alone a lot. No one on a diet can resist.

For people whose acquaintances are on post-holiday diets, invest in boxes of chocolates to put around your house. Don't eat too many; you want them to be around when the dieters come over. Don't urge the chocolate on them — that will get their defenses up and make them virtuous. Just put it near where they'll be sitting and leave them alone a lot. No one on a diet can resist. Remember that liquor-filled chocolates have lots more calories and will relax them so they'll eat more.

Feminists should hang out outside dirty book and video stores and deliver stern sermons about the objec­

tification of women's bodies through pornography to the men who issue from within. Maybe you'll get peaks at the nasty stuff yourself.

To counter heinous habit such as hair corrilling, nail biting and gum snapping, the punishment must fit the crime. Invite a nailbiter over for a manicure and coat their nails with that "No Bite" polish. Be sure to get those cuticles. Offer trick hot pepper gum to the gum popper.

Unfortunately, you can only do for the hair twirler is to replace their conditioner with Nair. Don't get caught.

These should give you many ideas of horrible things you can do to the annoying people in your life. If you have some extra time and see someone littering, pick up any trash you see laying around and start petting them with your bare hands.

Keep in mind, though, that if they are literature-minded, that counts as assault and battery. Sounds like fun, though, doesn't it?

The history began with a picky, male shopper perusing the slave market in ancient Sparta. The man walked calmly through the chaotic marketplace, selectively eyeing each female slave. Approaching a captive woman slave, he studied her coolly before asking,

"Will you be good if I buy you?"

With dignity and pride, the slave looked back indignantly and replied, "Yes and if you don't buy me as well."

This brave and brassy woman's words sparked the inspiration for the title of the book "Uppity Women of Ancient Times."

"This woman showed a sense of self worth despite her situation," said Vicki Leon, the book's author.

"The term uppity, to me, describes women who have faith in themselves despite life's troubles."

The recently published book accounts the biographical information of over 200 women who lived from 2500 B.C. to A.D. 450. These are not normal women. Each female focus is her own embodiment of the word "uppity." Each has some element of the sassy Spartan slave that makes her a crucial part of ancient history.

"This woman showed a sense of self worth despite her situation."
Smashing Pumpkins delivers same quality with new music style

By Melissa M. Geisler
Daily Meston's Sports Editor

One of music's 1995 highlights was the release of the Smashing Pumpkins' double-album "Mellon Collie and the Infinite Sadness." This two-hour, 28-song follow up to the band's debut album "Gish," 1993 triple-platinum smash "Siamese Dream" and 1994's B-side collection "Pieces Iconized" encompasses some of the best works of lead singer Billy Corgan, guitarist James Iha, bassist D'Arcy and drummer Jimmy Chamberlin.

Corgan teamed with Alan Moulder and Flood to produce "Mellon Collie," an album which has been a career-long dream for Corgan who wrote most of the songs.

Since the album's release in November, two songs — "Bullet with Butterfly Wings" and "1979" — have aired and ranked in the Top 40 songs in the nation by Billboard magazine.

The album's opening song is "All Shook At," which gives the listener a feeling of daybreak. "Twilight to Starlight" closes "Mellon Collie's" razor-guitar style. "Dawn to Dusk," songs like "Galapogos," "Cupid de Locke," and "To Forgive" reveal a more instrumental side to the Smashing Pumpkins that most listeners haven't heard in its seven-year career.

One of the best tracks, "To Forgive," gives the listener the wishes of the sandman as Corgan appears to be putting the listener to bed as he sings, "Goodnight, may your dreams be sweet."

"Mellon Collie" is currently ranked No. 1 in Rolling Stone's Readers' Top 20 poll, a position which it has held for several weeks.

Linus Larabee, played by Harrison Ford, tries to romance Sabrina Fairchild, played by Julia Ormond in the beautiful viewer doesn’t know which man. elegant, yet crafty girl always gets her man. The plot holds that interest throughout. Although the movie has a seemingly light storyline, the plot is not light on substance. It follows the growth of Sabrina, played by Julia Ormond, as she goes from a clumsy, ugly girl to an elegant, clever woman. The audience can actually see Sabrina mature as she finds herself in the beautiful setting of Paris, France. The younger brother, David, is played by Gary Koonsen, who captures the essence of the spoiled rich kid who never quite grew up. Between the three stars, the humor never stops. The light-hearted feel of the movie comes through in the quirks of the characters and helps one follow and enjoy the focused plot. The scenery is another aid for the viewing eye. The movie is shot all over the quaint streets of Paris and on a Long Island estate, giving breathtaking views of life in high society. The scenery, actors and intriguing plot lead to a fulfilling movie. The audience leaves with the “feel good” sensation that is not too sexy for either gender. The Cinderella-type story of the 90s successfully invades the 90s in a fairy tale plot that reaches the audience by combining light-hearted comedy with a dash of romance. This is a must-see but you should bring a date.

Lunch ends with your basic fortune cookie that accompanies the bill. These fortunes bring more satisfactory results when ended with "... in bed." The ambiance is traditional Chinese with lots of red color, which signifies luck. The aisles are lined with booths for parties of two to four, while larger parties are seated in a banquet room that includes a Lazy-Susan. All in all, Golden China comes often as we contemplate the locations for lunch. We have never been let down by the quality of food or the service.

Any Creativity at Cal Poly? C'mon, this is a tech school but some must have artistic inclinations. Send your POEMS, DRAWINGS and CARTOONS to: Arts Editor, Mustang Daily, Cal Poly, Building 26, Room 226.

The Food Court is a new column that will appear in the Arts & Entertainment section each Thursday. The purpose of the Food Court staff is to present Cal Poly students with a variety of dining options available in the San Luis Obispo area.

Each week, Food Court critics John and Phu will be evaluating a local restaurant they feel would appeal to the majority of the campus population.

Golden China offers students the exquisite taste of Chinese in a timely and affordable manner. It offers daily specials from 11:30 a.m. to 3 p.m.

Staying within the budget of students (about $6), the Golden China offers a variety of possibilities, such as Pork Chow Mein, Mongolian Beef and Moo Shu Pork.

Lunch begins with your choice of soup (Hot and Sour or Egg Flower soup), egg-rolls as an appetizer, and finishes with the entree of choice which comes

The beauty of the Sydney Pol-lock film "Sabrina" is that the viewer doesn’t know which man. Right up to the last scene, one is left guessing which one she will end up with. This is a refreshing turn from the predictable endings of so many "light-hearted comedies." Especially for viewers who like a little intrigue.

Especially for viewers who like a little intrigue.

The audience can actually see Sabrina mature as she finds herself in the beautiful setting of Paris, France.

Ford's quality diminishes some as Linus' sinister side is revealed. Call it too many "Indiana Jones" movies, but it is revealed. The older brother, Linus Larabee, is played by Harrison Ford, who seems to be everyone's favorite actor. His acting maintains its high quality and one almost forgets Ford's prior and numerous roles.

One historical figure in the book, Enheduana, held the title of the first author known by name for either sex. She also held the role of high priestess to the moon-god Nanna of Ur, the highest position in the religion of the time. Her responsibilities included presiding over all religious activities that ensured the prosperity of her city. Her Babylonia nature showed in her writings and her actions. Enheduana was known to fight back against men who tried to humiliate her by humiliating them in her poetry. After her poisonous prose tormented her by humiliating them in her poems. After her poisonous prose tormented her by humiliating them in her poems.

The writing style of Enheduana captured the essence of the book's subject and reflected the poet's personal history. Her words were a means of expression, and her verses were a way to convey her thoughts and feelings. Enheduana's writing style was flamboyant, and her words were powerful. She utilized her writing as a tool to express her thoughts and feelings, and to make her point.

Leon's book brings to light that women's experiences throughout history can be compared to the experiences of modern women. Though they are separated by time, the challenges faced by women in ancient times and modern times are similar. Both sets of women had the same obstacles to overcome. Both sets of women were forced to leave the past by the women's stance and the infant's air in their faces. They could tell by their dress and noble profiles that they were proud, powerful women who only needed a voice to tell their personal history.

Leon gave them that voice by writing their histories. This knowledge and the women's image guided her through her research and now the three women grace the cover of the book. The women's expression captures the essence of the book's subject and reflects the poet's personal history.

And Leon's book brings that being a woman was not always confined to the present. The women's experience is a reflection of today's struggle in their lives. Women today can see that the modern woman is still fighting for family, career, and battling for a challenging lifestyle. Women have been doing just that for thousands of years. Women in ancient times were not always confined to the present. The women's experience is a reflection of today's struggle in their lives. Women today can see that the modern woman is still fighting for family, career, and battling for a challenging lifestyle.

"Part of the goal of the book is to show how women and women to enjoy reading up and the women's experience with a speci­ men of knowledge." By translating the difficult histories into short biographical blurbs about the women. She utilized only the most interesting aspects of each female, including women from Rome, Egypt, and Greece.

Through her travels and continual research, Leon brought together a lot more than a work­ book. The women's experience is a reflection of today's struggle in their lives. Women today can see that the modern woman is still fighting for family, career, and battling for a challenging lifestyle.

"Uppity women were bold and more self-assured than present-day women. Those were tougher times. Women of both eras fought the same battles but put on different faces. They set up 50 chairs and more than 70 people came. 'Limbic Rage' is out this year on Over the Counter Records and follows a popular seven-inch single from last year. The seven inch had a long run in KCPR's heavy rota­tion, and I think the CD will do better in the long run in KCPR's heavy rota­tion, and I think the CD will do better.

"Uppity women were bold and more self-assured than present-day women. Those were tougher times. Women of both eras fought the same battles but put on different faces. They set up 50 chairs and more than 70 people came. They sold out in 45 minutes. 'Limbic Rage' is out this year on Over the Counter Records and follows a popular seven-inch single from last year. The seven inch had a long run in KCPR's heavy rota­tion, and I think the CD will do better in the long run in KCPR's heavy rota­tion, and I think the CD will do better."

"The medieval women are ut­ terly different than anyone we know today. They might not care as much about their image as those in the present. The women's experience is a reflection of today's struggle in their lives. Women today can see that the modern woman is still fighting for family, career, and battling for a challenging lifestyle."

That attitude is crucial in a female's success. The medieval women are ut­ terly different than anyone we know today. They might not care as much about their image as those in the present. The women's experience is a reflection of today's struggle in their lives. Women today can see that the modern woman is still fighting for family, career, and battling for a challenging lifestyle."

"Ethnic album warrants a listen for music purists to remember what ancient th­ eir sound is all about..." The Meditation is out this year on Over the Counter Records and follows a popular seven-inch single from last year. The seven inch had a long run in KCPR's heavy rota­tion, and I think the CD will do just as well. Before I rave about it, I should intro­ duction is appropriate.

Jonathan won a bike, and you can be a winner, too. As a member of the Campus Express Club you win convenience, flexibility and security. "This is real" exclaimed GRC manager, Jonathan Sprague, when presented with the Neal 13-speed mountain bike he won in a drawing. Jonathan was automatically entered in the drawing when he deposited in his Campus Express Club account. He says he uses his account all the time at the GRC lab, and also at Campus Dining areas and El Coral Hudsons, so he makes frequent deposits.

The mountain bike-drawing was the second one held among Campus Express Club members during Fall Quarter. In a drawing among depositors made by the end of September, Rita Colliver won reimbursement for Fall Quarter tuition. Mandy Lam was reimbursed for Fall Quarter textbooks and Rachelle Bertolli won $50 deposited to her account.

Open or add to your Campus Express Club account by the end of January and you’ll be eligible to win one quarter’s In-Room Tuition or up to $50 in Textbooks! If you Deposit $50 or more you’ll also be entered in a drawing to win $50 credited to your Campus Express Club Account.

The recommended daily allowance (RDA) of vitamin C is 90 mg for women and 120 mg for men. Lucy’s drinks that contain high amounts of vitamin C are recommended for those who need an academic eligibility appointment. The team should find out by today if Turner will be suiting up for tonight’s game in Mott Gym at 7 p.m.

Revenge blessed the Mustangs against Northern Arizona. After losing to the Lumberjacks in Flagstaff, 83-71, Cal Poly pulled off a victory at home, 73-72.

Like most other sportswriters in San Luis Obispo covering Cal Poly (that equals one other person), I agreed that the Mustangs were lucky to win 10 games.

But little do I know, I bet $10 on Florida defeating Nebraska.

This prediction on Cal Poly is not as far fetched (or should I say stupid?) like my pick for No. 1 in college football.

15: Cal Poly is on a three game win streak

From page 8

for the Sun Jose Mercury News on the porch.

Tossing the rest of the newspaper aside, I pulled out the sports section like every morning and found to my disbelief that Cal Poly strung back-to-back wins against Division-I teams. I was impressed. No, let me rephrase myself. I wiped my eyes clear to take another hard look. Harvard came to Mott Gym and was overwhelmed by Cal Poly's swarming defense and three-point shooting offense. The result was a 73-64 win.

BASKETBALL: Mustangs looked to Oral Roberts

Players attributed the lack-luster showing against an NAIA team to poor focus and little enthusiasm.

"We were really dead," said Bryant, who felt that Schneider's last timeout helped bring the players' minds back into the game.

"I know Simon Fraser was a real good team," Schneider said about the 7-6 team. Schneider had no stats to go by, and only one tape in preparation for the game.

Larson and Bryant felt the team may have been overlooking Tuesday's game and focusing more toward tonight's game against Oral Roberts of Oklahoma, a team that is just coming off a win against 25th-ranked Tulsa.

"That's a big game for us," Larson said. "We've all gotta be ready to play."

"We will give every ounce of energy for Oral Roberts," Schneider said, who spent five seasons coaching at the University of Tulsa.

Cal Poly's other Oklahoma root is freshman Da'Monn Sanders.

Freshman Queney Turner did not play Tuesday night pending an academic eligibility appointment. The team should find out by today if Turner will be suiting up for tonight's game in Mott Gym at 7 p.m.

Vitamin C is a small organic compound needed daily by human beings. Vitamin C acts as an antioxidant and it also helps to form collagen.

As an antioxidant property, vitamin C helps to protect molecules in the cells and body fluids. Also, it is needed to form collagen, a connective tissue in the body.

The recommended daily allowance (RDA) of vitamin C is 60 milligrams (mg) per day. Listed below are suggested Lucy’s drinks that contain high amounts of vitamin C:

- Cathy’s Honey Orange 15mg
- Jerry's Orange & Berries 15mg
- Joey’s Guava Cooler 40mg
- Juice Plus 142mg
- Lila’s Lucious Pineapple 97mg
- Nancy’s Cranberry Nectar 115mg
- Colo’s Orange Shoot 182mg
- Patty’s Perfect Peach 78mg
- Penny’s Pineapple Passion 136mg
- Sheri’s Orange Juice Syrnyphy 156mg
- Tweety’s Tangy Delight 143mg

Vitamin C’s most completely characterized specific role is that it helps to form the fibrous, structural protein collagen. Collagen serves as the matrix on which bone and teeth are formed. Collagen also plays in healing wounds.

Cal Poly slips by NAIA Simon Fraser, 74-69

By Mark Armstrong
Daily Staff Writer

Despite some of the worst shooting this season, the Cal Poly men's basketball team managed to snap out of a funk and seal a victory against NAIA Simon Fraser Tuesday night.

The Mustangs shot only 35 percent, their lowest this season, in the 74-69 win over the virtually unknown NAIA Canadian school.

Coach Jeff Schneider admitted that Cal Poly wasn't as focused as it had been for its last three home games against North Carolina State, Harvard and Northern Arizona.

"It's hard to get up for every single game," Schneider said. "We had three very emotional games last week.

Cal Poly traded the lead with Simon Fraser throughout the first half and headed into the locker rooms tied 33-33, shooting only 31 percent, after a first-half bucket from Simon Fraser guard Steve Dyuis.

The Mustangs woke up a little for the second half, shooting 40 percent.

After a timeout with only nine minutes left, Schneider got in the faces of his players when the team lagged behind Simon Fraser, 51-54.

But two consecutive three point shots from Colin Bryant and a steal by Ben Larson resulting in a two Point bucket brought some emotion back to the team.

Another three pointer by Larson kept Cal Poly on top for good, 56-54, with five minutes left.

Bryant scored all 15 of his points from the three-point line. Larson had 17 points, 15 of which were from the three.

Larson also continued his record-pace thievery with six steals.

Young wrestlers compete on Cal Poly mats

By Matt Berger
Daily Staff Writer

Following a 7-7 season and a sixth-place finish in the Pac-10 Championships, an eager young Mustang wrestling team pushed into the 1995-96 season with high hopes and many goals.

Hinduism. Look into my crystal ball and what do you see? I may not be Chris Berman, but I cannot be compared to ESPN's Swami on NFL Game Day, I feel like an adherent of

Young wrestlers compete on Cal Poly mats

By Matt Berger
Daily Staff Writer

Following a 7-7 season and a sixth-place finish in the Pac-10 Championships, an eager young Mustang wrestling team pushed into the 1995-96 season with high hopes and many goals.

After losing key wrestlers from last year's squad, the team brought an abundance of fresh new faces to the mat.

"It's a young team for us this year," Head Coach Lennis Cowell said.

This is not an underestimate, considering that 25 of the 34 wrestlers on the roster are underclassmen.

The youngest wrestler starting for the Mustangs this season is freshman Eric Rodriguez in the heavyweight division. Rodriguez, from Porterville, Calif., was a two-time CIF champion and placed sixth in the state in 1995.

Cowell, an 11-year veteran of the coaching staff, pledges to guide his squad through the rigorous schedule that lies ahead of Simon Fraser and win the game 74-69 / Daily photos by Dawn Kalmar

With such a strong force in the lighter weight classes, Assistant Coach Joey Danby predicts many wins early in the lineup.

"Our lightweight look good," Danby said. "We hope to send a few guys to the national championships."

This season, the team will face off against five teams ranked among the top 25 in the nation. Three ranked schools returning to the schedule from last year are Arizona State, Cal State Bakersfield and Oklahoma, all of which Cal Poly fell to last season.

The first three dual meets on the schedule include eight-ranked Oklahoma, and number six in the nation, Oklahoma State University.

Starting out the season competing against these top schools could affect the team, but Cowell said he expects the wrestlers to perform well.

"Our schedule includes some tough competition," Cowell said, but added that he expects his team to perform better later in the season when the team regroups after a slow start.

The Mustangs' toughest opponent so far this season has been health. They begin the season with many wrestlers sick and injured.

While one of Cowell's goals this year is to keep everyone healthy, he had trouble speculating on the outcome of the season.

"I see our potential, but I don't see reality," Cowell said.

The experience starts for the young Cal Poly team in the next three days when it competes in Oklahoma this Thursday and Saturday.
