Fee freeze bill gaining momentum
By Stacey L. Johnston
Daily Staff Writer

If students hadn't voted down Poly Plan fee increases, the increases may have met defeat anyway at the hands of the state legislature. The College Affordability Act of 1997 (AB 1318) proposes to freeze student fees at U.C.'s, CSU's and California community colleges until the year 2000. Effective 1996, it would void any fee increases like those proposed for the Poly Plan.

"We would have been under the wire if (Poly Plan fee increases) had passed," said Allen Haile, director of government and community relations at Cal Poly, though he said the CSU system as a whole is supporting this legislation.

The bill passed in the Assembly by a vote of 44-20. It will be heard this month in the Senate.

"We had strong bipartisan support in the Assembly, so we have high hopes for the Senate," said Olivia Morgan, press secretary for Lt. Gov. Gray Davis.

The act is sponsored by Davis and Assemblywoman Denise Moreno Ducheny (D-San Diego), who authored and carried it. When the economy was strapped in the early '90s, students bore the brunt with skyrocketing fee increases," Morgan said. "Now that we have a sound economy, we can afford to freeze student fees and it's only fair that we do so.

According to the lieutenant governor's office, in the first five years of this decade CSU fees rose 134 percent, U.C. fees increased 104 percent and community college fees jumped 300 percent. Enrollment dropped by nearly 60,000 students at California's public university systems in this same time period.

If enacted, the bill would also freeze college fee increases at other CSU's and that passage of the bill would necessitate
DENVER - Determined to keep Timothy McVeigh's sentencing hearing from becoming "some kind of lynching," the judge Tuesday barred prosecutors from presenting victims' wedding photos, a poem by a victim's father and testimony on funeral arrangements.

U.S. District Judge Richard Matsch also said he won't allow McVeigh's lawyers to turn the hearing into a trial of the government's handling of the siege at Waco. The hearing on whether McVeigh should get the death penalty for the Oklahoma City bombing begins Wednesday.

Matsch prohibited testimony from any bombing survivors and victims' relatives who were preju­diced by testimony from the trial. These witnesses will be questioned before they may testify in front of the jury who will decide if McVeigh should live or die.

"We have to guard this hearing to ensure that the ultimate result and the jury's decision are truly a moral response to appropriate information rather than an emotional response," he said.

The jurors who convicted McVeigh of murder and conspiracy on Monday will decide whether he should die by injection for the April 19, 1995, bombing that killed 168 people.

McVeigh appeared relaxed as he walked into the courtroom one day after he found out he was in the deadliest act of terrorism on U.S. soil. He smiled often and laughed as he whispered to attorney Robert Nigh. Despite Matsch's rulings, the judge will allow plenty of potential­ly wrenching testimony, including that of a 10-year-old boy whose mother died and a rescuer who held a baby buried in the rubble, only to feel the pulse stop.

Matsch will also allow photos of maimed survivors, pictures of vic­tims being wheeled into hospitals and testimony from the coroner about the various causes of death, including that of a man who died slowly, as evidenced by the gravel in his lungs.

Oklahoma bombing judge vows to avoid 'lynching'...
Shared learning has kinks to work out

By Adrienne Gross
Daily Staff Writer

California college students are gaining access to a number of classes not offered at their schools. Through video conferencing, students can watch a lecture on a TV monitor in Bakersfield while the teacher is speaking in San Luis Obispo.

The video conferencing involves two classrooms next door to each other. The main room can only hold 24 people. The others must watch from a closed circuit TV and run around the corner to ask questions. We need a bigger classroom before this is truly successful," Thompson said.

Chili pepper tablecloths added to the Southwestern decor at university President Warren Baker's second annual Back to Back party Tuesday, honoring more than 70 students for their student leadership and dedication to Cal Poly.

It was a chance for Baker and other Cal Poly administration to honor outstanding student groups and leaders. It also allowed students to meet other involved student leaders including newly elected ASI president, Cindy Entzi.

Students attending the luncheon were members of Poly Reps, ASI Executive Staff, Open House and Career Cabinets.

Editor, A May 28 letter to the editor con­cerned the Chinese takeover of Hong Kong this year. It listed a myriad of purported benefits associated with this takeover. This letter seeks to temper the enthusiasm portrayed by Chang Ling Hu and her co-authors.

In their letter, the authors state that “Chinese people need a strong government to control their vast land.” This is a common misconception. China is a large but diverse country, with stark regional differences, from the desert terrains of Xinjiang to the lush farmlands of the Yangzi River valley. The Chinese government recognizes these differences and has made efforts to promote economic development and social stability across the country.

The Chinese government has implemented policies to improve the lives of its citizens, such as poverty alleviation programs and infrastructure development. These efforts have contributed to China’s rapid economic growth and improved living standards. However, the Chinese government also faces challenges, including regional disparities and environmental concerns.

In conclusion, while the Chinese government’s policies have brought significant improvements, it is important to recognize the diverse landscape of China and the complexities involved in its governance. The Chinese government’s approach to development and governance reflects a commitment to addressing the needs of its vast population and ensuring long-term stability and prosperity.

For those of you for whom this is the first time reading this article, we are being serious. There are some graphic, much needed details for the final question this quarter.

Two of the most popular questions this quarter have been: Why is it “good and healthy” to pretend that the Chinese government supports individual rights and ideas? As for Taiwan vs. Hawaii: was it a settlement colony; (there is an independence movement, but that’s a separate argument) or was it a manufacturing/industrial enterprise? China’s economy is central­ized, and its government is a socialist dictatorship. Hong Kong has an advanced manufacturing industry, coupled with major financial and trade concerns. China is an impoverished nation and, to coin a phrase once applied to Russia, “zaire with nuclear weapons.”

Against Willie Blair with his second homer of the game and fourth this season. Broius went 3-for-5 with a double and three RBIs.

**CELEBRATE** from page 3

Agreed. "The banquet makes me feel like (Baker) is close to students, and his interests are bettering students and our education and does have us in mind," said Nikole McCollum, civil engineering senior, and director of student relations for ASI.

Baker reflected on the past 18 years since he's been at Cal Poly, and honored the students who participate actively to make Cal Poly a better place every year. "The highlight of my role is to work with outstanding students with a sense of humor and the best interest of the university at heart," Baker said. "It really allows the university to put their best foot forward when you're out there representing Cal Poly."

Students were given a chance to meet other involved students and acknowledge the efforts of ASI president Steve McShane. "You guys have been incredible to make Cal Poly what it is. Cal Poly is the best, just like the sticker says. I really love it," said McShane, the outgoing ASI president.

Ennis thanked the students for their efforts of bettering Cal Poly. "I want to work hard to make (Cal Poly) better next year," she said.

Doug Moore, industrial engineering senior and Poly Rep, enjoyed the banquet but left him with mixed feelings about graduating. "I feel sad to leave this place. I've enjoyed a lot of memories Cal Poly has given me since I've been here. It helped make me who I am today," he said.

**ARRIVING FALL '97!!**

Starting Fall 1997, Career Services will introduce Web Walk-Up (WWU), a new program which will allow students to sign up for career, co-op and summer job interviews from any computer with access to the World Wide Web.

**ON-LINE RECRUITING PROGRAMS FOR:**

- Career On-Campus Interviews
- Cooperative Education (Interviews & Job Listings)
- Summer Jobs Program (Interviews & Job Listings)

**OOPS! Recent corrections from Mustang Daily**

(hey, we're only human).

Mustang Daily regrets an error in the June 2 article about the Yoga Centre. The Yoga Centre will present its dance and potluck Saturday at 8:30 p.m., not on the 18 years since his been the past year. The response was positive, so students were offered a cost so students would still pay for the program.

Dane Johnson retired Travis Myers (0-3), who walked pinch-hitter Dave Magadan and gave up a single to Damon Mashore before Jason Giambi's three-run homer, which put the A's ahead 7-5.

McGwire then homered into the left-field seats off Dan Mazzoni. Aaron Small (1-5) pitched two hitless innings for the win.

With Oakland leading 9-5 in the ninth, Bobby Higginson hit an RBI double of Billy Taylor and Melvin Nieves hit a two-run single off Mike Mohler. With two on, Dan Johnson retired Travis Redd at the $10 price in the last two quarters, according to Brian Papeman of the Rec Center.

According to Bill Ashby, the director of the ASI business office, the program has not been as successful this year because it did not top the list of ASI priorities. "Historically, it has been a program of the executive staff, so any programs come out of their budget," he said. "But since the president and staff changes every year, it is a totally discretionary program with no long-term commitment."

Due to lack of support and funding over the last year, Shaffer said that graduation night, June 14, will be the last night Safe Ride will operate this year. This summer, Ride-On will try to raise the $14,000 needed to start the program up in fall.

"Unless we can raise the money and get community support, we just won't be able to offer the program anymore, which is a shame because it was a great program," he said.

The diploma you can wear.

**RIDE** from page 1

something that was really going to benefit everyone."

According to Vandever, in 1994, ASI purchased the cards in bulk and received them for $4. ASI then subsidized half of this cost so students were offered a safe ride from parties or bars for only $2 a year. Last year, this price went up to $4.

Current Greek Relations director Eric Jafari explained that part of Safe Ride's success was that ASI had been originally subsidizing the tickets, but this became expensive. "The program began eating up all of ASI's money, because to keep the cost at $2 this year, we had to subsidize $8 each," he explained. "We had bought a ton of tickets, about 300, and they sold out within a few weeks, but that is a lot of ASI money."

Jafari said that students, specifically Greeks, were asked if they would still pay for the program if ASI did not subsidize the tickets and offered them at $10 a year. The response was positive, so they are now on sale at full price at the Rec Center front desk.

Only about 20 cards have been sold at the $10 price in the last two quarters, according to Brian Papeman of the Rec Center.

According to Bill Ashby, the director of the ASI business office, the program has not been as successful this year because it did not top the list of ASI priorities. "Historically, it has been a program of the executive staff, so any programs come out of their budget," he said. **Football**

The Mustangs became an independent Division I-AA team last year after the American West Conference disbanding. The marks in the record books were more impressive than the season record of 5-6.

After a rough start, the Mustangs first victory came in their fourth game against Central Washington in front of the home crowd. The Mustangs won other key games against St. Mary’s College, Southern Utah, U.C. Davis and Sacramento State.

Senior Clay Harty had a successful season with 2,416 yards. Junior receiver Kamil Loud finished second in the conference in goals, assists and points. Young broke a 15-year record for career-receiving yards, ending the season with 2,416 yards. Freshman Craig Ciaravino set the all-time Mustang career as the all-time leader in the season with 2,416 yards.

The season started with a changing of the guard and three new coaches. Larry Welsh was chosen to head the Men’s Soccer team. Kristina Grigaitas, Alison Robinson and Nikki Shaw all finished in the top three runners for the regionals.

**Men’s Cross Country**

The Mustangs started out strong with a second place finish at the Santa Barbara Tri-Meet Invitational. They went into the Big West meet with a 3-3 record, but suffered a disappointing loss in the nation at one point during the season.

The Mustangs, however, started out on shaky ground. They shutout Cal Poly 1-0 when they finished fourth in the MPSF with 10 goals and 24 points. Harty led the team in goals, assists and points scored. Goalie Greg Connell, who finished second in the conference with 88 saves, was also a MPSF scholar-athlete award winner.

Senior Mike Allhouse tied a school record with four touchdowns against Sacramento State and scored 26 points to break the record of 24. Freshman Craig Young broke a 15-year record with 283 yards rushing against St. Mary’s. Junior receiver Kamil Loud became the all-time leader in career-receiving yards, ending the season with 2,416 yards. Senior Jon Peck finished his Mustang career as the all-time leading career receptions leader with 125.

Pat Behr, Loud, Young, Doug Lichtenberger and Alan Beilke all received All-American honors.

Football gained attention off season this year when spring training began with a changing of the guard as head coach Andre Patterson left for a position with the New England Patriots, and Larry Welsh was chosen to be the new coach.

**Volleyball**

In their first year of the Big West Conference with a new coach, Steve Schlack, the women’s volleyball team completed its most successful season since 1992 with a 14-16 overall record and a 7-9 Big West record. After losing the first game of the season to the University of Dayton, the team began a seven-game winning streak. Important wins over Tennessee Tech, and Evansville led the team to the title at the USF Powerbar Championship in San Francisco.

Trisha Jensen led the team with 290 kills this season and was second in blocks with 72. Freshman Kari DeSoto led the Mustangs with 130 blocks. Colleen Moro finished her career at Cal Poly with 1,242 kills and for the second straight season was a GTE/CISD All-American recipient.

**Women’s Cross Country**

The Mustangs started the season with a strong stampede over everyone. They began with a victory at the Santa Barbara Tri-Meet Invitational led by Amber Robinson, who finished first overall. Claire Becker and Nikki Shaw came out strong with a third and fifth place finish, respectively.

The women went on to take second at the U.C. Irvine Invitational and the Fresno Invitational again led by Amber Robinson.

Stanford (eventual NCAA champion), Brigham Young University and UCLA finished ahead of Cal Poly at the Stanford Invitational with a 10th place finish by Becker.

Becker led the team to a third place finish with her first place finish at the Cal Poly Invite.

Becker, Lori Fances, Robinson and Nikki Shaw all placed in the top 25 at the Big West Championships to give the Mustangs a fifth place finish and a trip to the West Regionals. At Regionals the Mustangs came in ninth with Shaw the top finisher.

**Women’s Soccer**

For the third season in a row the women’s soccer team was denied an NCAA play-off berth. But the Mustangs weren’t too upset, because they became the first Cal Poly team to win a Big West Conference Championship. They went into the Big West Tournament in third place with a 3-3 record, but sneaked off Cal State Fullerton, 3-0, and defeated U.C. Irvine, 2-0, to capture the title.

The Mustangs, however, started out on shaky ground. They shutout UCLA, 1-0, with Patty Groisman scored with seven minutes left in the game. But they suffered a disappointing loss to Santa Barbara and fifth-ranked Santa Clara University.

With wins over Washington State and Loyola Marymount, the Mustangs were ranked 24th in the nation at one point during the season.

Amy Earl, the leading scorer for the Mustangs with 17 goals, was named to the All-Conference team. Kristina Oristian, Alison Murphy and Andrea Sievers were also chosen for the First Team All-Conference team. Head coach Alex Cruzer took the Big West Coach of the Year honors.

**WINTER 97**

**Men's Basketball**

After becoming the most improved team in 1996 the Men's basketball team struggled in its first season in the Big West Conference. The team finished 14-16 overall and 6-10 in conference, with seven of the losses coming within five points or less.

The Mustangs were the most successful in front of the Mott Maniacs, going 12-4 on the home court, including wins over U.C. Santa Barbara, U.C. Irvine and eventual Big West Champion University of the Pacific on a last-second tip by Shanta Cotright.

Freshman guard Mike Worniak was named the Big West Freshman of the Year after averaging 15.4 points per game and a school-record 79 three-pointers. Freshman Mitch Ohnstad finished with 57 assists in his last 10 games and finished among the Big West assist leaders at 4.1 assists per game.

In his final game of the season against U.C. Irvine, senior Damien Levesque scored his 1,000th career point with 29-point effort at U.C. Irvine, joining teammate Shanta Cotright who scored his 1,000th career point in 1996.

Cal Poly led all 12 Big West teams in scoring offense, free throw percentage, three-point field goals per game and turnover margin.

**Wrestling**

With a 6-2 finish in the Pac-10 Conference and an 8-3-2 overall record, the Mustangs had one of their most successful campaigns ever. The Mustangs faced eight ranked teams, winning two matches against No. 21 Oregon University and against rival and No. 13 Cal State Bakersfield. The Mustangs beat No. 14 University of Oklahoma. Heavyweight Dan McGee saved the team from defeat against Oklahoma, Birmingham Young University and picked up his All-Rookie Team of the Amateur Wrestling News.

Wins also came against U.C. Davis, Stanford and Cal State Fullerton. Cal Poly took home the team title of the California College Tournament. Tyson Rondou was Pac-10 Champion in his weight class, finishing at 24-10 and a team-high 74 points. Rondou led the team to a third place finish at the Pac-10s behind Arizona State and Bakersfield.

In his senior year, the Mustangs tied No. 14 Cal Poly led all 12 Big West teams in scoring offense, free throw percentage, three-point field goals per game and turnover margin.

**Swimming & Diving**

Krista Kiedrowski led the Mustangs all season. She never lost a race in dual meet competition and finished in the top five in the 220-meter individual medley and both backstrokes at the Big West Championships. Aside from holding both backstroke records, she set a new school best in the 400-meter individual medleys at the Speedo Cup Invitational.

Kelli Quinn was the team's top breaststroker and brought home a third place finish at the Big West Championship. Freshman Kim Jackson teamed with sprinters Jodie Snowbarger and Becky Oley to take top finish in the sprint events as well as the relays.

Distance swimmers Leisha Masi and Monica Hucsh placed in the 1650-meter at the conference meet. For the first time in several years, the team fielded a much-needed diving team. Senior Dana Semonsen placed third at the Big West in the 3-meter and qualified for the NCAA West Championships where she fell short of qualifying for the NCAA Finals. Hollie Franklin also placed in the top 12 at the Big West.

**Women's Basketball**

With only one senior, the young women's basketball team struggled to succeed in its first year in the Big West Conference.

The Mustangs fell to NCAA playoff-bound Montana by just four points in the second game of the season. They finished the season 4-22 and 3-12 in the Big West. The Mustangs knocked off conference foes Long Beach State and Cal State Fullerton twice.

Freshman Stephanie Oster set a new school record, finishing with 66 three-pointers to break the old record of 56 set last season. The team also broke the school record in three point shots with 153, surpassing the old mark of 119 set in 1996.

Kristie Barnes led the team with 47 steals and Tracie Oaks had 46. The lone senior this season, forward Katie Bauer, averaged 5.1 points per game, and capped off her career as a Mustang with 196 points and 339 rebounds.

1996-97 was also the last year for head coach Karen Booker, after she and the university agreed to go their separate ways.

Assistant coach Faith Mimsmaugh has been named head coach for a one year assignment.
**SPRING**

Continued from page 7

**Men’s Tennis**

The Mustangs faced one of the toughest schedules in school history and showed they were up to the challenges, finishing 13-9. The Mustangs faced top-ranked teams UCLA and Pepperdine. Their first win of the season came against Portland and was followed by a win over nationally ranked New Mexico State in their conference debut. For the sixth straight year, the team defended their own tournament title prior to the Big West Conference tournament.

For the third straight year, nationally ranked Chris Magary played in the No. 1 position for the team. He pulled off wins in 11 of his final post-season matches, including wins over UCSB’s Jong-Min Lee and nationally ranked Steve Tallikson of U.C. Irvine.

Freshman Brett Masi had a strong season posting a 14-5 record and went undefeated against Big West opponents.

After defeating Cal State Fullerton in the opening rounds of the Big West Conference Tournament in Ojai, the Mustangs fell to Long Beach State and New Mexico State to set up a rematch with rival UCSB for seventh place. Tied after singles play, the match would be determined by doubles. With UCSB winning at the No. 3 and Cal Poly at No. 1, Cal Poly finished third in the western division of the Big West behind Long Beach State and Cal State Fullerton, who both were ranked in the top 25 during the season.

Cal Poly showed its strength toward the end of the season, with sweeps over New Mexico State and a huge season-ending sweep over Long Beach State.

**Women’s Tennis**

The women’s tennis team had to start from the ground and build up this season. With no returners from last year’s squad, the team found momentum and finished seventh in the Big West Conference. The Mustangs defeated U.C. Santa Barbara 7-2 in the first match of the season. They went on to win matches against Santa Clara, Cal State Fullerton and Saint Mary’s College.

Junior Karly Kolb went 15-8 in her first season of competition at No. 1 and junior shot putter Andy Magyary played his final post-season matches, including wins over UCSB’s Tallikson, as high as seventh in the national rankings. With key wins over Nevada all advanced to regionals - Stockton lost to the Mustangs but the Mustangs lost to the U.C. Irvine.

Senior 1,500-meter runner Nikki Shaw provisionally qualified for the 1,500 meters, but her time was just 7.53 seconds under the automatic time. Javelin thrower Chip Lilienthal and 400-meter-hurdle Cha’ren Stewart also provisionally qualified.

The women finished ninth at the Big West Championships while the men finished in a strong third place.

All four men’s pole vaulters placed in the top eight scoring positions and served as an important factor in the men’s team results. Brown placed fourth in the event. The women’s team lacked the depth and number to compete with the other powerhouse teams, according to head coach Terry Crawford.

Petithomme placed second in the triple jump and Stewart placed third in 400-meter hurdles.

**Baseball**

The Cal Poly baseball team set out to make a name for itself this season among some of the top teams in NCAA baseball. After finishing 15-15 in their first season in the Big West (OT-23 overall), the Mustangs succeeded in building a reputation as a strong team in a solid conference.

Cal Poly finished third in the western division of the Big West behind Long Beach State and Cal State Fullerton, who both were ranked in the top 25 during the season.

Cal Poly showed its strength toward the end of the season, with sweeps over New Mexico State and a huge season-ending sweep over Long Beach State.

At the Big West Tournament, the Mustangs lost to the University of Nevada, Reno in the first round, and beat U.C. Santa Barbara in the second. But they were then knocked out of the tournament by Cal State Fullerton. Fullerton, Long Beach and Nevada all advanced to regionals - the Mustangs were a win away from advancing as well.

The Mustangs’ offense was the story of the year, finishing second in the Big West in batting, while breaking records left and right. Second baseman Scott Kidd was only the fifth player in Big West history to finish with more than 100 hits in a season with 105.

Kidd also won the batting title to earn him a spot on the All-Big West Conference first team.

He was joined by designated hitter Marty Camacho, who had 14 home runs this season, to tie him with Kidd on the Cal Poly all-time home run list.

First baseman Boyd Dodder finished the season second in the books with 16 home runs.

Shortstop Taber Maier hit 25 doubles this season to put him first all-time in the Cal Poly record books.

Next season, the Mustangs will have a different look, with no starting players, except for pitchers, returning.

**Track & Field**

Two Mustangs are competing in the NCAA championships Saturday.

Senior pole vaulter Sean Brown and junior shot putter Andy Sverchek left Tuesday to compete among nationally ranked athletes in Albuquerque, Ind.

Senior 1,500-meter runner Nikki Shaw provisionally qualified for the 1,500 meters, but her time was just 7.53 seconds under the automatic time.

Javelin thrower Chip Lilienthal and 400-meter-hurdle Cha’ren Stewart also provisionally qualified.

The women finished ninth at the Big West Championships while the men finished in a strong third place.

All four men’s pole vaulters placed in the top eight scoring positions and served as an important factor in the men’s team results. Brown placed fourth in the event.

The women’s team lacked the depth and number to compete with the other powerhouse teams, according to head coach Terry Crawford.

Petithomme placed second in the triple jump and Stewart placed third in 400-meter hurdles.

**Softball**

The Mustangs had their best season yet posting a .37-17 record, reaching as high as seventh in the national rankings. With key wins over UCLA, Long Beach State and Cal State Fullerton, the Mustangs finished the season ranked 18th nationally and seventh regionally.

The team narrowly missed the NCAA playoffs.

Junior pitcher Dorie Knipfer continued to improve on all her records that already fill the Cal Poly record books. Knipfer struck out 232 batters in 1997, an average of 8.2 per game. She ranked eighth in the nation among strikeout leaders and 13th with a 0.90 ERA. She was selected as a second team All-American and First Team All-Regional. Knipfer was also named Big West Pitcher of the Year. Sara Stockton, Anna Bauer and Kelly Sack were also named to the all-conference squad.

Stockton led the conference in triples with seven and was second in basehits with 58. Cal Poly’s pitching ranked second in the conference with a team ERA of 1.32 and second in team fielding with a .965 average.

Knipfer and Smith earned back-to-back Big West Player of the Week honors during March and April. Smith finished her season with an 11-7 record.

Mitchell placed on waivers

By Ken Berger
Associated Press

CLEVELAND - The Cleveland Indians have released 35-year-old outfielder Kevin Mitchell, who failed to earn a spot in the lineup during a short stint with the team.

Mitchell, trying to prove he is still a semblance of the hitter who won the NL MVP in 1989, batted .153 with four homers and 11 RBIs in only 59 at-bats with Cleveland. The Indians designated him for assignment May 24.

"Kevin Mitchell needed at-bats, and I couldn't find him at-bats," Hargrove said.

Curtis bruised his right thumb in the altercation before batting practice May 20. Hargrove said Tuesday that Curtis would begin a rehab stint in the minors soon.

Mike Hargrove said the incident had nothing to do with the decision to designate Mitchell.

"Kevin Mitchell needed at-bats, and I couldn't find him at-bats," Hargrove said.

"I wasn't even supposed to be (at the NCAA championships), so I've got nothing to lose," -Cal Poly shot putter Andy Sverchek.

"I just going to do the best I can."

- Cal Poly pole vaulter Sean Brown

Brown was selected for the championships by a top 20 percent of athletes in the throws.

Brown's qualifying height has vaulted a height of 18-6 3/4, which was more than five inches above the 18-1 automatic mark.

"I was just really lucky to make it," said Sverchek, who had previously qualified for the 15 to 28 available positions.

"I've got nothing to lose," he said.

"I was just really lucky to make it," said Sverchek, who had previously qualified for the 15 to 28 available positions.

Brown has vaulted a height of 19-5 and made the qualifying field of 19 athletes in the shot put with a provisional mark of 59-11 3/4, even though it was well above the 57-7 provisional requirement.

"It was an event I was familiar with," he said.

At Cal Poly, Sverchek, who also plays defensive end for the football team, continued competing in the throws.

"I've got nothing to lose," he said.

Unlike Sverchek, who accredited his lack of success to his improvement to his coach, Dean Starkey.

"I'm just going to do the best I can."

- Cal Poly pole vaulter Sean Brown

Sverchek however, just barely made the qualifying field of 19 athletes in the shot put with a provisional mark of 59-11 3/4, even though it was well above the 57-7 provisional requirement.

"I was just really lucky to make it," said Sverchek, who had previously qualified for the 15 to 28 available positions.

"I was just going to do the best I can," said Sverchek, who had previously qualified for the 15 to 28 available positions.

Brown's qualifying height has been ranked 20th.

"I'm just going to do the best I can," Brown said.

Welfare

Republican governor would agree to partial state support of GA. But she criticizes the committee's proposal as a plan that "will only benefit those counties whose policies promote large GA populations.

She said Wilson would not support any proposal until the entire package is in its final form. "They're a moving target. They change daily," she said. "Everything affects everything else, so we're going to refrain from comment until they are complete.

County representatives did not respond to a telephone request for comment on the committee's proposal. The committee's proposal would also set the first statewide ceiling on them.

It is estimated to cost $256 per month in regions with high housing costs and $22 per month in lower-cost regions.

The GA funding proposal is just one of nearly 150 welfare-related issues before the special panel which is drafting a plan for California to implement welfare reforms enacted by the federal government last year, and Tuesday's action was only a preliminary step.

The panel's proposals still must pass both the Senate and Assembly before going to Wilson for his signature or veto. The committee also voted on Tuesday to liberalize qualification for welfare costs and to provide additional financial assistance to an additional 15,000 legal immigrants.
LEARNING

Poly FNR ranch in Santa Cruz, the California State University (CSU) system as a whole is in anticipation with the California Community Colleges (CCC) is planning a large-scale telecommunications project. This endeavor will include capabilities such as Internet connection, video conferencing and satellite links among all 129 joint campuses.

The primary goal of the collaborative partnership between the CSU and the CCC is to ensure we continue to provide the citizens of California with academic access, quality and affordability by utilizing technological innovations to expand learning opportunities, student services and administrative productivity," said CSU Chancellor Barry Mattz in a press release.

The total cost and implementation date of this program is yet to be announced. "Cal Poly is the right school to try these new technological advances. Overall, the technology is a good thing. We just need more practice with it," Thompson said.

MISS SLO

should be a thing of the past," said Forrest, a junior at Atascadero High School. The teen pageant winner also takes home a $600 scholarship and various hair, nail and fashion products. Next fall, Forrest will apply to Cal Poly and UCLA to study in either graphic arts or photography.

"They (Blackwell and Forrest) are both intelligent, beautiful and articulate young ladies," said Jane Que, Miss California USA 1993 and Executive Director of Miss San Luis Obispo USA.
James Williams, art and design senior, demonstrates how to stay cool and have fun this summer at the local bowling alley. If you've ever decided to stay in SLO for the hottest three months of the year then you know how hard it is to stay cool. There's no better way to beat the heat than by staying indoors in an air conditioned building. Toss in a couple of slick bowling lanes, some pins, and of course, some cold brewskies (for the 21-and-up crowd) or other chilled beverage of choice and you've found pure bowling bliss.
