Cal Poly student dies during finals week

By Jaime Borosi

Daily Opinion Editor

The heart of Cal Poly senior Mike Koehn was without rhythm for the first time when burglars found his body on the porch of a Toro Street home in Spring Valley, March 19.

Toxic fumes stole the life of the 22-year-old, but for those who were closest to him, the music of his soul lives on.

With a 3.9 cumulative GPA at Cal Poly, Koehn had taken his last final on St. Patrick's Day. He planned to participate in graduation ceremonies in June with a music degree.

Although friends said Koehn studied all the time, good grades didn't seem as important to him as the true passion in his life: his music.

Koehn described his love for music in a few lines taken from one of his poems.

"In heaven, I am music."

"...I'm hearing in heaven, we are all hearing in heaven."

"...because in heaven, I am rhythm."

"He got that horn when he was an R.A. his sophomore year," said Koehn's father Paul Koehn. "His mother got him a rental and a lesson and then he bought one of his own. He caught on quickly, he had a God-given gift."

Whether it was basketball, poetry, journal writing, music or school, Koehn's father, also a musician, said that his son was always passionate about something.

Joe Davidman shared Koehn's interest in music and the two became friends during the London Study Program. With Koehn on saxophone and Davidman on guitar, the two spent countless hours playing together, sometimes into the early hours of the morning.

"When he spoke, when he wrote, when he played, it was all about music," Davidman said.

Davidman said Koehn's love of jazz and musical creativity made him an inspiration.

"He had a heightened ability for expression," Davidman said. "There are a lot of complex people out there, but Mike could express himself musically with or without words."

An all-night music jam and chess match would unknowingly become a final farewell for Davidman and Koehn. The two would never play together again.

"The night before he passed away, I stayed up all night with him," Davidman said.

PAC alcohol license still taking shots from protesters

ABC shuts off McCarthy’s tap

By Mary Hadley

Daily News Editor

McCarthy's Irish Pub, a downtown watering hole known for its laid-back atmosphere, friendly bartenders and arguably the best Bloody Mary in town, will reopen at 10 a.m. today.

The bar was closed down by the Alcoholic Beverage Control Board (ABC) for 15 days beginning March 18.

The actual violation leading to McCarthy's closure occurred more than two years ago. A Jan. 29, 1996 ABC investigation cited McCarthy's for selling alcohol to a woman who they believed was “obviously intoxicated.”

Williams appealed the decision. During the hearing, six witnesses testified for the appellants. The testimony included denials that the woman was intoxicated and statements that the drink in question was bought by a patron other than the woman. The bartender on duty testified that the woman was “obviously intoxicated,” yet was served drinks anyway.

Investigators watched the woman for 30 minutes and said after being turned down by a bartender twice, she was eventually sold three mixed drinks.

By Josie Miller

Daily Editor in Chief

The fight for the right to sell alcohol at the Performing Arts Center is far from over.

The appeal of a Jan. 22 ruling that granted Cal Poly Foundation a license to sell beer and wine will postpone, and possibly prevent, the sale of alcoholic beverages at the PAC.

The judge’s ruling—which was based on a lengthy Alcoholic Beverage Control Board (ABC) hearing late last year—was set to go into effect March 9.

Because of the lengthy appeal process, a final decision won’t be made for several months, or possibly longer.

In the meantime, the PAC will continue to sell alcohol using event-by-event temporary permits.

The appellants—most of the same people whose original protest of the license resulted in last year’s hearing—are appealing Administrative Law Judge Sonny Leo’s decision on several legal points.

NOTIFICATION OF RESIDENTS

First, when a business applies for a liquor license, all residents within 500 feet of the business must be notified by mail of the application.

Sierra Madre dorm lies within this 500-foot radius. Foundation took the position that since dorm dwellers would not be living in the dorms at the time the license would go into effect, they were not residents.

The law, according to Foundation Associate Executive Director Robert Griffin, is meant to protect permanent residents who could experience the effects of alcohol sales at a nearby facility.

Based on this, "we do not consider that students living in the dorms were residents," Griffin said.

Griffin said he did do a walk-through of the dorms immediately adjacent to the

Drinking Dilemmas

Judge throws out Jones’ suit

By John Schumann

Associated Press

WASHINGTON—In a dramatic victory for President Clinton, a judge threw out Paula Jones’ lawsuit Wednesday and said her claim of sexual harassment wasn’t worthy of a trial even if the president’s alleged behavior was “boorish and offensive.”

Jones “has failed to demonstrate that she has a case and the court therefore finds that there are no genuine issues for trial.,” U.S. District Judge Susan Webber Wright wrote in Little Rock, Ark.

Kiss the orange fences goodbye

By Kelly Victoria Teaker
Daily Staff Writer

No more orange fences. No more ripped up streets. No more jackhammers trying to compete with professors’ lectures. Utilidor is over!

Wednesday marked the end of the campus-wide utilities upgrade project, Utilidor, with a celebration in the University Union from 11 a.m. to 1 p.m. Silly games and a free lunch provided by Utilidor’s contractor, Swinerton and Walberg, were part of the festivities.

Beginning in August 1996, the 20-month Utilidor project tore up campus roads, limited parking and caused traffic headaches and a muddy mess for both pedestrians and drivers.

The campus-wide electrical system was upgraded, the district heating system was replaced and the water system was improved.

Estimates show that Utilidor should save 40 percent of the total cost per year for gas power and 15 percent for electricity.

The project’s cost including design, management and electrical substation work totaled $28 million.

“We have tried to keep the project humorous, so this celebration is keeping in tune with that theme. We thought April Fool’s day was appropriate for the official end.”

The celebration gave students two ways to win a free T-shirt reading “I survived Utilidor” on the front and “Life is a ditch ... get over it” on the back. This unofficial slogan was one of many that were created to develop a lighter attitude about the project. Other slogans included, “Been There, Done That” and “You Can Run, But You Can’t Drive.”

The first way to get a shirt was to play three games related to Utilidor. One game had students try to toss small metal rings on top of a piece of orange fencing — an omnipresent reminder of Utilidor throughout campus. The project’s cost including design, management and electrical substation work totaled $28 million.

The second way was to win a free T-shirt. The drawing will be held May 1 at noon.

Students throw hard hats over cones to win Utilidor T-shirts.

said. "It was kind of like our good­

Davidman remembers that Koehn didn't have his saxophone that night, but instead improvised and used other items laying around for instruments. As Davidman strummed his guitar, Koehn made use of a set of drumsticks, the couch, partially filled glasses on a table and bottles which he tapped violently with pens and pencils as he sang Carlos Santana's "Oye Como Va."

"Carlos Santana would have been proud," Davidman said.

Davidman wasn't the only one who shared in Koehn's world of music.

Koehn and Jahari Tracy, a biochemistry senior, met in 1994 while working as resident advisers in the dorms. The two used to sit in Koehn's room, relax and listen to jazz. Tracy said Koehn would sit back in a black leather chair in his small dorm room and listen to the music for what seemed like ages.

With or without brass horn blowing in the background, Koehn sought out conversation with everyone he met. Tracy said that he appreciated different types of people and enjoyed engaging in deep philosophical conversations.

Tracy said Koehn's honesty and openness sparked sincerity in others. Learning more about people was one of Koehn's favorite past­

times.

"He was the kind of person who needed to share his feelings," Tracy said. "He'd stop me and say, 'Uh-oh, see. You're not thinking deep enough, you biochemistry major. Get deeper, he would say.""

The two started playing music together and soon after agreed to test out their act on the local crowd. "I play the African drum and we used to go to sit in front of Juice Club during Farmers' (Market) and play all night," Tracy said. "He would put a hat, no it was his sax case, out in front of us, and people would stop by and talk with us and tell us that we sounded good."

Koehn's enthusiasm and dedication will be missed by his professors as well as his friends.

Marketing professor Ram never knew why he went under the bus," Bolts said.

Koehn had just completed his last quarter exam and was celebrating his graduation with friends that night. People who knew him said he didn't drink regularly, making it likely that the alcohol would have a stronger effect.

Business senior Michele McGinnis had picked up Koehn and a mutual friend from a downtown bar and dropped him off in front of his Peach Street house around 1 a.m. Wednesday.

"You could tell he had been drinking and he knew where he was when I dropped him off," McGinnis said. "He was fine and the next thing I knew he was walking down the street. I didn't know how drunk he really was."

McGinnis, who met Koehn through the London Study program last spring, remembers him as a really friendly and nice person.

"I couldn't believe it, it didn't seem like this was possible. He was a genuine great guy," she said. — By Shabbi Hebshi, Daily news editor

**McCarthy's from page 1**

McCarthy's co-owner passes away Tuesday

Daily Staff Report

Timothy Williams, co-owner of McCarthy's Irish Pub, died unexpectedly Tuesday afternoon at French Hospital in San Luis Obispo. Williams, 59, was born in San Luis Obispo and graduated from SLO High in 1956. He worked at Mid State Bank for more than 30 years, most recently as bank manager, before retiring eight years ago.

In 1991, Williams and Daniel Conners bought McCarthy's, and ran the pub together.

Williams' untimely death came as a shock to his friends, and put a damper on today's reopening of McCarthy's, which had been closed for 15 days.

"They will reopen, despite the grief felt by the entire staff," said Kathy Conners, Daniel Conners' wife. "I'm in shock. It just doesn't seem real yet," said Michael Clemmensen, a bartender at McCarthy's.

Childhood friend and classmate Pat O'Daniels remembers Williams as a person with a love of the outdoors.

"He's a big outdoorsman who loves to fish." O'Daniels said. "He loved to fish."

Koehn's enthusiasm and dedication will be missed by his professors as well as his friends.

Off your fat ass!

I've got a problem with you and your fellow Cal Poly students. I want to tell you about a theory I call "The Comfortable Ass." Here it is; your butt is about a theory of mine called "The theory that makes a college education more difficult for you from among those who can't afford those official college fees." That's right, the cost of college at Cal Poly will prevent you from belonging to a student government, which manifests itself in a "bipartisan concern." At the University, all official responsibilities, so you don't have time to...
May meeting. The delay in negotiations means trustees will be unable to vote on the deal at this month's meeting and will have to wait at least another month.

"There are some differences in the new agreement," Ernst said. "But nothing has drastically changed. When we go public, I don't think people are going to say, 'What in the world is this?'" Ernst said the final documents will be available on every campus after April 13 for a 30-day public review. After that, 15 days will be reserved to consider comments submitted during the review period.

"I expect it to take much longer than 15 days to synthesize the information we get during the review," Ernst said. "It really depends on how much feedback we get.

Still, Ernst expects the plan to be approved by the end of the spring academic year.

"The first phase of actual CETI work, which will be digging trenches and wiring, will probably start in the fall," Ernst said.

Brent Keetch, Cal Poly interim director of university relations, said the delays in CETI approval are a result of the plan's magnitude.

"Nothing of this size has been tried before in terms of public higher education," Keetch said. "There are some really difficult issues to work out."

Keetch said Cal Poly will be very involved during CETI's planning and implementation.

"The standing (technology) committee will probably be the most involved with the review," Keetch said. "Those committees include faculty, staff and students. I am sure President [Warren] Baker makes sure that the Chancellor's office knows exactly what concerns Cal Poly has."

Keetch said CETI will play a significant behind-the-scenes role on every CSU campus.

"We expect CETI will provide a lot of technology products and price breaks. But students and staff will always have the option not to purchase CETI products. This won't be another Pepsi deal," said Brent Keetch, Cal Poly interim director of university relations.

CETI, and communications could want to assume as much risk as CETI can handle, Reed said.

May represent a 90-per-cent chance of completing as we speak," Ernst said. "The plan to be unveiled the following day.

CSU officials had hoped to unveil the entire deal by April 1, but Ernst could not reveal details until after public review. After that, 15 days will be reserved to consider comments submitted during the review period.

**CETI**

Trustees' most recent meeting. Chancellor Reed and negotiations had bogged down over telecommunications services, a key component of the multibillion-dollar proposal to finance and maintain a high-speed, high-capacity telecommunications network on CSU campuses.

Becky Raad, GTE does not want to assume as much risk as originally planned. The company would be about a 40-per-cent partner in CETI, and telecommunications could generate $3 billion for the partnership under the original proposal.

Reed, who earlier said the proposal had about a 90-per-cent chance of success, reduced his prediction to 50 per cent after delivering the news of difficulties with GTE.

David Ernst, CSU technology strategist, said an agreement is being hammered out.

"Negotiations are being completed as we speak," Ernst said. "The partners are 99 percent in agreement. Now everybody has got to go back to their boards of directors to get the corporate OK."

Ernst could not reveal details of the negotiations, saying the partners have to wait until the unveiling of the plan.

Ernst said the timeline for approval of the plan has been revised. On April 13, Chancellor Reed will meet with the CSU college presidents to discuss the final details of CETI. If everything goes according to the new schedule, the complete plan will be unveiled the following day.

CSU officials had hoped to unveil the entire deal by April 1 so a public review could be finished before the trustees' mid-April meeting.

**UTILIDOR**

from page 2

Another game asked students to make up at least five words. This wasn't easy for the word Utilidor. Some comical answers included tard, tard, dilutor, dirt and idol.

In the last game, people tried to throw hard hats onto orange pylons. The students who tried to complete all three games received a free T-shirt.

Another way to win a free T-shirt was to participate in the non-traditional run/walk at 12:15 p.m. Students were asked to follow a golf cart decorated with caution stripes driven by Rex Wolf, campus architect who was the campus manager for the project. The run/walk started from the UU and continued up Perimeter Road all around campus where the vault, the new head, was never built in place. "We are having this event to celebrate that it is over," Wolf said. "This is really good for the students."

Overall, students are pleased to hear that Utilidor is over and the campus is back to normal. "I am relieved, maybe things will be nicer around here," said student Richard Bush, agriculture and business senior. "There will be less hold-ups and less problems with my e-mail account."

"It is a nightmare and resources sophisticated Erik Mood is also glad to see Utilidor leave. "I think it is great art," he said. "Utilidor made it hard just to even get around."

Sofonisba Anguissola, (1532-1625); One of the artists who will be studied in Art X316. Born into a northern Italian family, Anguissola had the benefit of being educated along with her brothers because her father believed all of his children should be educated equally. A sketch of her work was sent to Michelangelo who liked it so much he kept it and eventually gave it to a friend as a gift.

Rethinking Art

Art X316: Women as Subjects and Objects in Art History

---

"Portrait of Sofonisba Anguissola" (1560) Anguissola portrayed herself as being painted by another artist.

Ecology and systematic biology senior Angela Sandoval enjoys this aspect of Wetzel's teaching style.

"She's good at spurring discussions, and she makes good use of slides," Sandoval comments. "She uses slides not just to show you the work, but to tell you why it's important.

"Students had different agendas for taking a course about women artists," Sandoval explained "I'm interested in art in general but also in specifics of feminist theory as it applies to art.

Speech communication senior Gabriel Jones wondered about the lives of women artists asking "What were they thought of back then?"

Art and design senior Amanda Swanen was interested in the women whose influences are not recognized in art history.

"A lot of times it seems a woman was present in an artist's life who was an artist herself and she was never recognized as one," Swanen said.

Wetzel considers the Cal Poly campus much more diverse than the relatively small liberal arts environment of the University of Puget Sound.

"For one thing, there were only about 2000 students enrolled there," said Wetzel. "There's greater economic, age..."
Watercolors to wood
By Janie Zaffett
Art Weekly Writer

Watercolors, pastels, acrylics and wood are just some of the media used to create the pieces now on display in the University Union Art Galerie.

The diversity of various media into one show is a reflection of the different types of art Cal Poly students are interested in creating.

The show called "A Jury of Your Peers," is a revival of a student competition from the past. Following the tradition of the previous shows, this exhibit is open to all Cal Poly students.

"A Jury of Your Peers" is exactly that. Winners were determined by student judges—whose majors range from art to architecture to finance—and one art alumnus. Since the Galerie received more than 40 pieces of art, the judges had their work cut out for them.

The diversity of the pieces received was a little “like comparing apples to oranges,” said Jeanne La Barbera, Galerie Curator, “We (the Galerie) did the best to give a fair number of awards.”

The diversity also made it difficult to separate the pieces into categories. The judges had to critique art that ranged from two-dimensional pieces such as photographs, self-portraits and abstract paintings to three-dimensional pieces like a pop-corn-filled bass guitar, ceramic pottery and sushi tray sets.

Participants were charged a two-dollar entry fee per piece with a five-piece maximum. Cash prizes derived from the entry fees were awarded in both the two-dimensional and three-dimensional categories—$75 for first place, $50 for second and $25 for honorable mention. Graphic arts and communication junior Matt Thomas won first prize in the two-dimensional category. His piece, "Doomsday Martians," is made of vibrant acrylics and framed with a gold-colored frame.

The second place piece is a self-portrait by art senior Long Nguyen. Nguyen used pastels to make a portrait of himself in his village in Vietnam.

Art sophomore Brian Kong received the honorable mention for his “Pause Cafe,” a small, colorful piece rendered through a printmaking process.

First prize in the three-dimensional category was awarded to biochemistry sophomore Curtis Attebery for his “Solar Bass.” The wooden bass guitar is composed of maple, a purple heart and a Pan Ferro fret board.

Second place went to architecture senior Andy Breck for his lamp made of concrete, steel and wood.

Biochemistry senior Susanne Meissner's untitled creation captured the honorable mention. Her piece depicting a person sitting in a chair is made of wood, string, plaster and wire.

In addition, a special judge's award and $25 prize were awarded to art junior Christian Shubin to commend his originality and craftsmanship. Shubin's three-dimensional piece was a bass guitar containing blue resin with popcorn embedded into it.

Displayed along with the competition pieces are pieces by the judges and past honorees.

"We put up a juror section so participants could see the quality of the work by those who were judging them," said La Barbera. "The past honorees are displayed so that people can see the quality of work students have done in the past and the quality of work that is being done now."

"A Jury of Your Peers" runs March 31 through April 30. A reception for the artists will be held April 18 during Cal Poly's Open House from 12 to 3 p.m. The Galerie is open Tuesday, Thursdays and Fridays from 10 a.m. to 4 p.m., on Wednesdays from 10 a.m. to 7 p.m., and on Saturdays and Sundays from 12 p.m. to 4 p.m.

Leslie Baumberger
Director

This "Solar Bass" guitar by biochemistry senior Curtis Attebery won first place in the three-dimensional category.

Name the Bookstore Contest
Over 200 entries were received. The name receiving the largest support was to keep the name El Corral Bookstore.

The judging committee selected the following 5 names as winners. Since there were multiple entries for some of the winning names, El Corral Bookstore is awarding prizes to all winning entrants.

Get Lei'd at the Vets Hall

By Andy Castagneo
Daly Steal Writer

Up and coming ska band My Superhero will bring its upbeat sound to the San Luis Obispo Veterans Hall Friday for Delta Chi Fraternity's Del Tikki concert. A portion of the ticket sales will benefit child abuse prevention and the Parents' Alert Center on Prado Road.

Teen Heroes, Broken Pretzel and Cal Poly student-band Hotwezel will join My Superhero for the four-hour show starting at 8 p.m. Tickets are $6 at the door or $5 pre-sold in the UU Plaza, Boo Boo Records or Liquor CD.

Orange County-based My Superhero has played together about five years, said concert promoter Billy Quan. Fiction Records as an album that is "art-kitsch '70-philia on the smoothed-out pop-industrial trip,' "Skateboard Music," premiered in 1995. "12 Bar Blues" is Weiland's way of saying that he's still half the man he used to be.

The April issue of Spin magazine describes "12 Bar Blues" as Weiland's "declaration of his own talent" after playing with STP for five years and adds that it's a "creepy mix of lounge tunes, melodramatic pop cabaret and nihilistic, self-loathing lyrics." Accompanying Weiland on this solo trip is bassist Martyn LeNoile and guitarist Peter B Stefano (born for Pyro Rox; Grammy nominated jazz pianist Brad Mehldau) and ex-Quill drummer, life-long friend and now writing partner Victor Wooten.

Produced by Daniel Lanois who has previously worked with U2 and Peter Gabriel, "12 Bar Blues" is not rock, nor is it pop. This is something that Weiland is glad of.

"Rock'n'roll is dying because current concepts are trying so hard to look like their mothers full of stomach acid," Weiland said in an Atlantic Records press release. "You get that shit in the air and you don't even have to listen. You can tell... that I can't even say that they suck you know? It showed that we can still make records for Americans who watch too much television and dressing them up in golf wear and T-shirts and calling them 'alternative.' At least in the early Nineties, when (STP) and Nirvana and Pearl Jam and Stone Temple Pilots and other record companies were making an attempt at developing careers.

Developing a career as a soloist in Weiland's main focus right now, and any thoughts of an STP reunion are being put on the backburner. Currently the other members of STP, Eric DeLeo and Dean DeLeo--are contributing to the business venture with the band Talk Show, for which they have already released an album last fall.

With all the changes that he has been going through this past year, the only thing that has remained a constant for Weiland is his song writing, which continues to improve with each album he's on. Weiland has proven to have genuine talent in composing, and his lyrics are pure poetry--just as they should be.

"12 Bar Blues" takes the listener on a melodic rollercoaster through Weiland's mind, heart and soul. It touches on inner-feelings and anxieties that he has experienced while going through the process of breaking and remaining clean from heroin.

Several songs on the album are also largely inspired by the likes of David Bowie, the Beatles and a solo, but Weiland's, Weiland's hero is Bowie and he views himself as a cracked actor in a similar vein as the Thin White Duke.

The album's title track, "Borax," is a spin-off of Bowie's "Rock'n'roll Suicide" and in the song which is named after and is about the sci-fi cult classic starring James Fonda--Weiland lamented, "Gah, while our weight of the all pain I've given with my name is a 1-bit piece of shit." In the soulful "Divider," Weiland begins to describe a girl with a fairly active libido, but turns the song around to describe how he used to be, "A drinker, he's a booster/ a junkie, he ain't shit. Some of them get famous. But meet them right now. With electric-throwing and intermittant distortion in "Cool Kids," he searches for an identity. Why you ever off of my life? I'm everything I am. This is everything I should be. I was. I'm everything I never was, I'll never be."

"12 Bar Blues" also features "Lady, Your Roof Brings Me Down," which can be found on the album plus a new version of "Mockingbird!" which for quite awhile could only be found on the Tank Girl soundtrack.

Musically and lyrically, "12 Bar Blues" picks up where Weiland left off with STPs last release, Tour Music. Songs From the Veteran Gift Shop. No longer is Weiland the husky-throated frontman from the old "Pink" and "Shee Type Thing" days, and this isn't necessarily a bad thing. He's followed up and taken his talents to a completely different level that doesn't compare to "The De Leo brothers and Kerr--at least for right now.

By Matt Berger

I left my Mind at a Las Vegas blackjack table next to a heart on vacation from San Francisco, - an excerpt from the unauthorized biography of Tom Jones. For that very reason, I cannot be held responsible for anything I write in this column.

"When you're driving through industrial, central California, you're nine to run out of good tape and Big Gulf." - Berger's Law No. 1

By Melissa M. Gotler
Special to The Daily

Leading the pack of post-grunge alterna-rock artists that have turned obstacles into former Stone Temple Pilot lead singer Scott Weiland is "12 Bar Blues," Weiland's first full-length album after taking a break from STP last year due to cope with a heroin addiction. Now clean and sober, Weiland returns to the music scene on a completely different and exciting level.

Described by label Atlantic Records as a solo album that is "art-kitsch '70-philia on the smoothed-out pop-industrial trip," "Skateboard Music," premiered in 1995. "12 Bar Blues" is Weiland's way of saying that he's still half the man he used to be.

The April issue of Spin magazine describes "12 Bar Blues" as Weiland's "declaration of his own talent" after playing with STP for five years and adds that it's a "creepy mix of lounge tunes, melodramatic pop cabaret and nihilistic, self-loathing lyrics." Accompanying Weiland on this solo trip is bassist Martyn LeNoile and guitarist Peter B Stefano (born for Pyro Rox; Grammy nominated jazz pianist Brad Mehldau) and ex-Quill drummer, life-long friend and now writing partner Victor Wooten.

Produced by Daniel Lanois who has previously worked with U2 and Peter Gabriel, "12 Bar Blues" is not rock, nor is it pop. This is something that Weiland is glad of.

"Rock'n'roll is dying because current concepts are trying so hard to look like their mothers full of stomach acid," Weiland said in an Atlantic Records press release. "You get that shit in the air and you don't even have to listen. You can tell... that I can't even say that they suck you know? It showed that we can still make records for Americans who watch too much television and dressing them up in golf wear and T-shirts and calling them 'alternative.' At least in the early Nineties, when (STP) and Nirvana and Pearl Jam and Stone Temple Pilots and other record companies were making an attempt at developing careers.

Developing a career as a soloist in Weiland's main focus right now, and any thoughts of an STP reunion are being put on the backburner. Currently the other members of STP, Eric DeLeo and Dean DeLeo--are contributing to the business venture with the band Talk Show, for which they have already released an album last fall.

With all the changes that he has been going through this past year, the only thing that has remained a constant for Weiland is his song writing, which continues to improve with each album he's on. Weiland has proven to have genuine talent in composing, and his lyrics are pure poetry--just as they should be.

"12 Bar Blues" takes the listener on a melodic rollercoaster through Weiland's mind, heart and soul. It touches on inner-feelings and anxieties that he has experienced while going through the process of breaking and remaining clean from heroin.

Several songs on the album are also largely inspired by the likes of David Bowie, the Beatles and a solo, but Weiland's, Weiland's hero is Bowie and he views himself as a cracked actor in a similar vein as the Thin White Duke.

The album's title track, "Borax," is a spin-off of Bowie's "Rock'n'roll Suicide" and in the song which is named after and is about the sci-fi cult classic starring James Fonda--Weiland lamented, "Gah, while our weight of the all pain I've given with my name is a 1-bit piece of shit." In the soulful "Divider," Weiland begins to describe a girl with a fairly active libido, but turns the song around to describe how he used to be, "A drinker, he's a booster/ a junkie, he ain't shit. Some of them get famous. But meet them right now. With electric-throwing and intermittant distortion in "Cool Kids," he searches for an identity. Why you ever off of my life? I'm everything I am. This is everything I should be. I was. I'm everything I never was, I'll never be.

"12 Bar Blues" also features "Lady, Your Roof Brings Me Down," which can be found on the album plus a new version of "Mockingbird!" which for quite awhile could only be found on the Tank Girl soundtrack.

Musically and lyrically, "12 Bar Blues" picks up where Weiland left off with STPs last release, Tour Music. Songs From the Veteran Gift Shop. He's followed up and taken his talents to a completely different level that doesn't compare to "The De Leo brothers and Kerr--at least for right now.
The class enrollment was a bit of a challenge for Wetzel who was hoping for a smaller group. She hated turning away people who needed an art class for their major. However, “both the department and the College of Liberal Arts resources aren’t always there to meet that demand for us.” This is partly why it was difficult to teach something new like this course. Partly why it was difficult to teach something new like this course.

Cal Poly Chords will perform works by two local composers, along with music from Johannes Brahms, at their Home Concert this Saturday at 8 p.m. in the Performing Arts Center's Cohen Center.

The high student turnout, nevertheless presses the class need. Wetzel is planning to offer the class next spring as well.

"While the court will certainly agree that plaintiff's allegations describe offensive conduct, the court... has found that the governor's alleged conduct does not constitute sexual assault," she ruled.

Her 39-page ruling abruptly halted a sensational lawsuit that had haunted the White House for more than three years and threatened to place his sexual conduct with a variety of women before the nation in a historic trial.

Clinton, wrapping up a six-nation tour of Africa, was so stunned by word of the ruling that he asked if it was an April Fools' joke. The president is "pleased that the a»urt will certainly end the political jeopardy for Clinton if the trial had gone forward," wrote Jones' lawyer Kenneth Starr in a statement. "The plaintiffs' allegations fail far short of the rigorous standards for establishing a claim of outrage under Arkansas law," Starr wrote. "While the ruling is reversed on appeal, there will now never be a determination of who was telling the truth and who was lying," her law firm said in a statement.

"I'm shocked," said Susan Carpenter McCullin, Jones' spokeswoman. "I'd be less than honest if I didn't tell you I was completely blown away by this decision."

While the White House cheered the decision, Clinton's legal woes are far from over. Whitewater prosecutor Kenneth Starr is pressing his criminal investigation into whether Clinton lied about having sexual relations with White House intern Monica Lewinsky and encouraged her to cover it up.

"Judge Wright's ruling today has no effect on our authority and we will continue working to complete the investigation as expeditiously as possible," Starr said in a statement just hours after the ruling.

The White House brushed off the lingering issues. "This has been a fact of life and no doubt other things will remain a fact of life for him," McCurry said. He said Clinton had shown "extraordinary discipline" in not being distracted.

"Although the governor's alleged conduct, if true, may certainly be characterized as boorish and offensive, even a most charitable reading of the record in this case fails to reveal a basis for a claim of criminal sexual assault," she added.

The political jeopardy for Clinton if the trial had gone forward was evident in the last few weeks, when both sides in the lawsuit waged a sensational war of words in court filings that included details of alleged relationships between Clinton and a half-dozen women. Throughout, however, the president's approval ratings remained at record highs.

Jones' lawyers introduced secondhand allegations — denied by the supposed victim — of an alleged sexual assault by Clinton two decades ago. They prompted a former Miss America to acknowledge she had consensual sex with Clinton in 1983. And they led former White House worker Kathleen Willey to appear on national television with allegations of an unwanted sexual advance by Clinton near the Oval Office.

An Open Letter to Students
Planning to Attend Law School from
U.S. News & World Report

Dear Student:

DON'T YOU JUST HATE TO BE GRADED? Well, by their shrill protests about U.S. News & World Report law school rankings, so do most of the deans of the law schools you are considering. However, if a law school graduate with both a J.D. and a LL.M degree, I can tell you that these same deans will subject you to rigorous grading. You will be required to endure lectures from tenured professors who have not changed their class notes since the Battle of Hastings. Then, after attending class for a full semester, you will be given one exam to determine your grade. One exam, one semester, one grade. One roll of the dice to measure your performance.

At U.S. News & World Report we are far more equitable (to use a legal term). We have a multi-faceted, multi-dimensional, sophisticated ranking system developed and evolved over many years to give you guidance on what may be one of your largest financial investments and certainly one of the most important choices for your career in law and perhaps beyond. While our law school rankings should not be the only criteria in your choice of a law school, they should certainly be an important part of the analysis.

Get your copy of U.S. News & World Report's Best Graduate Schools guide on newsstands now. Or, to make it easier for you to see the book that 164 law school deans would prefer you not see (notwithstanding their commitment to the First Amendment), call 1-800-836-6397 (ask for extension 5105) and I will arrange for a copy of the book to be sent directly to you at $1 off the cover price. This will also ensure that you have a copy of these important rankings because, as a result of publicity surrounding the deans' determination to have you ignore the rankings, they are a very hot item.

These law school rankings are a small part of our philosophy of News You Can Use information we bring you in each issue of the magazine to help you manage your life.

Good luck in law school and good luck on making the right choice.

Kindest Regards,

Fred Drasner
Chief Executive Officer

Kindest Regards,

Sincerely,
The protesters, on the other hand, informed the judge that local and campus police support the sale of alcohol at the PAC, a fact that Judge Lo stated was strongly considered in making his decision.

"Most of the restrictions were at Campus Police Chief Tom Mitchell's bequest, he said. "I would not have given my support without the restrictions," Mitchell said. "I don't want people walking out there really drunk."

Some of the restrictions on the license include:

- Giving peace officers the right to stop sales at any time.
- Limiting the purchase of alcoholic beverages to two per person at a time.
- Preventing the consumption of alcoholic beverages in the theater seating area of the PAC.

Applicants aren't very optimistic about the outcome. "We brought up at the hearing the fact that there were residents living within 500 feet who had not been notified. Judge Lo chose to disregard that fact," San Luis Obispo residents Stephen and Gina Nelson wrote in a letter to the ABC. "We hereby appeal the Department of Alcoholic Beverage Control decision in this case."

Another letter of appeal from six other protesters said: "The judge accepted the Foundation's verbal assurance that there were no residents in the dorms. The judge called the applicants' verbal testimony fact, and the protesters' verbal testimony hearsay."

Even if students were living in the dorms, Griffin said that's not a "fatal flaw" because students still had the opportunity to protest the license or testify at the hearing.

MAYOR'S STATEMENT

The protesters had also claimed in the original hearing that Cal Poly students were against the consumption of alcoholic beverages on campus.

Judge Lo wrote in his decision, however, that "no student filed a protest against Applicant Foundation's application for an alcoholic beverage license, and no student testified against the application."

The group appealing the decision said it feels the judge erred on this point.

"The judge disregarded the statement of the mayor of the city, that the city being co-owner of the building applying for the license, upon the request of the student body president, asked the Foundation to withdraw the application," the group wrote in its notice of appeal to the ABC.

THE SECOND HEARING

A date for the hearing, which will take place in Los Angeles, has not been set.

The second hearing will be smaller-scale than the first. The Appeals Board reviews the transcripts of the first hearing, reviews legal briefs submitted by each side of the debate and hears a short statement from each party.

Appellants aren't very optimistic about the outcome.

"We're still against the alcohol thing, though the odds are slim that we're going to prevail," said Bob Stern, a San Luis Obispo resident since 1971. His wife Adele said her husband is a little cynical. "We understand that the system sometimes knows to money. Money talks," she said. "If right prevails, they won't get their license."

Enough restrictions on the license have been agreed upon that local and campus police support the sale of alcohol at the PAC, a fact that Judge Lo strongly considered in making his decision.

"Most of the restrictions were at Campus Police Chief Tom Mitchell's bequest, he said. "I would not have given my support without the restrictions," Mitchell said. "I don't want people walking out there really drunk."

Some of the restrictions on the license include:

- Giving peace officers the right to stop sales at any time.
- Limiting the purchase of alcoholic beverages to two per person at a time.
- Preventing the consumption of alcoholic beverages in the theater seating area of the PAC.
Spring is here at ASI Recreational Sports!

It’s your chance to get involved at Recreational Sports by signing up for our spring classes. Sign up at the front desk and spring into fitness with Cal Poly Rec Sports!

Class Offerings:
- aerobics
- swing dancing
- power pacing
- outdoor cross training
- shorin-ryu karate
- massage
- self-defense/escrima
- tang soo do
- adult swim yoga
- abdominal conditioning
- water workout

Intramural Sports

Spring ’98 leagues:
- 6x6 Speed Soccer (CR)
- 4x4 Sand Volleyball (M, W, G CR)
- 5x5 Basketball (CR)
- 5x5 Pitch (M, W, G CR)

Free agents meetings:
- where: Monday, April 6 at 6 p.m.
- where: Main Gym

Intramural sport officials
- If you are interested in becoming an official for soccer, softball, or basketball, call the Cal Poly Recreation Center.

Team managers’ meeting
- Team managers’ meeting April 1 Intramural Sign-ups begin at 10 a.m. in the Rec Center.

Spring ’98 tournaments:
- 5x5 Basketball (limited to 32 teams)
- Racquetball Singles
- Tennis Singles

Softball grabs five wins; improves Big West record

The Cal Poly softball team mounted an attack on the field that most teams have been unable to beat.

Weather permitting this weekend, the Mustangs will host UC Santa Barbara, Loyola Marymount and Sacramento State at their softball field.

Tenth-year Head Coach Lisa Boyer is one win shy of win No. 300 in her coaching career. Boyer currently stands at 299-176-2 all time in her career and at Cal Poly.

Cal Poly picked up a big two-game sweep at No. 19 Cal Berkeley last Wednesday, winning 2-0 and 7-4, but dropped a 4-3 decision to San Jose State on Thursday.

Against the Bears in game one, Desarie Knipfer picked up the win, allowing just four hits and striking out 11.

In game two, the Mustangs rode the bat of Kelly Sack who doubled once, tripled twice and homered to lead the way in the 7-4 victory that took 14 innings to complete.

In two games last week, senior centerfielder Sack went 5-for-6, including a 4-for-5 performance. Along with her double, two triples, and homerun, Sack scored two runs and tallied four RBI against the Bears.

Sack now leads the Mustangs in batting (.344), runs (11), hits (32), and triples (6).

Knipfer is posting great numbers so far for this season. She holds an 11-4 record and a 0.46 ERA and seven shutouts. Even more amazing is the fact that she has struck out 177 batters this year and allowed only nine walks. In the past seven games, 36 innings, she has not allowed one walk.

In the next five years California will need more than 125,000 NEW TEACHERS!

YOU could be one of them, since Cal Poly has one of the best teacher education programs in the state!

Teachers are educated at Cal Poly?

You bet, at the UCTE!

Find out about teaching as a career, and find out about Cal Poly’s University Center for Teacher Education

Call 756-6163
Cal Poly left the field behind after 16 feet. With teammates clapping in rhythm to his steps, Brad Pickett was the only Mustang to clear 17.00 1/2, but couldn't clear 18.00 3/4.

Logan Nichols and Joe Koenig finished in a tie for second and Kris Malt finished fourth for the Mustangs.

Cal Poly also had success in the javelin. Chip Lillianth win the event on his fourth throw of 214-10. In the high jump, Mike Parker finished first and Matt Hard third for Cal Poly. Both jumpers were unable to clear seven feet so the winner was decided by misses through the preliminary rounds.

The best performance for the men on the track was by Kaesuma Conwright. He finished first in the 200m with a time of 20.76 and second in the 100m.

Jean Phillips picked up second for the Mustangs in the 800m for women. Kenny Goodrich picked up second place points with a second place finish in the 5,000m.

WRESTLE from page 12

With too many wrestlers for the opening round, each had to wrestle in a playoff, preliminary round. He lost a 10-3 decision to Ben Barton from Penn State.

McGee also lost a 5-3 decision to Kari Roessler from Illinois.

All four were sent to wrestle in the consolation round. Wells beat two opponents to finish second all in finishing one victory short of being named All-American.

After breaking his hand in practice on French added two more wins to his record before falling out of the tournament.

In the first round, Wells major decision No. 2, 15-5 range from Penn State, 15-5. And the two met again in the final round, with Wells winning a 9-2 decision and again finish seventh in the nation.

En route to becoming an All-American, Wells won a 4-2 decision over No. 10 Matt Suter from Arizona State. Wells lost a 12-4 decision to No. 2 Trevor McLaughlin, 18-0, a 7-1 decision over Sam Klise of West Virginia.

Wells wrestles way to All-American

Five Cal Poly wrestlers traveled to Cleveland, Ohio for the NCAA Wrestling Championships; after some hard fought battles only one came back an All-American.

Cal Poly junior David Wells was ranked 15th in the nation when he arrived at the national championship. He finished seventh and was named an All-American.

Cal Poly athletes are excelling in their sports and receiving national recognition.

When Cal Poly wrestler David Wells placed seventh in the national championship he stepped onto the podium an All-American and his smile was televised on ESPN all over the nation.

The Mustangs had a strong showing at the NCAA Division I wrestling championship in Cleveland, Ohio March 19-21.

Five Cal Poly wrestlers traveled to the nationals, Craig Weik (150), David Wells (154), Bryan Bowles (177), Mike French (190), and Gan McGee (heavyweight).

The Mustangs were matched up with the top ranked wrestlers in the first round giving them a tough wall to surmount. Weik lost his first match to Rodney Jones from Oklahoma in a 6-4 decision. Bowles battled it out to sudden death, but lost a 7-5 decision to Mark Munoz from Oklahoma State.

Cal Poly Quad Meet

While most students were packing their cars and heading for spring break on Saturday March 21, the Cal Poly Track and Field team hosted some of the top collegiate athletes in the nation.

USC, Brigham Young and Kent State all traveled to San Luis Obispo to kick off the U.S. Collegiate Track and Field Series.

The Mustangs raced for their track-side fans and for the camera. This meet was taped to be national-ly televised on Fox Sports.

Cal Poly came to the meet as underdogs but after eight hours of trials, proved they could compete.

The women got going early with a win in the 5,000 meter race. Krisy Schrani, in her first race of the season, led teammate Hillary Carlson lead for most of the race before seeing first place on the second to last lap. Schrani increased her lead over the pack and crossed the line first at 19:47.00. Carlson ended up in third place at 19:51.91.

Jennifer Spatz, who beat her opponent by only six seconds, captured another distance victory for the Mustangs in the 3,000 meter.

On the field, Soozie Shanley put in another strong performance for Cal Poly. She finished first in the shot put, second in the discus and third in the hammer throw.
