SCHOOL SPIRIT.

What is school spirit? Is it the hilarity of an athletic rally or the enthusiastic support of a football team?

Surely it is. - But this represents only a small part of real school spirit. A man who has real school spirit is one who is always a booster and one who is willing to work for the supremacy of his school in all its lines.

School spirit is that part of ones being which gives a thrill on hearing a song or yell which is suggestive of his school. It is the same kind of feeling which prompts the tears of joy which are often described as flowing when an American first sees his country's flag after an absence to a foreign land.

This is the kind of spirit we want at Poly. A spirit which will rise above mere financial consideration when help is vitally needed. Everything which is a part of our school, we should consider our own to be cared for and protected as we would the institutions of our home.

We can be justly proud of our Poly, it is the only one of its kind and it has educational advantages which enable our graduates to obtain positions which average high.

Let us stop and analyse our feelings and see if we are lacking in this spirit which should be ours. If we love our school for the school itself, and see if we are capable of developing indignation at any slighting remark which might be made against it.

I am sure that after such an analysis we will be able to be better officers and privates and more satisfied students than ever before.

DEBATING CLUB ORGANIZED.

A debating club has been organized. There are about twenty enrolled and they meet with Mr. Johnson every Monday. Work is assigned to them in reading and they discuss their readings with the faculty adviser.

The members of the debating club are given the same credit for this work as if they were taking an elective in its place. The first debate is scheduled for Monday and is between four members of the Senior class.

SIGNAL CORPS.

Preparations have been made by Major Ray to have a signal corps in the near future, so don't be under the impression that the inmates of an insane asylum have been turned loose if you see cadets waving their red flags excitedly around their heads.

CHEMISTRY LAB NEARLY COMPLETE.

Mr. York reports that gas and water are being put in the new Chemistry Laboratory. Prospects of the students' desks being put in next week are very likely.

AMAPOLA CLUB MEETING.

The first social meeting this year of the Amapola Club will be held Wednesday, October 18, at four o'clock in the Household Arts Bldg. A good program and plenty refreshments are being planned.

TIME TO BE ON THE JOB.

In a week and a half we have
our first big football game with
Santa Barbara. This is to be
played on our own field. As every
one knows, the rooting section is of
the greatest importance in winning
a game. How is it? With this game
with our chief rivals so near, we
have yet to hear of any yell practice
during the noon hour. Get busy Mr.
Barnes before it is too late. Our
rooting section won games for
Poly last year. We should have
practice every day beginning today.

The different yells will be
published in the Polygram next
week. Get your copy and learn the
yells so that you will be able to
help the team win.

OUT OF THE HOSPITAL.

Our editor is slowly improving
and we are glad to learn that he
was able to leave the hospital yes-
terday. It is hoped that he will
be able to publish next week's
issue of the Polygram.

ARE YOU A REAL POLYITE?

What is school spirit? Its
that feeling which prompts the
spending of \$1.00 for a year's sub-
scription to the Polygram, thus
supporting one of the best institu-
tions of the school.

KELVIN CLUB MEETING.

The Kelvin Club met Tuesday
evening at the home of Mr. and Mrs.
J. M. Johnston on Pismo Street.

Miss Hartzell gave a very in-
teresting talk on National Parks.
Miss Rothermel, Mr. Greenmyer,
Mr. Brooks, Mr. Johnstone, and
Major Ray were installed as regular
members of the club.

"EDDIE" MAKES GOOD.

Mrs. Warden is issuing invi-
tations this week for a dance to
be given Saturday night in the
Warden Block.

Late Notes.

Mrs. R. W. Ryder and sons ar-
rived home Monday from Mount Hermon,
Mrs. Parker Talbot and children
reached San Luis Saturday.

Miss Margaret Webb of Berkeley
is visiting Miss Rothermel this week.

UNEXPECTED.

"Oh dear, life is hardly worth living," sighed pretty Dorothy to her mother as she came down stairs one morning.

"Why, what is the matter, child? You ought to be perfectly happy after that party last night. John was here, too, and he seemed to admire your new gown so much."

"Yes", said Dorothy, "he admired the gown but that was all. For the last two years I have tried in every way to make him care for me but it has all been in vain. He seems to grow cooler and cooler as time goes on."

"Don't worry any more, dear, I have a feeling that all will come out all right in the end. Go out in the garden where the birds are singing. All nature seems so happy this morning after that rain we had yesterday." Dorothy did as her mother requested but she did not forget her trouble.

That evening the door bell rang. As the visitor was ushered in, Dorothy looked up. Yes, it was really John. She could scarcely believe her eyes since he had never called before except on special occasions. John sat down beside Dorothy on the couch and spoke for the first time, "Dorothy I have come to claim my own." Dorothy wondered if her ears were failing her. Her heart quickened its pace and her face grew red. John continued, "I suppose you found my umbrella that I left in the hall last night. I am leaving town tomorrow and I may need it."

As John rose to leave, he wondered at the peculiar expression on Dorothy's face.

A GEOMETRIC FLOP.

With his mind intent upon a knotty geometrical problem, Mr. Greenmyer slips on the stairway, and drops gracefully to the first landing.

Mr. Greenmyer: (painfully picking himself up, vertically, Miss Chase, Vertically).

Notice the new hair cuts.
Faces like these have been seen on the campus lately.

STAFF OFFERS ASSISTANCE.

The staff has been unable to ascertain whether the superfluous growth of hair on several individuals is due to financial difficulties or just an effort to break the monotony.

While the Polygram 'capital' is not very large, we are sure we could loan them each fifteen cents for a shave.

NOT IMPOSSIBLE.

The class in housebuilding was visiting some cottages a few days ago and while at Miss Nichols' home Barbara Marquart remarked: "Wish I could be an old maid and have a cozy little home like this."

Leslie Davis: What were you doing last night when I called up?

Ethel Colon: I was making dates with nuts.

Kallie: O yes, you did make a date with me.

POLYTES AT SUNDAY SCHOOL.

The teacher was telling her scholars about the fall of Jericho.

'and the people marched around and around,' she said, 'singing songs and blowing trumpets, until all of a sudden down came the walls and -

"If they play like our girls' band does," said George Harrison, 'It ain't no wonder they fell down.'
