SUPPORT SERVICES

The Grants Development Office (GDO)

The Grants Development Office provides a number of services to Cal Poly faculty, administrators, and staff engaged in extramurally-funded research, curriculum development, and community service projects. This includes recommending funding sources, navigating complex proposal guidelines, clarifying agency regulations, and facilitating the grant submission and award process. The office is open between 7:30 am and 5:00 pm Monday through Friday including during quarter breaks and summer recess to assist you with the proposal preparation process. The pre-award staff can be reached at **(805) 756-2485** or by email at grants@calpoly.edu. Our web site located at <http://www.grants.calpoly.edu> contains information that will be helpful to you when preparing your proposals. The web site provides access to guidelines, policies and procedures, forms, rates, funding sources, and other important links.

Sponsored Programs Information Network (SPIN)

Cal Poly subscribes to the Sponsored Programs Information Network (SPIN), a web-based funding opportunities service. This subscription provides a searchable database of public and private sources of funding for teaching, research, and training. SPINPlus is composed of three distinct elements: SPIN, a funding opportunities database; GENIUS, a CV/Bio-Sketch database; and SMARTS, an automated alerts system. SPIN provides up-to-date information on current national and international government and private funding sources, including fellowships, research grants, publication support, sabbatical support, curriculum development, and more. All of the data on SPIN are obtained directly from sponsoring agencies to ensure the integrity of the information. SPIN and other funding resources can be accessed from the Grants Development website at http://www.grants.calpoly.edu/2_FundOpp.html

Workshops and Training

The Grants Development Office offers workshops and training sessions on aspects of the grant application process, including the area of electronic submission. New faculty/staff orientations with an overview of services provided by the Grants Development and Sponsored Programs Office are offered several times throughout the year. Individual sessions as well as group sessions for departments may also be arranged on request. Contact GDO at **(805) 756-2982** to schedule a session.

The Sponsored Programs Office (SPO)

The Sponsored Programs Office in the Cal Poly Corporation provides post-award services once your project has been funded. This includes fiscal administrative support for sponsored projects and support for Center and Institute accounts. External funding is often contingent upon adherence to legislative guidelines stipulated by sponsors as well as University and departmental regulations that require concentrated monitoring. The Sponsored Programs Office, in conjunction with the Grants Development Office, can help faculty navigate through these regulations. The SPO will also provide training to faculty in self-management reports required to track budgets for awarded projects. The Sponsored Program Office can be accessed at <http://www.cpfoundation.org/sponsoredprograms> or telephone **(805) 756-1123**.
