

Poly Eleven Defeated

Thursday afternoon, Armistice Day, Poly was again defeated on her own field by the 7-0 score, but the team was full of fight and played a clean game all the way through, in spite of the fact that they were playing against older men, some of whom had been varsity players.

The game started at 2:15 with the Legion kicking off to Poly. During the first half neither team scored, although the Legion team was heavier and the men more experienced, they did not have the wind or practice. After the ten-minute intermission between halves, Poly kicked to the Legion. The Legion, through the playing of B. Fitzpatrick carried the ball well down to their goal. Then Fitzpatrick punted and the ball was covered by the Poly men at the 5-yard line. Although Poly attempted to kick back, a Legion man fell on it behind the line, scoring a touchdown. The goal was kicked. In the last quarter Troup attempted to pass to Burr, but a Legion man caught the ball. He ran down the field and past the goal into the end zone, thus forfeiting the touchdown.

The Legion played on the defensive the whole game. After the first quarter they did not try any more bucks or end passes, but repeatedly attempted three passes and then kicked.

The line-up was as follows:

| Poly | Pos. | Legion |
|------------|------|----------------|
| Burr | REL | Wieland |
| Rowan-Gill | RTL | J. Fitzpatrick |
| C. Hodel | RGL | Peterson |
| Brown | C | Muzzio |
| O. Hodel | LGR | Cheda |
| Aston | LTR | Carvoa-Taylor |
| Guyton | LER | Shirley |
| Potter | RHL | Shipsey |
| Troup | QB | B. Fitzpatrick |

Federal Men Organize

The Federal men in Polytechnic organized their student body at their regular assembly on October 30, following a suggestion made by Mr. Duddleson. Mr. Van Dalsem, chief of the Los Angeles Federal Office, acting as chairman for the day, called the meeting to order, and after a short talk on Roberts' Rules of Order, asked for nominations for the officers to be elected.

The following men were elected: Katzenberg, president; Lenhart, vice-president; Bowen, secretary.

A special meeting of the Federal students was held November 8 to appoint a committee to plan and decorate the float to be used in the Armistice Day Parade. Miller, Thompson, Wagoner, Williams and Isham were appointed to serve with the officers of the student body as the committee in charge.

Exhibit of the E. M. Association

The mechanics end of the engineering-mechanics exhibit at the San Luis County Fair at the Civic Club was operated by three Federal men, A. Hansen, J. Schaefer and R. Kraft. An electrically-driven machine was running, showing pictures of the school and some of its activities. Coil winding an armature winding were also demonstrated.

On Polytechnic Day all the shops were running full blast. The machine shop showed a model of a breech-loading rifle, made by Manalac, besides other articles made by various students.

The forge shop gave away C.P.S. souvenirs. There were cabinets and a table exhibited in the carpenter shop.

Federal Floats a Success

Three big floats, which represented Poly, and which were made by the Federal Board men, certainly were a credit to the school, as they went through the streets in the Armistice Day parade.

The one of the three that was the best and received the third prize from the committee in charge of the parade, represented the Red Cross at the battle front. A trench was built on the front of the wagon, and in the trench were the boys in fighting array. At the back a Red Cross tent was pitched, and Miss Hilton, a Red Cross nurse, was working in it over a wounded soldier.

A clever float was the one that was an imitation of one of the buildings. The third float showed the different courses that Poly offers. On it the boys were working at the anvil, forge, typewriter, and drawing table. On placards were written the courses offered, agriculture, mechanics, commercial, academic, household arts, and vocational.

Kelvin Club

On Friday evening, Nov. 12, 1920, Miss Chase acted as hostess of the Kelvin Club, the meeting taking place at hers and Miss Hoover's residence, 717 Monterey street.

The first part of the program was devoted to an instructive and interesting talk on vocational education by Mr. Newton Van Dalsem, of the Federal Board for Vocational education.

The guests departed after refreshments had been served, each declaring Miss Chase an ideal entertainer.

Coyner: Oh, Helen, do you think cigarettes affect the brain?

H. Rutherford: Oh, not a bit. People with brains don't smoke them!

THE POLYGRAM.

A bi-weekly publication issued by the students of the California Polytechnic School, San Luis Obispo, California.

Rates.

One dollar per year. Single copies 10 cents.

STAFF

Ernest Steiner.....Editor
Elsworth Boys...Business Manager
Gertrude Truesdale...School Notes
Anna Goise.....Society
Arthur Howard.....Athletics
Alma Tognassi.....Athletics
Thelma Ruter.....Jokes
Carl Gill.....Agricultural Reporter
Everet Weant...Mechanics Reporter

Others who have contributed to this issue of the Polygram are:

R. Aston, C. Hodel, A. Davis, E. Burr, J. Gaziola, M. Chaves, M. Piper.

Bulletin Supplement. Entered at the Post Office at San Luis Obispo, Cal., as Second Class matter.

Acceptance for mailing at special rate of postage provided for in section 1103, Act of Oct. 3, 1917. Authorized Aug. 9, 1918.

Printed by San Luis Obispo Tribune

EXCHANGES.

The Polygram acknowledges the following new exchanges: The Forge, Santa Barbara, Who Am I?, Compton; The Coalingan, Coalinga; The Meteor, Hanford, and two from outside states, The G. H. S. Comet, Gainesville, Fla., and The Carolinian, Denton, Md.

So far sixteen different exchanges have come to the Polygram, while over two hundred copies of each issue of the Polygram are being sent to various high schools over the state. The Polygram would like to have a greater exchange list than at present.

The exchanges of any of the schools on our list are in the library for those who care to read them.

The word "support" is heard throughout the country every day; especially do we hear it in connection with upkeeping of our government through the many various means. We could go on enumerating the various ways in which the phrases, "support this" and "support that," are used, but we are calling attention now particularly to

the things that the Student Body should support at Poly. They are fewer and can be brought forth more clearly:

First, the honor and reputation of the school should be supported, and going down the line, support your studies, athletics and finally school activities.

This time we are most interested in the support of school activities under which comes the support of your paper, The Polygram.

The staff, composed of the Junior English class, does not receive the support from the Student Body it should in order that it can turn out a creditable and successful paper on time.

The Polygram is your paper and not the staff's, and therefore you should help in its composition and publication.

You can help by making use of the "Polygram Box" outside Room 6, dropping into it good, snappy jokes or news items of interest, not only to those concerned, but to the whole Student Body.

If better support is not received, The Polygram will be coming out three or four days late, or with a number of blank spaces.

We don't want this to happen, so get in and help in the publication of your official organ, The Polygram.

THE AG. ASSOCIATION.

The regular meeting of the Ag Association was called to order by President Burr in Room 5, November 12. A discussion arose concerning the Christmas holidays. On account of school's running through December 24, some of the students would not have time to get home in time for Christmas. It was decided to take the matter up and try to get an extra day added to the holidays before Christmas.

Mr. Saunders gave a very interesting talk on oranges. He told of the many orange pests and the best methods of getting rid of them. He also explained the principal of the fumigating machine.

H. Newman gave an interesting talk on the new method by which oranges are washed for packing.

At the close of the meeting a vote of thanks was given to A. Reyburn for his splendid work during the Livestock Show. A vote of thanks was also given to C. Gill for his Polygram work.

There being no further business, the meeting adjourned.

SENATOR RIGDON SPEAKS AT ASSEMBLY.

The regular assembly on last Wednesday was taken up with an address by Senator Rigdon and some special music.

The Boys' Glee Club appeared for the first time this year, singing in a most acceptable manner. Sam Guyton sang as a solo a new patriotic song that Mr. Whitlock urges us all to learn. The new band played with such rhythm that the student body could march from assembly to its music.

Senator Rigdon, after speaking glowingly of Poly's future, and of his interest in her future, took up the main part of his address, the passage of a bill in the State Legislature. He used as an illustration for all the red tape necessary, the description of his work on his bill concerning oleomargarine that the Legislature passed. He concluded by saying that he was willing to go through all the red tape necessary to get Poly things for her advancement.

THE ROOTING SECTION.

The rooting section showed a marked difference in last Thursday's football game. Much credit must be given to the dorm boys in organizing and keeping the section together. Bock and Buntin, the two effective yell leaders, called roll at the beginning of the game and everyone of the Dorm was there to answer "Here," for they all wished to support their team rather than to get a good sousing after the game up at the Dorm. Also many of the town boys joined them showing much pep by their yells. As has been the case in most of our athletic events, no girls were present to do any yelling. They were greatly missed.

Just before the game started a serpentine was formed, parading through the large crowd witnessing the game. Also one was formed during the intermission between the first and second half. Throughout the whole game the rooting section never let up in its yelling. The team noticed this, and played a most wonderful game.

Let the rooting section keep up its good work. It helps.

Miss Howe: Did you study your lesson last night, Mr. Zanoli?

H. Zanoli: Yes, ma'am; a whole hour.

Miss Howe: Well, the next time you use your book, don't leave it on my desk over night.

JOKES.

Mr. Skarstedt: Mr. Costa. Is the
problem clear now?

Mr. Costa: Yes, but how do you
get the answer?

Reyburn in Ag. Chem: Mr.
Saunders, I want another test tube;
I broke mine.

Saunders: Did you poke a stir-
ring rod through it?

Reyburn: No! I tried to stand
on it and it wouldn't hold me.

Hess: You're the slowest per-
son I've ever seen. Aren't you
quick at anything?

H. Weant: Yes, sir. Nobody can
get tired as quickly as I can.

Edna: Why do you always run
away from a snake?

Anna: Because I can't fly.

J. C. to A. M.: Say, little one,
they say kisses are intoxicating.
Let's get drunk!

D. James: I saw your picture to-
day.

Cutie (vocational man): Where?

James: On a sardine can. You
poor fish.

Concerning the Pismo "Bus"

A. Mayhall: Johnnie Petersen
is awful nice, but he is so bashful.
Does he ever put his arm around
you?

P. Bardness: Well, he helps.

H. Ditmas: Have you heard my
latest joke?

F. Word: I hope so.

Mr. Skarstedt (in Plane Geom.)
Complete the proof of this propo-
sition in one more statement.

A. Davis: Q. E. D.

Fuzzy Boys: I guess they'll be
putting football out of the school
soon.

Sam Wright: Why?

F. B.: Because it has got a kick
to it.

Miss Hayslip: I see that your
jaw is working.

Howard: Yes, ma'am.

Miss Hayslip: Well come up
here, and put it in the basket.

PASO ROBLES GAME CANCELLED

Paso Robles called off the game
of football which was to have been
played Saturday, November 6. No
reason was given, but they stated
that the game could not be played
before November 20, so it is doubt-
ful if there will be a return game
with them this season.

THE POLYGRAM

SCHOOL NOTES.

The school was not able to hold Chadwick and Ralph, who left the Dorm a few days ago.

Bock and "Princess" Tiny of Room 13" showed the members of the Student Body at the football game Thursday that they wouldn't have to wait to elect new yell leaders.

Roy Tatjes has left school to try to get into the navy. His particular object is to get on the U. S. S. California.

The Student Body is sorry that Richard Brown has left school. He left the Dorm some two weeks ago.

Mr. McNeil, Mr. Ryder, Mr. Simpson, and Mr. Binshelmer went to Sacramento last week to meet with the State Board of Control. They worked on the budget of Polytechnic for the next two years.

Mr. Simpson is the new member of the office force who is taking over Mr. Godley's work. Mr. Godley expects to be transferred to Sacramento soon. Mr. Simpson, with his wife and little daughter, are settled in a house on Murray Avenue.

The American Legion expected to have a barbecue at Poly on Armistice Day, but it was changed to the I. D. E. S. Hall because of the threatened rain.

Chatten has left school because he felt that his eyes were so weak that he would not be able to keep up with his studies.

For a few days at the beginning of last week the office force had three ex-Polytes: Helen Shipsey, class of '19; Clara Steiner, class of '14, and Geraldine Fitzgerald, class of '14. Miss Fitzgerald was helping out for just a few days.

The Sophomore class held a meeting on October 29 to talk over the question of having a football team for the inter-class games. It was decided not to challenge for any games until after football season, as inter-class games break into the regular practice of the first team.

Mr. H. Miller, who has furnished news of the Federal men to the Polygram, has been forced to leave school to go to the hospital for a rather serious operation.

Mr. Whitlock announced again in assembly that all those who know how to play any musical in-

struments should bring them to school, as more members are needed for the orchestra and band. He asks that the students not hesitate or feel bashful about joining, but to come forward right away.

Ralph Chadwick, who has for two months been the president of the Freshman class and captain of the Freshman football team, left us last week. To fill the offices thus left vacant, Howard Foote has been elected president of the class of '24, and Merle Tuley has been elected class football captain.

TALKS ON THE JUNIOR RED CROSS.

Before Senator Rigdon's address on last Wednesday, several talks were given on the Junior Red Cross, as the campaign for members is now going on.

Mr. Saunders spoke first, telling of the Red Cross in community life and expressing a wish most strongly that all Poly students become members of the organization. The second talk was given by Mr. Watson, who also made the students understand the necessity for helping the Red Cross. He remarked that he wished to see Poly go over the top, as she has done before, thus keeping up the traditions of the school.

Short pep talks were given by two of our own students, Edmund Burr and Marie Meinecke. Both urged the members of the Student Body to join the Red Cross and to help the organization as much as they could.

SOPHOMORES VS. FRESHMEN IN BASEBALL.

The Freshmen girls accepted the Sophomores' challenge to a game of baseball, at 4 o'clock Friday, November 5, on the boys' athletic field.

The game started off in favor of the Sophomores and ended in their favor with a score of 43-9. Much credit is due the Freshmen, because they got right in and played a pep game, although they were out of practice. The game was called at the end of the fifth inning on account of darkness.

The line-up was as follows:

| | |
|-----------------------------------|-----------------|
| A. Chaves (cap.) | F. Rouget |
| E. Pesson | H. Rutherford |
| M. Ditmas 1b | D. Miller |
| M. Andrews 2b | P. Bardmess (c) |
| A. Mayhall 3d | E. Whiteside |
| M. Piper RF | J. Gilardi |
| J. James LF | V. Whiteside |

THE DORM HOOTING CLUB.

Did anyone notice what a close game our fellows put up against the American Legion Thursday? Did anyone notice the rooting the team received from the side-lines? And last, but most important of all, did anyone notice that all of the organized rooting was done by a section made up of dorm boys principally?

There was a meeting held especially for the getting together of this rooting section Wednesday evening in the Dorm. There were talks from both the players and the rooters, but the talk that stirred the men the most was on the poor support the team received in the Paso Robles game, and the promise of the men on the team to fight for a victory if they were given support from the side lines, so that they would know they were playing for someone else besides themselves.

The Dorm has proved itself 100 per cent C. P. S., as everyone of the members was rooting for the team or playing in it. We are sorry to say that some of the towns, though they were welcome, would not join in the yells. A few even yelled for the Legion, instead of Poly, and that these few ought to have their heads examined is the opinion of the team.

Hereafter we hope Poly's motto will be "In union there is strength."

MECHANICS' ASSOCIATION MEETS.

The regular meeting of the Mechanics' Association was called to order by President Brown, November 12.

A report of the pin committee was given and a design decided upon.

The Association decided to give a dance next Friday night, November 19, in the Dining Hall. Committees were appointed to take charge of the affair and a good time is promised every one.

Albert McKeen and Forest Coyner were voted into the association as associate members.

On Wednesday, November 10, a number of the machine shop students went down to the S. P. roundhouse to bend some iron plates which are to be used in the new stack which is going up at the powerhouse.

Sandercox: I wonder why they say that Chemistry is like love?

Aston: I think it is because the lower the gas the greater the pressure.
