MEETING PLANS

As announced earlier, the fourth annual meeting of the SSEA will be held in Baltimore this December. The subject is the replacement (or 'replaceability') argument, on which papers will be presented by George P. Cave, Evelyn B. Pluhar, Steve F. Sapontzis, and James E. White. The papers will be published in the September and December issues of E&A (III/3 and III/4). The meeting will probably be held in the morning of December 28. The date will be confirmed, and the precise time and location announced, in the next issue.

PLANS FOR FUTURE MEETINGS

Several members have applauded the plan, this year, to publish the papers before the meeting in order to be able to devote most of the time to discussion. But it has been obvious that the interval between topic announcement and paper deadline this year was far too short, as was that between the paper deadline and the early July deadline for the program for the American Philosophical Association Eastern Division meeting. Thus authors have been frustrated and rushed, the Editor has been frustrated as well, and this issue has been delayed.

To reduce the pressure on all

concerned, the topic for the 1983 meeting will be announced in the next (September, 1982) issue of E&A, with the papers due to the Editor by April 15, 1983. Suggestions for the meeting topic should be sent in by August 15, 1982. One topic under consideration is the connection (or lack thereof) between the moral status of nonhuman animals and the morality of (human) abortion.

ELECTION OF BOARD MEMBERS

George P. Cave and Tom Regan have been elected and re-elected, respectively, to the Board of Directors without a dissenting vote. They will serve two-year terms to expire in May, 1984.

INSTRUCTIONS FOR AUTHORS

All material submitted for publication in Ethics & Animals should be addressed to the Editor. Reviews and articles should be typed, on one side of the paper only. One copy is sufficient for all submissions except articles, of which three copies are requested. Reviews, reports, directory entries, and other such matter are screened only by the E&A staff, but article manuscripts are evaluated by 'blind' referees. To facilitate such 'blind' reviewing of articles the author's name should not appear on the manuscript, but should be on a separate sheet of paper which also bears the title of article. If possible, authors should also remove internal references which would identify them (such as "as I argued in my article on animal liberation in The Journal of Beasts"). Such references can be re-inserted before publication.
