

THE POLYGRAM

Volume X

SAN LUIS OBISPO, OCTOBER 2, 1924

No. 1

FIRST SENIOR MEETING

The first Senior meeting was held September 17 with Don Eveleth presiding. The officers for the coming year were elected. Leslie Oldham will be our president. We are all glad that Les got the chair for we are confident that he will carry everything through with the ability which he shows in all he attempts. Fay Davis was elected vice-president, Margaret Word secretary, and Fred Louis treasurer. After a few words from our ex-president, who had so successfully carried the class through the year of banquets and entertaining, the meeting was dismissed.

The Beginning of Drill

The Poly boys are back to the old drill field, carrying with them their favorite load, namely, their rifles and bayonets.

There are several changes this year. A vast quantity of pigskin puttees are in evidence. Those honored by commissions are: Donald Eveleth, Alfred Young, Birger Martinaen, Walter Lumley, Fred Louis, Chester Davis, Earl Miller, and Herbert McKeen. Leslie Oldham and Prescott Reed are guides for Company A and Otto Gruenville and Arthur Call are guides for Company B.

Fulwider and Wilber Miller are top kicks.

By the amount of insignias worn by these chaps one would be led to believe they were in a boy scout camp. But of course they should be proud of their position, so why criticize their failing!

Organizing Band

Captain Deuel has assembled the musicians of the two companies and is forming a band under the leadership of Leo Earl. The captain states that he has eighteen men lined up and expects them to produce the greatest volume of music ever heard on the Polytechnic campus. That is quite a large statement but everyone that has heard the band or any of its members practice will agree with Captain Deuel.

If the band lives up to the hopes of its originators, its first public appearance will be made Saturday at Santa Maria. Just before the game begins they will parade down the field leading our team onto the gridiron and to victory.

Music is a sign of civilization and advancement. It is an invention, if it may be so called, of comparatively recent times. The savage was able to make a few notes, or sounds, on some crude hand-made instrument while the educated or civilized races were capable of producing music as we understand it.

The development of the band indicates another step forward; that Poly not only is not at a standstill but is progressing all the time. Every student should be proud of this band and give it any support he may.

Mr. Cunningham Steps Out

Mr. Cunningham stepped too heavily on the throttle of his high-powered Chevrolet while touring out Palm Drive the other afternoon, and a representative of the State Motor Vehicle Department tendered him an invitation to call on a local magistrate.

JUNIOR CLASS MEET

Last Monday the Juniors had their first meeting of the year. The purpose of this meeting was to elect officers for the coming year. Vernon Langenbeck was re-elected president, Earl Miller for vice-president, Dorothy Persons secretary, and Chester Davis treasurer.

Miss Chase is advisor for the Junior Class this year, and upon her advice no dues were decided upon until such a time as when the size of the class should be known.

As there was no further business the meeting adjourned.

Dorm Doings

The Dormitory Club held its first meeting September 18th. The purpose of the meeting was to elect the officers for the coming school year. Richard Morrison was elected president, Ellsworth Hald vice-president, and Leslie Oldham secretary and treasurer.

The members of the Dorm Club held their first social event of the year a week ago last Sunday, when they went for a hike up the hill in back of the horse barn. The fellows spent a very enjoyable morning working on the block "P." Two of the new students volunteered to furnish amusement, and they entertained the members of the club with a game of hot hand.

Speaking of improvements for the Dormitory, it would be a good idea to put up some signs telling where the shower room is located. One of the freshmen was found taking a bath under the fire hydrant in back of the science hall.

It has always been known that the students in the Dormitory have had a lot of school spirit, and they have shown it this year by furnishing two-thirds of the football squad. There are twenty men in the Dorm that are out for football and they are all fighting hard for positions on the team.

One night last week we all had to turn out and run down the Freshmen. When Hald rang the laundry bell they thought there was a fire and headed for the hills. They were all easy to catch except Melvin White; we had to resort to strategy before he could be captured.

First Regular Assembly of Term

The first regular assembly of the term was held in the Assembly Hall Wednesday, Sept. 24. Dr. Crandall presided, and gave an interesting and snappy talk on athletics, emphasizing the value of associating athletics, and especially football, with school life. A number of announcements were made and a committee, consisting of Margaret Word, Rae Mayhall and Leo Earl, were appointed to look up school songs to be sung in assembly and which will be printed in our print shop.

BLOCK "P" MEETING

The remnant of the Block "P" Club gathered in the Physics Laboratory last Tuesday and elected their president to fill the place left vacant by Fred Flugger. Dick (Richard) Morrison was elected and received a unanimous vote.

A committee composed of the association's officers was appointed to draw up a new constitution.

Prescott Reed and Leslie Oldham were admitted to the association.

Mr. Agosti made some suggestions about the sale of tickets for the big game with Fresno.

There being no further business the meeting adjourned.

Dorm Frosh Box

Last Tuesday evening the Freshmen in the Dormitory were made to put on the gloves and "do their stuff" by way of initiation. The first bout of the evening was between Vaile and Koster, which was called a draw, although Koster showed better style. Moreno and Bowles went a fast two rounds, displaying plenty of pep and science, Moreno being declared the winner. Varian surprised everyone by giving our little giant, White, an uncomfortably warm scrap for a couple of minutes, the decision being a draw.

Sam Hotchkiss and "Sagebrush" Perry offered the crowd plenty of amusement by executing a number of movements like unto a pair of elephants. After nearly killing the referee they were stopped, and the bout called a draw.

Orvis Hotchkiss and Hayden fought a snappy draw, and Moreno took on Hills for the final event of the evening, in which Moreno was an easy victor.

The matches were all in a friendly spirit, and afforded much amusement for both the participants and the spectators.

Avery Clements was referee, and Pfeiffer and Reed timekeepers.

New Constitution For Block "P"

The officers of the Block "P" Club, Dick Morrison, Don Eveleth and Vernon Langenbeck, and the advisor, Mr. Agosti, met at the latter's home last Thursday evening and drew up a new constitution for the Block "P" Club, the old one having been lost several years ago.

First Mechanics Meeting

A special meeting of the Engineering-Mechanics Association was held in Mr. Knott's room on Thursday, Sept. 18. The purpose of this meeting was for the election of officers for the year 1924-1925. The results of the election were: President, Don Fulwider; vice-president, Earl Miller; secretary-treasurer, Fred Louis. Mr. Knott, the Association advisor, presided.

John I. Pfeiffer announced last Sunday morning that hereafter he will shave at least once a week, some weeks.

There is a rumor around the campus that George Crowell has mended his ways. He states that he even tells the truth sometimes.

AMAPOLA CLUB MEETS

The Amapola Club held its first meeting on September 17, 1924. The officers elected during the meeting were as follows: Margaret Word, president; Belle Tomasini, vice-president Wilma Rougeot, secretary-treasurer.

The club is not as large this year as we had hoped to see it, but it is still busy and already plans are under way for a picnic.

For several years the Amapola Club has been the social club for the girls and many pleasant meetings have been enjoyed. We hope to make our bi-monthly meetings in the future as entertaining and pleasant as possible.

Two Motors Installed In the Creamery

Last Tuesday afternoon the Senior electrical class, consisting of Fred Louis, Wilbur Miller, Don Fulwider, Alfred Young, Walter Lumley, Otto Gruenwald and Arthur Call, and directed by Mr. Knott, achieved a very creditable piece of work in installing two motors in the creamery building. These motors, one of which weighed over six hundred pounds, were bolted to the ceiling, from which positions they are to operate the ammonia compressor for the refrigerating plant, and other creamery apparatus. A great deal of effort, as well as ingenuity in combating obstacles, was put forth by both the students and the instructor in accomplishing the work. There is much work of this kind to be done about the campus, and the class will doubtless derive much valuable experience from it.

Assembly Wednesday

The assembly yesterday was called to order at the fifth period in the Assembly Hall by President Crandall. The school song was sung, and a few yells given. There was a noticeable lack of spirit in the singing, but Quinonez, who was acting as yell leader, managed to get up a little "pep" for the yells.

Mr. Agosti announced the football game with Santa Maria next Saturday, and stated that Motto's buses would accommodate all who wished transportation there and return. Those who wished transportation were asked to raise their hands, and it was very disappointing to the members of the team to observe the small number who intended to attend the game and back the team.

The game was announced by Mr. Agosti to begin at 2:30 o'clock sharp.

Mrs. Fuller gave two very good readings, which were greatly appreciated by the assembly.

Mr. Knott announced that the local justice of the peace is in a very hospitable mood, and is prepared to accommodate any or all who violate traffic ordinances on the Poly roads.

Mr. Tennant stated a few facts regarding the bright future for Polytechnic, and announced the advertising program to be started next week. He stated that motion pictures of activities on the campus will be taken next Monday, and asked every student to do his best to make a good appearance.

Captain Deuel then took charge and the assembly was dismissed.

Bulletin Supplement. Entered at the Postoffice at San Luis Obispo, Cal., as second-class matter. A bi-weekly publication issued by the students of the California Polytechnic School, San Luis Obispo, California. Subscriptions, one dollar a year. Single copies, ten cents.

Printed by the California Polytechnic School Print Shop.

THE EDITOR'S SALUTE

This is my, and most of the staff's, first attempt, so bear with us and overlook some of the mistakes for this time at least. I suppose it is needless to say that we will do our best all the time and if each one of you will help by turning in any news item or joke you may happen to hear we'll make this one of the snappiest little school papers in the state. I sincerely hope I can justify the trust placed in me by being made editor of the Polygram and will do my best to put it at the head of the class all the time.

Poly Chatter

The Freshmen are already commenting on the lack of water that was promised them on the night of the Freshman reception. Of course, our newcomers are not getting anxious, but they admit that they would feel better if the danger of a free bath in a mud hole was removed.

Here is a good chance for the Sophomores to make good their threats.

Lee has been challenged to a game of tiddly winks by the son of our new Ag teacher. Here is a chance for Bill to make a reputation.

Because of his sore foot and his inability to run, George Crowell has decided to refrain from telling any of the stories that he is famous for.

Poly starts her season Saturday with a game with Santa Maria. Lets everyone go and help the team.

Speaking of football, did anyone see Mr. Peteler at the San Luis-Lompoc game?

Owing to Long Boy's retiring disposition and his studious mind many of the old students are inquiring as to how he gets along living with Heavy and Dr. Wilder. Please answer these inquiries, Long Boy.

Fulwider has taken to rising early in the morning and also to catching passes in football. Which causes which?

There are many new students who have not been initiated into the art of lining the football field. San Luis HI has lined the field twice. What is the matter with the Poly Freshmen?

Those who attended a barbecue in Mr. Peteler's Freshman year and saw him eat ice cream were not disappointed in watching him eat ice cream last Thursday.

Coach Agosti still has a few football uniforms. It is a waste of cloth to let the moths eat them. They would look well on some of Poly's students.

This Is Our School

This is our school, and we must keep it the best on the coast. Don't let us do things that will cause us to get slammed, or criticized, but work with a will to finish what our friends before us started.

We have a strong foundation on which to build and to improve. Don't let us pass by this great opportunity to show what we can do, not only for ourselves, but for others as well. We must look out for the welfare of those who are not so strong as we, and stoop to put the wrong to right. With these aims before us we can accomplish a great deal to make Poly the beacon light.

FOOTBALL PRACTICE

Football practice has now been under way for two weeks and the team has all the indications of being one of the best Poly has ever turned out. To the older students who have seen other teams of ours this certainly means a great deal.

It might be well to say here for the benefit of the new fellows that one of the traditions of Poly is to have one of the cleanest, hardest fighting teams in our conference. It is with pride that we can honestly say the teams have certainly lived up to this tradition and fulfilled our expectations of them. If we seldom win but fight clean, hard, and never quit, there is no dishonor in the losing.

There are now about thirty men on the squad, but there should be more. These fellows are not in any way different from the rest of you. There are men out on the field every night just as small or smaller than you are. All of us want to see our team the winning team. To do this they must have support, real honest-to-gosh support, not the kind that sits around and has a few hopes we'll win.

There is first team material wandering around the campus now. Why aren't you out? The first team isn't all by any means. The best teams in the state would never win a game if they didn't have the support and the opposition and the practice given them by their second teams. If you don't happen to be good enough for the first team, play on the second team and make our team the best team. What if you never played football before, there was a time when Charlie Paddock had to crawl. There is no time like the present to learn.

To help the school and to make a winning team is but one of many reasons everyone should join the football squad. You will get training and learn things out there on the field that will help you beyond count. Good sportsmanship is carried to its highest ideal in football. Perhaps some people will not agree with that statement but if you don't believe it come out and see for yourself. Watch a football player and when he gets a hard knock, does he lie down and quit? He most decidedly does not. He not only comes back but he comes back smiling and looking for another one to prove to himself and to everyone else that he will keep coming back and never quit.

Every person who has made a success of himself will tell you if you will but stick to a thing you are sure to make just as great or greater success of yourself. One of the first requirements of a football player is a certain amount of aggressiveness and, above all, being willing and able to stick to it.

To be able to stay with a thing is surely an asset to any person's character and a trait that everyone should cultivate. This is but one of the many well worth while things taught on the field, so come out and help yourself and your school. That team is ours and we should back them to the limit. Give them your absolute support and the results they get will surprise you.

Printer Goes In For Scientific Research

Friday afternoon, while delving into some hitherto unexplored drawers of his desk, Mr. Preuss came upon a collection of bones which immediately puts one in mind of the discovery of the dinosaur bones.

Reposing there in a carefully preserved state was a small mouse. Such are the wonderful conditions under which it was mummified that even its whiskers are intact.

Dorothy Persons has charge of the find and has not decided just what a fitting end for it would be.

Lumley: "Simple things are sometimes very important."
 Fulwider: "Gee, but you're important, Walter."
 Miss Jordan: "Are you going to take English from me this year, James?"
 Warford: "No, ma'am."
 Miss Jordan: "Thanks."

Mr. Agosti (in Chemistry): "We will now take up the study of soap. Can anyone tell me what is made out of stearin?"
 Reed: "Stearin wheels."

Belle (in Biology): "Oh! You cruel thing; why did you cut that poor worm in half?"
 Tardif: "Aw, I felt sorry for it; it looked so lonesome."

Jeppesen: "Gee, I just took a quiz."
 Miller: "Finish?"
 Jeppesen: "No; Spanish."

Fulwider: "Why is it that you always buy gas for your car one gallon at a time?"
 Young: "I'm trying to wean it."

Miss Chase (in English): "Who can tell me what is wrong with this sentence, 'The horse and the cow is in the pasture?'"
 Earl Miller: "I know, the lady should come first."

Mr. Wilder: "Who is the greatest inventor?"
 Fred Louis: "An Irishman named Pat Pending."

First Frosh (at Frosh reception): "What is the name of that club that Margaret Word belongs to?"
 Second Frosh: "Oh, the Aim-of-Poly Club."

Mr. Agosti (to chemistry class): "Students, chemistry is an easy subject."
 Dorothy H.: "That's old stuff; you've told me the same thing for three years."

Fay Davis: "Do any of you take landscape gardening?"
 Al Young: "No, but I take shop sketching, if that will help you any."

The Dormitory cynic says love is a state of feeling which people think makes the world go round when it is only their own heads that are spinning.

Coach Agosti (to Eveleth who had made six laps around the track): "Much wind?"
 Don: "Yes, there is quite a lot of wind today, coach."

Mr. Peteler: "What right have you to swear before me?"
 Lee: "How did I know that you wanted to swear first?"

Miss Jordan: "I want to see you pass in this test, young man."
 Reed: "So do I; let's pull together."

Visitor: "About how many students studying at Poly now?"
 Dr. Crandall: "About half, I should judge."

A raw young soldier was being questioned by an officer.
 "Your name?"
 "John Smith."
 "Your company?"
 "Company B."
 "Your rank?"
 "I know it, sir."

Lumley: "When I graduate I expect to make a hundred per."
 Frosh: "Per what?"
 Lumley: "Perhaps."

Belle: "You would be a dancer but for two things."
 Pfeiffer: "What are they?"
 Belle: "Your feet."

Cavanagh (in chemistry): "Mr. Agosti, what does H 2 O canine stand for?"
 Mr. Agosti (perplexed): "H 2 O K 9; what do you mean?"
 Cavanagh: "Water dog, of course."

Real Estate Agent: "Of course, you have no children."
 Prospective Tenant: "No."
 R. E. A.: "Dogs or cats?"
 P. T.: "No."
 R. E. A.: "Piano or phonograph?"
 P. T.: "No. But I'll tell you what. I've got a fountain pen that squeaks every time I use it. Hope you don't object to that."

D. Fulwider: "Wanna go horseback riding?"
 Dorothy P.: "No! Horses don't like me."
 D. F.: "I do."
 D. P.: "Well, donkeys are different."

First Senior: "So you are going away to school? What put that into your head?"
 Second Ditto: "My father's factory."

These men were blocking the traffic Your Honor, while they had an argument.
 Were they in an altercation?
 No, Your Honor, they were in a Ford.

A group of farmers were crowded around the postoffice window to get their mail when one of them stalked up and shouted, "Any mail for Mike Howe?" The postmaster, a stranger in the community, glared at him over the rims of his spectacles and shouted back, "No, not for your cow, nor for anybody else's cow."

Reid: "What is ergophobia, Bill?"
 Lee: "Here is the dictionary. If you are too lazy to look it up it is what ails you."

Allan: "Has your friend Ellen reached high C?"
 Dorothy: "Yes, at the dentists."

Oldham: "You don't know that girl that passed. Why did you raise your hat to her?"
 Ivan: "Dick knows her and this is his hat."

Lewis: "That's class! Wearing a new silk shirt every night. Did you inherit a million?"
 Davis: "Naw, I'm only driving a laundry wagon."

Reed (watching a tank ship docking): "That sailor must be awfully sick."
 Lee: "What makes you think so?"
 Reed: "I just heard the captain tell him to heave an anchor."

ATHLETICS

Poly Football Now In Full Swing

The 1924 football season started off with a bang at Poly this year. Practice started on the opening day, September 15, in such an enthusiastic manner that it looks like the Poly pigskinners mean real business this year. They showed that last spring by going through the first successful spring football practice ever held at Poly.

We have only six letter men back at Poly this year. The letter men who will play for the Green and Orange this year are Walter Lumley, John Carroll, Birger Martinson, Richard Morrison, Donald Eveleth and Alfred Young. We hope they keep alive the old Poly fight on the gridiron this year.

Coach Agosti is hard at work whipping his material into shape for the best football schedule ever arranged in the history of Poly. In fact, the 1924 football schedule for the entire Pacific coast is the best that ever has been arranged. The games, big and little, to be played this season on the Pacific coast will be easier than ever before. The football spirit along the whole Pacific coast will be much higher than ever before and the interest will be much greater than in former years.

Coach Agosti is pleased with the general spirit shown by the men in reporting for practice. He is not worried much over the first string men. But he is much concerned about having a second and third team out for practice every night. No first team ever went through a season successfully without the support of a good second team. Every boy physically able to go out for football should remember that the second and third teams are just as important as the first team in the success of a winning eleven. This is especially true in the case of Poly since we have only the local high school to practice with.

We have had several scrimmages with the San Luis High School. Both teams derive a great deal of benefit from these practices. We hope to have them more often. The boys have been giving our new tackling dummy some good try-outs. They appreciate the new dummy as it is much better than the old one. The dummy and the sawdust pit prove to be a good combination in teaching the fundamentals which are the best assets of a good football team.

Coach Agosti stated that this year it would be necessary to develop a faster team than of former years. Our team will have to depend upon more clever plays and teamwork as our opponents are older and more experienced players. In other words, Poly will have to have a well oiled machine on the gridiron this year to come through the season with the long side of most of the scores.

Trip to Santa Maria

As has been told in another section of the Polygram, there is to be a football game between Santa Maria and Poly at Santa Maria next Saturday. This will be our first game of the season and is against a hard, fast team. Every student who is physically able should be at Santa Maria next Saturday and root for our team.

To better enable everyone to do this Motto's buses will be hired through the school. Mr. Motto has given us such a reasonable price that everyone can certainly afford to go. The price will be, roundtrip, about fifty cents. All the fellows who haven't a way to go already should take advantage of this offer and back their team this much at least.

The team will leave at 11:15 and the buses with the rooting section about 12 o'clock.

Football Game Next Saturday

This coming Saturday, October 4, will see the Poly pigskinners in action for the first time this season. They are scheduled to play the Santa Maria High School-Junior College team on their field at about 2 o'clock Saturday afternoon. If everything goes right, the Green and Orange expect to tuck Santa Maria's scalp under their belt for a starter. The opponents have a fast aggregation and play a good passing game. The weight is about evened up, if anything they have the edge on us. Coach Agosti will be there with his bag of tricks and we may pull a few surprises.

Coach Agosti will probably use the following men next Saturday afternoon: Young at center with White, Zanolli and Bardeness as guards; at tackles, Hald, Morrison and Del Rio; for ends there is Fulwider, Reynolds and Stafford. In the backfield positions we have Lumley, Martinson, Carroll, Eveleth, Reed and Wilbur Miller.

Remember, the game starts on the Santa Maria field at about 2 o'clock Saturday afternoon.

Football Captain Elected

Birger Martinson was elected captain of Poly's 1924 football team. He is just the man to lead the Green and Orange chargers through the season. He is an able and experienced player for this is his fourth year of football at Poly. He won his letter the first year. Marty is an exponent of clean playing, not only on the gridiron but also off.

Captain Birger Martinson firmly believes in team play. He is not the type of fellow who gets the swell head, because he is elected captain, and tries to play the whole team, which is true with a great many players. We find this the case especially with a great many prep school teams. Captain Martinson knows better than any members of the team that to bring Poly successfully through the season will require a smooth running football machine.

We wish to let him know that we are all behind him, from the President down to the smallest rooter at Poly, and we hope he leads the Green and Orange as the most successful football team in the history of Poly football.

Doctor Crandall's Athletic Policy

Our new President, Dr. Crandall, gave his policy regarding athletics in the assembly hall last week. He is solidly behind us in our athletics and is one who firmly believes that the development of the mind and body should go hand in hand. Still he is not of the opinion that a few should be developed at the expense of many, and believes in the development of an all-around athletic program for the benefit of everyone.

A Word From Former Polyites

Just a word from some former Polyites. Our old friend, Frank (Dutch) Sommers, is occupying an executive position in the dairy department of the Palo Alto Stock Farm. Frank declares his success is due entirely to the training he received at Poly.

Folmer Schmidt, formerly a resident of the Dormitory, is now a private in Company B, Second Platoon, U. S. Marine Corps, stationed at San Diego, Calif.

Ralph De Ross, also a former Poly student, has taken up the marine branch of his trade as machinist, which he learned here in the Poly shops, and is now in the Navy.

Senior Electrical Project Work

The Senior electrical class are now engaged in a very instructive as well as educational project in one of the greenhouses. Certain members of the Ag department are conducting experiments in regard to accelerating the growth of plants by electric lighting after dark. It is the duty of the electrical class to devise the most practical and economical system of wiring, and to make out the bill of material. Close adherence to the Underwriters' rules, as well as due regard for economy, is an important factor in the work, and the project is furnishing some real experience to the embryo engineers. When the material arrives, the installation will be done by the class, under the supervision of Mr. Knott.
