

Volume X

SAN LUIS OBISPO, MARCH 26, 1925.

No. 12

### Play Parts Assigned

The parts for the school play, "The Three Wise Fools," which is to be given at the Elmo Theater by the student body of the California Polytechnic School, have been assigned as follows:

Mr. Theodore Findley	Leslie Oldham
Dr. Richard Gaunt	Birger Martinson
Hon. James Trumbull	Robert Hills
Miss Fairchild	Dorothy Hoare
Mrs. Saunders	Wilma Rougeot
Gordon Schyler	Jack Babcock
Benjamin Suratt	William Lee
John Crowshaw	John Carrol
Pool	Avery Clements
Clancy	Ellsworth Hald
Douglas	Herbert McKeen
Policeman	William Tardiff

The play is under the direction of Mrs. Fuller, and regular rehearsals have already started.

### Seniors Elect Captain

In view of the fact that the winning of the interclass trophy rests with the baseball championship, the Senior class at a meeting last week elected Wilbur Miller captain of the Senior baseball team. Practice will start immediately and the Seniors will be prepared to make their presence noticed in the interclass baseball series.

The class also chose the class motto, the class flower, and the class tree.

### New Gym Prospects

The bill for the new gymnasium at the California Polytechnic School has been passed by the State Legislature and is now in the hands of the senate. As the governor has already approved of the bill, it is very probable that it will meet with no opposition, and it is hoped that definite and favorable information on the subject will be received by the time that the Polygram again goes to the press.

A new classroom for the Electric Shop is assured, and its construction will be begun in the near future.

### Ex-Polyite Meeting Success

Eugene Churchill, who until last year was a member of the Class of '25 at Poly, and a student in electricity, has been promoted, according to word received by Dr. Wilder, his former instructor, last week. Churchill, who has been at Portland, Ore., in the employ of the Victor X-ray Manufacturing Co., has been sent to develop an superintend a service department, with territory comprising the states of Colorado, Wyoming, Utah and Montana. His duties will require considerable traveling, and his headquarters will be at Salt Lake City.

This is only one of the many brilliant careers that are being followed by men who received their training at the California Polytechnic School.

### Junior Ditch Fails

The Junior Class "ditch day" which had been planned for Tuesday, March 17, was called off because of the taking of the school pictures. At that, several of the members of the class took it upon themselves to be absent, and spent the day at Pismo, thereby incurring the wrath of the faculty. Most of them can now be seen digging post holes on the campus after school.

Remember the Dorm Club's show, "The High Lights of 1925," Friday night, April 3. Buy your tickets early.

### High Lights of '25

"High Lights of 1925" is progressing very rapidly and begins to have the earmarks of a very high class production. Eleven acts are on the program with comedy and talent intermixed throughout. The program is arranged in the following order:

Tumbling Four—Quinonez, Hotchkiss, Lee, Miller.  
Mandolin Duet—Frederickson, Del Rio.

A Touch of Spain—Spanish Fandango—Babcock, Jiminez.

Three April Fools—comedy skit—Hald, Fulwider, Koster.

Six Second Zuvolosky, Champion Wrestler—Watson, Volz, Bowles, McMahon.

Able's Wedding—Jewish skit—Quinonez, Jeppesen.

Hi and Si—Pettit, Lee.

Novelty Dance—Vincente Jiminez.

Three Songsters Supreme—Lee, Reed, Pfeiffer.

A Bit of Jazz—Sullivan.

From the Ridiculous to the Sublime—Hills, Babcock.

The date has been set for April 3rd and if possible the show will be put on at the Civic Auditorium. For a good time come to the "High Lights of 1925."

### School Pictures Taken

Mr. Aston, the local photographer, was out at Poly last Tuesday and took photographs of the organizations and athletic teams of the school, to be put in the Journal. Many of the students were absent from classes the greater part of the day while having their pictures taken.

### Polyites For Polyites

The other day a thing was called to our attention that did not seem to be right. Down town a member of Alumni has a service station and yet very few, if any, Polyites patronize him.

This is certainly not the fair thing to do, for at the time he attended school he did much to forward us in athletics and other school activities. Is it quite fair to forget him now that he is no longer with us in the classroom?

We seek the support of our Alumni and yet when it comes to giving a member of our Alumni a very little consideration we fall down. Let us realize this and we will be better for it. Let us be Polyites for Polyites.

Remember the Dorm Club's show, "The High Lights of 1925," Friday night, April 3. Buy your tickets early.

### Another Well Being Drilled

The efforts to find water in sizeable quantities on the campus have so far been of no avail. Several wells have been drilled in various places on the campus, but the only one which looked at all promising only developed about a hundred gallons per minute when tested, which is not enough for irrigation purposes.

Another well is now being drilled on the Johnson flat; and it is hoped that enough water will be found to make practical the laying of a pipe line to connect in with the campus water system.

The members of the Hydraulics Class have been getting much practical experience by helping to install the test pump in some of the wells.

### Poly Chatter

Some of the questions bothering students around school are:

When students "ditch" school do they think how much it costs them to attend this institution?

Why does Jack Babcock smoke in front of the Ad Building? Why not smoke where everyone can see him?

If a visitor will not be allowed in the Dormitory, why not go visiting?

Should the people around here "pop off" when they are not stating facts?

Is a class president responsible for the deeds of the class members?

On what plan and under what rules of order are the Poly organizations run?

Did Mr. Strobel ever attend a Poly function?

Should the president of an organization vote?

What should be done to a fellow who votes more than once so that his friends may be elected?

Why do the members of the Dorm Club wear their hats during meetings?

Why is there no scholastic credit given for Polygram and Journal work?

Is the S. A. C. a student governing body?

What has Mr. "Fair Play" to say now? Is he ashamed of his name?

Should the school publications show Poly spirit?

When is the Dorm Company going to stand retreat?

Should boys in the irresponsible condition of love be campused?

Has Pfeiffer too many chickens?

What makes teachers revert to childish stunts such as flying kites?

Why do the organizations here have more officers than a president and secretary?

What is in that bottle?

What was Pfeiffer thinking of while wandering around the campus muttering, "One by one?"

Why didn't Mr. Fair Play have his picture taken with Polygram staff?

When is Mr. Agosti going to publish his book on parliamentary law?

Why does Prescott Reed take so many study periods?

When are the Freshmen going to give a dance?

What makes Mr. Agosti so happy?

Where did Mr. Rathbone get his brilliant necktie?

Where did the surveying class learn trigonometry?

Why did the Freshmen elect a sheik track captain?

Why does Fay Davis still come back to the drafting room on Thursday afternoons?

Where do Avery and La Verne go every noon?

Why doesn't Pfeiffer shave?

Why are so many girls taking poultry?

What time does Stewart Patchett leave Dorothy's?

Why does Floretta spend so much time talking to Bill Lee?

Why is Heavy such a convincing talker?

Why did a certain president use a slide rule for a gavel?

Why don't the Freshmen work on the track?

Will Fred Louis ever grow up?

When will Albert Call give up?

Does Pat spend all of his time at the High School?

Why is Bill Rougeot sleepy Mondays?

### Ag Field Day Here

Representatives from the Farm Bureau centers of the counties of San Luis Obispo, Monterey, and Santa Barbara will meet for an Agricultural Field Day at the California Polytechnic School April 25.

The program for the day will begin at nine o'clock in the morning and last until five in the afternoon. There will be sports, contests, races, etc., between the men, women, and boys of the different farm centers, and a championship baseball game between two centers. Lunch will be at noon in the Poly grill, coffee, cream and sugar being furnished free.

In the afternoon there will be talks by Mr. Selock, vice-president of the State Farm Bureau, Parker Talbot, the local farm adviser, and Judge Norton. The various features and events will be under charge of members of the faculty and student body, and Mr. Rathbone will be general superintendent for the day.

### New School Catalog

A new California Polytechnic School catalog is being prepared. It will have thirty-two pages, with many illustrations, and will give detailed descriptions of every branch of the several departments.

### Assembly March 25

The assembly was called to order by Miss Chase, and the announcements were heard. The Journal editor announced that Rae Mayhall received the first prize awarded for the best story submitted for the Journal.

The student body song, "Hail Polytechnic," led by Ruth Smith, with Margaret Word at the piano, was then sung.

The feature of the day was a talk made by Dr. Gallup of San Luis Obispo, who told of his trips to New York and Rochester.

He gave a very interesting description of the Rochester Institute, a hospital of nation-wide fame, which was founded by the father of the two prominent surgeons, Doctors William and Charles Mayo. It has ten operating rooms, with accommodations for three thousand patients, and handles over fifty thousand cases yearly.

Dr. Gallup spoke of the importance of good physical condition, and urged a complete physical and dental examination at least once a year.

He also told of his trip to New York from San Francisco, in charge of a hundred and fifty undesirable aliens who were to be deported. He gave an interesting discussion on the problems of handling and taking care of the aliens, and described the immigrant station at Ellis Island.

Dr. Gallup answered questions from several of the students and faculty, after which Capt. Deuel dismissed the assembly.

Does Arthur Call know what electricity is?

Why does Griffin have so many pictures of himself?

Will Mason Elder ever get his periods worked off?

What makes Koster's feet so big?

Why is Long Boy so industrious?

Why does Jimmy Warford go to Atascadero?

Why did Fulwider and Young drop welding?

Bulletin Supplement. Entered at the Postoffice at San Luis Obispo, Cal., as second-class matter. A bi-weekly publication issued by the students of the California Polytechnic School, San Luis Obispo, California. Subscriptions, one dollar a year. Single copies, ten cents.

Printed by the California Polytechnic School Print Shop.

## THE FORUM

The Forum will be a new section in the Polygram to begin in the next issue. Its purpose will be to furnish an open meeting place where everyone may have a chance to air his opinions.

The Forum originated in Rome and was a court in which any person could bring his opinions or troubles before the people. Charges could be made by the very lowest peasant against the very rulers if they so desired.

The Forum in the Polygram will be open to any person in Poly, its faculty, students, and Alumni. If there is anything in commendation or condemnation you think should be placed before the student body, the Forum is the place for it. The only things asked are that the article be written or typed upon but one side of the sheet, and signed with your own name. It is not to exceed one hundred and fifty words.

The Polygram staff will censor none of the articles. Of course contributions must be of such a value that the faculty adviser will not disapprove them, but this rule applies equally to the contributions of the staff itself.

The purpose of this column is to give every person in school an opportunity to express his opinions upon anything even remotely concerning us. This will give everyone an opportunity to write for his paper and will also save some the trouble of putting in articles outside the regular channels.

This column will make an interesting addition to the Polygram and will also give an opportunity to see some of your ideas published. The chance to express yourself in this is a real opportunity too.

We take it for granted that every person is attending Poly with some object in view. Just stop and think over how many ways there are in your "line" where the ability to write intelligently and directly to the point will help you. No matter what your business will be, that ability will be of invaluable assistance to you.

If there is any person who does not think this is true, the Forum is your chance to answer and state your side of the case. If you see any article in the Polygram, especially in the Forum, that you do or do not agree with, write a short article for this new column and give us your opinion. Let's get together on this and make it a place where everyone puts forth his ideas and has some of his questions or arguments answered.

If you have an idea that has been growing in your mind for some time and you have felt a little backward about turning it in, now is your chance to publish it. Don't put it off or think it is not good enough. Write it up and give everyone a chance to see it. It may be a little better than you think. If you see some other article in the Polygram you do not quite agree with, write your opinion of the matter and above all do not put it off, for it would not have much value as an answer if it came in two or three weeks late.

Here is a chance to make a valuable addition to your paper if you will just give it your support so let's get together and put this over big.

## New Press for Print Shop

Negotiations have been practically completed for the purchase of a new Lee cylinder press for the Polytechnic Print Shop. The press will be large enough to handle matter twenty-four by thirty-six inches and will be equipped with three speeds forward and a reverse, with a maximum capacity of 1800 per hour.

It is hoped that the press will be installed in time to print the Journal and the spring catalog.

## Dorm Doings

If a person was to step into the Dormitory some evening about seven o'clock he would think that he was in a bug house. The fellows are all separated in groups in the halls and in the rooms, some singing, some dancing and some talking. It is not so bad as it seems, though; they are just practicing for the "Dorm Jinks."

John Pfeiffer and Bill Lee have taken such an interest in their chickens lately that they won't even leave the campus for fear that they won't return in time to put them to bed.

Poor Pfeiffer makes one mistake right after another. First he got a girl and now he's got a Ford. Maybe he doesn't know that the two don't go well together.

Bob Hills is taking tennis lessons from Jack Babcock. He is getting no better fast.

Perhaps Niels Jeppesen's girl will get him home in time to go to work next Sunday.

C. Earle Miller is terribly worried; he hasn't received any word from Hollywood yet.

Francis Munding has returned from his home in Maricopa where he has been recuperating from a slight relapse in health.

Don Eveleth is in favor of putting a time limit of forty-five minutes on the telephone.

Otto Groenveld spent a very pleasant week visiting at his home in Hanford.

Pablo Del Rio says he does not like to go on wienie bakes when everyone forgets to bring matches and you have to eat the wienies raw.

We have a new member in the Dormitory. His name is "Fair Play" and he seems to know quite a bit about other people's business.

Don said that if one member of a family was going to be a farmer the whole family should be Ags. So Margaret took a poultry project.

A fellow sure can get a good education at "Poly". Reed, Elder and Reynolds are now working for the State.

## Baseball Captain Elected

Last week Ivan Reynolds was elected captain of Polytechnic's baseball team. He will be on the mound for Poly this year and is the best baseball player Poly has. It is hoped that he will be as successful in leading the Green and Orange to victory this season as his playing has been with Poly in the past.

Capt. Deuel is coaching the Poly horsehide team this season. He will have four baseball lettermen this year as a nucleus to build a ball team around. The four lettermen are as follows: Reynolds who will twirl for us, Carroll who will assist Reynolds on the mound, and Oldham who probably will be in right field with Zanoli in left field. We have plenty of new material for regular berths on the team. With the large number of candidates seen out on the diamond every afternoon it looks like the Green and Orange timber welders will win quite a number of games for Poly this year.

Remember the Dorm Club's show, "The High Lights of 1925," Friday night, April 8. Buy your tickets early.

## Fair Play

Probably some of our student body noticed a short article in the last issue of the Polygram signed "Fair Play." As the event he speaks of happened in a Dormitory meeting he probably belongs to the Dorm Club and this club must surely be proud of such a broad-minded, fair spoken member.

I will not attempt to disagree with him because his article must be absolutely correct, for does he not sign himself "Fair Play"? It must be quite a load though to carry about a name like that. Always fair and straight in his judgment and no mistakes to blacken his good name. Quite a load, indeed.

It is rather hard to believe but it seems as though he was almost mistaken in the opinion he expressed in that article.

The election spoken of was for vice-president of the Dormitory Club. For one thing the Moonshine Club did not claim the "swing." He must have been slightly mistaken.

After subtracting the total number of members of the M. C. present from the voters of the winning candidate it could be seen that there was but one vote difference between the winning candidate and the second highest candidate. In a case like this how could it be possible for the M. C. to swing the election? They merely gave one fellow a large majority.

As for insulting the other two candidates that surely must be a slight error. For what possible reason could they be insulted? Let us hope not, because they lost the election. And of course they did not feel themselves so far above the common herd that it injured their feelings to be placed on a level with one of us at an election. However much it pains me to do so, I must disagree with Fair Play and state that I do not think either of the other two candidates were insulted.

I greatly regret to say that Fair Play's education must have been neglected. It is usually considered the height of poor form to be ashamed of one's name when writing upon some other person's actions.

D. A. FULWIDER.

## Poly vs. Arroyo Grande

The Poly baseball team took a trip over to Arroyo Grande last Tuesday and crossed bats with the high school team for a little practice. The game ended 4-1 in Arroyo Grande's favor. Because of lack of time only a seven inning game was played. Arroyo Grande made its only score, four runs, in the first inning. Our horsehiders realized that this was serious and decided that this would never do, so Poly shut them out from any further runs in the remaining innings.

Stolen bases were made as follows: Oldham two, Reynolds one, Carroll one, Graves one, Isola one, and Traver one. A double play was made by Graves to Traver. Three bases were made on balls off Reynolds, four off Lee of Arroyo Grande and none off Carroll. Carroll struck out four, Reynolds struck out none and Lee of Arroyo Grande struck out eleven.

## Favorite Sayings of Our Co-eds

Belle: I've just been to Cayucos.  
 Ruth: I'm so shocked.  
 Margaret: Well, I don't think that right.  
 Rae: Let me see.  
 Floretta: Do you know where Bill is?  
 Wilma: Well, maybe you think so.  
 Rosalind: "Eke."  
 La Verne: I was just walking back.  
 Charlotte: If you do, I'll slap you.  
 Dorothy: That's naughty.

Little Boy: "Dad, what is a she-devil?"

Father (sternly): "Son, if you speak of your mother again in such disrespectful phrases I'll slap the taste out of your mouth."

Bill Lee is awfully happy these days. He says that Ruth thinks more of him than any other boy in school, after Bobby and Barnes and Freddy and Albert are gone.

Ruth says that it is just one thing after another. Last week it was sun-burn, now it's the tennis court. Probably next week it will be thumb tacks.

Floretta: "Do you love me, Billy?"  
 Lee: "I sure do, honey."

Floretta: "Then why don't your chest wiggle up and down like they do in the movies?"

Reed: "I hear you are off your girl."  
 Lee: "I am."

Reed: "Howzat?"

Lee: "I gave her a box of candy and asked for a kind word. Last week I took her to a show and afterward asked her for a kiss. But last night I gave her my ring and she held her hand over my mouth. Now how in the dickens did she know that I wanted to borrow a dollar?"

Capt. Deuel (explaining machine gun): "This gun can be fired 60 times without loading."

Hills: "How many times can you fire it if it is loaded?"

Belle: "Isn't this a rotten tennis court?"

Ruth (sadly): "I don't think so. I fell down on it the other day and it seemed to be quite solid and good."

Fulwider: "You seem to be awfully happy."

Reed: "Why shouldn't I be. At last I have found a girl who is dumber than I am."

Don: "And as I came around the corner I saw Ellsworth—"

Mr. Rathbone: "Let's get back to our subject; we were talking about donkeys."

Don: "That's just what I was doing."

She came toward him in the dark of evening dressed in a clinging gown, her arms extended, her every limb trembling. "Oh John," she cried, "I am so cold."

Can't help it ma'am," said the janitor "I've got every bit of heat turned on to your compartment that I can."

"Curses," cried the villain as he went to lock the sweet young thing in his room. "I've left the key in my other pants."

One girl lives in Atascadero  
 And one in my home town  
 One girl costs me much dinero  
 And the other does me brown—but  
 If I have my choice, and I surely can  
 I'll take the one with the Star sedan.

Dorothy M.: "If you were to stand by a jackass, what would that be?"  
 Birger: "I know, but I don't like to say it."

Dorothy: "A pair."  
 Birger: "No, it would be Leslie and I."

Ruth (passing a display in a restaurant window): "My, that makes my mouth water."

Hills: "Then spit."

Ivan Reynolds: "Can you give me a job where I can keep dressed up all the time and won't have to work?"

Mr. Tennant: "I'll remember that and when I find two jobs like that I'll give you the other one."

Langenbeck: "Can I get a room here?"

Clerk: "Have you got a reservation?"

Langenbeck: "What do you think I am, an Indian?"

There was a young lady from Siam  
 Who had a lover named Priam  
 I don't want to be kissed,  
 But if you insist,  
 God knows you are stronger than I am.

Dr. Wilder: "I'll not go on with this lecture until the room settles down."

Varian (whispering in the front row): "Better go home and sleep it off."

First Villian: "I'll meet you at midnight."

Second Villian: "Alright, but don't forget the papers."

First Villian: "No; and you bring the tobacco."

Pfeiffer: "What is it that every girl wants to know?"

Charlotte: "More."

Tardif: "I think I will call on Mr. Agosti."

Davis: "Why all this?"

Tardif: "He called on me three times last week."

Mother: "Why so worried, dear?"

Belle: "I'm going to a dance and I am not sure whether it is formal or informal. Shall I wear an evening gown?"

Mother: "No; just wrap it up in your handkerchief and if it is formal slip it on in the dressing room."

Rosalind: "Avery has a heart of gold."

La Verne: "And don't you think it so cute of him to have teeth to match?"

Mr. Agosti: "How would you tell the height of a tower by means of a barometer?"

James Warford: "I'd lower the barometer from the top of the tower and measure the rope."

Rae: "Good heavens, Alfred! This second-hand car is awful."

Alfred: "Yes, and the worst of it is the dealer said it would last for years."

### Triangular Track Meet

The Green and Orange track team made their first public appearance here last Saturday afternoon in a triangular meet with the San Luis and Paso Robles High Schools. It was a close contest all the way through but finally San Luis High came out with first honors by annexing 59 1-12 points, Poly took second with 50 1-6 points, and Paso Robles third with 43 3-4 points.

There was a great deal of dope upset in this meet with disappointment and surprise on all sides. The Polytechnic track aggregation did not show up as well as it should or even as it was expected. The season has just started, we just had our inter-class meet only a week before and our Green and Orange cinder path artists expect to show a great deal of improvement before the season ends. It is hoped that another meet will be staged here or a dual meet is arranged between Poly and San Luis High later in the season.

The time and the marks for the different events in this meet were all better than those of our interclass meet with the exception of the 70-yard high hurdles which was run in 10 flat, and discus which was heaved 110 feet. The mile was the most spectacular event of the day. The competition was keen and the time was good considering the fact that the oval is only one-fifth of a mile. This is one reason why the time is slower for all races around a curve than it would be for those on a regular one-quarter mile oval.

There was a triple tie for high point honors of the meet with White of Poly, Krough of San Luis and Van Horn of Paso Robles sharing the honors with ten points each.

There were thirty other point winners in the meet with counters ranging from 9 1-4 down to 1-3 point. Those who collected points for Poly were as follows: White 10 points, Traver 7 1-3 points, Reynolds 7 points, Hald 6 points, Hotchkiss 5 3-4 points, Gngg 3 3-4 points, Carroll 2 3-4 points, Davis 2 1-2 points, Erwin 2 points, Martinsen 1 point, Eveleth 1 point, Tardif 3-4 point and Welsher 1-3 point.

The results of the events are as follows: S signifies San Luis; P for Poly; and P. R. for Paso Robles.

100-yd. dash—Carveo, S., first; Holland S., second; Talbot P. R., third; Davis, P., fourth. Time, 10 4-5 s.

440-yd. dash—Spillers, S., first; Hald, P., second; Schwafel S., third; Carroll, P., fourth. Time 55 3-5 s.

Mile run—Van Horn, P. R., first; Smith, P. R., second; Washburn, S., third; Martinsen, P. fourth. Time 4 m 59 2-5 s.

High jump—Murry, S., first; Traver, P., second; Tardif, P., Davis, P., Adams, S., and Pool, P. R., tied for third and fourth. Height 5 ft. 8 in.

70 yd. high hurdles—Krough, S., first; Traver, P., second; Pugh, P. R., third; Ballentyne, P. R., fourth. Time, 11 s.

220-yd. dash—Holland, S., first; Carveo, S., second; Hotchkiss, P., third; Spillers, S., fourth. Time 24 4-5 s.

Pole vault—Poole, P. R., first; Enos, S., second; Willet, S., third; Traver, P., Welsher, P., and Adams, S., tied for fourth. Height 10 ft. 9 in.

Javelin—White, P., first; Branch, S., second; Reynolds, P., third; Willet, S., fourth. Distance 140 ft.

Broad jump—Ballentyne, P. R., first;

### Sport Briefs

Since our first meet last Saturday with San Luis and Paso Robles High some of our track aspirants are beginning to realize how very important it is to be in condition and form in order to be able to make a good performance, and practice, practice, is the keynote.

Numri, the great Finnish runner, must be the super-iron man. According to reports from the East, he ran two and one-half miles to warm up for the mile run. Before going to the marks for his race he finished eating an apple and then broke the world's record in this event.

According to the performances of the inter-department and inter-class track meets at the Santa Barbara State College it looks like our B. V. D. artists have a good chance to bring back a good number of points. We have bettered their marks in a number of events and compare favorably with others.

Baseball is being stimulated in some Eastern schools by a group of men who see it is losing its place as a national game with the younger generation. Football seems to be the most popular game with the coming generation. But sport critics do not see how it can be commercialized as successfully as baseball. A professional football game lacks the spirit and fire that a college game has. Basketball is another game that is rapidly growing in favor. In the schools and colleges its popularity has increased by leaps and bounds within the last few years. Its popularity is rapidly coming into favor with the general public also.

White, our weight man, is due to break the school records in the shot and javelin before the season is over. Tardif is soaring up in the heights in the pole vault and Traver ought to break some records in the high jump too. Hotchkiss, our Freshman star, ought to leave some records behind him before he graduates.

### Poly vs. San Luis High

Last Monday the Poly ball team crossed bats with the San Luis High in a little practice game on the Poly diamond. Only five innings were played as there wasn't time enough to play a full nine inning game.

The game ended 2-0 in favor of the San Luis High School. Poly got two hits but were unable to bring them in. The only two runs brought in were made by the High School in the first and fifth innings.

Reynolds twirled for Poly and struck out ten men. Scurri was on the mound for the visitors, striking out seven men. Only three hits were made in the whole game, two by Poly and one by San Luis. Stolen bases were made by Oldham for Poly and Carvao and Holland for San Luis High.

After Theater Let Chocolate Den Be Your Hobby.

Schwafel, S., second; White, P., third; Gngg, P., fourth. Distance 19 ft. 3 in. Discus—Reynolds, P., first; Hald, P., second; Tate, P. R., third; Akers, P. R., fourth. Distance 108 ft. 11 in.

Shot—Tate, P. R., first; White, P., second; Erwin, P., third; Eveleth, P., fourth. Distance 41 ft. 10 in.

880-yd. relay—San Luis team, first; Holland, Schwafel, Carvao and Spillers; Poly team, second; Hotchkiss, Carroll, Davis, and Gngg; Paso Robles, third; Ballentyne, O'Donovan, Pool, and Laing. Time, 1 m. 40 3-5 s.

### Interclass Track Meet

Last Thursday the Seniors walked away with the interclass and field meet. Although there was no sensational performances it was run off in grand style. The Seniors collected 62 points, the Sophs put away 44 1-2, the Frosh rounded up 38, while the Juniors were given 30 1-2. The Junior dopsters didn't hit the right mixture for they were left in the rear instead of finishing at the head of the classes as they predicted.

Hald was individual high point winner of the meet with Traver a close second. Traver was high point man for the Sophs, while Hotchkiss took the honors for the Frosh. Tardif starred for the Juniors while Hald led the Seniors. The following men made three or more points in the meet: Hald 16 1-4, Traver 16, Hotchkiss 15 1-4, Martinsen 15 1-4, Tardif 13 3-4, White 12 1-4, Carroll 11 1-4, Babcock 7 1-2, Davis 7 1-4, McKeen 6 1-4, Oldham 5 1-2, Lee 5, Harpster 4, Reynolds 3 1-2, Zanolli 3 1-2, Louis 3, Eveleth 3, Bardmess 3, and Heisel 3. Tennis was a special event on the program.

In this meet a wealth of good material was found. If the boys will come out and train in their different events for their school, time will develop a good track team for Poly. The Seniors annexed a goodly number of points toward the interclass athletic cup. They must emerge as baseball champions to win the cup now.
