SAN LUIS OBISPO, MAY 14, 1925.

No. 15

## Poly Presents Play

The stage is set for the play, "Three Wise Fools", which is to be presented by the Polytechnic Student Body at the Elmo Theater tonight. After several weeks' hard work on the part of the cast and the committee in charge of the production, everything is in readiness for what is expected to be the most successful enterprise of its kind attempted by the school in recent years.

The play is full of wit, drama, and action, and the characters are well adapted to their parts. Mrs. Fuller, who is directing the play, is of unquestionable ability, and there is a great deal of talent among the members of the cast. Rehearsals have been held at the theater every day this week, and the dress rehearsal yesterday went off very smoothly.

The sale of tickets by students has been under way for the past week, and a good house is assured.

Chester Davis has done some good work in gathering properties, and Fred Louis' assistance in preparing the stage has been invaluable.

Belle Tomasini and Rae Mayhall, in charge of the advertising, have brought the occasion well before the public eye. Window cards, handbills, and windshield stickers have been issued, and several hundred circulars have been mailed and handed out in the Elmo.

The cast of characters is as follows:

### Cast of Characters

Mr. Theodores Findley	Oldham
Dr. Richard Gaunt	Marty
Hon. James Trumbull	Bob Hills
John Crawshaw	Carroll
Miss Fairchild	Dorothy Hoare
Mrs. Saunders	Wilma Rougeot
Benjamin Suratt	William Lee
Poole	Fulwider
Gray	George Isola
Clancy	E. Hald
Douglas	H. McKeen
Policeman	Alfred Young

The three wise fools are three elderly gentlemen, with Leslie Oldham taking the part of Mr. Theodores Findley, a financier; Birger Martinsen appears as Dr. Richard Gaunt, a prominent physician, and Robert Hills affects a very judicial appearance as Hon. James Trumbull, a superior judge.

Dorothy Hoare appears as Miss Fairchild, the heroine of the story, and Jack Babcock plays opposite her as Gordon Schuyler, a nephew of Mr. Findley.

The other characters are: Mrs. Saunders, housekeeper, Wilma Rougeot; Benjamin Suratt and John Crawshaw, escaped convicts, William Lee and John Carroll; Poole, a detective, Don Fulwider; Clancy, detective, Ellsworth Hald; policeman, Alfred Young; Gray and Douglas, butlers, George Isola and Herbert McKeen.

## Baseball Season Closes

Next Saturday will see Poly's last baseball game of the season when the Green and Orange will cross bats with the Santa Barbara State College on our own diamond. Our boys have not had much in the way of practice since Easter vacation because of other activities. Only one practice game with San Luis High has been played since the vacation, resulting in a 9-7 score favoring Poly. Only two other games were played, one with the Union crew from over the mountains and the other with Arroyo Grande, both games being a

## Dorm Club's Constitution

Some months ago the Dorm Club officers drew up a constitution and submitted it to the club for its approval. The club voted to adopt the constitution as it was drawn up with exception of the article dealing with a Dormitory court which was to be omitted. Later the club voted to have a Dorm Club court patterned after a plan offered by Bob Hills. It was also voted to publish the constitution in the Polygram.

The constitution is as follows:

### Art. I—Name and Purpose.

The name of this organization shall be the Dorm Club. Its purpose shall be to promote good fellowship among the Dormitory boys, encourage school spirit, promote social activity in the Dormitory and to work towards the betterment of the school as a whole at all times.

### Art. II—Membership.

Membership shall include all students living in the Dormitory or on the campus and any other student who might be voted in by the club.

### Art. III—Government.

The government of this organization shall be carried on by a president, vice-president, secretary and a treasurer, legally elected as hereafter provided.

### Art. IV—Election of Officers.

Sec. 1. The officers of this organization shall be elected at a meeting to be held at least two weeks before the close of school, to hold office for the ensuing year. It shall be necessary to obtain a majority vote for election of officers.

Sec. 2. All voting in connection with election of officers shall be made by secret ballot.

### Art. V—Meetings.

There shall be stated meetings, time and place to be decided upon by the Dorm Club.

### Art. VI—Finance.

Sec. 1. There shall be regular semester dues, the amount of which shall be decided upon by the Dorm Club.

Sec. 2. Assessments may be levied by a three-fourths majority of the active membership.

### Art. VII—Amendments.

Amendments may be made at any time by a three-fourths majority of the active membership, providing they first be posted on the bulletin board at least one week before being voted upon.

victory for Poly. This game next Saturday will be the best game of the season and Poly hopes to repeat the victory of her football team over Santa Barbara last fall.

The next major sport in view after the baseball season, is spring football practice. Whether we have spring practice here or not depends upon the students. Coach Agosti stated that he would be glad to have it, but at least sixteen fellows will have to sign up for it. At least this number will be required to make it worth while to benefit next season's team very much. Now if you students who will be back next year want to help Poly put out a successful football team next season, sign up with Coach Agosti for spring football training.

## Success

(From a School Exchange.)

The first thing to realize is that success is positive. It consists in doing, not in not doing; in creating, not in preserving; in attack, not defence. In the battle of life, as in any other kind of fight, the main thing is to hit first and hit hard. Success is a resultant of forces, inner and outer. The inner forces are of the body, of the mind and of the feelings. The body forces are included in the term health.

Health is primarily not an affair of care and cleanliness. These things are of importance but of vastly more importance is your vitality, steam, go, push, and in general your energy of expression. Look to your over-coming power, not your endurance capacity. "To him that overcometh, will I give the crown." For instance microbes swarm everywhere; everybody's mouth and nasal passages have many of them. The healthy body throws off, destroys and eliminates them.

It is not an antiseptic soap or carbolic acid that measures our vitality. So in the mind it is power to give forth energetic thoughts of right, good, self-assertion, vitality, and accomplishment, that count more than your power to withstand temptation.

The brain constantly occupied with the forth-putting of strong formative plans has no room for the sickly struggles against weakness and sin.

The feelings, also, which are positive and creative, should be encouraged as opposed to those which are merely resistive.

The strongest positivity of the soul is love. The more you can love, the more you mean to the world. Fill your life with love. Feed on it daily.

Love of women characterized forceful men. Love of children, of friends, of comrades, means that you are vibrating with creative electric units. Add to these, love of your work, which is enthusiasm; love of play; love of the beautiful, which opens you up to nature's in-streaming forces; and love of the good and just and right which attaches you to the infinite, and makes the stars in their courses fight for you.

All this does not imply that you are to be careless, unclean, and undisciplined.

You must observe your proper prohibitions. You must resist and sacrifice to a degree. But the point is that to address one's self mainly to not doing is the program of the weak. The successful are too busy doing to waste time wrestling with temptations.

Rules of diet, medicines, and hygienic cautions are for the folks who loaf around sanitariums. Woodsmen, trappers, hard-muscled and horny-fisted blacksmiths, don't need them.

Virtue is a positive emanation. It is the supreme expression of a properly attached soul. It is not a washed-out, negative, hot-house affair.

## More About School Spirit

School spirit is a very important element in any school, and it is especially so in a school that has as small a student body as Polytechnic has this year. Along about this time of year school spirit ebbs very low. We don't feel like going out for baseball practice, and we would rather go swimming than attend the games. It is springtime, we are all tired of school, and about all we think of is vacation. But let's keep in mind the loyalty we owe to Poly.

The day of the recent Farmers' Picnic a member of the Dorm boys left their empty lunch bags on the lawns, and back of the bushes in front of the Administration building instead of placing them in the receptacles provided for the purpose. Perhaps it was because of thoughtlessness, but the lack of pride in the appearance of the campus indicates a lack of school spirit on the part of some of the students.

One manifestation of school spirit took place last week which deserves especial mention. Herbert Perry, a Dorm boy, observing the shabby appearance of the Block "P" on the hill behind the campus, took it upon himself to climb the hill, and hoe the weeds from on and around the letter. As a result of his efforts, the appearance of the campus is improved, and a better impression will be conveyed to those who pass by during the summer months.

## The Poly Picnic

The annual Polytechnic May Day picnic was held Friday, May first, at Tassahara Creek, near Santa Margarita, and was pronounced by all to be a great success. Most of the crowd left the campus about nine o'clock, and arrived at the picnic grounds about the middle of the forenoon. A few of the more ambitious went fishing, and the rest played games and loafed.

Lunch consisted of hot dogs, salad, cake, coffee and ice cream. The ice cream was a product of the instruction to the students taking dairy. After lunch a number of the students left early to attend the Chatauque.

The grounds were ideal, with plenty of grass and shade trees, and everybody had a good time.

## Sophomores Win Trophy

The final baseball game of the inter-class series between the Seniors and the Sophomores decided which one of them would win the silver cup. The Sophs won 11-4, thus giving them more points than any other class in athletic competition. The Sophs are basketball champions, baseball champions, handball champions and have the championship rifle team. They won every sport that was to be played towards the winning of the trophy except the track and field games, in which the Seniors emerged champions. There is no doubt that they are surely entitled to the trophy. This is a perpetual trophy and will be contested for each year for "All Sports Championship." This is the first year that anything like it has been offered at Poly and it is hoped that the good and the spirit that has been aroused over this cup in interclass competition will continue in the future.

Perhaps football will be considered next term as an additional sport to count towards winning the trophy.

Bulletin Supplement. Entered at the Postoffice at San Luis Obispo, Cal., as second-class matter. A bi-weekly publication issued by the students of the California Polytechnic School, San Luis Obispo, California. Subscriptions, one dollar a year. Single copies, ten cents.  
 Printed by the California Polytechnic School Print Shop.

VISIONS

We are all victims of visions to a certain extent, from the lowly street cur to our highest form of humanity. The question is, are we being benefited or victimized by our visions? Do they rule us or do we control our imaginings?

Did you ever see the hair upon a dog's back rise and his lips slowly draw back as he softly snarled to himself while he was apparently gazing at a blank wall? What is it that he imagines he sees? Whatever it is, he is its victim. What he imagines he sees is real to him and it strikes fear into his heart. He is afraid to turn his back upon that wall for fear of some terrible monster that may spring upon him. To the dog there is something there, something that menaces his life and can inflict pain upon his body. To you and me standing by it is a joke—upon the dog.

"What fools animals are," we say, "to be deluded by themselves into seeing things that are not." Perhaps we tell the dog to go lie down or walk by the wall and try to prove to his poor weak intellect that there is nothing there.

The dog, however, is not satisfied. He has convinced himself there is an object there to be feared and fought if necessary and until it leaves, he stands on guard or executes a careful retreat. Maybe he admires our bravery or foolhardiness in stepping within reach of this terrible object. Perhaps it is but another sign of our mastery to him, for any creature that can pass unharmed by this fearsome thing should be looked up to by a mere dog.

We laugh at, despise, or sympathize with the poor dumb brute according to our natures, but do we essentially differ from the lowly cur?

Are we not victims of our visions and are they not as real to us as the picture on the wall the dog's mind has called up is to the dog? Laugh at the dog if you wish but be prepared to enjoy a good laugh at yourself almost any time.

Did you ever meet an acquaintance of yours who looked as though his last friend had died and his last brother had just been buried? You ask him what is the matter and are prepared to sympathize with a terrible loss to find that he is thinking of the two cent rise on the cost of a loaf of bread. Did you not leave him, secretly amused at the poor fellow, as you called him?

It is amusing, isn't it, but what is the difference between you and the man worrying about the cost of a loaf of bread? Probably you have a different vision of some horror before you that is as real to you as the picture on the wall is to the dog.

Are we not all stumbling about under a load of illusions, delusions, and pictures upon the wall? Next time you see a pup frightened at his own shadow, don't laugh at the poor cur, he is afraid of something that can be seen at least.

If we begin to let shadows and illusions worry us and rule our lives we are slipping because they have this peculiarity, that their power continually increases.

When once they find a foothold in our minds they continually grow but at the same time they make room for and encourage others of their kind to enter.

By this very peculiarity we can make ourselves master of our visions to a certain extent. Think what you would like to be or what you would like to do and make that into a vision. It will grow and also make room for others of its kind and gradually crowd these

POLY CHATTER

Customs and traditions are the life of a school. Without them a school has no history, it has no past for the upperclassmen to tell the Freshmen as they sit about with wide eyes and absorb the stories of a school's past glory.

Traditions are made and it is the custom to keep alive all the traditions that lend glory to an institution. Poly has her traditions; we are a comparatively young school, yet we have our traditions. Nothing causes the eye of the young student to brighten or thrills of joy run up and down his back as to hear an upperclassman say, "When I was a Freshman we did so and so." A school lives not only in her student body, but in her alumni. With a close relationship between students and alumni a greater Polytechnic is to be built. School soon closes for a vacation. With its opening new Polyites arrive and the older students move to make room for the new. Let's even in our after school life still remain true Polyites. Let's see all of the contents possible and above all back our school and remain loyal.

Herbert Perry displayed a great deal of school spirit and initiative when he recently climbed the hill back of the Dormitory and cleaned the weeds away from the "Block P." Herbert is a new student, but just such display of spirit is what we need. The older students are in a rut. The future of Poly depends on the attitude taken by the new students.

Some students attending Poly can remember when U. S. History was a Senior subject. Now anyone who does not want to work takes U. S. History.

John Pfeiffer has quit smoking. Charlotte seems to be the cause of John's reforming.

The only thing that you don't have to prove in geometry is that you received a certain grade.

The May Day picnic was a decided success. With the exception of two excused absences, every faculty member was present.

You have all seen a child with a new gift or toy, especially a toy that will make a noise. Such is the case with one of our faculty members. He has a car with a horn on it. There is also power enough to cause this horn to function. He once owned a Chevrolet without power enough to toot the horn. Now he drives around tooting his horn and attracting all of the attention possible.

The tumbling four are making a good showing. Look at Hotchkiss's nose.

With spring here and no ambition on the part of the students the grades are steadily falling.

The Dormitory constitution, court, etc., is a step in the right direction. With a bunch of bolsheviks trying to cause Hald all of the trouble possible he is not getting along any better than is to be expected. In pursuance of somebody's policy of fair play we might do something if all would work together.

With so many ads in the Polygram there is hardly enough room for any news. There is also trouble in getting anything written. Would it not be a good idea for all of us to get together and try to work out a system for the Polygram for next year?

black shadows back into the darkness from which they came.

Make yourself master of your visions and you will be master of yourself.

Dorm Doings

At the last meeting of the Dorm Club it was decided that a court be organized to mete out punishment to wrongdoers. This court is to consist of seven men, a judge, attorneys for prosecution and defense, and five men to act as a jury. This court is to try and punish members of the Dorm Club who disobey any rule. Captain Deuel and Dr. Crandall will act as advisors for the court.

It will also decide to give a barbecue and a dance. The barbecue which was a real live affair was given at Pismo Beach Wednesday evening. A good time and plenty to eat was had by all. The date for the dance has not been set as yet, but it will be in the near future. It will be held at the dining hall and if it is anything like the dances that the Dorm Club has given in the past it will be a real dance and everyone is bound to have a good time whether they want it or not.

George McMahon has bought himself a Chevrolet and is planning a tour of the world. He is giving the car a complete overhauling, even to getting new fenders. "Mac" has not tried to start his car yet, but he seems to have a world of confidence in it.

The "Dorm Highlights," brought out the talent in the Dorm Club. Thursday of last week the "Tumbling Four" went over to Edna and put on a performance before a Farm Center meeting. There were about thirty-five or forty people and they showed the boys a real good time and gave them all they could eat. The act was a little better than the one given at the Auditorium as they had some new tricks and more room to do them in. Monday of this week Bill Lee and Pearl Pettit went to Cambria and put on a little act for the Cambria Farm Center.

Prescott Reed says the reason girls come to Poly is because they have too much competition at High School.

Leon Erwin was in a terrible predicament for a while. When he left Los Angeles after vacation he forgot to bring his good pants with him and he couldn't call on his girl.

John Pfeiffer has certainly gone wrong since he has been love-sick. The other day when he hit his finger with the hammer he jumped up, stamped his foot and said, "Oh, sugar."

Since the Chautauque left town the boys at the Dorm just can't get used to going to bed every night.

Prescott Reed decided to be a nature dancer and frolic on the rocks on the rocks among the sea breezes. But his ardor was dampened when he fell in the ocean. His ardor is not all that was dampened.

Judge: "Do you sell booze?"  
 Lee: "That's my business, not yours."  
 Judge: "I thought so, but I understood that you refused to confess."

The Aps they are a peculiar race  
 Ba, Ba, Moo.  
 The Aps they are a peculiar race  
 They wash their hands and they  
 shave their face,  
 Ba, Ba, Ba, Moo, Moo, Moo.

He heard that she was wicked yet  
 so young, but when he met her he  
 knew that she was beautiful, yet so  
 dumb.

Koster: "Did her father come be-  
 tween you?"

Perry (sitting down gingerly):  
 "No, he sneaked up behind me."

Reed: "Do you want to meet a  
 nice girl?"

Langenbeck: "Sure, a friend of  
 yours?"

Reed: "No, but when Fulwider  
 goes away she'll be a widow."

Fulwider: "I nearly made a  
 mistake."

Young: "Howzat?"

Fulwider: "Last night I started  
 to ask my girl to marry me, but I  
 got to talking radio and as I only had  
 five hours I never got back to the  
 original subject."

Dr. Wilder believes in constructive,  
 not destructive work. That's why he  
 put McMahon and Varian on the con-  
 crete job after they tried to wreck  
 the power house.

Pfeiffer: "Do you believe in treating  
 those beneath you with contempt?"

Eveleth: "Yes, but I doubt if you  
 can find anyone."

Preacher: "And do you take this  
 woman for your lawful wedded wife?"

Rastus: "Judge, Ah ain't takin'  
 nothin', but if she feels inclined, she  
 can trail around with me."

Young: "This music makes my  
 head whirl."

Rae: "Does it ever go to your  
 feet?"

Ivan: "I wish—hic—I was a lion."  
 Sullivan: "What for?"

Ivan: "Hic—hic—Then I'd have  
 bars all around me."

He: "I'd like to strangle you."  
 Dorothy: "Oh, please don't!"

He: "Don't worry, I won't; because  
 I don't want to spoil your throat."

Hills: "Is it right that Babcock  
 gets along great with the girls?"

Reed: "No, it's not right, but he  
 does anyhow."

A co-ed who owned a Corona  
 sat typewriting in her kimona,  
 As each line she did write  
 She would stop for a bite  
 Of a sandwich of bread and bologna.  
 —O. A. C., Orange Oriol.

Mills: "I believe we must have  
 some common ancestors."  
 Belle: "Undoubtedly you have;  
 it certainly appears so."

Voice from a dark, secluded corner  
 of a sorrowful porch: "You are a  
 sweet daddy, aren't you, dear?"

Father (walking by with his son):  
 "Ahem! By George, son, it kind of  
 touches old fellows like me, things  
 like that."

Son: "Well, dad, we young fel-  
 lows aren't exactly unfeeling about  
 the situation ourselves."

Deaf and dumb people aren't the  
 only ones that have misunderstand-  
 ings. Dorothy and George Isola had  
 one the other day that was terrible  
 and they aren't deaf.

Fulwider bought some new storm  
 curtains the other day and immedi-  
 ately cut the glass out. This will  
 save Prescott's tearing his socks.

"My boy," said the ancient boot-  
 legger to his great-great-grandson,  
 "never take to drink. If I had re-  
 frained I might have lived to a ripe  
 old age."

Eveleth: "Is your girl good  
 looking?"

Reed: "She's got freckles and sun-  
 burn and she's knock-kneed but be-  
 yond that she's passable."

Preacher (when Perry entered  
 church in search of his girl): "Are  
 you looking for salvation, young  
 man?"

Perry: "Naw, that isn't her name;  
 besides, it's none of your business."

Morris White tells us that dark,  
 shady lanes are places for hold-up  
 men. That's why he never makes use  
 of them.

Margaret (indicating a coffee  
 stain on her dress): "What's good  
 for that?"

Mrs. Smith: "A heavy paddle, vig-  
 orously applied."

Mr. Agosti: "What's the horse-  
 power of your car?"

Young: "One, to the minus tenth."

Miss Chase: "I hear that Donald  
 is ill. Have you any hopes for his  
 recovery?"

Young: "I hope not. He has a tie  
 that I admire very much."

It's nice to have a wife, but gold-  
 fish only eat every three days.

The spirit that makes football teams, that carries whether the coach is present or not, is the kind of spirit that football aspirants have at San Diego State College. The coach is confined to his bed with the flu but the spring football work goes on just the same.

The Illinois Athletic Club swimming team won the national amateur athletic union swimming championship at San Francisco. Johnny Weissmuller, the world's fastest human fish, performed for the winning team. The event initiated the new outdoor pool there, the largest in the world.

The new municipal stadium in Golden Gate Park, San Francisco, was opened in grand style by fine world's champion athletes and stars from the University of California, Stanford University, and various athletic clubs in northern California. The titleholders, entered in special events, were Poavo Nurmi and Wille Ritola, the Finnish distance stars; their countryman, Johnny Myyra, the javelin thrower; Lloyd Halm, the miler, and Wille Plant, the walker, both Americans. This new bowl has a seating capacity of 24,000 and will be the scene of the national A. A. U. track and field championship in July.

The light sprinting crew of Pennsylvania hopes to defeat Ed Leader's varsity eight of Yale University, greatest rowing combination of the modern generation and eleven times consecutive winners including a victory over the world's greatest eights at the Olympic games.

The Manual Arts High School of Los Angeles won the State championship track and field meet at the Stanford bowl by a very narrow margin. San Diego High was a very close second with Hollywood High a close third. The southern school completely outclassed the schools in the north. The relay decided the winner among the above named schools. The crack Manual Arts High School relay team broke the world's prep school record for the half-mile relay. This whirlwind quartet covered the distance in 1:30.5. The interesting thing about the meet was the fact that Manual Arts was racing against the speedy San Diego quartet which had already broken its own world's prep school record twice this season, lowering the time in each case. In the Southern California meet held at the Los Angeles Coliseum not long ago, this San Diego quartet covered the half mile in 1:30.6.

**Conference Track Meet**

The San Jose State College won the California Coast Conference track and field championship at Fresno Saturday before last. It was only by a very slim margin that San Jose won the meet as Modesto and Fresno were close on her heels. The point standings were as follows: San Jose State College 38 1-5, Modesto Junior College 38, Fresno State College 37 1-5, College of Pacific 19 3-5, Chico State Teachers 14, San Mateo Junior College 6, and Sacramento Junior College 0.

Five conference records were set and several were tied. Burr of Fresno polevaulted 11 feet, La Rue also of Fresno broad jumped 22 feet 5 1-2 inches. Reimus of the College of the Pacific tossed the javelin 174 feet 1 inch. R. Johnson of Modesto, broke Storier's old record in the 440-yard dash by reeling it off in the extremely good time of 50 4-5 seconds. A. Johnson, his teammate, did the 220-yard low hurdles in 24 4-5 seconds.

San Jose walked off with two cups,

**Poly vs. Arroyo Grande**

Our Green and Orange ball team journeyed over to Arroyo Grande last Saturday and made things interesting for the baseball team there. The first three innings were scoreless. At the beginning of the fourth inning Traver strikes out and Reynolds makes a hit. Sullivan then strikes out and Isola drives one to the center field. White ends the inning by knocking a fly to Patchett on second base.

Arroyo then starts. Williams gets on base through error and Carroll walks Patchett and McGuire in succession. Then Stevens brings in Williams and Patchett by driving through Graves which he fumbles. In the fifth inning Graves makes a hit and Zanolli is hit by a ball and takes his base. After Oldham and Traver strike out. Reynolds makes a two bagger, scoring Graves and Zanolli. Sullivan ends it by hitting to first. In the fifth inning Arroyo scores three runs which puts them in the lead, due to a hit by Phelan coupled with a base on balls and a series of errors. In the sixth Poly comes back. Carroll takes a base through an error and White hits a two-bagger, scoring Carroll. From the sixth inning on Arroyo was helpless through Carroll's pitching by striking out eight of the next twelve men that faced him. In the ninth inning with the score 5-4 against us, Moreno who had relieved Oldham in the field went up to bat. He took a liking to Lee's pitching and let one of Lee's curves kiss him right on the chin. Traver was passed and Sullivan who had been an easy victim to Lee's curves throughout the game smashed a single to center, scoring Moreno and Traver, thus winning the game.

Poly—	A.	B.	R.	H.	O.	A.	E.
Oldham rf	4	0	1	0	1	1	
Moreno rf	3	0	0	0	0	0

Arroyo	0	0	2	3	0	0	5
Poly	0	0	0	1	2	1	6

Summary: Two-base hit—Reynolds, White. Stolen bases—Bruce, Zanolli, Moreno, Reynolds; 2—Carroll, Isola. Sacrifice hits—Reynolds. Struck out by Carroll—16; by Lee 15. Bases on balls—off Carroll 6; off Lee 2. Hit by pitcher—Moreno, Lee, McGuire, Zanolli.

Umpire—Mr Stevens.

After Theater Let Chocolate Den Be Your Hobby.

taking home the victor's cup and the cup for high point man. Modesto took the other two, the second place trophy and the relay cup. Medals were distributed to all who placed, there being four places. Coach Agosti who witnessed the meet said that the entire meet was so close that it was anybody's meet until the end.

**Conference Officials Meet**

After the California Coast Conference track and field meet at Fresno Saturday before last, the coaches from the various schools held a meeting. At this meeting all the members were present except Bakersfield. The Conference voted A. W. Jones of Fresno State College a vote of thanks for his fine service rendered to the conference as secretary for the past three years. The new officers installed were: Mr. A. P. Agosti of Polytechnic, president; Mr. McFadden of San Mateo Junior College, vice-president, and Dr. Hoek of Modesto Junior College, secretary.

Fresno State College and College of the Pacific dropped out of the conference and have decided to join the Far Western Conference. The following institutions are represented in the conference now: San Jose State Teachers, Chico State Teachers, Modesto Junior College, Sacramento Junior College, San Mateo Junior College, Bakersfield Junior College, Santa Rosa Junior College and California Polytechnic.

After a great deal of discussion it was decided to go on record favoring lower costs in the various sports especially traveling expenses since all of the school now in the conference are small and they cannot afford long expensive trips. A football schedule was drawn up, but since it was not authentic because of several contracts yet to be received, it will not be published until the next issue of the Polygram. A school must play four games, scheduled to be arranged before June 1, 1925, before that school can play a championship game. A percentage basis will determine which schools will play the championship off. In case of tie another game will be played to decide the champion. The same general idea will apply to the other sports except that eight games will be necessary for a basketball team to play before it can play the championship game. Three games will be required of a baseball team. No definite place was designated for a conference track and field meet. The various schools will make applications for it later. Mr. Agosti stated that he is going to try to enter Polytechnic in all the conference sports as we have done in football. This will require a great deal of work on the students' part especially financing, that is, buy tickets, boost the sale of tickets and get other people interested.
