

THE POLYGRAM

Volume XI

SAN LUIS OBISPO, SEPT. 24, 1925.

No. 1

New Teachers Secured

Success is ours. We have reached our two hundred mark and are now only waiting for the approval from Sacramento before our two new teachers become a certainty. We have passed the mark by a good majority, the enrollment amounting to 217 Monday morning.

The prospective teachers have accepted their positions and are only waiting for the word to begin their duties.

Miss Knox, a graduate of Pomona High School and the University of California, will assist with the overflow from English, mathematics and history classes. She will also handle the girl's physical education, in which line she is an expert.

Mr. Stout, our second new teacher, will take part of the drafting and mechanical drawing class and will assist Mr. Agosti with the science work. Mr. Stout is a product of the Oregon Agricultural School and comes to us from Merced. He is "on the job" now and has been assisting Dr. Wilder.

Monday's Assembly

A special assembly was called Sept. 21 for the purpose of hearing Congressman Arthur Free, a representative of California at Washington, D. C. Congressman Free, of San Jose, is serving his first term in Congress. He delivered a very interesting speech on the Houses, their duties, and on the individual parties. We were informed that the Republican party now holds the majority and predominates. Many of the Congressional "maneuvers" were brought out. One of these is a peculiarly formed device known as the mace. This weapon has two distinctly different duties, one of which is whenever the house is in session the mace is placed alongside the speaker, but when only committees are meeting or the house is vacant the mace is placed on the floor; this is an easy way to determine whether the house is in session or not. The other duty is to act as a peacemaker; whenever two men get into a heated argument the mace is carried by the chairman to where the two men stand; this signifies that it is time for them to become subdued or they will violate the rules of the House.

Every word uttered when the House is in session is taken down in shorthand by a secretary, who is relieved every five minutes. Then these speeches are transmitted back into the session and the speaker may approve or disapprove of any words he has said.

All committees are handled through the Committee on Committees which consists of a representative from each state.

Mr. Free is a member of two committees. One of these is the Fisheries, Merchant Marine, and Raffle Committee. The other is the Immigration Committee.

The Congressman was also speaking for the Rotary Club luncheon, therefore he could only allow us a few very interesting minutes.

Miss Chase took charge of the Assembly and asked for nominees for "yell leader". Several were nominated but Jimmie Simpson held a large majority.

The assembly was then turned over to Capt. Deuel who dismissed the student body.

The State Fair

On the morning of Saturday, September 5th, William Lee, Carrol Cavanaugh, Verdi Mills and Allan Pettit, accompanied by Mr. Dunning, left the campus en route to the State Fair at Sacramento.

The purpose of the trip was to represent the California Polytechnic School at Camp Lillard, and to get as much benefit as possible from the instructions given at the camp.

Camp Lillard is a three-day school which is sponsored by the State Department of Agriculture and gives free instruction in livestock judging, poultry judging, tree judging, fruit judging, horticulture and farm mechanics. The camp is located within the fair grounds and consists of about one hundred tents, each having a capacity of eight persons, and one large tent which was used as the mess hall.

Upon arrival each student was issued a bed tick and a cot and then each group was assigned to a tent. The students were allowed the freedom of the fair grounds and could go and come as they liked except when they were receiving instruction.

The camp as a whole was a success. There were three hundred twenty-five boys enrolled from all over the state, as well as a great number of very competent instructors.

The boys all had a very good time, and got a great deal of good from the trip.

Assembly Sept. 16

The assembly of Sept. 16 was opened with the singing of "Hail Polytechnic."

Dr. Crandall then took charge of the assembly and announced that Poly's present enrollment is 195; if by Friday night five new members are added to the student body the State will grant us three new instructors. One of these will teach Fourth year English which we hope will prove to be a great asset. A special teacher from Los Angeles will instruct the girl's Athletics which means much for the girls of C. P. S. Dr. Crandall said we not only wished to leave here with quantity but with quality in our brains.

The Freshman reception to be given at the dining hall Friday evening at eight o'clock, was announced.

Five minute talks concerning the State Fair and Camp Miller were delivered by Bill Lee, Pearl Pettit and Carrol Cavanaugh.

Mr. Dunning, who was absent from our first assembly due to his presence at the State Fair, was presented to the student body and voiced his high approval of the boys who attended the fair from the school.

Mr. Agosti announced the first football game of the season to be played against High School on the Poly field Sept. 26 at two-thirty.

The student body then sang C. P. S. and was dismissed by Captain Deuel.

Dormitory Election

The members of the Dorm Club got together last Monday night for their first meeting of the term. The following officers were elected for the coming school year:

William Lee, president.
 Prescott Reed, vice-president.
 Frank Quinonez, secretary-treasurer.

Housing Capacity Increased

With the increased student body has come the question of housing and feeding more students than have ever before been handled here. The work has been accomplished very successfully in many ways.

In the larger rooms of the Dormitory the old beds were removed and double-deck bunks installed. This makes the capacity of the Dormitory sixty-two. As there was still an overflow, the upper quarters of the Creamery were arranged with gas heat, running water and other conveniences, thus putting them on an equal with the Dormitory rooms for comfort. At present there are six boys in the "sub-dorm," but as there are quarters for five more we can still grow a little.

The Dining Hall has also increased its capacity, and whereas last year the noon meal usually ran about forty-five, this year they are handling over ninety at that time, which is a one hundred per cent increase.

Senior Meeting

The first meeting of the Senior class was held on Monday, September 14, for the purpose of electing officers for the coming term. The following officers were elected:

Chester Davis, president.
 Doris Westendorf, vice-president.
 Mary Hughes, secretary.
 Fred Louis, treasurer.

Junior Meeting

Last year's Sophomore class met as Juniors for the first time this year in Mr. Knott's room. The following officers were elected for the coming term:

Niels Jepsen, president.
 Albert Cull, vice-president.
 Frank Quinonez, secretary.
 Verne Harpster, treasurer.

Sophomore Meeting

The Sophomore class held election of officers on Thursday, Sept. 17, and the following officers were elected:

Orvis Hotchkiss, president.
 Allan Pettit, vice-president.
 Byron Moucham, secretary.
 Paul Welsher, treasurer.

Freshman Meeting

Mr. Agosti called the first meeting of the infant class to order last Monday. The following class officers were elected:

Harriet Wright, president.
 John Taylor, vice-president.
 Arline Gibson, secretary.
 James McKie, treasurer.

Assembly Sept. 10

The first assembly of the year was called to order by the president, Dr. Crandall. He gave a very appropriate welcoming speech.

The faculty was presented to the student body by Dr. Crandall with fitting introductions.

Not the least of Dr. Crandall's introductions was the presentation of the "little mother of the campus," Mrs. B. R. Crandall.

Miss Chase gave some very important announcements, among them being ten minute classes for the day.

The assembly was then given over to Captain Deuel for his dismissal.

Returns From North

Mr. Tennant, our business manager, returned last week from an extended trip in the north. His time was largely spent in San Francisco and Sacramento, where he represented Dr. Crandall.

While in San Francisco Mr. Tennant did some purchasing for the school. In Sacramento he accomplished some satisfactory adjustments with the State Purchasing Department, the State Board of Control, and the State Board of Education. He also made arrangements for Poly's exhibit at the fair next year.

Mr. Tennant reports a very favorable feeling toward the school in the legislative circles and from others also. As a proof of this feeling several manufacturers of dairy and farm machinery with whom he had the pleasure of talking have offered to place machinery to the value of \$30,000 or \$40,000 at the disposal of the school to be used in the Farm Mechanics laboratory, providing we can give shelter to the machinery. This will include tractors, discs, harrows, cream separators, churns, etc.

The same results were also obtained along the homemaking lines. We have the offer of the best equipment in electric stoves, mixers of various types, electric motors for the sewing machines, and many others.

Amapola Club

The Amapola Club held its first meeting Sept. 15, in the girls' lobby of the Household Arts building. New members were introduced and welcomed into the club by the presiding president, Rae Mayhall.

The motive of the meeting was the election of officers and the following girls now hold office: Rae Mayhall, president; Belle Tomasini, vice-president; Ruth Smith, secretary; Avalyn Schlicht, sergeant-at-arms.

The business of the meeting included the discussion of emblems, dues, meetings and the care of the girl's lobby.

The president expressed the wish that as many of the girls as possible wear a pin or ring. It is hoped that as much interest will be shown in the club this year as in the past and that it may be one of the active organizations of the school.

Projects

Mr. Rathbone announces that there are about four hundred acres to go into projects and asks that all students who wish to take up a farm project see him as soon as possible. This applies particularly to those wishing to take pen projects as that crop must be got in soon.

Block "P" Club Meeting

The first meeting of the Block "P" Club this year was held in the Physics laboratory at 12:40 on September 17, 1925.

There being none of the old officers present, Coach Agosti acted as temporary chairman. Nominations were opened for the respective offices and the following men were elected:

Alfred Young, president.
 Prescott Reed, vice-president.
 Wilbur Miller, secretary-treasurer.

After a short speech by each of the newly elected officers, the meeting adjourned to meet again September 21.

Bulletin Supplement. Entered at the Postoffice at San Luis Obispo, Cal., as second-class matter. A bi-weekly publication issued by the students of the California Polytechnic School, San Luis Obispo, California. Subscriptions, one dollar a year. Single copies, ten cents. Printed by the California Polytechnic School Print Shop.

EDUCATION

We are beginning another school year with a much larger student body than we have had for several years. There are in our midst post graduates, high school graduates, undergraduates, and many fresh from the ranks of grammar school.

It makes no difference to which of the above mentioned classes we belong; we all have but one object in view. That object is education. We all want to better our learning, not only for the financial, but for the social side of life as well.

Every student has a chance to take part in some social activity outside of the classroom. In athletics there are the four major sports, football, basketball, baseball, track, and minor sports as well. For musicians there is band, orchestra, and glee club work. The school gives an annual school play, in which the cast is made up entirely from the student body. This year we hope to add work in debating along with our other work of this sort. Along with these general school activities come the interclass games in baseball, basketball, handball, tennis and track. In years past there have been a good many students who turned out for class activities but refused to go out for school or student activities. Real reason for class activities is to bring to light anyone who would do good work for the school. There are also class socials and programs which frequently involve dramatics and music. Some would scarcely think that school parties have everything to do with education, yet a man or woman who cannot meet people so as to give and receive pleasure is not in a broad sense fully educated.

We have given our thought to the social side, now let us turn to the classroom work. Remember when you are in a classroom that you are there for work and not play. Make it a practice to work hard when you work and play hard when you play. Keep in mind the fact that the daily grind is the thing that gets the work done. One hour a day for five days is a great deal more beneficial than five hours put in, all in one day, and the other four days wasted. Another thing to bear in mind is the fact that your second year lessons refer back to your first year and so on. If you do not get your first year work well, your second year work will be just so much harder. So bear this in mind and keep at it every day, and you will find it much easier in the long run.

"An ideal attained is no longer an ideal," so says an old adage. So set yourself an ideal and work for it. After you attain it, set one farther on and work for it. You will never reach the limit; but the higher you climb the more you will be respected by your fellowmen.

Short Course Offered

Mrs. Knott announces a new short course along special lines for ladies from town who wish to take millinery, sewing, and if possible cooking and meal planning. The work will be given on Thursday afternoons from 2:30 on. There is much good work to be done along this line and we hope that the course proves successful.

Poly Receives Fine Animal

Polytechnic is now the proud possessor of a fine Hereford sire which is the gift of William R. Hearst. Negotiations for the purchase of an animal have been under way for some time and Mr. Hearst finally surprised us by donating a fine sire to the school.

The animal, Pluto Fox X, was imported from Illinois and is about two years old.

POLY CHATTER

For some unknown reason, several of the co-eds from Plamo appeared reluctant to dance with the Poly fellows last Saturday night.

C. Earle Miller forgot to remove the powder from his coat before going to church last Sunday morning.

We wonder if Grace would not cease her pursuit of Prescott until his ankle is well enough for him to run.

Arlene Gibson had a very enjoyable time out on the Edna road last Sunday afternoon. It wasn't dark yet either!

Since the great increase in the number of co-eds at our institution some of the boys have experienced most peculiar changes of habit. Vernon Langenbeck was so bewildered the other day that he succumbed to feminine charm and was seen playing tennis in the heat of mid-day.

Some of the very oldest and most dignified of the Poly girls have already been vamping the poor innocent "Frosh." San Diego sheiks seem to be at a premium.

The immense size of the new Freshman class has made it necessary that the upper-classmen exercise a little discipline, especially in the Dormitory, and already a number of the "Frosh" are "sadder and wiser men." While there is a state law against hazing, and any such action is not tolerated at this institution, it is sometimes necessary to instill in a few students the fundamental rudiments of courtesy and gentlemanly conduct. Therefore let the lowly Freshman beware lest he bring down upon his head the wrath of the judicial Sophomore.

Some two years ago Walter Lumley incurred a debt to Mr. Agosti of thirteen ice-cream sodas. Since then the matter has been frequently and lengthily discussed, but the Coach is still waiting with much anticipation.

According to the present size of our student body we should have fifty men out for football practice regularly. A little more school spirit and "Poly fight" would be very opportune at this time.

If you don't believe that Prescott Reed can ask as many foolish questions as any Freshman, ask Miss Harkin.

We can no longer kid Jep and Keeno about stepping out with grammar school girls. They go to Poly now.

We would like to know why the Herald-Telegram Ford was out on the Poly campus about eleven o'clock Friday night. Perhaps Jack Rollins could explain.

Vincente and Dorritt should be more careful hereafter when riding past the powerhouse at night. That portion of the drive is quite well illuminated.

We wish that someone would declare an open season upon some of those overly ambitious students who spend most of their class time frantically waving their arms in the air in a wild effort to show that they know the lesson.

Prescott Reed says that this is a free country and it doesn't hurt any young man to have a little wholesome fun once in a while in study hall.

Dorm Doings

Well, the Dormitory is up and at it again and we sure look forward to a lively year.

Already some of the Freshmen are standing up when they eat their meals.

If you see a few black and blue eyes roaming around don't be surprised, it's only the results of some of the flatic combats held by the Dormitory "Frosh." They sure wield a wicked glove.

Jacobson wants to know who the girl is with the flowers on her coat.

'Andy' Miller must be lonesome in his new home.

On Wednesday morning, September 9, the Dormitory boys turned out for their yearly job of relining the block "P" on the hill.

Tieman, a freshman, who claims he can lift a 250-pound bale of hay, carried a 100-pound sack of lime half way up the hill and weakened. He reached the block "P" just as the rest were leaving.

Borboa, another Frosh, started out with a full sack of lime, and about half way to the "P" he thought if he left some of the lime there he could keep up with the rest of the fellows. Strong "Frosh" we have this year.

Look out, Hotchkiss, even a barn looks good when it's painted.

The Dorm boys sure showed their school spirit last week, when they turned out to fight the fire on the hill. The fire was hot, but still the boys worked at it to great advantage and soon had it under control.

One night last week Tieman was seen standing while he was eating supper, and when one of the fellows asked why he didn't sit down to eat he said he had had too much ice cream, but what would that have to do with it?

V. Wimmer and Fat Hodges, two of our old Dorm friends, were visiting at the Dorm the night of September 15, and were quite pleased with the bunch of fellows that turned out for roll call.

Del Rio must think it is better late than never; anyway, we are glad to see him back with us.

Some of us want to know why "Heavy" took so many nights off from running the power house the latter part of the summer.

The old fellows of the Dormitory have noticed quite an improvement in the Captain's bugling. He must have practised during the summer.

The "Frosh" must be trying to get on good terms with the girls; they are seen carrying water to them every noon at the dining hall.

Is it cheaper for two fellows to go with one girl? "Heavy" and "Jep" think so.

Wonder what attraction Beach street has for John Taylor and Gordon Wickham? They are seen there quite frequently.

Who says Pettit isn't a sheik; he's gone so far as having a girl call him "Fish"!

ROOM FOR TWO

Avalyn Schlicht: Sir, do you think I can go through that gate?
Al Hedstrom: I guess you can; I just saw a load of hay go through.

"Things are coming my way," cried the actor as he dodged a tomato.

Bill: What nice soft hands you have.
Dorritt: That is because I wear gloves at night.

Bill: And do you wear a hat, too?
A little bit o' powder
A little bit o' paint
Makes certain Poly girls
Look like just what they ain't.

Miss Haskin: Now give me a sentence containing the word "deficiency."
Frosh: The next time you go fishing pick up deficiency 'em wiggle.

Captain: What are you taking for your cold, Davis?
Davis: Make me an offer.

Mary had a little cow
And oh how it did stutter,
In place of every quart of milk
It gave a pound of butter.

Bill Frederickson: I'm going to take my hat and go unless you give me a kiss.
Grace: Take it.

COULDN'T FOOL HIM

Miss Chase (in ancient history): Just think those ruins are two thousand years old.
Frosh: Aw, gwan; it's only 1025 now.

THE LESS A GIRL SEES OF A FELLOW, THE MORE SHE THINKS ABOUT HIM.

Dexter M.: I dreamed I was dead last night.
Jack B.: Well?
Dexter M.: When I woke up the steam heat was still on.

Fred: I asked her if I could see her home.
Chester: What did she say?
Fred: She said she would send me a picture of it.

Belle T.: My, those hot dogs smell good.
Dexter M.: I'll drive a little closer to the stand.

Jack Babcock: Well, Dad, I'm a big gun at Poly.
Mr. Babcock (sarcasmically): Yes, but I never hear any good reports.

Vincente J.: What is the swiftest cure for love-sickness?
Sparky: Manage to see the object of your affections before she puts on her complexion.

Jack B.: Thinking about me?
Ruth: Oh! I was laughing pardon me.

Waiter: Her niece is rather good looking, eh?
Call: Don't say "knees is," say "knees are."

Fred: Do you know Poe's "Raven"?
Ruth: What is the matter with him now?

Miss Haskin: Can you describe a seahorse?
P. Reed: Seahorse is present tense of sawhorse.

Bill Lee: Were you cool when you took the ex?
Cavanaugh: I was so cool that my teeth chattered.

Mr. Reed: Is your son home on his vacation?
Mr. Lee: He must be; I can't find any of my shirts.

"Our new minister is just wonderful. He brings things home to you that you never have seen before."
"Huh! I've got a laundryman that does the same thing!"

TIN PINS

Seven ages of women; safety pins, whip-pins, hair pins, fraternity pins, diamond pins, clothes pins, rolling pins.

Poly Orchestra

For the last two years Poly has not had an orchestra, but this year arrangements are being made to have a very good one.

About twenty students have signed up for orchestra work, and Mr. Smith with the aid of Mrs. Brown, will soon have them in very good shape.

Orchestra practice is held the sixth period every Tuesday, Thursday and Friday. All of the players are interested and are doing their best to make a real orchestra for Poly.

Frosh Reception

The Freshman reception was "done up brown." Everyone has been talking about what a wonderful time they had.

The evening was well planned and perfectly carried out.

On entering the door an identification or introductory badge was pinned on all attending. This enabled new and old students to become acquainted with each other.

The speeches were well given and made us realize how much affection backs C. P. S.

Chester Davis, acting as chairman, deserves a great deal of credit for his work. He extended a welcome to the new students in behalf of both the Seniors and the reception committee.

Other representatives of Poly organizations were: Orvis Hotchkiss, speaking for the Sophomores, Niels Jeppesen for the Juniors and Harriet Wright for the Freshman. Conch Agosti spoke on athletics, Rae Mayhall for the Amapola Club, George Isola for the Mechanics, Walter Lumley on football prospects and Carol Cavanaugh for the Junior Farm Center.

Dr. Grandall made an address of welcome. He also announced a dance to be given in the dining hall by the Athletic Committee to the High School football team next Saturday evening at eight o'clock.

Ice cream and punch were served by the refreshment committee—Frank Quinonez, Orvis Hotchkiss, and Charlotte Wilnot.

Dancing filled the rest of the evening.

The decorating was very artistic and effectively done in green and gold by Poly's best—Fred Louis and Mason Elder.

The other committees whose work was well appreciated were: dancing—Belle Tomasini, Alfred Young, Social—Rae Mayhall, Chester Davis, Clean-Up—Herbert Perry, Niels Jeppesen, E. Hansen and Paul Hubble.

We hope Poly will have many more dances and get-together social evenings as well arranged as the Frosh reception.

FOOTBALL

With prospects of a winning football team for Poly this season, football practice has started off with a bang and lots of pep. Many letter men are to be seen practicing every night and along with them a good many new men.

Coach Agosti is well satisfied with the early season prospects.

Poly did not make such a good showing in football last year, but they are out for blood and the winning side of every score this season. To make this possible let's have the backing of the entire student body at every game.

It is not too late yet for men to come out and show their school spirit by trying to make the team. Every fellow who knows anything about football should be out every night in a suit and help the school and team out.

We have back this year in the squad some of last year's letter men. They are showing more fight and the old Poly spirit this year than ever before. "Tiny" White is back and all of his "smallness." Walter Lumley is back and as this year's captain he expects to captain a winning team in all combats. Last year's center, Al Young, is back and working for his old position. Wilford Zanoli is in uniform again this year and is showing some hard plugging. "Hank" Hankerson, a letter man of two years ago, is back and doing his best to help the squad. Prescott Reed and Wilbur Miller, who showed lots of pep and speed in the backfield last year, are trying to do better this year.

Among the rest who are out fighting for places on the team are: Varian, G. Elliott, Simpson, N. Lee, Bardmess, Hughston, Harper, Gingg, Traver, Chappell, Isola, Pfeiffer, T. Lee, Call, Rollins, Demarest, Hotchkiss, Louis, Langenbeck, Elder, C. Elliott, Vega, Del Rio, Miller, Sparks, Lamas, Aimeva, Hourihan, Tiemann, Dartt, Sinclair, Elder, Thorpe, Bell, Janis, Hackin, Burum, Hedstrom, Wright, Weist and Cole.

There is a total of fifty-one candidates out for football, and the school should have a winning team out of this number.

Football Schedule

Poly's football schedule includes some very good teams, but with the backing of the student body and every man on the team fighting, we should bring home the bacon every game. The schedule for the season is as follows: September 26, San Luis High; October 3, Lompoc; October 10, Ventura Jr. College; October 17, Stanford; October 24, Modesto; October 31, Bakersfield; November 7, Santa Maria Jr. College; November 14, Santa Barbara Teachers College; November 21, San Jose Teachers College.

Football Prospects

The prospects for a winning football team at "Poly" this year are very good. Coach Agosti has issued nearly fifty suits, which means that the competition will be very keen for the positions on the first team.

There are ten men out who have earned their letter in football, and most of the new material looks very promising.

The first game of the season is with San Luis High on September 26. With the support of the student body the team can win this and all following games.

Young: I heard that our gang played poker for ten hours straight on the trip.

White: Don't believe it; they couldn't play straight for ten minutes.

Turn Out, Fellows

Polytechnic's prospects for a successful football season look brighter this year than ever before. With a complete schedule ahead, over a hundred and eighty boys in the school, excellent equipment and a good coach, it only remains for the interest of the entire student body to be raised to pave the way for a "wonder team". With all these things existing so favorably, all that is needed is that quality known as "school spirit" to put the thing over big, but unfortunately the fighting spirit that is necessary to the success of any athletic team is not as it should be. There seems to be a laxity that the coach and the older football men have not been able to overcome. For instance, although there have been forty-eight suits issued, prior to the time of this writing there has not been over thirty-six men out for practice any night, and frequently less than thirty. Furthermore, although practice started only two weeks ago, nearly a dozen men have quit and turned in their suits. Some, of course, have legitimate reasons, but others have rather shaky excuses.

Let's take it to heart, fellows. It's a bad way to begin the season, and a poor manifestation of the fighting spirit for which Polytechnic is famed.

To insure the success of Poly's football program, we should have every able-bodied man who can possibly do so, to come out for football, and every man to whom a suit has been issued should be on the field every night for practice. The old football men are right there with the goods, but now is the time for the new men to "do their stuff" for the school they have chosen as their Alma Mater. The girls and faculty can help, too, by using their influence in the right direction, so let's have the cooperation of the entire school, and put a football team in the field that will make the people of our county and of our state "sit up and take notice".

Library Enlarged

The school library which is used in conjunction with the study hall is for the use of the students and you are all urged to make the most of its advantages. It has been enlarged along both the fiction and non-fiction lines.

Among the new fiction books in the library are "The Heighth in the Clearing," "The Covered Wagon," "Moby Dick," "Stickeen," "Scaramouche," "Buccaners Pirates of Our Coast," "Gray Dawn," "Penrod," "Gentleman From Indiana," "The Magnificent Ambersons," "Hoosier" and "Lockerbie" books by O'Reilly and a "Heap O' Livin'" by Edgar A. Guest.

The reference section has been changed from the inner library to the right front corner of the study hall, thus making it more easily accessible to the students.

Aggs. Buy Calves

Last Monday Mr. Whittier of the Los Angeles Union Stock Yards came to "Poly" to speak to the members of the Junior Farm Center.

Mr. Whittier said that his company would find beef calves for the boys to fatten and would buy them when they are ready to market. He also told of the great demand and small supply of baby beef.

Ten of "Poly" farmers signed up to buy 125 Hereford calves. They will be picked out by Mr. Whittier and are to be fed by the boys until the fifteenth of May.

When the calves are ready to market the boys will themselves take them to Los Angeles and sell them.
