Cal Poly Engineering Students Selected for Leadership Development Program

SAN LUIS OBISPO – Two Cal Poly mechanical engineering students have been selected for an all expense paid trip to the 2008 Society of Automotive Engineers Leadership Development Program in Orlando, Fla.

Cal Poly SAE President Trevor Ness and Formula Team Leader Aaron Bailey will join 23 other students from around the nation at the Jan. 30-Feb. 1 event.

The program will assist Ness and Bailey in developing critical skills for future leadership roles in both SAE International and their professional engineering careers.

The Cal Poly SAE chapter was founded in 1950, one of the oldest instructional clubs on campus. In addition to providing professional networking opportunities, the Cal Poly SAE chapter participates in three international collegiate design competitions, providing students a superb designing, manufacturing, and engineering experience.
