

House Elected Student Prexy for '42-'43

Dairy Cattle Breeders Hold Annual Meeting Here Saturday

The California Holstein-Friesian Association will hold its annual meeting at California State Polytechnic on May 9, 1942. About 50 breeders and association field representatives will be in attendance. Mark Borrer is the president and A. J. Quist is the secretary-treasurer. Alvin Quist, a son of the latter, is now a dairy student at Polytechnic.

Glenn Householder, director of extension, and Ivan Loughery, field representative for the Holstein-Friesian Association of America, will attend the meeting. This national association is the largest livestock organization in the world.

The program for the meeting will consist of a tour of the school dairy herd where outstanding foundation cows, herd sires, and the student-owned Holstein projects will be exhibited. The noted Holstein sire, Sir Bess Gettie of Taylaker 2nd, who was grand champion at the

1939 California World's Fair, along with his get, will be featured. The Holstein cattle project owned by Ed Santos of Kerman will also be on exhibit. Ed now has 13 purebred animals, valued at \$1900, which he has accumulated while in high school and at Poly. During the last two years, this project has earned a labor income of \$983. His six cows with production records have an average of 562 pounds of butterfat per cow per year. This is an enviable record for any purebred breeder.

Inspection of the dairy unit will be followed by a tour of the campus. A barbecue will then be served in the Poly Grove and at that time the double quartet will furnish music. The afternoon will be devoted to a business meeting of the association. California State Polytechnic appreciates this opportunity to act as host to this group and extends a hearty welcome to this group of outstanding dairymen.

Prexy-Elect States Views for Next Year

Fellow Mustangs!

The less said at times like these the better, but it is essential that we have an approximate idea of where we're going next year.

To propose a platform would be folly because what the next news bulletin will bring in the form of new regulations, etc., is unpredictable. We can, however, play a distinct part in the war effort and it is toward this goal I believe we should all work.

Walt has brought several wonderful ideas from the student presidents' convention that will aid us materially in this next year, and I know, working together, we can and will carry them out.

In closing I will make one promise, and that is to preserve those things that are traditionally Poly to the best of my ability.

Signed:
Henry House.

President-Elect

Henry House

Henry House was elected studentbody president by a large majority over his only opponent, James McDonald.

Bob Procsal, roommate of the newly elected president, also emerged victorious in his campaign for studentbody vice president. Procsal defeated his only rival, George Crenshaw, by 67 votes. House and Procsal together will steer Poly through the coming school year.

In the race for secretary, Harold "Clancy" Acton, barely nosed out Ed Santos, by a scant 15 votes out of a possible 275. The office of treasurer seemed to be the most fought for position as three candidates ran for it. Arnold Christian, Bernard Goodbody, and Clint Merithew's names were listed on the ballot, but due to the fact that no one man received a majority vote, a revote was held Wednesday between Goodbody and Merithew—the two top men. Clint Merithew received a large majority in the revote, however, only one-half as many students voted on Wednesday.

Jack Mitchell defeated Ray Rabjohn in the race for the position of yell leader. Mitchell, who was assistant yell leader this year, will start his duties next year along with two other newly elected men. Ben Barr, unopposed in the race for athletic manager, was elected to fill that position for next year. The official results as tabulated by the election committee are as follows:

President: House, 194; McDonald, 82.

Vice president: Crenshaw, 107; Procsal, 170.

Secretary: Acton, 146; Santos, 129.

Treasurer: (1st vote) Arnold, 37; Merithew, 129; Goodbody, 110. (2nd vote) Merithew, 101; Goodbody, 45.

Athletic manager: Barr, 274.

Yell leader: Mitchell, 181; Rabjohn, 93.

Risling Elected CYF President

Dave Risling walked away with the honors in the California Young Farmers' election last week. He barely nosed out Earl Bishop in the re-vote held Wednesday by one vote. The score was 30-31. Dave and Earl were so close in the first voting that a re-vote had to be called.

Alvin Quist took the vice presidency, while Chet McCorkle overwhelmed James Wilson in the secretarial running. Fred Elis is the 1942-43 treasurer, and Stanley Noble the reporter.

The results are as follows:

For president: Earl Bishop, 30; Dave Risling, 31; Ed Santos, 15; Don Warden, 5.

For vice president: Kenneth Beck, 14; Alvin Quist, 41; Don Seaton, 15.

For secretary: Chet McCorkle, 49; James Wilson, 21.

For treasurer: Fred Ellis, 44; Wendell Gash, 17; Pete Trumpy, 9.

For reporter: Bob Archibald, 30; Stanley Noble, 39.

Y. F. Dance to be Held in Hay Loft

The Poly chapter of the California Young Farmers will hold their annual barn dance Saturday night, May 9. It is one of the highlights of the school year and is to be held in the hayloft of the sheep barn. Only Young Farmers with membership cards will be admitted, and it is hoped that there will be a large crowd attending.

The Cal Poly Collegians will furnish the music and will have the very popular "Always In My Heart" to offer, besides the regular standbys.

So come on, you farmers. Put on your western garb, grab yourself a gal, and dance to Paul Jones and Missouri Waltz tunes tomorrow night.

Mustangs Appreciate Fine High School Exchange Assembly

Performing to a packed house, the San Luis Obispo high school put on their portion of the exchange assembly between the two schools yesterday.

Everyone has been saying how surprised they were when they heard the Victory Boys dance band. They had no idea they were so good. For the amount of time they have been going, they have done very fine. For the program, they started out with their theme, "Say It With Music," following with "You Made Me Love You," "Town Toodler," "Miss You," "He's A-1 In the Army and 1-A In My Heart," followed by the theme. Everyone clapped and liked it so much that they took an encore, "Little Brown Jug."

Deris Martinsen and Elizabeth King played two piano duets. One of the biggest attractions was a tap dance by Candace Snowman, the boys really went for that. The a capella choir sang "Madam Jeanette," "Joshua Fit de Battle of Jericho," and "Blue Birds."

All in all it was a very fine program and everyone appreciated it very much.

No Collegiate Club Dance This Week

There is to be no Collegiate club dance this weekend here at Poly. The reason for this is evident—there is a policy here that there is never to be more than one dance a weekend on our campus. However, there are to be two more Collegiate dances this school year, on May 15 and 22. The Collegians are working up new tunes all the time, and you may be sure that you will enjoy both these dances. The newest pieces on hand are "The Jersey Bounce" and "Always In My Heart."

Let's get together and help finish up the Collegiate club's school year with a bang, and a very big bang. How about it?

Gamma Pi Delta Holds Barbecue

The Poly Gamma Phi Delta fraternity traveled to Reservoir Canyon for a barbecue Wednesday afternoon. Several people were in a festive mood, including Henry House, who was just elected studentbody president, and Bob Winterbourne, who just reached his twenty-first birthday.

After some hillside baseball the members and guests had apples, potato salad, hot dogs and buns. The chef was Gordy Woods, who did a swell job.

Faculty guests were "Doc" McCapes, advisor; Carl Beck, past advisor; George Ilg, C. O. McCorkle, and Lindsay Jewett.

Walt Dougherty told some interesting stories and sang some very classical songs. In case you haven't heard, he is also an excellent tree climber.

For interesting stories of the outing see Fred Morgan, Henry House or Walt Dougherty.

Crops Club Complete Election of Officers

The Cal Poly Crops club at their last meeting held an election of club officers for the coming year.

The new officers are as follows: President, Don Seaton; vice president, Bob Warden; secretary, Jim Wilson, treasurer, Art Gilstrap; and reporter, Harley Garbani.

The club made plans to buy some phonograph discs for the purpose of sending them to Crops club members now in the U. S. armed forces. The boys are each going to say something over these discs and are sure that the ex-members will enjoy listening to their former classmates talk. The discs will be cut on Don Day's machine.

See the Golden Gloves boxing matches at the Block Fun Nite next week.

Staff Challenges Faculty to Edit El Mustang--Once

The May 7 edition of Poly Views, the mimeographed paper of our brothers at San Dimas, just came across the editor's desk. Lo and behold the edition was written, edited and printed by the faculty in a "sneak" edition praising the efforts of the student staff which "struggles along each Thursday night so that the brothers can have joy that this well written sheet really gives to the campus." A fine gesture on the part of the San Dimas faculty members. It gave the tiny student staff a "holiday" and at the same time gave the faculty an inside on the trials and tribulations of editing the school paper.

Here at San Luis Obispo we publish a weekly paper which is at least ten times as large, and since it is printed, requires even more trouble than the mimeographed sheet of our southern brothers. We hereby invite, challenge and beg the faculty to write, edit, and print the final edition of the school year, May 22. Without, of course, the assistance of any student member of the editorial or mechanical staff, or the assistance of Mr. Kennedy, who works each Thursday night as a member of the regular staff.

Faculty to Treat New Club to Barbecue

The Golden Key, recently organized scholarship society, will hold its first social event Wednesday evening, May 13. The faculty of Cal Poly plays host to this group at a barbecue to be held in the Poly Grove. Arrangements for the food are under the supervision of O. F. Lucksinger, W. E. Bowls, and R. C. Younger. The faculty has challenged the members of this group to a softball game to start before dinner, which is scheduled for 6 p. m.

Spring is Here So are Jackasses

As you remember, at the start of the year El Mustang campaigned against traffic violators with the column "Driving Jackasses." The publicity given such violators was so great that almost all jackass driving ceased. Now, after some time, a number of the boys have gotten back into the driving jackass category. In an effort to stem this outbreak of traffic violations we again start this same column.

This week's driving jackasses are all guilty of parking too long in front of the dormitories. These violators are: 51-D-852, 9-B-122, 84-G-649, 18-L-706, 14-D-921, 8-P-811, and 8-F-384.

Remember the Collegiate club dance next Friday night, May 15.

AT THE TOP OF THE LIST

Letter By Ex-Polyite From Reception Center

Tulare Assembly Center, F-4-2,
Tulare, Calif.
May 3, 1942.

Dear Mr. Patchett:

We arrived in the camp on the afternoon of April 30. There were already 2000 here. The camp is composed of approximately 100 large barracks capable of holding approximately 5000 Japanese. Some of the barracks are made-over horse stables, but we're satisfied because it's the coolest place of them all. Rest of them are temporary new barracks.

The foods aren't necessarily good, but we are always welcome to a second helping.

The weather is getting pretty hot over here, so nobody feels like working. Everybody seems to be here on vacation. We are told that we probably will stay here for at least three months, so please tell Mr. Kennedy to send me the rest of the El Mustangs to the above address.

We are very proud that we are not treated as prisoners although we are confined within the camp area. Have free organization of

camp; we also had religious service this morning. As soon as the place gets organized we will have a camp paper. I'm hoping the Americans in Japan are being treated the same.

Sincerely yours,
Seirin Ikeda.

CONVENTION REPORT FROM YOUR PREXY

By Walt Dougherty

Hi, Mustangs! Here I am again knocking out the ol' column and glad to be doing so. I haven't gotten this column out for the past three weeks now, and was beginning to wonder if I was going to be able to do so again. There has been so much going on the last few weeks that your prexy hasn't had much time for a good many things.

THANKS MUSTANGS

First of all I want to sincerely thank each and every one of you Mustangs for sending me as your delegate to the 1942 Pacific Student Presidents Association convention at Sun Valley, Idaho. It was really a swell trip and very worth while.

You are probably wondering just what it was all about. I am making a terrific understatement when I say that it was a series of very fine discussions with a lot of fun thrown in besides. I feel that it was indeed a privilege for me to represent you and meet one of the finest groups of fellows I have ever known. They are tops. Every one of them.

GOOD INVESTMENT

I believe that I can well say that the money invested by the Associated Students was by no means wasted, in view of the knowledge and experience gained from this convention.

To give you a better idea of what it was all about, I'll tell you some of the things I learned there and the various valuable ideas we could use here at Poly.

We arrived at Sun Valley at 9 a. m., Thursday, April 30, registered, and were assigned rooms at once in the Challenger Inn. Almost immediately thereafter we had a general meeting in the Lodge, a large and very beautiful building, at which everyone became acquainted and general discussion concerning the convention was held.

Immediately after that a clinic for presidents-elect was held and the retiring presidents met in another group. This discussion was also general and those of us on the way out used it to become better acquainted and discuss college and studentbody problems.

WAR DISCUSSED

Our first regular discussion group was held that afternoon and the subject was, "The Part of the Studentbody and Colleges in the War Program." This topic was probably the most important and most discussed of any discussion held during the convention. Of all the colleges represented ours was, as near as I could ascertain, the first to organize and put into effect an air raid defense system. Several colleges have much more complete and extensive systems than ours and some have compulsory physical fitness programs in which everyone must participate. Many colleges have, of course, added a great many defense courses to their regular curricula, such as has been done here.

CONCLUSIONS OF GROUP

Some of the general conclusions arrived at in our small colleges

(1500 or less) war discussion group were: (1) Student presidents should do as much as possible to influence the setting up of courses that students want or feel they should have in such emergencies as the one at present; (2) insofar as possible inter-collegiate athletic events should be maintained, but should the war seriously curtail this then intramural athletic events and activities should be greatly extended and elaborated upon. In connection with this 11 colleges indicated that freshmen would be used on varsity teams next year and there might be some possibility of lowering eligibility rules in connection with transfers until the war ends. (3) It was recommended that studentbodies offer their services to the communities and help in any way possible relative to their circumstances. (4) It was also unanimously thought that studentbody groups should aid as much as possible the sale of war bonds and stamps. Some ideas on this were; dances to raise money to buy bonds and stamps, offering of prizes of bonds and stamps for any events, and the buying of corsages of defense stamps instead of flowers. On our Poly Royal dance alone that would have amounted to quite a sum. Some colleges have adopted the idea of each student contributing 1 cent per day for the purchasing of bonds and stamps and the money accrued when the bonds are retired is to be used for the building and equipping of student union buildings, or for the setting up of scholarships in the name of students who lose their lives in the war, for needy high school students.

In relation to this you might be interested to know that only \$50 worth of defense stamps have been sold to Poly students through the accounting office. We can do much better than that, I am sure.

COLLEGE PUBLICATIONS

At our next meeting on Friday morning we discussed "College Publications. Conclusions arrived at were: that the student president should, if possible, maintain an informative column for the students, editors should be allowed to sit in on executive council meetings, faculty and administration should not take an attitude of severe censorship, and students should be kept informed through their student newspaper of any and all functions, activities, and policies. In connection with this it was also interesting to learn that almost all colleges represented do not include a yearbook in the studentbody card fee. Cal Poly has one of the lowest, if not the lowest studentbody card fee, and students receive more for that fee than any college in the entire west.

NEW STUDENTS

"Orientation of Freshmen and Transfers," was the topic of our next discussion at 2 p. m. Friday afternoon. Some of the ideas gained from this discussion were: a

Senior Day for high school seniors in the surrounding area, held in the spring; regular classes of student orientation in which profs explain courses, grade system, regulations etc., and studentbody officers explain student government, amendments and by-laws of the associated students, and campus traditions, customs, etc.; a "Hello Week" (Fresno State) when new students wear tags with their name and home town on them in order to become widely acquainted, during which week freshmen run the studentbody offices and learn what student government is all about; and have the student president send out welcoming letters to incoming students.

CAMPUS ACTIVITIES

From 3:30 to 5 p. m. we discussed "Developing Campus Activities." It was found that most colleges maintain activity surveys to determine which students are interested in the various activities. It was recommended, however, that colleges endeavor to make more diligent use of such activity survey files. The most significant idea resulting from this discussion was that colleges intend to curtail their extra expenses, such as the cutting out of big name bands for dances, and do more to set examples in order to help in the war effort.

Delegates were quite interested to learn of our Poly Royal and you might be interested to know that Chico State and San Diego State were both interested in obtaining the Poly Royal queen bid next year. It seems that both of these colleges have heard quite a bit about it.

The rest of our time this day was spent in the election of officers for next year and the drawing up of resolutions by the resolutions committee.

During the convention we were treated to some very excellent entertainment by a vocal and instrumental trio, a ride on the ski lift to the top of Mount Baldy, ice skating, horseback riding, bowling, and a great many other diversions.

We left Sun Valley at 1:30 Sunday afternoon, and I can safely say that we all regretted to go. It was indeed a most interesting experience and one I'll never forget. I wish to thank you for it and tell you that I am deeply appreciative.

Come to the last, biggest and best Fun Nite of this school year next Wednesday at 8 p. m.

Letters to the Editor . . .

Editor's Note: In the March 20 edition of El Mustang we inserted a note addressed to "A San Luis Obispo Girl." We had received a letter signed by that pen name and following our policy regarding "letters to the editor" we requested that the "miss" give her real monicker, which we promised to keep secret, or we wouldn't be able to print the letter. We still haven't heard, but since Poly Royal has come and gone, at least for another year, we thought it would be a good subject for debate. Let's hear from your girl friend or yourself on this matter—but remember we will only print your contribution if your identity is known to the editor. If you want to use a nom de plume you must come to the publication office and make yourself known. There is at least two sides to this question—let's hear more about this subject of Poly Royal queens.

San Luis Obispo, California.
March 3, 1942.

Editor, El Mustang,
California Polytechnic,
San Luis Obispo, California.

Dear Editor:

For years now, in fact all the established life of Poly as a man's school, I and all of my San Luis sisters have been attending the social functions of Cal Poly in the company of you students. It may seem a little smug when I say that we have made a good many of those affairs successes, but you know that dances aren't much fun without girls, and attending some of the football games, fun nights, basketball games, track meets, homecomings, proms, or Poly Royals, alone isn't what it's cracked up to be.

Then once a year you showed your appreciation for our company; you chose the prettiest and most popular of us to form the feminine side of the Royalty at your Poly Royal. When we saw our representative receive the crown we were always proud and always had a secret hope. You must admit

we've given you some pretty effective queens in the past.

We are still attending your social functions and still giving you feminine company, but suddenly you have obviously decided that we are not good enough to wear your crowns. You say it is to build up good will with the other colleges, and perhaps it does a little bit. But what do those girls really mean to the average Poly man when they receive the crown? They are strangers—girls the boys have never seen, never danced with, never talked to. They haven't stood behind you and all of your social functions and other activities all year long. They haven't given you any fun or good times; they don't know you and they never will.

We've had lots of good times with you men. We've liked dating you and we liked supporting your activities. We've done our part for you and still are; probably the future will find us doing the same, no matter who's queen. We realize that we would have much less to do if it weren't for all of these things, and we appreciate the fact.

But Poly, this is our side of it. We don't like making up the court for the queen who has never given you anything and never will except for once each of two successive years, the first time being when she says how-do-you-do and smiles, taking the crown, the second time when she smiles, murmurs she can't remember the name, but yes, she does remember the face (like fun) and hands the crown over to the next stranger.

I hope you will print this in the next edition of your paper. It's blunt but the truth always is, and I do believe this is the true opinion of all the girls of San Luis Obispo who date you Cal Poly men. Try printing this and then show it to your date for the show, dance, or ball game. Ask her own honest opinion. See if I'm not right.

Sincerely,
A San Luis Obispo Girl.

1300 Persons Served at Poly Royal Barbecue

It seems that some people don't know what the score is when it comes to beans, not even the difference between California and Texas beans. For anyone that is in doubt, the beans at the barbecue last Saturday were King City beans, cooked in the Texas style.

Approximately 1300 people were served 650 New York cuts, 100 loaves of bread, 900 bottles of

milk, 40 gallons of coffee, and 14 large cakes; doesn't that make your mouth water?

The music department put on a half hour radio program. The band started it off by playing two concert numbers, "The American Patrol," and "The Princess of India," which the band had never played before in public. The glee club took over the second half of the program with a few selections they sang at the home concert. Everyone seemed to enjoy the music very much.

Queen Joetta Sends Polyites Letter

April 28, 1942.

Dear Mustangs:

To the studentbody as a whole and to each of you individually—I want to thank you and let you know that I've never enjoyed myself so much as I did at your Poly Royal celebration.

Being your queen is one of the greatest honors I have ever had and believe me, I'm going to try to be the best queen you've ever known.

Those three perfect days I shall always remember because of your wonderful hospitality and the personalities of all I met.

You said the purpose of choosing another college to send a queen, was to further inter-scholastic relations. This was fully accomplished at Fresno State as it seems that the topic of all my conversations is the wonderful Mustangs, campus, professors and setting of Cal Poly.

I shall eagerly await the coming of next year's Poly Royal as this year's was so completely perfect.

Sincerely,

Joetta.

Queen and Her Court Enjoy Tea at Chief's

A most colorful and charmingly decorated tea-reception was held in the home of Mrs. Julian A. McPhee last Friday afternoon, honoring the 1942 Poly Royal queen, Miss Joetta Belcher of Fresno State College.

Other honored guests at the tea were: Barbara Biggs, 1941 Poly Royal queen from San Francisco, and her mother; and the four princesses from San Luis Obispo, Candice Snowman, Ann Van Leeuwen, Barbara Brown and Norma Cory. Approximately 125 persons enjoyed the hospitality provided by Mrs. McPhee and the California Polytechnic Faculty Women's club.

Rita Bennion, chairman of the book section of the Faculty Women's club, was in charge of refreshments. All members of the book section had baked tea cakes for the occasion. Mrs. J. C. Deuel made the table arrangements.

Daughters of Cal Poly faculty members assisted in serving refreshments. Among them were: Shirley Everett, Jeanette Knott, Rosemary Lucksinger, Janet Couper, Katherine Rinn, Ruth Dougherty, Jacqueline Beck, Claire and Jeane McPhee.

You've seen 'em train for a long time—now you're going to see them fight, at Fun Nite Wednesday night, May 13.

"Food for Victory" Crops Club Theme

"Food for Victory" might be named for the theme of the Cal Poly crops department's exhibits at this Poly Royal. On show Saturday at the baseball diamond was a Victory Garden exhibit which showed the various crops that can be grown in home gardens and the produce from our own Victory Garden here at Poly. This display was greatly appreciated by all those who got a chance to see it, and it is hoped that many will benefit from this show.

The crops department also had two contests which received great interest among the guests of Poly Royal. The agronomy contest which took place Saturday at the baseball diamond, was won by Mrs. M. S. Allen. Second and third places went to Jeanne Jerram and Mrs. Edward Beattie. The first prize was two gallons of motor oil, by courtesy of Stowe Independent Oil Co., the second an Eversharp pencil, by courtesy of Vigneau's Jewelry Store, and Standard Auto Parts donated an auto polish set as the third prize.

The sack sewing contest was won by Americo Poletti, and he received as his prize five quarts of motor oil donated by the Texaco Oil station at the corner of Santa Rosa and Marsh streets. Second and third prizes went to Donald McCormack and Ralph Thursday, who received respectively a socket wrench set, by courtesy of E. C. Loomis and Son, and a \$1 barber service order from the Wineman Barber Shop.

Club Payments For El Rodeo Misunderstood

A slight misunderstanding regarding amounts due to El Rodeo from organizations represented in the yearbook has arisen due to the failure of staff members to contact the organizations' officers several months ago.

In an effort to clarify the point, Bob Kennedy, publications adviser, offered the following explanation:

"At the beginning of the year, the staff worked out a new section in the annual to include all departments. Trying to keep the details of the new section secret resulted in a misunderstanding between some departmental organizations and the staff over the amount of money due El Rodeo for space allotted to the club. Had the boys on the staff felt free to show the club officers exactly what they were to receive for their money there would undoubtedly have been no question as to the bargain offered to the clubs. However, trying to keep the section details veiled until the book was issued, staff members have run up against questions which are impossible without disclosing the content of the book.

"The statements recently sent to departmental clubs were based on a charge of \$8 per page, \$15 for two pages, or \$20 for three pages. When photographs were taken of all clubs, the staff figured the amount of space which a club should have, based on the number of members in the club. Consequently, Aero, Boots and Spurs, Dairy and Electric clubs were allotted three pages in which all activities of both the club and the department, including faculty, were to be pictured and described. Crops, Hort, Poultry, Air Conditioning, and Mechanical Industries were allotted two pages for the same type of coverage. It was felt at the time that this was an equitable method of allotting space since the expense could be apportioned evenly among the various students in each department.

All social clubs were limited to one page to prevent any desire to compete with other fraternity or dormitory clubs.

In the January 23 edition of El Mustang a two column by 10 inch advertisement was run advising all organizations that the January 23 date was the "last" deadline for payment of page fees to El Rodeo. Since early in November, El Rodeo had been issuing warnings as to amounts and time due. There are organizations which have failed to pay. The annual will be issued on the campus within three weeks, and a person belonging to an organization which fails to pay for space in the annual will not be allowed to receive an annual until the entire amount due from the club is paid.

MET WITH ACCIDENT

It has been rumored that James "Boy Scout" Hoskins is new being called "Bathless Hoskins." We also hear that he met with an accident with some shoe polish and India ink a couple of weeks ago. Take it easy, "Bathless."

Dairy Judging Results Shown

The judging of the many breeds of dairy cattle attracted a large attendance of people at Poly Royal this year.

Of the many breeds of dairy cattle judged were 15 Holsteins, eight Guernseys, and seven Jerseys.

The preliminary judging took place in the Poly Grove at 10 o'clock Saturday morning. Each breed was judged respectively and the winners competed that afternoon at the sheep unit for the grand champion award. The judging was based on showmanship alone.

Maurice Ketcher took first place in the Holstein class; Jim Lawson took top prize in the Jersey class, and Ed Santos won the Guernsey class.

In the finals at 1 o'clock Ed Santos took the grand champion award with the Guernsey cow. Ed received a show halter for his good work on his animal. Other awards which were given were two framed pictures of a Guernsey cow and heifer, and two books on how to fit and show dairy cattle.

Those who took part in the showing were Hans Hanson, Alvin Quist, Ray Mount, Jim Pollman, Kent Freeman, Avery Overgard, Arthur Grant, Jim Lawson, Ed Santos, Maurice Ketcher, Robert Speck, and Bill Benton.

The judges for the show were C. W. Robinson from the Guernsey club and Neil McPherson from the Jersey club.

Hort Boys Show Beautiful Exhibit

A main part of the exhibits of the horticulture department was a very colorful and artistic display of various flower arrangements. The flowers were arranged by Mrs. George M. Drumm, wife of the Poly dairy production instructor, Mr. Drumm. The valuable materials used were furnished by Goold's Gardens of San Luis Obispo.

Also on display by the horticulture department were all the plant materials at the college nursery, including glasshouse plants and named varieties of ornamental shrubs.

The Greatest Air Army in the World
Needs Flight and Ground Crew Officers

NOW FOR COLLEGE MEN A NEW OFFICERS' TRAINING PLAN

★ New Deferred Service Plan Allows You to Continue Your Education ★

In the skies over America the mightiest air fleet in the history of the world is mobilizing for victory!

So fast is it growing that there is a place here — an urgent need here — for every college man in America who can qualify for Officer's Training.

The U. S. Army Air Forces need Flying Officers and Ground Crew Officers. And many of them must come from the ranks of today's college students — men who make their plans now for the necessary Aviation Cadet training.

Thanks to a newly created Air Force Reserve plan, men of all classes — aged 18 to 26, inclusive — can enlist for immediate service or continue the scholastic work required for graduation before being called to active duty.

You must meet the requirements for physical fitness, of course. In addition, you take a new simplified test to determine your ability to grasp the training. A college man should pass it easily.

\$75 A MONTH DURING TRAINING

Those accepted who wish immediate duty will go into training as rapidly as facilities permit. As an Aviation Cadet, you are paid \$75 a month, with subsistence, quarters, medical care, uniforms, equipment.

In 8 months you can win an officer's commission as a bombardier, navigator or pilot — and be well started on your way to serve America and advance yourself in aviation.

Three Enlistment Plans for College Men

Juniors—Sophomores—Freshmen May Continue Their Education

1. A new plan allows Juniors, Sophomores and Freshmen, aged 18 to 26, inclusive, to enlist in the Air Force Enlisted Reserve and continue their schooling, provided they maintain satisfactory scholastic standings.

All College Men May Enlist for Immediate Service

2. All college students may enlist as privates in the Army Air Forces (unassigned) and serve there until their turns come for Aviation Cadet training.

3. All college students may enlist in the Air Force Enlisted Reserve and wait until ordered to report for Aviation Cadet training.

Upon graduation or withdrawal from college, men will be assigned to active duty at a training center as facilities become available.

If the necessity of war demands, the deferred status in the Army Reserve may be terminated at any time by the Secretary of War.

The new Army Air Force Enlisted Reserve Plan is part of an over-all Army Enlisted Reserve Corps program shortly to be announced. This program will provide opportunities for college men to enlist in other branches of the Army on a deferred basis and to continue their education through graduation if a satisfactory standard of work is maintained. In case of necessity the Secretary of War shall determine when they may be called to active duty.

It is understood that men so enlisted will have the opportunity of competing for vacancies in officer's candidate schools.

This plan has been approved in the belief that continuance of education will develop capacities for leadership. (Reserve enlistment will not alter regulations regarding established R.O.T.C. plans.)

MANY BRANCHES OF SERVICE

There are also commissions awarded in ground crew service. College men particularly will be interested in the requirements for Armaments, Communications, Engineering, Meteorology, Photography. If you have engineering experience your chances of getting a commission are excellent.

As a Second Lieutenant on active duty with the Army Air Forces, your pay ranges from \$183 to \$245 a month.

ACT AT ONCE

If you want to fight for America, this is where your blows will count.

If you want the best training in the world, and years of solid achievement in aviation—the great career field of the future—this is where you belong. Your place is here—in the Army Air Forces.

If you plan to enlist immediately, start getting your necessary papers ready for the Aviation Cadet Examining Board when it meets in your locality. For complete information, see your Faculty Air Force Advisor. You can take your mental and physical examinations the same day you apply. Get further information now.

NOTE: If you wish to enlist and are under 21, you will need your parents' or guardian's consent. Birth certificates and three letters of recommendation will be required of all applicants. Obtain the forms and send them home today—you can then complete your enlistment before any Aviation Cadet Examining Board.

McFarland Heads Navy Relief Drive

L. McFarland, Cal Poly maintenance superintendent who served with the Marine Corps during World War I, has been chosen to handle California Polytechnic contributions to the Navy Relief Society's fund raising drive.

The Navy lost more men and ships in that one fatal day at Pearl Harbor than during the combined duration of the Spanish-American and World War I. Because of that terrible loss, the Navy Relief Society is making a national appeal for funds for the first time in its history. An attempt is being made to raise \$5,000,000.

Walter Lippman, noted editorial writer, recently wrote:

"Anyone who devotes ten minutes to figuring out what the Navy Relief Society does for the families of the officers and men will need no further convincing that the society is absolutely to the Navy. It guarantees to the men who go forward against the enemy that their families at home will in no circumstances be forgotten and neglected. That guarantee means everything to them. Yet it demands absurdly little of the rest of us, and what little it does demand is no more than an insignificant token of what we owe them."

As a part of the campaign for funds, the Society is distributing for sale emblems in three styles, using non-defense materials. The man's lapel button sells for \$1.25, woman's lapel pin, \$1.25; woman's brooch, \$2.50.

Anyone interested in doing something in return for the great sacrifices made by the men in the navy, Marine Corps, and Coast Guard, please contact Mr. McFarland, who will order the pins for those who wish to contribute to this worthy cause.

El Rodeo Has Group Photographs to Sell

El Rodeo has the following group pictures for sale in the journalism room: In the 5x7 inch size there are prints of the Crops, Air Conditioning, Poultry, Aero, Poly Phase, Los Lecheros, Horticulture, and Young Farmer clubs, Jespersen, Deuel, Chase Dorms, three of Heron Hall, Dorms 3, 4, 5, and 6, the Upper and Lower Units, band, rally committee, Block P, and SAC.

In the 8x10 inch size there are the Horticulture, Boots and Spurs, and Young Farmer organizations, Chase Hall, and SAC.

The smaller pictures cost 20 cents and the larger 35 cents apiece. Also Aston Photo studios has the negatives to these prints on hand, and students may order prints there.

TALENT EARNS REWARD

WINS SCHOLARSHIP—Stanley H. Dominguez, 18-year-old Stockton High School senior, is winner of the 1942 Safeway Stores scholarship in animal husbandry, awarded annually at the Future Farmers of America Livestock Marketing Day in Stockton for special aptitude and talent in raising fine livestock. Dominguez, shown here with Assemblyman James E. Thorp of Lockeford, secretary of the California Swine Breeders' Assn. (left) and Ray C. Voss, Safeway executive (right), will use the scholarship to pursue his specialty of hog raising at California Polytechnic School, San Luis Obispo.

Stockton Boy Wins Scholarship To Cal Poly

Dominguez won the award on the basis of his entry of 10 choice crossbred hogs at the annual Future Farmers of America Livestock Marketing Day held in Stockton April 1, plus his general good scholarship in vocational agriculture under instructor Howard F. Peters at Stockton high school. Dominguez' choice hogs were purchased for the markets of Safeway Stores.

The award will be used by Dominguez to pursue his agricultural studies at California Polytechnic school, noted San Luis Obispo farm school, which he plans to enter this fall to specialize in swine raising.

Safeway Stores annually awards the scholarship in animal husbandry in recognition of the excellent work of the Future Farmers of

America and other junior agricultural organizations in improving the quality of California livestock and to encourage their activities.

Buyers at the Stockton Junior Marketing event selected and purchased for the markets of Safeway Stores a total of 36 lambs and 33 hogs, including Dominguez' entry. The youthful owners and the number of head purchased from them were: Dan Brandstad of Lodi, 21 lambs; Victor Wedegaertner of Oakdale, 15 hogs; William Lusareta of Livermore, 10 lambs and one hog; Duaine Jungeblut of Lodi, five hogs; Don Bettencourt of Livermore, three lambs; Stanley Serpa of Livermore, two lambs; Bob Beck and Charles Schenone of Livermore, one hog each.

OFF-BEATS

By Don Seaton

Well, here we are with the Poly music department again. I guess you've been wondering what the band has been doing lately. They have been working on Mendelssohn's "War March of the Priests" and "Jalousie" by Gade for the graduation ceremonies. That last name does not mean "The Louse" fellows. It means "Jealousy." It's kind of pretty, too.

The glee club sang before the Kiwanis club Wednesday, and on top of that, they got their lunch down there, and was it swell? You said it! The boys sang some of the numbers they used at the Home Concert, and Nicolaides and Struckmeyer sang a couple of solos. Also the double quartet, now reduced to a sextette because of measles and everything else, entertained the Kiwanians.

The California Holstein-Friesian Association will have the privilege of hearing the double quartet at their meeting tomorrow afternoon. Maybe the singers should have the

honor, but we'll let it go at that. Here's where you shine, Quist.

Last week I said something about Ray Rabjohn's solo in "Recessional." Well, what I said still goes, more than ever. "Send Out Thy Light" is also coming along fine. It is to be sung a capella (without accompaniment) at graduation and will sound very good.

The Collegians are working up a couple of very popular pieces; "The Jersey Bounce" and "Always In My Heart." Boy, you ought to hear Garbani's solo in the "Bounce." He really gets groovy. The latter piece is to be presented at the Young Farmers' barn dance tomorrow night, so get on your glad rags, farmers, and we'll see you there.

Both the glee club and orchestra have been doing a lot of recording lately. And really, some of the recordings sound pretty swell, even if I must say so myself.

As you know, there is to be no Collegiate club dance tonight due to the Young Farmer barn dance tomorrow. You see, it's been a policy here never to have more than once dance on the campus each weekend. However, there are going to be two more such dances this year, May 15 and 22. Plan on attending those dances, fellows.

How did you like the San Luis High School "Victory Boys?"

Golden Gloves Fun Nite

Poly Horsehidors Down Army Q. M. Corps - - 8-3

Cal Poly diamond men fell before the Camp Romerts baseball team Saturday in a close game, 8-3. The Poly nine were playing against big league opposition. On the mound for the Army team were two very good south-paws.

The first five innings were pitched by Earl Johnson, formerly a Boston Red Sox pitcher. He allowed but three hits and no runs.

Larry Powell, an ex-Seal hurler, took over the duties from thence on and allowed a pair of doubles. The three runs Poly scored during the game came at this time.

Don Crawford went the route for the Mustangs and allowed a total of 13 hits. Don had a lot of trouble in the first and seventh innings, but otherwise had things well in control.

Mangini, Army star slugger, was the hitter for the afternoon gathering a homer, triple, and single.

Mustangs Drop Close Tilt To Roberts Team

The Mustangs cleaned up on the Camp Roberts Quartermaster Corps baseball team by the score of 24-6 last Sunday. Poly gathered in a total of 13 hits in the entire game. The Army team's number of errors made it hard to control the Mustangs.

Bob Mallory did the chucking for the first seven innings and Howie O'Daniels finished it up for Poly. Sharp, Army hurler, struck out nine men during his reserve pitching.

Marl Stewart, Poly catcher, and "Val" Valenzuela, right fielder, both collected three hits out of five times at bat.

OFFICIAL NOTICES

All seniors (D. T. V.) please report to the gymnasium May 15 for gown measurements. Also sign the release in the accounting office as soon as possible.

FRESHMAN MEETING TO BE HELD

An important meeting of all freshmen will be held in the A. C. auditorium Thursday at 4 p. m. it was announced by Robin Stier, acting chairman of the freshman class, today. The meeting will be held for the purpose of making plans for the graduation dance.

SIGMA PHI KAPPA ELECTION

The Sigma Phi Kappa fraternity had their election of officers for 1942-43. Clint Merithew was elected president, Jack Scheurer, vice president; Quentin Highfill, secretary; and Bob Brix, treasurer.

Pretty neat, what? Yep, that was a very good assembly they put on for us yesterday.

John Nicolaides, his guitar and two stooges, Ted Wardell and Don Woods, presented a number of cowboy songs at the Boots and Spurs Bar-B-Q last night. Among the pieces sung, and yodeled, were "Happy Cowboy," "Way Out There," and "When It's Onion Time in Bermuda (I'll Be Breathing My Love to You)." That last song really is a wonderful tune, for Wardell.

On the night of May 13, at 8 p. m. in Crandall gym, will be held the final Fun Nite of the year. This Fun Nite will be the Golden Gloves night for the fighters. The boys that win their fight and have fought in one other Fun Nite are entitled to Golden Gloves. These boys are really working for the gloves, and are expected to give a good showing.

The tentative fight schedule will include John Carricaburu, 145-pound veteran from last year, vs. Dwight Wait, 145-pounder from Willows, a very snappy fighter. Also Dick Hill of Napa, weighing 152 pounds, vs. Bill Whitmore of Los Angeles, weighing 150 pounds. This bout is one really to be watched as these two boys have fought together in the last two Fun Nites with each of them winning a bout. So this fight will tell who is the superior and who gets the Golden Gloves. Next comes what may be called the best bout of the evening with Mel McMurtry of Napa and Bob Ryan of Bishop battling it out. Both boys weigh about 168 pounds and both are in tip top shape. This bout is really one to watch. Then Maurice Ketscher, the Mustang's pride and joy of the year, will go three rounds of fist-cuffs with Bob Freit, one of the boys taking the civil service course. Jim Lawson, 135-pounder, is also tabbed to take on a civil service fellow, but it is not definite as yet. Bob Procsal and Johnnie Brice two of Poly's muscle men, have no opponents at this date. If anyone feels capable of taking on either of these boys, just step up to Dave Risling and say so.

Some of last year's Poly boxing stars have really traveled in the fight world. Such as Cy Perkins, who is fighting up in Seattle, Washington. This boy has taken the Northwest Golden Gloves championship and is really going places. Another former Mustang Jim Andersen, has taken the Pacific Coast welterweight championship. He is one fellow the boys who were at Poly last year can tell you a lot about. With the thought of these former Poly boys, a large crowd is expected to come out to see the greatest Fun Nite of the year, which may include some of the coming world's champions.

Tickets are now on sale by any Block P member.

Civil Service Jobs Open To Ag Students

The Agricultural Marketing Administration of the U. S. D. A. is interested in securing college juniors to fill vacancies caused by the war as Assistant Marketing Aids (Trainees). Some juniors in this institution are qualified to apply for these temporary positions which do not extend beyond six months, or during the summer vacation. Compensation for such positions is at the rate of \$1620 per annum, subject to some deduction. The duties of Assistant Marketing Aid (Trainee) consist of inspecting processed foods, laboratory analysis of certain produce, checking and recording temperature in packing plants, etc.

Any students interested in applying for one of these jobs may obtain a list of the minimum requirements and all other information from Mr. Egan, registrar.

Young Farmers! Don't forget to come to the barn dance Saturday night in the sheep barn. Get your gals and be there!

Commissions Offered In Air Force

Young men who cannot qualify physically for aerial training in the U. S. Army Air Forces are being urged to investigate courses offered for commissions as ground officers.

Special college training can earn commissions in armament, communications, engineering, meteorology, or photography in the Air Force.

Physical requirements are the same as the general standard for a U. S. Army Reserve commission, but less rigid than flying requirements.

Civilians who wish to qualify for armament officers must have at least two years of college credits in an accepted engineering course. An applicant for Aviation Cadet in the communications field must have at least two years of college including a year of college physics. Holders of amateur or commercial radio licenses may substitute this experience for physics credits.

To qualify for training as an engineering officer, who is responsible for mechanical details of the plane on the ground, the applicant must show that he has had three years of college engineering.

An exacting and vital part of the Air Force is the meteorologist. To qualify for a commission in this field, the applicant must have completed three years of college, specializing in engineering or science, remaining in the upper third of the class through the college course.

College students with at least three years of chemistry or geology, including physiography, can qualify for training in photography if they have had amateur or professional photographic experience.

Courses of training vary from 12 to 30 weeks at Army technical schools. Successful completion brings a commission as a second lieutenant in the U. S. Army Air Forces with a salary of \$185 a month.

McPhee Family Picture In Country Gentleman

The photograph of the McPhee family, taken by Bob Kennedy, publicity director, used recently in El Mustang also appears in the May edition of the national magazine, Country Gentleman.

This is the second time that the photograph has appeared in a national publication. Previously it was given an important position in the Collegiate Digest, rotogravure section appearing in most large college newspapers. The same photograph will soon appear in the Jersey Bulletin, another national magazine.

Come on, guys! Let's all go to Fun Nite next Wednesday night. You're sure to have a lot of fun.

Hort Dept. Streamlined

Fifteen shiny new projects including everything from shrubs to annual flowering plants is the latest development that culminates 10 years of growth in the horticultural department. Five thousand and Tuberous Begonias will be in full bloom for display purposes by July.

In 1932 when W. B. Howes came to Poly he was given the task of streamlining the horticultural department and landscaping the campus. A horticultural department as a separate unit of study wasn't in existence at that time which meant that Howes had to start from almost nothing. He outlined a practical course of study which included a dash of technical salt, and then started an advertising campaign. The success of his campaign can be seen in the office records which show an average increase of 10 students per year. The curriculum has been improved to the extent that all of the technical studies are now treated in separate classes.

Howes is proud of the job his boys have done to beautify the campus. Believe it or not, the only evidence of landscaping on the grounds 10 years ago was a few apricot trees between the dormitories and a small patch of lawn in front of the old Administration building. The horticultural department has put in 13½ acres of lawn, has improved the football field, and has put in all of the shrubbery on the grounds. The two glasshouses have been rejuvenated, a new lathhouse has been built, and the propagation grounds have been increased to three acres.

The horticultural department is turning out some capable landscape gardeners and nursery managers who have Technical Certificates or Bachelor of Science degrees.

Dedication of New Bldg. Tentatively Set June 28

The new building will soon be ready for the dedicating ceremonies as the final touches are now being put on.

The building will accommodate large lecture classes in the upper story, the ground floor will house the offices of the college and the Bureau of Agricultural Education and the basement will house the students' activity room, post office, print shop, mimeograph and mailing departments, studentbody offices and social rooms. In the tower, the clock which can be seen from almost any place on the campus, will have a set of chimes and will strike on the half-hour and hour.

The large reinforced steel concrete structure has 52,000 feet of floor space.

New Microscope Operated By Former Student

Donald Macfarlane, a chemistry graduate of the University of California, and a former Poly student when that institution was a high school, is now operating an amazing new electron microscope in the plant of the Chemurgic Corporation at Richmond, Contra Costa County. Macfarlane assisted Floyd Luther, another graduate of U. C., who designed and built this remarkable instrument that magnifies 100,000 times.

The new microscope is about seven feet tall and is operated by an electron beam from a cathode that is energized at 100,000 volts.

Under it a human hair would appear to be 30 or 40 feet wide; a dime would seem nearly a mile and a quarter in diameter; and a seven and a half inch pencil would appear to be 11.8 miles long.

Macfarlane's father, Donald B. Macfarlane, was an instructor of auto mechanics at Poly back around 1927 and taught until 1931.

WE THANK YOU

In behalf of the Cal Poly studentbody, we'd like to sincerely thank the Gamma Pi Delta fraternity for fixing up the Poly hitchhikers' bench. The SAC is responsible for this action.

Heying at Advanced Training Flying School

Cadet Arno H. Heying, who attended Cal Poly from 1938-41, has finished his basic training at the Enid Army Flying School in Oklahoma, and has left for the advanced school at Mission, Texas.

After nine weeks, the cadets in class 42-F, of which Cadet Heying is a member, have mastered the intricacies of planes three times as powerful as their primary trainers.

Some will fly fighter planes, some twin engine bombers, and some will be assigned to observation ships. Regardless of assignment each cadet is going to get a terrific wallop out of handling his new "baby."

YOUR COLLEGE CAN NOW HELP YOU BECOME A NAVAL OFFICER

Freshmen, Sophomores, 17 THRU 19. Enlist now! Stay in college! You may qualify for a Naval Commission on the sea or in the air.

Freshmen. Sophomores. Here's a challenge—and an opportunity! Your Navy needs trained men. Trained men to become Naval Officers! And your college is ready to give you that training now.

Here's New Navy Plan

If you're 17 and not yet 20, you enlist now as an Apprentice Seaman in the Naval Reserve. You then continue in college, including in your studies courses stressing physical training, mathematics and physics. After you successfully complete 1½ calendar years of college work, you will be given a classification test.

Aviation Officers

If you qualify by this test, you may volunteer to become a Naval Aviation Officer. In this case, you will be permitted to finish the second calendar year of college work

before you start your training to become a Flying Officer.

However, at any time during this two-year period after you have reached your 18th birthday, you may, if you so desire, take the prescribed examination for Aviation Officer . . . and, if successful, be assigned for Aviation training. Students who fail in their college courses, or who withdraw from college, will also have the privilege of taking the Aviation examination.

Deck or Engineering Officers

If you qualify in the classification test and do not volunteer for

Aviation, you will be selected for training as a Deck or Engineering Officer. In that case, you will continue your college program until you receive your bachelor's degree, provided you maintain the established university standards.

Other Opportunities

If you do not qualify as either potential Aviation Officer or as potential Deck or Engineering Officer you will be permitted to finish your second calendar year of college and will then be ordered to active duty as Apprentice Seamen. But, even in this event, because of your college training, you will have a better chance for advancement.

Pay starts with active duty.

It's a real challenge! It's a real opportunity! Make every minute count by doing something about this new Navy plan today.

DON'T WAIT...ACT TODAY
