New Cal Poly Scholarship Program Welcomes First Recipients

Cal Poly President Jeffrey D. Armstrong and his wife, Sharon, welcomed the first recipients of a new scholarship program at a reception at their home Sept. 27. Initiated by Armstrong to help support a more diverse and culturally competent student body, the Cal Poly Scholars Program is aimed at students whose families earn less than \$80,000 annually. Many of the students come from Cal Poly's Partner Schools, a collection of California public high schools that serve low-income populations and have low percentages of students advancing to college. The scholarship criterion also includes students who are National Merit Scholars, National Hispanic Scholars or National Achievement Scholars. The 14 first-year engineering students who received awards represent the first of what Armstrong hopes will be hundreds of Cal Poly Scholars. "We've established the first cohort of Cal Poly Scholars in the College of Engineering," he said, "but we intend to grow the program across the university and increase the amount of the scholarship awards by raising additional resources from donors and industry partners."
