**ACADEMIC SENATE
Of
CALIFORNIA POLYTECHNIC STATE UNIVERSITY
San Luis Obispo, CA**

**AS-____-00/
RESOLUTION ON
LECTURER RANGE ELEVATION**

1 WHEREAS, Section 12.15 of the MOU requires that procedures for lecturer range elevation
2 shall be established at each campus after recommendation by the appropriate
3 Academic Senate committee; and
4

5 WHEREAS, It is desirable both for lecturers and for departmental lecturer search committees
6 that there be objective criteria by which to determine whether a lecturer should be
7 elevated from one range to another at the time of reappointment; and
8

9 WHEREAS, Those criteria should be somewhat similar to the requirements for the
10 appointment of tenure-track faculty at comparable ranks; and
11

12 WHEREAS, Section 12.18 of the current Memorandum of Understanding specifies that
13 grievances regarding lecturer elevations shall be heard by a peer review panel
14 whose decision is to be final; therefore, be it
15

16 RESOLVED: That each college should have lecturer range elevation criteria in place by the end
17 of the 1999-2000 academic year; and be it further
18

19 RESOLVED: That these criteria should be similar to the criteria for appointment of tenure-track
20 faculty at comparable ranks, including appropriate professional development, with
21 primary emphasis on demonstrated teaching effectiveness, appropriate education
22 and certification, and professional achievement and experience, and not be based
23 on length of service; and be it further
24

25 RESOLVED: That lecturers should submit requests to be elevated to a higher range no later than
26 the time that they apply for subsequent appointment and document the reasons for
27 which they believe that they should be elevated; and be it further
28

29 RESOLVED: That the department lecturer search committee shall consider such requests for
30 elevation in light of the college's approved range elevation criteria; and be it
31 further

- 32 RESOLVED: That the committee shall inform any lecturer who is being recommended for
33 reappointment what recommendation they have made regarding any requested
34 range elevation and give their reasons, in writing, and that these reasons shall
35 make reference to the college's approved range elevation criteria; and be it further
36
37 RESOLVED: That the college dean shall inform lecturers who are being reappointed what
38 decision the dean has made regarding any request for range elevation and for what
39 reasons.

Responsibilities: The GE committee is charged with assuming a vigorous leadership and administrative role in the development and maintenance of a strong and coherent GE Program that meets the noble purposes of its conceptual goals and fosters a stimulating academic and intellectual environment on the Cal Poly campus. By its own initiatives, and those of the university community, and by consultation with appropriate campus groups, the GE committee will make recommendations, through its director, to the provost on all matters and aspects pertaining the GE Program including philosophy, content, format, delivery, and adherence to standards of quality.

Among the specific duties assigned to the GE committee are the following: 1) program development, monitoring, and assessment; 2) designating GE courses; 3) encouraging innovation; 4) issues related to community-college GE programs; and 5) promoting and coordinating GE-related activities such as conferences, seminars, and speakers.

Membership: A director and eight committee members will compose the GE Committee, two from the College of Science and Mathematics, two from the College of Liberal Arts, and one from each of the four professional colleges. Committee members will be Committee members will serve three-year renewable terms that are staggered to promote continuity.

Qualifications: Committee members will be faculty members with a demonstrated interest in GE and who have a thorough understanding of, and deep conviction and commitment to, the philosophy and conceptual goals of the GE Program.

Appointment: The provost appoints GE Committee members after consultation with the Academic Senate.

Please comment briefly on your experience in curricular affairs and your interest in General Education.

Although relatively new to Cal Poly, I have already been involved in getting new technical courses developed in my college. I quickly realized how important curriculum decisions are here, both strategically and for the sake of our students, and I would now like to participate at a higher level. It is crucial that our graduates leave with .

critical thinking skills and a broad knowledge of our world, and I believe GE plays a central role in reaching this goal.

Please comment briefly on your experience in curricular affairs and your interest in General Education. As a full-time lecturer, I have no experience in curricular affairs; however, I have been teaching General Education courses almost exclusively for the last ten years and have interacted with colleagues in various departments who also primarily teach G.E. I am therefore quite interested in the shaping of policies affecting		

these courses and believe my experience could be an asset to the committee.

Although relatively new to Cal Poly, I have already been involved in getting new technical courses developed in my college. I quickly realized how important curriculum decisions are here, both strategically and for the sake of our students, and I would now like to participate at a higher level. It is crucial that our graduates leave with

critical thinking skills and a broad knowledge of our world, and I believe GE plays a central role in reaching this goal.

Please comment briefly on your experience in curricular affairs and your interest in General Education.

I have been on the GE Governance Committee for three years. I have an interest in serving on the Area D Committee because of the importance of assessment to GE and my sense that the area committess will be essential to the assessment process. I strongly feel that assessment in GE should be at the program level and should be a process of constructive feedback rather than a punitive process. Although my background in program

evaluation is not extensive, I do have some sense of the myriad issues involved and feel I can be of use.
