Garoian, Lavery Win Election

Susan Rowe to Represent Married Group in Fiesta Queen Contest

When the Student Wives' club met recently to choose a representative as candidate for queen of the 18th Annual Fiesta de las Flores, it was natural that their selection was Susan Rowe. This vivacious brunette, who hails from San Diego, and is active in student wives' affairs, has the looks and personality to make a lovely queen.

Susan Rowe's duties — if she gains the crown — will be to reign over the 18th Annual Fiesta de las Flores, to be held May 31, June 1, and 2, on the grounds of the old Mission in San Luis Obispo. This is the first fiesta to be held since the war and will be a gala affair. Besides reigning as queen of the Fiesta, Susan will win several beautiful gifts including a lovely wrist watch and a complete costume.

Susan Rowe was introduced to the students and faculty at a recent student body assembly, where she created a very favorable impression upon the assembled personnel.

The queen for the Fiesta de las Flores is determined by a novel method. After candidates for queen have been chosen, each is given tickets to sell, and the girl selling the most tickets is crowned queen. Each ticket is worth 25 points and is sold for twenty-five cents. Ninety per cent of the money obtained from the sale of tickets is given to the Fiesta de las Flores association, a non-profit organization. Of this ninety per cent, half will go toward the upkeep of the local mission, and half will go toward civic improvements. Ten per cent of the sales retained by each candidate can be used as she desires. Susan has generously planned to donate half of her returns to the student loan fund, forty per cent to the Student Wives club, and ten per cent to the club, department or individual who sells the most tickets for her.

A few of the people from whom you can purchase tickets are: Lee

LOVELY CANDIDATE FOR QUEEN OF THE S. L. O. FIESTA NEEDS STUDENTS' SUPPORT

SUSAN ROWE . . . Candidate for Fiesta de las Flores queen, is being sponsored by the Student's Wives' Club. She will reign — if elected! — over the Fiesta on May 31 and June 1 and 2.

Garoian, Russell Lancaster, Dick Stratton, Herb Walkup, Archie Ahrendes, and any of the student wives. Deadline for ticket sales is May 29. As an added incentive for you to purchase tickets, it might be added that you are capable of winning \$100 from each ticket in three drawings of \$100 each to be held.

Let's make the student wives' candidate, Susan Rowe, queen of the 18th Annual Fiesta de las Flores. This can be accomplished by each student and faculty member purchasing as many tickets under her name as possible.

INCREASED STUDENT BODY DUES

Should the student body card fee be raised from the present \$10 to \$15? Such was the proposal made at the recent S. A. C. meeting, where it was shown that an increased price will be necessary to meet the present rising cost of supporting the student functions, both athletically and socially. The new fee of \$15 would be for the three regular school terms with the summer term being free. Such a move is favored by President McPhee, but will have to first be approved by the students themselves, so you are now asked to fill out the enclosed ballot and deposit it in the box in El Corral.

Commencement Is Changed by Admin.

Contrary to the notice in the Cal Poly Circular of Information, the Date for commencement exercises has been changed, from June 5 to June 4. The proceedings will be held in the evening at the A. C. auditorium. The guest speaker for the evening will be State Senator Chris Jespersen, after whom our Jespersen hall is named.

Student Wives Meet Elect New Officers

Last Thursday evening, in the NYA building, the Students Wives' Club of Cal Poly met for their first formal election of officers since the adoption of the newly-formed constitution.

Reports of various acting committees were heard, followed by the report of the nominating committee. Officers elected for the coming term of office are: President Ethel Winn, Vice President Pat Grube, Secretary Anita McLaughlin, Treasurer Ruth Lewis, Sergeant-at-arms Anita Banning.

Rev. Geoffrey C. Hinshelwood, of St. Stephen's Episcopal church extended invitations to the Student wives to share the activities of his church.

Prof. J. A. C. Charles, French scientist, perfected a rubber fabric which prevented gas from escaping in passenger balloons in 1783.

Large Majority Elects Ken Lucas Secretary

In one of the tightest elections ever recorded at Poly, Lee Garoian and Dick Lavery nosed out John Jones and Jack Charleton in the races for student

body president and vice-president. Ken Lucas easily won the contest for secretary.

Student body offices decided in the primaries were Cy Hovig, treasurer; Gil Brown, yell leader; and Larry Rogers, athletic manager. The new officers will be officially seated in July.

The whole campaign was noted for its spirit. The majority of the student body was actively interested in the outcome. A total of 397 ballots were cast. In both the presidential and vice-presidential contests the lead changed several times as the votes were being counted.

President elect Garoian was informed of the results of the election in the cafeteria. Amid the rattle and crash of dishes and the constant squeaking of chairs, he was called upon to announce his plans. He stated that the first thing he would like to see done was to put sliders on the cafeteria chairs to lessen the noise.

Official results of the election are: Student body President, Lee Garoian, 204 votes; John Jones, 193 votes; Vice President, Dick Lavery, 197 votes; Jack Charleton, 193 votes. Secretary, Kenneth Lucas, 253 votes; Paul Bowman, 124 votes. Treasurer, Cy Hovig, 304 votes, Phil Lindsay, 134 votes. Yell leader, Gil Brown, 294 votes. Athletic manager, Larry Rogers, 223 votes.

the members to an after the show malt; they are, LeRoy Harris, Dick Campbell and Bob Wong.

The lowest two incomes, Lehman and Doug Elliott will treat the club to gum and cigars respectively. Any member who does not smoke his cigar is penalized a 5c treat per man. If

Collegians Make Musical Debut

by Ed Boettcher

The performance of Poly's Glee club and dance orchestra, known as the "Collegians" at the Vocational Staff meeting dinner in the cafeteria last Friday evening was well received by members attending the meeting.

The Glee club put on the first part of the program singing the following numbers: "Heidelberg," (Prince of Pilsen) by Liders; "The Lord is My Shepherd," (based on the 23rd Psalm) by Koschat; "Adoremus Te," (In Latin) by Palestrina. These numbers were sung without accompaniment. "Allah's Holiday," by Friml, and "The Surrey with the Fringe on Top," (Oklahoma) by Rodgers, were sung accompanied by Gil Brown on the piano.

The "Collegians", now numbering fourteen, pieces and under the direction of H. P. Davidson, were "terrific" in their first appearance since pre-war days. "Davey" predicts a great future for them next year.

The Glee club is now working on songs to be used for graduation, at which time student directors will do the conducting. The following men are trying out for this position: Wayne Wisemer, John Van Dyke, Don Brunton, and Everett Miller. The selection for student director will be made by the club next week.

Poultry Club Holds Blowout

The Annual Poultry club blowout will take place Friday night from 6 P. M. on into the night. This is a yearly function, which celebrates the high and low earning capacities of the club members. The top three incomes — through foundation earnings — of the club treat the rest of the members to a movie. This year they are Bruce Day, Herb Winn and Jay Tucker. The next top three incomes treat

IN CASE OF FIRE

1. Get all occupants out of the building.
2. Try to put the fire out yourself.
3. Use the Chemical fire extinguisher. It smothers fire.
4. Call for help if needed.
5. Send another person for another chemical fire extinguisher.
6. Use water only after chemical extinguishers have been used.
7. Think, before a fire starts, how you would conduct yourself.

TO PREVENT FIRES

1. Take no gasoline or other inflammable materials into your dwelling.
2. Use caution around all stoves.
3. Do not allow children to light stoves or play with matches.
4. Put all papers and dry materials in the garbage can.
5. Keep towels and clothing away from stoves.
6. Do not lay cigarettes on beds or on furniture. Use ash trays.
7. Get the habit of extinguishing cigarettes before disposing of them.
8. Use only 15 ampere fuse plugs. Request additional plugs as needed.

Cooperation Needed

The student body officers for next year have been elected by you, the students of this school. These officers face problems that have not confronted Poly since pre-war days. The administration expects Cal Poly to at least double its enrollment next year. To efficiently organize student activities in the coming year will be one of the toughest jobs that any set of school officers has ever faced. If Poly is to do the things it wants to do the student body, as a whole unit, must get behind the men they have elected. Cooperation is the keynote. Mr. Keesee in his letter to the editor has pointed out a lot of inconsistencies in our present organization. Leon and Dick have promised to do their best in serving the student body and the school. To effectively remove the stumbling blocks before us, to really get the increased activity that we want and need, every student must, in turn, do his best to help accomplish the desired ends.

So far it has been woefully true that only a comparatively few members of the student body have really worked at the activities that set us, as a school, above correspondence schools. Poly Royal was an exception to this. We need more of the whole hearted unity that made this year's show tops. Every adviser that I have talked to has said that if his organization had the cooperation throughout the year that existed for Poly Royal, this school would be outstanding on the coast.

Complete unity and cooperation is especially necessary from the men who will return to Poly in the fall. This particular group should be the inner core of support, around which the new students can and will rally.

We must realize that the new students next fall will be in the majority. They will also be raw in their concept of school life, of Poly's customs, aims, and traditions. If these new students do not have a reasonable amount of experienced leadership, not necessarily official executives, to guide, then this school will flounder around like a fish out of water. Poly can have a great year next term. Poly will have a great year, but only if we, each single one of us, does our level best to cooperate. — John Patterson

Milkman's Jamboree Top Entertainment Featuring Several Novelty Acts

by Mervel Mayer

"Milkman, keep those bottles quiet!" was the theme of the Milkman's Jamboree, sponsored by Los Lecheros and held in the gym last Friday night. More than a hundred couples danced to the music of Al Tenschur's band from Santa Maria.

Master of ceremonies, Mervel Mayer, introduced several novelty acts between dances. As an introduction to the theme of the dance, milkman Bud Mac Dougall was shown on his early morning deliveries about the campus. Becoming disgusted with complaints, Mac Dougall threw down his milkbotles and walked off.

This skit was followed by a South American guest artist, Senor Paulo Cavilanti, who sang "Bala". A few dances later Harry Sella and his accordion entertained the group with a couple of numbers.

Calling a Paul Jones for the dancers, Eugene Egan really mixed the crowd up and saw to it that every one had a good time during

that dance. Another novelty dance, the Varsuvian, caused many a mixed up pair of feet, but it was fun for all who tried it.

As honored guest of the dance, queen candidate Susan Rowe was introduced. In order to gain more support for Poly's candidate, the dairy club offered a selection of prizes to those who bought votes for their lovely entrant.

Climaxing the evening's entertainment were the Spitoonia Sisters. Led by Lotta and her unique musical instrument, the three girls gave a rendition of "Two Men On the Roof", or "Who Took Mr. Hig's Milkcan."

Dispensing Kickapoo Joy Juice throughout the evening was a crew under the direction of Jack Ringer.

Direction of the decorating and many other of the details was in the hands of Francis Walker, vice president of the club.

Feature decoration, a cow jumping over the moon, was made and assembled by the Student Wives Club.

Dear John

Editor:

There was a student veterans organization some two quarters back — it disappeared. Rumor has it collaboration. There is much talk, but little action. There is much talk, but little cooperation. We want improvement, not intentions. We want action, not talk.

There is much complaint about food, no adjustment. There is much complaint about instruction, no correction. There is much cry for cooperation, no inducement. There is much need for action, no leader with perseverance. There is much leading, no following.

Shall we examine these lacks and "do" something about them? Perhaps the habit of complaining is a long formed one. Is it necessary? Any cause of irritation projects itself in wasted time and energy.

This campus needs leaders who represent the students; men who will have only the ideas of the students to think about; leaders who will relegate personal gain to the background. Persons who will allow nothing except the ideas of the students he represents be present in his actions. Compromise and appeasement should come from the masses, not the leader. There must be the followers. To be a follower is the more difficult job because it means stifled ego. The duty of one who follows is to participate in all student assemblies, to discuss and to formulate all ideas, to let the leader know, to back the leader when he carries out the follower's wishes and ideas, to cooperate, to think of the welfare of each and to work for the betterment of all.

Now that the wants are established, that the needs are obvious, that the duties of leader and followers are outlined what to do about it should be discussed.

There is in existence student government. Make it work. S.A.C. members should be more forceful. Discussion in department club meetings and general assemblies should be encouraged and done. In short, more action, less passive indifference. We are primarily here for the purpose of mental education and social improvement. Anything that will give us these things in more abundance, let us work toward. There is in each of us the knowledge of the numerous things we need. The task is large but we can do it by being an active follower, and a few of us, aggressive leaders. If the food is bad, let's do something about it. If only to quit eating it. If the instruction stinks, let's improve it, if only by studying and suggestion. If the administration of student affairs is poor, let's change it. In short let's back the ideas of the group. Let each of us resolve to do our utmost, and do it! Let our leaders lead, and when they forget that they represent us, let us remove them. But when they do our job, then let us be with them. A teacher cannot teach unless a student will learn. A student will not learn unless an instructor teaches. Let us not separate, but rather cooperate.

There is a rumor of school politics. "Politics" is very often an excuse for not following. If there is politics, they can be eliminated with leaders who represent the followers and we are not awayed.

It is not intended that there be any hint of concern in these ideas. The intention is purely to present to you, the ideas in general, as they were given to me by a number of students like yourselves. It is true that these students want improvement, but are doing little about it. It is hoped that this will be an opening for attacks either for or against. I hope you agree.

Health Dept. Holds Session On Parenthood

A Parenthood Study group, sponsored by the Junior Matrons, has been started in town for the benefit of mothers, expectant mothers, or any young woman who thinks she would enjoy the lectures.

Miss Eleanore Wood, who is head of the visiting nurses of the County Health department, along with several interested doctors will lead the sessions. The study will cover a ten week period; meetings to be held every Tuesday afternoon at 2:30, at the U.S.O. Penthouse, Santa Rosa street.

In conjunction with the lectures, attending women will be given practical instructions on how to sew or knit for their expected infant, with a young Junior matron in charge. Everyone is welcome to bring material for these garments, which can be cut and started between 2 and 2:30.

The following is the list of subjects to be discussed at the coming meetings:

Layette, Birth, Bath, Post-partum (Care of Mother directly after delivery), First 6 Weeks, Toddler, and pre-school.

KENNEDY'S STUDENT IN ENGLISH CLASS

Once upon a time there was a teacher who just loved to assign compositions for homework. In his class there happened to be a fellow who could not seem to get a good grade regardless of how hard he tried. No matter what assignment the teacher made, this student could not seem to write a decent composition. Finally one day the teacher came to a close and when the student handed in his paper, the teacher noticed that the outside heading read . . . Baseball Game. At last, the teacher thought, he has written a composition on something I am sure he knows a lot about. I guess I will be forced to give him a good grade on this one. So, he proceeded to open this masterpiece which read . . . Rain, no game today.

The shortest distance between two points may be a straight line, but it is a cliché that the most beautiful distance between any two points is a curve.

If not with the choice of words, then in principal. Shall we then waste less energy in talk and more in action?

No offense should be taken from this article since no offense was intended. There is no purpose or intent of political office, but rather the realization of the improvements you think necessary so that our knowledge may increase.

You may use me as a complaint department if you so desire. Let me know what it is, and how you want it remedied.

Death Takes Big Spring Vacation

Murder and sudden death in California practically came to a standstill last week end, for the coroners as well as the Public Administrators of the state were in their annual meeting in S. L. O. The reason for the meeting here in S. L. O. is that the association's president, L. L. Buechler, resides in this town.

The auspicious group lunched at Poly Saturday as the guests of Carl Beck and his Cal Poly hospitality committee. The speaker of the afternoon was C. O. McCorkle, who told the assembly of Poly's plans and aims. Following lunch, George Hig, of Cal Poly's dairy department, personally conducted the group on a tour of the campus.

Enlightenment Needed For Baffled Student

Will someone please tell me just who this guy Kilroy is? For three years I saw evidences of the guy on each post on which I was stationed. But he always shipped out just ahead of me. He also seemed to get his furloughs about one week ahead of mine.

Now I see from the campaign notices that he is attending here at Poly. It seems he was very active in the election committee of Dick Lavery. I'm just a newcomer here, but I certainly would like to meet the guy. I think such a distinguished man should be a great help to the school. I'd like to have a coke with him and perhaps get his autograph. Any help in this matter will certainly be appreciated.

Sincerely yours:
SMOE.

AIR PRODUCE PACKING PLANT

Los Angeles — A processing and packaging plant to prepare fresh fruit and vegetables for transportation by air is to be built by an organization consisting of eight of California's largest growers and shippers who ship a total of 45,000 cars of perishable produce a year. With a capacity of 30 tons a day, the plant will pre-cool, clean, wash, trim and package products for air-borne shipment.

Netmen Hold San Luis J. C.

The Cal Poly tennis team, in its second meet last Wednesday, won a partial victory, and the San Luis Obispo junior college team won a partial revenge for its defeat the week before. The score was two-all. There was no playing of the doubles.

Dave Rose, 1st singles, swept through the first set, 6-2, but found it hard to win the second set, 7-5, in a hard-fought battle from Skanse. Lester Grube, 2nd singles, also won his match from Porter. Lester lost the first set, 2-6, but he rallied (as usual) to win the last two sets, 6-3, 6-3. However, the third singles had to be defaulted to Luther, and Gerald Root, 4th singles, lost to McKie with the score of 6-0, 6-1, thus evening the total score to two-all.

Cook Takes Prize In Picture Contest

by Gary Patterson

When things get dull in the poultry department, the fellows get together and work out something for excitement. In this way, interest is aroused and they get a little fun out of being in college, which does not seem true of the student body in general. Last week they held a picture contest and chipped in the money to pay for the prizes. Although all the fellows did not enter the contest, they all donated to the kitty, which shows a lot of the spirit we need around here.

Phil Cook ran away with the grand prize for the best picture, which netted him \$1.50 and some ribbing. The set of six pictures class placed: First, Dick Campbell, \$1.20; second, Dick Campbell, \$1.00; third, LeRoy Harris \$75. The set of three pictures class placed: First, Phil Cook, \$1.00; second, Grube, \$.75; and third Dick Campbell, \$.50.

Camp San Luis Downs Mustangs

A fast game of baseball was played at Camp San Luis Obispo, when the California Polytechnic college team played against the Camp team. The Army team won by the score of 5 to 1. The Camp team played errorless ball and coupled with the a-tight pitching of Follensbee and fine fielding of the shortstop, Petkos, the game was never in doubt. Foster pitched eight innings and only allowed the Army team 4 hits, but he got himself in trouble in the 5th by hitting two batsmen, walking another and throwing a three base hit ball to Moore, who also made three of the four hits. Poly's only run came in the 4th when Fowler hit, went to third on infield outs and scored on Foster's two base hit. The game was played in 1 hour and 45 minutes. Priest pitched the last innings for Poly and held them hitless.

VO-ED MEETINGS HELD AT POLY

This past week Cal Poly played host to the participants of a series of Vocational Education conferences. Dr. R. W. Gregory, National Director of Vocational Education has attended all these meetings to acquaint the staffs of the five vocational bureaus of some of the current problems and their tentative solution in education. The keynote of all the meetings has been attempts in the solution of the educational problems confronting the returning veteran by his local high schools. It was pointed out that the colleges and most of the junior colleges in the state have reached the saturation point. The high schools must bear a part of the increased load.

Meetings have included those of the entire staffs of all five of the state Vocational Educational Bureaus. The California Commission for Vocational Education, Julian A. McPhee, State Director of Vocational Education, presiding met this past week. The commission consists of B. J. McMahon, Chief Vocational Agriculture, Samuel Fick, Chief Trade and Industry, Dr. Ira Kibby, Chief Business, Miss Bertha V. Akin, Chief Home Economics, and Dr. H. B. McDaniel, chief Occupational Information and Guidance. The Vocational Association's Advisory Committee, which include the five chiefs and two other members from each bureau, held its meeting on the campus. In addition there have been staff meetings of several of the bureaus. On Saturday, Roy E. Simpson, State Superintendent of Public Instruction, addressed the entire group.

A great deal has been accomplished by this series of conferences. They were held here at one time in order to coordinate and concentrate the work of each committee. Poly is proud to have its facilities used in the work of solving the problems of veterans' education.

Sports Roundup

By Bill Roth

In case any of you didn't know it, our coaching staff just got back from a meeting of the California Collegiate Athletic Association in San Jose. Besides electing new officers for the coming year, the coaches drafted a new basketball schedule for next season. The way it looks now each school will play a home and home series with every other school in the conference, making a ten game schedule. Of course, this is still at a tentative stage so far due to the fact that all of the coaches were not in attendance. According to Vern Meacham, athletic director, it looks like the league will do away with most of the events at the annual spring carnival. In other words instead of having such sports as swimming, tennis, track, etc., at the carnival, each school will compete against each other in these sports during the course of the year.

As has been stated on this page time and time before, this is the best break Poly could ever have in the way of improving her athletic standing. This will be a real test as to our athletic prowess here at Polyville. As you all know, the competition will be very tough. But with the whole hearted support of the student body, we can't miss. Sure we need support at games in the way of rallies and rooters, but most important we will have to have more participation of the students in sports. Take for instance our basketball and baseball teams this year. Why the turnout for these sports was just

pathetic. This can't go on. Of course, every one can't go out for sports. But those that can, come on out and let's put Poly on top of this league in December.

Dots and Dashes

How about a trainer here at Poly? A lot of men around here are coming up with bruises, cramps, bad backs, and charley horses. And when football season comes around it will be a lot worse. Howie O'Daniels has his hands full now with managing and coaching the football team among other things to spend time with ailments. It would be well worth the school's while to hire a trainer. After all, all the other colleges on the coast have a trainer. Why can't we have one? How about a little action on this subject?— If you want to see some clowns on this campus, just drop out to the ball field some afternoon. Wilbur "Any Position" Mayhew, Jackson Coyle, and Mac "Daisy" Smith will have you in stitches with their antics. When Smith pitches the fun ceases and the boys at bat begin to get serious. I wonder why, Mac?

In 1944, 181 sets of twins and two sets of triplets were born in San Francisco.

Tentative Summer School Schedule Announced by Registrar Egan.

For the benefit of those fellows who are undecided about attending summer school, here is the list of courses that will be offered. However, Registrar E. A. Egan wishes to emphasize the fact that this list is only tentative and may be subject to change without notice.

NOTE: TENTATIVE Summer Quarter Offerings.

Agricultural Inspection (June 18 to July 26)

E.P. 262 (3) Deciduous Pest Control
163 (3) Deciduous Fruit Production.

Agricultural Mechanics (June 18 to July 26)

Ag. M. 101 (2) Agricultural Mechanics
(2) Surveying (July 26 to Aug. 30)

301 (2) Irrigation
Farm Skills (June 18 to July 26)

F.S. 201 (1) Tractor Skills
202 (1) Tractor Skills

Dairy Production and Manufacturing (June 18 to July 26)

D. P. 122 (3) Elements of Dairying

Crops Production (July 26 to Aug. 30)

C. P. 141 (3) Cereal Crops
C. C. 241 (3) Weeds & Poisonous Plants

Meat-Animal Husbandry (July 26 to Aug. 30)

M. A. 231- (4) Mkt. Beef

Ornamental Horticulture (July 26 to Aug. 30)

O. H. 171 (2) Nursery Practice
O. H. 174 (2) Plant Materials

Aeronautics (June 18 to Aug. 30)

Aero 102 (3) Aero Engines Theory

103 (3) Aero Engines Theory

112 (1) Aero Engines Shop

113 (1) Aero Engines Shop

122 (2) Aero Construction Theory

123 (2) Aero Construction Theory

132 (1) Aero Construction Shop

133 (1) Aero Construction Shop

Air Conditioning (June 18 to Aug. 30)

A. C. 102 (3) Warm Air Furnace Systems

103 (3) Commercial Refrigeration

113 (1) Refrigeration Shop

152 (1) Engineering Practice

204 (5) Steam and Hot Water Heating

205 (5) Summer Air Conditioning

254 (1) Engineering Practice

255 (1) Engineering Practice

Electrical Industries (June 18 to Aug. 30)

E. I. 102 (3) D. C. Circuits and Machinery

103 (3) Elementary A. C. Theory

112 (2) Direct Current Machinery Laboratory

113 (2) Alternating Current Laboratory

112A (2) Radio D. C. Circuit Laboratory

113A (2) Radio A. C. Laboratory

Mechanical Industries (June 18 to Aug. 30)

ME. 141 (1) Engineering Drafting Theory

142 (1) Engineering Drafting Theory

143 (1) Engineering Drafting Theory

151 (1) Engineering Drafting Practice

152 (1) Engineering Drafting Practice

153 (1) Engineering Drafting Practice

Related Courses (June 18 to Aug. 30)

A. H. 111 (4) Types & Breeds

114 (2) Elements of Feeding

115 (2) Elements of Feeding

Rates: Ten cents per line, minimum of two lines. Payment in advance; leave copy in Publications Office, Room 204, by Thursday of each week preceding publication.

NEED YOUR CAR REPAIRED?
Don't pay needless expense of a high-priced garage. I have no overhead — you pay for the work I do, not for time and a half. Call 2710 on Wednesday or Saturday between 7 p. m. and 10 p. m., for an estimate. All work guaranteed. Pfc. Randall Pote.
