

## Capacity Crowd Attends Student Body Assembly

An estimated crowd of 1200 students and faculty members witnessed the presentation of the Santa Fe educational awards to two outstanding members of the Future Farmers of America at the Poly assembly October 11. The two members of this organization who were presented with the awards are: Willoughby Houk and Bob Showland. The Santa Fe award is presented to Future Farmers with the most outstanding records of achievement.

A representative of the San Luis Obispo Community Chest spoke to the assembled faculty students, urging them to do their part in the Chest's drive for funds. According to the representative, Cal Poly is the largest industry in San Luis Obispo, and students should help to make the drive a success.

A new school song, to be whistled after our team's touchdowns, was introduced by "Davey" Davidson.

Gil Brown and Jack Spaulding, Poly yell leaders, led the assembly in a few yells and songs, and the meeting closed with the singing of the Alma Mater.

The assembly was marred by the discourteous remarks of a few students in the group, revealing their ignorance of the conduct of gentlemen.

## Dates for Club Dances Assigned

Dick Lavery, student body vice president, announced that the following dance dates had been assigned after a meeting Thursday night with officers from most of the clubs on the campus. Los Lecheros, the Young Farmers and the Architectural Drafting club were not represented and, as yet do not have dance dates.

Oct. 18—Boots and Spurs.  
Nov. 15—Poly Phase. Nov. 29—Aero Club.  
Dec. 14—Air Conditioning club (Christmas Formal).  
Jan. 10, Poultry club. Jan. 24—Ag. Engineering club.  
Feb. 7—Boots and Spurs (Barn Dance). Feb. 14—Crops club (Valentine's Dance).  
March 21—Air Conditioning club. March 28—Horticulture club (Easter Dance).  
April 25—Mech. Engineering club.  
May 8—Poly Royal Coronation Ball. May 10—Poly Phase.  
June 4—Freshman Class (Commencement Dance).

## Los Lecheros Elect Officers

The installation of new officers was the first order of business facing Los Lecheros at their recent meeting. John Shea, the newly elected president, was given the chairman's gavel. Bill Armstrong, vice president, Jim Lawson, secretary-treasurer, Al Quist and Hans Hansen, S.A.C. representatives, and Harry Mellon, reporter, complete the roster of officers. George Drumm and Don Osborne are the faculty advisers.

Additional business included the discussion of a new club constitution, and preparation for intramural sports.

### SLIDE RULE COURSE

A course in the use of the slide rule will be given in the winter quarter. In spite of the great demand, this course cannot be offered during the fall quarter because of the lack of instructors in the mathematics department. It is expected to be a 1 unit course.

## Frosh to Hold Meeting Tonight

The Freshman class will hold its next meeting at 7 p.m. tonight at Poly Field. The inauguration of the newly elected officers will be the first order of business.

John Wright, Frosh prexy, will preside at the meeting. Ray Harding, vice-president, Robert Farrell, secretary-treasurer, and "Lefty" Downing, yell leader, will officially start their terms of office with the meeting tonight. These officers have already met in an executive session and are laying plans for future class activities.

One of the highlights of this evening's meeting will be the planning of the Homecoming Game bon-fire and rally which will be held on October 25, prior to the game with Whittier.

Speakers at tonight's session will be Dr. Carl Voltmer, who will tell the class about the activities that will be carried on in connection with the intramural sports program, and Bill Hill, who will discuss some of the problems facing veterans.

President John Wright is planning on bi-monthly meetings with programs to be provided by groups from the various majors. The best program given by a club will receive a prize. The Freshman officers are doing this in an attempt to make class meetings interesting enough to draw complete audiences from the class of over 1000 students.

Frosh council meetings will be held every Monday at 3 p.m.

## Aero Club Elects 1946-47 Officers

Meeting for the first time this year, the Aero club elected Bob Roney for president; Jim W. Green, vice president; Fred Caldwell, secretary; and Blick Wells as its representative to the S.A.C.

This first meeting was spent in discussing various means of familiarizing the freshmen in this department with the Aero club, and the advantages of belonging to it.

Meetings will be held every Thursday afternoon at 4, subject to the call of the president.

Advisors for this club are: M. C. Martinson, Roy Metz and Al den Turner.

## Boots, Spurs Sponsor First Collegian Hop

Opening with the smooth playing of Sophisticated Swing, the Collegians will start their Fall series of dances next Saturday night in Crandall Gym. The Football Dance will start after the Mustangs and the Gators finish their argument on Poly Field. This student body dance is to be sponsored by Boots and Spurs, and San Francisco State rooters will be guests.

According to Don Seaton, manager of the Collegians, the band will feature several old favorites, some new numbers, and enough real jump tunes to keep jitterbugs and hepcats reasonably satisfied.

The Four Colonels will make their first appearance of the year during the intermissions. This sharp outfit has Bob Handfield playing the clarinet, Charlie Knockey on the trumpet, Don Seaton slapping the bass, and Joe Parker picking his guitar.

"Listen for a small item the boys call a 'Sax Chaser' just prior to the intermission.

## Senior Ag Students Needed for Cadets

Senior students in the agricultural division of the college who have the required undergraduate pattern of courses and who are interested in a position as a vocational agricultural teacher may make themselves eligible for appointment to such position immediately upon graduation by the addition of required courses in teacher training. It was announced today by Byron J. McMahon, chief of the bureau of agricultural education.

Anyone interested is advised to contact C. Paul Winner, critic teacher and recorder, who will help plan a suitable program. Students with junior standing in the agricultural division are also advised to contact Winner if they are interested in agricultural teaching, as a profession.

### RALLY COMMITTEE TO MEET

Gil Brown, Poly yell leader, announced a meeting of the rally committee this afternoon at 4 p.m. in classroom 2. All members of this group are urged to attend the meeting.

## El Mustang Staff Needs a Chaplain Quick

By JOHN PATTERSON

The editorial staff of El Mustang will take this opportunity to raise its head up out of the mud, dodge a few tardy brickbats, and take on the task of explaining and correcting a few of the errors that jumped into last week's sheet while we weren't looking.

In the first place, the last two questions on the story about medical expenses were answered incompletely. The expense to a student of a major operation would include the anesthetist's fee and the use of the operating room at the local hospital, but the expense would not include the surgeon's fee if the surgeon is one of the school doctors. Expense at the infirmary would include a daily charge of fifty cents.

Some sports fans claimed that Poly beat Occidental in 1942. Sorry fellows, our records show Poly 6, Oxy 20, after the final gun.

Again in the sporting section, as of last week the Sports Editor for El Mustang is Ted Laine. Ted didn't have a chance to fill up his page for reasons which we will relate in a minute.

John Wright won the position of Frosh prexy entirely on his own. El Mustang didn't even mention his name as a candidate for two weeks. Probably that is why he won the election.

Poly didn't honor Oxy at a football dance. The Rally Committee didn't sponsor the dance. In

fact, there was no dance.

Then we left out several stories. Our Linotype operator was unable to work last week and so at the last minute we had to take our stuff down town to have it set. The commercial printers were so busy they had no time to set all of our material. Our sporting page was filled with a story that had already been used in the local daily. On the rest of our issue we suffered from a deficiency of content.

Last week, El Mustang, didn't appear until Thursday. This was due, in part, to the aforementioned printing set up and, in part, to a physics test.

The typographical errors, all twelve of them, are also the result of that shift in getting the paper set. Poor proof reading played its part. We plead: guilty.

We would like to say that we don't feel that "... uninformed band ..." is as bad as an item which appeared in the Olando, Ala., STAR wherein: "A precious little bungle of love arrived at the home of Mr. and Mrs. Gordon Peter ..."

Remember, we said in an earlier issue that the staff would make mistakes; we are, after all, "learning by doing." We still welcome criticism, but please bring your own horsewhip. Ours is a pre-war model and is nearly worn out.

## \$15,000 Student Body Budget Approved by S.A.C.

Student Affairs Council members last week approved budget appropriations to various student body funds on the basis of a percentage breakdown of an estimated \$15,000 income from student body fees for the year 1946-47.

## Big Air Raid; No Damage

Stars fell on (or near) Poly last week. One of the greatest displays of natural fireworks in modern history occurred last Wednesday evening when the gravitational pull of the earth attracted millions of particles from the tail of a passing comet.

The meteor shower had the whole western hemisphere as a spectator. As the meteorites ap-

In 1933, the earth passed the orbit of Comet Giacobini-Zinner at a distance of 600,000 miles 80 days after the comet had passed that point in its orbit. Even so, the most intense meteor shower of the century appeared. In 1946, at 02.30 GMT on October 10th (8:30 p.m. PST, October 9th), according to calculations by Dr. L. E. Cunningham, at the University of California, the earth passed the comet's orbit at 181,000 miles, only eight days after the comet had passed by.

proached the resulting friction caused a spectacular pyrotechnic display that caused scientists and laymen alike to look to the heavens.

Amateur astronomer, Dave Cook, Poly math instructor, stated that the most brilliant fragments he saw left a lasting glow from luminous gases. Most of the rest in the shower were "quickies" that burned out in a very few seconds.

## WHAT'S DOIN'

Thurs.—Students' Wives club meeting, Recreation hall, 8 a.m. (Mrs. Banning. Air Conditioning club meeting, Auditorium, 6:30 p.m. (Sharpe).

Fri.—Alumni Association committee meeting, Reception room, Adm. Bldg. 7:30 p.m. (McGrath). Mon.—CCC Officials Association meeting, room 213, Adm. Bldg. 7:30 p.m. (Meacham).

Tues.—SAC meeting, room 102, Ag. Ed. building, 7 p.m.

The athletic fund received 44 per cent of the total, or approximately \$6,600. These funds are used to buy uniforms, equipment used for competitive athletics, and all expenses incidental to the competitive athletic program. Additional revenue from gate receipts augments this appropriation.

The general fund received 16 per cent, or about \$2400, to be used to finance all student dance expenses, assembly entertainment, entertainment for other schools, state compensation insurance, awards and keys, student manager's salary.

Publications received 15 per cent or a sum of \$2,250. This appropriation covers partial cost of publishing the yearbook and school paper. Each student body member will receive one copy of the 1947 yearbook and a weekly copy of the paper without additional charge. Estimated cost of the 1947 yearbook is \$3,500 and the cost of producing El Mustang for a school year is about \$1,500. Revenue from advertising goes to make up the balance.

The annual Poly Royal show, "only country fair on a college campus," received a 7 per cent appropriation, or about \$1,050 with which to stage next Spring's annual show which attracts visitors from all parts of the state.

The music department received an 8 per cent allotment, or \$1,200, from which the department buys uniforms, and pays all expenses incidental to the appearance of the various musical organizations before the student body and other groups.

The S.A.C. reserve fund and the student manager fund were given equal allotments of 5 per cent, or \$750 each. The reserve fund is to cover unforeseen expenses that might occur in an emergency. This fund has not been touched for three years, according to the student manager. The manager's fund is used to pay the small monthly salary of the student manager whose duties are to handle all business transactions of the student body.

At the same meeting the S.A.C. approved the borrowing of \$9,000 to cover student body expenses until payment of O. I. sponsored student body memberships is forthcoming.

President Leon Garolan appointed a committee composed of Leo Rogers, Blick Wells, M. M. Bell and William Troutner to revise the student body constitution.

A motion was passed that no refunds be made on student body cards later than two weeks after the student first enrolled, except in the case of students transferring to the Voorhis unit. In the latter case, a refund will be made on the student body card on the basis of quarters not used. Refunds on student cards made during the first two weeks will be charged a \$2.00 service fee.

S.A.C. approved the following appointments: John Patterson, El Mustang editor; John Shea, El Rodeo editor; Harvey Kramer, Mustang Roundup; Cy Hovig, publications business manager; Glenn Arthur, publications representative to S.A.C. Leon McAdams, and Paul Bowman, were appointed as industrial and agricultural representatives to the publications board.

## REPORTERS

John Colombini, Lawrence Rossi, Roland Sears, David Escamillo, Robert H. Raymond, Roy Garcia, C. J. Taffera, Ted Laine, H. E. Pam-broke, Elridge Cornell, Melvin Pugh, and John Taylor.

## DEAR JOHN...

Columns of El Mustang remain open to all Poly students who wish to give printed expression to their views. All letters received must be signed with the student's correct name, although the name will not be published if the student so desires.

Dear John:

Poly rosters will not use the main stands at all home football games! How about it fellows—are we going to let the local Mustang Boosters' club monopolize the best seats on the field? I should say not—but what can a student body card holder say in the matter? Absolutely nothing. We sit on the east side of the field and like it.

Think about it men, we are the real "Mustang Boosters" and we paid for the right to use our stands as we see fit—no left-overs for us, O. K.?

And another thing—a worthy administration is worthy only when the football team has good transportation. Five buses to San Diego! Fourteen hours on the road! San Jose State and Fresno State fly to their out-of-town games.

Ed. Note: Obviously Mr. Shea does not know the facts in the case or he wouldn't make such silly statements. A student body card, costing \$15, is divided among many activities, with athletics getting only 44 per cent. A student body card will admit a student to all home contests, including basketball, track, boxing, etc., not just football. At that rate the student body card holder is paying about 25 cents per game, while visitors are paying \$1.50 for the privilege of sitting in the grandstand. Mustang Booster club members contribute \$50 toward the success of athletics and in addition they pay the regular admission charge. Their membership gives them nothing except a reserved seat. Perhaps the bleachers aren't comfortable, but no one can say that in our small stadium that the view from the bleacher seats is less advantageous than that from the grandstand. As for our teams flying to games, I agree that it is an excellent idea. But it takes money, and if we eliminate visitors at \$1.50 per seat at home games we will be further from the realization of that comfortable mode of transportation than we are now.

DEAR JOHN .....

Dear John:

The frosh have done it again! If anyone is "on the ball" around here, it is the freshman class. Those upper classmen who have moaned and groaned that what Poly needed was some new spirit, can lean back and relax. That new spirit has arrived.

A person would think the upper classmen, having been here the longest, would be the first to organize their classes and get things rolling. This, however, is not the case. School spirit appears to be highest among the first year students, and the longer a student stays on the campus, the less spirit he has.

The upper classmen's reply may be, "Look how many frosh there are in comparison to our numbers." The answer to that question is obvious.

Letters received and printed do not necessarily represent the viewpoint of the school, the student body, or the paper. They are the views of the student only. El Mustang reserves the right to edit all letters and to answer them.

It isn't always numbers that count; it's how those numbers are used. If the upper classmen had organized the first of the quarter, they would have caught the frosh class unorganized, with the result that these new students would have been at the "mercy" of the juniors and seniors.

As in the case of a spilled bottle, nothing can be done to remedy the damage, and lamenting won't have much effect except, maybe, to "put a bug" in the upper classmen's ears and get them rolling.

Joe Phistaris

Dear John:

In line with the recent editorial, "Don't Let a Mustang Walk," why not set up a regular hitch-hikers' post on the campus? There is scarcely a minute of the day when some student isn't driving into town, and I'm sure it would be no effort on any driver's part to make it a routine to drive by a station on the way to town.

Some convenient spot in town, say the corner of Santa-Rosa and Monterey, could be agreed upon as the station for the return trip. There should be no need for anyone to have to wait half an hour for a bus, with so many cars on the campus. I almost invariably drive without passengers, and I'm sure the vast majority of other students do also. There is no need for it if any student needs a ride.

William Wolff

Dear Frosh:

Frosh in Catalina barracks shall refrain from making so much noise for the benefit of the upper-classmen; we can't study with so much racket going on.

Signed:  
Upper-classmen

Dear Uppers:

Those who live in glass houses shouldn't throw stones. Due to your knowledge and time spent here last quarter you should know the easier way to study. We Frosh haven't time for racket busting. We must study. Noises are from your end. Just listen, then you'll know.

Signed:  
Frosh

Dear John:

It seems that the waitresses in El Corral, in spite of the griping students, are still anxious to look out for us.

Sugar is hard to get and unless certain fellows start using a little coffee with their sugar, the sugar supply is not going to last very long. Just a little of that sweet stuff is much better than none. It is hard to shovel an inch of sugar out of each used cup.

R. A. Garcia

Dear Editor:

Nothing gets me down more than seeing fellows drop their chewing gum, candy and cigarette wrappers on our beautiful campus. "Maybe just a reminder will help, but if it doesn't, let's have the S.A.C. select some vigilantes to make offenders clean up.

Finky Bailey

## Book Reviews

By AINSLEY WHITMAN

The reporter who collects my copy told me my review this week must be better than last week—or else. At first I thought I had better change from writing book reviews to a Winchell column about the faculty.

On second thought, maybe book reviewing is safer. I figured that I couldn't go wrong if I wrote about football. After all, that is what we are interested in right now. I therefore, picked out a new book called, "Football: Facts and Figures," by Dr. L. H. Baker, with a foreword by Grantland Rice.

Dr. Baker, a medical specialist, became interested in collecting interesting items concerning football, and this book is a result of his hobby. This is a good book to refer to in order to win that bet you may have made in a "bull session" about who was the greatest All-American.

One is able to find almost anything about football within the pages of this book. A few sections of the book are titled: "Greatest Backfields of the Greatest Teams," "The Longest Passes," "Leading Passers and Receivers," and "Outstanding Coaches, Past and Present."

There is a picture section of great coaches, including College of Pacific's "Grand old man of football."

Another section of the book lists the major colleges, giving their locations, nicknames, colors, to what conference they belong, a record of their Bowl Games, their best and worst seasons, their prominent coaches. All-Americans, the longest undefeated cycles, as well as scores of the games with leading opponents.

In my estimation, this book is tops as a record of American football.

(The Librarian gets so interested, or should I say tangled up, in the great books we have in the library, that I have a hard time getting him to take out enough time to write a book review for El Mustang.—That Reporter)

## HARPO'S BIZARRE

### TIME MARCHES ON!

Yes, chum, it does, and that brings me to you again. I know how anxiously you have been waiting to skip—oops—scrutinize my chatter once more.

### MODERN METHODS

Several people have complained that they have had trouble finding my column. So I have devised a sure-fire method of finding this valuable manuscript. Just leave your copy of "El Mustang" on an unguarded desk in a crowded classroom. Then after everyone has grabbed the part they want, that which is left is my column. Simple, isn't it?

### TESTS ARE DIFFERENT

The other day "Doc" Houk put a couple of formulas on the board, and then wrote a combination of the two. "In deriving this," he said, "it's simple, all you do is—" Then he passed with chalk poised in air, "Ah-h-h-h all you have to do is—" Chalk still poised in air—then turning to the class with that "I know it, but I just can't think of it right now look" and then went back to the board, chalk still poised in air.

As "Doc" turned to the board, I sat there saying to myself, "Will he remember? Can he think of the derivation? Come to the next lecture, and in the meantime don't forget to use—what's that, I'm off the subject? There, that just shows you how one can get carried away, but let's get back to "Doc" and the chalk still poised in air.

Slowly the chalk lowered from its poised position and with a dejected shrug of his shoulders "Doc" turned to the class and said, with a tone of resignation, "It's a simple derivation, but it slips my mind

## Ag Engineers Form New Campus Club

Election of Agricultural Engineers club officers was held recently with the following men being elected:

Bill Reddick, president; Richard Caldwell, vice president; Leon Pulliasier, secretary-treasurer; and Robert V. Moore, publicity man.

right now."

It's the same way with me "Doc," when I look at your tests, they are simple, you say so, but the answers slip my mind at the time.

\*NOTE—The next lecture was opened with "Doc" putting the problem on the board.

### GETTING GROOVEY

It doesn't take long to readjust oneself into the routine of school work—I'm getting back into the groove again—and it won't be long before I'm back in the same old rut!

### IS IT POSSIBLE

After the last assembly I asked "Chuck" Pavelko where he got that southern accent, as I didn't remember him wearing it before. "Well, Harpo," he says, "if you drank out of as many Dixie cups as I have, you'd have a southern accent too."

### INTELLIGENCE DEPT.

The other night in "Ye Olde Bulle Session Room" one of the subjects under discussion was studying, and it all boiled down to this: The more you study, the more you know, the more you know, the more you can forget, the more you can forget the less you know, whereas, the less you study the less you know, the less you know, the less you can forget, the less you can forget, the more you know. SO, why study!!

... and when I was asked, "How come you aren't married?" all I had to say was, "I thought I'd rather marry a rifle for a few years, than a battleaxe for life!" I'll go now—

# Mustangs Squeeze Out 7-7 Tie in Oxy Scrap

By TED LAINE.

Lady Luck favored the Poly grid gang with one fleeting glimpse of her pearly smile last Saturday night to allow the Mustangs to come from behind to squeeze through to a 7 to 7 tie with an underdog bunch of Bengals from Occidental college.

Midway in the fourth quarter when the indications were pronouncedly pointing toward defeat for a Mustang eleven that couldn't seem to get its gears to mesh, quarterback Lee Rosa faded to the Oxy 45 yard line, drew back his passing arm and sent a beauty straight to end Bill Hume on the Oxy 15 from where Hume outraced the Oxy defenders across the goal line. On the play the ball went into action from the Oxy 35 yard line where it had been third down and six to go for Poly.

On the all important try for point occurred an unusual situation which was for the most part misunderstood by the capacity crowd. In the first of two attempts Don Dulitz booted the ball through the uprights, however, as the ball was snapped, Poly was guilty of an illegal formation in that the Mustangs had only six men in the line. The halfback, who was supposed to fill in in the line for Dulitz while the big end was kicking, failed to do so. Consequently, Oxy had the alternative of refusing a five-yard penalty and also accepting a successful conversion against them. The Oxy captain made the logical choice, accepted the penalty, whereupon the second conversion try, Dulitz promptly thumped another good kick from seven yards out, tying up the old ball game.

The lighter, but far from awed Bengals had gone into a 7 to 0 lead in the third stanza on a pass play from the Poly four-yard line. Fullback Fleischman chucked to right end Pearson for the tally. Moments earlier Poly had wrested possession of the ball on downs in the shadows of their own goalposts. In attempting to punt from behind the goal line MacDougall got off a poor kick in being rushed by the surging Oxy line. The kick went out of bounds on Poly's 15 yard line. From there Oxy made a first down to the four, and on the third down of the subsequent series of plays made their score. Pearson booted the point.

Statistically the contest was pretty much of a toss-up. However, the Mustangs got in their licks in the first half, mostly in mid-field yardage. Occidental definitely played a superior brand of ball during the second half.

## End-o the Line

By HARRY ENDO

OF THE OXY-POLY GAME: A package marked "unknown" exploded and threw a wrench in the powerful Mustang machine.

The "Line's" linemen of the week is big, charging Marshall Samuels. Opposing tackles and ends find him hard to stop and impossible to hold. Samuels plugged the tackle slot for Randolph Field while in the service, and his experience is paying dividends here. Keep your eyes peeled for number "51."

Individual honors also go to Lou Leitz, multiloquent Mustang rooter who kept the chill from settling completely throughout the game Saturday night.

The Mustang Hoopsters, basketballers to you, have been working twice weekly in two shifts. A night and day schedule was necessary to take care of the large turnout. Coach Bob Mott is expecting two or three name players to bolster his present squad before the casaba season rolls around.

Dauntless Dormitory boasts a free scoring touch football "six" and is looking for a likely foe. If interested, contact Don Wade at Dauntless.

**LINING 'EM UP:** San Francisco State, our next opponent, nosed out the Cal Aggies Saturday, 13-6. Barney Greenberg and John Comack were the big guns for the S.F. Gators. PEPPER-DINE drubbed Redlands with a decisive 20-7, and WHITTIER dropped them to San Diego State, 35-7.

## Down the Lane

Rising over the 500 mark in the percentage column in diagnosing last week's gridiron scene has given Poly Prognosticator Grainbrain additional confidence in his drive to attain an average of three out of four correct calls before the season's demise. Little Oxy's nearly-by-a-whisker shading of our husky Mustangs was Percy's chief source of consternation over the weekend. The tie being, of course, scored as a loss as far as the campus seer is concerned.

In giving the nod to Oregon State over USC, our local yokel feels that he hit his zenith in perspicuity, while riding along with the Gaels of St. Mary's to outscore California is one of those things about which the kid would rather not talk. All told, in wins and losses, Grainbrain came out on the long end of a six to two count.

For the coming week, the slate of games has been increased to a total of 10, though P. V. continues to show predominate preference for sticking with far-western tussles. He could pick teams like Texas, Notre Dame, and Army, week after week as insurance to fatten the average, but our boy would rather make the grade the hard way, or not at all. With the somberness that comes with experience, these are the offerings for next weekend:

UCLA over California  
Oregon over WSC  
Stanford over Santa Clara  
Washington over USC  
San Jose over Idaho  
St. Mary's over Fordham  
Mississippi State over USF  
Fresno State over S. Barbara  
Col. of Pacific over Arizona  
CAL POLY over S. F. State.

## Boxers Are Invited to Form Team

All men interested in turning out for the school boxing team are urged to attend an initial meeting of candidates to be held next Friday afternoon at 4:15 p.m. in Crandall gym. Coach Chuck Pavelko and his assistant, Dave Risling, are interested in getting a response not only from men with previous experience, but also from beginners who are interested in pugilistic competition.

Until the end of football season Risling will be in charge of a conditioning and instructional program. After the moleskins and pighides are put away Pavelko will give full time attention to the boxing program. It is hoped that a series of smokers can be staged at the school gym which at the same time can serve as an elimination tourney. Winners of such elimination bouts, and outstanding contenders, will be in line to earn places in the college team.

With the beginning of winter quarter Cal Poly will be officially a member of the 2C2A conference comprising San Jose, San Diego, and Fresno State Colleges, College of Pacific, and Santa Barbara College. The Mustang ringmen will participate in a conference tournament after the first of the year. A tentative earlier dual-meet might be arranged with Santa Barbara College for mid-December depending on the response and progress shown by the local mitt-men.

## 'Gator Team Rough, Ready

Having sampled of the three ultimate scoring ends that can be attained on the gridiron (a loss, a win, and a tie on successive Saturdays) the Mustangs sally forth again next Saturday to trade bucks and grants with the 'Gators from San Francisco State. Beginning at 8 p.m., the game will be played in Poly Stadium.

In six previous turf tussles with the San Francisco school, Cal Poly has come out on the long end of the score five times with the sixth contest having finished in a scoreless tie. The series began in 1937 with a 33 to 0 victory for the locals and reached a wartime termination in a 51 to 0 gallop by the Mustangs in 1942.

So far this season the 'Gators have a perfect record in two outings against Placer Junior College and the California Aggies of Davis. Both wins were by the identical scores of 18 to 6. Shining light of the Staters' offense is a 200 pound, 9.7 second dash man in the person of Big Jim Keating, who might easily exhibit his heels to the slower Mustangs. Quarterback Charlie Parish directs the T-formation attack of Coach Dick Boyle's squad. In the line the Gators feature a glue-fingered pass receiver in end Amos Adkins. Adkins played on St. Mary's first string last year.

Homer Oliver, Atascadero (UCLA); Frank Holt, San Luis Obispo (DePauw); and Bob Panches, San Luis Obispo (Nebraska) will be serving as officials.

## Students' Wives Club Activities

Students' Wives Club members have had many activities to occupy their time recently. The glee club has met every Monday evening at 7:30 and is still open to interested singers.

Last Wednesday night, the clubroom was the scene of much activity as some of the girls assembled to make pom poms, and others were there to attend the first meeting of the drama section. Parts were distributed by chairwoman Liz Stratton for a skit which will be presented to the rest of the club in the near future. Wednesday nights have been selected as rehearsal time for the group.

Rumor has it that the October social committee had an informal meeting Wednesday night. Their plans were not ready to be disclosed, but there was some mention of hot cider and doughnuts to be served after the Whittier game. These refreshments should prove to be most welcome if the weather turns out to be as cold as it was after the game with Occidental.

Thursday night, the clubroom was again open for those who wished to make pom poms and for

the bridge club. All too few bridge players were present this past week and it is hoped the second Thursday in November will see a larger attendance.

## Young Farmers Enjoy Chickens on Hayride and for Supper

By CHARLES HITCHCOCK

Approximately 24 Young Farmers, plus an equal number of the opposite sex, enjoyed the "very comfortable" hayride and the super-tasting chicken bake which

was given last Friday night.

The hayride, made up of a "Cat" and three wagons, transported the couples up Serrano Canyon, although for some reason these couples didn't know it till they got

there. Where they were going was the least of their interest. After the Farmers and their partners reached Serrano, they were not too far gone to enjoy a sumptuous chicken bake.
