

# Welcome To The 15th Annual Poly Royal

## EL MUSTANG CALIFORNIA STATE POLYTECHNIC

VOL 7, NO. 29

SAN LUIS OBISPO, CALIFORNIA

May 2, 1947

**CAMPUS CUTIES . . .** Queen "Katie" Dupont given a helping hand to the Dairy Production students during her recent visit to the Poly campus. Katie was greeted by the Poly student body upon her arrival at the Southern Pacific station only yesterday. As Queen of the Fifteenth Annual Poly Royal she will be introduced to the student body and Poly Royal visitors this morning at the assembly scheduled for 10 a. m. in the athletic field. Queen Katie also starred on the coast-to-coast radio broadcast which emanated from the Poly athletic field last evening.

### Receptions Held For Poly Royal's Queen "Katie" Dupont

Queen Catherine Dupont arrived in San Luis Obispo yesterday afternoon and was met at the Southern Pacific station by a large proportion of Cal Poly's student body. After a serenade by the college band and introductions, the queen was escorted to the campus in a mile long parade that wound through the streets of San Luis Obispo. Transportation for the queen was provided by a beautiful Chrysler Town and Country sedan, provided for the occasion by David Fair, local Chrysler agent.

Upon arrival at the campus, Queen "Katie" immediately met President McPhee and took part in a broadcast in front of the Administration building.

In the evening, following the "Sons O' Guns" show, her Majesty was guest of honor at a reception held in the Hillcrest Lounge, and sponsored by the Students' Wives club. Katie and her princesses, Jo Ann Martinsen, Carolyn Waite, Louise Kirk and Eva Brebes, received all of their loyal subjects who could attend.

Entertainment at the reception was provided by the Octette from the music department, and the Symphonettes, the Students' Wives own glee club. Sally De Vos and Otho Budd presented solo numbers. The entertainment was divided into two sections, and from all reports, was enjoyed immensely.

Refreshments were provided for all, with Betty Wellers in charge of that committee. The lounge was decorated with spring flowers by Ruth Rennihan, chairman of the decorations committee.

Hostesses for the evening were Pat Grube, president of the Students' Wives club; Marge Grotzka, vice president; Doris Gregowski, chairman of the reception committee; Cecile Heald, Didi Garrett, Betty McLaughlin, Sue Drake, Muriel Cordier, Jo Roney, Olive McElvain, Ethel Kinn, Jane Hall, and Elizabeth Stratton.

### Poly Royal Opens With Assembly

Poly Royal opens officially this morning with the assembly at 10 a. m. on the football field. The opening assembly will be presided over by Leon Garolan, student body president, with Avon Carlson acting as Master of Ceremonies.

President Julian A. McPhee will give the welcoming address and introduce several distinguished guests, including Roy E. Simpson, state director of education. The chairman of the Rally committee, Gil Brown, will then introduce Queen Catherine Dupont and her princesses, Eva Brebes, Louise Kirk, Carolyn Waite, and Jo Ann Martinsen. Milton Brown, general superintendent of the fifteenth annual Poly Royal will also be introduced.

The California Polytechnic band, under the direction of Harold P. Davidson, will present several selections. Don McMillan, Poly alumnus '18, and columnist for the Telegram Tribune, will address the assembly.

An intra-squad football game will be held immediately following McMillan's address.

### New Athletic Field to Be Dedicated Today

Cal Poly's new \$40,000 athletic field will be officially dedicated today at 1:30 p. m. with President Julian A. McPhee and Superintendent of Public Instruction Walter Simpson officiating.

The short dedication ceremony will spotlight Dr. Simpson and President McPhee, who is scheduled to throw the first ball to start the baseball game between the Poly Mustangs and Pepperdine college.

### Coast-to-Coast Radio Show "Kicks off" 15th Poly Royal

Radio listeners from coast-to-coast are aware that today is the first day of the Fifteenth Annual Poly Royal, thanks to last night's one-half hour nation-wide broadcast of the Army's "Sons O' Guns" program over the Mutual Broadcasting system. Nearly two thousand students from Cal Poly

and local residents crowded the grandstand and temporary bleachers on the Cal Poly field, some as early as an hour before the 8 p. m. curtain time, to hear and see the Sixth Army's musical show featuring Cal Poly's glee club, Julian A. McPhee, Leon Garolan, student prexy; Milton Brown, Poly Royal Superintendent, and many others.

The entire program, of which only one-half hour was broadcast over the net-work, was produced and directed by M-Sgt. Rulon Johnson, professional radio showman now doing his bit for Uncle Sam's recruiting program. Assisting him with the script had been Staff Sgt. Eugene R. Simpson.

**ROY E. SIMPSON . . .** Superintendent of Public Instruction, Sacramento, will be on campus during Poly Royal to observe Cal Poly instructional program. He will visit the many departmental exhibits and displays and will also join the throng which will enjoy the rodeo and barbecue.

The entire 25 piece Hamilton Field concert band, under direction of Warrant Officer Salin, with soloists Pfc. Caesar Cursi and WAC Pfc. Shirley Cowart, provided the musical talent for the show. Narrator was Cpl. Dave Faust, who brought in the background information about Poly Royal and Cal Poly through his excellent dialogue and interviews with Poly Royal participants.

Arrangements for the coast-to-coast broadcast were made by Cal Poly's Public Relations Director Robert E. Kennedy, with the assistance of Sgt. Pier, San Luis Obispo recruiting sergeant; Lee Hacker, manager of KVEC; Louis Allan Weiss, Mutual executive of Los Angeles; Richard Hende, Sixth Army public relations director and M-Sgt. Rulon Johnson.

The program opened with a brass section fanfare from the Hamilton Field band, followed by the Glee Club singing, "All Hall, Green and Gold." Immediately following the announcer's opening remarks setting the scene of the broadcast, President Julian A. McPhee was introduced.

President McPhee welcomed the Army show and the visitors to the opening of Poly Royal and made use of the opportunity to tell the coast-to-coast audience some of the reasons why Cal Poly is a leader in the field of vocational education.

From that point on, Narrator Faust led the audience and the local Cal Poly "radio artists" a merry chase with a good change of pace between talk and well-played selections by the Hamilton Field band.

Just before "curtain" time, the Poly Royal Queen, Miss Katie Dupont, and the 1946 Queen, Miss Pat Munchoff were whisked on to the field in a beautiful Town & Country convertible. The two "queens" were given thunderous applause as they took their places on the platform. Both girls turned in fine performances during the show, for which San Diego State and San Jose State should be proud.

The entire cast of the radio show, including the Poly Royal performers, received a tremendous ovation from the crowd at the completion of the program.

### Program of Events

#### Friday, May 2

- 10:00 A.M.—Opening Assembly, Athletic Field—Welcome and Introduction of Guests—Julian A. McPhee Introduction of Queen and Princesses "Shades of the Past"—Don McMillan Football Game—North vs. South (inter-squad game). Howie O'Daniels, Coach
- 12 Noon—Lunch
- 1:30 P.M.—Dedication of New Athletic Field—Julian A. McPhee
- 2:00 P.M.—Baseball Game—Cal Poly vs. Pepperdine College
- ALL DAY—Departments of College Open for Inspection
- ALL DAY—Judging of Eggs and Poultry
- 7:00 P.M.—Industrial Departments Open to the Public
- 7:30 P.M.—Swimming Exhibition, Natatorium
- 9:00 P.M.—Poly Royal Fun Frolic, U. S. O. Building (prizes for couples: best rodeo costume, best cowboy costume, best farmer and farmerette)

#### Saturday, May 3

- 8:00 A.M.—Beginning of Livestock Judging, Main Arena
- 8:00 A.M.—Beginning of Dairy Judging, Dairy Unit
- 9:00 A.M.—Department Exhibits Open to the Public (conducted tours every half-hour)
- 10:00 A.M.—Contests Open to the Public—Adult Organization Livestock Judging Contest, Main Arena, Sponsored by Collegiate Chapter of F.F.A. Sack Sewing Contest, Main Arena, Sponsored by the Crops Club Plant Identification Contest, Propagation Unit, Sponsored by Horticulture Club Floral Arrangement Contest, Classroom 9, Sponsored by Horticulture Club Other Contests Sponsored by Various Groups
- 11:00 A.M.—Barbecue (serving will continue from 11 to 1:30) in the Poly Grove
- 12 Noon—Band Concert and Glee Club, Poly Grove
- 2:00 P.M.—Poly Royal Rodeo
- 9:00 P.M.—Poly Royal Coronation Ball, College Gymnasium, (music by Collegians)
- 10:00 P.M.—Coronation of Miss Poly Royal

### Fun Frolic Stars Collegians Tonight

By William Nolan

The Poly Royal Fun Frolic, sponsored by the Rally Committee and featuring music by the Collegians, will be held tonight at the USO between the hours of 9 and 12 p. m. Prizes are to be awarded to those couples sporting the best Rodeo, Cowboy, and Farmer costumes. Each person present will then receive a consolation prize from the winning couples.

The participants will be judged by Alumnus Don McMillan, Aram Rejebian, managing director of the San Luis Obispo Fiesta de las Flores, and Eugene Egan, dean of student welfare at Cal Poly.

The price of admission will be 75 cents per couple for those holding student body cards and \$1.00 without this item.

**PRESIDENT MCPHEE . . .** will officially open Fifteenth Annual Poly Royal at assembly this morning at 10 a. m.

## Local Radio Stations Cover Many "Country Fair" Events

For the benefit of those people who will be unable to attend certain features of the Fifteenth Annual Poly Royal at California Polytechnic College on May 2 and 3, Mutual stations, KVEC and KPRL (Paso Robles) will broadcast ten of the special events in the two-day show, it was announced

today by Les Hacker, manager of Station KVEC, and owner of KPRL.

Winding up a "pre-Poly Royal series" of 20 programs given from the campus to advertise the college's "country fair on a college campus," KVEC and KPRL broadcast the reception of Queen Katie Dupont, from San Diego State, after she was brought from the depot to the front of the administration building.

Opening assembly of the two-day show, which begins at 10 a. m. from the athletic field, will be broadcast from 10:15 to 11 a. m. Speakers will include President Julian A. McPhee, Superintendent of Public Instruction Roy E. Simpson, and Don McMillan. The broadcast also will include a portion of the inter-squad football game between Howie O'Daniels' "North" squad and his "South" gridsters.

The entire dedication of Poly's new \$60,000 athletic field will be broadcast from 1:30 p. m. until 2 p. m. If possible a portion of the Poly vs. Pepperdine baseball game also will be aired.

From 2:30 to 4 p. m. the stations will air a number of 15 minute special shows featuring the exhibits and demonstrations of the Poultry department and the Industrial departments.

Starting on Saturday there will be broadcasts from 10:15 until noon, featuring the adult livestock judging contests, sack sewing contests and other contests from the Main Arena. Last broadcast of Poly Royal will be the Coronation Ball at the Gymnasium from 10 to 10:30 p. m. Saturday night.

called upon to open up the box containing papers and documents placed in the cornerstone when the old building was razed to make room for the new building.

"In 1902 the campus consisted of 230 acres with not a single building on it," he stated. "The first buildings to be built were a classroom building and men's dorm, both where the present Administration building now stands," Dr. Anderson said.

"The school, then coeducational, offered three year courses starting at the eighth grade in agriculture, mechanics and household arts," he stated. "Twenty-two students and three faculty members made up the personnel for the first year," he added.

**M-SGT. RULON JOHNSON . . .** Director and producer of the "Boas O' Guns" radio show which was broadcast last night coast-to-coast over the Mutual network from the Cal Poly campus.

## First Cal Poly President Marvels At Advancements

California Polytechnic's first president, Dr. Leroy Anderson, now 80 years of age, and his wife, left San Luis Obispo Tuesday to return to their home in San Jose after spending several days visiting the local college.

Dr. Anderson, who served as Cal Poly's first president, from 1902 until 1908, made an extensive tour of the campus starting last Friday and ending Monday. He visited with President Julian A. McPhee and other staff members and expressed pleasure at the great progress made by the college since his last visit here five years ago.

The occasion of his last visit to Cal Poly in 1942 was to officiate at the "cornerstone unlaying" ceremony of the old Administration building. Dr. Anderson had been present at the laying of the cornerstone of the original administration building in 1908, and was

**LOCAL TALENT . . .** Four San Luis Obispo high school and junior college coeds, Eva Brebes, Louise Kirk, Jo Ann Martinson, and Carolyn Waite, left to right, will fill the role of Princesses at this year's Poly Royal.

## Thrills, Spills At Big Rodeo

The annual Poly Royal rodeo to be held tomorrow afternoon at the main arena near the sheep barn promises to be one of the highlights of this year's Poly Royal. Red Mason, chairman of the rodeo committee, has completed all plans for the four rodeo events, and several special events. The contest events will include bull riding, calf roping, team roping and tail tying. Poly students will contest in all these regular rodeo events as well as in musical chairs and a boot race. Stock is being furnished by Manuel Cardoso, and will be in good shape to do its part.

During the rodeo performance, Zunchu, the Chilean stallion who heads the band of Thoroughbred mares here at school, will be formally presented to the college by his owner, Walter Wells. The stallion has been on loan to the college for several years. Zunchu has sired many colts that are racing on California tracks now. He has a good racing record which he made on tracks in South America before coming to this country.

Eugene Egan, Dean of Student Welfare, has been rehearsing a group of students and faculty members for several days in the performance of a mounted quadrille. This has been one of the features of past Poly Royals, and will furnish visitors an exhibition of precision horsemanship.

A special treat for all Poly Royal visitors has been arranged in the form of trick riding by Frances Stroud, of Roswell, New Mexico. Miss Stroud is a professional trick rider with experience at various Southwestern rodeos.

Arena direction and operation of the chutes will be taken care of by Poly students who have contested in numerous rodeos, so it should be a smooth running show in every respect.

## Coronation Ball Tomorrow Night

In a regal setting with an elaborate throne and appropriate decorations carrying out the theme of Spring, Miss Poly Royal of 1947, Katie Dupont, will be the center of attraction at the California Polytechnic college's annual Coronation Ball, Saturday night.

Actual coronation of Queen Katie will not take place until 10 p. m., one hour after the Coronation Ball officially opens to the 14-piece Collegians' rhythmic theme of "Sophisticated Swing." The entire half-hour of the ceremony will be broadcast over KVEC and KPRL.

Following the triumphal march, the royal party will mount the throne platform where the actual crowning of the queen will take place. Included in the royal party will be: Queen Kate Dupont, escorted by Milton Brown, Poly Royal superintendent; Queen Patricia Munchoff, escorted by Dwight Wait; the four princesses, Eva Brebes, Jo Ann Martinson, Louise Kirk and Carolyn Waite, escorted respectively by Gil Brown, Gene Pimentel, Art Van Eetten and Dan O'Donnell.

All arrangements for the Coronation Ball are being handled by the Poly Phase club with John Seaton, ball chairman. Assisting Se-

ton are: Paul Ridenour, floor decorations; Max Decker, stage decorations; Erwin Gove, lighting; Keith Southard, reception.

The Glee Club will present several specialty numbers during intermission, singing the popular tunes, "I'll Close My Eyes," and "Guilty" as part of the Coronation ceremony.

From 9 until 12 midnight the student store, El Corral, will be open to provide refreshments for those wanting them.

The dance, which is not open to the public, but only student body members and alumni membership card holders, is strictly formal, according to Chairman Seaton. "Formals for the girls and dark suits or Tuxedos for the men," he added.

Another special feature of the dance will be a "patio" built just outside the entrance to the gymnasium where the dance is to be held. The area is to be fenced off and provided with lawn chairs, swings, tables, etc., according to Keith Southard, chairman of the reception line.

A program dance, no stage, either men or women, will be permitted to attend, said Chairman Seaton.

MARSH AND HIGUERA

COLLEGIANS . . . Cal Poly's "sophisticated swingers." This group will play both at the Poly Royal Fun Frolic this evening at the downtown USO and at the Coronation Ball to be held in the Poly gym tomorrow evening.

## Industrial Division Plans Tours of Dept. Exhibits

Tours led by guides who know the details of each exhibit, will be conducted throughout the Industrial Division according to Vernon Luce, head of industrial exhibits. These tours will leave the Power plant every half hour this evening from 7 until 9 and tomorrow morning from 9 until 12 and will include stops at each of the displays from all the industrial exhibits. Luce stated that the guides on these tours would be able to answer in detail most of the questions visitors may ask. Visitors will be able to better see and understand the work of the industrial majors if they accompany one of these tours according to Luce.

Some of the highlights demonstrated on these tours will include the exhibits of the Mechanical Engineering department, the Architectural department and the Aero department.

Visitors will see both diesel and steam engines in operation and hear brief lectures covering these engines in power plant operation at the Mechanical Engineering exhibit. Also on display will be enlarged diagrams of power units and actual engine parts and testing equipment.

When the tours reach the Architectural exhibit the visitors will view presentation drawings of homes, and blueprints of homes designed by students. The blueprint machine will be in operation and scale models of homes will be on exhibition.

The Aero department exhibit is divided into three parts. Visitors will view the construction shop with a Stinson and three Taylor Cubs undergoing a complete overhaul. In the engine shop both radial and in-line aircraft engines are undergoing complete overhauls. Also displayed will be the overhaul of engine accessories. At the drafting department, the visitors will view aircraft drawings, including finished blueprints. Perhaps the main attraction will be the display of a turbine-jet engine in operation. A miniature jet engine is also scheduled to be in operation during the tours.

Other stops on the tour will include the Electrical Engineering exhibit which features the power end of electricity, and the Air Conditioning and General Engineering departmental exhibits. The Electronics department, not included in the tour, has no exhibit. That department is handling all of the public address systems for Poly Royal.

## Day Nursing To Care For Kiddies Tomorrow

A day nursery, for the guests who brought small children to Poly Royal, will be available tomorrow from 10 a.m. until 4 p.m. The nursery is under the sponsorship of the Ladies Faculty club, with Mrs. F. F. Whiting in charge of the committee. She announced that a registered nurse will be on duty throughout the day.

The nursery is located in the Hillcrest building, and mothers with small children are invited to make use of the facilities available.

## Architects Plan Apartment Unit As Work Project

By Robert W. Saunders

On display in room C of the Engineering building is a presentation of the work projects carried on in the Architectural department at Cal Poly.

The architectural students are at present working on an apartment unit which is typical of the project work done by this department. In this project the students have taken a site located on the campus, surveyed it, and are designing an apartment unit to the specifications provided by the department head.

The Architectural department was officially organized last fall with G. E. Ellis as acting head until such time as the college is able to obtain an architect. Ellis, who is a graduate of Santa Barbara State College, and who was for two years with Jewett Brothers (contractors in Orange county), is offering a well rounded course in the fundamentals of architecture.

Dinner guest: "Will you please pass the nuts, professor?"

Professor (absent-mindedly): "Yes, I suppose so, but most of them deserve flunking."

## Music Dept. Has Active Month

Cal Poly's music department has been so busy during the past month that the boys are seeing notes in their sleep, according to H. P. Davidson, director. The annual tour, which began Easter Sunday, started the extensive activity. The Glee club and the Collegians presented twenty-three programs during the week. After returning from the tour, the crew had a rest with only practice and normal engagements to keep them busy until the Home Concert, which was presented April 24.

There the Glee Club and the Collegians presented a program that will long be remembered in San Luis Obispo, according to all who heard the show. The house was a sell out with over 1200 people attending and many more desiring seats. Both the vocal and instrumental groups produced excellent music which showed long hours of work in preparation.

After the concert the musicians had a "lay-off". They appeared at a number of functions in town and on the campus, but it wasn't until last Tuesday that they started to put in more overtime.

Tuesday's half hour evening radio concert was the starting point of musical activities for Poly Royal. Thursday afternoon, the band met Queen "Katie" at the station, and that evening several of the groups were on the radio show "Sons O' Guns." One of the groups then put on a performance at the Queen's reception at Hillcrest.

Today the band will play at the opening assembly and at the dedication of the athletic field. Tonight the Collegians, Poly's 14-piece orchestra, will play at the Fun Frolic. Tomorrow the band presents its annual Poly Royal Concert at Poly Grove during the barbecue, and tomorrow evening the Collegians will climax their season by furnishing "sophisticated swing" for the Coronation Ball.

## Ag. Engineers Exhibit New Farm Machine

By Gene Jones

East of the administration building near the agricultural mechanics shop the Ag. Engineers are holding an exhibit Friday and Saturday. The main features of the exhibit are the post-war advancements in agricultural machinery. Some six farm equipment companies will have their latest machinery there. Due to the current shortage of farm machinery, equipment, the exhibit is limited to such machinery as could be spared from use during the current season.

## Two Stands Will Serve Coney Island Red Hots

In addition to directing the Arrangements Division, the Poly Young Farmers are operating two hot dog concessions on the campus during Poly Royal.

These concessions are operated for the purpose of satisfying the hunger or thirst a visitor might feel between meals or when hurrying from one activity to another and not wishing to take too much time out.

One of the hot dog stands is located on the southwest corner of the agriculture mechanics shop and is under the supervision of Bob Kimball. The other stand is situated near the rodeo grounds and is under the direction of Dave Couchman.

chestra, will play at the Fun Frolic. Tomorrow the band presents its annual Poly Royal Concert at Poly Grove during the barbecue, and tomorrow evening the Collegians will climax their season by furnishing "sophisticated swing" for the Coronation Ball.

Events at this year's Poly Royal to be sponsored by the Animal Husbandry department include the livestock show, the barbecue and the rodeo. Responsibility for these events was assumed by Boots and Spurs, an organization of students majoring in animal husbandry. Ade Harders is general supervisor for the livestock show, and will be assisted by William Verdugo, in charge of the beef show, Don Bowers, in charge of the swine show and "Snuffy" Smith, in charge of the sheep show.

The livestock show will include breeding animals from Poly herds not exhibited in open competition, as well as project animals owned and fitted by students. The exhibitors will be judged on their showmanship, and winners will receive awards. Many of the project animals to be shown will appear at some of the large shows next fall. Preliminary judging of hogs will take place at the swine unit this afternoon, and all beef, sheep and final hog classes will be shown in the rodeo arena starting at 8 a.m. tomorrow.

Ten steers which have been on feed at the Poly beef unit will be barbecued and served to Poly Royal visitors in Poly Grove tomorrow from 11 to 1:30. Tickets to the barbecue will be sold at \$1.00 each, and will entitle their owners to plenty of beef as well as "frijoles", potato salad and all the trimmings. Boots and Spurs members, with Dick Williams as chairman, have volunteered to cook and serve the steers which they have raised.

Red Mason, a Poly student who has contested at many rodeos, will be in charge of the rodeo which is to begin at 8 tomorrow. The rodeo will feature regular rodeo events and special contests and exhibitions. Poly students will compete in bull riding, calf roping, tail tying and team roping. Other contests will include an event for stock horses and a game of musical chairs. A quadrille performed on horseback will be presented during the rodeo.

## Whites vs. Golds Today in Intrasquad Football Clash

The spring football session will be wound up today with an inter-squad game. The game will start at 10:45 and will consist of two regulation 15-minute quarters. The two squads have been fairly well balanced, with the advantage lying in the backfield for the Gold team and the difference being made up in the line of the Whites.

Viewing both squads from an overall picture, each team should have its share of power. The Gold team seems to be a little better rated than the Whites due to the strong backfield they will field. 'Jarrin' Jim Yates, who will captain the Gold squad, will start at fullback, Jerry Carter will handle the ball at quarterback and these two will be in turn supported by Culver and Bob Woods, two hard running halves. Moving up into the Gold line, Dutcher and Winslow will be the ends, Houk and Bethel at the tackles, Hutchings and Garver at the guards and John Fitzgerald at center. The Whites, who will be led by Joe Griffin, will come up with a hard going line and a backfield that will bear watching. In the backfield, Dupuis will start off at quarter, Jesperson and Hunt at the halves and Nigg will probably start at fullback. In the Whites line there are six lettermen from previous Poly teams who are backed up by several other good ball players. The Whites will have to use everything to stop such men as Carter, Culver and Yates, but according to last reports they seem to think that it can be done. Out on the Whites flanks will be Hume and Bolton, at the tackles will be Van Heravald and Clark or Copeland and at the guards Griffin and Kallanborn will hold forth. The center position will be filled by Anderson or Groca.

### First Wrestling Teams Good In Competition

With Cal Poly's entrance into the California Collegiate Athletic Association, the college came up with the first inter-collegiate wrestling team in the school's history. The Mustangs, under the guidance of Chuck Pavelko, did the Green and Gold justice in their first season. The squad was made up of seven men, of whom three had experience. These were George Clark, heavyweight; Fred Adams, 175 pounds; and Al Weimers, 191 pounds. All but Weimers will return next year.

The wrestling team entered three meets this year, two AAU meets and the annual SC2A Winter Carnival. In these meets the team won one first place and two seconds, a creditable showing against tough competition.

HOWIE O'DANIELS  
Poly head football coach

MARSHALL SAMUELS... one of the best tackles to wear the Green and Gold was voted the Most Valuable Football player on the Mustang grid squad by his team mates after last year's successful season.

A student wife was doing 70 and the two cops were right behind when she pulled into a service station and made a dive for the comfort room. Some minutes later she triumphantly emerged and smiled at the impatient officers.

"I'll bet you boys thought I wouldn't make it."

## Bulldog Golfers Trim Mustangs

Cal Poly's golf team was selected last week from a number of scores turned in by different student golfers. The newly organized golf team, which consisted of 4 players, journeyed up to Fresno to take on the Bulldogg foursome. Fresno came out on top taking the match 12½ to 3½.

According to information received the Mustang golfers took one match by default and Joe Hoff picked up a one-half point.

The golfers making the trip were Jim Emmons, Darwin Gabby, Joe Hoff, and Bob Rusk. Emmons was low man on the Poly squad shooting an 81. Following Emmons were Gabby, 86; Hoff, 90; and Rusk, 96. Plans for future matches are pending and notices will be posted in the near future. Any golfer who wishes to enter the competition should report in at the athletic office.

## Boxers Look to Coming Season

Having completed a successful boxing season with one championship in the 125 lb. class, a second in the 155 lb. class, and a second in the 175 lb. class in the SC2A Winter Carnival, Cal Poly is looking forward to next year.

As set up at the present time we will have home and home meets with U.C.L.A., San Jose, Santa Barbara, and San Diego State College next winter. This is going to be a tough schedule with Cal Poly meeting the best on the coast from these schools. Some of the fighters who will be boxing for Poly next season will be Art Gugliemelli, SC2A 125 lb. class champion, Russ Barr, 155 lb., who lost only one fight in the bygone season. Other coming boxers are Jim Lawson, Les Rising and Bill Quimby. Besides the aforementioned we have three more fellows who know how to use the leather: Gene Pimentel, Kelly Bloom, and Bill Baker.

A man who will be sorely missed from the squad will be Dave Rising, student coach. Dave is graduating in June, and from what Chuck Pavelko, boxing instructor, says, Dave will be hard to replace.

## Groundwork Layed For SC2A Competition

The Mustang courtmen started the year with a turnout of about 25 players. The team was organized and coached by Eugene Smith, former Davis Cup player and Political Science instructor here at Poly. Smith realized the fact that in entering the tennis field here at Poly the going would be hard for all concerned. The schedule was arranged accordingly, matching the toughest teams he could schedule for the Polymen. At present time with such players as Marshall, Miller, Redden, Seaton, Rose, Pohns, Grube, Ebatt, Curtiss, Brunner and the Chaffee brothers, these Mustangs are picking up form, power and experience under Smith's watchful eyes. Next year Smith will put out a squad that will be well balanced in all departments besides having plenty of court time behind them.

## Mustangs Meet Waves In First "Home" Contest

By Art Van Etten

The George Pepperdine College baseball team will invade Poly's campus Friday afternoon to help dedicate the new athletic field. There will be a single game played at two o'clock, and from all reports, the "Waves," a somewhat unknown quantity in these parts, will field a "hot" ball team.

DON CRAWFORD... the dean of the Mustang pitching staff. Crawford at the present time has to his credit four wins and one loss.

## Here Is Mustangs' Coaching Staff

By Roy Bethel

Carl D. Veltmer—Director of Athletics, Dr. Veltmer was added to the staff last September with the duty of director of athletics. Besides the work accompanying this title he is the track coach. He is a graduate of the University of Iowa, 1927. He received his masters degree there in 1931, and his Ph. D. in physical education from Columbia University in 1934. Before coming to Poly he was director of athletics and football coach at Central Missouri State college from 1934-1944. He served as a major in the Army's physical conditioning program.

Howard "Howie" O'Daniels—Head Football Coach. Outside of coaching football Howie has charge of swimming and gymnastics. He has been on Poly's coaching staff since 1933, except for three years when he was an officer in the naval physical training program. He graduated from Santa Clara University in 1931 where he is considered as one of their all-time great tackles. Before coming to Poly he was coach at Mission High School here in San Luis Obispo.

Charles "Chuck" Pavelko—Assistant Football Coach. While being the backfield coach in football, he is also the coach for both boxing and wrestling and instructor in P. E. classes. Chuck graduated from Whittier college in 1941, and was a backfield star at Santa Clara and played in their 1937 Sugar Bowl game. In 1938-39-40 he played professional football with the Bulldogs and the Bears. Coming to Poly in 1941, he left in '42 to serve as an officer in the naval aviation physical training program, and returned to the campus last spring.

Robert "Bob" Mott—Basketball and Baseball Coach. In addition to these positions Bob has charge of golf and is an instructor in P. E. classes. A graduate of the University of Akron in 1938, he was high school coach for four years before being commissioned in the naval aviation physical training program. After his discharge he did graduate work at the University of Southern California and came to

Last year, Coach John Scolinos led virtually this same team to the championship of the Southwest College Conference. Competing in a league with Whittier, Loyola, Cal Tech, Occidental, and Redlands, the "Waves" won all but one of its ten league contests. This year, Pepperdine has not competed in any league, but rather, has played such teams as the University of California, COP, and many of the better college clubs in the southern half of the state. Statistics are not available on their record to date, but from all appearances, Bob Mott's boys will have to hustle to assure a victory.

With the Poly Royal crowd on hand for this contest, it would be fitting if the Mustangs were to triumph. Mott should be able to rely on some very able hurling from either Don Garman, Don Crawford, or John Williams. The team's hitting, as whole, has been rather spotty to date, but there are some very fine "stickers" on the club. "Pinky" Bebernes, hitting .361 at present, has played shortstop as if he owned the position; Bert Haas, competent first baseman, now batting a lousy .312, has proven to be a very valuable man when the chips are down; Lee Ross is crowding the .300 mark with a .296 average, just four percentage points below the "charmed circle." One of the most consistent hitters on the ball club is pitcher Don Crawford, currently pounding the bats at a .390 clip. Ed. Lasky, regular right fielder, is right there on the list of "hustlers" with a healthy .278. The rest of Mott's boys are not far behind these figures and their averages are improving with each game. A good share of the boys shine in the Run-Batted-In column and have shown some heads-up base running all season. Come on out to the dedication at 1:30, and root for the home team after President McPhee throws out the first ball.

## Splash Artists Find SC2A Meets Tough

Looking back on the record of the Mustang swimmers, little can be said of the scores but much can be said of the effort these boys put into the sport and the handicaps that the team in general had to overcome. The swimming season started early in December with a big turnout and things looked good. As it turned out, the Mustangs were hampered all season for the want of distance swimmers and finally for a coach. Football rolled around in the nick of time to spoil everything. O'Daniels, the swimming coach, is also the head football coach and, with the coming of spring practice, swimming lost priority. With the material we have at Poly for swimming, this condition is expected to be corrected soon.

Making up the Mustang swimming team are 10 men. They are Bob Handafield, Bob Connolly, Bob Frie, Bob Emerson, Byron Erickson, Augie Mottmans, George Sweet, Ray Kemp, Dick Thompson, and Willis Stalford.

Poly in the fall of 1946. Eugene Smith—Political Science instructor. Although Smith is not on the coaching staff, he has taken over the duties of coaching the tennis team. A graduate of the University of California in 1944 where he captained the tennis team in his senior year, Smith has toured the U. S., Canada, and many European countries and to date has taken many titles including 100 trophies. Smith was a major in the U. S. Army intelligence service during the war.

Hank broke all scoring records here at Poly when he scored 266 points during last basketball season.

## Mustang Squad Successful at Football, Win 6 and Lose 2

The Mustangs opened their '46 football season with a loss to the Santa Barbara Gauchos, but that ball game was no indication of what was to come. After recovering from the first game, the boys came back to win six games, tie one and lose one more tussle.

The second game was played at San Diego State, where the Mustangs came through to defeat a favored Antec team, 21 to 13, in spite of a dozen bus breakdowns on the trip.

In the first home game, played October 12, the Oxy Tigers and the boys in green and gold played out a 7 to 7 tie.

The following week an improved squad topped S. F. State 7 to 6. In the third straight home game, the Mustangs defeated Whittier, 13 to 2.

Journeying to San Diego again, the boys from Poly whipped the Naval Training Station 34 to 6. On the next weekend the green and gold invaded Los Angeles and dropped a hot ball game to the Pepperdine Waves, 18 to 28.

The next opponent, El Toro Marine team, couldn't stand the pace, and Poly topped them 26 to 0.

Homecoming game found the Mustangs again victorious, 20 to 7.

## Hoopsters Low Moroski High

Bob Mott's basketball team didn't do so well in 2C2A league competition this year. The hoopsters won only one league game. Outmanned and outreached by other teams all season, all the boys had was scrap. Although defeated by every team in the league, Poly had the reputation of being the fightingest team in the competition.

To back up this reputation, Poly, with the bottom team on the ladder, placed one man on the All-Conference team.

Hank Moroski, in one of Poly's poorest basketball years, broke the college scoring record and gained all conference honors.

Moroski, a stand out player all season won the conference coaches' nods at the San Jose basketball clinic early in the play, and was voted the most valuable player for the clinic.

In spite of the handicaps the team had, they still fought all of the way, and their collective work was responsible in great part for the outstanding work of Moroski.

## Poly Stands 4th in 2C2A

Although the Poly ball team was picked to end up in the cellar by so-called dopsters this season, the team thus far has been far above that position. With a record of 5 won and 9 lost (not including the league games of this week) the Mustangs now stand in fourth place in the league standings. The way the Mottmen have been going this season, they have been, more or less, a hot and cold bunch. In other words, they are capable of knocking anybody over.

They started out by traveling down to Santa Barbara to play the Gauchos. They lost the first game, after Don Garman had chucked good enough ball to win on the narrow margin of a squeeze play in the ninth inning, 8-7. They went on to lose the nightcap by the score of 4-1. It seemed that this wasn't enough, because they came home and blew two to a very tough San Jose bunch the following week 13-0 and 8-4. That didn't look so good in the league standings, so they proceeded to cop their next two double-headers in a row from Fresno and C. O. P., winning 4-3 and 6-2 from Fresno and 3-0 and 3-2 from C. O. P. These two double-headers were hotly contested and were featured by the excellent hurling of Crawford, Williams, and Garman. San Diego, who definitely looks like the team to win the crown, didn't have too much trouble in winning four games from the Mustangs, two down there and a double-header here. The boys from Polyville took a well-earned split in their last series from the Gauchos; winning the first game, when Don Crawford twirled a six-hitter, 7-3 and losing the latter one 7-2. That brings us up-to-date with a record of 5 and 9, with six remaining games to play.

As far as the team goes, their batting average hasn't been too good. Pinky Bebernes, Bert Haas, Don Crawford, and Lee Rosa have been the only hitters so far. Pinky with a mark of .354 leads the team in batting. Along with this he has knocked in the sum total of 16 runs. Of the five victories, Crawford, who has been the most reliable chucker, has won 3, Williams 1 and Garman 1.

## SPORTS ROUNDUP

By JOE GRIFFIN

This is the big day. Poly Royal time is at hand. No classes, no homework, no worries. Entertainment, exhibitions, and activity are the order of the day. To our visitors a hearty welcome. Make the most of your time because this "country fair on a college campus" only occurs in California, and then only once a year.

To the people who have come to visit our campus for the first time and to those of you who are unfamiliar with Cal Poly's efforts along athletic lines and to the student body in general, I would like to give to you a brief sketch of some of our outstanding athletes and the reasons why they are outstanding. In the near future (May 22) student body elections will be held to determine the student body officers for the coming year. It will be at this time that the student body will also vote on the most valuable and outstanding athlete of the past school year. The party chosen, in turn will be the recipient of a beautiful trophy donated by Adams Hats and sponsored by Jack Dempsey. At the present time it is on display in El Corral. Here are a few of the possible candidates.

Going back to football season and to the Mustang's successful grid accomplishments, there were about 44 men out who would be a credit to any coaching staff. Of these, five were outstanding. Bud McDougall, was a hard-going fullback, and captain of the squad. Bud played a rock 'em and sock 'em brand of football and was well liked by all members of the team. Jim Yates, the Mustang's hardest runner, was superb. Jim was the team's sparkplug all season and whenever that extra 5 yards was needed, Jim generally got it. On or off the field you would have to look a long ways to find a man as well liked as Jim was by his team mates. Up in the line we have John Fitzgerald, Bob Bennett, and Marshall Samuels. Fitz was one of the 'Iron Men' of the '46 squad and was outstanding on offense as well as defense; always a hustler. Bennett spent all his time holding down one of the guard positions, and he really knows how to hold it down. He is the coaching staff's ideal of a steady and consistent ball player. Besides playing football, Bennett is one of the catchers on the Mustang nine. Finishing up with football and last but far from least is big Marshall Samuels. Marsh plays a wicked tackle and is rated as one of the best to ever hit Poly. Out of respect to his playing ability, Marsh received the Most Valuable Player award in football last year.

Coming into basketball season, and working under a very definite handicap due to the lack of height, the Mustangs, after winning only one conference game, placed Hank Moroski on the 2C2A All-Conference team. Moroski was voted the most valuable player at the annual 2C2A basketball clinic in January by opposing coaches and players. During the season Hank racked up 266 points for Poly on the court and at the season's end was elected captain of the squad. At the present time Hank is playing baseball with the Mustangs.

The swimming team, while not doing too well in their meets, has one man of definite championship caliber. He is Dick Thompson, a backstroker. In the future, Dick is expected to become one of the best on the coast.

Cal Poly's boxing team comes up with a champion in that field. Art Guglielmelli is the man. Art went down to 2C2A finals and annexed the featherweight crown for the Green and Gold. Come next year, the Mustang boxers will enter the field with a champ and very likely come out with additional laurels.

In the wrestling field there is Fred Adams. Adams is Poly's top grappler and in the season just past he entered into several meets. In the Junior A. A. U., Adams took a first and in the rest of his matches was always near the top.

Cal Poly also holds a gymnastic title by virtue of Gene Wellman. Gene walked off with honors in the rope climbing event at the 2C2A Winter Carnival.

Swinging over into tennis there is Marshall Miller, Greg Ebbatt and Don Seaton. The tennis team as a whole is a hard working bunch and as such deserve the attention and support of the student body.

With baseball not yet over, it would be hard to pick two or three individuals, but up to the present time there are several men who could fill the bill. Pinky Bebernes would be one. Bebernes is the Mustang's shortstop and is an exceptional athlete in any kind of uniform. As a baseball or a football player he stands out particularly but his greatest asset is that of being strictly a team player.

Last but not least is Lee Rosa. While only a freshman here at Poly, Lee has lettered in baseball, basketball, and football.

Think that list over, voters and when the time comes around to vote, pick your man either from this column or from your own choice . . . But Vote.

## WELCOME

Welcome visitors; we're are most happy to have you here on our campus today and tomorrow. Most of you have heard about the unique educational system that is in force at California Polytechnic College. Poly Royal is our open house where you can see for yourselves how this system works. The campus is yours for the next two days; and we sincerely hope that you enjoy yourselves to the utmost.

In addition to the entertainment, which the students of Cal Poly have arranged for your enjoyment, we think that you will all learn something. We have tried to arrange the educational features so that they may be absorbed as painlessly as is possible. From that endeavor, Poly Royals have come to be known as "country fairs on a college campus."

Those of you who have attended previous Poly Royals know what we are trying to do at these shows. You will find many new and interesting features in this, the fifteenth annual Poly Royal. You will also find much that you have seen at our previous shows. Cal Poly is proud of many of the traditional activities, and we promise not to discard the useful or the entertaining features which have made up these expositions since their beginning.

For those of you who have not seen any of our previous activities, may we try, briefly, to show you what Cal Poly is doing and has done in the fields of vocational education.

California State Polytechnic College is this state's school of vocational education in the fields of agriculture and industry. This college, and the students who attend here, believe in the dignity of labor. We firmly believe that education should expand on the idea of "learn by doing." Our graduates are singularly fitted to undertake the tasks for which they have been training. The number of students who have attended institutions of higher learning, and are there-in prepared to tackle the self-same job for which they have been training, are woefully short in this country.

In contrast, our graduates are often referred to as "Bachelors of Science in overalls." We learn, here, how to work with our hands. How to get out and do the jobs which will be expected of us if we are to be successful, if we are to get regular paychecks.

We feel that the present time is particularly important in so training men. The majority of students who are attending colleges today are veterans. These men are older than the pre-war student. They must learn, and learn in a hurry, how to earn a regular paycheck. Many of these veterans are married. Even if they do not already have families, they want them. Veterans want to be able to get on with the proposition of living just as soon as is possible. Vocational education, it seems to us, is the logical answer to their problem. Vocational education is taught here in nineteen major fields of agriculture and industry.

There is, of course, a place for academic study. Much of this type of learning is essential to learning any of our majors. Such courses are taught here. These courses are taught in conjunction with the major subjects, in order that the student will realize just how important the academic side is. This unique type of instruction has come into prominence as "the upside-down system of instruction."

But our job is not, we feel, in the realm covered by the traditional academic majors. Therefore, you will find us with our hands dirty. We learn by doing. And we want to take this opportunity to show you just what we have learned, and how rapidly we are progressing. We also want to show you how the school itself is meeting new problems. What this college is doing in such new fields as electronics. What this college is doing in teaching the newest wrinkles in older fields, such as dairying. Then too, we want to show you that we have fun and that the college is expanding continually.

There is a lot to see at Poly Royal. We hope you make the most of this opportunity. We are proud of our work and progress, and we feel that you should know just how great it is.

Welcome to Poly Royal.

J. M. P.

## DOWN THE MIDDLE

with YOUR PREXY  
LEON GAROIAN

Cal Poly's welcome mat is out to the residents of California. Today and tomorrow we take particular pride in showing you, the parents and guests of the members of our student body, our campus and the work we have done in our departments during the past year. Poly Royal is rightly called, our "Show Window of Progress." Here visitors to California Polytechnic College can see the latest developments in operation. Exhibitors in both the industrial and agricultural divisions will have on display the latest in their lines. We are happy to have you here these two days as our guests.

As is always true with undertakings as large as our Poly Royal, there are many students who work behind the scenes to make the show a success. Many of them will get little public recognition; therefore I would like to acquaint you with some of these men.

John E. Jones, assistant general superintendent of Poly Royal, and events is a senior Crops student here. John is also student body manager. Many hours have been spent by John in making this year's Poly Royal the greatest in history.

Paul Madge, director of publicity has been doing a top notch job in publicizing our "Country Fair on a College Campus." Paul is a junior majoring in Agricultural Inspection.

Others who have done exceptional work in planning for the two-day event are Bill Othart, director of the division of arrangements, Gene Pimentel, director of the division of agricultural inspection, and the division of industries.

Myron Glenn, electrical student has been responsible for the erection of lines over which we have been able to present the radio audience Poly Royal on-the-spot broadcasts. Myron can really take the bugs out of any line! Max Decker has helped Myron with some of the lines, as have several other members of the Electrical department.

Radio stations KVEC in San Luis Obispo, and KPRL in Paso Robles have generously given us radio time to acquaint the residents of San Luis Obispo county with our 15th Annual Poly Royal. Les Harker, manager of the stations, and Bob Wilton and the many other excellent announcers have done a lot to help make Poly Royal a success.

Carl Beck, called the father of Poly Royal, has been advisor to the Country Fair since its beginning in 1933 as an agricultural show put on by the Future Farmers. Without his expert guidance, Poly Royal would not be the success it has been in the past.

There are many other people directly responsible for the foundation of this year's Poly Royal, but space does not permit my naming them. The entire student body has, in one way or another, had its say about our "open house." Since this is an all student show, it is truly a show window of Cal Poly.

In the two days you are here, I hope you will get a fair idea as to what is being done here at California Polytechnic College. Speaking on behalf of the student body, I again express our happiness in having you here as our guests and we hope you will return to the Poly Royals of the future.

### MOBILE UNIT

The Ag. Engineers are having a mobile unit to serve you soft drinks, candy, and potato chips. The mobile unit will be wherever the crowd is. Buy your refreshments from the Agriculture Engineers!

## SWITCH LIST

By Donald Miller

In the year 1849, a young man like himself, to learn by doing. This was the birth of an idea which many years later came to a reality. Angel's vision in the winter of 1849 is today's California State Polytechnic College.

Myron Angel in later years became a prominent resident of San Luis Obispo, and it was through his persistent effort that he persuaded other citizens to help campaign for a polytechnic school. He once told a committee of citizens, "I have planned for a school . . . which will teach the hand as well as the head so that no man . . . attending it need be sent into the world as helpless to earn a living as I was when I landed in San Francisco in 1849."

By 1901, after years of political wrangling, the bill authorizing an appropriation of \$50,000 for the construction of California Polytechnic was passed by the law makers. It was not until early in 1903 that the corner stone was laid for the first major building on the campus. In the same year, the school had its first enrollment of 15 students. By December of 1907, 134 students were attending Poly, and during 1916-17 enrollment increased to 200. Today the present enrollment is 1500 students.

Myron Angel died in June of 1911. His ceaseless work, with the help of his colleagues, created an institution of which today he would be justly proud. To this day, Cal Poly adheres to Angel's doctrine of teaching the hand as well as the mind. This is why we of Poly are proud of our school, for when we graduate we will be equipped to earn a living, and thus become better citizens.

"Yes," shouted young Angel in excitement. "See that roof," growled the man, "well get up there, and start driving nails into those shingles, and I'll pay you eight dollars a day."

Angel looked at the stranger, and in a bewildered voice said, "Sir, I never drove a nail in my life." The man's cold stare fell on Angel, then he shouted, "The hell with you; I want a boy who can drive nails."

Dejectedly young Angel moved on with little prospect of finding a job. His thoughts wandered back to his school days. He had attended one of the best institutions in the east. True, his schooling had equipped him with a vast quantity of book lore, but, when it came to using his hands, he was lost. Discouraged in not being able to earn a living, Angel decided then and there that a school should be established to train young people,

## Dear John . . . .

DEAR JOHN:

I would like to take this opportunity to thank the students and faculty members who have worked hard in the preparation and execution of this 15th Annual Poly Royal. It makes me particularly proud to have visitors from all over the state visit us during this two-day celebration. To put a campus as large as this, with all its many activities, on exhibit to the public requires a great deal of work on the part of nearly the entire student body.

I wish to congratulate Poly

Royal Superintendent Milton Brown and his executive committee for planning and arranging the largest and most successful Poly Royal in history. Congratulations are also due to Carl Beck, faculty advisor of the show, and the many other faculty members who have assisted the students in making this "show window of progress" actually reflect the true California Polytechnic College of 1947.

Sincerely yours,

Julian A. McPhee,  
President

OK. . . . So what if it is Horse Man!!

## Poly Royal Visitors to See Fine Poultry and Egg Show

By Herb Bundensen

This year's Poly Royal is featuring one of the finest Poultry and Egg shows on the West Coast. The Poultry show is located in units Q and R, and this year's addition of meat bird entries is being shown at the Poultry plant.

Leghorns, Cornish and New Hampshire Reds comprise the classes of the Poultry show. All entries are made by the students, on a strictly competitive basis. The birds are judged upon the basis of two thirds utility and one third standard. The meat birds, a comparative newcomer as an entry in Poly's Poultry show are being judged on the Danish system, and the grade of the poorest bird in any entry will determine the grade for the entry.

Herbert Hogsett, manager of the Hogsett Poultry plant at Pomona, Calif., is the judge for the Poultry show. Special prizes are being awarded for the grand champion, two reserve champions, the five champions, the best meat bird display and the best Poultry display in the show.

The Egg show is located inside the Egg house at the Poultry plant. Six classes are comprising the show and prizes are being awarded for the best dozen and the best three dozen. Eggs also are entered by the students from their individual laying projects.

Betty Sullivan, Federal Inspector and assistant manager of the egg department for the Poultrymen's Cooperative Association of Los Angeles, is judging the Egg show.

The Egg house at the plant is also featuring many special exhibits and attractions. Methods of preparing a chicken for the frying pan are being shown, which should be of interest to all housewives here today.

## Sack Sewers Must Work to Qualify

By Carter C. Camp

One of the most interesting of the contests open to the public this year is the sack sewing contest, to be held in the main arena at 10 a.m. tomorrow morning. The sewing contest always draws a big crowd, since the contestants engage in the hard work of carrying full sacks of barley as well as doing a workmanlike job of sewing the sacks.

Anyone may participate in this event except those who are majoring in Crops and Fruit Production.

Harry Wolf, instructor in electronics, will judge the contest again this year. Wolf is past champion of San Luis Obispo county. In charge of this event is Don Dulits. Dulits announced that several worthwhile prizes will be awarded to the top contestants.

## Barbecue Expected to Attract Large Crowd

By Eugene Kemper

One of the main attractions at Poly Royal this year will be the Boots and Spurs sponsored barbecue, which will be held in Poly Grove from 11 a.m. to 1:30 p.m. tomorrow. This barbecue is an annual affair which is a major part of the activities of the "country fair on a college campus."

According to Dick Williams, chairman, ten Cal Poly-raised steers will be barbecued to feed the expected 4000 persons who will dine. The cooking of the juicy steaks with all the trimmings will be under the supervision of "Snooks" Noggles, cafeteria chief, who will be assisted by his staff and 25 of the Boots and Spurs club's members.

During the barbecue, the 40 piece Cal Poly band, under student direction, will play a medley of songs consisting of marches, old time favorites, and popular numbers.

Mother: "What are the Poly student's intentions?"

Daughter: "Well, he's keeping me pretty much in the dark."

CARL BECK . . . Advisor for Poly Royal . . . referred to as "father of Poly Royal." "Gus" Beck loses a little more hair each year worrying about deadline for Poly Royal.

## Y. F. Chapter Has Arrangements Job

By Charles Hitchcock

Undoubtedly, most of the visitors on our campus have seen many signs and have been aided by parking assistants. Also, many of them have, or will probably take, a few tours around our campus. These, and other various services, are under the direction of the Cal Poly Young Farmer Chapter, and are listed under the main heading of Arrangements Division.

A few of the Young Farmer committee chairmen are as follows: Don Halstead, head of clean up committee, Ken Andrus, head of parking and police; Don Custard, in charge of rest room facilities; James Jessup, chapter secretary and head of campus tours; Leon Garolan, hospitality; and Aven Carlson, head of prizes and awards. Other Poly students helping with arrangements are: Cy Hovig, finance and budget head, John Schaub, charge of signs; and Don Seaton, who is head of the music division.

Carl Beck, Young Farmer advisor; Bill Othart, chapter president, and the chapter as a whole, hope that their services have been to the enjoyable advantage of all Poly Royal visitors and have helped to create a desire in all visitors to come again to next year's Poly Royal.

## Grain Plots and Weed Controls Exhibition

The Agronomy department has prepared an exhibition of different grains grown in California. These plots are located just below the main arena and comparisons of numerous varieties of grains may be made under growing conditions.

In addition the Agronomy majors have a display of several types of weed control measures. This display is adjacent to the grain plots. Some of the chemicals and methods used in this display have gained quite a bit of publicity during the last few years. This will be an opportunity to see the effectiveness of these measures compared under field conditions.

## Printing Students Produce "Mustang"

By Robert W. Saunders

The publication you are now reading is the Poly Royal edition of our weekly paper "EL MUSTANG", and is presented as a representation of the work done in our publication and printing departments. This paper, produced by the students of the publications and printing departments, is our contribution to Poly Royal. As the students working in publications will be busy covering the many events of Poly Royal, it will be impossible for them to maintain an open house for inspection by visitors.

At present the publication and printing departments, under the guidance of R. E. Kennedy and A. M. "Bert" Fellows, are going through a reorganizational period in which the departments hope to adopt a new system of instruction in the fields of journalism and printing. This new program is basically the operation of the two departments as a commercial publishing plant to introduce to the students some of the problems they will meet when they go out in the field.

## Dairy Contests Feature Cattle

By Harry Sella, Jr.

The Dairy Production department is holding open house for all visitors today. There will be students present at all times to show visitors around and to answer any questions that may be asked.

This morning at 10 there will be a showmanship contest of Dairy students at the Horse Barn. Shown at the contest will be heifers of all three breeds that are in the Poly Dairy herd. The students will be judged by the ability to prepare the stock for showing, and the ability to show, in competition, in the ring.

The manufacturing department is having an exhibit of manufactured Dairy products at the sheep barn. The main affair of the manufacturing department is selling dairy products. They will have ice cream cones, bars, and ice cream in quart cartons. So if you are hot and tired be sure to visit the manufacturing booth and try some "scientifically made" ice cream.

## Crops Club 'Horn Of Plenty' Show

By John Colombini

The Crops club, which is composed of the fruit, truck crops and agronomy majors, will have on display a "Horn of Plenty" at the sheep barn.

A beekeeping display is also to be sponsored by the Crops club. This exhibit is for the benefit of the fruit majors and those students who have beekeeping as a hobby, as well as for the general public.

The Crops club will have oranges on sale at the sheep barn during Poly Royal. These oranges are picked from the Poly grove, and are the freshest oranges available in San Luis Obispo, according to the Crops students.

## Visitors May Enter Plant Contests Sat.

By Paul Tritenbach

Two contests, plant identification, and floral arrangement, will highlight the Ornamental Horticulture department's contribution to the success of this year's Poly Royal.

The plant identification contest will be held tomorrow at 10 a.m. at the landscaped unit. A suitable prize has been selected for the person best able to identify various trees or shrubs. Three horticulture students have been scheduled to supervise the contest.

A floral arrangement contest, also to start at 10 a.m. tomorrow, will be held in classroom 9. A competent, out-of-town judge will award the prizes for the most skillful arrangements.

## Fruit Production Exhibit Is Varied

By John Colombini

As their part in Poly Royal, Fruit Production students will have several displays and will run a contest.

Dave Rose has worked hard to construct a model home orchard which will be on display at the sheep barn during the regular display time.

The fruit men will also put on a display of different types of grafting and budding. A demonstration of fruit packing also has been arranged.

Since most fruit grown in California goes for canning, the students have arranged a canning contest between the home economics crew of the Grange and the home economics team of the Farm Bureau.

## Adult Judging Contest Tomorrow

A very interesting and instructive event to be held tomorrow at 10 a.m. on the school rodeo grounds will be the Adult Organization Livestock Judging Contest.

An invitation was extended to the farm organizations and granges of San Luis Obispo, Santa Barbara, and Monterey counties to supply judging teams. Expected to participate in this event are 30 such judging teams.

## Cal Poly Featured In May Issue Of Country Gentleman

National attention is directed to the unique features of San Luis Obispo's own California Polytechnic College in the May issue of the "Country Gentleman" magazine now on the newsstands.

The issue devotes a two-page spread to the feature article "Take A Cow To College", written by Frank J. Taylor, Pacific coast staff writer for the "Country Gentleman," and illustrated by Robert E. Kennedy, Cal Poly public relations director.

Using eight photographs, all featuring students doing project work in the various departments of the college, the sub-title of the article tells readers that, "You start at California Poly with a money-making project and earn as you learn. Some people call it 'the Upside-down college.'"

Author Taylor gives President Julian A. McPhee credit for taking over the college at a time "when the state legislature was going to fold it up to save money," and building it from a small (150 students) unknown school into a college with nearly 3000 students and a nation-wide reputation as a pioneer and model in the field of vocational education on a college level.

In addition to this main feature article, the same issue carries a picture of Poly Royal queen, Katie Dupont, accompanied by a "letter to the editor" from Robert E. Kennedy, calling attention to the unusual features of Poly Royal. The editor's note reminds readers to turn to Taylor's story which starts on page 22.

Please observe all safety rules and park in designated places during Poly Royal.

### Movies, Talks at County Centers

Templeton, Shandon, Greston, Estrella, Simmler, Edna, and many other nearby towns were visited during the last few weeks by a representative of the student body who spoke on the educational and enjoyable features of this year's Poly Royal. Len Merritt, head of the speaker's bureau, visited the many nearby locales, taking with him movies of past Poly Royals and other publicity material.

Included in the tour were the various farm centers throughout the county, and also Rotary and Kiwanis clubs. "The enthusiastic response we always received has made it well worth the time and effort," said Merritt. "In fact the cooperation that has been offered leaves one the feeling that the students have willing co-workers in every individual in the county," he concluded. The many people visited were very interested in the success of Poly Royal; especially Poly graduates, as Don McMillan, who resides throughout the county.

Stressed during the tour were the many and varied contests and exhibits in both the agricultural and industrial divisions. Other judging contests, and open house of all departments were also discussed.

### Committee Makes Plans to Ease P.R. Traffic Congestion

The Poly Royal traffic and park-committee, under the guidance of Ken Andrus, chairman, has announced the completion of preparations for the handling of the large numbers of cars expected during Poly Royal. The committee, working directly with Mr. Steiner, security officer, has submitted the following program to be followed during the two-day open house:

1. The main flow of traffic will be along Campus Way, Cuesta ave., Mt. San Luis st., from there to Pepper Lane, to Mt. Bishop road and then to the grounds. No parking will be allowed on these roads.

2. The area bounded by Cuesta ave., Poly Vue Drive, Pepper Lane and Mt. San Luis st. will be closed to traffic by road blocks.

3. There will be no parking on California ave. between Cuesta ave. and Pepper Lane.

4. All students are urged to direct their guests to the three main parking areas, one south of the Aero lab (No. 62 on the map), one in the paved region between Deuel Dorm and President McPhee's residence, (No. 63), and the third adjacent to the Main Arena, which is located west of the Sheep Unit (No. 26 on map).

5. On Saturday all students and their guests are urged to leave their cars parked at the rodeo grounds when going to the barbecue.

"The cooperation of students and faculty in this traffic problem will greatly ease the difficulty Cal Poly visitors will encounter when entering the campus," Andrus stated.

Don't miss the Industrial tours conducted today and tomorrow.
