

Prospective Teachers Meet Mon.

Nurserymen's Convention Meets on Campus Tomorrow

By Paul Tritenbach

The Tri-County chapter of the California Nursery Association will hold its May meeting on the campus tomorrow, Friday, from 2-8 p. m. It will be the first time the nurserymen's group has ever met in San Luis Obispo county.

The state president and the executive secretary of the California Nursery Association are to be honored guests. Hosts for the affair are the faculty and students of the Ornamental Horticulture department.

The schedule of events, prepared by Instructor Howard Brown, the committee chairman in charge of arrangements, is as follows:

2-4 p. m. Tour of the campus, including stops at most of the departments.

4:30 p. m. Business meeting in the Engineering auditorium. A talk to be made by Ray Hildebrand, assistant to the chief of the State Bureau of Nursery Service.

6:30 p. m. Dinner at Cafeteria No. 1.

At the dinner meeting, the nurserymen will be welcomed by President Julian McPhee, after which State President Charles G. Armstrong and Executive Secretary Jack Lincke will give brief talks. The Cal Poly glee club is scheduled to entertain the guests. Selected as speaker of the evening is Eugene Martin, president of the Waller-Franklin Seed company of Guadalupe, who will discuss new developments in the flower seed industry.

Fifty-five members of the association and a number of guests are expected to attend. In addition, all Horticulture students have been invited to attend the meetings.

The Tri-County Nursery association draws its membership from nurserymen of Ventura, Santa Barbara, and San Luis Obispo counties. C. Mavro Warren of Ventura is its president.

Plans and arrangements for the convention were made by Wilbur Howes, department head, and Howard Brown, instructor. Other faculty members assisting in various ways are Paul Dougherty, L. L. Bennion, Carl Beck, George Drumm, Stanton Gray, Bill Troutner, and Ralph Vorhies.

Roy Is Speaker At Student 'Y' Meeting

By G. H. Landry, Jr.

The Student YMCA Group was privileged Tuesday night to hear the Reverend Roy, from the Ballard Presbyterian Church of Santa Ynez Valley, speak on the "Four Pathways of Life" at its dinner meeting held in the Gameda Tea Room. Roy enumerated on the four general types of individuals in the world; described their various life patterns, and came to the conclusion that there is only one true path to follow; that of Faith in a being above oneself, or God.

The dinner was originally planned to be the last meeting of the year, however, it was thought better to have another meeting on Tuesday May 27, at 5:30 p. m. in the J. C. room in order to go over plans for the coming year.

Collegians, Glee Club Wax 8 Sides

The Collegians returned Sunday evening from the southern unit of Poly at San Dimas where they were featured during the Poly Vue celebration.

They participated in a broadcast over radio station KOCS from 5:45 to 6:15 Saturday afternoon and provided music for the Coronation Ball that evening from 8:30 to 12:00.

The octet accompanied the Collegians taking part in the broadcast as well as providing entertainment during intermissions at the dance Saturday night.

The Collegians stopped in Hollywood on the way home Sunday where they cut two records at the Electro-vox Recording Studio. The four tunes recorded are: "(There Is) No Greater Love," "At Sundown," "Southern Fried," and their theme, "Sophisticated Swing."

The Glee Club is having two records pressed at the same place. On these two records will be a group of seven selections. These are: "The Shadow March," "Dreaming Lake," "Were You There?" "Ride High," "Guilty," "Hosodol Pomolol," and "Oklahoma."

Approximately four hundred of these records have been ordered and they will be available to those interested in about a week. Those students who want them may place their orders with Don Seaton or Wayne Misemer within the next week.

WHAT'S DOIN' - -

Thursday, May 22:
All Day—Student Body elections, El Corral.

4 p. m.—Poly Phase club meeting, A. C. Aud.
7 p. m.—Inter Varsity Christ. Fellowship Bible Study, Ag Ed 102.

8 p. m.—Student Wives club meeting, Hillcrest.

Friday, May 23:
Tri-County Nurserymen's Association Meeting on campus.

Monday, May 26:
7:30 p. m.—Teacher Recruitment meeting, Adm. 214.

Tuesday, May 27:
5:30 p. m.—YMCA meeting, J. C. Room, Cafe No. 1.

6:30 p. m.—Poly Engineers meeting, Cl 14.

7 p. m.—Mustang Flying club, Cl 11, 13A.

7 p. m.—Dairy club meeting, A. C. Aud.

7 p. m.—Special Meeting, Los Lecheros, Guest Speaker and Election of Officers.

Wednesday, May 28:
7 p. m.—History Exam Eng. Aud.

Daniels Announces Teacher Trainee Recruitment Rally

With the purpose of interesting Cal Poly students in the career possibilities of high school teaching, the Committee on Teacher Education is staging a teacher training recruitment rally Monday evening, May 26, from 7:30 to 8:30 in Room 214, Administration Building.

Young Farmers Hold Last Dance

By Charles Hitchcock

Poly's last dance of the year, sponsored by the Young Farmers, was acclaimed a success. The Collegians even seemed a little on the extra special side last Friday night. Many stated that their only disappointment in the dance was that it had to end.

One couple seen on the floor quite frequently, Friday night, was Mr. and Mrs. Harold Davidson who were taking advantage of the orchestra's special playing.

Wes Davies was chairman of the dance and his assistants were Jim Daly, Ronald Gates and Don Carothers.

Borden's Executive To Visit Poly Dairy

Mr. G. S. Perham of the Borden's Dairy Delivery Company, San Francisco, California, will visit the Poly campus on May 27. Mr. Perham is in charge of all of Borden's Pacific Coast operations, and is an ardent and loyal supporter of California Polytechnic College.

At Los Lecheros meeting in the Engineering Building auditorium on Tuesday evening, 7:00 p. m., he will present an informal discussion on the dairy industry as it is today, and will answer any questions concerning dairy problems.

All dairy majors are urged to attend, as this meeting will take the place of the regular Thursday meeting. All other members of the student body and friends are cordially invited to attend.

DEADLINE TOMORROW FOR ACTIVITY POINTS

Students who plan to leave Poly at the end of the current quarter are requested to turn in their activity forms by tomorrow noon at the student body office, room 17, Administration Building. There are at least one hundred points under three headings required for an activity key.

SENIORS THESIS NOTICE

Seniors who will be receiving their degree on June 4th, 1947 must clear their approved thesis through Mr. Egan's office so that he will be able to furnish both the Recorder's Office and El Corral with word that the individual student's thesis is complete and approved.

The meeting is designed for Cal Poly men who would like to get the low down on the opportunities and rewards in teaching, and who want the latest information on the Cal Poly teacher education program. In discussing the rally, Dr. Neil M. Daniels, Acting Chairman of the Teacher Education Committee, stated that he wished to stress that the rally is not just for men who have decided to go into teaching, but for those who are either curious to learn what the profession has to offer them, or who have not yet decided on a career.

The rally will be conducted along the lines of a public forum. A group of speakers, forming a panel, will be given five minutes apiece in which to discuss various aspects of the teaching profession and the opportunities in preparing for the profession at Cal Poly. Afterwards, the panel will answer students' questions. Such topics as the following will be taken up:

- The Seriousness of the Nationwide Teacher Shortage
 - What It Takes to be a High School Teacher
 - The Advantages of a Career in Teaching
 - Teaching Vocational Agriculture in California
 - The Cal Poly Physical Education Teacher Training Program
 - The Present and Future Scope of Teacher Education at Cal Poly
 - How to Enter the Cal Poly Teacher Education Program
- Among the speakers scheduled for the evening are Julian A. McPhee, C. O. McCorkle, Carl Voltmer, Paul C. Winner, Eugene A. Egan, Neil M. Daniels, and W. E. Bowls.

All students interested in teaching the following subjects in high school are urgently requested to attend the rally: vocational agriculture, physical education, mathematics, physical science, life science, and social science. Students may prepare for the following California teaching credentials at Cal Poly: the Special Secondary Credential in Vocational Agriculture, Special Secondary Limited Credential in Agriculture, Special Secondary Credential in Physical Education, and the General Secondary Credential. The last named credential permits the holder to teach any subject in a California high school.

With the exception of the Special Limited Credential in Vocational Agriculture and the Special Secondary Credential in Physical Education, the teaching credential programs require a year of post-graduate study at Cal Poly or some other institution.

Partly with the objective of preparing teachers and partly with the objective of expanding the general educational services of the college, Cal Poly is instituting a division of science and humanities in the fall. An outgrowth of the old related subjects department, the new division of science and humanities, along with the old major divisions of agriculture, and industry and engineering will form the foundation of Cal Poly's teacher education program.

Poultry Club Completes Tour

By Herb Bundesen

Members of the Poultry club recently completed an extensive tour, covering some 1050 miles in visiting the outstanding breeding farms and hatcheries of central California.

Among those visited were Nelsons breeding farm at Kingsburg, Reimans turkey breeding farm at Planada, the Grange Co. breeding farm owned by the Turner Bros. at Turlock, Dryden's poultry breeding farm at Modesto, the Howard and Donsing breeding farms at Rio Linda and the Kimber poultry breeding farm at Niles.

The students also observed their own birds at the California Official Egg Laying Contest at Modesto.

The Poultry Producers of central California at Petaluma, warmly welcomed the Poly poultry students and conducted them through their entire plant.

The students also visited the Sales and Bourk hatchery in Petaluma, considered by many to be the largest hatchery in the world. The Pioneer hatchery of Petaluma was also visited, one of the foremost hatcheries in Petaluma.

Many commercial type poultry ranches in the vicinity of Petaluma were also visited. Methods of management, housing and labor utilization were studied. The return home was highlighted by a stop at San Jose's Winchester hatchery, an outstanding small commercial hatchery.

VETS ACCOUNT NOTICE

Students receiving financial aid under Public Law 846 are advised that no charges will be made against their G. I. Bill account for the present quarter after May 25, according to Oscar Lucksinger, El Corral manager.

Any supplies needed must be purchased prior to May 25, he said. Students are also reminded that charges for the typing of a thesis must be billed through the student store before that date, if the G. I. Bill is to pay it.

POLY POSTAL SERVICE

Complete Postal service is again available at Cal Poly. Money Orders, registered and insured mail, etc., may now be sent or delivered directly from the college. This service is available in the south end of the bookstore. Distribution of regular mail will still be handled in the regular Post Office room.

1947 EL RODEO WILL BE AVAILABLE JUNE 2nd

"El Rodeo-1947 will be ready for distribution on Monday, June 2, immediately following the Memorial Day weekend," said Editor John Shea this week. In order to answer the question as to who is entitled to a yearbook and whether he has to pay any extra, the following chart pertaining to student body cards is printed.

Eff. Date Card	Amt. to be Pd.
Sept. thru May	Nothing
Sept. thru Dec.	\$2.75
Dec. thru May	\$2.75
Dec. thru March	\$3.50

Students who enrolled in March must pay the full price of \$4.00 for their yearbook.

Veteran students receive their student body cards free each quarter they are enrolled under the G. I. bill.

Non-veteran students who buy a student body card for any of the quarters listed in the above table, and who check out of school without receiving any discount, are entitled to a book, provided they pay

the extra fee that is required and a twenty-five cents mailing fee.

Any student who plans on checking out of school before the end of the current quarter, should check with the accounting office now, leave a mailing fee and a forwarding address.

The yearbooks will be distributed in room 4 in the administration building between 8 and 5 on Monday through Wednesday, starting on June 2.

Vets Advised to Check Standings

In a letter recently received from the office of Roy E. Simpson, Superintendent of Public Instruction, Sacramento, attention is invited to the fact that many veterans are expending their eligibility at a greatly accelerated rate, particularly "those individuals who are undecided as to their educational objective, or who have had low scholastic records in the past, and those who are desirous of entering a field of highly specialized technical training."

The college administration through its counselling program for both veterans and non-veterans, and the Veterans Administration through its advisement program, is particularly interested in preventing waste of both educational resources and student effort. If, for any reason, a student feels that he lacks sufficient information concerning his own physical, mental, educational or personal status in relation to his present program here at Cal Poly, or his ultimate educational objective, it is suggested that he contact either the Veterans Administration Guidance Center or the Counselling Office in Adm. 115 for information and help.

VETS TO COMPLETE FORMS

Any veteran currently enrolled under Public Law 346 who has not yet completed the required Veterans Administration forms in the Recorder's Office, Room 102, should do so immediately. It is extremely important that these forms be properly filled out if a Public Law 346 veteran wishes to continue receiving his subsistence payments, withdraw from this college, or transfer to another school for the Summer Quarter.

HISTORY EXAM FOR WED.

All students expecting to graduate with a B. S. degree must have made a satisfactory grade on the state American history and government examination. The test will be given May 28, 7 p.m. in the Engineering auditorium.

No student is eligible to take the test unless he has successfully passed college courses in American history and American government. Students wanting to know their grade on this test are advised to leave a self-addressed postal card.

This 'N That . . .

This week we have a variety of items which deserve comment. All week your editor has had people come up and ask him to write an editorial on this or that subject. Well, we will try to please.

Today is election day. We have already stated our views. All we ask today is that YOU get out and vote. ". . . and I do mean YOU!"

If we were to try to thank everyone who had a hand in the work on the new Constitution and By-laws, well, it would be a full column to say the least. However, there is one person who did a great deal towards making this document. "say what it means." Thanks to Miss Marston, of the English department, the proposed Constitution and By-laws are written in good English.

The next item concerns graduation. June 4 is the date on which we officially get rid of our surplus seniors. At that ceremony Dr. Roy Simpson, state director of Public Instruction, will be the principal speaker. All students, not just the Seniors, are invited to attend.

The Seniors on this momentous occasion would like to feel that they have not been forgotten. They need sympathy and encouragement.

We still haven't got room on the Sports page. But congratulations to the "nine old men" of the faculty volleyball team, the undisputed champions of Cal Poly, in volleyball, that is. Wonder how they are doing in softball?

Thanks to O. F. Luckasinger, Mrs. Young, and others, we again have complete postal service at Cal Poly. It's a great convenience and you have our sincere appreciation.

Don't forget to VOTE.

J. M. P.

Roy Simpson to Give Commencement Talk

Roy E. Simpson, state director of education, and state superintendent of public instruction, will be at Cal Poly June 4 to give the commencement address. He was in attendance at Poly Royal to view at first hand Cal Poly's educational system. In a recent letter to President McPhee, he stated, "I am happy to accept this assignment and shall look forward to being with you on this splendid occasion."

McPhee Adds Titchenal To Physical Education Staff

President Julian A. McPhee announced that a fifth member of the physical education staff has been added as a direct result of the recent approval by the State Board of Education of the college's new teacher training program in physical education.

David L. Titchenal, former San Jose State college star athlete and now head coach at Sunnyvale high school, has been assigned to coach frosh football and swimming in addition to handling regular physical education courses, according to Dr. Carl Voltmer, director of physical education. His appointment will become effective September 1.

Titchenal, a letterman in both football and swimming at San Jose State, coached a year at Palo Alto high school before going into the navy physical training program as an officer in April 1942. He played football under both Dud DeGroot and Glen S. "Pop" Warner, and was named "all-conference" quarterback in 1939. He received his A. B. degree in physical education from San Jose in 1939 and later his master's degree at the University of Southern California. He has been coaching at Sunnyvale since September 1946.

He will coach Cal Poly's first frosh football team, and also will coach Poly's swimming teams in competition with other colleges in the California Collegiate Athletic Association. During his three years in the Navy, Titchenal taught swimming and coached swimming teams at four naval aviation training schools.

"CHECK OUT" NOTICE

No "Check out" sheets will be signed by the Librarians until 8 a. m., Monday, June the second. All library books are due by 5 p. m., May 31st.

Hort. Club Holds Barbecue, Announces Election Meeting

A combination barbecue, beach party, and werner roast was held by the Horticulture club last Sunday afternoon at a beach west of Avila. Preparations for the affair were made by Archie Ahrenden, chairman, Chuck Burroughs, Jim Dixon, and Jim Coleman. President Julia McPhee, C. O. McCorkle, Eugene Egan, Wilbur Howes, and Frank Bartlett were among the guests.

An election meeting of the Horticulture club will be held tonight, Thursday, at 7 p. m. in classroom 9, announced Jim Coleman, president. Officers for the next year will be voted on, and following the meeting, the O. H. men will stage a werner roast at Poly Grove.

SPORTS ROUNDUP

By JOE GRIFFIN

The 2C2A Spring Carnival which was held in Fresno May 9-10, between all conference members in various sports didn't turn out to well for Poly on the athletic side of the picture. The college failed to show in any of the events which included track, tennis, swimming, and golf. San Jose State walked off with the track honors and in doing so have proved themselves to have one of the top track teams on the coast. Besides taking the track meet, the Spartans also walked off with the golf matches, making a clean sweep on the links. The College of the Pacific took both the swimming and the tennis matches.

Besides the athletic events, all representatives of the 2C2A met and discussed problems facing the conference in the coming year, and the election of new officers. Tiny Hartman, San Jose State, was elected president, Dr. Carl Voltmer, Cal Poly was elected vice-president, and Charles Mallory was elected secretary.

One of the questions brought up at the meeting was the coming year's Spring and Winter Carnival. The Winter Carnival issue was sidetracked with the exception of the boxing portion which will be held at San Jose State. The site to hold remaining events of that meet will be discussed at a later date.

Cal Poly will be the host to other conference members come next spring when the '48 edition of the Spring Carnival will be held here. The date has not at the present time been set but the meet will probably be held in the early part of May.

The conference had appointed a committee to look into the provisions of the NCAA Purity Code which was adopted last March and the committee recommended its acceptance.

As is known by the majority of the student body, the winner of the conference championship in football goes to the Raisin Bowl on New Year's Day to play another top-ranking team from outside the conference. A decision was made to send the conference champ to the bowl with a guarantee of \$6,000 to be put up by the Fresno Junior Chamber of Commerce. These items were the major points of business discussed.

Ripening with age . . .
They say that the youth of today are deteriorating. Could be. Out of all the elders that run this school, they picked nine old men and these in turn took on all of the student teams in the volley ball tournament. The net result was that these fogies in their last game squeezed by the "Chiselers" from Chase Dorm.

After the game, a few comments were heard and they ran along these lines. "I wish I had a couple of more years of eligibility left, I'd show these young squirts how to play the game." Haw Haw Haw.

New Additions . . .
With the coming of next fall, the Mustangs will field their first freshman football team in the history of the college. A tentative schedule has been arranged with schools in the surrounding territory but as yet nothing is definite.

To handle the added duties around the athletic department, a fifth member has been added to the staff.

David L. Titchenal, whose alma mater is San Jose State, and who is presently head coach at Sunnyvale high school, will be the man to fill the job. Besides taking over the freshman football duties he will also handle the swimming team. For a more complete sketch check the sports page. Past . . . Future.

Looking back over the past year here at Cal Poly and taking into consideration what the college was up against in entering the 2C2A, we didn't do ourselves any harm. In baseball and boxing, we did better than some of the old conference members. Basketball, as far as the score goes, was under par. The basketballers, led by Hank Moroski, did however, earn the respect of all the members and no game turned out to be a push-over. Next year Hank will have a little more support and the boys will do much better. This year they earned the reputation and next will be winning ball games.

Looking into the coming schedule for the fall football season, we can see several rough spots. To be exact, there are 10 of them. Howie O'Daniels and Chuck Pavelko are going to take these games and play them one by one. There is no game they can point to and say "its in the bag." With "Jarrin" Jim Yates, Pinky Bebernes, Marsh Samuels, Bob Bennett, and a few of the other old standbys back to help Jerry Carter, Emil Padigin and a few of the other scat backs along, it should be one of the best seasons the Green and Gold will have. That remains to be seen.

With the above, that winds up Sports Roundup for the year. Just about everybody else is going home, so I might as well also. So long.

Synopsis of O. H. Activity

By Paul Tritenbach

The past year's record of the Ornamental Horticulture department reveals substantial growth and improvement. Progress is evident in every phase of the department.

Wilbur Howes, department head and original instructor, is now aided by Howard Brown, instructor and project supervisor. Courses have been rearranged somewhat to give students a more thorough practical knowledge in preparation for the landscaping, nursery, or florist business.

Student enrollment in the department jumped to 44 in November, 1946, according to President McPhee's recent report to the state legislature. Wide distribution over the state, and representation from other states is notable. Out-of-staters include students from North Dakota, New York, Pennsylvania, and Ohio. In this state Los Angeles county leads with 11 students, and San Luis Obispo county and the San Francisco area also are well represented in the department.

The Horticulture club, composed of O. H. majors, has been an active social group in addition to helping the department in various ways. Jim Coleman, president, enumerated the major activities since September as follows: Fall barbecue, Halloween dance, Winter barbecue, Easter dance, field trip to Los Angeles area, Poly Royal activities and Spring barbecue. A bowling team, organized by Don Conley, and a volley-ball team, formed by Ray Larson, have been successful club teams.

The department's project system administered by Howard Brown, has been large and successful, especially since January. Archie Ahrendes, and three partners, were credited with having the largest project of the year; it consisted of 32,000 gladiolus bulbs.

New facilities at the Landscape unit include two 20 by 40 pre-fab classrooms, a sales booth, and a new lath house, now under construction. These will augment the existing buildings which consist of a propagation house, two glass-houses, a lath house, a cloth house, and a tool building.

The maintenance of all the landscaping on the campus is carried on under the direction of the Horticulture department; despite the difficulty of having only two gardeners and a few part-time student workers.

ALUMNUS HEADS FAIR

Elwood Russell, former dairy major here, has been appointed head of the junior fair department for San Diego county fair at Del Mar June 27-July 8, according to a current release. Elwood, known to colleagues of the 'thirties as "Peach-Fuzz," was graduated from Washington State college, Pullman, and taught vocational agriculture at Garden Grove high school until he entered military service. He served as a commissioned officer in the army during the war.

Inspection major: "Do you people around here, have trouble with insects getting in your corn?"

"We sure do!" said the farmer. "But we jes'-fishes them out an' drinks it anyhow."

O. H. Projects Expand to Peak

Student projects in the Ornamental Horticulture department this season have reached an all-time high in the amount and diversity of material, according to Wilbur Howes, department head.

During the peak period of March and April, facilities at the Landscape unit have been taxed beyond capacity, to the extent of flats being placed on the glasshouse walks. A serious flat shortage which developed, has been relieved by a shipment of 500 flats.

This expansion was due to increased enrollment in the department, along with increased interest in projects by many of the student. Better demand for nursery have also been factors.

The project system of the Horticulture department is administered by Howard Brown, instructor. A contract signed between the student and the college allocates two-thirds of the gross income to the student, and one-third to the college, for overhead.

Seven out of about 45 Horticulture majors have the largest projects this spring. They are Chuck Burroughs, Al Charney, Jim Coleman, Don Conley, Bob Ferguson, Willy Middleton, and Paul Tritenbach, according to the records of Howard Brown.

Plants grown include all types and sizes from seedlings to balled burlapped shrubs. Annual flowers in flats are most common, with shrubs in gallon cans and pot plants comprising the rest of the stock.

The Landscape unit is the sales ground as well as the growing place of the projects. Here stock is sold retail to townspeople and "vet-villagers", and wholesale to nurserymen.

Projects for the future include a new lath house, already begun, and additional glasshouse space, to be built when materials are available.

THE SONG OF THE MOTOR SCOOT RIDER

(Tune: My Merry Oldsmobile)

On my noisy motor scooter
For other guys I don't give a hoot,

Past class rooms I love to ride—
Just to get under the instructor's hide.

I'll fly like dust in the breeze—
I'll make all the noise I please

For I'm just a happy, carefree brute.
On my noisy motor scooter.

Thirty Mechanical Engineering Students Tour Bay Area

By S. E. Thompson

Thirty students of the Mechanical Engineering department, accompanied by Mr. O. N. Rees, engineering instructor, toured Bay Area steam stations and oil refineries last week.

Special interest was evinced at the trip through the new PG&E steam station at Martinez. This station is of the high pressure, high temperature type, steam pressures being 1500 lbs. and steam temperatures from 200 degrees to 900 degrees. Even though this plant is an integral part of the PG&E system, its main purpose is to furnish power and process steam to the nearby refinery.

On Thursday, May 15, the group toured the Mare Island Navy Yard. Most of the group were deeply interested in the design and engineering department where the problems and difficulties of design were explained.

On the following afternoon, the tyro engineers were conducted on an extensive tour through the Shell refinery. Here the processes of oil products, storage and packaging were explained. A point of complete interest was the testing lab where oil products were tested to destruction in order to determine their lubricative qualities.

The last day, Saturday, the engineers visited PG&E's Station

"A" in San Francisco. The tour was extensive, covering both the steam generating and electrical generating facilities of that plant. This station is the largest in San Francisco; in fact, it produces one-half of the power consumed by San Francisco, the balance being furnished by two smaller stations and Hetch Hetchy power. Much practical knowledge was gained by the students as they had an opportunity to observe the relining of a boiler and the retubing of a condenser while there. In addition to the power side of the station, the electrical control of the station and of the whole PG&E system was explained.
