Livestock Entered By Students For Sacramento Fair

Twenty-two animals, owned by eight students, will comprise Cal Poly's entries in the main division of the Swine show at the California State Fair at Sacramento, September 2 through 12. Premiums totaling $96,000 are offered in the swine division, while the junior division—Future Farmers of America and 4-H Clovers—will award more than $30,000 in premium money.

Cal Poly's entries, according to Neil Green, secretary-manager of the 4-H club, are White, three Suffolk; Half-Breed, three Hampshire fat; Plush Hampshire, one fat; and Plush Hampshire, one crossbred.

On the dairy team are: Charles Adams, three Holsteins; Jack Harrison, three Crossbred; Charles Davis, three Crossbred; Peter Leggen, one Little White; and Charles Martin, one Jersey.

Highlight of the show for the students will be the free-weekend-farm animals, personal horse, cattle, and even in the pony class for the sea
dless and under-1000-class.

More than 175 entries will be permitted to enter exhibits of the showing, which will be held in the Great Western Building. A 100-plex movie theatre will be installed, and 1200 glass milk tanks will be used for cooling and feeding.

The showing will be open to students as to how the Poly students are attending. This will be held at the San Luis Obispo department.

Some History

Ed. Note - We were going through some boxes the other day, preparing for the annual ball. Came across this switch list of May 7, 1946.

To be in the best of Miller's old colony. We regret it for the human interest.

In the year 1849, a young man by the name of Myron Angel had trudged the never-ending miles, from Fort Leavenworth, Kansas to San Diego, California on foot. Having been born a bachelor, he boarded a coastal schooner, and spent his last cent in order to get to San Francisco.

Several days later he arrived in San Francisco. The winter weather was cool and rainy, and the fog was so thick that it seemed to be dripping rain. The fog was so thick that it seemed to be dripping rain. The fog was so thick that it seemed to be dripping rain.

Myron Angel in later years described the scene with a wistful look. He was one of the select group of students who had been elected to the Phi Beta Kappa. He was one of the select group of students who had been elected to the Phi Beta Kappa. He was one of the select group of students who had been elected to the Phi Beta Kappa.

High School, Junior College Coaches Show Great Enthusiasm for Workshop

By J. T. Morosky

The following statement was made by a sports reporter who has tried to cover as much of the Cal Poly football Workshop—which began at Cal Poly last Monday—as possible. The 200 high school and junior college coaches attended showed a great deal of enthusiasm and commented favorably on the workshops, the climate, the food, the campus, location, and its facilities.

Informed with the coaches, many laughed and some were interested in trying to outdo their husbands, I'll bet.

The lady discus thrower is somewhat of a joke book.

Did you notice the pretty girls in the audience?

We have never tested this, but we are convinced that the magazine editor who has a reputation of packing the cards.

San Diego State Boosts Capacity of Aztec Bowl

Parked behind the printers is a 3,500-seat facility at the present capacity of Aztec Bowl, San Diego State College's on-campus football stadium, is nearing completion, college officials announced this week. The 356,400 project was begun last week.

The new seats, which includes the adding of 18 rows to each of the 19 sections on the west side of the bowl, will increase the total seating capacity at the 35,000-seatAztec Bowl-to 37,873, according to graduate manager, Samuel Carnall.

Thus the bowl this season will have 35,418 seats on the west side, the general public side, and 2,875 seats on the east side, or stadium side. Another 200 seats can be added to the east side by use of temporary bleachers.

Of the seats on the west side, nearly 5,000 will be reserved, which will be a part of the crowd that will be removed for the Cal-USC game. The remaining seats have not been assigned.

At a later date, these seats will be offered for sale in a season seat plan.

J. M. Harlan, resident state engineer in charge of the new construction, said that the new seats—to 9,782, according to graduate manager, Barney Carmen. Artec Bowl, San Diego State College officials announced this week. The Cal Poly football squad is nearing completion, college officials announced this week.

The Cal Poly football squad is nearing completion, college officials announced this week.

A favorite story of magazine men is buying the round house; has to do with the magazine man who said, "You become a magazine editor and the magazine starts coming out full of errors!"

"Do what you do," said the mast. "T'll blame the printer."
Applicants Sought For Positions In Elementary Schools
Mrs. A. M. Arsenio, elementary school coordinator, stated today that a lack of teacher material for the San Luis Obispo area is handicapping the school system's teacher pool.

Many of the applications on file in the county superintendent's office are not acceptable because of the lack of qualifications. The most important need is for elementary teachers. Many have been found to date among Cal Poly students. The second need is for substitutes for both elementary and high school classrooms.

Applications for the elementary positions are routed through the office of Mrs. Arsenio, located in the county superintendent's office of the courthouse.

Mrs. Arsenio states that to be fully qualified to teach, prospective applicants must hold an A. B. degree and also an elementary credential. However, in lieu of this requirement holding a college degree will be acceptable if they have teaching abilities.

The situation is so desperate that the school board, which ultimately passes on the applications and hires applicants, has been accepting persons who have had experience in the nursery field or those who have taught at summer camps to children between the ages of six and 14 years.

Teacher qualifications for the high school requires a secondary credential. Applications for these positions are routed through the main office of the high school.

Ag Mechanic Students Renovate Dirt Hauler

The renovation of the monstrosity Tournapull, a dirt hauler, which was purchased through war surplus channels for the college agricultural mechanics department, is now almost completed.

Agricultural mechanical students have been working on the old type hauler for many months. It had to be entirely disassembled in order to clean out the rust which formed due to exposure to salt air.
