Cal Poly Biology Professor Hosts Campus Tree Tour July 15

SAN LUIS OBISPO – Cal Poly Professor Matt Ritter will host a walking tour of Cal Poly's trees on Saturday, July 15, at 3 p.m.

Ritter teaches in the Biology Department and is director of the Cal Poly Plant Conservatory. Tour participants will learn about the many rare and unusual trees that grow on campus, and about the long heritage of botanical and horticultural excellence at Cal Poly.

The tour will last approximately two hours and cover less than one mile of relatively flat terrain. Tour participants will meet at the Cal Poly Plant Conservatory at the center of campus, just southwest of Science North (Bldg. 53).

The tour is wheelchair accessible. Rain will cancel the event, but fog or overcast will not.

For directions and more information, visit the Plant Conservatory Web site at www.plantconservatory.calpoly.edu
