

CAL POLY Report

California Polytechnic State University
San Luis Obispo, CA 93407
Vol. 54, No. 7 • October 20, 1999

Published by the Public Affairs Office • www.calpoly.edu/~communic/CPR/report.htm

DATELINE

(\$) – Admission charged

Exhibits

ASI Fine Arts Club 221 (formerly UU Galerie): "A Journey of the Warrior Spirit," through Dec. 10. Hours: Monday-Friday, 9 a.m.-9 p.m.; Saturday and Sunday, noon-4 p.m.
University Art Gallery (Dexter Building): Faculty Show, through Sunday. Hours: 11 a.m.-4 p.m. daily; Wednesday, 7-9 p.m.

Wednesday, October 20

Immunization Health, Wellness

Fair: UU 220, 11 a.m.

Books at High Noon: "The Fencing Master" by Arturo Perez-Reverte, reviewed by Patricia Troxel (English), UU 219, noon.

Thursday, October 21

Physics Colloquium: Gayle Cook (Physics), "The Accelerating Universe," Science E-45, 11 a.m.

Comedy Awareness Tour: Alcohol abuse awareness, UU Plaza, 11 a.m., and UU 220, 1 p.m.

Mathematics Colloquium: Bernard Russo (UC Irvine), "Holomorphic Composition Operators," Math and Science 226, 4:10 p.m.

Friday, October 22

Construction Sciences Forum: "The Architecture of Entertainment," Chumash, 8:30 a.m. Continues Oct. 23.

Computer Science Colloquium: S. Ron Oliver (Computer Engineering and Computer Science professor emeritus), "Software S**cks!," Pilling Computer Science Building 256 (Software Engineering Lab), 1:10 p.m.

Hearst Lecture: Neil Watson, "Drawing and Painting Architecture," Business Rotunda (213), 3 pm.

Men's Soccer: U.S. Air Force Academy, Mustang Stadium, 7 p.m. (\$)

Volleyball: Utah State, Mott Gym, 7 p.m. (\$)

Visual Theater: "Promised Land," Cal Poly Theatre, 8 p.m. (\$)

From left: Phil Bailey, dean of the College of Science and Math, Ken Edwards of Dunn-Edwards Corp., and President Warren J. Baker on 'an historic day.'

Donations exceeding \$1 million endow first chair

Cal Poly is establishing its first endowed chair with more than \$1 million in donations led by a \$425,000 gift from Dunn-Edwards Corp.

The Arthur C. Edwards Endowed Chair for Coatings Technology and Ecology, named for one of the founders of Dunn-Edwards Corp., is the first step in creating a western regional center for polymers and coatings chemistry, a long-term goal arising from a 12-year association

between the Chemistry and Biochemistry Department and the coatings industry.

The endowed chair will support a faculty position in the department.

"This is indeed an historic day," President Baker said. "As we are about to celebrate the university's centennial, we are pleased to have raised the more than \$1 million necessary to establish the endowed chair. A truly significant
Continued on page 6

Comments invited on draft info technology use policy

The campus community is invited to review the draft Information Technology Resources Responsible Use Policy developed by the Acceptable Use Policy Committee (AUPC).

The policy would apply to the use of all university information technology resources, including computer and information systems and resources, means of access and networks, and data, whether the resource is centrally administered or locally administered.

The document is available in both HTML and Word formats at www.calpoly.edu/~its/Policies/aup-rev6.doc and www.calpoly.edu/~its/Policies/aup-rev6.html.

Comments concerning the draft policy may be sent to the AUPC at aupc@poly.mail.cpunix.calpoly.edu or to any of the members.

The committee plans to hold several forums to discuss the policy in depth. Members of the AUPC are Mary Shaffer, Information Technology Services, chair, mshaffer@calpoly.edu; George Westlund, ITS, gwestlund@calpoly.edu; Sean Banks, Ombud Services, sbanks@calpoly.edu

Continued on page 6

Solicitation of vacation, sick leave

Employees are being asked to donate sick leave or vacation credits for Judy Ramos, administrative support coordinator in Academic Records.

Donations of sick leave and vacation credit will enable her to remain in full-pay status during an extended absence for a family illness.

Anyone interested in donating leave should request the Catastrophic Leave Donation form from solicitation coordinator Patty Warnick-Wait in Academic Records at ext. 6-2723 or by e-mail.

CSEA employees (Units 2, 5, 7 and 9) only may donate up to 32 hours total of sick leave and vacation credits per fiscal year in increments of one hour or more.

Other eligible state employees may donate up to 16 hours. □

Leave benefits improved for CSEA, MPP, others

The number of paid work days for maternity, paternity and adoption leave increased from five to 20 for CSEA employees effective July 1, 1999, and increased from 10 to 20 for Management Personnel Plan employees and Confidential staff members, effective Oct. 1, 1999.

This type of leave is not charged against the employee's accrued sick leave or vacation credits.

Also effective July 1, 1999, the maximum number of hours of leave credits that may be donated by CSEA employees under the Catastrophic Leave Donation Program has increased from 16 to 32 hours per fiscal year. □

CSEA, Unit 4 PSI guidelines on the Web

The guidelines for performance-based salary increases (PSI) for staff members represented by CSEA (Units 2, 5, 7 and 9) and Academic Professionals of California (Unit 4) are available on the Web by accessing "HR and Employment Equity Forms" at <http://forms.calpoly.edu>.

The PSI process for those units will occur during fall quarter.

Questions should be directed to the appropriate administrator, department chair or department head. □

Lunch-time Advising Program: lunch is on them!

The Academic Senate, ASI, and the Foundation are sponsoring a new Lunch-time Advising Program designed to increase interaction and intellectual exchange between faculty members and students.

The plan allows faculty members to take one or two student advisees to lunch at no cost. The program is primarily for advising students, and faculty members are asked to please respect that purpose.

The program is available only at the Veranda Café between 10:30 a.m. and 2 p.m.

Here's how it works:

- When faculty members inform the cashier they are there with their advisee(s), the cost of the faculty and advisee lunches will be charged to an account funded by the program sponsors.
- Faculty members will need to sign their name and give the number of student guests on a form that will be kept for monitoring purposes.

No limit has been set on the number of times an individual faculty member can use the program. However, funds for the program are limited, so discretion is requested.

The program is being offered on a trial basis. When initial funding runs out, the faculty will be notified.

For more information, contact the Academic Senate office at ext. 6-1258 or by e-mail at mcamuso@calpoly.edu. □

'Accelerating Universe' topic of talk Thursday

Is the universe expanding faster?

Physics professor Gayle Cook will address that question in a talk, "The Accelerating Universe," from 11 a.m. to noon Thursday in Room E-45 in the Science Building.

Observations made in the last few years suggest that the expansion rate of the universe is increasing, in conflict with conventional wisdom that it should actually be slowing down.

Cook will discuss the evidence for the increasing expansion rate and the possible reason for it in terms of Albert Einstein's theory of general relativity.

The presentation is part of the Physics Colloquium series. For more information, call ext. 6-2448. □

David Rackley wins television award

David Rackley of the Music Department faculty has won a national Telly award for a television musical score.

The award was given for music he composed for "Masters and Madmen," the second part of a two-part series that looks at the genius mind and attempts to explain why genius produces madmen such as Adolf Hitler and masters such as Albert Einstein.

Part one of the series, "The Mystery of Genius," aired on the A&E Network in December 1998. "Masters and Madmen" has not yet been shown.

Rackley directs the university's Mustang Marching Band and the Cal Poly Wind Orchestra. He also teaches and directs a jazz ensemble at Allan Hancock College.

He was awarded a statuette at the 20th annual Telly competition, which recognizes outstanding non-network and cable television programming and commercials. □

In the dark on where to park?

This occasional column is intended to keep drivers advised of anticipated reserved parking spaces and lot closures. Certain campus events scheduled between 7 am and 5 pm Monday through Friday require reserved parking spaces.

For more information, call Bob Wilson, Public Safety Services event coordinator, at ext. 6-6675 or e-mail him at crwilson@calpoly.edu.

• **Friday: 7 a.m.-5 p.m.** - 10 spaces in the G-1 staff lot will be reserved for the Construction Sciences Forum.

• **Oct. 28: 2-9 p.m.** - 30 spaces, C-2 lot, President's Office event.

• **Oct. 28: 10 a.m.-4 p.m.** - 40 spaces, C-1 lot, satellite teleconference.

• **Oct. 29: 7:30 a.m.-5 p.m.** - 15 spaces, G-1 staff lot, College of Business Advisory Council.

• **Oct. 29: 7:30 a.m.-5 p.m.** - 25 spaces, H-2 lot, Dean's Advisory Council.

• **Oct. 29: 7:30 a.m.-5 p.m.** - 25 spaces, C-2 lot, Alumni Association event.

'Software S**ks!' title of Friday talk

S. Ron Oliver, retired computer engineering and computer science professor, will present "Software S**ks!" (he uses the full word) as the next Computer Science Colloquium from 1:10 to 2 p.m. Friday in Room 256 (Software Engineering Lab) of the Pilling Computer Science Building.

Oliver contends that currently available computer software generally fails to meet minimum reasonable quality standards.

"Because of the extent to which many aspects of contemporary society have become dependent on software," Oliver said, "this lack of quality represents substantial loss of revenue and potential loss of property for users, as well as potential harm to people, including possible loss of life."

In his talk, Oliver will describe why and how this "sad state of affairs" arrived and will "expose myths perpetrated by 'software types' to cover up the mess." He will also outline a strategy for recovery.

Oliver has spent more than 31 years in the software business, in both industrial and academic assignments.

After nine years at Cal Poly, he returned to Colorado to work on special projects, including methods to improve software quality. Most of his software development experience has been with complex concurrent and real-time systems, including extensive work in computer communication systems and simulation. He has worked in software quality assurance and developed a practical software development process. □

Student engineering club wins national award

The Cal Poly student chapter of the Society of Automotive Engineers (SAE) has won national recognition for outstanding management and activities.

It received the \$500 Allied Signal Outstanding SAE Student Branch Award, to be used by the group for scientific, educational or professional activities.

More than 300 clubs and branches nationwide are eligible for the award. Fewer than 12 are named to receive it.

Mechanical engineering professor Mike Iannce advises the student group, which has approximately 65 members. □

Environmental awareness focus of weeklong event

The second annual Environmental Awareness Week will begin Monday with speakers, exhibits and competitions designed to increase awareness about energy efficiency, alternative transportation, recycling, "zero waste" and composting, and water and air quality.

Faculty members and students will showcase their efforts aimed at environmental issues. Students will compete in a Recycled Art Contest, Recycled Product Design Contest, and an Environmental Poster Contest, all for cash prizes.

A residence hall can drive will be held, and nominations for a Student Environmental Scholarship will be accepted.

Participants include Cal Poly's Solar Car Club, Electric Vehicle Club, Soils Club, Commuter Services office, Renewable Energy Institute, and Sustainable Agriculture Club.

The event will be held daily from 11 a.m. to 1 p.m., on the lawn in front of the Dexter Building on Monday and Tuesday and in the lower UU Plaza on Wednesday and Thursday.

Environmental Awareness Week is sponsored by Facilities Planning, ASI, Campus Dining, and the Housing, Commuter Services, and Purchasing offices as well as ECOSLO, the countywide environmental center.

For a schedule of events and more information, call Allyson Nakasone of ECOSLO at 544-1777. □

Learn-at-Lunch series begins fall talks Tuesday

The Employee Assistance Program is sponsoring a fall quarter Learn-at-Lunch series beginning Tuesday with author Murray Oxman presenting "The Things Problem-People Don't Want You to Know."

The sessions, from noon to 1 p.m. in the Veranda Café, are open to employees and family members. Attendees are welcome to bring or buy their lunch.

Additional presentations are:

- Nov. 9: Suzanne Landry, natural foods chef, cooking teacher and author, "Eating and Staying Healthy Through the Holidays."

- Nov. 30: Sally Anderson, Cal Poly's Y2K coordinator, "Last-Minute Things to do for Y2K."

For information, call the Employee Assistance Program office at ext. 6-0327. □

Ptolemy's orbit theory discussed in math talk

"The Eccentric Circle of Claudius Ptolemy" is the title of the next Mathematics Colloquium, planned from 4:10 to 5 p.m. Oct. 29 in Room 289 in Fisher Science Hall.

Carol Day, professor of mathematics at Thomas Aquinas College in Santa Paula, said, "By applying geometrical theorems and trigonometrical calculations to extensive observations made by himself and others, Ptolemy produced models of the planetary motions that are superior in some respects to the models of Nicholas Copernicus."

"By distinguishing three centers of circular motion, Ptolemy was able to reproduce some of the features of an elliptical orbit," Day said. "Copernicus, being more of a purist in respect to the circles, was forced to adopt much more cumbersome models to rival the old hypotheses in accuracy."

"The true merit of Copernicus' explanation was its unification of all the planetary orbits into a coherent system. Ptolemy's account of the individual orbits was better," she said. □

Homecoming weekend set

Cal Poly Homecoming will get under way at 6 p.m. Oct. 28 with a student "mock rock" during Farmer's Market in downtown San Luis Obispo.

This year's Homecoming theme, in keeping with the Halloween weekend, is "Unmask Your Memories."

Additional activities are planned through Oct. 31, including a Homecoming Parade at 10 a.m. Oct. 30 in downtown San Luis Obispo and the Mustangs vs. Portland State football game at 2 p.m. Oct. 30 in Mustang Stadium.

Universitywide events include open forums with this year's honored alumni, receptions, an Honored Alumni and Reunion Awards Banquet with the class of 1949, tailgate barbecues, and an Honored Alumni and Reunion Breakfast.

The College of Engineering, College of Liberal Arts, and University Center for Teacher Education have scheduled special events for their faculty, staff, students and alumni.

Many student activities are also planned.

To make reservations or for a schedule of activities, call the Alumni Relations office at ext. 6-ALUM (2586). □

Cal Poly Choirs to perform Oct. 30

In its annual fall concert Oct. 30, PolyPhonics, a 30-voice chamber ensemble, will perform music spanning the last five centuries, as well as folk songs from Ecuador and Argentina and songs from the African-American traditions of spirituals and gospel.

The concert, at 8 p.m. at the First Baptist Church, 2075 Johnson Ave., San Luis Obispo, will also feature the University Singers and Cal Poly Vocal Jazz, as well as top vocal students.

The choirs are conducted by Thomas Davies and accompanied by Susan Azaret Davies, both members of the music faculty.

PolyPhonics will sing "Sanctus" and "Agnus Dei" from "Mass for Five Voices" by William Byrd, "Wie Schön, Hier zu Verträumen" ("How Lovely, Here to be Dreaming") from Vier Nottornos (Four Nocturnes) by Heinrich von Herzogenberg, "Se Equivocó la Paloma" ("The Dove Was Wrong") by Carlos Guastavino, and "Ballad of the Green Broom" from "Five Flower Songs" by Benjamin Britten.

The University Singers will perform the madrigal "The Storm" by Franz Joseph Haydn, "Cantique de Jean Racine" by Gabriel Fauré, and "La Lluvia" ("The Rain") by Stephen Hatfield, based on a panpipe melody from Ecuador.

Cal Poly Vocal Jazz will sing selections arranged by Ward Swingle, Michele Weir and Phil Mattson.

The Combined Choirs will perform the traditional spiritual "Swing Low, Sweet Chariot" and a gospel arrangement of the spiritual "Go Where I Send Thee."

Tickets cost \$5 for students and seniors, \$8 for others

The concert is sponsored by the College of Liberal Arts, Music Department and Instructionally Related Activities program.

For more information call the Music Department at ext. 6-2406.

Event information is also available on the department's World Wide Web page at www.calpoly.edu/~mu. □

Ticket information

Tickets to the performances listed in today's *Cal Poly Report* are on sale at the Performing Arts Ticket Office 10 a.m. - 6 p.m. weekdays and 10 a.m. - 4 p.m. Saturdays. Call ext. 6-2787, or to order by fax, dial ext. 6-6088. □

The Montreal-based *Les deux mondes* will perform in the drama, 'Promised Land.'

Unique 'visual' theater coming to Theatre Friday

Two world-class theater companies have teamed up to create "Promised Land," a one-of-a-kind, ground-breaking drama-without-words that will play at 8 p.m. Friday in the Theatre.

Les deux mondes, based in Montreal, Canada, and *Téatro dell' Angolo* from Turin, Italy, created the critically acclaimed production, which is said to bridge the generation gap, uniting children and adults.

"Promised Land" is a journey back in time. With poetry and humor, it tells the story of mankind's relationship with the earth. From prehistoric to modern times, the simple lives of different characters on the same land un-

fold around a stone. From one century to the next, the stone is a silent witness to the men, women and children who are born, live and die on earth.

The non-verbal, universal tale is told with music and sounds. It has been called "spellbinding," "imaginative," and "extraordinary."

La Stampa, a Turin publication, said, "Spectacular, intense, and unutterably blissful, this show offers some moments blessed with grace."

After the performance, the companies' artistic director will answer questions from the audience.

Tickets to this Cal Poly Arts event cost \$14 to \$23. □

Fee-waiver forms available

Human Resources and Employment Equity reminds employees of the following winter quarter fee-waiver deadlines:

- Thursday: CAPTURE registration begins for employees. (See "Priority & Graduate Students" category in class schedule.)

- Nov. 19: Last day to pay fees to avoid \$25 late fee.

- Jan. 18: Last day to submit fee-waiver forms to Human Resources and Employment Equity.

Employees enrolled fall quarter will be mailed the fee-waiver forms; those not currently enrolled should e-mail or call Joan Lund at ext. 6-6563. □

It's now Public Affairs

The Communications Office and University Relations are now Public Affairs.

Public Affairs produces the *Cal Poly Report*, *Cal Poly Magazine*, *The Credit Report*, news releases about the university, and other publications and performs the university's public relations functions.

The Public Affairs name will be in the new campus phone book, and the Mail Room has been notified of the change. The office's Web site address and various on-line links will be changed. The e-mail address for news items remains polynews@polymail. □

International travel topic of lunch-time talk

"Trip guru" Edward Hasbrouck, often called a walking travel encyclopedia, will present the first International Education and Programs (IEP) Lunch-Time Talk at noon Oct. 27 in the Veranda Café conference room.

Hasbrouck, author of "The Practical Nomad," has a wealth of knowledge on travel subjects ranging from what to pack, to student visas and international politics. He will address travel safety and health and how to plan a budget, manage money on the road, get around on your own, and minimize culture shock.

Those attending can bring their own lunch or buy one at the Veranda Café. After Hasbrouck's talk, he will answer questions from the audience.

For information, call IEP, ext. 6-1477. □

Community Safety Fair tape wins statewide award

A videotape of a Community Safety Fair organized by Cal Poly last April won a 1999 Crime Prevention of the Year Award in the Governor's Safety Award program.

The award, in the media category, was given to Charter Communications, KCOY, KSBY, The Tribune and New Times for their involvement in bringing crime prevention information to our community.

The safety fair was sponsored by Cal Poly, Cuesta College, the San Luis Obispo Police Department and the San Luis Obispo County Sheriff's Department. Charter Communications produced a 30-minute videotape of the event, which was televised with the help of KSBY and KCOY.

The tape was submitted to the Governor's Safety Award Committee of the California Attorney General's Office.

The safety program is airing locally on Charter Channel 6 Wednesdays at 9 p.m., Fridays at 9:30 p.m., and Saturdays at 1:30 p.m. through Jan. 2.

Organizers of the event included Juan Gonzalez, vice president for student affairs, Pat Harris, coordinator of women's programs and services, and Ray Berrett, university police investigator.

Patricia Constance, a program development consultant with Scared Safe Training Programs, also helped plan the event. □

Senior Ryan Blemker (right) receives certificate of recognition from Graphic Communication Advisory Board Chairman Mark Coudray. Blemker received the first \$500 Graphic Communication Department Leadership Scholarship.

GrC awards first leadership scholarship

The Graphic Communication Department has awarded its first \$500 Graphic Communication Department Leadership Scholarship to senior Ryan D. Blemker.

Blemker, who earned an A.A. degree from Los Angeles Pierce College, is the estimator for University Graphic Systems (UGS), the campus's student-run and student-managed printing and publishing company. He is also an expert on program solutions software and is a member of the UGS management team.

In addition to his accomplishments at Cal Poly, he is an Alphagraphics certified print specialist, won a Northern California Metal Decorating Scholarship, and is an Eagle Scout.

The Graphic Communication Department Leadership Scholarship is the brainchild of Robert Leveque, vice president and division director of the Des Moines Manufacturing Division of R.R. Donnelley & Sons Co.

Leveque, a 1977 Cal Poly graduate, also served as a UGS general manager while an undergraduate. □

CPR schedule

The *Cal Poly Report* is published every Wednesday during the academic year.

Articles are due in Public Affairs by 10 a.m. on Thursday for the following week's edition.

E-mail items to polynews@polymail.add.calpoly.edu if needed).

For information call ext. 6-1511. □

ASI Children's Center continues food program

ASI will continue to sponsor the Child Care Food Program for all children at the Children's Center, a tradition that began in 1978.

ASI's contribution last year was \$32,680, which came from the State Department of Education through a grant from the U.S. Department of Agriculture.

The assistance enables the center to provide nutritious breakfasts, lunches and snacks for the children in the program with minimal impact on child-care fees.

The food program also provides an opportunity for Cal Poly nutrition majors to gain experience through employment, tours and participation as part of a laboratory class.

For more information call Evelyn Ruehr, Food Service Manager at the ASI Children's Center, at ext. 6-6191. □

Volunteer readers sought by DRC

The Disability Resource Center is recruiting volunteer readers for students with visual impairments and learning disabilities.

Current and former faculty and staff members, as well as retired professionals from the community and avid readers who would enjoy providing this needed service are encouraged to apply.

The reading material covers a range of subjects from technical to the humanities. The time commitment varies.

For more information, call Debbie McArdle at ext. 6-5796. □

Students invited to meet grad school reps Nov. 5

Cal Poly will hold its largest-ever Graduate and Professional School Day from 10 a.m. to 1 p.m. Nov. 5 in Chumash Auditorium.

The event gives students and community members an opportunity to speak to representatives of more than 50 colleges and professional schools.

For a complete list of the colleges to be represented, visit the Career Services Web site at www.careerservices.calpoly.edu.

The event is sponsored by the Career Services office. Advance registration is not required.

For more information, call ext. 6-2501. □

Send items by Nov. 1 for fall Credit Report

Nov. 1 is the deadline to submit items for the fall quarter edition of The Credit Report, the newsletter of faculty and staff professional accomplishments.

When submitting news, please keep in mind that items should be about significant accomplishments clearly related — and in most cases that means directly related — to a faculty member's teaching or a staff member's job at Cal Poly.

E-mail items to polynews@polymail, and please include a phone number in case we have questions.

For more information, call ext. 6-1511. □

Position vacancies

Vacancy information and applications for the following positions are available from the appropriate Human Resources office. Information is also available on the Cal Poly home page (www.calpoly.edu; click on "General Information").

FOUNDATION (Foundation Adm. Building, job line at ext. 6-7107). All Foundation applications must be received (not just postmarked) by 5 p.m. of the closing date. (No faxes.)

Accounts Receivable Clerk, Foundation Business Office (\$9.50-\$12.35/hour). Responsible for performing tasks related to accounts receivable including maintenance of the customer file, invoicing of departmental charges, as well as meal tickets and returned checks and the related collections and account analysis. Requirements: high school or equivalent and two years' experience in keeping and reviewing financial or statistical records. Academic education beyond high school degree (or equivalent) may be substituted on basis of 12 semester units of business or commercial education equivalent to six months of experience. Must type and operate a 10-key calculator by touch. Knowledge and experience with computer terminals (data entry or word processing) required. Must have good oral and written communication skills. Closing date: Position is open until filled; review of applications begins Oct. 29. □

... Donations

Continued from page 1

milestone — a first in Cal Poly's history — that could not have been possible without the close working relationships among industry, faculty and the university."

"The endowed chair is the culmination of 12 years of a very close and always-growing educational and professional partnership between the faculty and students in Cal Poly's polymers and coatings concentration and very generous and forward-looking people in industry," said Phil Bailey, dean of the College of Science and Mathematics. "The gifts will make it possible to create a center of excellence that will benefit both Cal Poly and industry and provide special opportunities for both."

In addition to the Dunn-Edwards gift, Ken Edwards and Edward Edwards, Arthur Edwards' sons now running the family-owned business, have donated \$75,000 and \$25,000, respectively.

Eighteen pledges totaling more than \$1 million from companies and individuals will fully fund the endowment.

The individuals and corporations that have made significant pledges include Smiland Paint Co. for \$100,000; DuPont, \$90,000; Rohm and Haas, \$75,000; Engineered Polymers Solutions; Kronos Inc.; Vista Paint Corp.; Ishihara Corp; Ellis Paint Co; Millennium Inorganic Chemicals; Hansteck Corp.; the Los Angeles Society for Coating Technology; Joe Reilly; Burgess Pigment Co.; E.T. Horn; and Jim Calkin.

For more information, call Cary Bowdich, director of advancement for the College of Science and Mathematics, at ext. 6-5713. □

Foundation Board to meet

The Foundation Board of Directors will hold a special meeting at 8:30 a.m. Oct. 29 to review and act on last year's financial audit results.

The board will also hold a regular meeting at 8:30 a.m. Nov. 5.

Both are public meetings and will be in the Foundation Administration Building, Conference Room 124.

For meeting information or to obtain a copy of the meeting agendas, call Executive Director Al Amaral at ext. 6-1131.

A copy of the agenda packets can be reviewed at the Kennedy Library Reserve Desk, Room 114, and at the Academic Senate Office, Math and Science Building, Room 143. □
