CALIFORNIA STATE POLYTECHNIC COLLEGE *

VOL. 14, NO. 4

SAN LUIS OBISPO, CALIFORNIA FRIDAY, OCTOBER 16, 1953

COMELY VISITORS ... The Harvest Dance after the Santa Barbara game was considerably enlivened by the presence of many fair visitors from the southern campus. Arranged by the Air Conditioning club, the Collegians furnished the music.

"Cal Poly—Boast of the Coast"—Chosen as Homecoming Theme

Plans for the gala 1953 California State Polytechnic college Homecoming are shaping up following a recent meeting of the Alumni association board of directors, according to Dan Lawson, college activities officer. The parade theme—"Cal Poly—Boast of the Coast"—was chosen by a

committee of students, headed by a veteran activities leader, Bill McNab, senior crop major from Berkeley. McNab reports that candidates for this year's Homecoming queen have been selected, setting the pace for a series of intricate planning activities that annually accompany the Homecoming celebration. A reported 25 students' wives are in the race for queen.

Several old and many new entertaining events and exhibits are planned to make this year's activity among the finest yet, according to committee members.

Included on the full agenda will be a number of gala dances, coronation ceremonies, parade, bonfire rally, football game (Cal Poly vs. Los Angeles State), reception for returning alumni, dinners and exhibits.

Aiding McNab will be the following sub-chairmen: Tom Golding, social events; George Martin, chairman, special events; Rollin Lander, alumni activities. These men will have the following assistants: Homecoming dance, Bob Colomy; queen activities, Al Wellington; Western dance, Boots and Spurs and Rodeo club members; ugly-man contest, Alpha Phi Omega fraternity; bonfire rally, Bob Hoening and Ben Montoya; parade, Mark Heppi; goats, Gary Wires.

Game chairman, card stunts, halftime field activities, rally committee; alumni section, Dick Hall; reunion, Rob Rostrum; general alumni activities, Bill Troutner; hospitality, Jim McGrath; registration, Leo Philbin; general alumni meeting, Edward Mattson; buffet dinner, Harry Wineroth; post-game social, Alden Turner; historical exhibits, Dorothy Wright.

Tri Beta Desert Life Study In Library Foyer

The annual display of the Tri Beta biological society can now be seen in the foyer of the library. Cacti, sand and reptiles harmonize in a very effective study of desert life. Poly canyon is also under the searching eyes of the club as a prospective site for a botanical garden. The botanical garden would be patterned after the one at Santa Barbara.

Dave Montgomery, president of the club, has planned a series of field trips, and hopes that those interested in the club will feel free to come along.

Placement Office Announces Job Interviews

The new campus placement secretary, Katherine Fyle, lists the following recruitment schedule for the remainder of October. Students are urged to sign up for interviews in advance.

Oct. 19-20 Lockheed Aircraft Corporation (interested in senior and graduate students in aeronautical, mechanical, and electrical engineering).

Oct. 20-21 Pacific Telephone and Telegraph Company (personal interviews with engineering, physical science and social science majors).

Oct. 22 Goodyear Tire and Rubber Company (interviewing engineering and physical science majors).

Oct. 27-28 Naval aviation recruiting.

Additional information is available in the placement office, room 180, Administration building. Interviews are conducted in the order of sign-ups.

Goodell to Address Poly Students Next Thursday

Robert W. Goodell, editor-publisher of the San Luis Obispo Telegram-Tribune will speak in Engineering auditorium, Thursday, Oct. 22, at 11 a.m., on "What Is a Newspaper?"

Goodell, veteran of 22 years in the newspaper field, got his start in journalism at the University of Utah, where he edited the bi-weekly college newspaper, the Utah Chronicle. Before coming to San Luis Obispo in 1948, he held the post of city editor on the Salt Lake City Tribune.

There will be a question period after the speech.

All those interested are cordially invited to attend.

PARKING REGULATIONS

All automobile parking decals must be in place by Oct. 19, Chief Security Officer Robert C. Krag announced today. First offenders will be fined 50 cents and from then on, each successive fine will be doubled. Parking regulations will be strictly enforced, Krag concluded.

Intercollegiate Judging Team Leaves Today

Five animal husbandry seniors and instructor Dick Johnson left today for Portland, Ore., where they will represent Cal Poly in the intercollegiate judging contest at the Pacific International Livestock Exposition.

Members of the team picked by Johnson are: Lloyd D. Casey, Blythe; Charles E. Jacobson, Redding; Duane E. Noyes, Mondamin, Idaho; Robert T. O'Dell, Watova, Okla.; Robert J. Robertson, Ontario; and Cameron L. Kirkpatrick (alternate), El Cajon.

Last year, teams coached by Johnson took second place at the Pacific International, fourth at San Francisco, and sixteenth at Chicago.

This year the P. I. will be held under mammoth circus tents on an area immediately adjacent to the Portland union stockyards. The old exposition buildings are under lease to the United States Air Force.

While in Portland the team will stay in the Imperial hotel, Broadway and Stark streets.

They are planning to return late Friday evening, Oct. 23.

Examinations Open For Plant Inspectors

Applications must be in by Oct. 20 for an examination for Junior plant quarantine inspector for California. Anyone wishing to work either on a permanent basis or during the summer must take and pass the examination.

The examination for Junior plant quarantine inspectors offers students and graduates an excellent opportunity for either a career or temporary work with the state department of agriculture. Applications are available in the placement office, Ad-180.

DEADLINE FOR SUPPLIES SET

Purchasing and issuance of books, tools and supplies under Public Laws 846, 16, 894, Point 4 and St. Rehab, will end at noon, Saturday, Oct. 24.

Poly Bronco Busters Compete at Ventura

Cal Poly was well represented at the Ventura county fair rodeo last weekend, with 12 bronco-busters on hand for the events which included bull riding, calf roping, bareback riding, bull dogging and saddle bronc riding.

Bill Martinelli, Poly freshman, topped the amateurs in the bareback riding event Saturday night while Tony Araujo, member of the rodeo team, grabbed a second in the R. C. A. bull riding.

Other Poly men competing in addition to those already mentioned were Billy Streud, bull riding; Willie Williams, calf roping;

Adams 'Man of No Return;' Candidate to Be Nominated

Student body president Ron Davey this week appointed a nominating committee to suggest candidates for general superintendent of Poly Royal board, filling the position left vacant by Jim Adams. Elected last spring, the "Man of No Return" reportedly enrolled in San Jose State, failing to return to Cal Poly this quarter.

On the Committee

On the committee are Lee Gilbert, Chuck Jacobson (last year's chairman), Bill R. Long and Dick Johnson. Appointed at the request of the Poly Royal board, the committee will discuss possible candidates and vote at the Tuesday, Oct. 20 board meeting. Other nominations will be accepted from the floor that day, Davey adds.

Other offices for Poly Royal will also be open to nomination at that time. Two assistant superintendents and five directors must be elected soon in order to complete arrangements for selecting a queen, preparing advance publicity, contacting and arranging for features, Jacobson says.

Usually Filled

Ordinarily, the ex-superintendent said, these offices are usually filled by this time, but the loss of the superintendent has delayed things.

Bob Smith, last year's associated student body president, is acting as temporary chairman of the Poly Royal board. He said that any persons interested in Poly Royal or any of the board positions should attend the Oct. 20 meeting and make known his desires. He added that the board intended to make several sharp changes in policy and new ideas are needed. The meeting will be held at 4:15 p.m. in Rm. 218, Ad. bldg.

Cafeteria Blues Singers Go On Record

The Cafeteria Problems committee is herewith listing its membership and their residences. A great to-do has been made about the system of refueling students for greatest possible mileage. If there's still something wrong with the output or the pumps, get in touch with one of the following. Preferably, have your suggestion in writing so that the member has tangible evidence to place before the committee.

Here it is: Jerry Biggs, Whitney; Jim Childers, Diablo; Curt Grolla, Deuel; Bob Hall, Lassen; Dick Keene, Heron; Jim McCarthy, Diablo; Vern McNamee, Palomar; James Vervilos, Deuel; Vis Uhlik, off campus; Art Whitfield, Lassen; Wes Wickham, Heron.

Also, Ray Lyons, chairman; Joe Cretin, secretary.

Jackson Addresses SAE Group On Gas Turbines

Harry J. Jackson explained the basic principles of gas turbines to more than 100 student and faculty members of the Society of Automotive Engineers when the group met recently in Library 118.

Jackson, who joined the mechanical engineering teaching staff this fall, came to Cal Poly from Solar Aircraft where he was employed as a test engineer. His talk on Solar models Jupiter and Mars engines provided members with first-hand knowledge of the recent developments in gas turbines, especially the low horsepower class. Jackson gave interesting highlights on the testing of both engines.

SAE's next meeting will be held Oct. 23 at 7:30 p.m. in Library 118 A, B and C. It will feature F. P. Baerlyts, chief mechanical engineer for General Petroleum, who will talk on "Gasoline and Diesel Power in Agriculture."

All interested persons are invited to attend, according to Stanley D. Adkins, chairman.

Educational Slides Received By Poultry Dept.

A set of 100 colored slides on visual pathology of poultry diseases have been donated to California State Polytechnic college by Vineland Poultry Laboratories, Vineland, N. J., according to Richard I. Leach, head of the college's poultry department.

"This is an excellent group of slides," says Leach. We have not been able to make any of our own, partly because of photographic difficulties and because we were not able to find some of the specimens."

The visual slides will be used for instructional purposes in the Cal Poly poultry department, aiding practical teaching. The college offers 18 different poultry courses leading toward a degree in poultry husbandry.

AH Major Directs Little Theater's Many Activities

One of the busiest men on campus is the bearded gentleman from Nevada—Bob Glass.

The sandy haired animal husbandry major from the wide open spaces is currently engrossed in juggling 21 units and a thesis with the job of producer for the San Luis Obispo Little Theater's new play "Mr. Roberts."

A quick run-down of Glass' duties with the local players' group shows that he's been elected what is commonly known as the "fall guy."

If printing major and set designer John Reid needs a couple of two-by-fours to prop up his castle, Glass is the man to see. If propman Jim Houston needs 21 dress whites in a hurry for the ships crew—Glass is it.

If Poly instructor and leading man Chuck Lang needs a baby sitter for his small-fry while wife Muriel helps out backstage—Glass is his boy.

It's all a part of the job, according to our versatile sheepman who first became embroiled with the town's Little Theater when his beard won him the role of "Inspector" in the Victorian thriller, "Angel Street," last year.

Glass is not only producer of the Nov. 4 and 5 show at the Elmo but is also a member of the group's board of directors with the title of production vice president. Poly representatives on the board include Ken Lowery, English instructor, as president; Roy Anderson, economics instructor, as treasurer, and Lang as corresponding secretary.

Lions Club Holds Amateur Show; Students Welcome

This year's Lions club amateur talent show will be held the evening of Nov. 11 in the Elmo theater with two classes of winners, senior and junior.

Each class will have a first prize of a \$100 bond, second prize, \$50 bond and third prize, a \$25 bond. All proceeds from the show will go towards community betterment projects.

Entries close Oct. 19 so it is suggested that interested students contact Dan Law at S.L.O. 896 or 8087-M as soon as possible.

NEWMAN CLUB MEETING
Newman club will meet Monday, Oct. 19, at 7:45 p.m. in Veterans Memorial building.

Poison Oak Tests Administered By Health Center

The campus abounds with poison oak and each year numerous students are painfully afflicted. Now, Dr. Lovett of the health center announces that a simple patch test is available to determine poison oak susceptibility.

The health center will attempt to administer this simple test to everyone on the campus. A small patch is placed on the forearm and remains there for 24 hours. Then the health center will take a reading. Those found to be sensitive to the poison oak resin will be offered a series of desensitization treatments.

A notice will soon be in the mail inviting participation in this program.

The Downbeat

By Ike

Many thanks to all of you kind people for your fine compliments on the new band uniforms. We're all pretty well pleased with them too. Also, fruit and flowers to the Blue Key Fraternity and the Student Wives club. Without their splendid cooperation the band might not have had the new toga this early.

Splitting up last Saturday's shelling of the Santa Barbara Gauchos, the band did their stuff during the halftime break. In case some of you didn't know what the poop was, the stunts were, in this order: a wishing well, a milk bottle, a teapot and a little brown jug. The theme? "Beverage Time."

The San Luis Obispo County contingent of S. B. alums made up a band and did a real great job of filling out the halftime interval. Did anyone know that they were

playing "Ride High You Mustang" in front of our rooting section? No? Well they were. In waits time yet! What'll they think of next.

This morning, the newly outfitted band takes off for the Golden Gate city to add their color to tonight's Frisco-Poly tilt up there. I hope there'll be plenty of Poly rooters along.

California Polytechnic offers the state's only major in Agricultural Journalism.

Not a 'Bust' But a 'Must'

Big boys shouldn't play with matches! Again, the Homecoming Week pre-football game Bonfire Rally on Nov. 7 threatens to be a flop and a bust. We say again, because during the last three years some silly sort of rivalry has arisen between sophomores and freshmen as to which group would do a sneak and light the bonfire before the time set for the mass-campus celebration.

A roaring rally such as this might be, and was originally intended to be a big event and become a glorified tradition as part of Homecoming Week. The only threat against premature firing should come from the invading football team's loyal supporters, which on Nov. 7, happens to be our old rivals, Los Angeles State college. But an alert honor guard could reverse the heat in such an attempt.

The upsidedown method of doing things at Cal Poly is vaunted as an educational innovation. When the misuse of that technique results in the wanton destruction of a flaming symbol that has depth and meaning to the entire student body and alumni—such misuse should not be tolerated.

The material for the bonfire is mostly solicited from and supplied by the community of San Luis Obispo. They are glad to do this because their interests and loyalties tie in with Cal Poly's. It certainly is not playing fair with them, and the students whose sweat builds the pyre. This pyre is dedicated as a cremation and funeral rite to the hopes and ambitions of the opposition. To Cal Poly it should symbolize a flaming, leaping victory.

Then, let the flames leap merrily, let students voice their cheer in song and... "let the damn thing flame up on schedule this year, fellas!" Little boys play with matches. Big boys know how to use them.

The Long View

By Bill Long

Well it looks like Gauchos can be Wetbacks too.

The Hughes crew just rambled and rambled. Everyone got into the act. Blood and gore all over the field. LeRoy we love you.

The Poly boys showed up with some really cool-cat wimmin, but some of them should have cleared with the immigration service first.

Went to a meeting of the Monday at noon knitting society (sometimes known as the Rally Committee) to see what the girls had to say about their lousy showing last Sat. Eve. Chairman Dick Borba chewed the group in a manner that would even put some of our administrators to shame. The members sat back, smiled smugly, blamed each other, and charged the whole thing to lack of cooperation.

Lack of Cooperation - B.S. (Bad Spirits). Hughes supplied the team, Davey supplied the band, Publications and Printing took care of the programs, Kappa Rho lit the P, the A.C. club put on the dance, S.B. brought a bucket of females, the Collegians provided the music, ROTC provided the color guard, P. G. & E. goosed the lights, the State of California (bless them) built the stadium, thousands of rooters turned themselves into one of the most sportsmanlike-like crowds to hit Poly stadium in moons, and the Rally Committee milled around like a herd of cattle with hoof and mouth disease. It couldn't have been for lack of leadership. Everyone seemed to be the boss.

Even after it was announced that the Homecoming committee had decided to handle the Homecoming rally, bonfire, card stunts etc. themselves, and after pages full of the group's boobies were read to them, they merely patted themselves on the back for a job well done and went home.

Come, come boys, can't you read the handwriting on the wall? It just might be in your blood.

Uncle Harry Wineroth says it's becoming more and more costly to serve a cup of El Corral coffee. Watch for compulsory coffee tickets!

One of our most pretty and charming Homecoming Queen candidates, a student wife, and local J.C. coed was disqualified by some of the leading Student Wives club's wheel-horses for not attending club meetings and showing no interest in S.W. affairs. Besides trumping up the policy, the girls forgot to send her a notice of any meeting, after she had asked for the same, and even before she knew there was a Homecoming celebration.

What's the matter girls getting to old to cut the mustard?

For sometimes a proposal to erect a "Mustangs welcome you" sign at the Calif. Blvd. entrance has been kicking hither and yon. Lets us pray, that in one of our famous economy moves, it is not tacked on the same post bearing the "permission to pass over revocable at any time" sign.

The Gieho A.S.B. prexy arrived during the middle of the first quarter, highly scoffed off because he had no place to sit.

Thumbs Up - Thumbs Down

Cal Poly
10 Oct.

Dear Editor,

I have never been so proud of the men of Cal Poly. The spirit shown by everybody concerned last Friday nite before the Santa Barbara game was enough to make any alumnus in the grave sit up and take notice. The love and patronship of a college campus has never been shown before, such as that shown by the men who patrolled the campus the eve of the Santa Barbara game.

I happened to be one of the party of men who were mistaken for students from our neighboring campus to the south. We got stopped by road blocks, cursed by everyone, and even questioned by the city police. I fear that there are a few men on campus who will never forgive us, but that only proves to me that the spirit of 'All Hall Green and Gold' will never die come hell or gaucho.

Truly I have not seen such spirit in all my five years at Cal Poly.

In spite of rumors to the contrary, my party was not one of those Cal Poly groups supposedly

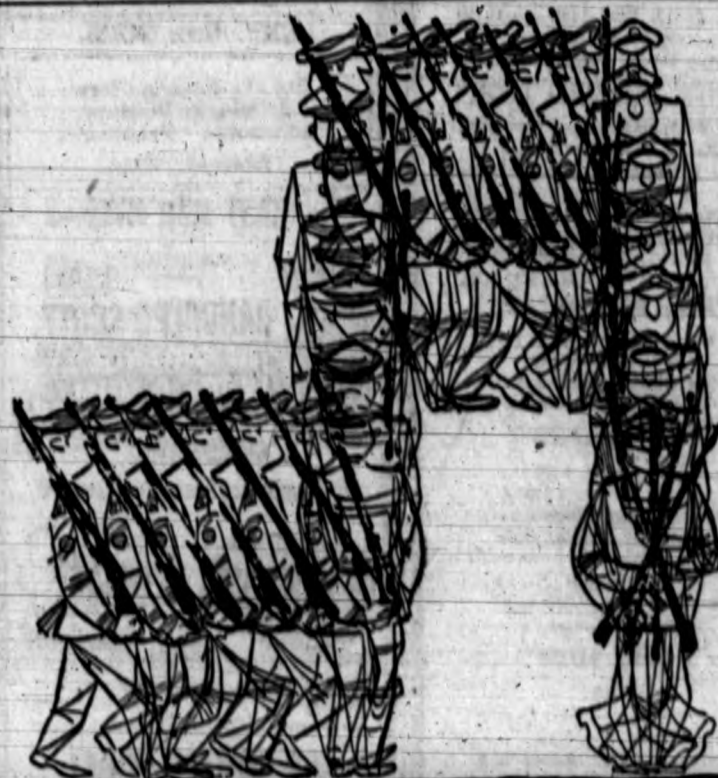

involved in any defacing or destruction of our campus. I believe that any one involved in such activities should be dismissed from school. It is an honor for me to be a member of our student body, and any one who does not consider it so should transfer.

Never again will I have any doubts to the true spirit that prevails at Cal Poly.

I remain a very proud individual
Howard L. Coburn

Peppy Cheer Leaders Boost Gaucho Morale

After all the hullabaloo accompanying the imagined series of campus invasions by Santa Barbara (they lasted from Wednesday night until almost game time) it was a delight to watch the spontaneous antics of their yell leaders and five wave-ettes. These kids had a real good time "invading" our cheering section and prancing amid the strutting Cal Poly Band, during half-time last Saturday evening. Their actions were happy and free and struck a warm responsive chord on both sides of the field.

It's All In How You Look At It

In a recent gathering of Chester Scott's 1 o'clock algebra class a few students suddenly shifted the subject of conversation from algebraic equations to girls.

A few remarks passed. Then the instructor turned from the equations on the board and amusingly inquired, "But who said anything about girls?" A brief moment of silence then from the back of the room came this reply: "Well we're working with figures, aren't we?"

Cal Poly Amateur Radio Elects Torbron As Prexy

Cal Poly Amateur Radio club held its first meeting of the school year last week with election of officers as the most important item on the agenda.

Jack Torbron was elected president, to fill the vacancy created by the resignation of Jim Saxe. Newly appointed vice president is Bill Filbert.

James Wills, recent addition to the electronics department teaching staff, was named as new station trustee, filling the post left vacant by the departure of Gerald Petersen, who now operates a communication service in San Luis Obispo.

A program committee was organized to plan club activities, one of the goals being formulation of a plan to put campus radio station W6BHJZ in good operating condition. The station needs reconditioning to improve and extend its facilities, according to Dr. Harry K. Wolf.

Next meeting is tentatively scheduled for Thursday, Oct. 22, at 7 p.m. in Ag. Ed. 108.

Dr. Rodin to Speak On Pakistan United Nations Day

Dr. Robert Rodin of the biological science department will make a United Nations day speech on Pakistan in the Engineering auditorium at 8 p.m. next Tuesday, Oct. 20. The speech will be co-sponsored by the World Affairs Council of San Luis Obispo, the American Association of University Women, the Business and Professional Women, and the campus International Relations club.

Dr. Rodin has recently returned from a year's teaching at the Christian college in Lahore, Pakistan. While there he had the opportunity to visit much of the country, and returned with a number of color slides which he will show to illustrate his speech.

Football Team Meets Gators Tonight

Polymen Seeking Repeat Win In Northern Stadium

Still undefeated after three tough conference games, Cal Poly's Mustangs move out of league play tonight when they invade San Francisco State college's Cox stadium for an 8 p.m. date with the Gators. Coach Roy Hughes talented eleven has amassed 119 points in defeating Fresno State, San Diego State and Santa Barbara college in three CCAA contests. Paced by a powerful line, headed both on defense and offense by Center Stan Sheriff, little All-American candidate, the Mustangs have held opponents to 24 counters.

Eleventh Meeting

This is the eleventh meeting of the Gators and Cal Poly. The Mustangs have come out with eight wins, San Francisco one, and one game was a tie. The locals defeated Joe Verducci's hard hitting eleven, 34-26, last year in Poly stadium.

Cal Poly coaches Hughes, Sheldon Harden and Howie O'Daniels, aware of a strong San Francisco squad, headed by quarterback Maury Duncan, have called for some special drills the past week. "San Francisco State is pointing for this game," Hughes points out, "they would like to knock us

off more than any team on their schedule."

San Francisco State currently is riding undefeated also, having dumped Cal Tech 52-0, and Moffett Field, 20-13.

Passer De Luxe

Hughes stressed pass defense this week in hopes of stopping the throwing of Duncan. The ace passer completed 16 out of 34 attempts against Moffett Field last week. His favorite target has been wingman George Wehner, a transfer from St. Mary's two years ago.

Hailed as one of the best centers on the coast by the Mustang coaching staff, Sheriff will be on a "homecoming," having been named twice all-city while playing for San Francisco's Washington high. Sheriff was the outstanding lineman in the San Diego State and Santa Barbara games.

Thad Murrin

Bud Chadwick

Halfback, End Aiding Poly Fight For Crown

The two Mustang football players pictured above were both instrumental in last week's impressive thumping of Santa Barbara. They'll see lots of action in San Francisco tonight when Coach Roy Hughes' men tangle with the SF State eleven.

Thad Murrin, a Modesto product, operates from the right halfback position, and has been an outstanding player in all three Poly games to date. Against Fresno State, Murrin took a 45 yard pass from Bob Neal to set up the local's first score, and against San Diego State he intercepted a Paul Held pass and rambled 30 yards for a score.

Last week, Thad was outstanding on defense and showed his terrific style of running when he faked-out two Gaucho defenders on a brilliant 14 yard scoring jaunt. Murrin is a junior, majoring in air conditioning.

Bud Chadwick is a newcomer to the Mustang eleven this year. The 195-pounder gives Poly great strength at left end, and the lad from Cotati is also one of Poly's best punters. Chadwick has been a tower of strength on offense and defense in every game, and showed his pass-catching talent against the Gauchos just last week.

Chadwick is a sophomore, and already looks good enough to be a solid bet for All-CCAA honors. Bud's brother, Bob, plays a whale of a game at fullback for the Mustangs.

Soccer Club Asked By Volunteer Coach

Soccer football the continental counterpart of American football, is getting underway at Cal Poly. Hans Mager, architectural engineering instructor, has volunteered his services to act as head coach, and he was quick to announce that all interested men should contact him at Extension 269.

"It takes eleven men for a soccer team," Mager said, "and with 2800 men on campus, many of them with previous experience at playing the game, I'm sure we'll be able to field a good team."

The forthcoming schedule may include some of the big schools on the coast, said Mager, as tentative dates with San Jose, USF and SF State are being arranged.

Colt Football Team Idle After Monterey Tie

Coming from behind, the Cal Poly Colts showed tremendous improvement last week when they tied Monterey Peninsula college 6-6.

The PICTURE SHOP

Photofinishing
Specialists

1371 Monterey

Monterey scored in the first quarter on a 20-yard end run, but Coach Jim Jensen's charges roared back on the pitching arm of quarterback Ben Montoya to knot the count. Montoya's passes to Royal Yearwood, Bill Rohrer and Ken Huddleston moved the ball to the one yard line where Montoya sneaked over. The score capped a 70-yard drive.

Knocking On Door

The Colts were knocking on the door during the second half, but penalties or fumbles throttled every threat. Coaches Jensen and Tom Lee praised the work of Montoya, who threw well and called a smart game. Yearwood turned in a good job on defense, as did Wayne Shetler and guard John Oakes.

TOUCHDOWN LEADER STOPPED. Perry Jeter, Poly's leading scorer and halfback sensation, is stopped just nine yards short of paydirt in this play against Santa Barbara last week. Jeter scored twice against the Gauchos to run his season point total to 28.

Gauchos Fool Kick Of Mighty Mustang Grid Team, 59-6

With three straight conference victories safely tucked away, the Cal Poly football machine is way out in front in their battle to keep the CCAA title they won for the first time last year. The gridgers of Coach Roy Hughes smashed Santa Barbara college last Saturday night, 59-6, as a highly partisan San Luis Obispo crowd was treated to its first glimpse of the "finest team in Poly's history."

Gauchos Out Of It

The Gauchos from the beach town were never in the ball game, as Poly backs ran at will through the visitors' line to score nine touchdowns and add five bonus points. It was a case of the Mustangs' fine line just being too rugged for the Santa Barbara crew. Tackles Bob Houston and Sheldon Williams, guards Vic Hucoila and Joe Rosnich, and center Stan Sheriff were in command from the start. Sheriff was again the outstanding lineman on the field as he continued his bid for Little All-American honors.

The Scoring

Bob Lawson opened the scoring in the first quarter with a four-yard blast over the Gaucho middle, and from there the scoring went like this: Perry Jeter, 10 yards with a swing pass from Bob Neal; Dick Moran, recovered a Gaucho fumble in the end zone; Thad Murrin, 14 yards on another swing pass from Neal; Bob Lawson, 30 yards with an intercepted pass; Perry Jeter, 4 yards on a smash at tackle; Bob Smith, 20 yards on left-end run; Bob Chadwick, 12 yards off tackle, and the same Chadwick on the same play for 20 yards. Murrin added three extra points, Ron Davey got one, and Jeter added another to wind up the Poly scoring.

The INSIDE OUTLOOK

By Frank Tours, Jr.

There's no doubt about it... Cal Poly has a mighty fine football team. If there's a weak spot on the club, it hasn't shown up yet. Did you see Jimmy Miller (the Pride of SLO), Bob Chadwick and Mel Hawkins ramble against the Gauchos??? They were great... The Hughesmen grabbed touchdowns by the gross the other night, but the play of the game was Thad Murrin's 14-yard scoring jaunt with a Bobby Neal "awing" pass. Murrin faked two Santa Barbara lads right out of their sport's store specials...

They're the Must

At the risk of putting the hex on the boys, it looks like they've already "iced" their second straight CCAA championship. Sure, LA State upset Fresno last week, and they'll be tough... but not enough. San Francisco State is next in line for the Mustang machine, and the Gators are probably the biggest hurdle in the way of non-league competition. Joe Verducci's boys will no doubt be "up" for this one, but when the Mustang line gets through with 'em, 'tis probable the SF men will have to pick themselves up all over again... Poly will win, 40-18.

The school scoring record is in serious jeopardy this year. Right now the local grids are the highest scoring team in the nation. Maybe... There might be some secret outfit hidden in the southern bushes with more than 119 points, but we haven't found 'em.

Poly Phase Outing at Morro Bay

Judging by the turn-out and the returning bills, the Poly Phase club's annual barbecue was a smashing success. Held last Sunday at Chorro Willows near Morro Bay, the outing was completely paid for out of the club treasury and was free to all members and prospective members.

On the menu were such exotic

items as barbecued rib steaks short ribs, potato salad and all the other goodies that go along with barbecues. The committee in charge was headed by Jess Herrera, and the after dinner festivities were led by Walter Copper.

With a total of 60 in attendance, a good time was had by all.

Tuolumne Meets; Officers Chosen

Tuolumne dorm held its first meeting of the school year last week when election of officers was held, according to dorm manager, Allie Caga.

Officers elected were as follows: Jack Schor, president; Alan Schoobalen, vice president; Jakob Schor, secretary; Joel Rottman, treasurer; John Ruby, sergeant-at-arms; Bob

Edwards, intramural chairman. Dorm members will meet Monday, Oct. 19, to plan an intramural program.

The School For Country Printers, Cal Poly's printing department is now in its thirty-first year of operation.

Between California and Highway 1

12 NEW
MODERN
UNITS

He built a
\$100,000 business
with a \$1 bill

1. George Sevelle, at 26, had been a waiter, window-dresser, candy-maker and race driver's mechanic. In spare moments, he dabbled in home chemistry. Through this hobby he developed a paint cleaner and preserver. In 1939, he brought his product to Union Oil.

2. Sevelle demonstrated how it could be used to "launder" our service stations with better results and for less money than we had been spending. Naturally we were interested in improving station appearance at less cost. So Sevelle took on the job of cleaning several Union Oil stations on a regular schedule. He was in business for himself.

3. The sole drawback was that Sevelle had no truck to haul his equipment from station to station. His capital consisted of a single dollar. So Union Oil agreed to lease him one truck. He did such a good job that his contract was soon expanded to cover 150 stations.

4. Today Sevelle is almost an institution. He contracts for the cleaning of 4,000 Union Oil stations in 7 western states. He employs 35 men, operates 12 big trucks and 6 house trailers where his crews live in comfort. On top of running a \$100,000 a year business, he's a Southern California community leader, an active member of five local organizations.

5. This story is important, we think, for several reasons. First, it's a real rebuttal to the defeatists who say there's no opportunity left in the U. S. A. for a go-getter who'd like to be his own boss. We say (and Sevelle seconds us) that there's ample room for the ambitious to spread their wings.

6. Sevelle's success also points up something many people don't realize—the relationship between big and small business in every field of industry is healthy and helpful. Each is dependent on the other. So as Union Oil grows, it helps

other enterprises grow too. After all, any company keeps on growing only as long as it pleases people.

UNION OIL COMPANY OF CALIFORNIA

INCORPORATED IN CALIFORNIA, OCTOBER 17, 1909

This series, sponsored by the people of Union Oil Company, is dedicated to a discussion of how and why American business functions. We hope you'll feel free to send in any suggestions or criticisms you have to offer. Write: The President, Union Oil Company, Union Oil Building, Los Angeles 17, California.

THE AMAZING PURPLE MOTOR OIL

Improved Facilities In Cafeteria No. 2 To Reduce Waiting

Roller is in sight at cafeteria No. 2 for student lines, according to O. A. Bertram, cafeteria manager.

"Alterations within the cafeteria located near the freshman dorms, and the installation of additional equipment will soon permit two lines," Bertram explained.

"Another service soon to be inaugurated will be the placing of daily menus in each dorm," Bertram added. He went on to emphasize that all students are welcome to extra quantities of potatoes and vegetables without additional cost if they ask for them.

According to Bertram, students should have about \$82.50 remaining on their meal tickets as of Oct. 15 in order to cover the remaining dinners and suppers and one-half the breakfasts, excluding weekends. Students are urged to use their tickets conservatively by eating an occasional meal elsewhere.

"In our constant effort to improve the cafeteria program, we always welcome constructive criticism from the students," he emphasized.

The two cafeterias on the campus which Bertram supervises serve approximately 3,000 meals daily.

Flower Fanciers Furnish Fabulous Feed

The Ornamental Horticulture club and guests, worked off some huge appetites on the ample steaks barbecued by Ed Costa last Sunday afternoon at Cuesta Park. Ed tried out his basting sauce and its strength left the diners "breathless."

Between mouthfuls, Ed Mattson, department head, Ralph Harvey, prize and Davila Millard, vice president of the club, mumbled something like, "Good! Good!"

While the members, their wives, guests and a swarm of youngsters were stuffing themselves, Dick Waldlow, the club treasurer kept busy collecting dues to swell the O.H. club coffers for the year.

As the last platter was cleaned and the dying coals crackled in the huge barbecue pit, the guests leaned back, comfortably patting their well-filled middles, sighing happily. "the smile on each face the smile of content."

FLOAT ENTRIES CLOSE

Today, or at the latest, tomorrow morning, will be the last opportunity to submit Rose Parade float designs. Those students submitting last-minute entries should mail them to Bob Smith, chairman Rose Parade activities, San Dimas.

AC Meets Tonight; Plans To Be Made For Barbecue

Assistant Dean of Engineering C. A. Knott, will speak on the beginnings and history of the air conditioning department when the Air Conditioning club meets tonight in Library 114.

During the business meeting that will precede Knott's address plans for a barbecue Oct. 18 in Cuesta park will be aired. Chairman Bill Miers has a man-sized menu of steak, beans and salad planned and this, plus excellent recreational facilities at Cuesta, promises to make the affair an enjoyable one.

Miers urges all members to attend and married ones are requested to bring their wives and children.

Poultry Club Holds First Meeting

The first Poultry club meeting of the new school year was held last week. New poultry students were introduced by old members and slides were shown of former Poultry club activities. Slides of a fishing trip in the High Sierras were shown by Leo Sankoff, poultry instructor.

Refreshments were served after the meeting.

Approximately 900 hogs, 400 beef cattle, and 800 sheep are fed and marketed by animal husbandry students each year.
