**ANNUAL INSPECTION** ... Shown above is the inspecting party for the annual Federal inspection of ROTC cadets held Monday. Front row, left to right: Lt. Col. P. A. Loisel, MS&T commander; Col. M. H. Robertson, inspecting officer from Fort MacArthur; Cadet Col. Charles Shields, ROTC battalion commander. Back row Dr. Robert Maurer, acting head of the Liberal Arts department; Captain G. W. Thomas; Captain R. Gansel, inspecting officer; Major H. H. Braunstein and (hidden) Major W. S. Hastings, inspecting officer. (Photo by Harvey Kidder.)

## Camp Ocean Pines Selected For Leadership Conference

Jerry Hill, chairman of the Leadership Conference committee, announced today that the Third Annual Leadership Conference will be held at Ocean Pines camp, near Cambria, during the first week end of the fall quarter.

The date, said Hill, was selected primarily to avoid conflict with home football games. Choice of site was dictated first, by its convenience to Cal Poly, and second, for the comparatively low cost of accommodations. Ocean Pines camp will house approximately 100 students and those wishing to attend for one session and return on the same day may do so, Hill said.

Tentative agenda will include three panel discussions. 1. Relations between students and the residents of San Luis Obispo; 2. Student body participation in school activities; 3. College Union. Workshops in the areas of leadership, orientation of student activities, group dynamics, coordination of student government groups and advisors' workshops will be held, he added.

Hill warns that with a maximum of 100 students in attendance at the conference, it will be first come, first served. Clubs or activities interested should plan on being represented at current meetings, he concluded.

## El Rodeo Sets New Record For Early Delivery Will be Ready Thursday

Cal Poly's 1954 "round-the-clock" El Rodeo took a firmer hold on its record for all-time early delivery today when Editor-in-Chief Bob Colomy announced his pride and joy would be ready for distribution next Thursday morning—a day earlier than originally set.

Trucked from a Los Angeles publishing plant, the books will be distributed here at the mimeograph room just across the hall from the SAC office in the basement of the Administration building. Those who have paid for their books or made deposits will be expected to bring their receipts with them.

All who obtain books will be asked to fill out an address coupon which will bring El Rodeo's summer supplement to their summer addresses.

Yearbooks on which deposits have been made and which are not called for by May 17 will be sold, Colomy says.

Special "name-plate panels" on the 1954 El Rodeo cover will take gold stamping, and El Corral will stamp owners' names on their books for thirty-five cents.

## Baseball and Track Areas Dangerous

It has come to the attention of the authorities that small children are running about the baseball and track areas without parental supervision.

Students practicing golf shots or playing informal baseball games are cautioned to be careful when these children are in the area. Only last year, a youngster was killed in Paso Robles when struck by a golf ball.

All residents of Poly Ninos have received a note from Everett M. Chandler, dean of students, cautioning them not to allow their children to play in the area without supervision.

## "Jane Eyre" Showing Slated For Saturday

"Jane Eyre." Film society presentation, will be shown in Engineering auditorium tomorrow night, says Ray Lyon, society member.

There will be two showings, one at 7 and one at 9 p.m.

## Cadets Look Good In Annual Federal Inspection

Parading in typical Army fashion, Cal Poly's ROTC cadets showed much improvement over past appearances at their second annual federal formal and general inspection held here last Monday.

Marching to the cadence of the ROTC band, led by drum major Bill Kleppinger, the cadets were at their best. Parading on the stadium field in true marching form, they looked very good. "Poly can be proud of the fine showing the cadet corps made during this inspection," commented Major H. H. Braunstein.

Inspecting officers were Lt. Col. Harry Robertson from Fort MacArthur; Major William Hastings and Capt. Robert Gansel, both of the UCLA military department.

"The inspecting officers indicated that the unit was well trained and that the armory was especially outstanding in its appearance," said Lt. Col. P. A. Loisel of the Poly military staff.

Cadet Major David Johnson, battalion executive officer, was complimented on an excellent job as commander of the troops," said Major H. H. Braunstein. In turn, Johnson complimented the entire cadet corps on a job well done.

In conclusion of the federal inspection the entire battalion demonstrated their marching achievements by passing in review.

**Collegiate Quartet**... This talented group appeared last night at San Luis Obispo auditorium as part of the entertainment for the annual Home concert. They will be heard again tonight. Left to right: Don Clark, Robert Fish, Bob Cheney and Al Giraud.

## Alleged Illegal Campaign Practices Investigated

### Martin, Johnson, Anderson Top Associated Student Body Voting

By Bill Long

Associated Student Body election results were still up in the air as El Mustang went to press. According to ASB vice president Ray Lyon the election committee was holding the official results—until the committee could hold an investigation of alleged infractions of campaign rules. At press time, unofficial results, released by Lyon, showed junior crops major George Martin, as the new ASB president, and junior animal husbandry major, Dick Johnson, as vice president.

### LATE BULLETIN

Meeting yesterday at 11 a.m., the election committee moved unanimously to disqualify George Martin, ASB presidential candidate, and Dick Johnson and Bruce Ramsey, vice presidential candidates.

At press time, the election committee was still considering charges lodged against Art Mullett, also a presidential candidate.

The motion was in the form of a recommendation to the Student Affairs council which meets in special session, today at noon, Lib. 206. The SAC will make the final decision.

A recount of vice-presidential ballots was also called for by vice candidate Ramsey.

Martin was charged with illegal placing of campaign signs, and failure to remove signs after the Tuesday, 8 a.m. campaign deadline. Johnson was also charged with illegal placing of campaign signs. Ramsey was charged with campaigning before the April 16, 11 a.m. opening hours. Mullett was also charged with illegal placing of campaign signs.

Sherwood Darrington, a vice presidential candidate, pointed out to the election committee, that he had found six of his own campaign handbills around campus after the Monday morning deadline. The election committee decided that the breach was not serious enough for disqualification.

ASB vice president Ray Lyon, who heads the election committee stated that he "would urge the SAC to reach a decision" at today's noon meeting. Lyon also stated that another situation "might be brought about."

### Only Secretary Legal

Charles Anderson was officially named as legally elected secretary. No protests were lodged against either secretarial candidates.

The alleged infractions, involved approximately half of the presidential and vice presidential candidates. Illegal placing of campaign signs and failure to remove signs by the Tuesday morning deadline, were named by election officials as the most common infractions.

As outlined in the ASB constitution, the election committee will hold an investigation of all alleged infractions. If the election committee rules a disqualification, the Student Affairs council must be called into special session for a final decision.

Investigations Under Way  
The election committee opened investigations yesterday morning at 11 a.m. Records showed the investigations unprecedented in recent Poly history.

A survey of student officials revealed a wide difference of opinion, concerning the situation, and speculation was running high.

A possible disqualification of one or more of the leading candidates would make another election almost inevitable.

However, if one of the disqualified candidates were low in total votes, a legal winner could be named from existing ballots.

### GI BUYING DEADLINE

Spring quarter GI buying will terminate May 1. Veterans under public laws 244, 16, 254, Point 4 and State Rehabilitation are warned that books and supplies will not be issued after that date.

## Student Opinion Reflected On Proposed Voting Change

By William S. Miller

In his recent State of the Union address President Eisenhower urged the passing of an amendment to the Constitution which would lower the American voting age from 21 to 18 years. Although most legislators take a dim view of the probability that this amendment will be passed, a

person 18 should vote. As a rule, they aren't mature enough."

Greg Tomko, 18, AH major, San Francisco: "I think they should be allowed to vote. Many older people who could vote, do not. Probably many of the 18-year olds wouldn't bother to vote, but those who are serious-minded would take advantage of having the chance."

Charles Scarborough, 20, AH major, Phoenix, Ariz.: "I think they should lower the voting age to 18. If you start a person young, he may continue to vote because so many older people do not vote. Young people would have more interest."

Perry Jeter, 22, DM major, Steubenville, Ohio: "I think it is a hard thing to decide. So many people accuse the teenagers of doing wrong things. If they are drafted, they should be allowed to vote, for then you leave home and go into a more mature life."

Hans Van Nes, 17, AH major, Redding: "I think that if they are 18, they should be able to vote, especially if they are expected to fight. The trouble is that most 18-year-olds are not even mature enough to fight."

Warren Dolan, 18, Aero major, Oroville: "When a person goes into the service, he becomes more aware of what's going on and starts to think for himself. He begins to wonder about his future and what kind of government will be in his future. This makes him want to have a voice in the future government and take part in it."

survey of student opinion at the California State Polytechnic college showed that out of 18 students interviewed, seven were in favor of lowering the voting age, while only three disagreed. Two students were indifferent. Their opinions were expressed as follows—

Gerald Murphy, a 19, AH major, San Francisco: "If men are allowed to go overseas to fight, they should be allowed to vote. If an 18-year-old is expected to help run a business and work, he should be able to vote."

Murray Wright, 22, AE major, Long View, Wash.: "Too many 18-year-olds do not know what they are doing. They do not worry about the government very much. They never know what is going on in the world."

David Pollock, 18, Arch. major, Los Angeles: "I guess it wouldn't be a bad idea. They have been doing it in Georgia since 1945. If a man can fight, he should be able to vote. Everybody says kids are too young."

Dale Creasy, 20, El. major, Santa Maria: "I don't think it will make any difference. When the women started voting, it didn't make any difference. Only a few would take advantage of the right anyway."

Carl Cowen, 20, EE major, Cambria: "If a man is old enough to dodge bullets, he should have something to say about the reason he is fighting."

Harold Lee, 20, DH major, Visalia: "No I don't think it should be. I don't think a person 18 is mature enough as a whole. He's physically fit but not mentally fit."

John Whitney, 18, Social Sc. major, Fullerton: "I don't think a

## Kimber Award Set Up For Poultry Majors

A \$500 scholarship, known as the Kimber Scholarship in Poultry Husbandry, will be awarded annually to a Cal Poly college student with a serious interest in the poultry industry, President Julian A. McPhee announces.

The scholarship will be awarded to a poultry major and may be selected from high school or junior college students applying for admission into the college. The award is not made until the student enrolls.

Selection of the recipient will be based on merit with academic record, leadership and poultry industry activities being considered. The selection will be made by the college scholarship committee.

John E. Kimber is president of the Kimber Farms, Inc. and is one of the leading poultry breeders in the nation.

"Mr. Kimber has always shown interest in young people and has encouraged them in their life work," President McPhee says.

Richard J. Leach is head of the Cal Poly poultry department which is in the process of moving into a new plant with a capacity of 4000 to 5000 hens.

## Cal Poly Grangers Host Grange Master

Cal Poly Grange No. 778 was paid high tribute recently by visiting California State Grange Master George Sehmeyer.

Sehmeyer, who has been Master for 34 years, spoke to the Cal Poly Grangers April 14 on the importance and privilege of voting, and complimented them on their youth activity program.

Student wife Marion Harrington came in for plaudits from Sehmeyer for her presentation of the flag.

Before refreshments were served to the 150 guests and Grangers, Michael Younis, foreign student from Iraq, told the group of the agricultural methods and customs of his native land.

Dorcas Kernok, animal husbandry major and master of the local organization presided.

## College Union Profits

Would you like to help your College Union fund?

On sale now in El Cerral book store are scratch pads, the proceeds from which will go to bolster the fund. These pads are about six by nine inches, and will fit well into any of your books, and can be used for a multitude of purposes.

Cal Poly Young Democrats have prepared the pads especially for you. Cost is only five cents per pad. A real saving for you. And a real boon to the College Union.

## P.O. BOX RENTALS

Students living in the vicinity of the college this summer but not enrolled for summer quarter, may rent a post office box for the summer months by paying a \$5 rent fee to the cashier in the Administration office.

## Desirable Employee Traits Outlined

By Ted Plalster

"Do unto others . . ." may have been said a good many years ago, but application of these principles pays off today just as well as it did long ago.

And it's the secret of a harmonious office staff, according to Owen Servatius, supervising clerk, who holds away over as many as eighteen employees at one time in the general office at California State Polytechnic college.

"You can have people working in fear of you," Servatius said, "or you can have people working with you. I like to think the girls and I are working together in the general office to serve all of Cal Poly."

## Sincerity Counts

Sincerity comes high on the list of qualifications that Servatius looks for when interviewing prospective employees. Servatius interprets sincerity as a real desire to work. "When an applicant looks bored, high-hat, or even too eager, then she has two strikes against her," Servatius claims.

Friendliness and a well-modulated voice constitute desirable attributes for the hopefuls. He said that a raspy or too loud voice creates an undesirable business atmosphere. "These are things that can be controlled by a conscientious girl," he emphasized.

Commenting on the general need of clerical help in the business world, Servatius said, "Most girls applying for jobs today are really not proficient in their basic skills. If they would but study typing

and shorthand every year they are in school, and learn it well, they could write their own ticket upon graduation."

## Planning Necessary

Servatius has found that if an employer knows what he wants to say, and has outlined it roughly in his mind, he will have no trouble dictating letters. "This also applies to routine flow of work," he stressed. He said that planning on the part of the executive was of tremendous importance in maintaining a live-wire and effective organization.

Reiterating the theme of the Golden Rule, Servatius gave these words of caution to all employees in his office—present and future: "The quickest way to get your walking papers around this office is to talk down to students. We're all one family here, and we all rank alike."

## Knokey Addresses Campus AC Club

"Design and Application of Low Temperature Systems" will be the subject of an address to the Air Conditioning club tonight by Charles R. Knokey, Poly alum of 1947.

Knokey, head of the engineering development department of Drayer Hansen company was an instructor in the Air Conditioning department for three years.

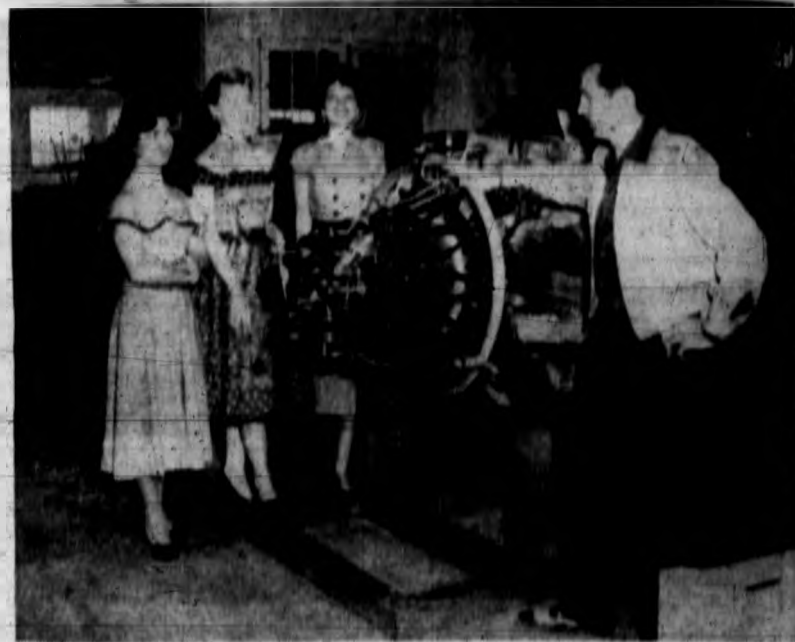

Preceding the talk, there will be a dinner meeting at Harry's Place in Pismo Beach.

## Graduating Engineers

Research development and production activities at Northrop Aircraft, Inc., create a continuous demand for young men who are building careers in the fields of engineering and science.

If you have had training that qualifies you for:

Aeronautical Engineering	Boundary Layer Research
Mechanical Engineering	Aerodynamics
Electrical Engineering	Thermodynamics

and if you want to build a permanent, successful career in one of America's foremost research, development and production centers . . . if you want to locate in the Los Angeles Metropolitan area . . . please contact California State Polytechnic Engineering Placement office.

## Interviews

Campus interviews will be conducted by Mr. Don Colvin, Engineering Personnel Representative of Northrop Aircraft, Inc., on April 28 at California State Polytechnic Engineering Placement Office.

Please make appointment in advance so your interview may be scheduled for your convenience.

## Foreign Students Have Need For Integration

"There are eight areas where in relationships between foreign students, the college and the community can be improved. They are initial orientation, community hospitality, student loans, legal counseling, opportunities for employment, professional contacts, scholarships and cultural arts."

In this manner William H. Miller, field representative for the Institute of International Education, outlined the most pressing needs of the foreign student at California State Polytechnic college when he recently addressed members of local civic organizations, clubs and college groups in Walter Dexter Memorial library on the Poly campus.

**Workshop Discussion**

The meeting was called by Everett M. Chandler, dean of students, as an informal workshop discussion. Ray Lyon, student body vice president thanked the local citizens in attendance for their continued interest and willingness to help the college by their presence at the meeting. He added that he was proud to have the opportunity to be a student of the college and to have the opportunity

## Gage Named President Of Lassen Dorm Club

Two movies, "Diesel Power" and "Hereforda" were shown when Lassen Dorm club met recently with new proxy Dave Gage presiding, after which members discussed future plans and activities.

It was decided that the club would not sponsor a Poly Royal booth this year due to the nature of current departmental activities.

Plans were drawn up for a barbecue sometime this quarter, tentatively scheduled for Cuesta park.

All students are invited to attend meetings and see the movies which will be a regular part of the entertainment, says Gage.

to associate with its foreign students.

According to Chandler, the increase from 84 foreign students two years ago to the present 150 with 22 countries represented has caused problems that do not always have a ready solution. He added, "The Institute and the college have a primary concern for the administration of exchange program and for the formal education of these young men who will be the future leaders in their own countries. A very necessary part of the program, however, is their social integration and an opportunity to understand our American way of life, a responsibility that rests with the American communities. America's greatest need today is for sincere friends abroad, and each concerned person in the community can take a direct and active part in developing these international friendships and a better understanding among nations."

Those interested may contact L. Roy Dart, chairman of the Luis Obispo hospitality group, phone 868-W, or Dean Chandler at Cal poly.

## Rodeo in Northwest Lures Poly Cowboys

Cal Poly cowboys are looking forward to the second rodeo of the season this week-end after grabbing third in the first of two northwest events Saturday.

Jim Lyon took a first in the calf roping to help the locals total 248 points. Placer junior college was first with 287 points with Brigham Young university second with 262.

Also entered were Colorado A and M. Washington State, Eastern Washington college, Idaho and Montana State.

This week-end's activity will be in Pomeroy, Wash., with Washington State college sponsoring the event.

## Campus FFA Name Koobation Prexy

Martin Koobation of Visalia has been elected president of the Collegiate Future Farmers of America, Cal Poly chapter.

Koobation is a senior ornamental horticulture student.

Other officers named are: Vice president, Roy Randles of El Monte; secretary, Roger Cook of Santa Maria; treasurer, Ray Parsons of Bell; reporter, Byron Harrison of Strathmore, and sentinel, Dale Miles of Sunnyside, Washington.

An important activity of the college chapter of the FFA is the supervision and tabulating of the state FFA judging contest to be held on the Cal Poly campus Saturday, May 10. Close to 800 FFA members are expected to attend the confab.

## Job Interviewers On Campus Today

Continuing job opportunities exist for seniors as releases are received from prospective employers. Today interviews are being held by Bruce McKay, Marquart Aircraft company representative, who is interested in Aero, EE, EL, ME majors.

The Bank of America is sending employment supervisor Gray Fagin on Wednesday April 28 to interview seniors in agriculture and social science. An opportunity will be given selectees to participate in a special acceleration training leading to positions in fields of trust, error and appraisal work.

The same day, Northrop Aircraft company will have its industrial relations representative interview seniors and alumni in the fields of Aero, EE, ME, EL, Physical Science and Mathematics.

## Contest Chairmen Are Named For State Judging

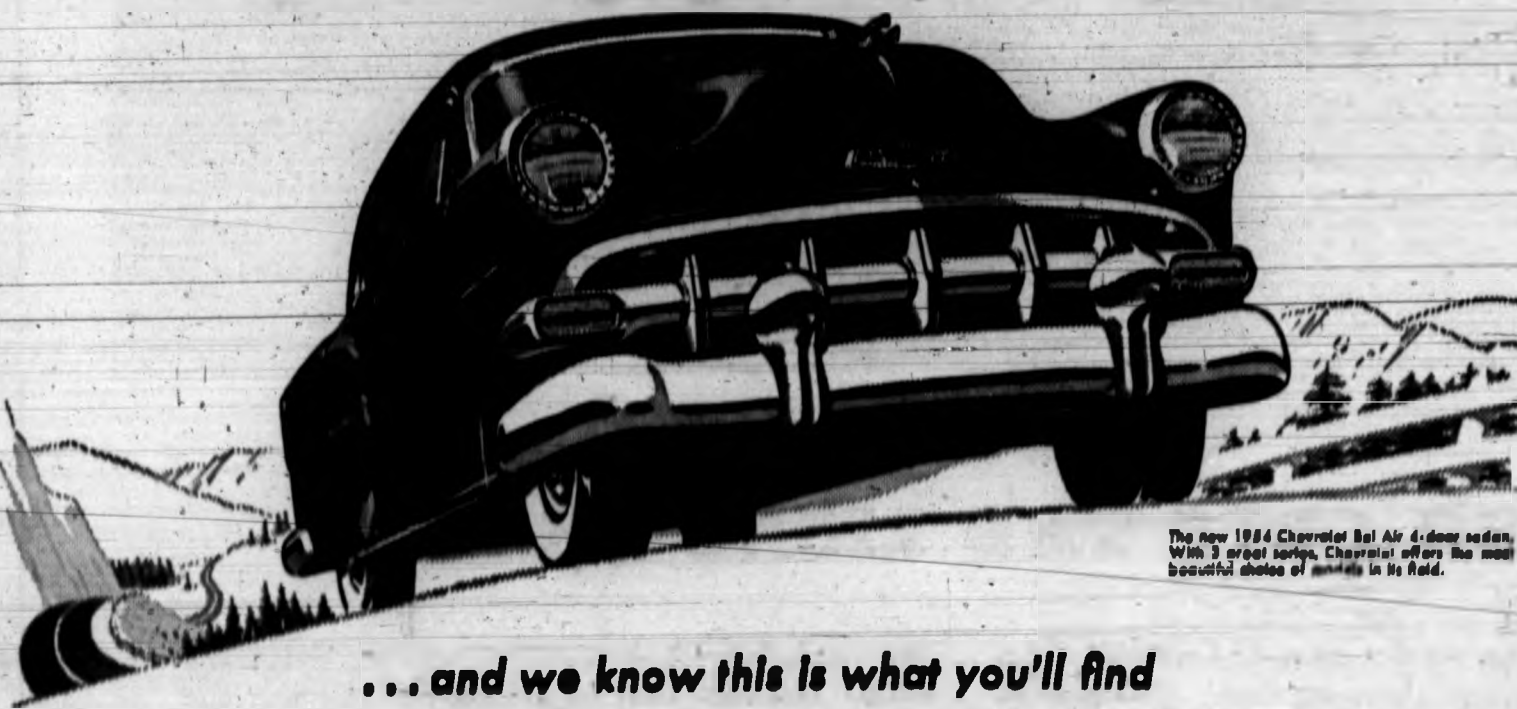

General contest chairmen for the Future Farmers of America state judging contest to be held on the Cal Poly campus, May 8 were announced today.

Mike Furst of Los Angeles, will chairman the tabulations committee, and Jerry Davis of Colusa, will head the general contest committee.

Individual contest chairman also were announced to conduct and tabulate the various contests for the 800 FFA members who are expected to attend.

Events, chairman and hometowns are: poultry, Frank La Salle, Pasadena; and Bob Smith, Buttonwillow; milk, Joseph Aguilar, Laton, and Joe Cox, Reedley; meats, Jim Taylor, Comanche, Texas, and Roy Parsons, Bell; dairy, Charles Mills, Memphis, Tenn., and Virgil Lair, Ontario; agronomy, Larry Dinsdale, Yuba City, and Jim Barlow, Brownsburg, Indiana; agriculture mechanics, Adrian Lussel, Santa Cruz, and Kermit Kilewer, Escondido; truck crops, Byron Harrison, Strathmore, and George Martin, Oakland; trees, Martin Koobation, Visalia, and Ron Davey, Hawthorne; livestock, Max Johnson, San Bernardino, and Ray Lyons, Orland.

# Make your own "proving ground" test

The new 1954 Chevrolet Bel Air 4-door sedan. With 3 great series, Chevrolet offers the most beautiful choice of models in its field.

... and we know this is what you'll find

**Chevrolet is out ahead in powerful performance**

**Chevrolet is out ahead in economy**

You can easily tell the difference between engines when you drive—and the difference is all in Chevrolet's favor! That's because Chevrolet's great engines deliver full horsepower where it counts—on the road. What Chevrolet promises, Chevrolet delivers!

There's new power, new performance and new economy in both 1954 Chevrolet engines—the "Blue-Flame 165" in Powerglide models and the "Blue-Flame 116" in gearshift models. And they bring you the highest compression ratio of any leading low-priced car. That's why they can deliver a big gain in power, acceleration and all-around performance, along with important gasoline savings!

Your test car's ready now... We'll be glad to have you compare the smooth, quiet performance of this new Chevrolet with any other car in its field. Come in and put it through any kind of "proving ground" test you care to, and judge its performance for yourself. Your test car's ready now and we hope you are, too.

Year after year more people buy Chevrolets than any other car!

## Could Happen Here

From Fullerton JC Tereh  
Irrked by the ringing of carrillion bells, a University of Colorado student sued the board of regents for \$1,000 for "mental damages." But despite testimony of friends who said he had become "ill-tempered" since the bells began to ring, and a university psychologist, who said "prolonged stimulation could have such effects," student Glen Greenwold lost his

case before the campus court. Greenwold charged, "The noxious bells distract me while I work, disturb my work schedule, and have caused me great mental and emotional damage." One day, he said, upon hearing the bells he tore up a report which had taken him several hours to compile.

In 1941 the Poly Royal Board of directors decided to invite coeds from other state colleges to reign over the all male student body.

## PSYCHIC

At a supper party in London, the actor John Loder was seated next to an attractive French woman who lives in Italy. Loder, who knows the country well, asked in what part, and she replied, "In se Nora."

"What beautiful lakes you have," he said.

"How can you see them?" she asked. "They are under se table." Leonard Lyons

Everyone on campus knows the news, but they all read El Mustang to see if it's printed right.

In 1938 Cal Poly was changed from a junior college to a two-year and three-year technical college.

## WHO GETS THE LION'S SHARE ?

In 1953 the Union Oil Company of California did a \$325,103,000 business. That's big money. Who gets the lion's share of it?

### The employees ?

In wages and other benefits, 9,263 Union Oil employees earned \$55,564,000. The average per employee: \$5,998.

### The tax collector ?

He did all right, too. Federal and other taxes took \$21,821,000.

(This does not include \$55,239,000 additional in fuel taxes which we collected for the government.)

### The stockholders ?

No, the stockholders did not get the lion's share.

They were paid \$11,690,000 for the use of their money, plus a dividend of one share of common stock for each ten shares of common held. This was divided among more than 40,000 people.

Well, who did get the lion's share ?

After we replenished working capital by \$20,088,000

(over and above the \$55,564,000 paid employees, the \$21,821,000 that went to the tax collector and the \$11,690,000 to stockholders), the lion's share — or \$215,940,000 — was divided among more than ten thousand companies and individuals we do business with.

Some went for services. Some for materials. Some for wages.

But all of the lion's share of Union Oil's 1953 gross income was reinvested in the American economy.

Maybe it helped make your job a better one.

**UNION OIL <sup>76</sup> COMPANY**  
OF CALIFORNIA

Buy American and protect your standard of living

# Baseball Squad Now Leading League

## Trackmen Prepping For League Finals

Splitting a couple of meets last week, the much improved Mustang spikesters of Coach Jim Jensen are now readying for the CCAA meet scheduled to be held on the San Diego State oval on May 1. Judging from past performances, the Bulldogs from Fresno State college should repeat as league champions. The real competition will be for the runner-up spot according to coach Jensen.

### Bulldogs Romp

Last Tuesday afternoon the Mustangs were soundly beaten by the Fresno crew on the victors' cinderpath, 91-40. The showing was a big improvement over the '53 dual meet with the Bulldogs, however—the latter being a Fresno runaway, 120-10! Notching a pair of wins for the Mustangs was hurdler Pete Godines, but he had to settle for a tie in the 220 yard low. Godines won the high sticks in 15.1 seconds, and the low were run in 25.1.

The "terrific Turk", Halil Karlman, won his javelin specialty with a fine 208' 8" toss.

Fresno's Herbie Turner took both sprints, edging out Poly's Millard Hammett and Alex Bravo in the good times of 9.8s for the 100 yard dash, and 21.4 in the 220. Last Saturday Poly romped to an impressive 44-42 win over San Francisco State college on the loser's field.

## Hughes Issues Call To Spring Gridders

Coach Roy Hughes, known around here as the "silver fox," issued a call early this week for all prospective '54 gridders to turn out for spring practice, scheduled to start May 8.

"We have lots of suits," said Hughes, "so anyone who weighs 170 lbs. or over (soaking wet) should feel free to come out!" By way of a subtle hint, Hughes intimated that those men who didn't show up for spring practice might not find a spot on the green and gold eleven when the real things gets under way in September.

### Manager's Too

In addition to ballplayers, Hughes added a call for managers saying he "will welcome tryouts for managerial jobs, too."

All interested candidates for football suits should contact the Poly mentor anytime next week in Poly stadium, room 8. When practice starts May 8, the drill hours will be from 4:30 p.m. to 6:00 p.m. An intra-squad game is the highlight of the spring drills.

### Gym Lockers!!

Physical Education director Bob Mott urges all students who are not using gym lockers this quarter, but who have not turned in their gear, to please do so immediately. Lockers are needed for new students, and in PE classes during the spring quarter. All men not using lockers should check out with Coach Mott as soon as possible. His office is located on the ground floor of Crandall gym.

Powerful Pitching Duo... That's Roy Osella (1) and Paul Patrick, two of Poly's outstanding hurlers. Patrick recently pitched an outstanding one-hitter against San Diego State as Poly shutout the Aztecs, 3-0. Osella has an outstanding 2.77 earned-run-average. (Photo by Healey)

## Poly Net Quartet In Ojai Tourney

Coach Gene Smith and four of his Cal Poly netmen are in Ojai today, competing in the annual Ojai Intercollegiate championships which opened in that town yesterday. Competing for the Mustangs is the doubles team of Vaughn Wright and Mark Hufferaker, and singles aces Javier Ascarrum and Walt Netachert.

The Poly entrants are competing in the independent college division with Santa Barbara and Redlands university the early favorites.

Last week the locals downed the Pepperdine Waves by an 8-1 count. Playing his best tennis of the year was Poly's Vern Hobson who downed Earl Stagner of Pepperdine in straight sets, 6-0, 6-5.

The Mustang netmen return to regular competition Friday, April 30, hosting Fresno State college starting at 1:00 p.m.

## Volleyball Diadem Goes to IRC Squad

The intramural volleyball championship trophy went to the International Relations club on Wednesday, April 14, as they turned back the Poly View squad by a 15-12 count. Leading an inspired IRC team was Turaj Gharemani, outstanding competitor from Iran.

### Outstanding Players

Other men who helped turn the tide for the IRC were Fariborz Asimi, Yarekh Aghevil, Khesrow Hatam and Jamahid Kohan. All of the above volleyball champs came to Cal Poly from Iran.

Individual trophies for team members are in the offing, and a team championship plaque award will be displayed in the gymnasium office, according to Bob Aston and Dick McElveny, co-chairmen of the intramural event.

## Mustangs In North This Week After Dumping San Diego Nine

With a hectic week of CCAA play behind them, Cal Poly's red-hot baseball squad faces Camp Stoneman this afternoon on the second lap of a five-game northern invasion of non-league teams. Poly met Cal in Berkeley yesterday, and faces St. Mary's tomorrow and Soledad prison on Sunday. Coach Bob Mott's horse-hiders are boasting a fine 18-3 season record, and are sitting high atop the CCAA with a 7-3 slate. The Mustang's big win last week came at the expense of San Diego State college, and pitcher Paul Patrick throttled the Saturday visitors with one cheap bingle in a 2-0 shutout.

### Split With Fresno

Last Friday the locals split a doubleheader with Fresno State, winning the opener, 3-2, and dropping a 6-2 verdict in the nightcap.

The pitching staff continues to spark the Mustangs, as in addition to Patrick's fine one-hitter, big Frank Romero has a no-hit, no-run game to his credit. To date, Romero has a .99 earned run average for the year in pitching 49 innings, while Patrick boasts a 1.71 ERA for 43 innings.

Trailing the top two hurlers are Wick Kathan, with a 3.04 ERA and Roy Osella with his 2.77. Leading the strikeout gang is Patrick with 46, while Romero tops the moundman with a 6-0 won-lost record. Patrick has worked five games without a loss.

### Smith Is Great

The play of "Brilliant Bob" Smith in centerfield continues to

draw the praise of Poly fans, and his work at the plate shows him second in the batting department with a .348 average. Second-sacker Joe Mueller leads the latter group with a .350. Smith leads in runs-batted-in with 21, and has three triples to his credit. His power with the lumber has urged coach Mott to move Smith into the clean up spot.

Shortstop Al Nicora seems to have moved out of a batting slump and is now hitting .287 after a stint down in the .100 bracket.

### Newscomers

A pair of newcomers to the Mustang baseball picture, Bob Eusea and Dave Carr, have also been drawing plaudits from local diamond fans. Eusea controls the hot corner, while Carr has shown deft work afield at his first base post.

Probable pitchers in the remaining games this weekend are Wick Kathan against Camp Stoneman; frosh Ken Matson against Soledad, and Patrick slated to work against St. Mary's. Catchers Art Dyer, Jim Zanoli and Mike Rubels will divide backstop duties.

## The INSIDE OUTLOOK

By Frank Tours, Jr.

What with Turn-To and Porterhouse sidelined from next month's Kentucky Derby, could be that California might sneak into the winner's circle at Churchill Downs. . . Now, in case the Feds are looking in, we'd like it known that this is not a Tout Sheet—the following is merely a prediction. . .

### The Winner

The prediction??? Well, Determine will win the Kentucky Derby. . . Determine is a horse, owned by LA's Andy Crevolin—and he can run. . . Ray York in the boot, too—so when he wins it'll be an all-round California triumph. . . If you can find a bookie, bet two for me. . .

The baseball team continues to roll. . . Finest spirit on a local athletic team we've seen around here in a long, long time. . . Worried about coach Bob Mott, though. . . It costs him a buck every time the locals win one—and if it's true what we hear about teacher's salaries, well. . . The crowds have been mighty fine for the Poly games, too. . . Aside from the spirit and hustle, the terrific play of just about every ballplayer out there has done much to bulge the bleachers. . .

### Other Runners

Coach Jim Jensen's track squad has been doing right well, too. . . Javelin thrower Hahl Kariman ranks with the best on the coast now. . . He's thrown the spear over 204 feet. . . Shotputter Lloyd Swingle, sprinters Millard Hampton and Alex Bravo, and pole-vaulter Gordon Uteck form the nucleus of Poly's strongest track team in three years, at least. . .

### Good Man!

Before we go too far, time now to doff the tapper to swimmer Dave High—currently in his final year with Coach Dick Anderson's crew. . . High will leave Poly in June as one of the very few four-year lettermen in college history, and will take with him some six or seven school swimming records. . . A backstroke ace, Dave was forced to live in the shadow of Mustang

## Mustang Swimmers Grab Second Spot In State Tourney

Mustang natators took a back seat to the San Jose State Spartans in the annual state swim meet held at Fresno last weekend.

San Jose piled up an overwhelming 168 1/8 points to second place Poly's 100 1/8. Fresno State came in third with 88 markers, San Diego State had 16, and Los Angeles State trailed with 15 points.

### Lone Poly Win

Backstroke ace Dave High was the lone Poly victor, as he splashed his way to a win in his specialty, the 100 yard backstroke. Newcomer Pete Cutino came in second in the 100 yard freestyle, to further aid the men of Coach Dick Anderson.

Still more Poly points came when diver John Aitken nabbed a second, Dave Newquist earned the runner-up spot in the 440 yard freestyle, and High grabbed

Jerry Neufeld, the freestyle sensation, for three years. . .

A tribute to High came from coach Anderson the other day. "In his four years with the Mustangs, Dave has never failed to improve in every event he attempted—he has been a terrific competitor". . . Nuff said. . .

## Linksmen to Face Fresno Tomorrow

Cal Poly golfers will open the home season tomorrow afternoon on the Morro Bay course against league foe Fresno State college. Play is slated to start at 1 p.m.

In dual competition the Mustangs are still undefeated. Coach Don Watts' divotmen topped Santa Barbara 27-9 and Pepperdine 21-5 in previous meets this season. Both were CCAA matches.

Coach Watts listed the following team to meet the Fresno Bulldogs: Frank Bernardi, Don Moore, Dave Ziemer, Phil Coffin, Bob Whitmore and Loren Hermen.

a second in the 180 yard individual medley.

Poly met Arizona in a dual meet last Tuesday to highlight the week's activities.

## Code Needs Overhauling

One of the most turbulent and bitterness-invoking student body elections in the history of Cal Poly has just ended.

Long before the final tally of votes had been made, charges and counter-charges were flying thick and fast. Alleged infractions included such phases of illegal campaigning as advertising in El Mustang prior to the official beginning of the campaign, posting placards in unauthorized areas and failing to remove campaign literature prior to deadline for close of the campaign.

The election committee, under ASB veep Ray Lyon, met in special session yesterday morning. As a result, Lyon has released the following statement: "The election committee is empowered to make and enforce campaign regulations and, after investigation, the committee recommends that the Student Affairs council, through power vested in it by the election code, disqualify for breach of campaign regulations, presidential candidate George Martin and vice presidential candidates Dick Johnson and Bruce Ramsey.

We feel that the situation is a deplorable one and could have been avoided if candidates and their managers had been conversant with all portions of the election code as outlined in the ASB constitution.

Regardless of the outcome, we believe that NOW is the time to overhaul the election code; to provide for any future contingency that may arise. A firm code, proper liaison between election officials and candidates and rigid policing by the election committee will go far toward preventing a repetition of the current situation, we are convinced.

## The Downbeat

By Ike

This week the Spring activities of the Music department got under way with a real bang. Everything that we have been telling you about started happening last night. If last night is any indication, the Home concert record this year should be pretty terrific.

Tonight is the final performance of the Home concert and for those of you who haven't been to one before, you'd better be there early so that you can get the best seats.

A couple of weeks ago there was a remark made about the rare appearances of our music department, that set me wondering. Did Long mean the band, orchestra or glee club? It occurs to me that the band appears at almost every assembly. The orchestra is on hand for 18 or 14 dances in the course of the school year and the glee club makes at least two assemblies and the Home Concert. Come on out and hear them. Bill, maybe they're worthy of a little support too.

Next week there will be a band concert at the barbecue, the Carnival dance and the Coronation ball. All but the carnival dance will be with music by the band and orchestra.

Two weeks later the orchestra goes to San Dimas for their Poly Vue coronation ball. Hope to see a lot of you there.

### DOESN'T OWN ONE

Alice Roosevelt Longworth tells about a merchant seaman who was being investigated under the McCarran Act. "Do you," asked the interrogator, "have any pornographic literature?"

"Pornographic literature!" the sailor burst out indignantly. "I don't even have a pornograph!"

—CBS-TV, quoted in Tempo

## No Reaction From 18's

(By Edward Kennedy in the Monterey Peninsula Herald)

A few days ago we invited young people to express any opinions they might have on President Eisenhower's proposal to reduce the voting age to 18. We pointed out that although they were the ones most directly affected, we hadn't observed much interest in the measure among them.

We have received just one letter as a result of the suggestion. That came from a man well over 21 and urged that not only the voting age, but also the drinking age, be reduced to 18.

The lack of response seems to confirm our notion that young people themselves have scant interest in a lower voting age. All the talk about "if they're old enough to fight, they're old enough to vote" seems to come from older folk. We haven't met a person between the ages of 18 and 21 yet who felt that he was being deprived of any right by not being allowed to vote.

Some people may deplore this lack of interest and say that it bodes ill for the intelligent participation of these young people in political action in the future. We're not so sure of that.

Keep in mind that the young

people have other interests which perhaps seem more important to them.

One is deciding on an occupation to follow through life and making provision and training for it. In this age of specialization, the decision may be more difficult than ever. And there's a complication in that young men must count on an interruption during their military service.

Another interest is in all the activities, no matter how indirect, associated with the selection of a life mate and the propagation of the race. A student dance may be as educational as a civics book.

Perhaps it is just as well that young people are concerning themselves with such matters between the ages of 18 and 21 rather than talking politics.

## Program Taped at Concert

Each year the Music Department presents, among other things, a professional twelve-inch long playing record.

In the excitement of the Home Concert, Poly Royal and usual spring quarter tension, the efforts that are expended to make these recordings possible, is usually over looked.

The quality of the record is of primary importance and each year Gordon Mercer, Hi-Fidelity recording expert from Santa Barbara, brings his equipment to San Luis Obispo for the job.

Everything that was presented at both concerts was very carefully taped plus all that the vocal and musical groups can record during a four-hour recording session this afternoon.

Mercer prepares a rough discing of all numbers and sends the samples to Poly for editing and final selection. It is at this time that the jacket design and story are prepared.

The chosen recordings go back to Santa Barbara where Mercer edits and prepares the tape to be used. He sends these tapes with

final instructions to the RCA Co. in Los Angeles where the master sides are made and pressings from these are what you get when you purchase your record.

No effort is spared to insure the quality of the recording of the Annual Home Concerts. From the very beginning the processing is carefully supervised by experts. An interesting example of the care taken is during the afternoon orchestra session; the boys take off their shoes so toe-tapping will not be recorded!

Records will go on sale about three weeks from now.

## Dairy Men Groom Entries For Fitting Contest

Competition is waxing hot among the dairy majors as they prepare for the fitting and showing contest to be presented as a feature attraction during Poly Royal, April 30-May 1.

To date 18 students have signed up to show dairy cattle at the livestock show held Saturday morning of Poly Royal. Student showmen have their choice of the three dairy breeds on campus—Holsteins, Guernseys and Jerseys.

As proof of their belief that Poly Royal will be "bigger and better than ever," Bob Fox, dairy club fitting and showing chairman, said, "As things look now, we will have quite a few more cattle shown this year than ever before."

Cal Poly offers three courses in photography: elementary for beginners, press photography for journalists and free-lance for those who desire special training.

GER 1 . . . Architectural Engineering students Charles Bello (at left) and Don Mills are shown applying the finishing touches to "Gee," whimsically named from the expression of a freshman in the department upon beholding its odd construction. Designed by students in the department as a testing instrument in computing maximum allowable stresses, "Gee" will be on display in the patio adjoining the Architectural building during Poly Royal. (Photo by Harvey Kidder)

## Presale Campaign Set For Poly Rodeo Ducats

This year's Rodeo tickets may be purchased early, says Tim Mazzacane, secretary of the Rodeo club.

During past Poly Royals, tickets could be purchased only at the grounds on Rodeo day. This year, however, tickets may be obtained from Harry Wineroth in the A&B office or at the ticket booths that will be set up on campus.

The Cal Poly Press club was organized in the spring of 1947.
