Mustangs To Face Gators Tomorrow

by Ed Slevin

With cries of "Get the Gators" filling the dressing room a new 'Green Machine' was born last Friday night. With every player as happy as Santa Barbara was sad, the 1954 Mustang squad vowed to beat the Golden Gators of San Francisco State in tomorrow night's grid tilt and continue their climb up the ladder of straight wins.

The Purple and Gold of San Francisco State show an impressive record so far this season. The Gators opened the year with a striking 26-13 win over San Quentin followed by another victory, this time the Wolfpack of Nevada in which SF came from behind to overcome a two touchdown lead, 39-19. Next to feel the bite of the Gators was the Cal Aggies who were trounced 41-7 and last week the Astecs of San Diego were edged from the win column by a 13-10 score.

Sparked on by quarterback Hoot Ellis and his tosses to end George Wehner plus the running of halfbacks Bob Springer and Harry Bremond, Head Coach Joe Verducci has plenty of reason to be proud of his boys from the Golden Gate city.

In the same line of thought LeRoy Hughes has nothing to be ashamed of with his Green and Gold squad. In fact just the opposite, Coach Hughes has every reason in the world to be justly proud of his men. Losing the opening game of the season to a tough Marine squad the eleven man team started their comeback the very next week by defeating Willamette 19-12 at the Bearcats Salem campus. Returning home the following week to open the CCAA grid season against San Diego State the Mustangs captured this contest 26-14. Next on the Hughesmen list, in the winning column, was the Santa Barbara Gauchos who literally felt the kick of the Mustangs in a one-sided 47-6 affair.

Strong Squad

The Gators are boasting one of the strongest teams in the history of the college and will be "up" for Saturday night's contest while trying to upset Cal Poly's Homecoming festivities. The Cal Poly-San Francisco State grid series has been going on for 11 years, with the Mustangs winning nine, losing one and tying one.

Hughes has been trying out veteran guard Joe Hoenich at

Queen Joan... To reign as Queen of the annual Homecoming celebration this weekend will be lovely 19-year-old Joan Patterson. A San Luis Obispo junior college co-ed, Miss Patterson was chosen over four other candidates at a special Poly assembly Monday night. (Photo by Tomlin)

the center spot while shifting Jack Frost to guard, to fill the gap. Regular center Clive Remund is out of action with a dislocated shoulder. "Picken' up the yards" Perry Jeter continues to pace the Mustang running attack with punt returns of 93 and 64 yards plus a total yard gain of 370 in 33 carries. This gives Jeter an average carry of 8.2 yards. At the other halfback spot Thad Murlin has toted the pigskin 35 times for 193 yards and an average of 5.5 per carry. Fullback Marljon Anchich and Curt Reade show supporting averages of 4.8 yards per man.

Soph Back

Sophomore quarterback Jerry Duncan is running a close second to Jeter in total offense with 368 yards in 44 chances with the ball while veteran quarterback Bobby Neal has a seven for 18 passing record for 162 yards in the air.

Tomorrow night's contest will be an important factor in showing exactly what each squad has in the line of finishing season potential.

Probable starting lineups for the Mustangs will be: Murrin and Jeter at halfback; Anchich at fullback; Neal at the quarterback spot; Newt Wakeman and Bud Chadwick at ends; Dick Mathias and Bob Heaston at tackle; Jack Frost and Vic Buccola at guard and Joe Hoenich at center.

Two Nationals... Nat. Past Pres. Tom Leonard, left, and Nat. Alumni Pres. Seymour Vann going over plans to make this Homecoming the best ever. They both advise you to pick up your souvenir copy of El Mustang and advise your friends to do same.

Major Deuel Leads Parade; His Homecoming too

Major Joseph C. Deuel will return to Cal Poly this weekend to be grand marshal of the 1954 homecoming parade. Major Deuel, with over thirty years of service to the college, is fondly remembered by both students and faculty.

Deuel, 64, first came to Poly in 1920 and was a constant figure here until 1945. He has been athletic director, baseball coach, dormitory superintendent, housing officer, librarian, and was the first student military program department head.

Perhaps one of the most outstanding facts about the Major is that in the entire time he was with Cal Poly he lived on campus. He was also married and raised a daughter here. He was, therefore, in close contact with the student body. He is said to have treated students as men, but still know the workings of student minds.

In the First World War he served in Cuba, Mexico, Panama, France, and Germany. He took a leave of absence from Poly in 1941 and was a recreation-welfare army officer until 1945 when he returned here.

Since his retirement in 1952, he spent considerable time in Italy and Spain while his daughter, Pauline Deuel, studied at the University of Madrid. The Major lives in Redlands with his daughter, who is now a professor at Redlands University.

Sophs Dispute Brawl Outcome

Sophmores are still disputing the outcome of the Fresh-Soph brawl last night. Both classes were tied as the last brawl event, the greased pole climb, got underway.

The sophs reached the top first, but found their flag tied to the pole. According to sophs, this is not cricket.

At press time, puzzled judges had reached no decision.

Homecoming Spirit High As Poly Shouts Welcome

Shouting a hearty "welcome" to returning alumni, guests and passers-by, Cal Poly students are scheduled to begin the 1954 Homecoming celebration in typical fashion tonight when Queen Joan Patterson touches-off the traditional bonfire rally at 7:30. Contributed by the freshmen class, the huge bonfire will be the scene of yells, songs and debuts of the recently-launched "Ugly Man" contest.

Queen Joan To Rule Poly

"Queen Joan"—that's the title which smilingly will display lovely 19-year old Joan Patterson, as she reigns over the annual Homecoming festivities this week-end. Chosen over four other San Luis Obispo junior college co-eds, at a special assembly Monday night, Queen Joan will be courted by the remaining candidates who have become princesses: Altarene McKinnon, Carol Thorndyke, Marlene Stinchfield and Terry Brown.

The first showing of the Queen and her royalty is scheduled for tonight at the traditional bonfire rally beginning at 7:30. The freshmen-built bonfire is the opening activity of a long schedule-of-events program.

And Her Court

Saturday, parade viewers will have their chance to see Queen Joan and her court as they pass in review riding the Queen's float. Major Joseph Deuel, a former Cal Poly official, will head the parade as Grand Marshal.

Later tomorrow night, the lovelies will reign over the annual Homecoming game, scheduled this year with San Francisco State college and expectedly parade in front of the stands during half-time activities. Complete half-time activities were undisclosed at press time.

Crowned At Dances

The moment of which all await will arrive after the game when Queen Joan is officially crowned at the Homecoming dances. The dances, scheduled for Crandall gym, will be supplied with music from the college orchestra, the Collegians.

Krehbiel Selects

The five candidates were chosen early last week by a candidates committee headed by Bob Krehbiel, after interviewing 81 junior college co-eds.

The voting audience Monday night saw a take-off of the popular television program, "What's My Secret?", when a panel of five appeared in the attire of each prominent member they portrayed. The highly-publicized "names" tried to guess the secret of each candidate. Secrets ranged from weird to odd and back to weird hobbies of each candidate; one of them—"I work with mummies."

A big day is planned for Saturday when former Poly official, Major Joseph Deuel, returns to receive the honor of this year's Homecoming dedication with the theme of "Cal Poly, California's Claim To Fame". Major Deuel will head the parade as Grand Marshal following the ROTC color guard and drill team tomorrow at 8:15 p.m. Reigning Queen Joan will ride her float courted by her four princesses. Jim Sullivan, Homecoming parade chairman, expects 25 floats for the downtown festivity.

An open house for campus departments is planned between 9 a.m. and 12 noon tomorrow with class, club and department luncheons scheduled for 11:30 a.m. to 1 p.m.

Alumni are invited to attend a general alumni meeting in the Engineering auditorium at 1 p.m. and then everyone will meet downtown at 3:15 p.m. to view the Homecoming parade. Immediately (Continued on page eight)

Plane Crash Fatal To Poly Student

Graeme William Atkinson, sophomore electronics major, was killed Tuesday afternoon when the single-engine plane he was flying crashed into high tension lines along the bed of the Salinas river at San Lucas.

"Atkinson was on a cross-country solo flight preparatory to acquiring his private license," says Ed Meide, a member of the Mustang Flying Association.

William Morasol, a witness of King City, said, "The plane suddenly dipped, pulled out in time to clear a 30 foot bridge, but hit power lines above the bridge, and crashed about 100 yards away."

Highway patrolmen report a log recovered from the plane showed that it left San Luis Obispo in the morning and stopped at Paso Robles, Hollister, San Jose and Watsonville before the crash. Bob Snowman, a student, and one of Atkinson's flight instructors states that the log indicated Atkinson was being careful and complying with the laws of the air by making periodical stops to check in and maintain the log.

"I don't know what could have happened, because Graeme was always careful with the plane, was quick to learn, and has a good head on his shoulders," continues Snowman.

Schedule of Homecoming Events

October 15—Friday

2:00- 5:00 p.m.—Registration, lobby Ad. Bldg.; Open House, all departments.
5:00- 7:30 p.m.—Class, department, and club reunions.
7:30- 8:30 p.m.—Homecoming bonfire rally, behind new Power Plant.

8:30-12:00 p.m.—Western Dance, Crandall Gym.

October 16—Saturday

8:00- 4:00 p.m.—Registration, lobby Ad. Building.
4:00- 7:00 p.m.—Registration, El Corral.
9:00a.m.-12 p.m.—Open house for all departments, club reunions.
11:30 a.m.-1p.m.—Class, club and department reunions.
1:00- 2:00 p.m.—General Alumni meeting, Engineering Auditorium.
2:15 p.m. —Homecoming Parade, San Luis Obispo.
3:30 p.m. —Pre-game rally, San Luis Obispo Court House grounds.
5:00- 7:30 p.m.—Alumni Buffet dinner, El Corral.
8:00- 10:00 p.m.—Football game, Cal Poly vs San Francisco State.
Special half-time Homecoming program.
10:30-12:30 a.m.—Alumni Homecoming Dance, sport, Gymnasium.
Homecoming Alumni get-together, coffee hour, Rm. 118 ABC, Lib.

Patricia Kearns: Poly's Majorotte

Introducing Patricia Kearns, one of Cal Poly's lovely majorottes. Pat made her debut two weeks ago during the Mustang, Astec football game and from now on this high stepping little gal will help "lead the band."

Pat is among the select few, for she is a Poly wife and mother of a three year old girl. Her husband is a Mustang quarterback by the name of Don.

Pat and Don were sweethearts back at Scott Township high in Carnegie, Pennsylvania, and after graduation in 1950 decided to make it a permanent partnership.

To make things feel closer at home, Pat's uncle, Art Rooney, is owner of the Pittsburgh Steelers, a professional football team. We should recognize this familiar name for Stan Sheriff, Cal-Poly's Little All-American, is currently playing for them.

The Kearns' just arrived in California last January and have already established themselves as a part of Poly.

News In Brief . . .

Senior Interviews

The Placement Office is currently scheduling appointments for seniors with the following companies:

Friday, Oct. 15 - Owens-Illinois Glass Company, Oakland
Wed., Thurs., Oct. 20-21 - The Pacific Telephone and Telegraph Company

Today, Friday, October 15, is also the last day that the recruiting team of the U.S. Marine Corps will be on campus. They are stationed in the lower hall of the Administration Building and no appointment is necessary.

Queen Sally Berg

Tomorrow is the last day you, the students, can cast your vote for Sally Berg, Poly's candidate for Queen of the community fair.

Monday all the unsold tickets will be turned in, and the final standing posted.

The table will be up in the basement of the Ad building

Western Dance

A western dance, climaxing tonight's bonfire rally will be held in Crandall gym. Don McCune today announced. The dance will begin immediately after the rally.

Sponsored by the Rodeo Club, the dance will be supplied with music from a western band composed of Poly students and the attire is sport or come-as-you-may, adds McCune.

LA's Meet in Library

Returning alumni desiring to find their former Liberal Arts instructors will discover that Liberal Arts is again making its homecoming headquarters in Library 115 A, B and C on Saturday morning.

Representatives of the various departments will be stationed there and if the desired instructor is not at hand, arrangements for locating him can more easily be made than if the Homecoming is left to his own campus-wide devices.

Friendly College?

Cal Poly, the friendly college? We're not sure if you could prove it by the many outstanding cattlemen who were hosted on campus last week. They were attending the 1954 Beef Cattle Production Conference, jointly sponsored by the California Cattlemen's Association and Cal Poly. Hardly had the first speaker been introduced when our highly efficient security department tagged each one of these nice people for not having parking stickers on their windshields. You can be sure that Dean Shepard had some fast talking to do then.

Officers Elected For Poly Royal

Board Enjoys Meeting at Poly

A LOOK AT THE PAST . . . Pictured above is the first edition of El Mustang, published November 4, 1938. Although there had been a paper in earlier days, a four-page mimeographed news sheet titled, "The Polygram", the school was without a newspaper for six years before El Mustang came along. As pictured, in those days Cal Poly played such teams as San Jose Irish. (Photo by Jim Dearing)

Harry Wineroth Plays Top Role In Securing El Mustang

On November 4, 1938, Cal Poly had its first paper published in over six years. This publication was brought about by extensive campaigning by Student Body President Harry Wineroth. Poly had been without a paper since 1932 when the school paper "Polygram" was discontinued because of financial reasons. Throughout that six-year period it was always evident that there was something lacking for rounding out student activities here at Poly.

When President McPhee gave his blessings for the all-clear to the printing of the paper, Wineroth produced a copy of the first issue in less than six hours.

Biggest problem facing the group was what to call the publication. The name of El Mustang was chosen, according to Wineroth, because it followed along the path of El Corral and El Rodeo.

Cal Poly's alumni association realized the need of a school publication and donated the total expense of the first issue in hopes that, with a start, the student body could carry on the good work.

Editor Tom McGrath had many problems to face such as getting the students to patronize the advertisers, and support of the paper. Without these things he knew that the paper could not succeed.

Articles that appeared in the first issue were written with the idea in mind to inform the student, not to command him.

El Mustang has been in continuous publication since the first issue except for two years during World War II when it was impossible to obtain paper.

In the past sixteen years of publication, El Mustang has grown from a circulation of approximately 700 to one of 2400-2500 per week.

Honorguard Greets Nixon

A full-dressed honor guard, 82 in number, from Cal Poly's ROTC department, were on hand to greet Vice-president Richard Nixon when he arrived at the San Luis Obispo airport Wednesday at 1:45 p.m. Heading the honor guard was cadet battalion commander, Charles Shields.

The welcoming festivities included the honor guard forming two lines in military fashion through which Vice-president Nixon walked to give his speech.

Poly PE Grads Find Jobs In Many School Systems

Cal Poly's physical education graduates are in demand and many can now be found in positions throughout the state. Dr. Robert Mott, head of the college PE department, says the department started in 1946 and graduated its first class in 1952 of eight students. "The real test for the department is the job the students do when they are hired," Mott says. "From all reports school boards that have hired Cal Poly PE men want more Poly men."

Former Athletes

Hank Moroski, four-year all-conference in basketball, is now coaching the sport at Shafter high. Lee Rosa, baseball and basketball player is teaching in the Denver, Colo., school system. Charles Weber, end

who still holds some grid records, is teaching in the Fresno school system. Pinky Hebernes is teaching at Orem while Marshall Samuels, winner of the Van Horn trophy for the outstanding athlete of the year, is working in the San Francisco recreation department. Bob McCutcheon is head football and basketball coach at Antelope Valley JC.

Bob Mason, Lindsay high school; Jay Dee Phillips, Camp San Luis Obispo men's colony recreation department head; Charles Hardy, Arroyo Grande high basketball coach and assistant football coach; Dave Ziemer, Corcoran high basketball and tennis coach; Glen Dollehan, San Luis Obispo Junior high; Howard Tillotson, San Diego city schools; Lee Stenick, Santa Rosa city schools; R. D. Fox, Bakersfield county school system; Charles D. Carter, Alhambra school system.

Teachers

Doss Sims, Richmond recreation and guidance program; Frank Hamilton, San Mateo city schools; Bob Hardy, Ontario city schools; Charles McGuffin, San Miguel school; Frank Ross, basketball coach at Shasta high; Bob O'Connell, Paso Robles schools; Gene Fraser, vice principal at Nipome; Tony Turano, San Luis Obispo Junior high; Ken Wilson, San Mateo city schools; Vern Gutierrez, Gonzales high school coach; John Morosky, Santa Maria school system; Paul Platts, head of PE and athletics at Corcoran high school; Emmett Thompson, Santa Cruz school system.

Charles Hammond, Pismo Beach school system; Gordon Ray, Long Beach schools; Myron Moses, Hollister school system; Bob Whitmore, Redwood high school; Bill Liddersdale, field representative for the Boy Scouts of America; Charles Weber, Fresno school system and Bob Meyler, Porterville high.

Game Captain

Bobby Neal, the Mustangs head man at the quarterback position, will be leading the Hughesmen on the field as team captain in the Green and Golds fifth grid contest tonight against San Francisco State.

Neal, a 180 pound—5'7" signal saller from Ingleswood, is well deserving of the honor of game captain as can be seen by his playing ability during the past three years. So far this season Neal has tossed 18 passes for 168 yards two of which were TD throws. The 21 year old is also a standout on kickoff returns with two for 68 yards.

Bob "Rocky" Neal is noted for his fine play selection and for his smooth ball handling. For an action packed game keep your eye on number 11 and see the ease with which Neal plays.

Racket Tourney Slated for Monday

Tennis coach, Ed Jorgenson certainly isn't losing any time in getting the rackets swinging and balls flying.

The fall tennis tournament which will go into full swing next Monday, Oct. 18.

For the avid tennis players still interested in entering the tournament, the sign up sheet is now on the Gym bulletin board. Today is positively the last chance for sign up, mentioned Jorgenson.

This tournament is being conducted in order that coach Jorgenson may get an idea of who to expect when tennis season rolls around.

The following have signed for the tournament: Norm Corwin, Dick Blocher, Jim Cluba, Dale

Relley, Bruce Hunnicutt, Don McKinney, Phil Dwight, Bob Gerhardt, Dick McCombs, Javier Ascaruna, Raul Salaverria, Victor Bowher, and Jim Crandall.

Also signed into the tournament are: Barry Bartlett, Edward Schmutz, L. T. Bush, Dick Andrews, W. L. Hobbs, Larry Segudin, Eugene Hobson, Paul Merad, Eugene Angyal, Charles Harben, Walt Netschert, J. Kohan Zakay, A. Kadish, Julius Mirna.

Twinkle Toes... Jerry Duncan, Poly quarterback, is shown breaking up a Gauche pass to Ken Trout. Coming in last to help cover is halfback Jim Miller. The Mustangs outplayed Santa Barbara in a one sided affair which saw Poly emerge victors, 47-6. (Photo by Dearinger)

BAC Announces Basketball Schedule

The board of Athletic Control met yesterday and passed the following schedule for the 1954-55 basketball season.

Dec. 1 Fort Ord—Home
Dec. 8 Santa Maria Dukes —

Home
Dec. 4 Alumni (tent.)—Home
Dec. 9 Lewis and Clark—Portland, Ore.
Dec. 10 Portland Univ. — Portland, Ore.
Dec. 11 Seattle Pacific — Seattle, Wash.
Dec. 18 Whitman Col. — Walla Walla, Wash.
Dec. 14 Univ. of Idaho — Moscow, Idaho.
Dec. 15 Eastern Wash. Col — Cheney, Wash.
Dec. 16 Whitworth Col. — Spokane, Wash.
Dec. 17 Whitworth Col. — Spokane, Wash.
Dec. 22-23—4 team State College Tournament—Home
Jan. 4 Westmont — Santa Barbara.
Jan. 7 Santa Barbara — Home

Jan. 18 Los Angeles State — Los Angeles.
Jan. 18 San Diego — San Diego.
Jan. 25 San Jose State—San Jose.
Jan. 28 Long Beach State — Long Beach.
Jan. 29 U.C.L.A. — Los Angeles.
Feb. 8 San Francisco State — Home.
Feb. 8 Fresno State — Fresno.
Feb. 11 Santa Barbara — Santa Barbara.
Feb. 15 Westmont — Home.
Feb. 19 Marine Recruit Depot, San Diego (tent.) — Home.
Feb. 25 San Diego — Home.
Feb. 26 Los Angeles — Home.
*—COAA League Games.

Chadwick For Six; First Since 1950

Hud Chadwick, Cal Poly's 205 pound junior end, is just about as happy as anyone about the 47-6 win over Santa Barbara college last Saturday night.

You see, Chadwick scored a touchdown—his first since 1950. Not that the end couldn't score for he has been a victim of two plateau football. Chadwick scored in 1950 while playing for the Petaluma Loghorns. After attending Santa Rosa junior college he went into military service where he played two years for Fort Ord. You guessed it, defensive end.

So after four years, Chadwick picked out a 29 yard pass from Neal last Saturday for a TD. So far this season, Chadwick, who calls Cota his home, has caught four acials for 75 yards.

Soccer Team Goes South

The soccer squad discovered quite a few weaknesses in their 14-2 defeat by UCLA's Bruins, and are now working extra hard to correct those mistakes in order to be in top shape for their overnight trip to Los Angeles next week, when they meet Pomona on Friday, Oct. 22 and USC, Oct. 23.

UCLA took advantage of several Poly mistakes early in the game to pile up a big 11 to 1 lead at halftime. The Bruin's teamwork was superb as just about every attempted goal was good for a point.

Science Building Ready For Classes Next Fall: Dushkin

The new science building on the Cal Poly campus will be ready for students at the beginning of the fall quarter of 1955, reaffirmed Lawrence Dushkin, state construction supervisor this week. "The specifications call for completion by August 15, 1955," Dushkin said, "and construction is proceeding according to schedule."

The new building will have office space for 48, instead of the 12 instructors which was originally announced in this paper, said Dean Wilson. It will also have 18 general purpose classrooms, 27 special purpose lab rooms, one room to be used as herbarium for botany courses, and one room to be used as a biology museum.

It was decided this week that the roof will be of crushed tile and be reddish brown in color. The rest of the color plan hasn't been formulated yet. The building will be of strictly modern design, and is planned to match future building at Cal Poly. It will have five different floor levels because it is planned to follow the contour of the land. Windows will be steel sash with venetian blinds on the inside. The main corridor will be 500 feet long and the longest cross corridor will be 400 feet.

Dr. Robert J. Rodin, botany instructor, said, "The college already has an excellent collection of 8,000 specimens, housed in bug proof cabinets and they are of tremendous importance to the people of this community." These specimens are mounted on 12 by 16 inch sheets of white cardboard and each labeled with its name, date and place at which it was collected. California Specimens

The herbarium in the new science building will be added to by the addition of more California specimens. Specimens from other areas will also be accepted. "It will be more available to the students," said Hoover.

"The museum in the new science building will eventually have a representative of every plant and animal in the county," said Dr. Noble, head of the biological sciences department. It will be called a natural history museum.

"We are ordering the finest and latest in display cabinets and lighting fixtures for the museum," he said, and also in-

ROTC Greet New Addition To Staff

Captain Barry W. Ulrich, of the USAR, is the new addition to Cal Poly's branch general ROTC program, ROTC department officials announced earlier this week.

Captain Ulrich will serve as advisor for the varsity rifle team and assist the department in various phases of the instructional program. Presently, he is working with Captain Earl Fletcher in an effort to secure Cal Poly's entrance into the ROTC fraternity, "Seaboard and Blade."

Captain Ulrich recently returned from Alaska where he served as Inspector General at Fort Richardson. Prior to that, he took a tour of duty as Commandant of a displaced persons camp composed of 3000 Russians at Berg Gladbach, Germany.

Hawaiian born and raised, Capt. Ulrich entered the Army at the outbreak of World War II and completed officer candidates school at Fort Sill, Oklahoma. He served in France and Germany combat duty.

Spending one year at the University of Hawaii, Capt. Ulrich transferred to Stanford University with an AB degree in 1945 and completed one year at Stanford Law school in 1947. He was in the general building business of the San Francisco area from 1948-51.

cluded, "We want also to bring in marine life." Dr. Pimentel, with the help of students has already established a marine collection.

1260 Capacity

The physical sciences department will have 18 lab rooms, biological science will have ten lab rooms, soil science will have three labs, and veterinary science will have one lab. The building will have a capacity of 1260 students. It will be a long building with five wings extending out from the main structure.

Cal Poly—"Claim To Fame" Greet Returning Alumni

Last year, it was "Cal Poly—Boast of the Coast!"

This year, it's "Cal Poly—California's Claim to Fame!"

That's the student-chosen theme for this year's Homecoming—a Homecoming set almost a month earlier than usual so that alumni can watch Coach Roy Hughes' current Mustang machine in action against strong SF State competition on the home grounds.

"From time to time," explains National Alumni President Seymour Vann of Williams, "we've had requests to set Homecoming earlier so there is less interference with pre-Thanksgiving activity. This year's football schedule gives us a good opportunity to try the earlier date. And you alumni, by your attendance, will give us an equally good opportunity to see whether you actually prefer it."

On the basis of early-shaping inquiries, Alumni Sec. John Jones predicts that 1954's Homecoming will draw the largest attendance in Poly history.

Why They Come

"Not only are alumni eager to see the great football team perform," he explains, "but more and more of our alumni who have experienced the refining of friendships at Homecoming time are returning year after year."

"At the class and departmental reunions and at the alumni meetings, themselves, there's a real chance to pick up the broken threads of acquaintance, talk shop and exchange information. We're expecting attendance from coast-to-coast representing every department in the college."

Many of the departments planning special reunion affairs have sent out notices to their graduates. P.E., Electronics, Electrical Engineering, Printing, Ag Engineering are a few of those that have come to be known as premi-

nent Homecoming hosts.

Liberal Arts, rather than hold smaller departmental gatherings, has established a custom of gathering its staff members in the basement of the Library, Room 118 ABC, where alumni can more easily find the instructors with whom they would like to visit.

General Open-House All departments of every division will be on open-house basis, however, and a complete listing of these as well as time and place for group gatherings are displayed on the registration bulletin board in the lobby of the Administration Building.

While Homecoming starts this afternoon, the main day, of course, is tomorrow. First all-alumni affair is the general annual meeting, 1 to 2 p.m. in the Engineering Auditorium when President Vann takes the rostrum to give an accounting of the past year's activities and discuss plans for 1955-56.

Thumbs-Up

Thumbs-Down

Dear Editor:

During the past week two members of the student body were killed in accidents: Art Rutherford, who was killed while driving home from the Santa Barbara game, and Graeme William Atkinson, who was killed while soloing for his pilot's license.

As we reflect on these incidents, we are forced to wonder how our folks would feel should they receive the news of a similar occurrence to one of us.

With this thought in mind we offer our sincerest sympathy to the families of the two men involved and resolve to do our utmost to make the rest of the year one of pride for our folks, and ourselves, rather than one of sadness.

ABB Officers

Dear Ed:

For two weeks running the Cal Poly student body has unearthed spirit that never before has been excelled.

With all this spirit guided where they've desired, it has left good feelings with downtown San Luis and the Poly faculty and staff as well; and envy with Santa Barbara.

Much pride can be felt by the whole student body by the intelligent discretion they've used while attending rallies, games, etc.

Here's hats off to the greatest student body anywhere.

George Martin, ABB Pres.
Dick Johnson, ABB V-Pres.
Charles Anderson, ABB Sec.

If you drive for the sheer zest of it
**you owe yourself
this hour!**

If your hands rejoice in the precise balance of a fine gun or the sweet response of a racing sloop . . . then you owe yourself an hour with the Chevrolet Corvette.

You'll find it is, quite literally, like no other car in the world—a heart-lifting blend of the true sports car with all that is best in American engineering.

There is the velvet smoothness of a Powerglide automatic transmission (but with the classic floor selector-lever).

The trouble-free durability of a Chevrolet "Blue-Flame" engine (but with three side draft carburetors to unleash its flashing 150 horsepower).

The ruggedness of an X-braced box girder frame (but with the astonishing impact resistance of a glass-fiber-and-plastic body).

Luxurious seating for driver and passenger in deep foam rubber (but cradled in the traditional security of bucket seats).

Generous luggage room, the panoramic sweep of a deeply curved windshield, the flair of tomorrow's styling (but within the polo-pony compactness of a real road car).

The Corvette blends all this and more. For it is a driver's car . . . a low-slung torpedo with a center of gravity only 18 inches above the concrete . . . with outrigger rear springs that make it hold to the road like a stripe of paint . . . with a 16 to

1 steering ratio that puts needle-threading accuracy at your finger tips.

Frankly, the Corvette is a "limited edition," made only in small numbers. It is intended only for the man or woman to whom driving is not just transportation but an exhilarating adventure, a sparkling challenge to skill and judgment. If you are one of these, then you owe yourself an hour with a Chevrolet Corvette.

Call us now and let us set up a demonstration run . . . for in a short 60 minutes you can discover that motoring has a whole new dimension of delight.

Make a date to drive the

Chevrolet Corvette

150-h.p. overhead-valve engine with three side draft carburetors • Four-leaf outrigger springs in rear • Powerglide automatic transmission • Center-Point steering, 16 to 1 ratio • Form-fitting individual seats • Full instrumentation, with tachometer, oil pressure gauge, and ammeter.

Homecoming? What's That?

Did you ever stop and try to figure out just what someone meant when they said "Homecoming? Actually it means more than is says.

Homecoming isn't just a bunch of ex-students who have come back to say "It was better in the old days", or "Now back in '08—"

True, it is a lot of ex-students, and their families, maybe even a few friends. But what many of us may not understand is this: These are the emissaries of Cal Poly—they sell the school not only here in California, but in practically every state, territory, and foreign country as well. (Perhaps this can be noted by the steady increase in enrollment). And remember, the more that Cal Poly's "learn by doing" method is known to prospective employers, the better are our chances of acquiring favorable employment when we find that piece of paper we're looking for.

So let's treat these returning grads as our own personal friends, which they are, and make this a homecoming that we'll all remember for many years to come.

Homecoming Marred by Death

Homecoming should be a time of gaiety and happiness—a time to greet old friends and rejoice in their company.

However, for many of us this Homecoming is not one of joy, but one of sorrow.

The two Poly students who were killed this week were friends to many of us and will be missed greatly.

So as we indulge in this festivity laden weekend, let us pause and reflect on these two unfortunate incidents and vow to not let it happen again, by being extra careful this week and every week.

Polly Chatter

by Sandie Hahn
"The Day" has arrived! Monday is final turn-in day for all contestants in the Community Fair Queen Contest. It's up to you where Cal Poly will stand in the final line up. Buy a ticket today, and let's put Poly's candidate way up on top. Turn in all money or unsold tickets at the ticket booth opposite El Corral or at Mrs. Pete Cutino's trailer no. 337, in Polyview on or before Saturday.

Tuesday night at 8:00 p.m. in library 118, there will be a Student Wives' meeting. There is going to be a short business meeting followed by a talk given by Miss Esslinger, Child Welfare Supervisor for the County Welfare Department.

Following Miss Esslinger's talk, games are planned. The idea of the whole meeting is to have a really social evening, so come prepared to have a good time.

Homecoming weekend is here, and don't forget, if you want to join in the festivities but lack a baby sitter, Mrs. Robert Knowles is the gal to call. Student Wives have maintained a baby sitting service for quite a few years now and serve not only Poly, but the townspeople as well. Call 2223 R, or see Evelyn at Vetville no. 55.

This weeks conversation item: There are more than 2000 varieties of mosquitoes known to entomologists. It is the Anopheles mosquito which is the carrier of malaria; and each year more than 800 million cases of malaria occur throughout the world, and at least 2 million people die from its effects.

Last week's cake bake met with such success that another is being held next Monday. Girls will be at a table opposite El Corral to sell cakes and cookies, the proceeds of which will go to back Poly's Queen candidate, Sally Berg. The sale will be from 10:00 a.m. until they run out of cakes to sell.

The Poly Pipers are really having a successful year; their membership has soared to over 50 girls. Be sure to show up at the Engineering Auditorium on Wednesday night at 8, if you'd enjoy an evening of singing for the fun of it.

Poly's Pulse

by Bill Galliher
SAC Writer

Inter-Campus Confab

George Martin, ASB Proxy, remarked on his return from the inter-campus confab at San Dimas that, "Although a great deal was not accomplished at the meeting, I feel that a big step has been made toward cementing favorable relations between the two campuses."

Charles Anderson ASB Secretary, commenting on conference topics, stated that "An exchange assembly between the two campuses was discussed at some length, but arrangements could not be made at that time. The Rose Parade float was also discussed, resulting with our campus volunteering to organize a work crew to assist in the construction of the float."

Others attending the conference were Jim Yoshino, Assembly Committee; Maynard Kepler, SAC Representative; Jerry Hill, Leadership Conference Committee; Ron Kellogg, Leadership Conference Committee; Bob Bostrom, Student Government Committee; Dick Johnson, ASB Vesp; Bill Galliher, Finance Committee.

Food For Thought
Why do we need student government? Why couldn't the ad-

The Offbeat

By Litch

Homecoming is upon us once again. A very cordial welcome is extended to all the Alumni. It's really good to see the old familiar faces return year after year! There are many activities planned for this weekend. Tonight, the freshman class is sponsoring a big bonfire rally. It should prove to be very exciting! Tomorrow brings the annual parade with a rally following. The game at 8:00 with San Francisco is the climax of all the festivities. As usual the band will participate in all these activities! After the game, in Crandall Gym, will be the Homecoming Dance. The music will be furnished by the Collegians. This will be the first appearance of our famous band, and the music should be the best as usual!

The Santa Barbara weekend is a thing of the past now, but a lot of memories still linger on. The pep band made a stupendous showing, especially with those signs and such! Are you wondering who was gallivanting around in a raincoat before the pep band? It was none other than Ed Wynken, Glee Club president and candidate for Ugly Man. What next, Ed!!

Don Marshburn, Quartet member, has recently joined the throng of the "married" in the Glee Club. He and his very lovely wife, Marilyn, were married right after school was out last spring. They first met, according to Marilyn, in a high school English class. That's a romantic beginning! All kidding aside, they are a very nice couple! Congratulations Don and Marilyn! We all want to wish you lots of luck for the future.

A big bouquet goes to Dick Reed who is a genuine spark plug in the Marching Band. Dick planned and organized the half-time activities for the Santa Barbara game with terrific success. Tomorrow night's half-time plans to be the best yet. I wonder what it's going to be!!

There are still a few 1954 records left in El Corral! They can't be beat for worthwhile entertainment and enjoyment. Drop in and pick yours up now!

ministration handle all student affairs? If we stop and think about these questions, we can easily see why we need student government . . . self-government? What complete authority do we, as students, have in any matters? The administration reserves the right to vote any matters or policies conceived by the Student Affairs Council. Does administrative veto tend to suppress student responsibility in making decisions? . . . "Why should we worry about our decisions? If it's wrong, they'll stop it before it goes too far." . . . Is this the attitude taken by some of our student leaders?

Is it possible to establish definite lines of responsibility and authority between student and administrative areas? Could this be initiated by students? Is this too fine a line of distinction to shoot for?

SAC Round-up

Last Tuesday night, the Student Affairs Council authorized the Board of Athletic Control to charge admission for the three remaining home football games. Student admission for the Homecoming game with San Francisco State will be 50 cents with your student body card. A charge of 15 cents will be made for the Humboldt State game and also the Colorado Western game.

The SAC was also given permission to appoint an individual student in charge of all concessions during football games.

Sherwood Darrington, Junior Class representative to the SAC was elected to represent the SAC on the Advisory Commission.

Representing the sophomore class at Tuesday night's meeting, Ed Slevin moved that the ASB Proxy appoint a committee of five to write an operational code for the Student Affairs Council. The motion passed unanimously.

The Board of Publications representative, John Reid, presented a proposition for study by the SAC which requests "That El Mustang be given full approval of the student body to apply to the Cal Poly foundation to become a student project operating under a standard business agreement with the foundation. The project to start effective September 15, 1954." . . . more on this next week.

Along The Line

at Ken Lowery's Cafeteria

EGADS BODKINS! What with 100 of you guys in for dinner Sunday nite, it was like old home week. I found myself feeling like taking the old meat fork and turning it into the tutor's stick. Once looking over the counter and seeing Dick Lewis and his pretty wife munching on the spaghetti and meatballs. I was tempted to throw a juke.

Dick Van Brackle and John Schoof brought me up-to-date on the prospects of EL MUSTANG this year and it sounds like you've got a slough of good editions in the nite air. They also bought a cup of coffee!

Bob Holladay dropped off a copy of last week's MUSTANG! Thanks Vern, for the front page story—Only we don't serve no HAMB!

Ray Anderson is giving S. F. State 2 touchdowns in the Homecoming game, but figures Poly will win 33-18. Don't forget to write your predictions of that game down and drop them off with me. Somebody's going to get Sunday STEAK the rest of the quarter.

Ralph Bobb and John Banister, new English instructors, run along the cafeteria line nearly every day and they tell me you guys still can't spell.

Well, this is getting expensive, and we're running out of those 39c ground round steaks again—

Good Luck tomorrow nite, Roy and Poly—

Death Car... The pictured scrambled mass is the auto Poly student, Lee Rutherford, was driving when he smashed in a head-on side-swipe with another auto while returning from last week's Cal Poly-Santa Barbara State game. The crash proved fatal to Rutherford. Ron Casterson, Poly student, received minor injuries. (Photo by Kidder)

Game Trek Ends In Fatal Auto Crash

Cal Poly student Arthur Ray Rutherford, 20, of Banning, was fatally injured when the car he was driving crashed in a head-on sideswipe with another car about three miles north of Santa Barbara on Highway 101 at 1:44 Saturday morning. He was taken to the Cottage Hospital in Santa Barbara but died at 2:21 a. m.

A passenger in his car, Ronald Casterson, 19, of Pleasanton, suffered minor injuries.

The California Highway Patrol reported Rutherford was passing a large tank truck without sufficient clearance when he crashed into a southbound car driven by Harold Herbert Mackie Jr., 1425 Las Positas Rd., Santa Barbara. Mackie and a second passenger in Rutherford's car, Gerald Lee Cartright, escaped injury. Both Cartright and Casterson are also students at Cal Poly.

Cartright said the trio was returning to Cal Poly after watching the Mustang-Gauchos football game.

The driver of the truck Rutherford was passing told officers he pulled to the right as far as he could when he saw in his rear view mirror that Rutherford was not going to make it past him.

Rutherford swerved to the right, but not in time, the CHP said. After the collision Rutherford's car had rolled 182 feet.

The featured speaker at last night's Crops Club meeting was William Flynn, a recent Poly graduate and now field men in charge of the Union Sugar Beet Company's massive 5,000 acre sugar beet development in the Wasco area. Said George Martin, ASB president, Mr. Flynn was well qualified to speak on his subject, "The Life of a Field Man."

At the same meeting, a freshman crops major, Gerald Lanini, was presented with the California Seed Association 150 dollar scholarship by Fred Rohnert, manager of the Waldo Rohnert Seed Company of Hollister.

Martin said both men spent time after the meeting answering various questions on problems pertaining to crops.

Homecoming Spirit High As Poly Shouts Welcome

(Continued from page one)
Following the parade will be a pre-game rally on the Court house grounds downtown.

Evening activities include an Alumni buffet dinner on the campus in El Corral starting at 5 p.m.

Highlight of the celebration will be the football game between CCAA defending champions, Cal Poly Mustangs and San Francisco State with game time to begin at 8 p.m. The Frisco Gators are

sporting an impressive slate of four wins for the current season. This team is considered by many as the toughest competition for Cal Poly to date.

Then, climaxing the long day of events, Queen Joan will be officially crowned at the annual Homecoming dance in Crandall gym. The dance is scheduled for sport attire and the Poly swing orchestra, the Collegians, will supply dance music.

CHESTERFIELD IS THE LARGEST SELLING CIGARETTE IN AMERICA'S COLLEGES

THIS Chesterfield leadership is shown by actual sales audits in more than 800 college co-ops and campus stores from coast to coast.

In choosing YOUR cigarette be sure to remember

this! You will like Chesterfield best because only Chesterfield has the right combination of the world's best tobaccos — highest in quality, low in nicotine — best for you. All of us smoke for relaxation, for comfort, for satisfaction — and in the whole wide world no cigarette satisfies like a Chesterfield.

You smoke with the greatest pleasure when your cigarette is Chesterfield . . . Yes, these six words "highest in quality—low in nicotine" mean Chesterfield is best for you. Buy 'em king-size—or regular.
