Chairman of Raytheon and Retiring Apple CFO to Lead Cal Poly Foundation

Members of the Cal Poly Foundation elected William Swanson, chairman of Raytheon Co., to serve as the new chairman of the foundation’s board of directors. In addition, Peter Oppenheimer, retiring senior vice president at Apple who served as the company’s CFO for 10 years, was elected to serve as vice chairman of the board.

Swanson, a 1973 graduate of Cal Poly in agricultural business, has been a member of the Cal Poly Foundation board since its founding in 2006. He previously served as the board’s vice chair. “I am honored to serve the university as chairman of the Cal Poly Foundation,” Swanson said. “As a proud alumnus, I know firsthand the value of a Learn by Doing education, which has served me well during my career. I look forward to leading the board and helping to ensure the university’s philanthropic priorities and goals are achieved.”

As of June 2013, the Cal Poly Foundation — a 501(c)3 corporation — was recognized by the National Association of College and University Business Officers (NACUBO) as the second largest endowment nationally among all public master’s-level universities. Since the endowment has grown to an all-time high of $194 million. Additional- ally, for the past 10 years, the Cal Poly Foundation has ranked among the top 25 percent of university endowments for total average return. The Cal Poly Foundation is ranked first among all 23 universities in the California State University system.

The Cal Poly Foundation is ranked first among all 23 universities in the California State University system.

Of the Cal Poly Foundation, added, “The university is very fortunate to have these two remarkable individuals lend their talents to the Cal Poly Foundation. Their outstanding leadership, integrity and commitment is appreciated and will ensure that the university’s philanthropic priorities and goals are achieved.”

Cal Poly has appointed new deans to lead the College of Agriculture, Food & Environmental Sciences and Orfalea College of Business.

Andrew Thulin was named dean of the College of Agriculture, Food & Environmental Sciences in June. He previously led Cal Poly’s Animal Science Department for 15 years and has been serving as interim dean since former Dean David Wehner was tapped for a role in the university’s administration in July of 2013.

Under Thulin’s leadership, the Animal Science Department implemented a new strategic vision that led to a significant expansion of facilities, faculty and staff. Graduation rates increased to nearly 90 percent, and more than $16 million was raised for new laboratories and the construction of a new beef center, animal nutrition center, and meat processing center, among other buildings.

Scott Dawson, dean of the School of Business and Administration at Portland State University in Oregon, will begin his post as dean of the Orfalea College of Business in August. At Portland State, he led the creation of the school’s 40-member Business Advisory Council, mobilizing business leaders in the local community to lend their talents to the school’s strategic and philanthropic development. He was also instrumental in developing new international programs and industry partnerships.

Dawson succeeds former Dean Dave Christy, who served from 2004 to 2013. Christy left Cal Poly to become provost of Baruch College in New York City.

Mustang News Wins 20 National and State Awards

Mustang News, the Cal Poly Journalism Department’s student-run integrated newsroom, received national and state recognition with 20 awards from the Associated Collegiate Press and the California College Media Association. During the National College Journalism Convention this spring, the Associated Collegiate Press awarded Mustang News Best of Show awards in the Website and Multimedia Package categories. Mustang News also received third place for Best of Show in the Special Section category. The accolades follow significant changes in Cal Poly’s Journalism Department. In fall 2013, the department announced the development of Mustang News, an integrated, digital-first student news organization. As part of the integration, Mustang News now reaches across platforms to include a twice-weekly print edition, TV news broadcast, radio broadcast, mobile app, video stream, and social media presence — all found on the newly awarded website, MustangNews.net.

Kennedy Library Receives National Award for Excellence

The Association of College and Research Libraries (ACRL) has named Cal Poly’s Kennedy Library as a recipient of the 2014 Excellence in Academic Libraries Award. The award recognizes library staff and programs that deliver exemplary services and resources to further the educational mission of the institution. ACRL awards are given out in university, college and community college categories. The Kennedy Library won the award for best university library nationwide. It is the first university library in California to receive the award. In addition to the recognition, the library received $3,000 at a ceremony held on campus during spring quarter.

“We were taken by the LibRATs (Library Research Assistance Technicians) program, in which highly trained students provide instruction and help other students with research,” said Joyce Ogburn, chair of the 2014 Excellence in Academic Libraries Committee and dean of libraries at Appalachian State University. “Among the library’s other innovations are development of a Data Studio to address data literacy and instigation of access to and development of open access textbooks to decrease costs for students.”

“Kennedy Library is proud to be an important part of Cal Poly’s cross-disciplinary excellence,” said University Librarian Anna K. Gold. “Our culture of innovation reflects the strengths of Cal Poly’s students, faculty and staff.”

Freshman Takes Individual Title at National Rodeo

Taylor Santos-Karney, a first-year Cal Poly agricultural systems management major, won the tie-down roping title in June at the College National Finals Rodeo (CNFR) Championships in Casper, Wyo. “It was a dream come true, especially as a freshman,” said Santos-Karney. “I’ve worked for this our whole year and really since I was a little kid. To get the opportunity to go to the championship and win is amazing.”

Santos-Karney entered the tournament as the top-ranked all-around male competitor in the West Coast region. His spectacular 8.4-second run in the short round put him at the head of the pack of 45 competitors representing 35 schools across the country. He finished with a 37-second four-run total time.

“It’s great for Cal Poly to bring back another championship,” Londo said. “We have a long history of being a college rodeo powerhouse, and it’s exciting to see that coming back. I expect we’re going to be a big name in college rodeo for many years to come.”

Outstanding Students Honored at State Capitol

In February, 17 of Cal Poly’s most accomplished students were invited to the state capitol in Sacramento, where they met with San Luis Obispo’s legislative representatives and were officially recognized on the floors of the Senate and Assembly. The group included winners of engineering design competitions, budding business entrepreneurs, scientific researchers, and Congressional interns. The students represented all six of Cal Poly’s colleges.

“She wants to be recognized for her hard work and to be included in this group of people doing really impressive things,” said Cal Poly President Jeffrey D. Armstrong. “This latest PayScale listing shows that we are fulfilling our goal of providing students with an opportunity to transform themselves into the workforce-ready professionals and future leaders our world needs — and to do it at an accessible price.”

For Cal Poly, the total cost is $103,600 and return on investment is $611,700.

PayScale Ranks Cal Poly No. 7 for Return on Investment

Cal Poly ranks No. 7 among the nation’s public universities and No. 33 among all institutions for return on tuition investment, according to a listing from PayScale.com.

The list includes the weighted total cost for a graduate based on in-state tuition rates along with the 20-year net return on investment. For Cal Poly, the total cost is $103,600 and return on investment is $611,700.

The 2014 PayScale study looked at 1,310 public, private, religious and secular universities around the nation. “Cal Poly provides Californians with an affordable avenue to a top-shelf education that will pay dividends throughout their lives,” said Cal Poly President Jeffrey D. Armstrong. “This latest PayScale listing shows that we are fulfilling our goal of providing students with an opportunity to transform themselves into the workforce-ready professionals and future leaders our world needs — and to do it at an accessible price.”

For Cal Poly, the total cost is $103,600 and return on investment is $611,700.

The group included winners of engineering design competitions, budding business entrepreneurs, scientific researchers, and Congressional interns.

More than 4,100 graduates joined the ranks of Cal Poly’s alumni June 14 and 15 in this year’s spring commencement ceremonies. Read more at www.calpolynews.calpoly.edu. Photo by CHRIS LESCHINSKY

New Initiative Turns Undergrads into Cybersecurity Warriors of Tomorrow

By Jo Ann Lloyd | Photography by Britanny App

It made international news days before Christmas last year: Millions of Target customers’ credit card information was breached while they did business at the nation’s No. 2 discounter, and according to reports, the biggest retail hack in U.S. history could have been prevented.

In the not-too-distant future, Cal Poly computer science and computer engineering students will be equipped to spot, stop and prevent these types of attacks. The university’s new cybersecurity education initiative—which includes the Cybersecurity Center, Cal Poly Northrop Grumman Cyber Lab, cybersecurity curriculum, and a Cybersecurity Council—is preparing students to tackle the ever-increasing challenge of protecting people’s and organizations’ online privacy.

Cal Poly’s momentum in cybersecurity education builds upon an already-established interest, initiated through a cybersecurity projects lab for students established with funding from Raytheon. The Cal Poly White Hat club uses the lab to make the Internet a safer place by protecting personal computers, private data and information systems.

Spearheaded by the College of Engineering, the unique initiative seeks to educate all Cal Poly students in issues of cybersecurity.

The new cyber lab, the first of its kind in the nation, enables students to study real-world computer security technologies, in a safe and controlled environment. Funded by the Northrop Grumman Foundation in a partnership, the cutting-edge lab features a direct connection to Northrop Grumman’s Virtual Cyber Lab, allowing students to work directly with the company’s cybersecurity experts and experience emerging challenges in real time.

“This initiative is giving our students virtual access to some of the best resources in the world,” said Cal Poly President Jeffrey D. Armstrong. “It’s yet one more way in which Cal Poly is producing graduates uniquely prepared to meet the challenges of our complex society.
