IBM's Require Accurate Scheduling Numbers

Editor's Note: This is the second of two articles on the new IBM set up to be used here next year. This is an account of the procedure to be required in making a class schedule.

The installation of the IBM equipment brings with it modifications in the registration and scheduling processes, according to Dean of Students Everett Chandler. Elimination of the old "pre-schedule" procedure which is replaced by a "pre-Advisory" procedure will not involve any sign-up into class sections. Class schedules are available in the El Corral.

On Thursday May 22, at 11 A.M., students will meet in groups with their academic advisors in the usual locations. Graduating Seniors who do not plan to take course work in the fall do not need to attend.

Registration booklets for the fall quarter 1959 will be issued by the academic advisors to their advisees. Booklets will be provided by the Records Office today.

The academic advisor will explain to his advisees the process of completing the information in the book taking into account and calling attention to the following items:

The usual information concerning prerequisites, major course patterns, general education requirements, etc.

IBM course code numbers, a new item, must be properly entered on the program card in the registration book the first card in the book. These numbers are printed in the class schedule for each course and each section of each course. It is essential that these numbers be properly entered in the book. From these numbers, an IBM machine check can be made on the way sections are filling; thus providing ample opportunity prior to registration to make adjustments if needed.

Following the issuance of the registration book and explanation, students will be directed by the

(Continued on page 4)

"Faculty of the Year" Applications Due Soon

Students are reminded that applications for "Faculty of the Year" award must be turned into the ASB office by Monday, May 22.

Applications may be obtained from the Student Body Office and any student may nominate any faculty member he wishes.

The award will be made at the June 8 Spring Leadership Banquet. The member will be chosen on his voluntary service, guidance, stimulation; and understanding beyond that expected of a faculty adviser. His participation in a student activity as well as service of a completely voluntary nature where no departmental or administrative assignment is involved will also be considered.

Poly Picnic Site . . .

PICTURED HERE is the site of the "Poly Picnic" slated for next Sunday at Nacimiento Dam. The outing, sponsored by the College Union Outings Committee, will offer such recreation as swimming, boating, archery, volleyball, skindiving, and softball.

Engineers Plan Publication of Alum Magazine

"Polygon", the Engineering Division Magazine, is being published for the first time this year separate from the Alumni Magazine, "Green and Gold".

In the past, once each year the Alumni Association set aside part of one issue to be devoted to engineering news. Because of financial difficulties, the issue was to be discontinued this year. The Engineering Council felt, however, that the issue, which is sent to industry, schools, and interested people was too valuable to be discontinued. With the combined help of SAC, The Engineering Council, and the Engineering Journalism Class, the "Polygon" will go to press end of the spring quarter.

Engineering Journalists started work by electing Ronald McGee, Junior IE major, as Photo Chief. Each member of the class has been assigned a department to cover, and as not all engineering departments are represented in the engineering journalism class, outsiders to the department have been assigned.

McGee, Chairman-elect of the Engineering Council, says, "We hope all departments will cooperate with the students assigned to write the department story. This magazine will be published each year, so let's have all departments represented in engineering journalism next year."

Poly Picnic Slated for Nacimiento

by Dave Hamill

Looking for action, thrills, and excitement? Are you bored with Avila? Here is your chance to get a tan in a new place. It's the "Poly Picnic," Sunday, May 22.

Plan to attend and bring friends. The pioneer effort will be held at the recently opened Nacimiento Dam picnic area, northwest of Paso Robles. Sponsor is the College Union Outings committee with Paul Wilson serving as temporary chairman.

The Sports Car club led by Bob Emery, Tom Browne and Tom Boyden, the Turfies by Don Scoville, Penguins by Lee Gunnarson, and the Volkswagen club by Dave Hamill are sponsoring a "blackout rally" for all comers to start the activities. Trophies will be awarded.

The event gets you to the picnic area by 8 P.M. It is approximately a 65 mile run. Instructions and maps will be issued at 12:30 on College Avenue, in front of the girls' dorms.

Everything is free but the food. A bus will be furnished for transportation. It is also suggested that the "fair sex" add that extra something as navigators for those sports cars.

The following clubs are contributing time and effort for your afternoon's enjoyment: Corinthians, sailing and boat rides, Phil Wenger in charge; Skindivers, lifeguards and exhibit diving gear, Jim Torres; Power Boat and Ski club, water ski exhibitions and boat rides, Jim Yarnell and Don Hanks; and Women's Athletic Association, volleyball and softball, Peggy McKnight.

Food will be on sale by the Orendallers led by Jim Curtis.

Protect yourselves and pick up trip insurance in the ASB office by 8 P.M. Friday. A fee of 15 cents includes coverage for the whole day.

Senior Class Meeting . . .

A senior class meeting will be held in the AC Auditorium Thursday, May 22 at 11 A.M. to discuss commencement exercises and senior week activities. All seniors are urged to attend. Dates for commencement practice will also be announced at that time.

He Proves It . . .

HOW DO YOU BELIEVE ME? That's the question El Corral Fountain Manager Everett Derrough asks SAC member Roy Formby as he measures the amount of coffee the new throw-away cups will hold. Yep, it's exactly the same as the ones being used now. (See Story)

New Wardrobe Will Don El Corral Coffee July 1

by Joyce Jeffers

El Corral coffee will be decked out in a new spring wardrobe come July 1. That's the day Duke Hill has set to incorporate a new policy around "ye de coffee shops."

Throw away plastic coated paper cups will replace the porcelain cups now being used. The price, 10 cents per cup which will also be incorporated, will have its advantages, namely, a clean coffee shop for the day's coffee breaks.

This plastic coated paper cup is something new in the paper coffee cup industry. Cal Poly will be the first college in California to start using these new cups on a full time basis.

For students at Santa Barbara State College, the 10-cent-cup-of-coffee-in-a-paper-cup has been a long-time companion. Along with this 10-cent-cup-of-coffee-in-a-paper-cup has gone the traditional paper cup taste to the coffee. Santa Barbara State College too, will soon switch to these plastic coated paper cups.

Duke Hill has put these new plastic coated paper cups through more endurance tests than most Sherman tanks in a lifetime. These are the results of his experiments:

(1) The new plastic coated paper cup will not give the traditional paper taste to the coffee. The binding glue under the plastic coating will turn brown from the heat of the coffee, but the glue taste will not come through the plastic coating.

(2) Even though the plastic coated paper cups will serve coffee (Continued on page 4)

Poly Royal Board Names Ed McGrew Next Year's Chief

Poly Royal Board elected Ed McGrew to the post of general Superintendent for the 27th annual "Country Fair on a College Campus" celebration.

McGrew, a Junior Soil Science major from Holtville will succeed Jim Troxel in the top position. McGrew was Carnival Chairman for this year's Poly Royal and was also Bonfire Chairman for the 1957 Homecoming celebration.

The board has set the date for Poly Royal as April 24-25, 1959.

John Gager, Animal Husbandry major from Anderson, and Larry Killenger, Crops major from El Monte, are first and second assistant superintendents respectively.

Secretary is Elizabeth Rayl, Physical Education major from Van Nuys, and treasurer is Emil Saxberg, Industrial Engineering major from Berkeley.

Directors on the board are: Bruce Wilson, Soil Science, San Luis Obispo, Special Events; Don Bryant, Farm Management, Yucca, Arrangements; Doug Snyder, Animal Husbandry, Poway, Agriculture; Jeannette Bradley, Ag Journalism, Palo Alto, Arts and Sciences; and William C. Stewart, Aeronautical Engineering, San Luis Obispo, Engineering.

PICTURED HERE is Ed McGrew, new Poly Royal General Superintendent. McGrew succeeds Jim Troxel in the position.

McFadden Ties Morro Bay Record

In a losing cause Saturday, Tom McFadden ripped Morro Bay's back side apart posting a five under par 66—which ties the course record—but the local golf team was not so lucky. The local squad lost to invading San Jose State, 20-7.

The Spartans' superior depth was the spoiler for Charles Hanks' Mustangs as they swept almost every match after McFadden.

Dick Callen, playing third position, was the only other man on the local squad to get any more than 1/2 point. Callen dropped Spartan Harvey Kohn, 2-1.

McFadden played just "so-so" on the front side making the turn even par. His birdie streak started on the eleventh hole when he knocked a shot within two inches of the cup for a "gimmie" bird.

He pared the 14th and easily

birdied the 15th dropping a two foot put.

On the 290 yard 16th, the big Mustang sticker sent a booming tee shot within ten feet of the green. He stepped up to his ball and holed it out for an eagle two.

McFadden played par golf the

rest of the way in.

Dan Prochnow, a fresh member of the local golf team, was second low on the Mustang squad with a 76.

Low for the Spartans was Eddie Duano with a one under par 70.

Baseball Post Mortem

Last week's 11-4 CCAA conquest of Los Angeles State ended baseball play for coach Bill Hicks' Poly pine, leaving the squad's won-loss record at seven wins and 24 defeats. In conference action the Mustangs posted a 2-12 mark for the basement position.

Though pitcher George Jenkins hit .318, only one Poly regular was

able to finish the season above the .300 mark. Low Gentry, senior rightfielder, went 8 for 8 at bat against L.A. State last week to bring his average up to .304. Next regular in line is third sacker Ray Kunes with .267. Marv Almond, reserve catcher-outfielder, hit .281 during the season.

As a team the Hicksmen were out-hit by the opposition .224 to .284.

Big righthander Jim Newkirk, who turned out to be the Mustang's mound workhorse, ended his first year with a 4-6 record. He posted a 3.16 ERA—the best of any of Hicks' chukkers. Both Gene Callan (.455) and Steve Whitesides (.692) ended the season with 1-8 marks. Jenkins (.669) had four losses and a single victory and Larry Mitchell and Alan Dick were charged with a defeat apiece. Though Dick Simmons lost six, his 5.44 ERA was third best among nine Mustang hurlers.

Green and gold hitters that hit above .250 include Greg Briggs (.280); Fred Bubeck (.280); and Simmons (.250).

Pete Elliot To Coach In Eleventh Workshop

Many of the nation's top athletic coaches and trainers will gather here during the summer, August 4-14, for the California Workshop for Physical Education and Athletic Coaching. This summer's session will mark the eleventh consecutive year of the workshop.

Pete Elliot, head football coach at the University of California, will be the featured speaker and will serve as grid instructor at the gathering.

The workshop features tennis, golf, archery, baseball, field hockey, basketball, gymnastics, athletic training, orienting, co-educational dancing, trampolining, public relations, modern dancing, volleyball, tennis, and badminton.

Lou Jennings is to handle the co-recreation golf activity while Noel Brown will aid with Tennis. Gymnastics, which has been missing from the agenda for the past two years, will return to the program this year. It is to be coached by Rich Harris from Arcata High school.

THE BRAIN—One of the many reasons that the Mustangs had such a successful season was the quarterbacking of Bobby Beathard, who made the Little All-Coast Squad. Spring football fans will get a preview look at

Beathard when the Green and White teams lock horns on May 28 during their annual intersquad game which concludes spring practice. Beathard is slated to start for one of the two teams.

Mustangs Fourth In Gymnast Finals

Artie Day and John Alday grabbed first places in the first annual CCAA gymnastics championships held at Long Beach State over the weekend, but their efforts were not quite enough as the Mustangs placed fourth.

The meet was won by Long Beach State college with 58 points, followed by Los Angeles State with 51, San Diego State with 54, Cal Poly with 54 and Fresno State, 5.

Day took a first in the long horse and Alday topped the field in the trampoline. Alday also placed fifth in the horizontal bar.

CLUB NEWS

ASTE BANQUET

Noted atomic scientist Prof. R.B. Lindskog will be the featured speaker at the American Society of Tool Engineers' annual banquet, Saturday, April 24, at 7 P.M. in Edna Farm Center.

Tickets, priced at \$2 for members and \$2.74 for non members, can be obtained from club officers, and Francis Whiting at the machine shop.

HAWAIIAN LUAU

Exotic food, and according to club president Ron Geo, equally exotic dancing girls are features of the coming Hui O' Hawaii annual Luau to be held at 6 P.M., May 24, in the Veterans Memorial Bldg.

After dinner there will be the annual free Hawaiian Beachcombers Ball at Crandall Gym. Tickets to the Luau are \$2, and can be obtained from any club member or can be reserved by calling LI 8-7746.

DRAMA

Tickets for "Bus Stop," the College Union Drama Committee's production scheduled for 8:15 P.M., May 22-23, at the Elmo theater, are available in the ASB office. Tickets are 75 cents with ASB card and \$1 without.

CLASS ELECTIONS

Petitions for class officer nominations will be available in the ASB office May 22.

All nominations and petitions must be in the ASB office by noon, May 26.

Elections will be held June 8-4.

Two Electrical Engineers Win Prize Paper Contest

Electrical engineering students have won the prize paper competition of the American Institute of Electrical Engineers for the Arizona, California, Nevada district for the third consecutive year. The University of Arizona placed second and the University of California, Berkeley, third.

Other entries in the institutes eight district prize paper contest were Arizona State College and the University of Southern California.

The winning students were Adrian R. Wilson, San Jose and Robert A. Minto, Graver City. Seniors, both will work for Westinghouse Electric Corporation as electrical engineers following their graduation here in June. The Design and Construction of a Serial Binary Adder for a Digital Computer" was the subject of their prize winning paper.

The winning students and Warren R. Anderson, their adviser, will represent the student members of the AIEE for the states of California, Arizona and Nevada at the AIEE Summer General Meeting in Buffalo, N.Y., June 22-27. A new 18-year rotating trophy for the winner of the prize paper contest was presented to the Cal Poly students by O. A. Gustafson, San Francisco, vice president of the AIEE.

Chase Boy Scouters Win Cage Tourney

Women's Athletic Association has recently completed a successful basketball tournament, according to Miss Patricia Boukidis, Women's Physical Education Instructor.

High point player for a single game was Terry Bauer, freshman PE major from San Bruno, scoring 19 points. Second high was Jan Angell, junior Elementary Education major from Los Angeles, who tallied 16.

Six teams comprised the tournament schedule with representatives from Chase, Jaspersen, and Heron Hall, as well as Off Campus groups.

Winning team was Chase Hall's Boy Scouters with Sheila Varian, junior PE major from Haley, captain. Other members of the team were Chris Bays, Greta Gatten, Carla Kaufman, Diane Smithson, Teddy Ward, Karen White and Pauline Woods.

Coronation Ball Pix...

The Engineering Council announced that the Coronation Ball pictures are being processed and would soon be ready for mailing. The date for mailing will be determined before Friday, May 23, and will be announced in El Mustang on that date.

North Carolina in 1957 was the third team to reach the National Collegiate basketball tournament with a perfect record. They won 27 in a row during the regular season. Columbia in 1951 with 21-0 record and San Francisco in 1956 with 25-0 were the first two.

Seniors Presented Mac Short Award In Los Angeles

The Mac Short award of the Southern California chapter of the Society of Automotive Engineers was to be presented to two Cal Poly seniors at the Rodger Young auditorium in Los Angeles.

The trophy which is awarded annually in honor of the late Mac Short, former chief engineer of the Lockheed Aircraft Corporation, has been won this year by H. Harry Muegggenburg of Rosemead and J. Faustino Cutti of Lima, Peru.

The award was made for the design, construction and testing of a pressure actuated centrifugal filter by the two mechanical engineering department majors.

IBM's Require...

(Continued from page 1)
academic advisor to return books to the advisor at specified periods from Thursday, May 22, 1958 at 11 A.M. to Thursday, May 29 at 5 P.M.

NOTE that students who do not appear on Thursday, May 22, 1958 at 11 A.M. will have missed an administrative appointment and will be required to pay \$2 in order to obtain the registration book. The student does this by obtaining a receipt from the Cashier and bringing the receipt to the Records Office, Adm. Bldg. 102, where a registration booklet can be obtained. The student then brings the booklet to the advisor for program making.

Returning Book

When the book is returned, the academic advisor will check the program. If it is satisfactory, he will sign the program card on the next line under the last course listed. If the program is not satisfactory, he will work with the student in arranging a satisfactory program. After it is arranged, he will sign as above.

The academic advisor will keep the registration books for his advisees. After collecting all the books from his advisees, the advisor will give the books to the Records Office on or before Thursday, June 5, 1958, at 5 P.M.

NOTE that the IBM equipment will be used to check section sign-up in every course.

The registration books will be held in the Recorder's office until registration time in September. The books will be placed in alphabetical order and books of students known not to be returning will be removed. The remaining books will be returned to the Department Head's offices.

New Wardrobe...

(Continued from page 1)
but once in its lifetime in El Corral, they are re-useable. (Guests at Cal Poly will find the cups is a fine souvenir of their visit to the campus for each cup will have Cal Poly's insignia printed on it; orange insignia on a dark green background.) In testing the new cups Duke experimented with them at his own home. "I've been using one cup at home for two months now. It's still in excellent condition."

Duke has used the experimental cup at least twice a day for the past two months. He simply washes it out after every use and hangs it up to dry. "The handle does eventually wear off because there is a thinner coat of plastic sprayed onto the outside and handle of the cup," he pointed out. "But, the inside plastic coating remains intact."

Why the 10 cent cup of coffee and plastic coated paper cup?

Right now El Corral is losing almost three cents on every cup of coffee it sells. In order for the coffee shop to keep in the black a 10 cent price tag is being placed on the coffee.

At present, with the increasing number of students using El Corral coffee shop each day, it is becoming impossible to wash and sterilize the cups properly. The throw-away cups will mean great sanitary protection.

Hill will keep the approximately 70 students he hires each year and he will possibly hire three or four additional students.

Spanish Course Will be Offered

Spanish will be offered at Cal Poly next fall to all students. The three unit beginning course will be taught by Robert Boothe an instructor in the English Department.

"Our emphasis will be on oral and conversational Spanish," says Boothe, "however, grammar will not be overlooked. Agricultural graduates will find this course beneficial when dealing with Mexican labor, and because of the many engineering opportunities in South America. Engineering students will find the knowledge of Spanish ad-

vantageous," continued Boothe. "While Elementary Education majors might even use it in grammar school teaching, since Spanish is being taught at that level now in the Los Angeles Area."

Boothe has been teaching Spanish for the past two and a half years at the California Men's Colony and taught it for a semester at Morro Bay. He is going to Mexico this summer to gather material he hopes to use in the course.

**GRADUATE
THEN FLY**

The Air Force pilot or navigator is a man of many talents. He is, first of all, a master of the air—and no finer exists. In addition, he has a firm background in engineering, electronics, astro-navigation and allied fields. Then, too, he must show outstanding qualities of initiative, leadership and self-reliance. He is, in short, a man eminently prepared for

an important career in the new Age of Space.

As a college graduate, you will be given priority consideration for the Air Force Aviation Cadet Program. While openings are limited, you will be tested and advised immediately of qualification status. Find out if you measure up. Paste the attached coupon on a post card and mail it now.
