QUEEN HOPEFULS

RYING FOR TITLE of annual Homecoming Queen are from left to right (front row) Sue Clark, 20; Joan Searn, 18; Mary Jo Livers, 19. Back row: Patty Soule, 17 and Sue Graves, 19. Elections will be held Oct. 29 and 30 to determine who will reign over the many Homecoming activities.

Two Homecomings

Celebration Highlighted By CP-Montana St. Tilt

"Mother Goose Comes to Poly" is the theme that will prevail throughout the 51st annual Homecoming celebration here. The bi-campus Alumni association will have two November Homecomings this year, Nov. 8 here and Nov. 22 at the K-V campus. This 51st annual Homecoming marks the third year that the queen will be selected from Cal Poly's own crop of coeds. Selected next Wednesday and Thursday at a student body election, she will succeed Barbara Foley, Stockton, 1956 Homecoming queen, and Bobbie Unland, Riverside, 1957 queen. She will be officially crowned at the Cinderella Ball Saturday evening after the game.

Highlight of this year's Homecoming celebration will be the Poly vs Montana State football game. Kickoff is at 8:15 p.m. Saturday. Homecoming parade will be held in downtown S.L.O. at 2 p.m.

Departmental and divisional open houses will be held throughout Saturday morning. Coffee and donuts will be served to visitors in many of the departments. The general alumni meeting Saturday morning will kick-off Alumni activities.

National Alumni association president and vice president will be elected during the general meeting. Regional presidents for North Coastal region, South Coastal region, Golden Gate region, and San Joaquin region will be also elected.

Alumni will get together in the South Cafeteria Saturday evening for a prime rib dinner. Myral Clark and his orchestra will provide music for the after-game Alumni dance at the Edna Farm center.

Alumni may purchase, dinner, dance and membership cards during registration Saturday morning in the Administration building lobby. "If Alumni members wish reserved seats for the football game," says Leo Sankoff, National secretary-treasurer, "they must pick up the tickets before 4:30 p.m. Saturday."

Hayride-Dance Set Halloween Night

A Halloween Hayride Hop will be the feature attraction of College Union plans for night life on Friday, October 31. The affair, which starts at 8 p.m., will be held on the volley ball courts next to Poly Grove.

A large bonfire will illuminate dancing by records. Hourly wagons will leave the volley ball courts to take couples on excursions around the campus. Cider and donuts will be served for refreshments.

The hop is being sponsored by Outings committee, Steffe Murdock, chairman.

LOCK-OUT HOURS

Women's dorm lock-out hours for the Homecoming weekend have been announced by Mrs. Mary Etta Murray, dean of women. Lock-out Friday, Nov. 7, will be as usual, 1:30 a.m. Deadline, however will be extended to 2 a.m. on Saturday.

Rollo Beaty, 1917 Graduate, Named Alumnus Of The Year

Rollo A. Beaty, San Francisco, has been selected as the Alumnus of the year for 1958 Homecoming activities. Beaty, a 1917 graduate, is serving his third term as Chairman of the Research Committee of the Dairy Advisory board and this year he is President of the California Dairy council.

In 1952 he became a Vice-President of Golden State. It was about that same time that he became a director of Dairy Institute of California. He served as chairman of the legislative committee for this organization during the 1953 legislative session. In the fall of 1952 he was appointed by the director of agriculture to the Dairy advisory board and became chairman of the research committee of the organization.

Beaty, born in Iowa in 1898, became a resident of Paso Robles in 1904. He started in the dairy industry by joining the Golden State organization in May, 1923, and has been with them ever since. He started in the accounting department and by administrative assistant to the General manager and in that same year

made a start in industry activities.

In 1932 he was transferred to the Los Angeles office where he had a part in the various efforts that were made to stabilize that market. In those days he was of the small group known as the "sharp pencil boys."

In 1945 he was called to San Francisco and became a director and later President of Creamery Operators Association. He also served as a member of the Producer Relations Committee of Milk Industry Foundation, the national organization of milk distributors.

In February of this year, Golden State became a part of the Foremost Dairies. Beaty is now on the general staff of that company. He still handles product procurement for the Pacific Coast operations.

'Mother Goose' Theme

Coronation of Third Queen Set For Cinderella Ball

The third home-grown queen will be elected by the student body Oct. 29 and 30, for the 51st Homecoming.

The final selection of five finalists has been announced by Bill Munster, Queen chairman and campaigning is underway to select the queen.

Sue Clark, daughter of Mr. and Mrs. Willis Clark, 1655 Rubio dr., San Marino, junior Home Economics major, has replaced Bradna Fisher who was disqualified earlier this week.

Other finalists in the contest are: Mary Jo Livers, daughter of Mr. and Mrs. C. B. Livers, 2748 Mound View ave., Studio City, freshman Elementary education major; Sue Graves, daughter of Mr. and Mrs. Robert J. Graves, 1715 Beverly dr., Visalia, sophomore Home Economics major; Joan Soares, daughter of Mr. and Mrs. John E. Soares, Rt. 1 Box 61, Pixley, freshman Elementary Education major; and Patty Soule, daughter of Mr. and Mrs. Dale Soule, 801 Mill St., Susanville, freshman Home Economics major.

The queen and her court will open Homecoming activities at the bonfire rally Friday, Nov. 7, 7:30 p.m., and will be introduced at the dance immediately following the rally.

Saturday, Nov. 8, 8:00 p.m., the queen and her attendants will ride on a float designed by the members of Blue Key. Following the parade there will be a rally on the Court house steps in which the royal court will participate.

During half-time of the Poly vs Montana State game, the queen and her court will be introduced and make presentations to the alumni.

The queen will be officially crowned at the "Cinderella Ball," held in Crandall gym following the game. Leds are being flown from the Hawaiian Islands as a special attraction from the alumni of

Hawaii, and will be presented the court during the coronation ceremonies.

The girls will be televised on KSBY TV (Channel 6) Nov. 8, 6:30 p.m. plus performing on several radio shows.

SELECT YOUR QUEEN

Student elections for Homecoming queen will be held next week—Wednesday from 8 a.m. to 5 p.m. and Thursday from 8 a.m. to noon.

All student body card holders are being urged by Bill Munster, queens chairman, to be sure and vote at the polls—near the post office and in front of the library. "If you don't know which candidate to vote for there will be photos of each posted at the polls," explains Munster.

"It won't take but a minute of your time to vote and we want this to be one of the most successful campaigns ever," concludes Munster.

Former Dept. Head In Atomic Research

Robert W. Adamson, head of Mechanical Engineering department here for the school year 1957-58 has completed an appointment as a resident research associate at the Argonne National Laboratory, Lemont, Ill.

Working with staff members of Argonne's Reactor Engineering Division, Adamson made a study of boron stainless steel and zircaloy-2 as high temperature reactor materials. Boron stainless steel has shown considerable promise as an absorber material in the control rods which are inserted in a reactor to slow down or stop the chain reaction. Zircaloy-2 is a special corrosion resistant alloy of zirconium, an element useful in reactors because of its very low tendency to absorb neutrons and remove them from the chain reaction.

Adamson received his bachelor of science degree in chemical engineering at Tulare University, New Orleans, La., and his master of science degree in the same field at Oregon State College, Corvallis, Oregon.

HOMECOMING CALENDAR

Friday, Nov. 7

8 a.m.—Freshman collect wood for bonfire.

7:15 p.m.—Bonfire rally, field below Poly airport.

8 p.m.—Talent show and rally, AC auditorium.

8:45 p.m.—Dance, following talent show, Crandall gym.

Saturday, Nov. 8

9 a.m.-2 p.m.; 3:30 p.m.-4:30 p.m.—Alumni registration, Adm. lobby.

9:30-11 a.m.—General Alumni meeting, AE 123.

9:30-11 a.m.—Departmental reunions, alumni. Dairy dept., coffee and donuts served. Air Conditioning dept., coffee and donuts served. AC lab. Soils dept. open house. OH open house, OH labs.

ME open house, coffee and donuts, ME lab. Ag Engineering, coffee hour, AE classrooms. Aero dept., coffee and donuts, Aero strip.

11:30-1 p.m.—Alumni depart-

mental luncheons. EE barbecue, Cuesta park.

2-3 p.m.—Homecoming parade, downtown S.L.O. Courthouse steps.

4-5:30 p.m.—Friendship hour, Anderson hotel.

6-7 p.m.—Alumni dinner, South cafeteria.

7:45 p.m.—Pre-game ceremonies.

8:15 p.m.—Football game—Poly vs Montana State.

10:30 p.m.—Cinderella Ball, Crandall gym, sponsored by Soils club.

10:30 p.m.—Coffee hour Lib. 118.

10:30 p.m.-2 a.m.—Alumni dance, Edna Farm Center.

11:30 p.m.—Queen Coronation, Crandall gym.

Sunday, Nov. 9

1 p.m.—Soil Science barbecue, Cuesta park.

1 p.m.—Ornamental Horticulture barbecue, Cuesta park.

Collegians Swing At Homecoming

Cal Poly's popular Collegians will be featured at the big Cinderella Ball Saturday, Nov. 8, during the 51st annual Homecoming celebration. The 15-man orchestra (including four new freshman members) will provide up-beat music from 10:30 p.m. to 1 a.m.

Members of the Collegians for this year include: Bruce Allan, third trombone; Norman Knowles, second tenor sax; Michael McRae, fourth tenor sax; Jerry Gillivan, guitar; Richard Anderson, first alto sax; (leader of the sax sec-

tion); Donald Budal, Piano (representative to the dance committee); Cecil Martinez, third alto (assistant manager); Bob Stallings, baritone sax; Frank Dotting, first trombone; Bob Griffith bass viol, (leader of the rhythm section and representative to the music board); Bob Mann, second trombone; Norvel Ney, first trumpet; Don Roberts, drummer; Al Smith, second trumpet (manager and leader of the brass section) and Eddy Valusek, third trumpet (librarian).

Stars Don't Always Shine

By Dave Kempf

Best athletes don't always make the best coaches, in fact, often the reverse is true. That's what Dr. Robert Mott, head of the Physical Education department, claims.

"First of all, a young coach must be sincere," Mott said. He indicated that, above all, a novice mentor must believe in what he is doing. "Secondly, he has to like boys and have confidence in them." Coaching can become a heartbreaking profession and the guiding hand of any team must be able to absorb the defeats along with the victories while keeping the boys' spirits high, Mott added. The spirit of a team usually comes from the coach, so if he loses heart, naturally his team will follow.

Dr. Mott said some of the fellows who have had practice in athletics usually go on to make the best coaches. They understand more of the barriers faced by budding athletes and can help the discouraged young man out of his dilemma.

"Most of the fellows who have been active in Cal Poly's extensive intra-mural program, playing as well as organizing, have been our best contributions to coaching. This program, along with our policy of letting students coach junior varsity basketball and boxing, and assisting in football and baseball, are in keeping with Cal Poly's 'learn-by-doing' philosophy and give the prospective coach valuable experience before going out in the field," Mott said.

More and more of Cal Poly's graduates are spreading all over the West in sporting circles. Among the many now coaching are Stan Sheriff, Iowa State Teachers college; Jim Cox, Mill Valley High; Bud Chadwick, John Rubie and Don Tucker, Atascadero High; Red Moore, Shandon High; Pinky Bernier, Santa Maria High; Hank Moroski, Bakersfield High; Bob McCutcheon, San Diego University; and Vic Bussola, College of Idaho.

CUM ON, COW . . . Things haven't really changed much around the old campus. Cows of the 1920's and 1958's all have the same problems. How to get a cow (1), ah, bull (1), ah, steer to go where it's supposed to go. Cal Poly cows are Cal Poly cows no matter what year it is. (Photo copy by Steve Mott)

Parade Will Begin On Safeway Lot

"Mother Goose Comes to Cal Poly" will be evident as Homecoming floats wind through the streets of downtown San Luis Obispo on the afternoon of Nov. 8. Floats will feature scenes from children's nursery rhymes.

"Floats will be judged on: (1) depiction of the theme; (2) originality of idea; (3) workmanship; (4) decorations, and (5) presentation," says Jerry Cleaver, parade chairman. Entry blanks must be turned in to the ASB office by 5 p.m. Oct. 31.

Three divisional trophies for first through second place will be given in the following departments: Arts and Sciences, Engineering, and Agriculture. The traditional Alumni trophy will be awarded to the sweepstakes winner, while Rally committee will give the second place trophy. A non-divisional trophy will also be awarded.

Last year's grand-prize winner was Industrial Engineering club with their "Golden Key to Success" entry.

"All floats must be in the Safeway parking lot, corner of Marsh and Johnson avenue, by noon on Nov. 8," says AE major Cleaver. "Judging will begin promptly." Cleaver points out that any float arriving later than noon will be docked points.

Beginning at the Safeway parking lot at 3 p.m., the parade will proceed down Marsh street to Chorro, up to Monterey and on to the Court House on Osos street. Immediately following the parade a rally will be held on the Court House steps.

Rules governing parade entries are: (1) Total expenditures of float must not exceed \$250, including donations; (2) All trucks or vehicles carrying floats shall be

driven forward; (3) Driver of the float will have clear vision of 18 feet in front and 45 degrees from center front to each side; (4) Nothing will eject from the float in the direction of the spectators; (5) Floats must be safe to person and property; (6) No float shall exceed 18 feet in width and 14 feet in height, measured from the ground.

Bonfire Opens Homecoming

Rally committee plans for Homecoming promises to keep campus spirit high during the 51st annual Homecoming here Nov. 8.

The freshman class will build "the biggest and best bonfire ever" for Friday evening's bonfire rally. The captain of the Montana State-Cal Poly game will light the fire.

This year's rally will be held at 7 p.m. across from the farm shop, just down from the hangars. The varsity team, coaches, pep band, cheerleaders and songleaders will all be introduced.

"Beware of arsonists," warns Lynn Dyche, rally committee chairman.

A talent show is being planned for the same evening. It will be held immediately following the bonfire rally. Place Air Conditioning auditorium. All talented students are invited to participate. Contact Lynn Dyche for entry details.

Rally committee is planning a program of 12 to 15 stunts for half-time activities during the Montana State-Cal Poly game.

The committee is also sponsoring a post-parade rally on the steps of the court house immediately following the Homecoming parade in downtown San Luis Obispo. Yell leaders, song leaders and a pep band will be there to boost any needed spirit.

The smash hit
is Arrow,
four to one

That's how Arrow dress shirts rate with college men, coast to coast. One big reason is their exclusive Mitoga®-tailoring.

These shirts give plenty of room for action yet fit trimly because they taper to follow body contours from collar to cuff to waist.

And Arrow gives the widest choice of styles anywhere. \$5.00 up. Cluett, Peabody & Co., Inc.

Oscar Van Horn

Athlete's Courage Starts Van Horn Trophy Award

"Oscar Van Horn was a one man gang — a terrific competitor," says Coach Howie O'Daniels, who coached the 1958 track squad when Van Horn was voted its most valuable member. But the 1958 track season was to be Van Horn's last lap as a Mustang track star. Following the 1959 football season, in his senior year, Oscar Van Horn died of an intestinal disorder.

To show their great respect for their friend and teammate, the 1940 Block P Society established the Van Horn memorial trophy in his memory. The trophy is awarded

to the outstanding Cal Poly athlete each year by the coaching staff and others on campus interested in athletic promotion.

This year the Van Horn trophy was awarded to Lewis Gentry, PE major from Coalinga, for his outstanding accomplishments in football and baseball.

"Van Horn was a big, strong,

likable fellow, the finest kind of a team man and an excellent student," recalls O'Daniels.

The Mustang grid great was the uncle of Gary Van Horn, who plays fullback and end on this year's Poly varsity squad.

Alumni from Hawaii Have Surprise for Homecoming Court

Never before in the history of Homecoming activities has the Queen and her court been presented with authentic orchid leis from Hawaii. So this year the Alumni association is doing something about it.

To express their wishes for a successful 1958 Homecoming, alumni members from Hawaii are having the leis flown in for Hui Graves, Bradna Fisher, Mary Jo Livera, Joan Soares, Patty Moule, the royal court.

Materials of interest to Alumni and Homecoming guests will be on exhibit in the Library throughout the 51st annual Homecoming festivities, according to Dorothy Wright, head Librarian.

Montana State On Horizon

Looming up on the horizon and the top small college team in the nation is Cal Poly's Homecoming opponent — undefeated Montana State College.

The Bobcats, from Bozeman, Montana, with Coach Herb Agocs at the helm, have toppled some "big game" in their '58 forays. North Dakota, South Dakota State, North Dakota State and Idaho State have all fallen before the MSCO onslaught Omaha and St. Ambrose will be the next meals placed before the 'Cats prior to their encounter with the Mustangs November 8 in the "home corral."

With 22 out of last season's 27 lettermen on the Montana squad and a posse of experienced reserves, the Bobcats are shaping up as the toughest team the Mustangs will have to face this season. Behind Agocs all-veteran forward wall is 170 pound quarterback Dave Alt, who was all Rocky Mountain Conference QB in his freshman year last season. Another

spectacular performer from last year's 8 win 2 loss campaign is the conference's leading scorer, halfback Bob Rurio. The Rookies leading ground gainer, Jim McLeod, running from the other half-back slot, and Dan Costello, 190 pound fullback, rounds out the striking force.

The game between Cal Poly and Montana State, both ranked among the best small school grid squads in the nation, promises to provide a rip-snorting grid battle for this year's Homecoming Game.

'Countrymen Win

A powerful Mustang Cross Country team tied Fresno State 28-28 in a meet Saturday, October 18.

Running against a field of 14, Dave Buckland ran the 3.0 mile course in 14 minutes, 55.5 seconds for the fastest time of the day. Jack Wofford placed second, followed by Charles Thronson. Buckland and Wofford also paced in the top ten at the Santa Barbara Invitational meet October 11.

The Poly team will compete against Santa Barbara October 23, Fresno State October 28, and Long Beach State November 1.

Frosh Gridders Battle San Jose

A well-versed Poly Colt football team will take the field against the San Jose State Frosh this afternoon at 3 p.m. at Sparta.

Coach Tom Lee's Colts will seek their first win of the season over a rugged SJ squad which has beaten bay area service teams handily. The Colts have had a chance to recuperate for the affair and will enter the game uninjured for the first time this season, except for Ken McGregor, the Colt's big 220 pound tackle whose chances of playing are doubtful.

The Colts suffered a 44-7 mauling from Hartnell College at Salinas in their season opener and limped back to Poly where they were nipped 27-20 by the Fresno State Bullpups in a hard-fought battle which saw the Pups rise to the top during the final period of play.

Starting the SJ game in the Colt's forward wall will be Terry Farris at center, Lynn Lobaugh and Russ Zierman at the guards, Mike Arlotto and Keats Marshall, tackles, and Jerry Fletcher and John Ramsey at the end slots. In the backfield Ted Tollner will start at quarterback, Rodger Kelloy at fullback, and Bob Johnson, Don Fisher and Jim Criner at the half-back positions.

Tumbled Mustangs Pawing To Get Back In Grid Race

By Bill Winkler
El Mustang Sports Editor

Momentarily tripped up in their stampede for the CCAA crown by Fresno State last Saturday night, the Mustangs are back on their feet and pawing for a redemption against Long Beach State College's 40'ers tomorrow night at Mustang Stadium. Game for the conference clash is set for 8:15 p.m.

By now little need be said about last week's "de-anorter" at Ratcliffe Stadium. The loss unearthed more than ample numbers of Monday morning QB's with all the answers. Overlooking a month's worth of prime bragging material, the "experts" have pattered around harranging the single defeat as though the Mustangs are out of the running.

Spurred on by the faithful, Coach Roy Hughes Green and Golders will face an improved LASC squad which has been picking up momentum as the season progresses. Last weekend Coach Don Reed's 40'ers upset Santa Barbara, 12-7 and rolled over undefeated Chico State, 28-8 the previous week. Chico went into the game a 10 point favorite.

Last weekend's CCAA contests left the league "all shook up". Roaring down the backstretch of the '58 campaign, all of the teams with the exception of trailing L.A. State are bunched up tight as they enter the far turn of the title race. Santa Barbara has a 3 win-1 loss league record and San Diego State is sporting 2 wins against a single defeat. Cal Poly, Fresno State and Long Beach State are neck and

neck in the conference standings with single win-loss records.

Probable starters for the Mustangs tomorrow night will be Bob Williams anchoring the "wall" at the center slot, flanked by Jim Doyle and Bob Moore at the guards, Lyle Dennison will start at right tackle, and John Allen, who turned in a rugged performance against the Dogs, will be at left tackle. Dick Tucker and Rod Taylor will be at the ends.

Tentatively starting in the backfield will be Tom Kosterman at quarterback with Fred Ford and Claude Turner at halfbacks and Benny Martin at fullback.

Co-captains for the tilt will be Doyle and Moore. Moore is back in the line after sitting out half the games with a leg injury.

Hudson and Madden and Ford will all see action hampered by wounds and re-wounds suffered at the teeth of the Bulldogs. The biggest loss to the Hughesmen came with the announcement that fullback Glenn Harman will be out for the remainder of the season. The burly, hard fighting fullback who made the game saving tackle at Sparta, suffered a concussion at Fresno.

Water Poloists Win

The Poly "aquapoloists" did it again! In their dual varsity-frosh match Friday, the locals swamped Santa Barbara varsity 13-2 and the frosh 20-0 in water polo.

After their dunking, the Gauchos chose to cancel today's return splash, so the Poly squad will practice for a tentative return with Santa Barbara on November 1.

Cagers In Mold For '59

With a nucleus of returning lettermen to build around, Coach Ed Jorgensen is carefully molding the Cal Poly basketball squad for the '59 season, which opens December 2 against the San Diego Marines. Bob Thetford, Rich Russell, Vic DiGiovanni and Arlen French return from last year's team, while Marlin Ashby steps up from the '58 frosh squad to help bolster the cagers' effort to offset last season's CCAA basement standing.

"There may be some new faces on the starting squad," announced Jorgensen.

One sweet young thing to another: "It's the little things about him that I like—he owns a small mansion, a small yacht and a small racing stable!"

The Reader's Digest

Poly Wrestling Potential Is Great

With nearly a month of training behind them, Cal Poly's PCI champion wrestling team outlook is glowing brightly. Depth is the golden word which fortells a bright future for the '59 Mustang grapplers.

Three newcomers to Poly's varsity squad and the possibility of 2 more stellar performers promises to bulge the Mustang wrestling muscle to championship proportions.

Tom Darnell, a 2-year CIF champion from El Camino JC and ex-Navy district boxing champion, will wrestle in the 130-137 pound class. Darnell is a Pro-Med major and plays halfback on the Mustang varsity football team.

G. W. Wingo, a 167 pound PE major was a two-time CIF champion and during 3 seasons of wrestling at Oakland High School

and 2 years at Modesto JC lost only two matches.

The third newcomer is Dan Hopping from Whittier, who won the 157 pound Southern California JC Wrestling Championship and was undefeated in last year's campaign.

Coach Sheldon Harden's eyes are twinkling even brighter with anticipation of 2 more outstanding grapplers joining Poly's ranks next quarter. . . Don Hagadorn, a 125 pounder with 4 years of Navy wrestling experience and a CIF championship and another ex-service wrestler, Bruce Brink, from Sedro Woolley, Washington, who tossed his 177 lbs. around for the Fort Campbell, Kentucky team.

Besides these new bright lights, Harden will also have the services of veteran wrestler Harold Sime-nek, '58-59 team captain, and Tom Hall, who was voted PCI outstanding wrestler last year while wrestling for the Mustangs.

Fred Ford, Darwin McGill and Pat Lovell, who are all currently engaged on the gridiron, will also return to the mat campaigns to add to Poly's hope for another PCI championship team.

The varsity wrestling season will begin January 9 when the Mustangs host the University of Santa Clara.

State College and University of California enrollment is 94,000. By 1968 it will jump to 215,000. Vote

Buyers Pay 'Top Prices' For Bulls

Buyers from Arenal, Mendocino, Los Angeles and Elko, Nevada, paid top money for animals at the second annual Range Bull sale Monday. Tom Hersback, Elko, Nevada, paid the top price of \$2200 for a bull bred on the John Layous and sons ranch, King City.

A crowd of some 600 represented cattlemen from Nevada, Arizona, New Mexico as well as almost all areas in California.

"The consigners were very pleased with the shape and growing out of their animals and much favorable comment was heard on the handling and presentation of the sale," said Lyman L. Bennion, head of the Animal Husbandry department.

The bull purchased by Hersback for \$2200 had the largest average daily gain, 2.88 lbs. The next to the Tejon ranch, Bakersfield, to highest priced bull was sold by Glenn Harris, Mendocino, for \$1800. It had an average gain of 2.17 lbs. Third high bull was sold to George Smith, Arenal, by Diamond Hersford ranch, San Luis Obispo, for \$1425.

Average price for the sale was nearly \$835. Layous and sons received the best prices for consignors with an average of \$1184 per animal.

After Game Dances; Collegians To Perform

After game dances will be held after Poly's football games this weekend and next. Both dances will feature music by the Collegians and will be held in Crandall gym.

Tomorrow night's dance after the Long Beach game will be sponsored by the Junior class.

Beatniks will be the theme of next weekend's dance which is being presented by the College Union dance committee. The dance will be held following the Pacific University tilt. All students attending this dance are asked to come in dress typical of the Beatnik generation.

A 'Yes' Vote Asked

Prop. Three Being Endorsed By Many County Organizations

Eight additional San Luis Obispo County organizations have endorsed Proposition 3 for the state construction program. The additional groups endorsing authorization of the proposed \$200,000,000 bond issue are the Atascadero Real Estate Board, California State Employees' Association Chapter 125

at the California Men's Colony, Plumbers and Steamfitters Local Union No. 408, S.L.O. County Republican Central Committee, California State Employees' Association Chapter 97 Cal Poly, Cuesta Chapter of the California Credit Union League, San Luis Obispo Hi Twelve Club, and the Building and Construction Trades Council.

Endorsements announced previously include those of the S.L.O. Chamber of Commerce, the S.L.O. City Council and Teach-Quintana Parent-Teachers Association.

The five-year (1959-64) building program planned by the State Department of Finance includes construction estimated at almost \$13,000,000 in the County. Included are \$2,408,220 for additional buildings at the California Men's Colony, \$72,000 for a new Division of Forestry fire station at Cayucos, and \$10,514,000 to be spent at Cal Poly.

The Cal Poly program includes an additional engineering building, additions to the library, the science

building, and the cafeteria, a corporation yard, food processing unit, beef cattle breeding unit, sheep-swine pavilion, an addition to the agriculture building to house the English department, a new Administration building and remodeling of the present Administration building for use by the Education department. The program also includes \$839,000 worth of equipment for new buildings and \$75,000 for site preparation.

'Jungle' Only B & W Movie; Others Named

Tonight's college union movie will be the dramatic and suspense-filled "Blackboard Jungle," starring Glenn Ford and Anne Francis, with Louis Calhern.

"Be sure to see this movie," urged film committee chairman Philip Ritterband and Martin Fichten, "as it is the only black and white movie the college union will be showing this year."

Banner Returned; Culprits Found

Cal Poly's 'Mustang' banner finally found its way back to campus last weekend after being stolen at the SJS after-game dance.

Rally committee personnel picked up the banner at the bus depot Saturday morning in time to take it to the Fresno tilt.

The banner had been stolen, allegedly at gun point, by three SJS students at the dance following the game at Pruneville. There is, however, a certain amount of doubt whether or not it was a real pistol.

"I don't believe it matters if it was a real gun or not," says Everett Chandler, dean of students. "The effect is the same. If Mike Dunn (Rally committeeman from whom the banner was stolen) had thought it was not a real gun and attempted to fight and it would have been real, think of the consequences if the student with the pistol would have pulled the trigger."

Chandler has written a letter to the dean of students at SJS asking that action be taken against the three students.

Although, he said, any action will be left up to that college and we will not press charges.

Victory Dance Will Be Sponsored by Soils Club

Sporting two trophies for the best dance presented each year, Cal Poly's Soil Science club will try to make it "third in a row" when they present the Homecoming victory dance.

"In keeping with the Homecoming theme 'Mother Goose Comes to Cal Poly,' Crandall gym will be decorated with scenes from nursery rhymes," says Ronald Goo, general dance chairman.

Homecoming queen will be officially crowned during the victory dance. Cal Poly's Collegians will furnish up-beat music.

TROPHIES EVERYWHERE . . . Brother drag-racing team of Don and Mel Scoville have won somewhere in the neighborhood of 70 trophies for their winning-way on drag-racing strips around the country. Local, national and world records fall under the wheels of their "little black bomb." Don, shown here with four of their seemingly easy-won trophies, is a senior Printing Engineering major here. (Photo by Karen White)

Scoville Brothers Make Drag Racing Records Fall

Printing major Don Scoville and brother Mel have been burning up drag-racing strips around the country breaking old records and setting new ones. It's become a common-place thing for these two to bring a new trophy home each weekend to add to the growing stock-pile on the mantle. They've become a popular team on local and not-so-local strips.

During the National Hot Rod association meet in Oklahoma City this summer, Don drove his class A gas roadster to an official NHRA national record of 159.15 miles per hour.

Just a few weekends ago, the boys took the engine from the roadster and put it into a class A gas dragster and "turned on" at the rate of 159.01 with an elapsed time of 9.88 seconds at the Lions "Lads" associated strip in Long Beach. "The top speed is an official world's record," says Don, "but the elapsed time is not." (The team is hoping to hit 160 m.p.h. on gas in this little bomb.)

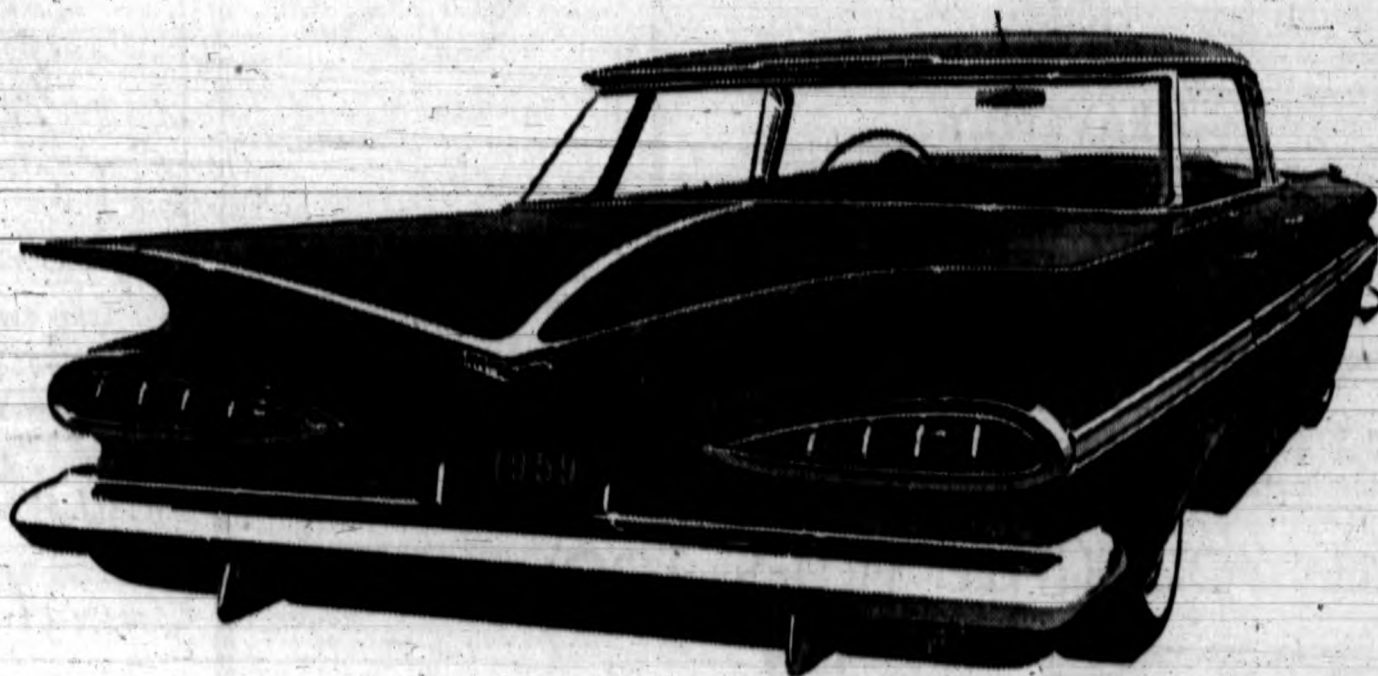

The dragster is powered by a 1957 Chrysler Imperial with a stock bore and stroke, GMC-471 supercharger, fuel injection, and an Iskendarian cam. The car runs in only one gear, high. The boys can develop 600 horse power on auto pump gasoline.

The roadster has proven itself to be a consistent winner. The Scoville boys hold an unofficial world's record of 148.85 m.p.h. They turned in 156.85 at the San Fernando strip shortly after their Oklahoma venture.

Racing fans on almost every strip in the country have had a chance to see the Scoville boys in action for they have been racing since 1950. They bought the roadster (more popularly known as 808 A-R Jr.) in 1955. It was then powered by a 305 cubic inch Ford V-8. Traveling speed at that time was 123 m.p.h. with an elapsed time of 10.98.

Local racing fans who want to watch the Scoville boys can see them at the San Luis Obispo drag-strip—out at the county airport.

Now . . . all America sees the one that's truly new!

Like all '59 Chevrolets, the Impala Sport Sedan has Safety Glass all around.

'59 CHEVROLET

It's shaped to the new American taste. It brings you more spaciousness and comfort with a new Body by Fisher. It has a new kind of finish. New bigger brakes. Vast new areas of visibility. New Hi-Thrift 6. It's new right down to the tires!

Chevy's all new for the second straight year! Here with a fresh streamline design that brings entirely new poise and proportion to automobile styling. Inside the new and roomier Body by Fisher you'll find truly tasteful elegance. And you'll have clear seeing from every seat. The new Vista-Panoramic windshield curves over head—windows are bigger, too.

When you take the wheel, you find Chevy's newness goes down deep. A new steering ratio makes handling easier than ever. New suspension engineering gives you a smoother, more stable ride. There's a new Hi-Thrift 6 that goes and goes on a gallon of gas. Vim-packed V8's. New and bigger brakes. Even tougher, safer Tyrex cord tires.

There's still more! A new finish that keeps its shine without waxing or polishing for up to three years. Impressive new Impala models. Wonderful new wagons—including one with a rear-facing rear seat. And, with all that's new, you'll find those fine Chevrolet virtues of economy and practicality. Stop in now and see the '59 Chevrolet.

ALL NEW ALL OVER AGAIN!

see your local authorized Chevrolet dealer for quick appraisal—early delivery!

THEN . . . This is Cal Poly's crash drill team of the 1920's. The shirts and bloomers were the high fashion of the college set back then. These young women are part of Cal Poly's first crop of coeds before 1929, when Cal Poly became the traditional all-male college.

NOW . . . This is the high fashion of the women's physical education classes of the 1950's—1958 to be exact. These young women are part of Cal Poly's second crop of coeds, Cal Poly, which had been a traditionally all-male campus since 1929, again admitted coeds in the fall of 1958. Cal Poly no longer has a crash girls' drill team, but today's coeds are just as sports minded for the Women's Athletic association was organized here in 1956.

Building Program Does Present Some Parking Problems

By Basil Hubiak

Fall quarter students at Cal Poly have some new problems in parking created by the very building crews who have been contracted to add to the present housing and parking facilities.

One problem was brought on by the gaping trenches through Santa Lucia street, which became a foolproof deterrent of cars, pedestrians and humans in general. These trenches are the groundwork for the new, two-story Agricultural classrooms building; they also cut parking lot "O" in half, leaving the other half to wander in and out of staff zones getting tickets.

The expansion which Cal Poly's

8,000 acre campus is experiencing began some time in June, 1958. Before the summer ended, Silver City, the trailer home of married students, was wiped out and Motley street, the only other exit from Cal Poly, was destroyed.

Married students' housing suffered because the state legislature could not provide all the educational facilities needed throughout the entire state. Single students are given preference on the grounds of economic feasibility of providing lodging.

According to Dr. Clyde Fisher, building program coordinator at Cal Poly, all expansion is geared

to enrollment projections five years in advance. Thus, plans for construction in 1968 must be geared to enrollment figures of 1968, which are compiled in the state department of finance by a demographer.

Present buildings under construction, gym, health center, Agricultural classrooms, and residence halls, will provide facilities to add an additional 800 men and 400 women to the student enrollment.

NAA's On-Campus Interviews

INTERVIEW DATE NOV. 8

The NAA Industrial family has a career for you: Atomics International Division puts the atom to work for power and research in America and abroad.

Autonetics Division makes automatic control systems for manned aircraft and missiles. Pioneered in space navigation... built inertial guidance system for USS Nautilus and Skate.

Columbus Division designed and is building the Navy's most advanced carrier-borne weapon system, the A8J Vigilante, and the most versatile jet trainer, the T-2J.

Los Angeles Division is the home of next-generation manned weapon systems—the B-70 and F-106—and America's first manned space ship, the X-15.

Missile Division is at work on the GAM-77, jet-powered air-to-surface missile for the Air Force's B-58.

Rocketyne Division builds liquid-propellant engines for Atlas, Thor, Jupiter, Redstone missiles, and for the Jupiter "C" that puts the Army's Explorer satellites into orbit.
