## SAC Sets Grid, Poly Royal Prices

Prices for this year's Poly Royal and next year's football games were established at Tuesday night's Student Affairs Council meeting. The student legislative group also approved Jerri Anderson, new Arts and Science Council representative to S.A.C., and Don Beach, Engineering Council representative.

Poly Royal ticket prices were set as follows: \$2 per couple for the Coronation Ball; \$1.75 per couple for the rodeo dance; \$1.75 per plate for the barbecue; 50 cents for children under 12; \$1.40 for student admission; \$1.25 for adult rodeo admission; and 10 cents for carnival tickets.

Football admissions for the 1959 season were set as follows: \$1.75 for general admission; \$1.25 for high school students; 75 cents for children under 12; \$1.40 for season tickets; \$5 for reserved seats for the Santa Barbara and Fresno games; and \$2.50 for reserved seats for all other games.

S.A.C. approved the donation drive committee's recommendation to allow the rodeo club to conduct a donation drive beginning Feb. 26. Awards committee received approval of Mike Mirata as one of its two freshman committee members.

## Outings Committee Plans Second Tour To Hearst Castle

A second tour to Hearst Castle at San Simeon has been scheduled by College Union for Sunday, March 1. Bus transportation will be provided and will leave from in front of Jasper's Dorm at 1 p.m. and return by 6 p.m.

"The demand was so great for our first Hearst Castle tour," announced C.U. outings committee chairman Steve Murdock, "that we decided to schedule another one this quarter." Sign-ups are now being made for the tour in the A.S.B. Office.

The outings committee announced the cost of the tour will be \$8 for A.S.B. card holders and \$2.50 for non-card holders. It covers both admission to the castle grounds and transportation charges to and from San Simeon.

Miss Murdock warned that all students wishing to go on Sunday's tour must sign up by Friday noon. Only 41 seats are available on the bus and they will be filled on a first come first serve basis.

Hearst Castle was deeded to the State of California by the late newspaper publisher William Randolph Hearst. The estate houses fabulous art treasures and relics of the 1930's.

## Group Sees Sellout For Friday Concert

Tickets for the Gateway Singers should be purchased immediately by anyone planning to attend, warned the College Union assemblies committee. The Gateway Singers will perform at 8:15 p.m. Friday evening, at the San Luis Obispo high school auditorium and a sellout is anticipated.

Paul Sullivan, assemblies committee chairman, announced that ticket sales are moving rapidly. Besides being on sale at the A.S.B. office on campus, tickets may also be obtained in downtown San Luis Obispo at Brown's Music Store and the Melody Shoppe.

Prices for the concert, which Sullivan stresses are quite low when compared with such a program at most colleges, are set at \$1 for A.S.B. card holders and \$1.50 for non-card holders.

The Gateway Singers are a well known group of folk singers who have made a name for themselves singing for several years at the "Hungry I," a San Francisco concert club and theatre-restaurant. They have produced several Decca long-playing record albums.

Vol. XX No. 23

EL MUSTANG

Tuesday February 24, 1959

## Applications Open For Dorm Managers

Could you qualify as a dorm manager? Don Morris, Residence Supervisor, announced that applications for the position of dorm managers may be obtained in the offices of the Dean of Students, Counseling Center, or Housing Office and must be returned by Saturday, March 7. Morris says candidates for the position must have the following qualifications: (1) academically must rank in the upper half of the student body, (2) must have sufficient time available to do the job, (3) should have been a dorm resident, or have had equivalent experience, and (4) must be an upper classman or have had two years of college.

It is also pointed out that the dorm managers earn their complete room and board—some earn room only.

"Those who are interested in the positions should make applications as early as possible. The position of dorm manager is an important one, one which will develop leadership qualities," Morris said.

## Musicians Compete For Positions for March Music Tour

In preparation for their music tour, beginning March 18, to the bay area, the 25-valued men's Glee Club will compete Feb. 28 for participant status, since only 42 may go, announced Director Harold F. Davidson. Those selected will be notified March 1.

Members of the Collegians, Majors and Minors, the Quartet and Glee Club officers will comprise the group. Officers are Bruce Cowie, president, Perrie, Bill Brooks, vice-president, San Diego, and manager George Regor of Encinitas.

Soloists will include Jerry Hurley, San Luis Obispo; Frank Bullock, Turlock; Fred Fry, Chowchilla; Bill Jones, San Francisco; and Edley Watson, Jamaica, British West Indies. Accompanists are Bill Brooks, Basil Huhak, Asusa, and Bob Yount of Portola.

Musical repertoire will vary from Glee Club religious songs to jump tunes by the Collegians. They will be repeated for the student body and townspeople at Home Concert, April 9 and 10 with the addition of the women's glee club.

## Visiting Vocalists . . .

## Poly Observes Engineering Week with Busy Calendar

### Agenda Includes Banquet, Speakers

With a "Mrs. Engineering Week" to reign during the celebration, students of the Engineering Division for the second straight year are observing National Engineers Week Feb. 22-28. Highlight of the week will be an assembly to which the student body and public are invited Thursday evening. Lt.

Colonel Harold C. White, Director of Engineering at Vandenberg Air Force Base, Colonel White will be present for security purposes and to aid Lt. Col. MacGhee during the general question and answer period following the latter's talk.

Colonel White who was commissioned almost 17 years ago has in recent years had direct responsibility for the construction of the Distant Early Warning (DEW) line in Canada, the air control and warning system in the United States, the World-Wide GLOBE communications, and the Texas Towers, on the eastern seaboard.

The career of Lt. Col. MacGhee, principal Engineering Week speaker, is an example of the great shortage of engineers in the United States and of the way in which flying officials of the U.S. Air Force are being required to learn and master the engineering problems connected with the missile program. Colonel MacGhee's formal military training was as a pilot. Commissioned in 1942 with the Army Air Corps, he has had operation experience with planes from the B-17 through the B-50. While assigned to Okinawa in 1950, he was in the first B-50 to be shot down by a MIG. He re-

(Continued on page 4)

## Students Get Younger As Tots Enroll in Spring Lab

Eighteen pre-school children will have the opportunity to be enrolled in the Child Care Laboratory to be operated for 10 weeks during the spring quarter by the Home Economics Department here. To be maintained in connection with the course entitled "The Child and the Family," the laboratory will enable home economics students to observe and to participate in guiding the activities of pre-school children.

The Home Economics Department is again asking the cooperation of parents in the community, of the faculty and of college

students in enrolling children in the laboratory. Nine girls and nine boys will be enrolled, six from townspeople's families, six from faculty families and six from student families.

The laboratory will run from March 30 through June 8. Hours will be from 9 a.m. to noon, Monday through Friday. Requests for admission of a child must be received in writing before March 6, addressed to Miss Marjory Elliott, Head, Home Economics Department, Cal Poly. They should include the birth date and sex of the child, and the telephone number and address of the parents so interview appointments can be made.

Only toilet-trained children between the ages of 3½ and 4½ years on March 23, 1959 will be accepted. Other eligibility standards and regulations follow:

The child should be ready for the type of group experience the laboratory will offer in that it can be separated from its parents and is able to benefit from the program physically, emotionally, socially, intellectually, and aesthetically.

Children who are physically handicapped or emotionally disturbed shall not be accepted unless (1) it is determined that there will be no adverse effect upon the other children, and (2) the laboratory is able to meet the special individual needs of the child.

Parents must provide supervised transportation to and from the child care laboratory and the regulation pre-medical examination and medical record from their family physician.

Regular attendance must be

(Continued on page 4)

## Farm Group Hosts Island Visitors

Tomorrow the Young Farmer chapter will host four Hawaiian Young Farmers. They are here to exchange ideas and build better relations between California and Hawaiian Young Farmers.

Takashi Nonaka is the Star Young Farmer "Agricultural Employee." Working for a sugar company, he has advanced through the ranks to laboratory supervisor. As a hobby Nonaka grows orchids.

Star "Independent Farmer" Koichi Kaneshiro farms 18 acres growing such specialized crops as papaya, bananas, truck crops and flowers.

A dealer in farm supplies, David Yogi is the president of the Hawaii Young Farmers.

Group advisor Masato Sugihara is vocational agriculture instructor at Farrington High School, Honolulu.

The group will attend a luncheon, tour the campus, and attend the regular meeting of the Cal Poly chapter of Young Farmers.

## VA Lists Benefits On Tax Status

Although payments for Veterans Administration benefits are tax-free and need not be reported on 1958 Federal income tax returns, interest earned on deposit with VA is not a "benefit" and is taxable.

Howard E. Barlow, Officer-in-Charge of the local Veterans Administration Office, 864 Santa Rosa Street, San Luis Obispo, said today the ruling on dividend interest was made in 1957 by the Internal Revenue Service.

Still tax-free are the proceeds of a GI life insurance policy, including the dividends themselves, he said.

Barlow added that other VA benefits which need not be reported on Federal income tax returns include:

Education and training allowances for veterans of the Korean conflict period who are in school or training establishments under the Korea GI Bill.

Subsistence allowances paid to World War II veterans training under the original World War I GI Bill.

Subsistence payments made to disabled World War II and Korean Conflict veterans training under Public Laws 16 and 204, the Vocational Rehabilitation Act.

Subsistence payments made to war orphans training under Public Law 64.

Disability compensation and pension payments received by veterans for service-connected and nonservice-connected disabilities.

Grants to seriously disabled veterans for homes designed for "wheelchair living."

Grants for motor vehicles to veterans who lost their sight or lost the use of their limbs.

World War I emergency officers' retirement pay.

VA death benefits to families of deceased veterans also are exempt from taxation. They include death compensation and pension, indemnity and all GI insurance payments.

## Three Dairy Students Share Drumm Trophy

Howard Eastham, Charles Taylor, and Joe Montes received the G.M. Drumm trophy presented at the recent Los Lecheros Dairy club banquet here.

The Golden State Company presented Tom Nunes with the Golden State award for outstanding dairy cattle judge of the year at Cal Poly.

Three dairy judging teams also received awards at the cattle banquet. The teams were Grand National dairy cattle judging team, western regional products judging team, and National products judging team.

# Greatest Team In The History Of Poly Says Coach; Records Fall

## Grapplers Wrestle Bruins Today; Split Indian, SJS Meets

Making their last home appearance, Mustang matmen are scheduled to meet UCLA in Crandall gym tonight at 8 p.m. The Bruins will be lead by heavyweight Alex Flex and 180-pounder John Heag. Cal Poly's win streak was finally snapped last week when the San Jose State Spartans topped the local crew 18-12. The Mustangs had wrestled 24 dual meets before being subdued.

After Captain Harold Simonek decided the 128-pounder and Tom Darnell drew in the 130-pound class. Tom Hall pinned the 187-pound Spartan to give Poly a 10-2 lead.

Dan Hopping did a terrific come from behind job of tying San Jose's Leroy Stewart, but lost 11-10 when the riding time was tallied. Bob Machado, 187-pounder, lost another close one, 2-1.

San Jose clinched their win by pinning 167-pound G. W. Wingo and 177-pounder Darwin McGill.

Poly's last score came when heavyweight Pat Lovell decided San Jose's PCI runner-up, Nick Sanger.

The Mustangs returned to the win column the next day by dropping the California Golden Bears 22-18. Five of the eight bouts were won by pins.

Hall turned in his usual bone-crushing performance and claimed the fastest pin of the day. Other Poly men who pinned their opponents were Darnell, Hopping, and Machado.

The Cal victories came from decisions over Simonek and Howie Bryant and a fall over Wingo.

McGill filled in at heavyweight for injured Lovell and earned a 2-2 draw and two points for the Mustangs.

## Rained Out

Mustang weather handed Mustang diamondmen another setback when the Alumni game was rained out last Saturday. Coach Bill Hicks hopes to reschedule the game but was more concerned about missing the practice.

If the Poly field is dry today the horse riders will meet Hancock College at 8 p.m. in a practice game. Hicks plans to use Al Warrick, Bill Collins, and John Rogers on the mound.

## JV Boxers Stopped By Fresno State

Meeting an enthusiastic newcomer to the boxing ring, Poly's JVs took it on the chin for a 5 1/2-1 1/4 loss at the hands of Fresno State College last Friday night.

Although the Colts could only score from Brad Wheeler's win and Bill Jones' draw, Coach Tom Lee says the bouts were close and he was pleased with their showing. The two clubs will have a return bout this Saturday in Crandall gym.

## Poly Slams Chico For First Victory

Coach Tom Lee's mitmen left little doubt in the minds of a packed audience that they had finally come to age by posting a decisive 6-2 victory over the Chico State Wildcats last Saturday night in Crandall gym.

After each school forfeited a weight, 189 pounder Fearless Freddie Martin got the team off to a flying start with a first round TKO. Don Tessier closed the night's card in a similar first round manner by knocking out the Red and White heavyweight.

Filling in the 166 pound class, Walt Hailley decided Chico's Marv Watley who placed second in last year's NCAA tourney. Ray Porras, 178-pounder, added another victory and demonstrated some fancy 'in boxing' while doing it.

A top performance was given by Sheldon Green, when he met the hard charging 147-pounder toe to toe and garnered another point for the Green and Gold. Green has shown great improvement with each outing according to Lee.

Sam Marques also turned in a good showing, but lost to Wildcat Dave Borjon in the 185 pound class. Other bouts of the evening were exhibitions by Tom Sherman, Howard Mason and Jerrold Gebbie.

The Poly sluggers have almost two weeks for polish and conditioning before meeting the College of Idaho in Crandall gym.

## Westmont Tonight

## Cagers Thump Gauchos, 75-59

After chalking up two more wins last weekend, Mustang cagers return to Santa Barbara tonight to take on the Westmont Warriors. Poly holds an earlier 74-68 victory over the Warriors.

Although the Green and Gold hoopsters have shown great improvement in bonating their season win-loss record to 15-7, they may find things rough in the Blue Union city. Westmont almost dropped the Mustangs in their first meeting and trailed by only two points with less than a minute left in the game. Since then they have added two players, one 6'7" and the other 6'5", to their roster.

Last week Poly showed plenty of power by rolling over San Francisco State 78-65 and the Santa Barbara Gauchos 75-59.

In Friday night's game forward Joe Ryeraw sparked the Mustangs with nine points in the first 10 minutes of play to give them a 27-12 point lead.

Five minutes later Poly increased the bulge to 37-18 and Coach Ed Jorgensen sent in the reserves. At the intermission the Mustangs had added only one point while the Gators made eight to make a 38-26 halftime score.

With the starting five taking over again in the second half, Poly lead by from 14-24 points until six and a half minutes of play remained in the game. From there they coasted on to win by seven points.

Saturday's game got off to a similar start with guard Jim Clark doing the sparking. At the end of the first five minutes the Mustangs lead by a ten point margin and a score of 29-22 at the half.

With a 20 point lead in the second half, everyone again got into the act, but this time the reserves held and Poly won by 16 points.

1009 Higuera St. LI 3-4543

Opening the 1959 season in a big way, Poly swimmers set six school records, five pool records, and three freshman records, while posting a 54-32 victory over the powerful Fullerton junior college last Thursday night. It was the first Mustang win over Fullerton in 12 years.

Coach Dick Anderson, who has nothing but praise for the mermen, says this year's team is the best in Cal Poly's history. "Not only did the winners set new records," he explains, "but they were followed closely by second or third place Poly swimmers."

An example is freshman Jack Adams who finished right behind Gene Lens in the 220 and 440 yard freestyle with times that would have qualified him for last year's NCAA meet.

Frank Brooks, another freshman, also would have qualified for the national meet with his 2:14.8 time in the 220 yard butterfly, new freshman, school, and pool records.

Lens, Poly's NCAA aspirant, swam three times, the 220 yard freestyle, 440 yard freestyle, and 400 yard relay, and each time a new school and pool record was written. Of course, Bob Wright, Jack Adams, and Jim Olson aided greatly in the latter event.

Larry Cole, Brooks, John Phil-

lips, and Wright established new school and pool records in the 400 meter medley relay with a time of 4:15.0. Poly divers, Leigh Allen and Norm Boudreau, placed first and second respectively to monopolize their event.

Tonight the frosh meet Santa Maria high school in Poly's pool at 8 p.m.

## CLUB NEWS

### Soil Conservation . . .

Mr. Richard Irwin, of Stauffer Chemical Co., will be guest speaker at a meeting of the Soil Conservation Society.

The meeting will be held Thurs., Feb. 26, in Bc-A-12 at 7:30 p.m.

### Electronic Wives . . .

"Mardi Gras" is the theme for the Electronic Engineering Wives Club dance scheduled for Fri., Feb. 27. The dance will be held at the Grange Hall, 2880 Broad St., from 9 p.m. to 1 a.m.

Several costume prizes will be given and music supplied by a Cal Poly group.

The dance is open to all students and tickets may be obtained from E. L. wives or at the door.

### Blue Key . . .

Blue Key, National Honor Fraternity, will initiate new members Wed., Feb. 25 in lib. 118A at 8 p.m.

Those being initiated are: Fred Angell, James E. Curtis, John L. Jennings, Robert E. McCorkle, Hubert A. Mehling, Stewart Munroe, Emory J. Saiter, Michael A. Thelacker, Robert D. Warden, and David Kempf.

Dr. Jack Albright, charter member of Blue Key, will be the guest speaker, and a reception will follow the initiation.

President Mike Kohl will preside over the initiation and advisors of the fraternity, Dean Everett Chandler and Don Nelson, will be present.

Blue Key honors students for outstanding service to the school.

### Ski Club . . .

The Ski Club will meet Feb. 25 in lib. 114 at 7:30 p.m.

Movies will be shown and plans for the Camber Ski Club joint meet will be discussed.

### Christian Fellowship . . .

A regular meeting of the Cal Poly Christian Fellowship will be held Feb. 27.

Speaker for the evening will be Dick Ekins, missionary to the Philippine Islands.

### I. E. Wives . . .

There will be a meeting of Industrial Engineering Wives Club, Wed., Feb. 25, at 8 p.m., in lib. 118C.

This will be the first meeting conducted by the new slate of officers, with Mrs. Charles Pollard presiding.

### Poly Wives . . .

"South Seas" will be the theme of the dinner dance sponsored by the Cal Poly Wives March 7.

The event will begin at 6:30 p.m. For tickets call LI 3-2075.

## OUT OF THE DIN

### Parking Problem . . .

To The Editor:

Today, like every other day I went home for lunch and a small assist, and it turned out to be a good thing that I had plenty to eat and a good rest! Then I came back to campus for my afternoon classes.

I drove past the cars along California Blvd., no parking here, half of the street is torn up! Then past Deuel, Heron, Jespersen and Chase, no luck here.

Next it was parking lot B, usually there is at least one or two spaces there, even if occasionally they are illegal, but alas, no luck. From there I went to Parking lot O, which is across from the M.E. lab. Just as I was about to give up and head for the parking area surrounding the Science Building I spied one tiny and very empty space.

My story does not end here, for it seems that certain people claim there is no parking problem, the faculty apparently have no parking difficulties near classroom areas. All I had to do was walk to class in the Administration Building from parking lot O. Out of curiosity I paced off the distance.

Assuming that the average length of a step is two and one half feet long, here are the following calculations that I have made: 710 paces, which makes 81,800 inches, or 1777 feet, or 591 and two thirds yards, which is close to one half mile, just to park on campus!

Sure there's no parking problem—just a walking problem.

I.M. Pooped

### Our Slip Is Showing . . .

To the Editor:

I wish to point out that a word was omitted from my recent letter which very much distorts its meaning. I used the phrase, "is quite beside the point." El Mustang omitted the word, "beside," making the phrase read, "is quite the point." The meaning is nearly opposite.

Sincerely,  
Bill Alexander,  
Instructor

Editor's Note: We goofed! Not only yours, but also the one titled "Photo Thieves." Seems strange that the most crucial words in each of the two letters were left out, but we should've stood in bed. Left out of the thieving letter was the word cannot. It should have been in the first sentence and should have read: "It is certainly a shame that a school of mature individual like those at Cal Poly cannot hold the second most important election of the year without juvenile antics . . ."

A large number of the instructors wives are copying Mamie's hair-do. But a larger number of the instructors are copying Ike's.

### Well? . . .

To the Editor:

As a student in your Political Science class, Mr. Alexander, I shall be glad to discuss my views and opinions on treason and revolutions with you in your office at your convenience.

Further use of this column to air our petty bickering is unwarranted and beneath the dignity and self-respect of this student and I should hope that of his instructor. In other words, I don't know either.

Frank Jacinto  
Student

### We Goofed . . .

To the Editor,

I enjoyed your article concerning Frank Romero, a Physical Education major graduate, who as you stated is doing an excellent job in the Lompoc Public Schools. I would like to call your attention to one error in the article in that Frank was a "sinker" and not a "stinker" as it appeared in the Friday edition of the paper.

Respectfully,  
Robert A. Mott

### UCLA Physical Education Head Plans Talk Here

Dr. Laurence E. Morehouse of the UCLA Physical Education Department will be on-campus Thursday, Feb. 26, speaking during college hour at a program open to the entire student body. He will also meet with P. E. majors between 12 and 1 p.m.

Dr. Morehouse is experienced in many fields of Physical Education, including physiology of exercise, aviation medicine, kinesiology, and fatigue. His biography has appeared in "American Men of Science" and his accomplishments are numerous. Among them are his positions as head of the P. E. department at the University of Wichita, 1941-42; the Research department of Office Naval Research, 1947-49; and author of "Scientific Basis of Athletic Training" and "Physiology of Exercise."

### Young Farmer Chapter Wins State Membership Award

At the State Young Farmer convention held in Long Beach Feb. 13 and 14, the Cal Poly chapter received the state award for the greatest increase in membership over the year. Cal Poly chapter increased its membership 800% from 11 members to 64 during the past year.

## Publications Board Opens Applications

Applications are open for editor of El Mustang for spring quarter, announced Harold Young, chairman of the Board of Publications. No other BOP selected positions will be vacated.

The top editorial position is open to any Cal Poly student regardless of major. However, Young points out that it will be beneficial to both the paper and the student applicant to have a journalistic background.

The editor is responsible for naming his immediate editorial assistants—associate, sports and feature editors. Reporters and ad salesmen join the staff by signing-up for journalism practice courses for one or two units.

Application blanks may be obtained from Harold Young in the journalism office, Adm. 21, and must be returned to him before

March 12. Applicants are interviewed by the Board of Publications which recommends its choice to Student Affairs Council for final approval.

## Range Bulls Aiming For Record Weight

Range bulls entered in the 1959 feeding trials at Cal Poly are younger and have a higher average daily gain from birth at the start of the trials than did animals entered the last two years.

These conclusions were drawn by Lyman L. Bennion, head of the charts of this year's entries.

One of the purposes of the range bull feeding trials is to test all animals under the same feeding conditions and thus determine which animals are superior.

Nine ranches have consigned bulls to the sale following the trials, and they have been keeping records on the weight, grade and average daily gain up to weaning time. Bennion believes that they are using these records to select better individual animals to enter in the trials.

Bennion feels that evidence has been shown by the results of the trials, that they are developing the type of bull desired by commercial cattlemen.

The 1959 trials will end about October 15th, with October 19th set as tentative date for this year's sale.

The method employed by the graders for the trials is used at the annual Red Bluff sale and at most California sales.

## Prep Chem Exam . . .

Students intending to enroll in degree chemistry for summer or fall quarters must have completed preparatory chemistry (chem 4) or have passed the placement examination in chemistry. The placement test may be taken at the testing center. Chem 4 will be offered in the spring quarter.

## Girls! Here's Your Chance To Reign Over Playboy Dance

Girls! Now is your chance to reign over a dance. At the Playboy dance, sponsored by the sophomore class, a girl will be chosen to receive the title of "Playmate". All girls attending the dance will be eligible.

The dance will be Feb. 28, 9 to 12, in the Veterans Memorial Building.

Souvenirs and bids will be given at the dance and there will also be a floor show.

Dress for the dance is semi-formal, and the Collegians will play.

It's easy to tell your friends from your enemies on this campus—friends are the ones who stab you in the front.

—WBO Evergreen

## Tote Enroll . . .

(continued from page 1)

assured except in cases of illness.

Parents must supply certain extra clothing such as extra underwear, man's old shirt (sleeves cut off) to be kept at school, and rubbers or galoshes for playing when grass is wet.

Only one child from a family will be accepted.

One parent or both must bring the child to the Home Economics Department for an interview and be willing to give pertinent information concerning the child. If at any time it seems necessary, parents should be willing to come to the college for conferences. Parents also should be willing for at least two members of the college class to visit them in their homes from one to three times.

The college will reserve the right to drop any child at any time for reasons of extended illness or absence, or continued interference in the conduct of the class.

## Engineering . . .

(continued from page 1)

received the legion of merit award for his activities during his three years as a POW in North Korea.

Colonel MacGhee's later assignments have included four years with the USAF real estate division which keeps an eye on some twenty million acres of land under Air Force jurisdiction. His activities resulted in reduction of these land holdings by more than six million acres, an achievement which brought him a congressional commendation. In connection with this assignment, he was instrumental in the transfer to the Air Force of the lands at Camp Cooke which now comprise Vandenberg Air Force Base.

Student chairman for Engineering Week is David C. Simpson, Arcadia; other committee chairman are James J. Collins, Benicia, dinner; David L. Bartlett, Arcadia, displays; and Jack R. Pierce, Compton, publicity.

## Student Teachers Get Spring Assignments

Student teaching assignments in the Elementary Education department change in mid-term, it was announced by I. A. Williams, coordinator for the departmental activity.

*The team that put the voice in Vanguard needs good technical and management talent*

The data transmitters in the Vanguard satellite were made possible by two items invented and developed in the Bell System: the translator and the Bell Solar Battery.

Come in and find out how far you can go with the **BELL SYSTEM**

**MARCH 3**

### ENGINEERS • PHYSICAL SCIENTISTS

From atomic research to engineering cost accounting, there's a world of opportunity in the field you're most interested in. If you prefer, you can choose to enter a management program, or you can develop and use your technical abilities to the fullest.

Technical and non-technical graduates for engineering and administrative positions on the Pacific Coast.

### BUSINESS MAJORS • LIBERAL ARTS

There's no "getting lost in a big company" if you enter our Management Development Program. It offers training you can't get anywhere else, and a chance to get into management in a surprisingly short time. We're growing fast, and we need executive talent that always comes from "within".

Technical and non-technical graduates for engineering and administrative positions throughout the United States.
