## FINAL EXAMINATION TIME TABLE

March 12 through 17

Find your class time in the body of the table. At the top of the column is the day of the final examination; to the left is the time of the examination. For a three-hour course such as a class at 9:00 Monday, Wednesday and Friday the time of the final is indicated as Friday, March 13, 7:30, 9:30, 11:30. Only the first two of these hours are used. For a class meeting at 9:30 Tuesday and Thursday or 9:00 Tuesday and Thursday the examination period provided is Friday, March 13, at 10:30 and 11:30. In lab classes, the final is given during the last lab period.

DAY OF FINAL	Thursday March 12	Friday March 13	Saturday March 14	Monday March 16	Tuesday March 17
Time of day					
7:30	1 M	1 M	1 M	1 M	1 M
8:30	1 W	1 W	1 W	1 W	1 W
9:30	1 F	1 F	1 F	1 F	1 F
10:30	1 T	1 T	1 T	1 T	1 T
11:30	1 Th	1 Th	1 Th	1 Th	1 Th
1:00	1 M	1 M	1 M	1 M	1 M
2:00	1 W	1 W	1 W	1 W	1 W
3:00	1 F	1 F	1 F	1 F	1 F
4:00	1 T	1 T	1 T	1 T	1 T
5:00	1 Th	1 Th	1 Th	1 Th	1 Th

The following items should be considered when determining your examination hours.

1. One hour lectures are limited to one hour final examination.
2. Evening classes as well as all Welding and Machine Shop will hold their finals the last class or laboratory meeting.
3. Combination lecture-laboratory courses will use their first meeting hour to determine the day on which the examination will be held.
4. In lab classes the final is given during the last lab period.

## Gateway Singers Encore Tonight at High School

A concert ranging from Israeli and Mexican dance songs to African rounds in which the audience participates, will be presented by the Gateway Singers tonight at 8:15 in the San Luis Obispo high school auditorium. The program is being sponsored by the College Union assemblies committee. Paul Sullivan, assemblies committee chairman, announced that some tickets are still available and any left by the end of the school day will be sold at the door on a first come, first serve basis. However, Sullivan warned that no guarantee could be made as to the availability of tickets later today.

Prices for the concert have been set at \$1 for A.S.B. card holders and \$1.50 for non-card holders. Tickets may be obtained from the A.S.B. office on campus and the Melody Shoppe and Brown's Music Store off campus.

The Gateway Singers are a San Francisco group which has become well known through performances at the "Hungry I," a Bay Area concert club and theatre-restaurant, and several Decca long playing record albums.

The blend the Gateway Singers display is not solely a vocal one. They are four completely different individuals, with widely varying backgrounds, each being an accomplished soloist.

Mrs. Emerlee Thomas, the group's contralto, was born in Oakland, California and worked with the Hermann Research Institute at the University of California at Berkeley before joining the group. She has sung German lieder folk

song, in concert and is the mother of two children.

Bernie Sheldon, one of the group's two guitarists, is a native of Brooklyn where he attended Brooklyn College. The father of two girls, he was a professional folk singer for 15 years having sung and taught in both New York and Los Angeles.

Jerry Walter, the group's five-string banjo player, was born in Chicago, where he attended the Goodman Theatre of the Art Institute of Chicago, Northwestern University, and the American Conservatory of Music. In San Francisco he also attended the Conservatory.

Walter has been in show business since the age of nine working as a radio and television actor, announcer, and singer. He has been a teacher, railroad worker, truck driver, and salesman, and has also found time to raise three children.

Travis Edmonson, the group's younger guitarist, was born in Long Beach, California, and raised in Nogales, Arizona. Educated at Tucson at the University of Arizona, he has been an anthropologist, professional singer, jazz guitarist, aircraft worker, truck driver, commercial display man, and song writer—and father of four.

## Boothe Urges Students To Sign-up for Spanish

Dr. Robert Boothe, English instructor, urges students to sign up for a Spanish course which will be offered again during the Spring quarter.

In its first year here, Spanish is designed to be a full year course. Spring quarter will be the third phase and Boothe asks that only students who have some experience in speaking Spanish enroll.

He pointed out that this should be of great help to Animal Husbandry and Education majors and hopes to expand the course into two sections next year.

Anyone wishing to talk to Dr. Boothe about the course may contact him in CR 16.

## Danes Show Mat Skill Next Week

The ultimate in precision and grace will be offered students Monday night when a Danish Gymnastics team performs in Crandall Gym at 8 p.m.

The team, now touring the United States and Canada, includes 25 Danes in their late teens and early twenties. The two and one half hour show is a production of Danish gymnastics and folk dances, all in native costumes.

The young people are products of Folk high schools and gymnastic organizations all over Denmark. Object of the team, under direct sponsorship of Paul Clausen, is to present the Danish physical education system to the people of North America.

A 75 cent admission will be charged A.S.B. card holders and \$1.50 general admission. Tickets can be purchased from the Physical Education staff or any P.E. major.

## Meet With Advisor

Registrar Thomas Lambro reminds students of advisory meetings scheduled for 11 a.m., College Hour, March 5. At that time students will pick up registration books and prepare a spring quarter schedule.

Lambro emphasized that this meeting is an administrative appointment and failure to be present will cost a student \$2 to get a registration book after that.

Advisory locations will be circulated through the post office.

## Hearst Castle Tour Sign-ups Must Be Completed Today

Sign-ups for the College Union tour to Hearst Castle may still be made by noon today in the A.S.B. office, announced Staffi Murdock, C.U. outings committee chairman. The tour will be made Sunday, beginning at 1 p.m. and ending at 6 p.m.

Cost of the tour has been set at \$5 for A.S.B. card holders and \$6.50 for non-card holders. Transportation will be provided and will leave from in front of Jespersen Dorm at 1 p.m.

The tour Sunday is the second this quarter. The demand was so great for the first tour held last month that another one was scheduled for Sunday.

Hearst Castle was deeded to the state by the late newspaper publisher William Randolph Hearst after his death in 1931. Last summer the castle and grounds at San Simeon were first opened to the public and immediately became a major tourist attraction.

## Governor Edmund Brown To Visit Here Monday

Col Poly's ROTC drill team and color guard will participate in the Whale Rock ground breaking ceremony to be held at the dam site at Cayucos Monday, at which time Governor Edmund G. "Pat" Brown will break the first sod on the \$7 million project. Although some minor work has been done, major construction will not start until Governor Brown's visit.

Following the Whale Rock ceremonies, Governor Brown will visit the California Men's Colony and then will come here for a "Guard of Honor", put on by the Military Science and Tactics Department. The drill team, drum and bugle corps and color guard will participate in the event shortly after noon in front of Dexter Memorial Library.

Cadet Lt. Col. Sam Cole will

## Engineers Pay Tribute To 'Father', C. E. Knott

Cal Poly engineering students paid tribute to the "father of engineering", C. E. Knott, here last night at the "Engineering Week" banquet. Roland McGee, Engineering Council Chairman, awarded the plaque to Knott for his long, unselfish and tireless efforts in building the engineering program here.

## Summer Job Spots Offered In Europe

American Student Information Service, located in Germany, still has many summer jobs in Europe to offer American college and university students. Most of the jobs are in new German industry.

Examples of employment opportunities for American students are farm work, construction work, and apprentice technical positions in the chemical, civil, and mechanical engineering fields.

There are also summer jobs available in England, France, Switzerland, Scandinavia and the Benelux countries. The agent also has some child-care jobs open for girls in France and Germany.

A.S.I.S., a non-profit organization, will help students arrange the travel accommodations to and from Europe, and an agency spokesman was recently quoted as saying "I'm sure we will have more jobs this summer than American students to fill them". Interested students should write to "American Student Information Service, Josef Ludwig Str. 4-a, Limburg-on-the-Lahn, Germany" for details.

The deadline for receiving applications is May 1, 1959.

## Pawn Pushers Set Intercollegiate Tourney in March

A state-wide Chess Tournament is scheduled here Mar. 27, 28, & 29, under the sponsorship of the United States Chess Federation.

"Anyone with three dollars and a genuine interest in the game is invited to participate," says Art Stobbe, co-advisor with Robert Andreini to the Poly Chess Club.

Students interested in taking part in the event are asked to contact student organizer, Don Lima, Junior English major, Box 25 in the A.S.B. office by March 15.

Prizes will be given for the best played game, the game played most brilliantly, with the usual first, second, and third awards.

"We hope," Stobbe continues, "that the success of this tournament will enable us to have more of them here in the future."

The inscription on the plaque read, "C.E. Knott, Father of Engineering, California State Polytechnic College, San Luis Obispo. From the engineering students in sincere appreciation for your work and beliefs in the development of the present engineering program at Cal Poly, February 26, 1959".

In McGee's remarks before the presentation he said, "He (Knott) is one of those amazing individuals who has worked literally

C. E. Knott

day and night throughout his lifetime. His path was not easy, particularly during the depression years, for it was then that he personally canvassed the state of California literally ringing doorbells to seek jobs for his Cal Poly students. The amazing thing is that he is still as tireless and imaginative as he was 88 years ago when he first became a part of Cal Poly."

Born on October 16, 1891 in Pomona, he attended Pomona public schools and the University of California where he received his master's degree in engineering in 1917.

Work experience began while in elementary school as an apprentice machinist from where he went to a full-time night position as a Pacific Gas and Electric substation operator while he worked his way through U.C. After serving in World War I, he went back to PG & E as an engineer.

The big change came in 1931 when he came to the California State Polytechnic School as head of the Industrial division. Through his efforts in 35 years, Cal Poly has grown from a little-known two-year technical institute to the largest engineering college in California.

After World War II, Knott turned his energies to developing bachelor's degrees in engineering here. It was his vision that created all of the engineering departments, but Architectural Engineering and Electronic Engineering are of particular note. At a time when most colleges were looking backwards to where they had been, Knott was looking ahead to see where Cal Poly was going.

## Post Office Issues Warning on Addresses

A warning went out from the San Luis Obispo post office this week that incorrectly addressed mail for Cal Poly students would be returned to the sender.

The post office listed the following reasons for the warning: San Luis Obispo numbers begin with one and run through 010 while Cal Poly numbers cover the same range.

## Lindbergh Movie Sunday, 6:30 & 9

In order that students may attend both the Gateway Singers concert tonight and this week's college union movie, the movie "Spirit of St. Louis," starring James Stewart, has been moved to Monday evening, according to A.C. Audie.

This technicolor film, telling the story of Lindbergh's flight across the Atlantic Ocean, is two hours and twenty minutes long. Therefore, the first showing will begin at 6:30 p.m. and the second at nine. Next week's movie, "Kismet," will be shown in Cinemascope at the regular Friday night times.

## Hoopsters Finish Fourth Poly Ends Season Against Fresno

Cal Poly's cagers hope to make it eight straight Saturday night when they take on Fresno State at Fresno in the season finale.

Coach Ed Jorgensen's proteges have come along way this season, shaking inexperience and downing their last seven opponents. Tuesday night they dumped Westmont College, 79-50, for the third time this season.

Overcoming a 40-35 Westmont margin at halftime, the locals made 55 per cent of their shots in the last half in their best performance of the year, according to Jorgensen. Guard Jim Clark made 11 of 12 field goals for 22 points and forward Joe Rycraw tallied nine for 12 plus a free throw for 19 points.

Fresno's quintet has been running hot and cold this season. In first place going into last week's games the Bulldogs fell victim two nights in a row, once to Los Angeles and once to San Diego.

The Mustangs' record in CCAA competition stands 4-5 and win or lose it will not affect their standing. Overall the Poly five boasts a 16-8 record.

Guard Vic DiGiovanni still leads local scorers with a 18.4 average, trailed by center Bob Thetford with 9.3, Mal McCormick, 9.0; Jim Clark, 8.5; and Rycraw, 8.3.

Jorgensen said he would start Rycraw and McCormick at forwards, Thetford at center, and DiGiovanni and Clark at guards.

## Team Members And Schedule Announced By Golf Coach

Cutting the squad to eight men in preparation for the opening CCAA conference match with Long Beach State, Coach Charles Hanks announces the team members, as positioned on the ladder, as follows: Dick Callin, Ron Ankrum, John Quinn, Owen Silke, Dan Prochnow, Harold Woodworth, George Montalvo, and John Forster.

Callin and Silke are the only returning lettermen.

The 1959 schedule is:  
March 6 \*Long Beach State Home 1 P.M.  
March 13 Santa Barbara College There 1 P.M.  
March 19 \*San Diego State There 1 P.M.  
March 20 Marine Recruit Depot There 9 A.M.  
March 26-28 Northern Calif. Intercollegiate at Santa Cruz  
April 2 \*Los Angeles State There 1:30 P.M.  
April 3 Long Beach State There 1 P.M.  
April 10 Los Angeles State Santa Maria 1 P.M.  
April 13 \*Fresno State There  
April 24 San Jose-C.O.P. There 1 P.M.  
May 1 \*Santa Barbara College Home 1 P.M.  
May 7-8 CCAA Conference at Long Beach  
\*Conference Match

## Cage Capers

Denied the 1958 basketball championship when they dropped the playoff game, San Diego State's melonmen sit in the driver's seat this trip with just one game—and a home-court advantage—at that—separating them from the CCAA title. They must defeat San Eliot's Diablos tonight to take undisputed possession of the crown.

## Grapplers Travel South; End Season

Back on a two match winning streak, Mustang wrestlers travel to the southland today to meet Long Beach at 2 p.m. And the Los Angeles YMCA tomorrow at 2 p.m. to end the dual season. Thus far their record is five wins, one loss, one tie, and four canceled matches.

Tuesday Harden's crew rolled over UCLA 17-9 in their last home appearance.

After losing the first two matches, UCLA coach Briggs Hunt threatened to take his team home if Harden didn't substitute Weber Lawson for referee Phil Priatelj. At the end of the third match the change was made and Poly still won the next three matches.

Howie Bryant, wrestling in the 120 pound class instead of his regular 135 class, wrestled one of the best matches of his career to earn a decision over John Hoag.

Fans missed the action of team captain Harold Simonek and heavyweight Pat Lovell, and 147 pounder Tom Hall, Simonek and Lovell were out due to injuries while Hall received a last minute forfeit.

Other Poly winners were Don Hagadorn, Dan Hopping, and G.W. Wingo. Cyrus Tahbas, Darwin McGill, and Lynn Dyche were defeated by the Bruin team.

The Poly mentor indicated the same team would make the southern trip with Simonek and Lovell missing the action.

## Frosh Baseballers Win First Outing

Opening their 1959 pre-season play, the Frosh baseball team defeated Santa Maria High School 11-3 at Santa Maria, Monday afternoon.

Coach Jerry Smith used three pitchers in the practice game: Arlieh Townsend, Dick Guerra and Ted Tollner who appeared rather stingy issuing only three runs on three hits to the high schoolers.

Dick Guerra, former San Luis Obispo High School star, and mainstay for the local semi-pro Blues moundstaff, provided the big stickwork, garnering three for three at the plate.

## Mustang Flyers Name Ken Zlab President

Ken Zlab, Electrical Engineering major from Modesto, has been elected president of the Mustang Flying Association.

Other newly elected officers are vice president, David Harrison, Agricultural Engineering, Gilroy; secretary, Mike McRae, Biological Science, San Luis Obispo; treasurer, Paul Glennan, Architectural Engineering, San Luis Obispo; and maintenance, Mark Gaskiewicz, Aeronautical Engineering, Chester.

## Horsehiders Test Bay Area Teams

Journeying northward, Mustang diamondmen left this morning for an afternoon date with the University of San Francisco at 2 p.m. and tomorrow's game with the Stanford Indians.

Pitching for Poly in today's game will be Dave Rogallie and Dan Haak with Mary Almond behind the plate. Tomorrow Jim Newkirk will work the mound and Fred Bubeck doing the catching.

"With the good weather we've had this year, we're about a month ahead of last year's team," says Coach Bill Hicks. The baseball mentor expects a good showing from the mound staff and indicated they would be backed up by an infield "stronger than last year's."

Making the trip are: Carl Underwood, 1st base; Ron Taylor, 2nd base; Dick Shaw, shortstop; Curtis Hill, third base; Bob Williams, left field; Cameron Best, center field; and Willis Hill and Hideki Hamamoto, right field.

Tuesday the horsehiders dumped Hancock college 9-6 in a practice game on the local diamond. Al Warnick, Jim Newkirk, and Jim Rogers handled the pitching while Bob Williams was the big stick by hitting a homer with all aboard.

## Poly Mermen Continue Setting New Records

Swimming coach Dick Anderson, and his Mustang splashers haven't cornered the market on record breaking. Four more Poly records fell Tuesday night when the Frosh out swam Santa Maria high school 49-37 in the home pool.

Frank Brooks established three records in the 100 yard butterfly event. Brooks' 59.9 time bettered the existing Freshman record, and shattered the pool and school record of 1:02.6 set by Mustang varsity swimmer, Dick Loeffler in 1958.

The other new Freshman record came from Jack Adams, swimming the 200 yard freestyle in 2:00.6.

Poly graduate Karl Bell's mermen also entered the record breaking spree with a new high school record of 2:01.2 in the 200 yard medley relay.

Then there's the instructor on campus who says he's the most even tempered guy around—he's always mad.

## Students Warned to Take Pre-Chemistry Tests Now

Students intending to enroll in degree chemistry for summer or fall quarters must have completed preparatory chemistry (chem 4) or have passed the placement examination in chemistry. The placement test may be taken at the testing center. Chem 4 will be offered in the spring quarter.

## Out of the Din

### Melting Pot

To the Editor

As a Cal Poly foreign student, I can not avoid expressing my pleasure about what took place in the Young Farmers' Talent show assembly on Feb. 5.

I believe that one could see more than an excellent talent show that, of course was the excellent and free-prejudice judgement of a great number of Cal Poly students who with their applause and cheers made it possible that a colored student win the first prize and a foreign student the second.

There is no doubt that the performers deserved the prizes that they won. However, this would not have been possible if the magic of education at Cal Poly had produced such a broadminded audience. This incident at Cal Poly and similar ones in other learning institutions of America, not only promotes international friendship and cooperation more than any other element, but reminds us once more of this valuable proven fact that "Evaluation of an individual should be in terms of individual worth, not of racial or national worth."

All Parsa

## Campus Bovines Win National Guernsey Awards

Cal Poly entries have been named reserve champion three-female group in the 1958 Guernsey All-American Board Contest, the National Guernsey Association has announced. In the best get-of-sire division, Cal Poly received honorable mention.

Three winning cows in the group are: Poly Jepson-Sylvania, five year old; Poly Jepson-Ina, five year old, and Poly Jepson-Radiant, four year old.

Animals are entered in the contest in groups of three and are judged on conformation. The reserve champion title places the animals as the second best group in the nation. When the group was shown at the Great Western Livestock Show in June, Ina placed second in the five year old class. She also received recognition for the best udder of the entire show. Radiant placed second in the four year old class.

At the Grand National Livestock Show last fall, Sylvania placed second with a first place for best udder. Radiant took second place for best cow and udder.

## Marines Name Alden Campus Liaison Officer

Lt. Col. John Alden has recently been appointed campus Selection Liaison Officer.

In addition to becoming an official on-campus counselor on Marine Corps matters, Lt. Col. Alden will advise students concerning their military obligation and how it can best be served, and at the same time inform interested men about the Marine Corps.

Lt. Col. Alden may be contacted in Cu. Q, or by calling Lt. 8-7914.

## National Publication Picks Poly Senior

Benadine Boerman, senior Elementary Education major from San Luis Obispo, has been named to the College Board of the next volume of the Going-to-College Handbook, annual publication of the United Presbyterian Church in the United States.

Miss Boerman, Vice-Moderator of Westminster Collegiate Fellowship, will serve as an advisor to the editor in planning and developing the book.

Scheduled for publication in August, the handbook will be used during the remainder of the year by students looking forward to college.

## Riflemen Drop Gaucho Match; Look for More

After dropping a rifle match to University of California at Santa Barbara by 15 points, Sgt. Al Gentry, instructor for the Cal Poly team, is trying to schedule matches with rifle clubs around the San Luis Obispo area.

Members of the Cal Poly team are Gary Taylor, Daniel Suzuki, Richard Harwick, Dennis Monax and Tom Bragg. Also seeing action with the team in past meets have been Bob Evans and Robert Brodie.

## Poly Sends Big Delegation

With 95 students, Cal Poly had the largest delegation at the fifth annual Student Day program sponsored by the Los Angeles Section of the Institute of Radio Engineers recently.

John Aronson, vice chairman of the local student branch of I. R. E. received the "Outstanding Student Award", made annually to the outstanding student member of each student branch of I. R. E. The local branch was commended for its active participation in I. R. E. activities.

### ENGINEERS • PHYSICAL SCIENTISTS

From atomic research to engineering cost accounting, there's a world of opportunity in the field you're most interested in. If you prefer, you can choose to enter a management program, or you can develop and use your technical abilities to the fullest.

Technical and non-technical graduates for engineering and administrative positions on the Pacific Coast.

### BUSINESS MAJORS • LIBERAL ARTS

There's no "getting lost in a big company" if you enter our Management Development Program. It offers training you can't get anywhere else, and a chance to get into management in a surprisingly short time. We're growing fast, and we need executive talent that always comes from "within".

Technical and non-technical graduates for engineering and administrative positions throughout the United States.

Placement Office

## Engineering Grads Return to Speak To AC&R Students

Four Air Conditioning graduates return here tonight to speak at a dinner meeting of the Air Conditioning Engineering club.

The four alumni, John Hall, Erv Solaway, Bill Keichline, and George Clark, members of the Alumni of Cal Poly Air Conditioning are teaming up to give the AC club members an insight on what a graduate should expect and what is expected of him in the field.

Hall will talk on consulting engineering; Solaway will talk on contracting; Bill Keichline on sales and Clark, president of ALPAC, will talk on specialty refrigeration.

## Dates Set on Civil Exams For Student Trainee Program

Application for examination of Student Trainee—range conservationist, soil conservationist, assistant, engineer (civil and agricultural) and geologist—must be on file by March 25, or April 2, if they wish to take the test on April 15.

Application form 5000-AB can be obtained in the Placement Office and must be sent to the Field Board on Civil Service Examiners, U. S. Department of Agriculture, 1515 S. W. Washington Street, Portland 5, Oregon.

## Activities Office Needs Hosts for New Students

Hosts and Hostesses are needed to introduce new students to campus life and to present an informal dance social Friday, March 20, announced Mrs. Kay Williams, activities adviser. Students interested are asked to sign up in Mrs. Williams' office.

Approximately 250 new students are expected to enroll in the Spring quarter, Mrs. Williams said. The activities office is planning a welcome party as an orientation to Cal Poly.

Married students or students who live in San Luis Obispo are especially desired for the hosting duties. Sign-ups must be made by Friday, March 6.

The professor who comes late to class is a rare person indeed. In fact, he's in a class by himself.

## Local VA Officer Explains Vets' Life Insurance

An estimated 455,454 California veterans who hold participating GI life insurance will receive \$29,581,300 in regular annual policy dividends during 1959, Howard E. Barlow, Officer-in-Charge of the Veterans Administration Office, 504 Santa Rosa Street, San Luis Obispo, announced today.

Barlow said this represents

California GI policyholders proportionate share in a national 1959 dividend total of \$256,000,000 declared recently for participating GI insurance. He explained that the dividends are primarily a refund to policyholders of part of their premium payments, and are made possible because the death rate among GI policyholders continues to be lower

than the tables upon which the premiums were established by law.

A breakdown of California policyholders' proportionate share in the 1959 dividend declarations show that 489,165 veterans holding participating policies in National Service Life Insurance (NSLI), which originated during World War II, will receive \$90,874,800 in dividends.

## Jones Says No More Checks Cashed in Registration Line

Cecil Jones, accounting officer, announced that a change in registration procedure makes it impossible to cash personal checks in the registration line hereafter.

"Checks in the exact amount of the fee, if written by the student, can be accepted, but no others," he emphasized.

They said it couldn't  
be done...  
They said nobody  
could do it...  
but —

L&M is  
**Low**  
in tar

with  
**More**  
taste to it

**Don't settle for one without the other!**

"L&M is kindest to your taste because L&M combines the two essentials of modern smoking," says TV's Jack Loucoulle. **LOW TAR:** L&M's patented filtering process adds extra filter fibers electrostatically, crosswise to the stream of smoke... makes L&M truly Low in tar. **MORE TASTE:** L&M's rich mixture of slow-burning tobaccos brings you more exciting flavor than any other cigarette.

**LIVE MODERN...CHANGE TO MODERN L&M**
