Memorandum

to : Stu Goldenberg, Chair
SOSAM Caucus

Date : March 30, 1981

File No.:

Copies :

From : Alfred M. Bachman *amB*

Subject: Academic Senate

During my leave spring quarter I will need replacements for Academic senate and budget committee meetings. Neal Townsend is willing to attend senate meetings in my place. Kempton Huehn is willing to attend the meetings of the budget committee. If this meets with the approval of the caucus, please notify them officially of their appointments for spring quarter.

RESOLUTION ON MULTI-CRITERIA ADMISSIONS PROGRAM
STUDENT AFFAIRS COMMITTEE Susanne I. Moran, Chair

Background rationale:

The Proposal for a Multi-Criteria Admissions Allocation Program basically calls for eliminating the one-dimensional selection/allocation criterion, grade point average, in favor of multiple criteria such as: grades in specific coursework, completion of a specific pattern of coursework, activities and awards, leadership roles, etc.

Whereas Cal Poly is an impacted University receiving far more applications than can be accommodated;

and whereas the present method of selecting applicants takes into account overall grade point average only;

and whereas Cal Poly has conducted a pilot study which has indicated the feasibility of multi-criteria allocation;

and whereas there is a need to inform prospective applicants and their Counselors in a timely manner;

Be It Resolved that the Academic Senate supports the development of multi-criteria admissions allocation program;

and be it further resolved that an annual review be conducted and a progress report given to the Academic Senate.
