## SAC Approves

## Bleacher Section To Be Installed For Homecoming

Student Affairs Council Tuesday night approved the expenditure of \$650 to rent temporary end zone bleachers for the Homecoming game with Fresno State, Oct. 24. The bleachers will provide seating for an additional 1,500 persons. The regular seating capacity of the stadium is 5,200 persons. Attendance at last year's Homecoming game was 7,200 but even more persons are expected this year because of the Cal Poly-Fresno State contest.

"Although we will probably not make any profit off these additional seats (because the people will come anyway), the public relations will be well worth the expense," says Graduate Manager Bob Bostrum.

The bleachers will be erected in the South end zone only because of obstruction to the scoreboard in the North end.

SAC also approved an additional \$350 towards traveling expenses for the College Union Board to send three delegates and one staff member to the Annual College Union Conference in Denver, Colo. Previously, \$150 had been budgeted for one delegate to attend the conference.

Awards Committee Chairman Skip Munroe received approval from SAC on the appointment of Lani Emery and Ted Ahnger to the committee. Both are Freshmen.

Tom Compton was approved to replace Don Martin as Engineering Council representative. Welcome Week Camp report was made by Mike Diah.

## Queen Finalist Will Be Chosen This Evening

Vying for Homecoming Queen tonight are 48 coeds. Judges will select five finalists, from which the student body will elect the queen Oct. 15 and 16.

The reception for candidates and their escorts is at 8 P.M. at the Monday Club. Dress for the occasion is cocktail or dressy dress.

Queen contestants include: Kay Aratani, Jeanne Harringer, Michele Bergen, Lynn Boyton, Mary Lou Hrusset, Karen Brown, Carole Collopy, Shirley Dodgion, Le Rae Donaldson, Nancy-Bea Esselman, Beverly Glansracusa, Carol Gilmore, Karen Grant, Sandra Greable, Lynne Hippler, Karen Hjorth, Joyce Hopkins, Rae Ann Kastman, Jeanne Koonts, Cleo Kramer, Lynn Kristie.

Cathy Lucas, Penny Lundberg, Marcela Moore, Judith Mastro, Anne Miller, Diana Nicolaus, Sue Nye, Sandra Parrish, Polly Paul, Linda Rathboga, Karen Reuter, Pat Reynolds, Shirley Seena, Mona Stone, Betty Strom, Louise Sturges, Christine Tegreen, Carol Turner, Shirley Ann Varnau, Teri Lynne Warrick, Joan Weaver, and Donna Rae York.

## ATTENTION SENIORS

All Seniors and other interested students are invited to attend the Monday evening meeting of Tau Sigma to hear Eugene A. Rittenhouse, College Placement Officer, speak on employment interviews. The meeting will be held at 8 P.M. in the AC Auditorium, says Don Parker, President of Tau Sigma.

## Leadership Confab Has Record High In Attendance

By DAVID WANG

A record attendance of 175 participants was set at the Oct. 8-4 Leadership Conference at Camp Pinecrest, Dan Lawson Conference Adviser, revealed yesterday.

"The figure is quite a jump from the 16 we had in 1952 when the conference first started. The faculty participants numbered 44 this year, whereas in 1952 there was none," said Lawson.

The highlight of the conference was a speech given by Robert E. Kennedy, Vice-President of Cal Poly, whose subject was "Leadership: Peacemaking or Pacemaking?"

In his speech, Kennedy presented to the audience his own formula for leadership: "Leadership energy comes from three elements . . . contact, motion, and direction. Contact means to be in touch . . . to be associated with other people, from reading, from experiences. Motion is simply doing something better than those around you. Direction means purpose, goal, and objective. Kennedy contends, is the most important and necessary element.

On achieving direction, he said, "To sit quietly on a fence and whistle a piece of wood is an activity that has gone out of style. We wouldn't be caught dead just sitting and thinking. But we need some unstructured and unscheduled time to sit and think—time to reflect.

"During such reflective hours a man evaluates, compares, orients, selects, orders, designs. It is in such periods that wisdom is born—it bridges the gap between knowledge and understanding. Out of such reflective activities come personal direction to your life—the true basis for creativity in developing aims and goals that others will want to follow."

Don Johnson, a Junior Aero major, was elected conference chairman for next fall. Shirley Otto was elected secretary.

Charles Penwell, in charge of menu and morale, disclosed that another record was set at the conference this year: 2,000 cookies were consumed by ever-hungry campus politicos.

## Students May Attend Missile Man Talk

Missiles in the jet age may make many people think of the swoosh and roar of explosive power driving an object into outer space, or perhaps of monkeys and dogs going to the moon. But missile development is not all this glamorous.

Members of the Cal Poly chapter of the American Welding Society will learn about some of the mechanics of building and firing missiles when they meet with Francis H. Stevenson on Monday.

Stevenson, head of the manufacturing department at Aero-Jet in Sacramento, will give a talk on the welding problems of the Titan missile. He will use a 16mm movie and slides to punctuate his remarks.

Stevenson has many years' experience in his field, including development engineering at Aero-Jet and twelve years with Lockheed Aircraft Co.

He will be on campus at 7:30 P.M. in the Ag. Eng. building, room 128. Everyone is welcome to attend, according to Richard E. Blaisdell, vice-chairman of the local group.

## MONEY PROBLEMS

Students who have scholarships and need assistance receiving the scholarship money should report to Paul Winner, Administrations Officer, Adm. 125.

## Participation In Department Activities Important: McPhee

More than 4,000 Cal Poly students were advised to "seek advice" by President Julian A. McPhee, at the 27th annual Convocation Address yesterday.

McPhee stressed that students shouldn't hesitate to seek advice, but should become more aware that it is important to look for advice in successful places even as they grow older.

"Secure, if you can, advice from 'successful people' who have reason to know you," he said.

He urged us to seek advice when we feel the need, making use of our counseling facilities and personnel, and to share problems with instructors and friends.

He pointed out that as we grow, Cal Poly should become aware of the importance of departmental clubs, residence hall groups, participation in publications, sports, music, and other activities, for a change in pace and to refresh from studies.

Also emphasized was the importance of students budgeting their time while here at Cal Poly and to secure the things for which you came here.

Some of the characteristics that distinguish the Cal Poly student from the average, were pointed out by McPhee:

1. As Cal Poly students you are pursuing definite objectives in your educational program.

2. As Cal Poly students you aren't afraid or ashamed to get your hands dirty.

3. As Cal Poly students you are realists.

4. The willingness to try new things, to place achievement ahead of security, and the interest in opportunity rather than the immediate financial gain, as you go into your chosen career.

A special welcome was given to all of the new students with the reminder of a smile and friendly hello when we pass one another.

He recalled that 26 years ago it was a windy day as it was this year, and that as the student body grew, a larger place to meet as a group was needed. "Probably next year we will be in our new gym," commented McPhee.

Another quality that sets Cal Poly apart is the honest desire to be of maximum service to society, he added.

"One important point is your awareness that right now during your college years—you are experiencing the greatest opportunity you'll ever have to make of yourself a better person," said McPhee.

In his closing remarks he said, "I want us all to pledge ourselves anew to the job of building a successful individual Cal Poly product and through that kind of a product to continue the building of Cal Poly. For your success is Cal Poly's success."

## ROTC Ball Needs Queen To Preside

This year's ball will be the largest of the school's history. The Collegians are expected to preside over the musical end of the dance.

Last year's queen will crown the new queen during the festivities. She will be chosen from a group of five finalists, selected from an expected 85 entrants. All interested co-eds should contact Joe Cotchett, Box 863, for applications or the ROTC office.

Plans have been made for this year's Military Ball sponsored by the Scabbard and Blade Society, announces Ron Reich, President. Ball Chairman is Dan Suzuki; Queen Chairman is Joe Cotchett.

## Deadline Today

Today is the last chance to turn in float entries for the 52nd annual Homecoming parade Oct. 24. These must be in the ASH office by 5 P.M. tonight, announced Float chairman Jerry Kechter.

**EASY THERE . . .** As a result of a prankster's "bombs bursting in air," the flag poles in front of the Administration Building had to be taken down and repainted. The two tall structures will be erected again on Friday after their lace lifting processes are completed. The repairs are required because someone hoisted flares up the poles Sunday evening. The flares burned the ropes and blistered paint. (Photo Bureau—White)

## Out Of The Din

Contributions to "Out Of The Din" should not exceed 175 words. Editors reserve the right to edit and/or condense all letters received and to decline publishing letters that are, in the opinion of the editor, in poor taste or libelous. All communications must be signed by the writer. If a non de plume is desired as a signature, it is permissible, but the editor must know the true name of the author.

### Where Are the Books?

Dear Editor,

Where are those books that I so urgently need? This is the question that I have asked the staff of the El Corral book store for the past two weeks and to no avail.

Class work and homework are going on as scheduled. As a result, many students are losing valuable time and grade points

because of books not available to them at the book store.

Is it asking too much of the El Corral book store to order a few extra copies for each class? It seems the function of any college book store should be to serve the student, not to hamper his study progress and make a profit.

H. Alan Langenbeck

### Question Here

Dear Editor,

Will someone please tell me why it is necessary for the College Union Board to have four people go to this College Union Conference in Denver, Colo. when one good, well-qualified person could do the job just as well, if not better? Besides that, it would save the students of this school some \$200. I don't mind SAC spending my money for the good of the school, but this is ridiculous!

Since the College Union Board has obtained traveling expense money from SAC, every organization on campus should have the privilege. But will they be granted this traveling expense money when they petition SAC? I'll bet you a dollar to a donut hole they'll get the thumbs-down treatment.

Puzzled

### Books At High Noon Features Phillips Archeological Novel

What happens when an archeologist goes to Southern Saudi Arabia to dig for the Queen of Sheba?

Wendell Phillips tells about it in "Quataban and Sheba," a colorful account of exploration and adventure in Arabia in search of the ancient ruins of the palace of the Queen of Sheba.

Dr. Robert-Rodin of the Bio Science department, who knew Phillips on an African expedition, will talk about the man and the book on Tuesday at Books at High Noon in Library 118C.

### Color Guard and Drill Team Participating in Homecoming

This year's ROTC cadets include 57 engineers, 38 agriculture majors, and 20 members of the Arts and Science Division.

Members of the drill team are: Robert Hoseman, John Cannon, David Carter III, Richard Dickinson, Dean Federhart, James Gray, Richard Holts, William Hau, Kenneth Norman, William Ritter, George Spaul, John Trimble, and James Watkins. Drill Master is Robert Garrotti; Assistant Drill Master is Walter Klemperer.

Drum Major of the Drum and Bugle Corps is John Irabarren. In the drum section are David Conner, Ray Diaz, Jerry Downer, John Holbrook, and Robert Kennedy.

In the trumpet section are Donald Campbell, Gilbert Delcid, David Kossoff, and Harry Yamamura. James Corrine and John Young are in the trombone section.

Members of the Color Guard are Davis Beauchamp, John Hanes, Cliff Hillebrandt, John Hoxie, and Robert Millsaps. They are rifle guards and color bearers. Patrick Powers is the Color Sergeant.

All three groups will be participating in the Homecoming Parade, and the Veteran's Day celebration, Nov. 11, at the Men's Colony.

### "Picnic" Set To Be Three-Sided

Poly Players have announced the cast for the fall production of "Picnic" which will be presented in the AC Auditorium, Nov. 12 and 13.

The play by William Inge was first produced on Broadway and then filmed about five years ago, starring Kim Novak and William Holden.

Keith Nielsen, Drama Activities Advisor, and Ken Holmes, Director, plan to use flexible staging with skeleton sets so that the audience will be placed on three sides of the action. "This will make the story much more intimate for the audience," says Nielsen.

The setting for the summer romance is a small town in Oklahoma during the annual Labor Day celebration. It has a not-too-typical boy-meets-girl situation with a thrilling finale.

Members of the cast include: Gerry Hedgcock as Mrs. Potts, Bill Hall as Hal, Karen Grant as Millie, Rich Allen as Homer, Kathy Schnell as Madge, Charlotte O'Hannon as Mrs. Owens, Jan Ferry as Rosemary, Douglas Williams as Alan,ileen Raimond as Irma, Krystal Pool as Christine, and George Greenman as Howard. Production Manager will be Tom Crawford.

### AT THE RIJOU

Playing at the campus Rijo tonight will be "The Young Lions," starring Marion Brando, Montgomery Clift, and Dean Martin. This top motion picture will be shown at 7 and 9 P.M. in the AC Auditorium.

### Federal Service Test Schedules

The 1960 Federal Service Entrance Examination is the avenue through which seniors may qualify for trainee positions at the entrance level in a wide variety of career fields, and in a wide variety of Federal agencies and geographical locations.

Sixty career fields are offered through this one examination. It is, in effect, one application to many employers at the same time. Federal establishments make approximately 5,000 appointments each year from this examination to career positions located in Washington, D.C., and throughout the United States.

College students who are in graduate school or in their senior or junior years in college and who pass this examination, can be offered an appointment to a position in the Federal career service which will become effective upon graduation.

Application card form 5000-AB is available in the Placement Office, and applications must be filed by Oct. 25, for the test that is given on Nov. 14; Dec 24, for Jan. 9; Jan 28, for Feb. 18; March 25, for April 9; April 28, for May 14.

Additional tests for Management Internships will be given only in October, November, January, and February on the dates indicated above. Applications for Management Internships will not be accepted after Jan. 28, 1960.

### Dairy Movie Film Produced At Poly By Union Pacific

A ten-minute on-the-farm motion picture prepared to teach the recommended steps to be followed in raising dairy calves for herd replacements has just been released and is available from the Union Pacific Railroad's Agricultural Film library.

The film was made at Cal Poly last Spring Quarter with the assistance of the Agriculture Division's instructors Harmon Toone, Russell Nelson, Jack Albright, and Phil Page.

Shown in the film are aspects of the care of the cow and calf at time of birth, including sanitation methods, identification, vaccination, feeding, and housing. The film stresses the importance of feeding in producing high-quality, vigorous dairy heifers. The film is obtainable from Wesley D. Souther, Agricultural Agent, Union Pacific, Salt Lake City, Utah.

### Poly Fencing Club Unveils Foils Again

Soon to be heard again, are the challenging cries of "touche" and "en garde", emanating from the gym patio.

Clifford Cloonan, an Electronics instructor, and Neil Honeychurch, a Mechanical Engineering major, are busily preparing for another exciting season of fencing.

The Fencing Club is for those who wish to participate in one of the most delicate and exacting of the ancient sports of the world. The fast and furious action is capably led by Cloonan and Honeychurch. Cloonan is an ex-collegiate tourney winner from the University of Colorado, and Honeychurch has been an avid fencing fan for a number of years.

Although equipment is needed, all those who wish to join will be provided with the necessary gear. As soon as there are enough members, a schedule will be drawn and posted.

All interested fencers are urged to contact either Cloonan or Honeychurch at the soonest possible date.

### "Around the World in 80 Days" Planned For Game Half-Time

George Beatis, Director of Bands, became a full-fledged member of the band during the San Diego trip, Oct. 8, when his students short-sheeted his bed and inserted an unusually scratchy assortment of cracker crumbs.

The trip itself was plagued with a number of minor inconveniences, to say the least. To start things off right, the band truck carrying the instruments ran out of gas. Next, the truck refused to start whenever the engine was stopped. Band members are now practiced pushers of vehicles as well as players of instruments.

This week's half-time activities by the marching band will be "Around the World in 80 Days," featuring the musical score that won an Academy Award. For the students that missed the movie, the band will present their own version.

First stop on the world tour will be the Eiffel Tower in France; Spain will exhibit a Spanish dancer, and Italy will display a volcano. A Chinese pagoda will portray the Far East, and Hawaii can only be represented by an Hawaiian dancer.

Then the band will be home-ward bound, playing "California, Here I Come," while marching in the shape of the state of California.

Winston-Salem Teachers College won the NAIA track title at a meet held in Sioux Falls, South Dakota.

**ELEPHANT BACKFIELD** . . . Cal Poly's oversized back field got a look at their namesake this week as the Elephants in town for the Kiwanis Circus exercised on Mission Field. Labeled the "Elephant Backfield" by Mustang drumbeaters, the three behemoth ball carriers, Claude Turner (45), 208 pounds; Gary Van Horn (46), 210 pounds; and Carl "Bumper" Bowser (35), 206 pounds, do the ground work while Tom Klosterman who has completed 16 out of 25 passes for 270 yards performs the aerial duties. Turner has carried 17 times for 148 yards, Van Horn 16 times for 96 yards and Bowser 12 times for 137.

### SBJC Cancels Tilt With Undefeated Colts

Though duck season opened Wednesday, Santa Barbara Junior College ducked tomorrow's rumble with the Cal Poly Colts last Tuesday.

Reason for the cancellation, according to Athletic Director Bud Rivas, was due to the lack of Santa Barbara gridgers. Of course, the fact that the southerners have dropped two consecutive contests, latest of which was a 68-0 fiasco at the hands of Pierce Jaycee, while the Colts are undefeated with 77 points scored against 8 for the opponents, added credibility to Santa Barbara's decision.

### Poly Bowling League Ready to Bowl Again

Following this summer's downtown fire, destroying the local bowling alley, Cal Poly's Bowling Club has moved to more fireproof pastures. The Keglers have taken up permanent Monday night residence in the Plamo Bowl located in world-renowned Plamo Beach.

Any interested students can see Faculty Adviser Art Stobbe, or Club President Vic Vurpillit.

In last Monday night's competition, Bob Thomas emerged from the fray a double winner, picking up a 212 for high game, and 562 for high series. The Institute of Radio Engineers took the high team game with 807, while The Moonshiners racked up a 2846 to walk away with the high team series. After one night of competition, the standing lineup looks like this:

Team	Won	Lost
Moonshiners	4	0
Engineers	4	1
Playboys	3	2
Jokers	2	3
IRI	2	2
Mat Pica Pl	1	3
Fighting Coeds	0	4
Handbaggers	0	4

### Teacher Cadet Appointments Are Announced

Eight graduate students at Cal Poly began their teaching careers this fall by serving as cadet teachers in central California high schools. Students divide their last college year between cadet teaching at high schools and educational classes at Cal Poly.

Members of the Vo-Ag Department teaching this fall are: Wesley Allen, Ag. Eng. major from Dixon at Madera Union High School; Frank Raugh, Dairy Husbandry major from Soquel at Gonzales High School; Richard Blocher, General Crops major from Indio at Riverdale Joint Union High School; James Coelho, Field Crops major from Irvington at San Luis Obispo High School; John Dearhart, Animal Husbandry major from Boron at San Benito High School in Hollister; James Graham, Dairy Manufacturing major from LeRoy, New York at Lompoc High School; Dennis Smoot, Horticultural Services and Inspection major from Yorba Linda at Santa Paula High School; and William Stroud, Animal Husbandry major from San Jose at Gilroy High School.

**GREYHOUND ENGINEER** . . . Here's the man who will call the shots for the Eastern New Mexico team in Poly Stadium Saturday night. W. A. Moore, junior quarterback from Portales, N.M., has been given orders to "go for the touchdowns on every play" with spill ends, plenty passing and lots of wide play. The veteran signal caller is highly regarded as a hard runner and more than adequate passer.

### Mustang Grapplers Start Workouts

The call is out for all prospective varsity and junior varsity grapplers, according to Lynn Dyne, Junior Varsity Wrestling Coach. Practice starts immediately in Crandall Gymnasium and is held Monday thru Friday at 4 P.M. A practice uniform can be obtained throughout the week from Sheldon Harden, Varsity Wrestling Coach.

Anyone who has not wrestled at another college during the past year is eligible to wrestle on the Mustang wrestling team. This year's team will be out to better last year's 7 win, 1 tie, 1 loss record.

The new agriculture and social science building will provide an additional 10 laboratories, 18 lecture rooms, and 42 two-man offices.

Cal Poly's new cafeteria will cost \$1,700,000 and is capable of seating 1,228 people simultaneously.

## Mustangs Face Light-Fast Greyhound Squad Tomorrow

Stepping out of the CCAA League picture again, Roy Hughes' '59 Mustangs, now rubbing shoulders at the top of the League with L.A. State and Fresno State, meet a light, but fast Greyhound eleven from Eastern New Mexico tomorrow night in Mustang Stadium.

In order to sharpen up the Mustang scoring punch which was missing at the San Diego State contest last week, Hughes scheduled scrimmages with freshman coach Tom Lee's undefeated Colts last Monday and Tuesday. "The scrimmages did us a world of good," reports the genial Fox. "Our reserves have improved 100 percent."

Though the scrimmages proved beneficial to both squads, casualties caused both mentors to call a halt to the action Wednesday.

When the smoke had cleared, the Mustangs discovered that reserve G. W. Wingo, currently sporting scratches will be sidelined for the duration of the season, while fresh pass-catching sensation Mike Nichols, who sustained a similar injury, will be out for several weeks.

The New Mexico eleven, fresh from wins over Sul Ross State and Washburn University will roll into San Luis Obispo Friday evening, bringing their talented passer W. A. Moore and ground gain-

ing specialist Roy Valentine, junior fullback who picked up 78 yards and two tackles at Sul Ross State. Valentine and halfback Eldon Wetsel lead the Pack in scoring with 12 points each.

Greyhound coach Carl Richardson will form his forward wall around all-American guard candidate Buddie Cosby, who has been plaguing opponents with his thunderous tackles all year long.

The Mustangs, with their hearts set on displaying a more solid scoring punch will be back to full strength in the line with the news of Billy Ross's return to action.

Carl Bowser, who leads the Mustangs in point production will probably view the game from the bench sporting elvies. Though his ankle is once again healthy, Hughes prefers to save the "Bumper" for the CCAA Long Beach State tussle next weekend.

Probable starters for the Greyhounds will be Joe Lee (190) and Reese Washington (195) at ends; Charlie Hood (210) and Don Perry (215) at tackles; Von Ray Trotter (195) and Buddie Cosby (190) at guards; and John Sanders (195) at center.

Ball packers for the Greyhounds will be Dick Billeison (180) and Eldon Wetsel (160) at halves; Ray Valentine (200) at full; and W.A. Moore (180) at quarterback.

Opening for the Mustangs will be Curt Hill (185) and Darwin McGill (195) ends; Billy Ross (215) and Pat Lovell (240) tackles; Carlos Gonsales (220) and Bob Williams (200) at guards, and Rich Max (225) at center.

The Mustang backfield will feature Claude Turner (208) and Gary Van Horn (210) at halves; Ray Porras (185) at fullback and Tom Klosterman (180) at quarter-

## Three Poly Men Are Attending Dairy Contest

Three Cal Poly students, Don Lord, Orange; Frank Jacinto, Plamo Beach, and Raymond Gayauskas, Los Angeles, are representing the college at the 25th Collegiate Students International Contest in Judging Dairy Products at Miami Beach, Fla.

The three man team was picked for general scholastic ability and research aptitude as well as skill in judging dairy products, taste-test and score ten samples each of milk, butter, cheese and ice cream.

Donald Lord, Orange, placed first in the cheese judging in Collegiate Students International Contest in Judging Dairy Products. He was awarded a wrist watch and a bronze medal for placing third in the butter judging.

The purpose of the contest is to attract young men and women of high calibre to dairy industry careers and to foster research in dairy problems.

The three highest scoring teams in the All-products Division will be awarded graduate research, cash fellowships from the Dairy Industries Supply Association for \$1,800, \$1,650, and \$1,500.

There are 28 colleges and universities from all parts of the U.S. Cal Poly is representing the West Coast.

### LAST CHANCE MONDAY

Monday is the final deadline for dropping classes without receiving a failing grade in the course.

## CCAA ROUNDUP

Los Angeles State, riding the crest of a four-game winning wave, and Fresno State, unbeaten in its initial two starts of the season, face tough tests this coming week-end. The Diablos from Los Angeles travel to Santa Barbara to engage the Gauchos, who won last year's game 20-0. The San Diego Marines defeated Fresno State by this same 20-0 margin one year ago.

With a 28 1/2 point average over the first four games of the season, Coach Bud Adams of Los Angeles State will release his number one offensive threat and present conference scoring leader, Joe Womack in an effort to win the Diablos' second straight CCAA conference game. L.A. State defeated San Diego State in its initial conference start 21-3.

Three teams are tied for the lead in CCAA play in the yet-young season. Along with Los Angeles and Fresno, the Cal Poly Mustangs have yet to lose a ball game in league competition.

In first weekly statistics, sophomore fullback Joe Womack leads all scorers with 42 points. Joe is also second in yards gained rushing and boasts a 7.2 yard average for the Diablos' opening three games. Santa Barbara's Jim St. Claire leads the passers with 888 yards gained, with Long Beach State's Ron Johnson close behind at 816 yards. Dave Ross, veteran L.A. State wing, leads pass receivers with 212 yards on nine receptions, while Bob Heberer (49'ers) and Fred Tunnell (49'ers) are close behind at 182 and 180 yards respectively.

### ME Wives Plan Halloween Party

ME Wives Club will hold their first meeting of the year Wednesday, Oct. 14, in Lib. 118 at 8 P.M. All old and new members are urged to attend this important meeting. Plans for the year will be discussed, including a forthcoming Halloween party.

A "get acquainted" program has been planned; doorprizes will be awarded, and refreshments will be served. All wives of ME students are invited.

### EE WIVES MEET

EE Wives Club will meet Monday at 8 P.M. in the East Engineering building, Room 4B. Refreshments will be served and games played, says Peggy Pate, chairman of the meeting.

## Plan Rodeo For Sunday Morning

Enthusiastic rodeo fans and participants gathered at the Bud Collet arena Saturday for Cal Poly's first jackpot rodeo of the year.

Open roping and barrel racing is slated for Sun., Oct. 11, at the Madonna Arena in See Canyon for all interested Cal Poly students. Events will start at 9:30 A.M. with a barbecue lunch.

Five jackpot events were held at Saturday's meet with a large number of new cowboys riding for the first time at Cal Poly.

Ray Bunnell captured the saddle bronc riding and Don Rystrom won the bull riding section. Three new cowboys walked off with the first three places in the bareback bronc riding, with Chuck Knowles, first; Jack Sparrow, second; and Lew Bonantini, third.

The calf roping event was won with a time of 16.1 seconds by Bud Kasper, and second place went to Don Crow.

In the girls events, Carla Jean Kaufman, with a time of 20.7 seconds, was the winner of the girls barrel racing.

## ROCKET SPEAKER

Dr. Harold S. Selfert, Vice President of the American Rocket Society, will be on campus Oct. 20 in the AC Auditorium as guest speaker for the campus ARS. Exact time of his talk will be announced later.

Cal Poly's share of the Whale Rock dam and water distribution system is \$2,822,300.

## AE Seniors Receive Scholarships; Both Active In Clubs

Two seniors in the AE Department have each won a \$500 scholarship for 1959-1960, according to James F. Merson, head of the department.

Emery Salter, a senior ME, won the Korth Equipment Corp. Scholarship. Salter's primary interest is in tractors and farm equipment.

Robert Donald Warden, a senior AE, won the Tractor and Implement Club of Southern California Scholarship. Warden's primary interest is farm equipment and he is following the power and machinery option.

Both belong to the Cal Poly SAE, the National Agriculture Scholarship Society, Blue Key, Alpha Zeta, and the National Honor Service Fraternity. Salter is president of SAE; Warden is vice-president.

The scholarships are given annually to advanced students in the department.

In order to receive the award, the applicant must be in the AE Department, be a junior or senior, be enrolled in accounting or planning to take it, have satisfactory grades, and display an interest in college activities. The scholarships are given to attract more graduate students to this field of work.

### GRADUATES PLACED

Eugene Rittenhouse, Placement Officer, reports that nine Cal Poly engineering graduates were placed with the State Department of Water Resources last year.

## Water Polo Team Improved, Depth May Be Problem

Coach Dick Anderson's Cal Poly Mustang mermen will host El Camino Junior College in the Poly natatorium for a water polo practice meet this afternoon at 4 o'clock.

After finishing fourth in state competition last season, the Mustang water polo team is eyeing the '59 championship, and with some justification. The Mustangs managed to squeak in last year behind San Jose State, Long Beach State, and Los Angeles State with San Francisco State and San Fernando Valley J.C. bringing up the rear.

The Mustang mentor now believes his first string to be an improvement over last year's, although the depth situation leaves something to be desired.

Among the returning mermen expected to bolster the contingent are sophomores Jack Adams and Chuck Johnson; Juniors, Larry Cole, Don Longacre, Allen Starr, and Francis Bell; and senior, Bill Duflock. Russell Poe, an untented freshman, is expected to be a big asset.

The green and gold will travel for a clash with USC next week. Poly hosts Fullerton J.C. on Oct. 20, and Los Angeles State the following night. California at Berkeley will take on the Mustang splashers Nov. 7, following by the State College Water Polo Tourney at Long Beach State.

Cal Poly's share of the Whale Rock dam and water distribution system is \$2,822,300.

## Space-age thinking and communications

Reach for the stars.

That's what a company like Gen Tel — America's second largest telephone system — must do to find new and better ways to build tomorrow's communications services.

And that's what our large and highly trained staff of scientists and engineers continuously aim at. These are the men and women who are engaged in the development of new and promising techniques in fields such as memory systems, advanced electronics, high-speed switching, and data transmission.

Gen Tel has been research-minded ever since its small beginning. That's one of the

reasons we have grown into a system that has 1,745 exchanges in 20 states, providing modern service for over 8,700,000 telephones. Our lines carry 119 million conversations each week, and we're adding 3,750 new phones every week.

To keep up with our country's growth, we continue to think ahead, plan ahead, invest ahead. In fact, this year, alone, we're investing almost \$200 million in new facilities required to meet the ever-increasing demand for more and better telephone service.

These are typical examples of how we strive—not only to meet today's communications needs but to answer tomorrow's.
