Blue Key Tapping Selects Outstanding Upperclassmen

Thirty-four upperclassmen have been tapped for prospective membership in Cardinal Key, National Honor Sorority, and Blue Key, National Honor Fraternity, during tapping ceremonies the past two weeks. Blue Key teams have notified 21 coeds that they have been selected for prospective membership in the new Cardinal Key Chapter to be organized here by the end of the quarter. Chapter Blue Key members also tapped 18 men for membership.

"All reports have been favorable on tapping procedures," reports Blue Key President Dick Robben. "The purpose of tapping was to give recognition for achievement to those selected persons. By tanning them in meetings of organizations to which they belong, we feel this purpose was accomplished."

Membership in either of the two honor organizations is based on academic achievement, leadership and activities record.

The 21 coeds tapped were Lois Axtell, Anna Boyesen, Alice Cressy, Ruth Eddy, Lilla Hunter, Carla Kaufman, Marjorie Redington, Martha Sturges, Mary Tomasini, Sheila Varian and Honya Woods, all seniors; and Barbara Horis, Charlene Cobb, Ruth Dathes, Phyllis Green, Barbara Harp, Linda Lower, Zell McClelland, Victoria Porter, Patsy Rodriguez and Alice Whitmoyer, all juniors.

Men tapped for Blue Key were Fred Alexander, Ferd Basler, Bob Foster, Dick Brockett, Dick Chilson, Dan Hancock, Ron Murray, Al Pense, Jim Peterson, Emil Saxberg, George Tilly, Harold Eade, and Donn Johnson. All of the prospective Blue Key initiates are juniors.

High Noon Meet Reviews Current Broadway Hits

Books at High Noon today in Library 118 will star Stan Barr of the English Department reviewing nine plays he saw in New York during the Christmas vacation.

Barr lists the plays as: "The Gang's All Here," story of the Harding administration by Jerome Laurence and Robert E. Lee; "Heartbreak House," Shaw's essay on the disintegration of the pillars of English society; "The Miracle Worker" by William Gibson, the story of Helen Keller; "The Tenth Man," a parable of a Jewish girl possessed by a demon, by Paddy Chayefsky; "A Raisin in the Sun" by Lorraine Hansberry, a Negro dramatist who wrote her first play about her own people; "At the Drop of A Hat," a two-man review which amused London for two years and shows no sign of age; "Gypsy," the story of how Gypsy Rose Lee got around to undressing in public, set to music; Chekhov's drama "The Three Sisters" and "U.S.A.," a fragmentary adaptation of John Dos Passos' novel.

Judging Teams Win Four Intercollegiate Contests

Agricultural division judging teams won the overall competition in four major intercollegiate judging contests this fall. The livestock judging team came off with top honors at the Pacific International Livestock Exposition, Portland, Ore.; at the Grand National Livestock Exposition, San Francisco; and at the National Western, Denver, Colo.

The Cal Poly dairy products judging team also was overall winner at the Pacific International. The livestock judging team's victory at the Pacific International was its third and retired the championship trophy for this contest.

In the Collegiate Students' International Contest in Judging Dairy products held at Miami, Florida, the dairy products judging team won fifth place in a field of 27 teams in overall competition and took first place in milk judging.

Cal Poly's beef judging team won the American Hereford Association trophy for high team at the Pacific International, Grand National, and National Western. The sheep judging team won the American Hampshire Register trophy for high team at the Grand National.

Missile Expert Talks On Flight Safety

Colonel Lucius A. Perry, Commander, 704th Instrumentation Squadron, Vandenberg Air Force Base, will speak at the Poly chapter of the American Rocket Society, Thursday, Jan. 28.

The meeting begins at 7:30 P.M. with a film "Cosmical Mechanics: A Lunar Prober." Following a short business meeting, Col. Perry will supplement his lecture on "Ballistic Missile Flight Safety" with colored slides.

Flu Epidemic Appears On Wane, Says Lovett

"It is quite possible that our portion of the present flu epidemic has reached its peak," said Dr. Earl D. Lovett, head of Cal Poly's Health Center. "The 24 beds in the infirmary that were full a week ago are only partially filled now."

It is entirely possible that the epidemic was curbed by the amount of students that received flu shots and boosters, according to Lovett.

However, Dr. Lovett emphasized that it would still be a good idea for all students who have not received booster shots to get them, because the flu threat is not over.

HE Club Presents Winter Fashions For College Hour

"Wintertime Moods" will be the theme of the annual Home Economics Club fashion show to be presented during College Hour in AC Auditorium Thursday.

Winter fashions which have been created by the models as Cal Poly Home Economics class projects will be featured in the program according to Helena Tidrow, Chairman of the show.

Decorations and clothing will carry out the theme of the winter style show which is planned by the committee composed of Miss Tidrow and Susan Butler, Co-chairman; Lydia Melvin, Decorations; Phyllis Green, Commentator; and Clothing Instructor Mary Lou Hogan, Adviser.

Donna York, Home Ec. Major designer and model of formal, will be part of the "wintertime moods" fashion show

Wire Short Starts Fire In Girls' Dorm

A small electrical fire in Jespersen Dorm yesterday morning charred the inside of an upstairs room and filled the hall with soot and smoke before it was extinguished.

The fire was started by a short in a radio and spread to the desk lamp and curtains. Both girls were out of the room.

Several coeds and Mrs. Gladin, housemother, squirted the blaze with the hall fire-hose, and had the fire under control when the Cal Poly fire department arrived.

"It is impossible to estimate the damage until the girls go through their personal belongings," said Jesse Gunter, security officer. "The room will have to be completely refinished. There is soot over everything."

The room is occupied by Shirley Dodgion and Jeanette Ferlini.

'Death' Rehearsals Run On Schedule

Poly Players' winter quarter production, "Death Takes A Holiday", is "coming along right on schedule" according to Carol Risso, student director.

Huile Perry, technician in charge has made a model of the set design to be used in the AC Auditorium when production is under way in March. The small-scale model will be on display in the

Library soon.

According to Phillip Bohm, President of the Poly Chapter, Perry has had considerable experience in the ballistic missile field, with wide and varied knowledge of missiles and their components.

He was the Director of Range Operations at the Atlantic Missile Range, Patrick AFB, Florida, before being assigned to his present post at Vandenberg.

Poly Royal Board Sets Theme, Moves Carnival

Theme selection, carnival location and dance site were highlights of the Poly Royal Board meeting Thursday. "Education-Experience-Opportunities!" That is the theme for this year's Poly Royal scheduled for April 29-30. The winning theme was submitted by Leo Scheuber, junior Farm Management major.

FFA Offers Cash To Poly Royal Button Designer

Fifteen dollars will be awarded the person submitting the winning design for the campaign button which will be used for the promotion of the 28th Annual Poly Royal.

The Cal Poly FFA Chapter is offering the cash prize to any member of the student body or faculty who creates the winning design. The design should be indicative of the Poly Royal theme, Education - Experience - Opportunities.

Deadline for submitting the proposed button design to the Agricultural Education office, CR 18, is Feb. 11.

Selection of the final design will be made by the Poly Royal Board. Requirements are that the button show Poly Royal dates, April 29-30 28th Annual Poly Royal, California State Polytechnic College, and a design or cartoon depicting the three divisions—Agriculture, Engineering, Arts and Sciences—or those words.

The proposed button design should be submitted in a five inch diameter circle but the actual button size will be two inches in diameter. Colors for the button are limited to green, gold, and silver.

Kern County Ag Supervisor To Address Jan. 30 Banquet

"Men to Match Our Mountains" will be the topic of an address by Howard K. Dickson, Supervisor of Agriculture, Kern County Union High School District.

The speech will be the feature attraction of the annual Ag Ed banquet at 7:30 P.M. on Saturday, Jan. 30, in the Veterans Memorial Hall.

Tickets can be obtained from Ag Ed members, or at CR 18, for \$5.50.

Members, prospective members, wives, girl friends, staff and faculty are invited.

Korea Veterans May Have To Accelerate Training Programs

"Some Korea veterans, in night school or in part-time training under the Korean GI Bill, may have to start accelerating their courses if they want to finish up by the termination date of their GI training benefits," Howard E. Barlow, Officer-in-Charge of the San Luis Obispo Veterans Administration Office announces.

Under the law, a veteran's GI termination date is eight years from the date of his discharge. But in no event can he take GI training beyond January 31, 1965. Veterans may not be paid GI educational allowances after their termination dates have passed. A veteran discharged in 1955 faces a termination date in 1963. For a veteran discharged in 1953, his termination date would come sometime in 1961.

Veterans taking Korea GI Bill (continued on page 4)

Two changes in location of major events for the two-day open house include moving the carnival from the football stadium to the parking lot between the Mechanical Engineering lab and the Health Center, and moving the Coronation Ball to the new Men's Gym from the Camp San Luis Obispo Armory. The Engineering Council will again sponsor the Ball.

New chairmen approved by the board are Dennis Newton, Opening Ceremonies; Dave Oakley, Redco; and Cathy Williams, Athletics.

Poly Royal's honored guest this year will be J. Burton Vasche, head of California State Colleges.

The board meeting time has been changed to 5 p.m. each Thursday. This move was made to alleviate the conflict with classes.

Queen's Chairman Ralph Oppfelt has listed regulations for queen contestants. Candidates will be sponsored only by organized clubs, dormitories and other organized groups officially recognized. Petitions are available now in the AEB office and must be returned by 5 p.m., Feb. 12. Oppfelt asks that petitions be returned as soon as possible.

How Effective Was Campus Religion Week?

Did Religion in Life Week accomplish its purpose?

In order to measure the effect of the week's activities and estimate their value this question was asked some of the people responsible for the program.

According to Rev. Bill Brewer, one of the co-ordinators on the executive committee, the answer is "yes" and "no." He said, "as far as having the opportunity to understand other faiths and examine our own, yes. But as far as confronting the students with God, no."

Rev. James C. Upshaw said sex and marriage were the most popular subjects and the ones which drew the largest crowds. He said, "I think I stirred considerable hostility and frustration regarding these topics." He added that the main area of interest lay in the discussion of love vs. infatuation.

The Rev. Upshaw also commented that the organization, the preparation, and the interest at Cal Poly was better than any other RILW he had attended.

The bull sessions in the dormitories proved to be very successful because of the casual atmosphere, according to Gene Morga of the Program Committee.

Betty Coleman, of the Hospitality Committee and hostess for Father Barry, said that RILW has "helped students solve some of their problems and strengthen their beliefs." She added that the comments on the evaluation sheets were favorable, indicating the satisfaction of the listeners.

Frosh Class Confab

A Special meeting of the Freshman Class has been called for Thursday at 7:30 P.M. in CR 19 to discuss the heart fund campaign.

Class President Dick Batcheller urges all freshmen to attend.

A hi-fi dance will follow the meeting.

The bookstore sells approximately 140 Cal Poly jackets each year.

SIR WALTER RALEIGH

Mein Kempf

By DAVE KEMPF

Apparently there's one local citizen who isn't too proud of Cal Poly. In disgust against the expense of the new buildings on campus, he wrote a letter to the editor of the Telegram Tribune and called state colleges "tax supported mating grounds."

Although not now, but appropriate for each and every one of us struggling for a degree is the little proverb: "One way to kill time is to work it to death." Could pay off some day.

While getting philosophical, we might as well throw in one of Dr. Robert Mott's little gems of wisdom. In a bull-session one day the P.E. Department Head remarked "If you can't win, don't lose!"

Most smokers are interested in reading articles about cancer scare and related data, and some, we hear, have even given up smoking as a result of it. Here's a new slant on the idea from the Des Moines Register. "The statistics on smoking reminds us of the smoker who was so upset by all the stories about cigarette and lung cancer that he gave up reading."

More good entertainment is on tap for early next month. The Gateway Singers are returning to San Luis Obispo for another performance Feb. 10. It's a don't miss date for folk song lovers.

Rainy weather has proven to be a tongue twister for the early morning announcer on one of the local radio stations. In giving the weather report a few days back, he spoke thusly: "This afternoon for San Luis Obispo and vicinity it'll be cloudy with shattered showers."

Students Invited to Dance Class

Students interested in learning cha cha, swing, and waltz are invited to attend the dance class held every Wednesday at 8 P.M. in CR 19.

Thus far the dance lessons have been well received and the class will continue as long as interest remains high.

Dried-up Drumm Lake behind the Beef Unit awaits buckets of rain to fill it enough for the Bio. Sci. Department to stock it with bass.

Campus Anglers Want Rain; Bass Planting Depends On It

by Barbara Harp

Farmers are not the only ones hoping for rain; would-be campus fishermen are adding fervent pleas to the weatherman. Once Drumm Lake, an irrigation water reservoir back of the Beef Unit, is filled by winter run-off, it will be stocked with bass under the direction of D. H. Thomson of the Bio. Sci. Department. It all hinges on the rain.

Music Hour Features Russian Selections

Tomorrow's classical music hour will feature music of Russia.

Some of the selections to be heard are: Khatchaturian's "Sabre Dance" and "Fire" from Gayane Ballet Suites, Moussorgsky's "Night on Bald Mountain," Borodin's "In the Steppes of Central Asia," Cimarosa's "Concerto For Oboe and Strings," Milan's "Pavane and Gigue."

"Attendance has been good," says Kay Williams, Activities Adviser. She added that people are needed to help with future music hours. Those who are interested can see her in the ASB office. Students Louis Moyer and John Ellis are in charge.

If and when the liquid contents of the lake warrant the move, fat-headed minnows will be placed in the water as the first step towards stocking a fish haven. The minnow feed on micro-organisms available in the water such as algae and bacteria, and in three or four months begin to multiply and replenish the pond, forming excellent bass food.

At the opportune moment, large-mouthed black bass will be introduced to this food source. By next fall they should attain size ranging from 10-12 inches, says Thomson.

"Drumm Lake is an experimental pond," explained Thomson, "designed to demonstrate that farm ponds can serve a number of uses in water and soil conservation, irrigation purposes, produce food, and provide a means of recreation. It is just one aspect of the multiple use concept of land becoming more prevalent every year."

James F. Merson, head of the Ag. Eng. Department, first stocked the pond in the late 1940's, and the Bio. Sci. Department has handled it since 1950.

Campus students and staff will be allowed to use the pond for fishing purposes, subject to regulations of the Fish and Game department, after it is stocked, says Thomson.

Forty-Niners Dump Mustangs In Last Period Avalanche

Though the slogan of "win a few, lose a few," may be applicable to many teams in many different sports, Cal Poly's Mustang basketball squad could change the slogan to "win one, lose one." Latest entry in the loss column came Saturday night as the Mustangs, who led by a one-point margin with five minutes remaining, dropped to the Long Beach State 49ers their third CCAA league encounter to the Long Beach State 49ers, 72-58, on the winner's court.

The Mustang's newest slogan comes about as a result of dropping a league outing to Santa Barbara then defeating Los Angeles State on their next outing, the following night. Loss number two came at the hands of the San Diego State Aztecs, while winning against the Westmont Warriors prior to the Long Beach State tussle, Saturday night.

Should this newest theory prove valid, Cal Poly is scheduled to knock over defending champion Los Angeles State Saturday night in the southerner's new 5,000 seat gymnasium, and drop their non-league affair with Occidental here Tuesday.

In Saturday's affair with a mediocre crowd of 400 persons in attendance, the Mustangs, content to play a slow-deliberate type of game, outscored the 49ers 28-20 in the first half of play. The second half saw the Mustangs maintain their slow pace, while Long Beach, with pint-sized guard, Hank Salcido, a 5.8 point-per-game average scorer, and Ron Stewart both plaguing Mustang defenses. Both Salcido and Stewart nabbed 21 points for the winners.

With 5 minutes and 37 seconds left in the game, the Mustangs had a one-point lead, control of the boards, and five calm plays. (continued on page 4)

Mustang Boxers Drop 6-3 Nod To Talented Idaho Mittmen

Mustang Boxing Coach Tom Lee's charges ran into a talented bunch of coyotes Saturday night in Caldwell, Idaho, which saw the College of Idaho boxers, blessed with several AAU Golden Gloves and National Collegiate Champions, nip the Mustangs 6-3. Lee called the Coyote squad, coached by former Mustang athlete, Vic Bucola, "a terrific club, loaded with talent."

The Coyotes wasted no time, sending out 1957-58 New Jersey Golden Gloves champion Larry Brown against Mustang Jerrold Gebbie in the 119 pound division. Though Gebbie proved a game competitor throughout, Brown's experience paid off with a unanimous decision.

Mustang newcomer, Marty Sykes, making his debut for Cal Poly in the 135 pound class, came up with a tough customer in the form of Nick Spanakos, National Collegiate Champion in 1957. Though Sykes' inactivity since his Marine Corps action seemed apparent in spots, Spanakos had no easy time grabbing the nod from the promising Mustang.

Veteran 180 pound Mustang, Freddie Martin, decisioned Coyote Roscoe Maddox in a counter-punching duel with Martin gaining the upper hand in the final round.

The Mustangs forfeited the 147 pound class to Coyote Eddie Sautedo.

Harry Long, ex-Golden Glove from Michigan, found Mustang veteran Sam Marques more than he could handle — with the Mustang 155 pounder taking a unanimous decision.

Coyote Ron Duffy and Mustang Duane Keck provided Idaho fans with a take-off on the Mutt-Jeff routine, as Duffy, a 6 foot 4 inch giant, and Keck, 5-10, both threw plenty of leather. Keck finally succumbing to his opponent's height advantage.

In the heavyweight class, Mustang Bill Bacchi defeated Coyote Jerry Williamson. Bacchi, undefeated in two outings to date, equaled his flashy performance against the Twelfth Naval District one week ago.

In the evening's final event, usually reserved for the heavy-weight match, local favorite Pete Spanakos, Coyote 182 pounder and 1959 National AAU Champ and Pan American boxing representative, met Mustang Tim Wellman who's major claim to fame came as a result of winning the recent Cal Poly Novice Boxing Tourney. Spanakos was supposed to come out and commence to

El Mustang Sports

methodically tear Wellman apart, but something went wrong with pre-fight plans. Though Spanakos won, Wellman, with apparent indifference to Spanakos' list of laurels, stood toe to toe with the champ for three rounds. Wellman received a standing ovation from Coyote fans after the match.

Sportshorts

According to Intramural Basketball Commissioners, Carlos Gonzales and Bob Johnson, the 1960 intramural league won't get off the ground until Feb. 1, due to the mechanical difficulties with the bleachers in the new Men's Physical Education Building. Until the bleachers are fully operative, only one court is available.

New schedules, based on the Feb. 1 opening date will be in the hands of team managers tomorrow.

The new facility will be open for practice through Thursday of this week for aspiring intramural roundballers. Any questions regarding intramural basketball should be addressed to Gonzales, box 1185 or Johnson, box 1855.

Word from Sheldon Harden's wrestling stables finds the match with Chico State, scheduled for next Saturday in the New Men's Physical Education Building, rescheduled for Friday night, Jan. 29 at 8 P.M. The Mustang wrestlers have proven to be the surprise of the year, since, an expected "green-inexperienced" club has lost but one match in six outings to date.

For the sports fan, who has been exposed to a diet of phoney TV wrestling should present a style wrestling should present a new and enjoyable type of entertainment.

Mustang Baseball Coach, Bill Hicks, anticipating one of Cal Poly's best years to date, will issue gear to varsity lettermen Friday Jan. 29 at 8 P.M.; to varsity candidates on Saturday, Jan. 30 at 9 A.M.; and freshman candidates on Monday Feb. 1, 2 P.M. Hicks is still looking for prospective varsity and freshman horse-hiders. "We need some more .300 hitters and 10 game winning pitchers," added Hicks, while grinning slightly.

Poly Sprinter Second in L.A.

Cal Poly's fleet-footed Olympic hopeful, Vic Hall, notched an impressive second place win last Friday night in the 60-yard dash during Los Angeles' first indoor invitational track meet which was held in the ultra-modern Sports Arena.

A sellout crowd of 12,758 persons witnessed Olympic champ Parry O'Brien better his shot put record by nearly a foot, with a 68 feet, 1 inch effort, in one of the most spectacular events of the new-born winter gathering.

Hall, who owns a list of track records, including two for the Mustangs, was edged at the finish line by Bill Woodhouse of Abilene, Texas. Woodhouse, who ran un-

attached, had a winning time of 8.8 seconds. Sid Gorton, East Texas State's entry in the event emerged behind Woodhouse and Hall to place third.

Cal Poly swine unit each year is regularly visited by 4-H and Future Farmer Groups.

Out Of The Din

Who says the age of chivalry no longer exists?

I for one would like to refute that statement based on the evidence that follows.

"It's still the same old story, a fight for love and glory," Truer words were only spoken once, and that was when George Washington said at Valley Forge, "Would you believe it, I have a cold." All seriousness aside, however, it seems that this "fight" has taken on the form of armed warfare. A few nights ago when the time was fitting to be bedded down for a short winter's snooze, a shrill whistling sound came piercing through the night landing in a crescendo of spattering gravel against a nearby window pane. I sniffed vigorously, detected no odor of "Newmown Hay" and deduced that it was probably safe to venture from beneath my covers into the mysteriousness of the attack. I switched on my radio and dialed Conelrad. Nothing. I switched off my radio. Then it came. The vision of a foreign object hurtling through space and landing in precision on my window, a rock. I switched on my light, and heard from below, "You Are My Sunshine", "Sweet Adeline," and rounding up with several arias from the Kingston Trio at Large.

Of course the offenders were below the wrong window, so I hollered down to them that sweet Adeline inhabited the room two windows down.

So you see dear editor, chivalry is not lost in the past, it may be resorting to primitive culture, but it certainly is not lost. The world will always welcome lovers (as a relief) to chivalrous Raleighs and their Victorias.

A. Lotta Noyse

Bridge Club Beginning

Card sharks and beginners are invited to the organizational meeting of Cal Poly's first Bridge Club to be held in Lib. 118B Tuesday at 4 P.M.

A future meeting time and place will be determined at this time and interested persons are invited to get in on the planning, according to L.P. Stroker, adviser.

Korean Veterans

(continued from page 1)

training should check their own individual termination dates. IF the date is hard upon them, they should consider accelerating their courses by taking additional subjects or going to summer school.

Veterans working days and going to school at night part-time may be particularly hard-put to finish their GI training before their deadline, since their training may extend over several years. They in particular should give thought to speeding up their courses in order to finish in time," says Barlow.

For developer kits its:

makers. Then 49'er Frank Hilyew dropped in a freethrow to knot the score. He missed the second attempt, only to find Marlon Podue standing by to tip in the rebound. From that point on, Long Beach State could do no

wrong; Cal Poly, the opposing Mustang shooters, who hit for another lay 80 percent for the evening, with 18 points. "Jumpin'" Joe Ryceraw, Mustang leading scorer, was held to 11 points, but maintained his rebounding record, grabbing 16, tops for the night.

An announcement
of importance to

ENGINEERING AND PHYSICAL SCIENCE MAJORS

Lockheed Missiles and Space Division is engaged in one of the broadest spectrums of scientific exploration in the country. The Division has complete capability — from concept to operation — in more than 40 areas of science and technology.

Areas of work include: metallurgy; sonics; reconnaissance; computer design and development; propulsion and exotic fuels; space physics; hydrodynamics; the flight sciences; space medicine; manned space vehicles; telemetry; electronics; applied mathematics; operations research and analysis; space communications; reentry; design; environmental and flight test.

PROJECTS—Current major projects include the Navy POLARIS Fleet Ballistic Missile; the Air Force AGENA Satellite in the DISCOVERER program and the MIDAS and SAMOS Satellites; Air Force X-7 and the Army KINGFISHER. PROJECT MIDAS is an early warning infrared system against ballistic missile attacks, based on the use of satellites. PROJECT SAMOS is designed for the development of an advanced satellite reconnaissance system.

LOCATIONS—You have a selection of two of the choicest living areas in the country at Lockheed. Headquarters for the

Division are at Sunnyvale, California, on the San Francisco Peninsula. Research and development facilities are located in the Stanford Industrial Park in Palo Alto and at Van Nuys, in the San Fernando Valley of Los Angeles. Testing is conducted at Santa Cruz and Vandenberg AFB, California; Cape Canaveral, Florida; and Alamogordo, New Mexico.

Together, the Division's facilities occupy more than two million, six hundred thousand square feet of laboratory, engineering, manufacturing and office space and provide the latest in technical equipment, including one of the most modern computing centers in the world.

OPPORTUNITIES FOR ADVANCED EDUCATION—For those who desire to continue their education and secure advanced degrees Lockheed maintains two programs. The Graduate Study Program permits selected engineers and scientists to obtain advanced degrees at the company's expense while working part time at Lockheed.

The Tuition Reimbursement Plan remits fifty per cent of the tuition for approved evening courses for salaried employees who are working full time.

SPECIAL CAMPUS INTERVIEWS

Members of our technical staff will be available on campus for personal interviews on

FEB. 11-12

For appointment, please see your Placement Director now.
