ME Student Wife Chosen As Queen

Monday sees the opening day of Engineering Week at Cal Poly and across the United States. You might say that George Washington was the first U.S. engineer, and that's why those in the know decided his birthday was the appropriate day to start this week-long celebration.

When you have an occasion, you need a lovely lady to add zest to the fun, and Engineering Week has proven no exception. Reigning as Mrs. Engineering Week at Cal Poly is Mrs. Rita Olsen, wife of Ken Olsen, senior Mechanical Engineering major. Mrs. Olsen was selected on the basis of her beauty, pleasant personality, interest in Cal Poly and the interest she takes in her husband's chosen profession.

Rita and Ken were married five years ago and have lived in San Luis Obispo since January, 1957. She is president of the Mechanical Engineering Wives Club and works in the General Office. Mrs. Olsen was sponsored by the Mechanical Engineering Department.

Her first official duty during Engineering Week will be to reign over the Engineering Banquet Thursday, Feb. 25, at 6 p.m. in Lib. 118. The event will be attended by officers of campus engineering clubs and their wives, and the faculty and their wives.

Following the banquet, Frank McCulloch, western manager of "Time," "Life" and "Fortune," will lecture at the AC Auditorium at 8 P.M. on "The Continental Tilt." This talk is open to the general public.

Exhibits by the various engineering departments will be on display throughout Feb. 22-27 during Cal Poly's annual celebration.

Charles Williams, Mechanical Engineering senior, is chairman of Engineering Week; Dick Flaherty, senior printing major, is chairman of the Engineering Council; Charles Davis, acting Mechanical Engineering Department head, is faculty advisor.

CU Record Dance Rescheduled

The "beatnik" party, scheduled for tonight under the sponsorship of the College Union Outings Committee, has been postponed one week. According to chairman, Ralph Oppfelt the party-record dances will be held next Friday to avoid conflict with the Jack Taylor concert.

Ultrasonic Drilling Tool Never Touches The Work

By Drexel E. Richardson
"The slurry is the stuff that does the job," said Jim Curtis, Industrial Engineering senior, during an interview about his senior project, a 500 watt ultrasonic drill.

Curtis, a native of Oroville, Wash., explained that his drill, originally a project of two previous engineering students, operates by a method in which the actual drilling is done by the slurry, tungsten carbide particles in water which are activated by a tool vibrating at 26 kilocycles per second over the material to be drilled.

"There are several safety factors in this machine," he pointed out. "If the slurry flow stops or electrical trouble develops, the power shuts off. Also, a timing device will keep the machine from operating until the output tubes are warm."

Ultrasonic drills have an advan-

MEET "MRS. ENGINEERING WEEK" . . . Rita Olsen, Mrs. Engineering Week, and her husband, Ken, a senior Mechanical Engineering major, smile for the camera before the beginning of "Engineering Week," Feb. 21-27. Rita, chosen for her looks, and interest in engineering, will preside over the ceremonies which start at Poly on Washington's birthday.

Kellogg-Voorhis Dean Tours San Luis Campus

Viewing the instructional facilities and techniques used on Cal Poly's San Luis Obispo campus today and tomorrow is Carl Englund, Dean of Agriculture at the Kellogg-Voorhis Campus. Dean Englund is accompanied by several department heads from the Pomona campus.

Visitors are touring the campus, with special emphasis on the new Agriculture and Social Sciences Classroom Building.

Dean of Agriculture Vard M. Shephard, San Luis Obispo campus, assisted by department heads have outlined a full schedule for the visitors. Assisting Dean Shephard are James Merson, Agricultural Engineering; Lyman Bennion, Animal Husbandry; Harmon Toone, Dairy Husbandry; Edgar Hyer, Farm Management; William Troutner, Field, Truck Crops; Howard Brown, Ornamental Horticulture; Richard Leach, Poultry Husbandry; Logan Carter, Soils Science; John Allen, Veterinary Science; Dan Chase, Agricultural Business Management; Dale Andrews, Teacher Education; Gene Brandlin, Foundation; and Stanton Gray, Field Crops.

Jack Taylor Quartet Brings Jazz To Poly

The Jack Taylor Quartet, plus one, will present a jazz concert at Cal Poly tonight at 8:15 P.M. in AC Auditorium under sponsorship of the College Union Assembly Committee.

Jack Taylor, vibist, recently closed out a successful run at the Pink Elephant in San Francisco. His group is featured on the cover of the current issue of Jazz Guide Magazine, and Taylor himself is guest columnist.

His group includes Atlas Chapman on piano and valve trombone; George McNeil, bass; Smiley Winters on drums; Warren Nunes on guitar, and Taylor on vibes.

Taylor got into music some 14 years ago when he played drums with a band organized by another native Oaklander, Marty Paich. Subsequently he shifted to vibes, obtained his B.A. in music at USC, and played with musicians such as Joe Albany, Teddy Edwards, Helen Humes, and Miles Davis. For the last several years he has been teaching and playing in the Bay area.

Admission will be \$1.00 for ASB card holders and \$1.50 for general admission.

Westinghouse Official To Address Engineers

C.R. Stitt, district construction manager of the Westinghouse Corporation, will address students in the Engineering Division on Tuesday evening, March 1.

Stitt is associated with Westinghouse in the field of Sales Engineering.

His talk will be on "sales engineering" and will be especially directed toward students of electrical, electronic, and mechanical engineering.

Sales Engineering is an area of professional endeavor which should be better understood by engineering students, according to Stitt.

"The challenging and rewarding aspects of this profession are such that the men in these departments should be acquainted with the opportunities offered by this activity," said Stitt.

The location for Stitt's address has not yet been determined.

Poly English Department Plans Curriculum Changes

Training students to become teachers of high school English will no longer be an objective of Cal Poly's English Department at either campus, it was announced Monday by college officials. The discontinuance of the English major will enable the English Department to focus its entire effort on the teaching of communication for the majors of all departments of the College.

No new students will be enrolled as majors in the English curriculum at either campus after the

close of the current academic year June 15. The 30 majors now enrolled in English at San Luis Obispo and the 12 majors at Kellogg-Voorhis will be permitted to complete within a normal time span all requirements of the curriculum which they have begun. No changes in the English Department staff at either campus are expected to result from the curriculum change.

"We have taken the necessary steps to phase out the English curriculum at both campuses for the sole purpose of giving the English Department faculty the single important objective of improving the communications ability of every Cal Poly student," said Vice President Robert E. Kennedy in discussing the curriculum change. "It is our purpose that the English Department faculty members, with the assistance of faculty members in all other departments, will successfully discover and pioneer new, more effective methods for teaching the language skills employers say most college graduates lack."

Communication Stress
"For years President McPhee has been touring the state interviewing top executives and employers of our graduates. Consistently he has reported that business executives say the biggest weakness of today's college graduate is his inability to communicate the knowledge he has."

The problem affects students in all specialized occupational fields, according to a report made last fall by Dr. David Grant, chairman of the English Department, following a six month's sabbatical survey of language communication needs as reported by representative employers in business and industry.

Discontinuing the preparation of high school English teachers was recommended by the President's Cabinet Jan. 28, following submission of a report by Dr. Clyde Fisher, Dean of Educational Services and Curriculum Development. The State Department of Education has approved the action, and the curriculum in English will not appear in the 1960-61 catalog. All courses currently offered by the English Department will continue to be offered in 1960-61 and 1961-62.

Out of Harmony
President Julian A. McPhee discussed the possible elimination of the English major at a joint meeting of the Western College Association and State Department of Education accrediting teams January 20, 1960. The previous Western College Association accrediting team in a report submitted January, 1956, concluded that the teaching major in English seemed to be out of harmony with the basic aims of the institution.

The English curriculum established in 1955 was designed to prepare students to become high school English teachers. Five students have been graduated; none is employed as a teacher. The English Department curriculum's secondary purpose of preparing students for business and professional writing can now be achieved as a result of the expansion of the Agricultural Journalism program to a Technical Journalism program providing instruction for students interested in a variety of journalistic careers.

Funds Approved For New Machine

Six hundred dollars was transferred from contingency to ASB general by the approval of SAC for the purchase of a mimeograph machine at the last SAC meeting Feb. 9. Sub-committee, Bob Eastrom, Shirley Mason and Skip Munsee, weighed the merits of the xerograph and mimeograph duplicating machines and agreed upon the 1959 Gestetner Model 360 mimeograph machine.

Munsee quoted the price of the mimeograph at \$598.82. The Senior Class has donated \$250 to the student body for the purchase of the mimeograph. Other expenses for ink, stencils, correction fluid and miscellaneous supplies were included in the approved recommendation.

According to John Panagakis, the "family plan" admission adopted at the basketball game last week proved successful by an increasing attendance. SAC approved the SAC request for a family plan on a trial basis but may become a frequent policy.

Cal Poly's Blood Bank, which is maintained by the Health Center, is running low. According to Dr. Lovett, the current level is 26 pints and should be 100 pints.

The blood bank needs to reach this level by March. The Chair ruled that this would be a major item of business to be brought before the SAC at the next regular meeting February 23.

Honorary Major Capped By ROTC

Miss Pat Chambers, freshman Elementary Education major, from San Luis Obispo, was capped as Honorary Cadet Major at Cal Poly's ROTC unit Tuesday.

She was escorted for this honor by Cadet Lt. Col. Michael Mosbroeker and was presented with her honorary rank by Col. W. E. H. Voehl, head of Cal Poly's ROTC unit.

Miss Chambers will be the ROTC Battle Group Sponsor for the remainder of the school year, and will preside at all important ROTC functions, including the President's Review, where she will assist with the distribution of trophies and awards.

Col. Voehl was assisted by Cadet 1st Lt. Joe Cotchett in appointing the following girls as honorary Cadet Captains:

Miss Anne Miller was escorted by Cadet Capt. Ronald Reich of Company A, Miss Donna York, was escorted by Cadet Capt. Herbert Lamson of Company B, Miss Julie Holmquist was escorted by Cadet Capt. Charles Dunbar, of Company C, Miss Mary Lou Brosselt was escorted by Cadet Capt. Daniel Suzuki, of Company C, Miss Pat Reynolds, Company sponsor for the Drum and Bugle Corps and Drill Team, was absent.

CU Movie Schedule Changed

The college Union Film Series has announced two changes in the movie schedule this weekend.

The movie will be held Saturday night instead of Friday. It will be "No Time for Sergeants" instead of "Broken Arrow", as previously advertised.

Show times will be 7 and 9 P.M. in the AC Auditorium.

Diet Kitchen Solves Problems For Health Center Patients

Broken jaws, ulcers and allergies no longer pose severe eating problems to ailing Poly students, thanks to the new Dietary Kitchen in the Health Center, according to Dr. Earl Lovett, Cal Poly's new Health Center head.

Dr. Lovett said that these patients need special diets to suit their particular problems.

"For example," he explained, "students with ulcers, diarrhea, allergies or nausea need special attention in regards to diets. Also, in the case of broken or wired jaws, patients can eat only liquid or whipped foods and specific high-protein diets are also required by some."

Basically, however, the meals prepared in the diet kitchen are the same as those in the cafeterias with additions of vitamins and minerals, or changes only as prescribed by the doctors. The only exception to this is the "snack" of juice, milk, or hot drink given to the patients at night, he said. All food used in the diet kitchen is acquired through the Foundation Food Service under the direction of Lloyd Bertram, Cafeteria Supervisor.

Mrs. Bernice Carrington and Mrs. Dorothy Simpson, residents of San Luis Obispo, are the cooks in the diet kitchen. Mrs. Carrington was formerly employed in the kitchen of San Luis Obispo General Hospital, and both women have previously worked in the school cafeteria.

According to Dr. Lovett, students with meal tickets are fed without additional charge, and all others are charged only the regular cafeteria rate of \$2.70 per day. Due to the costs of labor and kitchen facilities, the rate is the same whether the patient has full meals, only liquids, or is on a diet of tea and toast.

Out Of The Din

I have returned from Cal Poly via California Blvd. and am recovering from a vivid example of misplaced authority.

I was stopped by Poly's one man police force after noticing a "right turn only" sign on the outside lane just preceding Foothill and I was instructed in an authoritative tone "right turn only." Since this is the main arterial to and from school and town, I raised my eyebrows in question. I was then commanded, "right turn only until this sign is taken down—Move it!"

Perhaps there was a reason for this. I don't know. However, our noble custodian of order and justice succeeded in irritating me and at least three persons preceding and following me, at which time we turned right as instructed, then promptly made a U-turn and another right turn onto California and proceeded into town as before. As I have mentioned, perhaps there was a reason for this, but in the process there were many frayed tempers and jack rabbit antics, making an ideal setting for an accident.

Perhaps our policeman should enroll in one of Poly's psychology courses.

William M. Kall
Box 1875

Dear Mr. Hughes,

We wish at this time to thank you and California State Polytechnic College for allowing Rich Max to play in our bowl game.

We wish to advise you that Rich was certainly an asset to our

game and was a gentleman, both on and off the field and was a good representative of his school.

Thank you again for your help and consideration and we will more than likely be calling on you for our 1961 game.

Best Personal Regards
Dean Griffing
Executive Secretary

Colleagues Dance Set For Sat.

"Lost Island" is the theme of the dance set for Saturday, Feb. 20, 9:00 P.M. to midnight, at Crandall Gym. The Colleagues will furnish the music and the dress will be semi-formal.

Gene Edwards and Mickey Bergen are co-chairmen of the event sponsored by Heron and Palomar Halls. It was indicated that this dance can not be canceled or moved by any athletic events as have several recent dances.

Business Club Formed

Last Tuesday an organizational meeting was held to plan the setting up of a Business Club.

A committee was formed to study the by-laws of other clubs on campus and to formulate a suggested plan for the Business Club's constitution and by-laws. The group also discussed possible activities and purposes of the club.

Another meeting was set for March 2 at 7:30 P.M. in AGS 241 to discuss and approve a constitution and by-laws. At the future meeting, plans will be made to set up an exhibit for Poly Royal. All Business majors are urged to attend.

Esterbrook fountain pens write with the amazing new miracle discovery—INK!

DON'T BOTHER to have your handwriting analyzed. It probably looks just like your room-mate's. . . . No character at all.

Wait until you come to your senses and buy the smart looking Esterbrook Classic fountain pen—with the point that's custom-fitted for you.

The Esterbrook Classic starts writing instantly—the minute it touches the paper. Feels so 'right' in the hand . . . and looks good, too! Choice of six colors.

Another thing—the Esterbrook Classic always uses ink. You'll like ink once you get used to it. It makes clearly discernible marks on the paper.

Hardenmen In North Journey

Heading North on what promises to be the toughest journey of the 1960 wrestling season, Coach Sheldon Harden's Cal Poly Mustang wrestlers, who tangled with the University of Oregon last night, meet Portland State tonight and defending Pacific Coast Intercollegiate champion Oregon State tomorrow night in Corvallis.

Harden, who was somewhat apprehensive over the 1960 season prospectus has changed his tune as of late. His charges currently sport a 7 win 2 loss record in dual meets, including wins over highly touted San Jose State, Stanford University, and Los Angeles State College.

CCAA ROUNDUP

The fat's in the fire so far as the 1960 CCAA Conference basketball title is concerned. With but two weekends left in league play, both Fresno State and Santa Barbara have lost but one conference engagement.

Over the past weekend, Santa Barbara came up with a pair of clutch wins over Los Angeles State (94-91) and Cal Poly (69-68), the latter in an overtime affair, to come into a contending position for 1960 championship honors. It could be that Fresno's advantage of one more game in the win column could become the deciding factor. The Gauchos must play two games this weekend against CCAA foes: Long Beach Friday night and San Diego State on Saturday night. Both of these frays are away for the Gauchos. Fresno tangles with the always tough Los Angeles Diablos tomorrow night. Santa Barbara and Fresno will collide one week from tonight in Robertson Gymnasium on the Santa Barbara campus in a game which could well clear up the entire situation, unless, of course, the Gauchos should falter on their up-coming road trip.

CCAA LEAGUE RECORDS

	W	L	PTS	OP
Fresno State	7	0	1	505
Santa Barbara	6	0	1	400

Boxers Seek Revenge Against Hornets in Sacramento Tomorrow

After a disastrous 8 1/2-1 1/2 shel-lacking at the hands of defending NCAA champion San Jose State last weekend, Tom Lee's Cal Poly Mustang boxing squad will invade Sacramento State tomorrow night eager to reverse a 5 1/2-4 1/2 decision to the Hornets in Randall Gymnasium on Jan. 30.

Marty Rykes, Mustang 125 pounder, will be out to show Hornet Frankie Reynoso that lightning strikes twice. Rykes decimated the Hornet veteran in their first meeting here.

Mustang 139 pounder, Freddie Martin, destined for PCI stardom this year, will probably meet Sacramento's George Waggoner again. Martin, who is currently undefeated, decimated Waggoner in their first meeting.

Mustang two-year 156 pound veteran, Sam Marques, who drew with NCAA finalist Bill Maddox of San Jose State last weekend, will be out to avenge his loss to Hornet Lynn Martell, in what could be the top bout of the evening.

Tim Wellman, who came to the Mustangs via the novice-boxing tournament route, will probably go against Hornet George Walker in a rematch of their earlier bout which resulted in a draw.

Remember the old days when a juvenile delinquent was a boy who hid back of the barn and smoked corn silk?

Mustang Roundballers Head South

Assuming the role of avengers, Ed Jorgensen's Cal Poly Mustang basketball squad meets the San Diego State Aztecs tonight on the southerner's court. The fact that the Aztecs spoiled the debut of the new Men's Physical Education Gymnasium here some three weeks ago still remains in the Mustang mind.

Though firmly entrenched in the CCAA league cellar with a 1-6 record, the Mustangs plan to pull the Aztecs down with them, since San Diego is 2-5 in the loop win-loss column.

Tomorrow night the Jorgensenmen meet the Pasadena Nazarene Crusaders in a non-league clash, on the southern court.

Intramural Highlights

Twenty-four basketball teams started league play last week in the Cal Poly Intramural Basketball League in the race to the campus basketball championship. Though many lop-sided scores were evidenced, competition appears keen in early season play. Colonial House and Crops seem to bear watching in the Monday (7) league, while Duel Dorm and the Outcasts show class in the Monday (8) session.

Tuesday (7) finds El Dorado the cream of the crop, while the 8 P.M. league seems one of the tightest of the field, with Sonoma showing promise.

Wednesday (7) should prove a toss-up between CAHPER and Diablo, while the late league could go to any of the six teams entered.

Thursday (7) finds the Industrial Engineers a virtual shoo-in. IF they can get by John Panagalis' J Dogs. The late Thursday league looks like a group called the Collegians, headed by Cece Martinez all the way.

Though second game results were not available, diminutive Industrial Engineer guard, Joe Leonard, former San Luis Obispo High School flash, leads individual scorers with 27 markers garnered while his team knocked over Shasta dorm 79-86.

Records Fall in Inter-Squad Swim

With an inter-squad meet providing the stage, Coach Dick Anderson's swim team either shattered or equalled five records last week, two of them on a state level.

Frosh aquaman Russell Poe equalled the state backstroke mark, and broke the Poly pool record with a 1:18 effort, shaving .7 of a second off the old mark.

In the 100 yard backstroke, Frank Brooks broke the state mark, and also set up a new pool record of 58.7 seconds. Equalling the 200 yard freestyle relay, Bell, Cole, Adam, and Childs teamed up to produce another 1:59.1 mark.

According to Anderson, Jack Adam has been making assaults on Gene Lens's 200 and 400 yard freestyle marks, coming within 1.5 and 3.5 seconds respectively.

Frosh Eligible for Varsity Tennis Squad

Through a new CCAA league ruling, freshmen students are eligible to compete in intercollegiate tennis, according to varsity tennis coach, Ed Jorgensen.

All students interested in competing in varsity tennis are invited to meet Monday Feb 22 in room 214 of the New Men's Gymnasium at 4 P.M.

Sign Up For Hearst Castle Tour

Another Hearst Castle tour is scheduled for Sunday, Feb. 28, according to Kay Williams, Activities Adviser. She said, "there will be only one more tour after this one, and it will be in April."

Sign-ups for the trip to San Simeon will begin Monday, Feb. 22, in the ASB Office. Last day to sign up is Friday, Feb. 26, at noon.

The tour costs \$2.00 and the transportation is 80 cents.

New AH Instructor Is Ex-Poly Student

Newest member of the Animal husbandry department at Cal Poly is James R. Flanagan.

Enrollment in animal husbandry has shown such a marked increase the past year that the need for additional staff resulted in Flanagan being placed to assist with horse production and beef cattle range management programs.

Head of the animal husbandry department, Lyman Bennion, says

student interest has increased in horse husbandry. Quarter horses and Thoroughbreds from the Cal Poly Foundation have established a statewide reputation under the guidance of William Gifford, who is in charge of the horse program.

Flanagan is an animal husbandry graduate from Poly and has had experience in ranch work with both beef cattle and horses.

TOMORROW BEGINS TODAY AT CONVAIR / SAN DIEGO FOR YOUNG ENGINEERS AND SCIENTISTS

CONVAIR/SAN DIEGO
ENGINEERING—CONVAIR DIVISION OF
GENERAL DYNAMICS

As an engineering, mathematics or physics major, you will soon be called upon to make one of the most important decisions of your life: *Choice of Association.*

In making that decision, we hope you will choose the aerospace industry and Convair/San Diego. But whatever your choice, the selection of association must be made with meticulous care and keen awareness of what that decision will mean, not only immediately, but in years to come.

To arrive at such an important decision, you will need all the information available to you. That is why Convair/San Diego is suggesting that you carefully read a new booklet prepared for the express purpose of helping you make this vital decision.

Within the twenty-four pages of this brochure, you will find detailed information about Convair, the General Dynamics Corporation, and the work of each group within the Convair/San Diego engineering Department.

Whether or not you decide to discuss your career with us in more detail, we sincerely believe you will be better equipped to make your decision after reading this brochure.

If your placement office does not have a copy, we will be pleased to mail you one. Simply write to Mr. M. C. Curtis, Industrial Relations Administrator, Engineering,
