Student Dismissed For Shoplifting At Local Store

Sentenced to ten days in San Luis Obispo County Jail on a shoplifting charge and permanently dismissed from college last week was a freshman poultry major at Cal Poly, according to Everett Chandler, Dean of Students at Cal Poly. A report filed on the arrest, led federal agents to believe they had located a person involved in a bank holdup in Ventura.

The student was apprehended after entering the local Safeway market and walking out with four cartons of cigarettes under his coat, according to Dean Chandler who received the report from the district attorney's office.

The assistant manager of the store followed the student and asked him about the cigarettes. The youth admitted the theft, according to the report, and a "citizen's arrest" was filed by the assistant manager.

City police and campus security officers accompanied the student from the campus residence hall to the city hall where he was placed in custody.

At the police station a routine report of the arrest was filed. The report, which is available to all law enforcement agencies, FBI included, led the federal agents to believe that the Poly student was involved in the Ventura crime. However, checking revealed that the student was not connected with the bank holdup.

He was released Saturday as nine days of the sentence were suspended. The sentence was ordered by Justice of the Peace Paul K. Jackson.

Activity Snapshots

Due March 1

Deadlines for activity snapshots and pictures of chartered organizations is nearing, warns El Rodeo Editor, Gerry Anderson.

Activity snapshots (preferably the film) must be turned in by March 1. Film can be deposited in the El Rodeo box in the El Mustang office.

Group pictures must be taken by March 15. Reservations to get a photographer must be made immediately as there are only four photographers, Miss Anderson says.

Representatives from the following clubs should check in the El Rodeo office, Ag Ed 216, for an appointment. Clubs still to be pictured are: Ag Business, American Welding Society, Bridge Club, Camera Guild, Chess Club, Chi Alpha, Carinthians, CU personnel and hobbies committees, Interclass Council, Iranian Students, Young Farmers, and Young Republicans.

Campus Hypnotist Helps Smokers Swear Off Habit

"We turn the smoking compulsion into a healthful living compulsion by diet, rest and reduction of tensions through exercises," said Dr. Harry Seales, Psychology instructor, during an interview about the use of hypnosis to stop smoking.

Dr. Seales, who has cured approximately 100 smokers of the nicotine habit, is a member of the Society for Clinical and Experimental Hypnosis, an ethical organization of physicians, dentists and psychologists who use hypnosis.

"Hypnosis with counseling is best. We try to help people understand why they smoke. In other words hypnosis is directed at the cause of the stress or problem," he added.

NEW CU SYMBOL... Polyites witnessed the new College Union Symbol at the Jack Taylor jazz concert last Friday Night. Peter Reita, right, and Kay Williams here explain the symbol to Taylor.

College Union Seal Makes Debut At Jazz Concert

A College Union Seal designed by Jack Charlson and Tom Bragg and built by Peter Reita, will be on display at all CU functions from now on, according to Kay Williams, Activities Adviser.

The three foot high plywood structure has a slot at its base for the insertion of the name of the CU committee sponsoring the particular event.

Fifteen entries were submitted to the CU Board which decided on the design.

The seal has been reproduced on a rubber stamp and will appear as a background on CU stationery and publicity releases.

Since Cal Poly's CU first participated in National confabs, the board has been seeking a symbol. According to Mrs. Williams, this is the first one that has met the approval of the board, and the fact that it is "easy to reproduce makes it practical."

At the Jack Taylor Jazz Concert last Friday, Polyites saw the seal for the first time.

Dean To Attend Workshop

Vard M. Shepard, Dean of Agriculture, will leave Monday to attend a four-day Communications Workshop sponsored by the International Cooperative Administration in Washington, D.C.

The workshop will be held to plan and discuss agriculture services to foreign areas and will consider the content of the various ICA.

Dairy Students Travel To Adohr Milk Farms

Five Dairy Husbandry students spent Saturday, Feb. 20, at the Adohr Milk Farms, Camarillo, assisting at a Western Type Conference sponsored by the American Guernsey Cattle Club and the California Guernsey Cattle Club.

Dahl Waters, Reggie Gomes, Leonard De Ruiters, Don Winters and Lee Hodges left Cal Poly early Saturday morning to assist with the preparation and showing of the cattle.

According to Russell Nelson, Dairy Manufacturing instructor, the students responded to a call for assistance from the breeders at Adohr. Except for lunch, they made the entire trip at their own expense.

Breeders and judges from Utah, Colorado, New Mexico, Arizona, Nevada and California participated in the conference.

Poly Players Sponsor Saturday "Death" Dance

"Death" will permeate the atmosphere of the Collegians Dance in Crandall Gym beginning at 10 P.M. tomorrow night. The Poly Players are sponsoring it and are decorating it in accord with their production of, "Death Takes A Holiday", to be presented next Friday and Saturday nights in the AC Auditorium.

Krystal Pool, dance chairman, reports that the decorations will consist of balloons with a skull and crossbones on them. She is being assisted by Kay Schneider, Ron Morgan, Rich Allen, Gerry Hedgecock, Ilean Raimond, and Tom Crawford.

At one of the intermissions, Rich Allen and Dave Horton who play the roles of the Duke Lambert DeCatoles and Death respectively, will enact one of the scenes from the play.

Tickets can be purchased at the refreshments table. They are 50 cents for ABB card holders and 75 cents for non-card holders.

Homecoming Committee Applications Available

Homecoming chairman Jim Evans announces that applications for membership on this year's Homecoming Committee are now available in the ABB office. These forms are to be filled out and returned to the ABB office by March 22.

There are openings on the following committees: publicity, queens, parade, social, Homecoming dance, bonfire dance, bonfire rally, alumni, hospitality, and registration. Homecoming for 1960 will be held over the November 5 weekend.

S. A. C. Notes

Government, Business Items Give Council Busy Night

The SAC recommendation that Robert L. Spink be appointed Graduate Manager has been approved by President Julian McPhee, according to a letter read by Ed McGrew, student body president, last Tuesday night at the SAC meeting. Spink will assume the duties of the new post on March 1.

New Band Group Plays Dixieland

Members of the Poly Band have formed a Dixieland group that will play as a part of the band at concerts, and as a group of their own for clubs and dinner engagements, according to George Seattle, Cal Poly Band Director.

The members of this group include Cliff Perigo and Steve Ford on trumpet, Dave Stadler on clarinet, and on trombone, Gary Teaklenburg. Lyman Small will be featured on sax and Buell Brown on piano. Barry Larson on drums and Bill Schutte on the bass will make up the percussion section.

The Numbers the group has worked on include "When the Saints Go Marching In," "Under the Double Eagle," and "King Bolon on Parade."

A special number is an original Dixieland concerto, by John Warrington. It includes the songs: "Jazz Me Blues," "Ballin' the Jack," and "Original Dixieland One-Step."

The entire Poly Band is working on a production number featuring five solo instruments, titled "Five Mellow Winds." The quintet number by David Schanks is a tribute to Glenn Miller and will feature two alto saxophones, two tenor saxophones and one B-flat clarinet, all on solo parts.

The Poly Band including the Dixieland group, will go on tour in April, playing for all the high schools in San Luis Obispo County.

Discussion Topic Set For Camp

"How Big Is Your God?" will be the topic for discussion and study at the Inter-Varsity Christian Fellowship camp at Camp Drake, March 26-27.

Students from Cal Poly and UCSB will attend the conference, which is open to all students and is interdenominational. The Rev. Carl Thomas of Lafayette, Calif., will be the principal speaker.

Anyone who is interested in further details may contact Duane Seaburg, president of Inter-Varsity Christian Fellowship at Cal Poly.

ROTC Seniors Receive Special Army Assignments

Three out of 22 Cal Poly ROTC seniors to be commissioned in June have been issued special assignments by the Department of Army in Washington D.C., according to Mrs. Alison Tomlin, ROTC secretary.

Joseph W. Cotchett, Air Conditioning and Refrigeration major, has been assigned to Army Intelligence. Kenneth T. Hashiro and Ronald G. Reich, Electronics majors, were assigned to Army Security.

The remaining seniors to be commissioned have been assigned to Artillery, Infantry, Armored, Engineer, Ordnance, Signal Corps, and Transportation branches of the Army.

Artillery cadets will go to Fort Bliss, Texas, or Fort Sill, Okla.; the Infantry branch school is in Fort Benning, Ga.; the Armored school is located at Fort Knox, Ky.; Engineers school is at Fort Belvoir, Va.; Ordnance cadets will go to the Aberdeen Proving Grounds in Md.; Signal Corps school is at Fort Monmouth, N. J., and the Transportation branch school is at Fort Eustace, Texas.

His Berndt, Finance Committee Chairman, said the Finance Committee is now in the process of balancing the budget and is meeting regularly every Monday night. Meetings are held in Library 304 at 7:00 P.M. Interested persons are welcome to attend.

Finance Committee's first recommendation was from the Board of Athletic Control requesting \$240 be transferred to the State College Gymnastic Meet which is to be held here April 9. Approximated expenses for six judges are \$10 apiece, transportation at \$100 and cost of trophies at \$80. Estimated income from entry fees is \$70 and from general admission is \$60. Berndt stated that the Contingency fund contained \$5,857.96.

Bob McCorkle reported that there are by-laws and constitutions posted outside the ABB office for campus organizations which were approved by the Constitutions and Codes Committee. These by-laws will be submitted to SAC for their approval in two weeks.

The codes and Constitutions from three campus government organizations were presented to the SAC for their approval. The Finance and Campus Radio codes were approved. However, the code for the California State College Student President Association (CSCSPA) was deleted by the amendment to the main motion. Had it been approved, the student body of Cal Poly might be incriminated by the actions of other state colleges who are members of CSCSPA.

McCorkle also presented an application sent to the Donation Drive Committee from a group of students planning to sell tickets financing the production of a movie for a senior architect class. The movie would be used as publicity for the Monterey Peninsula Project and as better public relations for Cal Poly's Architecture Department. The purpose of the Donation Drive Committee is to assist campus organizations in fund drives, so the recommendation was referred back to the Donation Drive Committee for further study. Only recognized campus organizations may conduct drives.

McCorkle pointed out that all donation applications must be in the hands of the Donation Drive Committee seven days before the drive begins.

SAC approved the recommendation read by John Panagakis from the Board of Athletic Control. Requested was a family night program at the last two scheduled home basketball games, Long Beach State and Fresno State. Panagakis said the last family night program brought in \$60 over the estimated income.

The second recommendation which was approved was from the SAC requesting approval of the admission prices for the PCI wrestling, March 4 and 5. Prices for the PCI Friday night and Saturday are 25 cents for children, 50 cents for students and 75 cents for adults. Saturday night admission is the same for children and students, but will be \$1 for adults.

Admission prices for the March 12 basketball game with the Harlem Clowns are \$1.25 for general admission, 75 cents for students and 50 cents for children. Half the income will go to the Harlem Clowns, the other half goes to basketball income.

The prices for the 1960-61 football season were approved. Season tickets will be sold for \$10, general admission for \$1.75, high school students for \$1.25, and children 75 cents. Reserved seats for the L.A. State game are set at \$5, the Adams State game at \$2.50, the San Diego State game at \$6, and the Montana State game at \$8.

Newman Club Plans Fun Night

Mardy Zegers, president of Cal Poly's Newman Club, announced a "fun night" slated for Monday night, Feb. 29, in the Mission Gym. It will consist of games of volleyball, basketball, chess, and ping pong.

Aero Student Contest

All Aeronautical Engineering students have an opportunity to win a functional prize by designing a department decal in a contest sponsored by the student chapter of the Institute of Aeronautical Sciences.

The contest is open only to Aeronautical Engineering majors but they need not be members of the I.A.S.

A detailed list of rules is posted on the bulletin board in front of EE 11. The contest closes at 9 A.M. on March 15.

Poly Player Production Uses Love, Death

What would be the consequence if death suspended all activities for three days? What would happen if nothing died? Is death capable of feeling mortal desire? Playwright Alberto Casella, author of "Death Takes A Holiday," to be presented by College Union Drama Committee Friday and Saturday March 4 and 5, at 8:15 p.m. in the A.C. Auditorium; has posed these interesting questions.

The play is based on the poetic concept of Death suspending all activities for three days during which period he falls in love with a beautiful girl, and through her realizes why mortals fear him.

The mood of this play is established with remarkable skill and while it is charged with exciting moments, it is a perfect background for a love-story that is as simple as it is appealing.

Modern Art, Discussion Topic

Jackson Pollock, a modern artist, will be the feature of a double bill at Books at High Noon, next Tuesday in Lib. 118.

A new Pollock biography will be reviewed by R.L. Graves of the Architectural Engineering Department and a movie of the artist at work will be shown.

This will be the last meeting of the Winter Quarter. The next meeting will be on March 29.

Medical Bookwork Vital In Poly Health Program

by J. E. Grundman

"Records are an important part of maintaining any first-rate medical service," states Dr. Earl D. Lovett, head of Cal Poly's new Health Center. "They make it possible to follow a patient's progress and know in what areas particular students have special problems."

According to Dr. Lovett, since most students live a great distance away from home, this college must take a different attitude toward students' health than most, and must divide the health responsibility with the parents.

"It would be financially unbearable if we had to phone or get in touch with the students' parents every time something happened," commented Dr. Lovett.

Because of the fact that students complete health forms before registration, and are given complete physical examinations at the time of admittance, the college has a pretty complete picture of their

health conditions and histories. This gives the doctors some idea of where they stand in reference to various student problems and previous treatments.

"However, even if a student is in the Health Center with only the flu, his previous medical history is checked, and new records are compiled in connection with the physical examination, findings, diagnosis, and treatment," stated Dr. Lovett. "Every student admitted as a bad patient receives a complete physical history check and medical workup in the same manner as if he were admitted to a General Hospital. This medical workup includes chest X-rays, urinalysis, and blood tests."

In order to maintain the high record standards required in the medical profession, all reports and records are viewed by a group of four off-campus specialists.

"The downtown Auditing Committee is not connected with the college in any way, and is very critical in evaluating our standards of procedure and operation," stated Dr. Lovett. "If this group questions the effectiveness of a patient's prescription or treatments, the treating doctor is called upon to justify the action he has taken."

Even after a student leaves college, his medical record is important to him.

"We get at least three or four letters a week from graduates requesting medical histories for employment purposes, or insurance reasons. Occasionally we get inquiries from other hospitals or doctors about medical problems students formerly had. Information or materials such as X-rays exchanged in this manner are of real value both to the patient and the physician," Dr. Lovett explained.

According to Dr. Lovett, student records are kept on active file for at least ten years. After that, they lose their initial significance, and are moved to less accessible storage.

Mustangs in Spoiler Role For CCAA League Finale

With one of the tightest finishes in CCAA basketball history coming up tonight and tomorrow night, the Cal Poly Mustangs, though holding no chance for championship honors, figure as number one villains along with Sax Elliot's Los Angeles State Diablos to determine the ultimate winner of the 1960 season.

Though the Santa Barbara Gauchos are currently leading the six team race with a 7-1 league record, Fresno State's Bulldogs claim a 6-2 mark. The Gauchos and Bulldogs meet tonight in Santa Barbara's Robertson Gymnasium in what could prove to be the game of the year.

Adding to the spectacular finish is the fact that the Bulldogs meet the Mustangs here tomorrow night for both squads' league finale. Should Fresno knock over Santa Barbara tonight, thus deadlocking them with the Gauchos, they must get by a determined bunch of Mustangs here tomorrow night at 8 P.M.

ONE OF MANY outstanding collegiate wrestlers competing in the Eleventh Annual Pacific Coast Intercollegiate Wrestling Association Tourney here on March 4-5 is Autry Ehler, 167 pounder from Portland State College. See PCI Story, Page Four.

Family night will be in effect both tonight and tomorrow, featuring a plan whereby an entire family (kids and all) will be admitted to the game for ONE \$1.25 general admission price. Cal Poly students with cards, as per usual, will be admitted free.

Ed Jorgensen's Mustangs discovered last week that all the breaks do not necessarily go to the opponents all the time, when a fast starting San Diego State squad romped for 28 fast points while the Mustangs were still looking for the right basket last week. The Mustangs came back from the 20 point deficit to win 68-64 in what Jorgensen called "a tremendous team effort."

Tonight's 8 P.M. tilt with Long Beach, though perhaps not as important to the league outcome, should present plenty of action too. Bad news came to Bill Patterson's crew this week, when six 49'ers dropped from the squad because of academic problems.

Mural Shooters Ready For Free-Throw Contest

Though the Cal Poly Mustang basketball squad rounds out its 1960 season schedule tomorrow night against Fresno State, chances are that basketball coach Ed Jorgensen will be on hand to view the Tenth Annual Intramural Foul Shooting Contest to be held in the new Men's Physical Education Building Tuesday, March 1, at 4 P.M.

According to contest director, Rick Novack, there will be many interesting people to meet, watch, and participate against, with possibilities for the largest contest of this type in the offing, since the (continued on page 4)

Matmen Head South For Weekend

Officially ending their 1960 dual match schedule, Sheldon Harden's Mustang wrestlers, after losing three straight matches to three tough Oregon squads, travel to Westwood Village tonight to meet the UCLA Bruins followed by a dual match with Long Beach State 49'ers tomorrow night.

Harden plans to take Frank Garcia, (128), Jim Root, (180), Ken Gardner (137), Hank Lomax (147), G.W. Wingo (167), Ben Paz (167), Dave Dixon (177), and heavyweight Pat Lovell.

Upon return to San Luis Obispo Sunday, the Hardenmen will concentrate on conditioning for the PCI tournament.

PCI Wrestling Tourney Opens Here March 4-5

While Squaw Valley currently can file claim to the title of "Winter Sports Capital of the World",

Cal Poly will become the Western Collegiate Wrestling Capital on March 4-5 when the Eleventh Annual Championship Tournament of the Pacific Coast Intercollegiate Wrestling Association is presented in the new Men's Physical Education Building.

Since its inception in 1949, with ten colleges entering for the first tourney at the University of California in Berkeley, the attraction has expanded to its present size and will feature a record-breaking 28 colleges and universities entering outstanding wrestlers in the two-day event.

28 Colleges Enter
In addition to defending PCI champion Oregon State, and 1958 champion Cal Poly Mustangs, the tournament will feature grapplers from the University of Arizona, University of California at Los Angeles, University of California at Berkeley, Lewis and Clark College, University of Oregon, Portland State, San Diego State, San Jose State, San Francisco State, Southern Oregon, Santa Clara University, Stanford University, University of Washington, Washington State, Oregon College, Pacific University, University of California at Davis, Long Beach State, Chico State, Seattle Pacific and Los Angeles State.

Harden Tourney President
Cal Poly Wrestling Coach Sheldon Harden, in addition to coaching the Mustangs in the tournament, will assume the role of the 1960 PCIW President, with Bill Tomaris of the University of California as Vice-President.

The winners in the ten weight classifications will be eligible for the national intercollegiate to be held at the University of Maryland in Baltimore on March 24 through 27. Weight classes are 115, 125, 140, 155, 175, 190, 215, and heavyweight.

Pre-tourney favorite appears to be defending champion Oregon State, with three defending PCI champions in Mita Tamura, 115 pounds, Frits Fivian, 167 pounder, and Don Conway, 177 pounder still intact. Portland State, with defending 125 pound champ, Gary Hennlund plus outstanding 167 pounder Autry Ehler in the fold should press the Beavers throughout the tourney.

Cal Poly's hopes ride on 147 pounder Hank Lomax; G. W. Wingo, 157 pounder; 191 pounder Ken Roberts who is currently injured; and heavyweight Pat Lovell.

Harden plans to use three mats simultaneously, starting at 2 P.M. Friday, March 4, with the preliminary round matches, giving way to the quarter finals Friday evening at 7 P.M.

Saturday will feature the semi-finals at 2 P.M., with the finals coming at 8 P.M. Saturday night, March 5.

College Scrap Book Finished

A College Union scrap book depicting the history of Cal Poly in pictures is completed, says Kay Williams, activities adviser. The book contains five years of College Union activities.

Mural Shooters Ready

(continued from page 3)
new gymnasium affords more space, hence more participants.

No college varsity letter winner in basketball may participate in the contest. Contest deadline ends at 5:30 P.M. Tuesday, March 1. The ten men with the highest scores (most baskets made in twenty attempts) will compete in the finals Wednesday, March 2, at 4 P.M. Finalists will forfeit if they do not appear prior to 5:30 P.M. Wednesday.

Winner of the event will receive a trophy.

In Maryland it is illegal for a woman to go through her husband's pockets at night. In other states it's just a waste of time.

JV Baseball Here Today-Tomorrow

Though coach Bill Hicks' Mustang horsehiders are busy testing the Stanford Indians on the northern reservation today, he hasn't completely forgotten the local baseball fans. Remaining home to open their baseball season on Mustang Diamond, the Mustang Junior Varsity of Coach Jerry Linell will host Santa Barbara Junior College today at 2:30 P.M. and Porterville Junior College tomorrow at 2 P.M. while the Hicksmen meet USF in the bay city.

Collins, normally a mainstay on the Mustang pitching staff, will probably get the nod from Linell for starting mound duties this afternoon, with Ken Eagleman

behind the plate. Bernstein, in addition to showing fancy ability at first base, has displayed power at the plate in two practice games to date, belting home runs in each appearance. Jerry Williams, brother of All-Conference outfielder, Bob, currently with the Mustangs, shows promise of duplicating big brother's feats in the past three seasons.

CONVAIR-POMONA... in Southern California

offers NEW PROGRAMS with excellent opportunities today for Engineers. Convair-Pomona, created the Army's newest weapon, REDEYE, Shoulder Fired MISSILE and developed the Navy's ADVANCED TERRIER and TARTAR MISSILES and many other, still highly classified programs.

Positions are open for Bachelors, Masters and Doctorate candidates in the fields of Electronics, Aeronautics, Mechanics, Physics, Industrial Engineering and Business Administration.

ADVANCEMENT opportunities are provided for the competent engineer as rapidly as his capabilities will permit in currently expanding programs.

PROFESSIONAL ENVIRONMENT—CONVAIR-POMONA'S facility is of modern design and completely air-conditioned. You will work with men who have pioneered the missile industry and are now engaged in some of the most advanced programs in existence.

ADVANCED EDUCATION—Tuition refund is provided for graduate work in the field of your specialty. Company sponsored in-plant training courses offer the Engineer the finest of educational opportunities.

CALIFORNIA LIVING—Suburban Pomona offers lower living costs and moderate priced property, unexcelled recreational facilities, freedom from rush hour traffic and the ultimate in comfort and gracious living.

Contact your placement office immediately to secure yourself of a campus interview with Convair-Pomona. March 3 & 4

If personal interview is not possible send resume and grade transcript to S. L. Olson, Engineering Personnel Administrator, Dept. CN-407 Pomona, California.
