Fall Parking Fee Will Be Compulsory

Baaaaa. . . .

THIS GUY'S NO APRIL FOOL . . . he's got his parking space and he'll hang on to it till next year when all on-campus residents will have to pay a parking fee whether or not they drive a car. This fee will come under housing costs.

Beginning Fall Quarter 1960, resident students will pay a \$9 parking fee whether they drive a car on campus or not, according to Harold Hayes, Dean of the College.

This policy will be in effect for students living in the new residence halls being built on state college campuses throughout the state, said Hayes.

The fees will go to partially pay for the new parking lots being built.

Construction will begin on 1000 new parking spaces to accommodate the additional on-campus students anticipated with the opening of the new residence halls.

Students living off campus will be required to pay the \$9 fee only if they drive a car on campus.

Instructor Will Run For State Senator

Thomas P. Nolan, Social Science instructor, has expressed his intention of filing for the office of State Senator in the 1960 elections. Nolan said he would file for the office, with or without endorsement.

Nolan said he had no illusions about the task of defeating Senator A. A. Erhart, and added that he had seen too many endorsed candidates over the past 10 years left high and dry without support after an endorsement was given.

Nolan mentioned Erhart's vote for A.B. 1008, to raise minimum salaries of beginning teacher from \$4,000 to \$4,500. "Since my job is to encourage young men and women to enter the teaching profession, how can I criticize him for voting for this measure?" Nolan asked.

"Sayonara" Theme for First Senior Prom

"Sayonara" will be the theme marking the first annual Senior Prom tonight.

The formal affair will be held from 9 P.M. to midnight in Crandall Gym with the Collegians supplying the rhythm.

Luz Bustos and Wilbur Shaffer, co-chairmen for the prom, announce that the evening will be free to seniors only with dates or escorts. A special choral ensemble will furnish the entertainment.

Army Show Pegs Atomic Defense

"This Is The Army"—an official U. S. Army exhibit showing how the Army is helping to solve the complex problem of providing an effective Atomic-Age National Defense—will be displayed at Cal Poly, in Library 118, April 3-5.

According to M/Sgt Henry Bradley, instructor in Military Science and Tactics, the exhibit, on a nationwide tour of colleges and universities, is presently at the University of Utah. The tour, originally requested for Poly Royal, consists of four men and vans from Alexandria, Virginia.

"This exhibit was prepared by the Army's Chief of Information, Washington, D.C. and is sponsored locally by the Army ROTC contingent on campus," said Maj. A. E. Mariconda, ROTC instructor. "Its purpose is to authentically inform students and the public on the speed and immensity of modern war and to emphasize the caliber and character of personnel required to man the modern Army establishment."

ASB Petitions Due Saturday

"All students holding petitions for student body offices are urged to have them in by Saturday, April 2," said Ed McGrew, ASB President.

Candidates are also reminded of the special candidate meeting Monday, April 4, at 7:30 P.M. in Lib. 118. The purpose of this meeting will be to inform the candidates of all rules pertaining to campaign procedure and the election.

Campaign speeches will be heard at a campaign assembly held Monday, April 11, at 7:30 P.M. in the AC Auditorium.

According to ASB Vice President, Bob McCorkle, plans are well under way for the election Carnival to be held Saturday, April 9. The carnival, to be held in Crandall Gym, will give the candidates further chance to campaign for election.

Hawaiian Luau, Dance Saturday

The Lure of the tropics in the form of a Hawaiian Luau will be presented tomorrow evening by Hui o Hawaii beginning with a roast pig dinner in the Veterans' Memorial Building and ending with a Collegian Dance in Crandall Gym.

The Luau dinner beginning at 4:45 P.M. features Kalua Pig—roast in an underground oven—, Lomi Lomi Salmon, Chicken Long Rice, poi, sweet potatoes, pineapple, coconut pudding, and punch. Island entertainment follows—the meal.

The Luau dance, also with a Hawaiian Theme, will begin at 8 P.M.

Tickets for the dinner are on sale at the ARH office at \$8 per person. The dance has no admission charge.

Dr. Witschi to Speak On Controlled Genetics

Dr. Emil Witschi, professor of zoology, embryology and endocrinology at State University of Iowa, will be the featured speaker at the annual Sigma Xi lecture sponsored by the Cal Poly chapter tonight at 8 P.M. in Ag. Engineering, Room 128.

Activity Building Plans Outlined at SAC Meeting

"We're as close now as will ever be to having a college union," announced Dan Lawson, Associate Dean of Activities, at the Student Affairs Council meeting Tuesday. "Approximately \$800,000 has been accumulated by the book store for the building of a new book store. This building would have

Printers Hustle New Machinery

The Printing Department has been busy this week with a crew of printing majors providing manpower for the moving of machinery.

All of the activity has been in preparing room for the expected arrival of five new line-casting machines today. The department has been receiving shipments of new machinery for the past month. However, some of the machinery will not go into use until completion of the new Graphic Arts Building in September 1961.

The acquisition of the new machines will mark the largest purchase of printing equipment being installed to date. The expansion is due to the anticipated increase in enrollment in the printing department.

The value of the line-casting machines is \$48,000. The money has been allocated to the department for use in the new building.

"By buying the machinery now, we have saved a great deal of money," according to Bert Fellows, Head of the Printing Department.

More equipment is due at later dates with an Intertype Fotosetter among the new purchases.

ROTC Gets Annual Formal Inspection

The annual formal general inspection of the Cal Poly unit was made this week by a team of officers from the XV U.S. Army Corps from the Presidio of San Francisco.

Col. F. S. Wright, Deputy G-3 of the XV U.S. Corps and head of the inspection team, could not commit himself definitely on the rating of the corps, but said the men were attentive in class and, as a group, made a fine appearance on the drill field. He said the drill team put on a very fine exhibition.

"In other words," said Col. W. E. H. Voehl, Head of the Military Science and Tactics Department, "the ROTC at Cal Poly is carrying out its program."

Every year an inspection is made of the ROTC to determine the merits of the local program. This year's inspection team included, besides Col. Wright; Maj. C. E. Dodson, Deputy G-3 of the XV Corp; Maj. R. E. Rosorth, Chief of Personnel Management Division; and M/Sgt. R. I. Trussell.

Legislature Considers \$10,500,000 for Poly

Appropriations totaling \$10,500,000 for Cal Poly are now before the State Legislative hearing of the 1960-61 state budget.

Of this amount, approximately \$6,000,000 is the capital outlay for the construction of new buildings.

The new structures and allocations are: Engineering Building and equipment, \$8,378,000; Administration Classroom Building, \$1,500,000; Physical Science Building addition, \$610,000; Library addition equipment, \$164,000, and minor projects, \$800,000.

A total of about \$4,500,000 is allocated for salaries, wages and operating expenses.

been underway if the idea for a three story building had not been suggested by President Julian A. McPhee," said Lawson;

According to Lawson, one of these stories would be underground and would facilitate bowling alleys, billiard tables, ping-pong tables, locker rooms, snack bars and a barber shop. The ground level floor would be used by the book store. The second story would be the center of student body affairs, containing ASB offices, the graduate manager's office, work rooms, gang offices and a lounge. This floor would also contain an alumni office and a conference room.

"In addition to this, a building will be constructed from the income of the future book store," said Lawson. "It is probable that this building will contain a ballroom, guest rooms, hobby and craft shops, lounges and a reception center."

It is not known how long it will take to get this additional building. Lawson explained that this additional building will cost an estimated one and one half million dollars.

These two buildings will be up to the student body," said Lawson. "To solve the problem of building costs, raises in student body fees may take place."

Lawson continued, "The raise in the ASB fee would probably be done by a student body election and the raise would need a majority vote from both campuses of Cal Poly."

Lawson indicated that the college would get the new buildings three times faster by this process.

"After the building is constructed, the debt can be paid off by the profits. Bowling alleys, on the average, make \$1000 net income for each alley for each year. Twelve thousand dollars a year can also be made on ten billiard tables. We cannot make this money unless the facilities are there," explained Lawson.

"If the plan doesn't go through and we build a one story building, we have had it," continued Lawson. "One reason the three story building was suggested was the fact that we are getting 'land poor.' It would be very difficult to try to build another story after the building is completed, and impossible to construct the underground floor."

According to Lawson, the three story building can only be possible if the student body approves this plan.

Julian McPhee has been invited to speak on this subject at a future SAC meeting.

SAC also allotted \$750 to send two boxers and one coach to Wisconsin for five days for the National Collegiate Boxing Tournament.

A motion was also carried to grant the band permission to take \$1200 from their reserve fund for twenty women's uniforms. According to Ric Berndt, Finance Committee Chairman, the uniforms are badly needed and more will be needed in the future due to the growth of the band.

SAC granted CSTA and Writer's Forum permission to hold a donation drive.

Phyllis Read was approved as Spring Quarter's El Mustang Editor.

Pre-sale for El Rodeo will close soon, according to Gerry Anderson, editor. Yearbooks may still be ordered in the ASB office.

PROM BEAUTIES . . . Luz Bustos, left, and Judy Markoff prepare for the two "exotic" dances scheduled for this weekend in Crandall Gym. Both the Senior Prom, "Sayonara," and the Hawaiian Luau dance are Collegian dances.

Boots and Spurs See Cable Car Feedlot

The Sinton and Brown Feedlot near Santa Maria was the scene of the Boots and Spurs field trip recently.

Approximately 85 members toured the large feeding operation on an old San Francisco cable car that had been converted to diesel power. The students spent the entire morning touring the lot that feeds out almost 50,000 head of cattle for California markets each year.

DAIRY MANICURE . . . Foxy cows in Poly's dairy herd underwent a hoof trimming operation recently, performed by O. M. Marchel of Visalia. Marchel is a professional hoof trimmer and designed and built the rig mounted on his pick-up. He averages from 35 to 40 head per day. The object of trimming the hooves is to keep toes even and prevent lameness and foot rot which invariably leads to decreased production. As Dairy Department Head Harmon Toome said, "Cows are like people. When their feet hurt, they hurt all over."

Official U.S. Army Photo

STORING A BEACHHEAD 1971 - STYLE . . . Bloody beach assaults will eventually be a thing of the past, as displayed in this new U.S. Army exhibit now on a nationwide tour. This panel depicts warfare in the 1970's, when Commanders will have to think in terms of miles and "kilometers" rather than yards and rounds-per-minute. Troops will be projected into battle zones using three-dimensional transport devices to surprise the enemy with force and suddenness never before known. The exhibit will be displayed here on April 3-5. See story on page one.

Long Lost Volumes Found By Library After Four Years

The Library's recent campaign for the return of a lost reference book resulted in the return of the book, "Twentieth Century Authors", and then some.

Unloading the return box on March 15, Librarian Fred Genthner found six heavy bound volumes of periodicals that do not circulate: two each of Journal of Nutrition, Journal of Dairy Science and Journal of Animal Science;

A typed note in one of the books read: "I took these here six books when I was a former student. I hope you'll accept them."

A check of the files revealed the volumes had been missing about four years.

"This here library does accept these here six books," quoted Francis S. Allen, Head Librarian, "and we're glad the man had an attack of conscience, even if belated."

"Three of the volumes had been replaced, issue by issue, and then rebound, at a cost of about \$5 per volume. The other three volumes we have never been able to replace."

LOST A BOOK?

At least 80 books with no marks of ownership have been left in the library since September, according to Dorothy S. Wright, Assistant Librarian.

Mrs. Wright suggests that students who have lost books contact her in Lib. 216.

'Murder In Cathedral' Topic For High Noon

Murder in the Cathedral, a morality play of the temptation and martyrdom of Thomas A. Becket by T. S. Elliot, will be the topic for Rev. Mr. Walter E. Phelps' discussion on Books at High Noon.

Two weeks ago Rev. Phelps accompanied members of the Cal Poly Canterbury Club to see the San Francisco State College drama department present the play. Previously he directed a reading of the play at the Pacific School of Religion in Berkeley, taking the part of Becket himself. Even earlier, he directed the sound effects for the play for the Company of the Golden Hind in Berkeley and took the part of the First Tempter at one performance.

Nicksmen Open League Against 49'ers Today; Meet Aztecs Tomorrow

Winding up pre-season play with a six win-seven loss record, Coach Bill Hloks' Mustang baseball squad is ready to start the 1960 CCAA baseball league, opening today with a single game against Dick Clegg's Long Beach State 49'ers (6-5 in pre season play) on the southerner's Blair Field at 8 P. M.

Following the 49'er affair, the Mustangs will travel to San Diego for a doubleheader with the Aztecs tomorrow, scheduled for 12:30 P.M. Both games fall under the classification of league outings.

Nicks will probably start veteran right hander Jim Newkirk (8-1) against the 49'ers, while Clegg will start fastballer Mike Hamilton (8-1), Rod Ataip (1-8) and Bill Collins (0-2) will probably gain the nod for the Mustangs in the Atec twin bill. The Aztecs will send veteran Tom Biscotti (1-1) and Bob Imlay (1-1) against the Mustangs.

Long Beach boasts four starters hitting above the .300 mark, including outfielder Roger Hull (.486), who has topped the CCAA league for two consecutive years, while the Aztecs feature the batwork of Dick Solomon (.487), Butch Richards (.384) and Chuck Salbato (.350).

Wielding the heavy sticks for the Mustangs in pre-season play are Bob Williams, Jim Taylor, and Cameron Best. Williams, who hit safely eight times in 18 trips against the Marines last weekend, sports a .365 average, while Taylor and Best boast .357 and .350 averages respectively.

The Mustangs meet the Marines here on Monday and Tuesday in non-league competition.

Mustang Spikers Host Gauchos Tomorrow Tankers Face Fresno Today in Poly Pool

Looking for a conference win, Coach Dick Anderson's swimmers host Fresno State College in Poly Pool this afternoon at 4:30 o'clock.

The Mustangs hold wins over Fullerton Junior College and Whittier but have a loss to Long Beach City College.

Although two of Poly's swimmers didn't place in the National Collegiate Championships held in Dallas, Texas, last week, they both broke school records. Jack Adam broke the 1500 meter freestyle standard held by Gene Lens of 18:34.3. Adam's time was 18:30.2. Frank Brooks shaved three-tenths of a second off his old 300-yard butterfly mark of 2:14.4.

Judging from Fresno's loss last week to Long Beach State, Anderson feels that his charges could beat the Bulldogs today.

Mustang entries: Francis Bell and Allen Starr, individual medley; Dale Owens and Brooks, butterfly; Courtney Childs, Jim Olsen, Larry Cole and John Carr, sprints; Bob Marsh and Adam, distance freestyle; Russ Poe and Cole, backstroke; Lance Goodwin and Tony Gray, breaststroke; Mike Francis, Bruce Allen and Dick Hoffman, diving.

After dropping a close 68 1/2-62 1/2 decision to Fresno State last Tuesday, Mustang Track Coach Walt Williamson flatly states that: "We won't lose another track meet this year, and I'm including the CCAA Conference Championship meet scheduled for San Diego on May 7."

Williamson's 1960 trackmen will host the Santa Barbara Gaucho squad on the Mustang oval tomorrow afternoon at 1 P.M. in a repeat performance of the meet held in Santa Barbara last week which saw the Mustangs nip the Gauchos 29 1/2 to 24 1/4, though both squads succumbed to a strong UCLA Bruin team in the triangular affair.

Williamson, still smiling over his proteges' nine first place efforts (out of 18 events) in Fresno, plans to turn speedster Vic Hall loose in the 220, 440 and as anchor man on the one-mile relay squad. Hall turned in a 20.8 second 220 in Santa Barbara for the nation's top collegiate time. Only Ray Norton of the Santa Clara Valley Youth Center holds a better time (20.7) which tied the world record in this event.

Mustang Co-Captain, Louis Rodriguez, will be out to better the school record in the mile event (4:22), while two-miler Jack Woodford, who has broken the school record (9:47.8) in each of three outings to date, plans to establish another record.

Expected "Big Guns" for the Gauchos will be Hank Vleser, who broad jumps 24'10", and sprinter Dave Braker, who turns a 9.8 century.

Santa Barbara holds wins over Los Angeles State and Long Beach State, while dropping contests to UCLA and the Mustangs, while the Mustangs have defeated Santa Barbara, Arizona State of Flagstaff, and Pomona, while losing to UCLA, University of Arizona, and Fresno State.

Aztecs, 49ers Test Mustang Gymnasts

Cal Poly's gymnasts travel to Long Beach Friday to participate in a 7:30 P.M. triangular meet with Long Beach State and San Diego State.

The meet will be a test for the locals as they prepare for the state meet to be held here April 9.

In the only dual meet this year, Coach Glenn Noble's charges took a win from San Francisco State.

Mustang entries follow: Herman Farlough, rope climb and rings; Marlin Boyson, rope climb; Dalton Sherwood, long horse; Kit Burton, long horse and parallel bars; Wilbur Silva, free exercise and parallel bars; John Sewell, all-around; Farrell Cummings, trampoline; Charles Cox, all-around and Julian Branea, all-around.

NEWS BRIEFS

The Federal Service Entrance examination will be given at Cal Poly Saturday, April 9. The examination is primarily a means of permitting young people to enter Federal service. Interested persons should contact the Placement Office.

More than 100 persons attended a joint north-south section meeting of the American Association of Physics Teachers held on campus recently. Featured speakers included Dr. Harvey E. White, nationally known physics lecturer of television's "Continental Classroom" and Dr. Davis Saxon of UCLA.

Speaking from Cal Poly were Dr. Robert H. Frost and Alfred W. Simon.

Following the 49'er affair, the Mustangs will travel to San Diego for a doubleheader with the Aztecs tomorrow, scheduled for 12:30 P.M. Both games fall under the classification of league outings.

Nicks will probably start veteran right hander Jim Newkirk (8-1) against the 49'ers, while Clegg will start fastballer Mike Hamilton (8-1), Rod Ataip (1-8) and Bill Collins (0-2) will probably gain the nod for the Mustangs in the Atec twin bill. The Aztecs will send veteran Tom Biscotti (1-1) and Bob Imlay (1-1) against the Mustangs.

Long Beach boasts four starters hitting above the .300 mark, including outfielder Roger Hull (.486), who has topped the CCAA league for two consecutive years, while the Aztecs feature the batwork of Dick Solomon (.487), Butch Richards (.384) and Chuck Salbato (.350).

Wielding the heavy sticks for the Mustangs in pre-season play are Bob Williams, Jim Taylor, and Cameron Best. Williams, who hit safely eight times in 18 trips against the Marines last weekend, sports a .365 average, while Taylor and Best boast .357 and .350 averages respectively.

The Mustangs meet the Marines here on Monday and Tuesday in non-league competition.

Alumnus Seeks National Young Farmer Award

Robert L. Smith, 1954 graduate of Cal Poly and winner earlier this month of the title "California's Outstanding Young Farmer for 1960," will compete for a national award in Bakersfield, April 4-6.

Smith, a resident of Buttonwillow, will vie with 50 others who will seek the title of most outstanding young farmer in the U.S. The award will go to four finalists. The event is sponsored by Junior Chambers of Commerce.

New Name Sought By Poly Magazine

Cal Poly's literary magazine, Poly Syllabus, is being replaced by a new publication with a different format, announces Mrs. Elizabeth Anderson, Advisor to Writer's Forum.

This new publication, as yet unnamed, will feature satirical stories and illustrations. A contest will be held to obtain a title, and the deadline for suggestions is Friday, April 9. Entries are to be addressed to Editor-in-Chief Bruce Butsbach in post office box 748.

Poly Sponsors Second Annual Chess Tourney

Entrants from more than 180 colleges and universities throughout California are expected to participate in Cal Poly's Second Annual Inter-Collegiate Chess Tournament.

The tournament, sponsored by the Caissa Chess Club under the auspices of the California Chess Federation, will be held in Lib. 118 during Easter Vacation, April 15 and 16.

Out Of The Din

Dear Editor:

For four years, with seething disgust and impatience at the careless lack of consideration on the part of many inhabitants of the campus—students and faculty alike—rankling in my breast, I have entered El Corral for a cup of coffee or for a suack only to find myself surrounded by a litter of dirty cups, dishes and assorted unclean mementos of previous occupants. Now that my days at the venerable institution are nearing completion, it behoves me to speak out and perhaps clear the tables for future generations of students with a desire for clean eating and coffee-drinking facilities.

Not long ago, as I imbibed a cup of black coffee, I watched a group of six students leave the table in front of me, completely unidentifiable as a table, buried as it was under a welter of cups, lunch sacks, and wadded-up paper napkins. One conscientious student lingered to pick up some of the trash, but, much to my horror, she was advised in a very haughty tone by one of her colleagues, "Don't bother. That's what the boys are paid to do." Apparently 99 and 44/100 per cent of the coffee shop habitués are laboring under the same misconception, for misconception it is.

Upon investigation, I dug up the following information concerning the duties of student help in El Corral. (1) Washing table tops, which incidentally, is nigh on to impossible without the use of abrasive cleanser since they are usually well decorated with math problems and engineering formulae. (2) Wash dishes and work behind the counters. (3) Empty ash trays, fill sugar, salt and pepper shakers and napkin containers. (4) Keep the floor clean and remove debris from the corrals.

Since we at Cal Poly are, allegedly, mature and adult citizens—faculty and staff included—it appears training in respect and

consideration of others has been sadly neglected when a habitue-induced situation persists.

The moral to my tirade is either we who use El Corral should clean up our messy tables as we leave—or a 20 cent cup of coffee will be the only solution to the problem, the extra dime going to

pay student help to bus the tables. Pat Fitzpatrick
