*Today . . .*

## Schedule of Events

### Thursday — April 28

8:00 P.M. Reception honoring Queen Faye Clausen and Poly Royal Princesses and Dr. and Mrs. J. Burton Vasche, Associate State Superintendent of Public Instruction

### Friday — April 29

9:00 A.M. All Exhibits open  
Child Care Center open in Home Economics Department for children 3 to 6 years of age  
Math Contest in Library

10:00 A.M. Opening ceremony, President McPhee's office, followed by wagon tour of exhibits for Queen's party and honored guests  
Horse Show — Bud Collett Arena

10:30 A.M. Ladies' Nail Driving Contest

1:00 P.M. Ladies' Nail Driving Contest

1:00-5:00 P.M. Open House Sequoia Residence Hall

2:00 P.M. Intercollegiate Rodeo — Bud Collett Arena

2:30 P.M. Tennis Matches — Westmont

3:00 P.M. Baseball — Cal Poly and U.C. at Santa Barbara

Swimming Meet — Cal Poly and U.C. at Santa Barbara

3:30 P.M. Nappy Lamare Concert — A.C. Auditorium

6:00 P.M. Carnival Opens — Parking Lot B

7:00 P.M. Synchronized Swimming — Natatorium

7:30 P.M. Agricultural Engineers Banquet — Veterans' Memorial Building

8:00 P.M. Carnival Dance — Crandall Gymnasium

### Saturday — April 30

9:00 A.M. All Exhibits Open  
Child Care Center Open  
Animal Husbandry Showmanship Contest  
Dairy Showmanship Contest

10:00 A.M. Adult Organization and Young Farmer Livestock Judging Contest — North Athletic Field  
Sky Divers — Alratrip

10:30 A.M. Ladies' Nail Driving Contest

Tennis Matches — Cal Poly and U.C. at Santa Barbara

10:45 A.M. Synchronized Swimming — Natatorium

11:00 A.M. - 2:00 P.M. Barbecue — Poly Grove and North Cafeteria

12:00 Noon Band Concert

12:30 P.M. Baseball — Cal Poly and Los Angeles State

1:00 P.M. Synchronized Swimming

Ladies' Nail Driving Contest

1:00 — 5:00 P.M. Open House Sequoia Residence Hall

2:00 P.M. Intercollegiate Rodeo — Bud Collett Arena

6:30 P.M. AIA Banquet — Veterans' Memorial Building

Holla Club Banquet — Breakers — Morro Bay

Printing Alumni Banquet — Breakers — Morro Bay

Press Association Banquet — Anderson Hotel

8:00 P.M. Coronation Ball — Mens' Gymnasium

Western Dance — Crandall Gymnasium

10:30 P.M. Coronation Ceremony

### Sunday — May 1

1:00 A.M. Conclusion of 25th Annual Poly Royal

*Nine Years Ago . . .*

# Campus Greet 20,000 For Weekend Festival

"Education-Experience-Opportunities" is the theme sparking Cal Poly's 28th annual Poly Royal celebration, beginning with the opening of exhibits this morning at 9 o'clock.

The two-day event, Cal Poly's traditional "County Fair on a College Campus," is expected to draw more than 20,000 visitors over the weekend.

Rodeo, barbeque, carnival, dances, banquets and contests are some of the events scheduled. This year's Poly Royal will also serve as the first major open house for \$5,000,000 worth of new buildings and facilities.

Visitors will be able to view displays and exhibits of student endeavor from all three divisions of the college: Agriculture, Arts and Sciences, and Engineering. Exhibits will conclude student projects stemming from Cal Poly's unique "learn by doing" system. The Agricultural Journalism Department will have exhibits displaying the "start to finish" process of producing the student publications.

The Printing Engineering Department will be displaying new typesetting machines, presses, linecasting machines, and offset-lithography equipment.

Interested visitors will be given a chance to test the horsepower rating of their automobiles at the Mechanical Engineering Department display by hooking up to the student-operated dynamometer.

The Dairy Department is sponsoring and the Animal Husbandry soring fitting and showing contests and the Animal Husbandry majors will stage swine and sheep judging contests.

Other interesting features planned to entertain visitors will include a flower show, swimming demonstrations, a baseball game, glass-blowing exhibitions, crops

judging contests, a rodeo tug-of-war, parachute jumping exhibition, and a nail-driving contest for the ladies.

To help visitors see and enjoy all of Cal Poly and Poly Royal, the Home Economics Department offers free child-care services for all children between the ages of two and five.

**PERFECT POISE . . .** Faye Clausen, queen of the 28th annual Poly Royal is up in the air over the big weekend. Queen Faye, 19, is the daughter of Mr. and Mrs. Charles Clausen, Jr. of San Ardo, and a Physical Education major at Poly. Faye will be crowned tomorrow night by Anne Boyson, last year's queen, at the Coronation Ball. Queen Faye will be attended by her court, Princesses Jan Devote, Barbara Rhodes, LeRoy Donaldson and Sandra Jackson.

## Coronation Ball Is In New Men's Gym

Coronation ceremonies for Queen Faye Clausen will take place at 10:30 P.M. Saturday during the Coronation Ball, to be held in the new Men's Gymnasium. The dance will be from 9 P.M. to 1 A.M.

The Collegians, Cal Poly's dance band, will provide the music for the formal affair, according to Vic Stagers, chairman.

About 2,500 persons are expected to attend the Ball. Price of admission is \$2.50 per couple.

The Engineering Division is in charge of the Ball, including refreshments and coat checking.

A total of 91 institutions have competed in the 13 National Collegiate Baseball Championship tournaments conducted by the NCAA.

## State Educator Is Honored Guest

Dr. Joseph Burton Vasche, one of California's top educators, will be official "honored guest" for the 28th annual Poly Royal celebration.

Dr. Vasche is the Associate Superintendent of State Public Instruction and Chief of the California State College Division, State Department of Education.

Traveling from Sacramento with his wife and three children, Dr. Vasche was present at the Queen's reception last evening and participated in the opening ceremonies this morning.

Following the official opening of Poly Royal, Dr. Vasche will make a special tour of exhibits throughout the campus. Also included in his schedule is this afternoon's rodeo and Saturday's showmanship and judging contest in the stadium.

The Agricultural Education Department will host Dr. Vasche at a coffee hour tomorrow afternoon. The Coronation Ball will complete his activities as "honored guest."

Dr. Vasche received degrees from San Jose State College, and Stanford University.

**HONORED GUEST . . .** Dr. J. Burton Vasche, Associate Superintendent of State Public Instruction and Chief of the California State College Division, State Department of Education, is honored guest for the 1960 Poly Royal.

## Accident Victims, Cowpokes Welcome At Health Center

Cuts, bruises, second degree burns, mashed fingers, twisted backs and broken bones are just some of the things that the Cal Poly Health Center may deal with this weekend.

"The rodeo may be the cause of some injuries, but some will just be due to careless accidents, predicts Dr. Earl Lovett, head of the Health Center.

"No organized plan or program has been planned for the Center for this weekend, however, visitors are welcome to stop in and the staff will be glad to show them around if it doesn't interfere with patients."

Some of the facilities that visitors are likely to see are: the x-ray room, a therapy room with silt baths, diathermy, ultra sound, infra-red, and a muscle stimulator. Guests can also see the 80-bed infirmary with 24-hour nursing care, the kitchen and new licensed pharmacy.

"The Health Center laboratory is equipped to handle most kinds of tests needed," Lovett says. With a 25-man staff and additional part-time help, the center is equipped to handle anything from a common cold to minor surgery.

## Page 1 . . .

**NINE YEARS GROWTH . . .** Campus construction over the past nine years is shown in the two front page aerial views of the main part of the campus. The six new residence halls and the five Mountain dorms, the Men's Gymnasium, the Science Building, Engineering Building, the Mathematics and Home Economics Building, the Agriculture and Social Science Building, the long Agricultural Engineering shops, and in the upper left hand corner, the dairy barns, are the major improvements shown since 1951.

The building program at Cal Poly is still under way with the construction work on the Little Theater (foreground) and the new cafeteria. The Men's Gym, the Math and Home Ec, and the Ag and Social Science buildings were completed this year. The six new residence halls will open for occupancy next fall.

Not shown is the Mechanical Engineering Laboratory, also now since 1951.

## McPhee Will Address Newman Breakfast

President Julian McPhee will be honored guest and speaker at the Newman Club's annual Poly Royal breakfast, Sunday after 9 A.M. Mass, in the Veteran's Memorial Building.

Tickets for the breakfast may be purchased from Dick Jacobs at the Newman House, or any of the Newman Club officers, Kathi Hamlett, Leo Rapp, or Carol Rizzo.

## Poly Holstein Herd Rated Among Best in Nation

"Cal Poly has one of the nation's top Holstein herds," says Dr. H. Rickard, instructor of Dairy Husbandry.

The reason—high fat production average of 804-pounds per year and a milk-production average

of 17,054 pounds per year.

Last month, 42 head were classified by Robert Strickler, classifier for the Holstein-Friesian Association of America. The ratings, often sought, but seldom reached by purebred breeders, was one of the highest ever attained by a college herd.

Rated on conformation, Polytechnic Ideal Corona rated excellent with 90 points. Polytechnic Imperial Beth rated 89 points. "Beth's" two-year-old daughter rated 88 points. "This was only one point from as high as she could go," says Dr. Rickard, "because of the Association ruling that a two-year-old cannot be classified excellent."

When a cow scores 90 or more out of a possible 100 points, she has achieved excellent rating. A very good rating is scored 80 to 84 points, good falls between 75 and 79. The Poly herd has two excellent, 17 very good, and one good. Last year only .7 per cent of the Holsteins classified were rated excellent. The herd average was 84 as compared with the national herd average of 80.

All cows rated must be registered with the Holstein-Friesian Association. These ratings are given to improve the breeding program.

The Board of Directors of the Association authorizes the checks every 14 months, giving animals a chance to rise in rank during each 14-month period.

## Residence Hall Open For Visitor Viewing

Sequoia, one of the new brick residence halls, will be open today and tomorrow between 1 and 5 P.M.

"Guides will be available to answer questions and take visitors on a tour through the lobby, lounge, and recreation room," says Dave Brown, Residence Hall Council chairman. Coffee will be served in the lounge.

Sequoia is one of the six new dorms to be open in the fall.

A typical men's living quarters and a typical coed's room will be equipped and furnished as it will appear in the fall.

**SWOOSH**—Ingvar Hallsteinnsson, javelin expert and Cal Poly printing major, works to make the 220 foot mark by August to be able to represent Iceland, his home country, in the Summer Olympic Games in Rome. His best mark to date is 208 feet. In high school Ingvar broke four Icelandic track records: javelin, high jump, broad jump, and hurdles. In 1958 he won first place in high jump at the Copenhagen, Denmark, track and field championships.

## Iceland Athlete Eyes Printing Career, Summer Olympics

by Penny Gardner

A talented track man and an accomplished handball player with aspirations to work for the United Nations is the portrait on Ingvar Hallsteinnsson, a sophomore printing major.

The 24-year old student is a native of Hafnarfjörður, Iceland and came to Cal Poly because of his interest in printing and as he puts it, "Cal Poly is the only college on the West Coast that offers a major in printing engineering."

Hallsteinnsson says he decided on Cal Poly because, "In this college you learn a lot about all phases of printing. I am highly satisfied with Cal Poly's printing department, and I think it leads to wonderful opportunities in printing. Back home I had to go for four years just to learn hand composition."

"Ingo," as he is known on campus, is already a journeyman compositor. He received this degree from a technical college in his hometown.

In 1956 Ingo worked as a printer in Denmark, and from 1957 to 1959 he worked at home as a hand-compositor.

Ingvar is a member of the Mustang track team and flirts with 800 feet in the javelin throw. His best mark to date is 208 feet, and he hopes to make 220 feet by August so that he can represent Iceland in the Olympic Games to be held in Rome.

"I am in the best condition of my life," smiles the handsome blond athlete, "and I hope that I can improve enough to make the summer Olympics for Iceland."

One of Ingvar's biggest track moments came in the 1956 Copenhagen, Denmark track and field championships when he won first place in the high jump.

When Ingvar was in high school he broke four Icelandic track records—javelin, high jump, hurdles and broad jump.

Ingvar got his real start in the javelin throw when one of his friends, the Iceland champion, asked him to join a three man team. At his first meet he placed second in the javelin.

Hallsteinnsson is a top handball player being a member of his hometown team that won the Icelandic championship in seven of the last eight years. The team, coached by his father, toured Europe in 1957, winning 6 out of 6 during the tour, and 97 out of 100 games during the year.

"Ingo's" father is a Physical Education instructor in Iceland. His mother retired from Home Economics teaching to become a housewife. "Ingo" has two brothers and a sister. One of his brothers is a pressman in Iceland.

"Ingo" enjoys working with his track coach and team mates and says, "They are really a nice bunch of fellows."

**CORVAIR**  
BY CHEVROLET  
**DRIVE IT!**  
**GET**  
**OUR**  
**DEAL!!!!**

A pair of Corvairs recently recorded 27.03 and 26.21 miles per gallon in the 2,061.4-mile Mobilgas Economy Run. That's certified proof that Corvair skimps on gas costs. It saves other ways, too. Corvair is the only U. S. compact car that never needs antifreeze or costly radiator repairs. Come in and drive the compact car that outdoes them all.

### Things Corvair gives you that America's other compact cars can't

Practically flat floor . . . real foot room for the man in the middle. Fold-down rear seat gives 17.6 cu. ft. of extra storage space. Four-wheel independent suspension for a smoother, flatter ride. Rear-engine traction . . . that comes with the engine's weight bearing down on the rear wheels.

You probably realize already that the mileage figures Corvairs recorded in the Mobil-

gas Run are higher than the average driver can expect. But because the cars met every kind of driving condition—rugged mountain grades, long country straightaways, congested city traffic—those mileage figures prove Corvair's inherent ability to save. Operating costs take a nose dive the day you take delivery of a Corvair.

## Aero Engineering Students Design, Construct Glider

The design and construction of a glider by 40 Aeronautical Engineering majors is near completion and will be on display during Poly Royal.

The 40 seniors, comprising about two thirds of Aeronautical Engineering senior class, organized an aircraft company so that construction activities would be co-ordinated. Students acted as engineers, designers, group leaders, and liaison men as well as all taking part in the actual construction. Working groups included landing gear, fuselage, control system, rudder, wing, boom and elevators.

The craft is a single place, intermediate type utility category glider. It will be suitable for any normal glider operation and limited aerobatic maneuvers. The glider is constructed of many materials—its wings are fabric covered wood, the boom is fabricated of aluminum, while the fuselage is preformed fiberglass over a steel framework. The preformed fiberglass forming the nose and fuselage fairings were formed at the Aeronautics shop.

Named "Vagabond," the craft represents the science of flying from its very beginning to the latest developments. A glider utilizes the age-old principles of soaring, originally known only to the birds, while man, in his constant attempts to soar higher and farther, uses his knowledge of engineering, new materials, and new construction techniques to the utmost.

## CU Photo Contest Winners Revealed

Dr. Bernice Loughran, Robert Bouthe, and Richard Dickey, instructor judges in the College Union Photo Contest, have announced the winners in the five divisions. They are: Gordon Geist, humorous; Darcy Staggs, action; John Pili, scenery; Manuel Borges, people; and Al Heller, still life; Urs Sherman, snapshots.

Each of these winners will be awarded a \$2 gift certificate for photo supplies. The grand prize which will be chosen from among the five winning photographs will be a \$5 gift certificate for photo supplies.

The contest was sponsored by the College Union Games and Hobbies Committee in cooperation with the Camera Guild.

The winning pictures will be displayed during Poly Royal.

Phil Wirthman and Pat Pinho each received a deck of plastic pinochle cards for being the top team in the Pinochle Tournament sponsored by the Games and Hobbies Committee.

## Print Shop Features New Machines

Cal Poly's Printing Department will feature a display and demonstrations of new equipment.

The equipment includes several new Linotype machines, a new Ludlow, an Intertype, and possibly a new foto-typesetting machine. In the offset section four new presses will be running during Poly Royal.

Several printing firms also will have displays.

To conclude the weekend Printing Department activities an alumni banquet will be held tomorrow at 6 P.M. at the Breakers Restaurant in Morro Bay, with Harry Ports, Vice-President of the Merchants Linotype Corp., as speaker. Rudy Torres, chairman of the Poly Royal committee in Printing, said that the department expects 150 people at the banquet.

Other chairman are: Ron Banister, display; Robert Howell, guiding; Bill Trimble, clean up; Larry Rolufs, machinery; and Bill Pappadopoulos, carnival.

## English Department Presents Story Of Death Row Dweller

The Valiant, a one act play, will be presented tomorrow at 10:30 A.M. and 2 P.M. in Lib. 114.

Produced by students in the English Department, the play depicts the final hours in the life of a condemned murderer on death row. The play has an unusual and compelling ending.

Included in the cast are Kenta Marshal, George Creelman, Todd Anderson, Pam Reynolds, Don Dewar and Lonnie Allen, Jan Ferry, Bob Murphy, Oliver Cranko and Gerry Hedgecock are all members of the production crew.

## Westminster Plans Weekend Open House

An opportunity to meet the college pastor and members of the Westminster Foundation Board will be given parents and friends of Cal Poly Presbyterians tomorrow at Westminster House.

Fourteen Cal Poly boys, living at Westminster, located adjacent to the campus at 1288 Monte Vista Drive, will welcome visitors at an open house Saturday during Poly Royal from 2:30 to 6 P.M.

## Two Tons of Steak, Chicken Ready for Saturday Barbeque

More than a ton and a half of steak and a ton of chicken will be consumed at the annual Poly Royal barbeque tomorrow in Poly Grove. For those not craving the fresh air, the same menu will be served in the North Cafeteria. Price of the meal per plate is \$1.75.

Barbecue participants will also consume 10 crates of lettuce, five bags of tomatoes, 5,000 French rolls, 250 pounds of chili beans, and 5,000 ice cream squares decorated in Cal Poly's green and gold colors.

One hundred gallons of coffee and 250 gallons of lemonade will be on hand for thirsty diners.

The Cal Poly Band plans an hour and a half of music from 12 to 1:30 P.M. for the enjoyment of barbeque fans.

## Electrical Engineering Features Computers

The Electrical Engineering Department's Poly Royal exhibit will open today and tomorrow in the Engineering Building.

Featuring machinery experiments and demonstrations for the engineers as well as the public in EE-72.

Students will give guided tours of the department's displays, according to Stanley Shillett, Exhibit Chairman.

**TUFF 'NUFF** . . . Student Body President Ed McGrew, Farm Management senior from Hollaville, and President-elect Tom Bragg, Aeronautical engineering major from San Mateo, inspect the rope to be used in the "Aggies versus all" tug-of-war to be held this afternoon in the Bud Collet Rodeo Arena. In this first annual tug-of-war challenge, the Aggies are pitting their strength against the rest of the student body. According to rodeo team captain, Riley Freeman, rodeo spectators will be given one minute "to go over, under, or through the fence" to begin the event, when challenged.

## Mustangs Host Gauchos Today; L.A. State in Pair Tomorrow

Baseball games specifically baseball games played during the Poly Royal weekend, are traditionally of the unusual variety. For non-believers, check into last Poly Royal's baseball game between the Mustangs and Fresno State College. Final score saw the Bulldogs "edge" the Mustangs, 28-1.

Something's gotta give in today's Poly Royal baseball game scheduled for 3 P.M., when the Mustangs host the University of California at Santa Barbara Gauchos in a CCAA League contest. Both teams hold the dubious distinction of holding down the cellar position in the six team league. There's no way to go but up for either squad today.

Should the Mustangs manage to get by the Gauchos today, even stiffer competition awaits them tomorrow at 12:30 P.M. when Jim Reeder's hard-hitting Los Angeles State Diablos roll into town for a doubleheader. The Diablos boast nine men who are hitting above the .300 percentage mark.

Probable starting lineup for the Mustangs today will be Jim Harper, 2b; Wayne Sorenson, cf; Rich Simmons, lf; Bob Williams, 1b; Jim Taylor, 3b; Chuck Giordano, rf; Rally Rounsaville, ss; and Jerry Johnson, c.

Jim Newkirk is expected to get the nod for today's game, with Ted Tollner and Rod Atnip scheduled to twirl in tomorrow's twin affair.

## Splashers Swim Today; Netters Appear Twice

Poly Royal sports fans will get a chance today and tomorrow to watch two squads currently enjoying winning seasons, when Coach Dick Andersen's Mustang swimming aggregation and Coach Ed Jorgensen's varsity netters display their talents on their home grounds.

Anderson's swimmers will meet the University of California at Santa Barbara mermen in the Poly natatorium this afternoon at 8 o'clock. The Mustang swimmers have enjoyed a most successful season to date, with the only "sour note" in their current schedule coming by way of a six-point upset by Long Beach State in the CCAA Championship meet, held in Fresno two weeks ago. Last week the Mustangs knocked over College of Pacific 70-25, winning every event but the individual medley and the 100-yard free style. Frank Brooks and Jack Adam are the Mustangs to watch today.

Jorgensen's tennis team, harrying two losses to a talented San Francisco State outfit, (with ex-Mustang Frank Johnson swinging the most destructive racket for the Gators) has enjoyed a winning season, with talented Rawson Lloyd, Pete Edwards, Mike Moore, Don Lord, Tom Darnell, and Jack Hanford carrying the load for the Mustangs.

## Instructor Beck Titled Father Of 28 Poly Royals

Again this year, Carl "Gus" Beck, will be sharing the spotlight with Cal Poly and Poly Royal.

Beck, now known as "the Father of Poly Royal," has helped the event grow from the original part-day showmanship contest into this year's two-day affair that is expected to draw more than 20,000 visitors from throughout the state.

Beck, originally an Economics Instructor, started Poly Royal in 1938 by encouraging Animal husbandry majors to show their livestock animals locally before taking them to the larger state fairs.

## Dean Will Participate In Michigan Confab

Leon F. Ostoyee, acting dean of engineering, is scheduled to participate in this year's Conference for College and University Educators.

The conference, sponsored by the Educational Relations Section of General Motors Corporation, will be held from July 10 to 22 in Detroit, Michigan.

This is the ninth year of the event, and many prominent colleagues will be represented at the conference, including Cal Tech and the Massachusetts Institute of Technology.

## Whole Campus Gets Audio Visual Aid

Whether you're watching the Soil Science Department's wild life films or listening to music while touring the Architecture Department, chances are Cal Poly's Audio Visual Department is responsible.

The department caters to every need with a large amount of audio-visual equipment. John Heins is acting head of the department and Marcus Gold is service coordinator.

"We have over \$35,000 worth of motion picture projectors and about \$20,000 in films," says Gold.

Departments will have access to 812 pieces of audio-visual equipment during Poly Royal. This equipment includes 45, 16-millimeter

movie projectors, 60 slide projectors, 30 record players, 38 tape recorders, 32 portable screens, 60 microphones, 23 overhead projectors, 28 opaque projectors, and seven cameras.

Audio-visual has six full-time employees and two part-time workers. The production crew turns out slides, film strips, manuals and other teaching aids.

Members of the staff include a full-time photographer, two graphics personnel, two equipment technicians, a technical assistant and an audio-visual specialist.

## Poly Animal Hospital Offers Expert Care

The Veterinary Science Building, located just below the dairy barns, will be open to visitors this afternoon and tomorrow morning, according to Dr. John K. Allen, Head Veterinarian.

Assisting Dr. Allen in the department is Dr. Harry Plymale. Interested college students assist the doctors in caring for campus animals.

The Veterinary Building is a service department offering treatment to college and student-owned animals. The building is equipped with a three-animal stable, four outside corrals, a treatment room, a laboratory, and a sterilization and pharmacy room.

The Veterinary Department, located in section A of the Science Building, maintains classrooms, a laboratory and preparation room for laboratory materials.

# Mustang Galaxy . . .

The idea that All-Americans come from the big colleges and universities doesn't hold water when you take a glimpse of the national honors bestowed on Cal Poly athletes in the past few years.

Although the Mustangs can claim no championship teams this year, a number of individual stars, some shown on this page, have shown championship performances.

Gaining national recognition twice in two years have been guard Carlos Gonzales of Coach Roy Hughes' football team, and Gene Lens of Coach Dick Anderson's swimming team. Gonzales has been a Little All-American selection twice, and was joined by center

Rich Max on this year's team. Lens was named an All-American swimmer in 1958 and again in '59.

Footballer Curt Hill, who will return for another year, was named a Mid-Bracket All-American end for his standout performances on Hughes' grid squad last fall. The football Mustangs registered a 6-3 win-loss record.

Forward Joe Rycraw, mainstay of Coach Ed Jorgensen's cage squad, entered Cal Poly's charmed "800" circle and also was named to a first team berth on the all-CCAA team this year. Rycraw dunked 848 points for a 14.5 average.

(Continued on page 7)

## CONGRATULATIONS

to our many Cal Poly  
friends on their big  
28th Annual

**PARK FREE ACROSS THE STREET**

**IN STEP**—Cal Poly's relay team has been the talk of the West Coast this season. This quartet has been consistent in breaking standards at every outing. They took a full second off the school mile relay mark, running the distance in 3:16.9. Left to right above are Vic Hall, Marshall Kulju, Dennis Hester and Louis Rodriguez.

Photographs for the Poly Royal issue taken by Steve Ryan, Ken Seibel, Frank Jacinto and Mr. John Kenley.

**ALL AMERICAN**—Mustang 139-pounder—Freddie Martin placed Cal Poly's name in the inter-collegiate boxing world, grabbing All-American honors. Martin, who ended the 1960 boxing season with a 7-1 win-loss record, was edged in the NCAA National Boxing Championship finals in Madison, Wis., winning second place honors in the tournament.

**GLUE FINGERED**—In addition to All CCAA laurels, Mustang end Curt Hill received a bevy of All-American honors this year for his outstanding work for the Mustang gridgers. Curt was named to a first-string berth on the Williamson All-American list. He'll return next year!

**ROPE CLIMBER**—Mustang rope-climb specialist Herm Farlough displays the form that won him the California state college crown this year. Farlough, who is a member of the All-American Gymnastics team, has hit the ceiling in a top 3.5 seconds.

**JUMPIN' JOE**—Recipient of All-CCAA first-string laurels, Mustang basketball forward Joe Rycraw joined a group of ex-Mustangs in the "magic 300 Club" this year, accumulating a total of 348 points in 24 games for a 14.5 point-per-game average. Joe averaged 12 rebounds per game. He will be back next season.

**NEW PROS**—Pictured above are the "terrible twins," Carlos Gonzalez and Rich Max, 1959 Mustang football co-captains. Gonzalez, 230-pound tackle, was twice awarded honorable mention in the UPI major college Little All-American poll. Max, a formidable 250-pound center, also received honorable mention in the UPI poll, as well as special mention in the Williamson All-American poll. Another Mustang, end Curt Hill, paced on the Williamson first team. Next season both men will be gone, and possibly facing each other on the gridiron. Gonzalez has signed with the Los Angeles Chargers, while Max inked a contract with the Oakland Raiders, both of the newly-formed American Football League.

**PCI CHAMP**—Heavyweight Pat Lovell, 1960 Pacific Coast Intercollegiate wrestling champ, is shown practicing with frosh wrestler, Al Marinal. Lovell, who took the PCI crown in 1958 also, regained the title this year, defeating Oregon's Gary Eilandson on a referee's decision in the final match of the PCI tourney held here. Lovell, known affectionately as "Toggie" to his fans, went on to place fourth in the National Amateur Athletic Union Tournament, the highest placing collegian in the meet.

## ... of Stars Brilliant in 1960

(Continued from page 6)

The team recorded a 15-9 win-loss record.

Veteran boxer Fred Martin was an All-American at 180 pounds this year but was defeated in the NCAA finals. He posted seven wins against a single loss while the team record was 1 win, 6 losses and 1 draw.

Pat Lovell won the Pacific Coast Intercollegiate wrestling crown again this year, a title he held in 1958. He is also a four-year letterman in football. Coach Sheldon Harden's wrestlers won nine and lost five during the season and took a fifth place in the PCI tourney here March 4-6.

### TRAILER SPACES

Within walking distance of campus.  
Children Welcome—Playground  
Edgemon Trailer Court

Herman Farlough won the rope climb event with a 8.7 second ascent of the 30-foot rope in the state meet held here this month while the team had to settle for a sixth place finish.

The tennis team started strong, winning four straight, and are playing at a .750 percentage clip. The Mustang golfers, meeting stiff

competition, are playing at a .500 speed.

Dick Anderson's swimmers took a second place in the CCAA meet at Fresno recently and are a good bet to win the State College Meet at San Jose State next weekend. Distance man Jack Adam and butterfly master Frank Brooks have both broken records this year.

## ARCHIMEDES

makes another great discovery...

### It's what's up front that counts

You can reproduce the experiment. It's easy as  $\pi$ . (Yes, you can do it in the bathtub.) Assuming that you have first visited your friendly tobacconist, simply light your first Winston and smoke it. Reasoning backwards, the discovery proceeds as follows: first, you will notice a delightful flavor, in the class of fresh coffee or of bread baking. Obviously, such

flavor cannot come from the filter. Therefore, it's what's up front that counts: Winston's Filter-Blend. The tobaccos are selected for flavor and mildness, then *especially processed for filter smoking*. This extra step is the real difference between Winston and all other filter cigarettes. Besides, it's why Winston is America's best-selling filter cigarette.

"Eureka! Winston tastes good...  
like a cigarette should!"

W. J. REYNOLDS TOBACCO CO., WINSTON-SALEM, N. C.

## Poly Sky Divers Fall Over Campus

Cal Poly parachuters will demonstrate sky diving during Poly Royal. The parachuters will jump from a plane over the Cal Poly airstrip, Saturday at 10 A.M., weather permitting.

The jumpers, Norman Larson, Dick Colasanti, Al Sullenger, Dick Asplund, Pat Hinds, Darcy Staggs, Dick Holmquist, Dick Dickinson and Steve Keeney, each has had three to 18 jumps.

Three jumpers from each flight will leave the plane in static line and free fall jumps. A static line is a line from the plane opening the chute as the jumper falls.

Each Sunday-morning the group gathers at the county airport to pack chutes on 40-foot-long ground panels. The jumpers main chute is a back mounted pack. A smaller reserve chute is mounted on his chest.

With three in the plane the aircraft flies to heights varying from 2500 to 7000 feet. The parachuters free-fall to 2000 feet, minimum opening height for a sport jumper, open their chutes and drop onto the target.

The Cal Poly jumpers were trained by Rusty Gorman of Atascadero.

## Engineers Eligible For Tau Sigma Scholarship

Engineering students whose grades are in the upper one-third are eligible for a scholarship made available by Tau Sigma honorary engineering fraternity and Tau Sigma alumni.

The scholarship, worth \$250, is obtained from fraternity dues and donations from alumni. It will be available next fall.

Applicants must follow proper channels to apply for the scholarship. It is not necessary to belong to the fraternity to apply for the scholarship.

Everett Chandler, Dean of Students, was enthusiastic in his commendation for the accomplishment and felt that students who are helping themselves and others through school deserve the highest praise.

"As far as I know, this is the first time that any student group has offered financial aid to fellow students, and I am very proud of their actions. The offer was entirely unsolicited," says Norman Sharp, Tau Sigma adviser.

## Test Your Horsepower!

The Mechanical Engineering Department will open the Strength Laboratory and both levels of the M.E. Laboratory to the public during Poly Royal, according to Charles Davis, Department Head.

In the M.E. Laboratory a out-away Fairbanks-Morse diesel engine and a Chevrolet V-8 engine running a dynamometer will be displayed. The dynamometer will be available to test a visitor's car's horsepower.

The Strength Laboratory features hardness, compression, torsion, tension, and various other tests. Senior students will be on hand to explain and demonstrate equipment at both locations.

Cal Poly is one of California's ten state colleges. Coeducational, it grants the degree of Bachelor of Science in all three of its divisions—agriculture, engineering, and arts and sciences.

**FREE AS A BREEZE . . .** Pat Hinds, Mathematics senior from Bakersfield, demonstrates, in mid-air, the correct sky-diving position when leaving the plane. This "delta" position drops the jumper into a nosedive in which speeds of 170 miles per hour can be attained. By extending arms to shoulder level, the speed can be decreased to 120 miles per hour.

## "Sound and Fury" Presented

"The Sound and the Fury," by William Faulkner, will be presented by a student panel at the May 8 meeting of Books at High Noon, Gale Enstad, chairman, Lonnie Allan, Gerry Anderson, Pat Fitzpatrick, Carol Harris, Joe Leonard, Phyllis Read and Lore Young will summarize and interpret the book in the AC Auditorium.

"Some of my Best Friends are Professors," by George Williams, dedicated to 5½ million college students and their parents, will be presented by Owen Servatius, instructor in the Business Department, and Arthur Stobbs, order librarian, on Tuesday, May 10 in Library 118.

## Fellowship Awarded To Math Instructor

George R. Mach, Mathematics Department Instructor, has been awarded a National Foundation Science Fellowship for a tenure period of 14 months, starting this June.

Mach will study at Purdue University in Lafayette, Ind., for a doctorate in mathematics.

Mach received his bachelor of arts degree from Iowa State Teachers College in 1950 and his master of science degree from State University of Iowa in 1951. He came to Cal Poly in 1954.

## Royal Court Given Formal Reception

Cal Poly Student Wives held a formal reception for Queen Faye Clausen and her court last night in the new Mathematics and Home Economics building with 200 guests in attendance.

President Julian A. McPhee, Student Body President Ed McGraw, members of the faculty and student body officers attended the reception.

Princesses Barbara Rhodes, Sandra Jackson, LeRae Donaldson, and Jan Devoto form the Royal Court for the weekend festival.

The first national collegiate tennis championships were sponsored by the United States Lawn Tennis Association.

## Atlas Blasts Off

**SPACE AGE DEFENSE . . .** United States Air Force intercontinental Ballistic Missile, Atlas, is on display at the Poly airport as part of the Aeronautical Engineering exhibit. The missile was built by Convair Division of General Dynamics Corporation. Visitors are invited to view the powerful Atlas at close range.

## Missiles, Planes Top Aero Exhibit

An Atlas United States Air Force intercontinental ballistic missile, 82 feet long and 12 feet in diameter will be on display for Poly Royal visitors today and tomorrow—near the Aeronautical Engineering department hangar.

The missile, built by Convair Division of General Dynamics Corporation, was trucked here from San Diego. The Air Force has brought from Point Mugu four missiles, which include the Regulus II, the Hull Pup, the Terrier and the Sidewinder.

The Navy and the Army have also flown in aircraft displays.

Helicopters from Fort Ord will also be on display in the hangar.

The first jet to go through the sound barrier will be on display. There were only three of these jets made. One of the planes crashed, killing its pilot, and one is at the Smithsonian Institute. The third will be on campus.

"Industry and College Going Hand in Hand—what students are doing now and what they will be doing when they graduate" is the theme for the Aeronautical Engineering Department Poly Royal exhibit.

Chairman of the Poly Royal activities for the department is Tom McDermott. George Garrels, Lee Chapman, Don Curtis, Bruce Peterson, Al Nelson and Duane Devincenzi.

## Nine Colleges, 100 Cowboys in Rodeo

Two days of "thrills, spills and action packed events" are expected to attract 4,000 spectators to the Bud Colett Arena today and tomorrow for the intercollegiate rodeo events.

Cal Poly's rodeo team, already winners in two intercollegiate rodeos, will host nine colleges with over 100 contestants participating.

A special feature of this year's rodeo will be a "tug-o-war" contest between cowboys and Cal Poly students.

Trophy buckles will be given to winners in calf roping, ribbon roping, steer wrestling, saddle bronc, bareback bronc, and bull riding events. Calf tying and barrel racing are the women's events.

Teams traveling here for competition will be Arizona State University of Tempe, University of Arizona at Tucson, Fresno State College, University of Nevada, Pierce Junior College, University of California at Davis, Cal Poly at Pomona, Hartnell Junior College and Palos Verdes Junior College.

Former Cal Poly rodeo team member, Cotton Rosser, and Dick Pasco of Marysville will furnish stock for the two day rodeo events.

Riding for the Cal Poly team will be Bill Nielson, Santa Cruz; Riley Freeman, Baker, Ore. team captain; Jim Walker, Huntington, Ore.; Jack Sparrow, Danville;

## Dixieland Music Highlights Shows Today, Tomorrow

Masters of "Dixieland" music, Nappy La Mare and his Levee Loungers, will be featured on the Poly Royal program today for those who love instrumental and libbing, southern style.

La Mare will play a concert at 8:30 P.M. in the Air Conditioning Auditorium and will also play for the carnival dance in Crandall Gym tonight.

Familiar tunes such as "Bill Bailey, Won't You Please Come Home?", "Riverboat Shuffle," and "South Rampart Street Parade," plus other selections from his latest album will be played in "Dixieland" jazz style.

Each year during Poly Royal, attempts are made to procure an excellent jazz band to entertain the thousands of visitors. La Mare

and his group are this year's popular choice.

La Mare was a headlined performer in the Jimmy Dorsey and Paul Weston bands before branching out on his own. He is a Capitol long-play recording star and was recently featured on the Ford Startime show with Bob Crosby's Bobcats. Other TV engagements include Bobby Troup's "Stars of Jazz" and a two-and-a-half-year stint with KTLA's "Dixie Showboat."

Standing room only crowds have greeted La Mare at the Preview Club in Chicago, the Theatrical Lounge in Cleveland, the Grandview Inn in Columbus, and Porky's in Fort Lauderdale. He is a favorite of Zardies in Los Angeles and made a 10-month stand at the Los Angeles Palladium.

His latest cross-country tour included engagements at some of the top showplaces of the nation Roundtable, New York; Sheridan Jefferson, St. Louis; and Flamingo, El Cortes and Hacienda in Las Vegas.

## Band Concert Tomorrow

Music for dining, 52 pieces strong, will be provided by Cal Poly's concert band tomorrow at noon during the barbeque in Poly Grove.

The outdoor concert, under the direction of George Beatie, will play a variety of music. Opening with a march, the band will play selections of suites, novelty numbers, traditional band numbers and classics. Suites in their repertoire are "Colorama" and "Deep Purple," "Autumn Serenade" and "White Orchid."

"Deep River Suite", arranged by Frank Erickson, includes such numbers as "Swing Low Sweet Chariot", "Deep River", and "Joshua Fit de Battle of Jericho".

Novelty numbers included in the program are "The Peanut Vendor" by Moises Simons, and "Bandpaper Ballet" by LeRoy Anderson. "An American in Paris", by George Gershwin will also be featured.

Bach's "Prelude and Fugue in D Minor" is one of the classics to be performed by the band.

Officers of the band are: President, Matt Mirko from San Luis Obispo, Vice President, Ernie Brazil from Yreka, Manager, Gary Renger from San Diego, and Librarian, Ed Naylor from Santa Maria.

The Mustang Concert Band, until two years ago an all male organization, now has 15 coed members.

### SPECIFIC TRAINING

Cal Poly prepares its students for managerial, technical, and teaching occupations by training the hands as well as the head, by adding "know-how" to "know-why." The training is specific and practical. Each year of study is planned to prepare the student for additional jobs in the training area of his major department.

Marvin Smith, Hollywood and Dean Rhoads, Tonasket, Wash.

Carla Jean Kaufman and Merna Muller will participate in the women's events.

## Moonglow Is Theme Of Flower Show

"Moonglow" is the theme of the Ornamental Horticulture flower show on display in the Agricultural Engineering Shops.

Three leading California horticulturists, Anna Wahn of Menlo Park, Warren Asa of Pomona and Ramsey Yoder of Ohio will judge the displays and award the trophies for the first three places, plus blue ribbons and honorable mentions.

Unusual entries are anticipated and include displays depicting rockets, long life, youth, Poly colors, East meets West, Morocco and many others.

Other sections include perennials, annuals, roses, blooms from flowering shrubs, and potted plants and specimens.

Ten landscaped scenes by Ornamental Horticulture students will occupy one end of the building.

The nursery will be open Friday and Saturday from 10 A.M. to 5:30 P.M. for guided tours of the greenhouse.

## Visitors Invited To Judge Dairy, Beef Animals

Everyone is a "Monday morning quarterback" or a good "second guesser" at most athletic contests so Poly Royal planners have a new angle.

Visitors will be invited to try their skill at livestock judging. This will be held Saturday, when students show their animals in the dairy and animal husbandry showmanship contests.

Don Bryant, an Agriculture major and superintendent of Poly Royal, commented: "This should be interesting when engineering students get out their slide rules to judge a Holstein or Hereford!"

AT

**BARR'S DRIVE-IN**

Highway 1 at College Square

**SPLASHING IN RHYTHM . . .** The women's synchronized swimming team splashes in graceful unison to the strains of "American Hoo-down" melodies. The aqua show will be presented today at 7 P.M. and tomorrow at 11 A.M. and 1 P.M. in the Poly pool.

## Dairy Students Show in Pavilion

Holsteins, Jerseys and Guernseys, groomed to perfection, will circle the ring in the Dairy pavilion tomorrow beginning at 8:30 A.M. for the Dairy Fitting and Showing Contest.

The 35 Students in the contest began grooming and fitting animals for the show last month. They will compete for awards for the best breed showman and the champion showman.

There will be one class of Jerseys, one of Guernseys, two Holsteins, and a championship contest in which the winners in each class will compete.

Other attractions at the college dairy include a student project exhibit.

## Student Wives Make Dormitory Drapes

Twelve thousand dollars and 2800 yards of material are being used in a dual campus drape-making project. "The 'Women on Campus Work Program' will provide drapes for six new dormitories at the San Luis Obispo campus and four on the Kellogg-Voorhis campus," says John Jenkins, Home Economics Instructor in charge of the program.

The work is being done by Cal Poly wives who are helping to put their husbands through school. They are being employed full time at \$1.25 an hour.

"We are starting the project

with six women but plan to employ between 12 and 15 before the project is completed in July," Jenkins says.

There will be a training program prior to actual work on the project.

"By the time our employees have put the drapes up in the ten dormitories, they will be well-qualified drape-makers," he predicts.

Included in the project are drapes for lounges, recreation rooms, housemother's apartments, and the entrance halls. The drapes will be made of glass fabric.

## Aquashow Will Have Three Performances

The third annual Aquashow will be held during Poly Royal and performances are planned for Friday at 7 P.M. and Saturday at 10:45 A.M. and 1 P.M. in the Poly Pool.

The synchronized swimming group is sponsored by the Physical Education Department and features the Poly Mermaids.

The theme of the show is "American Hoo-down." Sandi Freddi is chairman. Others participating are Lynn Kristic, Sue Atkins, Dianne Smithson, Pat Smith, Sandy Bays, Linda Aborn, Pat Chambers, Pat Owens, Mary Jo Livers, Ann Nelson, Lani Emery, Lee Buscachi, Lillian Thompson, Vicki Porter and Linda Lower.

Jan Madsen will be narrator.

## CSTA Alumni Honored By Education People

Alumni of the California Student Teacher's Association will be special guests of the education department during Poly Royal. Everyone, however, is invited to observe the department displays today and tomorrow. The exhibits will carry out the Poly Royal theme, Education-Experience-Opportunities.

Five specific areas are emphasized in the Education Department displayed in Classrooms 4, 14 and 16. Courses of study are divided between science, language arts, social studies, student teachers, field work observation and agricultural education.

Agricultural education is a program designed to prepare candidates for an agricultural teaching credential. Teaching vocational agriculture has unlimited opportunities as the program is cooperatively arranged between the divisions of Agriculture and Arts and Science.

## Princess Barbara

**BIG ENGINE . . .** Princess Barbara Rhodes from Huntington Park is a Mathematics senior planning to graduate at the end of the summer session. Barbara plans to return next fall for her secondary education degree and then teach high school mathematics. She is pictured here in front of an aircraft engine, one of many on display today.

## College Cowboys Bring Fame to Campus Arena

by Marilyn Harris

Swinging ropes, fast spurring, chaps flying, ten gallon hats biting the dirt, and teamwork is the unique combination of the Cal Poly rodeo team.

College cowboys, riding as a team, have brought Cal Poly world recognition when they won the all-around reserve championship in the National Inter-Collegiate Rodeo Association final ride off in Klamath Falls, Oregon, last July.

Back in 1946, Cal Poly was one of the first colleges in the United States to organize a rodeo team, and have throughout the years built a solid foundation in the college rodeo world. Close teamwork and sportsmanship is a goal that these cowboys live by, helping each other to better their ability as outstanding competitors.

The campus rodeo arena is used from daylight to dark while these cowboys live and breathe the word practice, practice, practice. Stop watches clicking, every time a rope leaves the box to try to make the minutes and seconds less than the best time of the previous rope. Bulldoggers trying for four second stops, and bucking horse riders spurring fast and furious, are every day occurrences with the team.

Through the years the team not only has won honors, but individual team members have won championships in single events.

A tall, lean, rough riding San Jose cowboy rode to the all-around champion cowboy title. Jack Roddy swept up saddles, belt buckles equipment and clothes, for his outstanding riding ability and also captured the bulldogging championship. In regional N.I.R.A. rodeos, Roddy won seven all around titles at the seven rodeos held throughout the western states.

Traveling to a rodeo almost every weekend means nothing to the Cal Poly rodeo team. They traveled more than 8,000 miles during the spring quarter last year, sometimes covering 1500 miles in one weekend. From San Luis Obispo this meant driving all night, riding fast and furious, and driving back to make a Monday morning class. Back in the late 40's rodeo team members flew a privately owned plane to their destination. Aside from being outstanding cowboys, team members must meet college requirements with a C average.

The 1959 rodeo team members started out six in number with alternates for the different rodeos. Starting members included: Bill Nielson, captain, Jack Roddy, Riley Freeman, Ray Bunnell, Fred Gilbert, Bruce Dodson and R.C. Nunes. Representing team members at the Klamath Falls finals were Bill Nielson, ribbon roping world champion, Jack Roddy, Tom Norton, R.C. Nunes and Charles Leavelle.

Three members from last year's

## Trained Chicks Ride Merry-Go-Round

It takes a good egg to win! The egg show will be one of the main features of the Poultry Department's exhibit during Poly Royal.

The youngsters, from one to 80 years of age will enjoy watching trained baby chicks ride the merry-go-round. Chicks hatching in glass incubator also will prove interesting to spectators.

The display, located in the Farm Machinery building, features colored baby chicks and a contest in which students pit the quality of the birds they've raised against one another.

General co-chairman of the Poultry Department's Poly Royal activities are Mike Hill, Fresno, and Dale Leach, San Luis Obispo.

team returned for the 1960 season, with Riley Freeman, Baker, Oregon team captain; Bill Nielson, Santa Cruz and R.C. Nunes, Roswell, New Mexico. Other members of this year's team are Jim Walker, Huntington, Oregon; Jack Sparrow, Danville and Marvin Smith of Hollywood.

So far this season the team has captured two all around championships and an individual championship, won by Walker and a reserve won by Sparrow in the three intercollegiate meets.

## Bronc Buster . . .

**ROUGH RIDERS**—Cal Poly cowboys compete today and tomorrow against nine other colleges in another intercollegiate rodeo. The Mustang Rodeo Team already boasts two intercollegiate wins this year. Rodeo action starts at 2 P.M.

## Metals, Equipment Spark Welding Show

Aluminum extrusions, tensile samples, and aluminum-bronze displays will form the major portion of the Welding and Metallurgy Department's exhibit at this year's Poly Royal.

Besides these displays in the Metallurgy Lab in the Welding Department Building, there will be demonstrations and explanations of such metallurgical equipment as hardness testers, metallographs, mounting and polishing equipment, and non-destructive testing equipment.

In charge of the displays and demonstrations are Cecil Cutting, a sophomore from Palo Alto; Bob Fairbanks, a sophomore from L.A. Crescents; Dick Holmquist, a Calipatria sophomore; and Bob Schieve, a San Mateo junior.

## Tours, Milk Tests Featured At Dairy Department Exhibit

Creamery tours, laboratory tours, milk tests and ice cream will all be part of dairy manufacturing activities today and tomorrow.

The Dairy Manufacturing lab, in Ag & ES 122, will be open to the public. Students will be making milk quality tests and analysis to determine the percentage of butterfat. Ice cream made by students will be on sale at the produce store.

Gary Taylor, junior from Sacramento, is general chairman of the Dairy Department's exhibit. Austin Ollinger and Frank Jacinto, both seniors, are co-chairmen for the event in charge of plant tours. Gary Renger of Chula Vista, junior, will be overseeing ice cream sales. Don Lord, senior from Orange, heads the laboratory tour committee.

The well-equipped dairy laboratory and college creamery is operated under commercial conditions with various dairy products tested, processed, and sold. Deliveries are made to the college cafeterias and student store.

Dairy husbandry and dairy manufacturing are closely related and many dairy enterprises combine the production processing and distribution phases of the industry. Although dairy majors elect to specialize either in husbandry or manufacturing, the curricula are so arranged that a student automatically receives considerable concentration in the other field. Selection of specific courses in biological sciences will provide the dairy husbandry or dairy manufacturing major with the background needed to enter the field of public health sanitation.

Graduates who specialize in dairy production find employment as farmers, foremen, farm managers, feed salesmen, fieldmen, herdsmen, vocational agriculture teachers, and in numerous other positions related to dairy production.

Graduates who major in dairy manufacturing find placement as dairy plant foremen, superintendents, salesmen, dairy inspectors, fieldmen, testers, etc.

The college dairy farm maintains an outstanding breeding herd of the Guernsey, Holstein, and Jersey breeds of approximately 175 head. It includes several national champion producing cows, leading show animals, and noted sires.

Cal Poly's placement service aids students in obtaining part-time employment and in placement at graduation. Students are assigned faculty advisors, and counseling and health services are provided.

## Status Seekers Will Guide Visitors Through Offices

The Business Department "Status Seekers" have set up a sample modern office layout with offices for a president and each of the four divisions of the Business curriculum in the Agricultural and Social Science Room 281.

Labor-Management Relations, Accounting, Sales and Salesmanship, and General Business, the four main fields of business, are shown as modern offices. Guides will explain the operation of the department.

Walter Klemperer, sophomore from Los Angeles, is Vice-President of the "Status Seekers" departmental club, and the chairman for the Poly Royal exhibits. Movies will be shown during the display hours.

Be sure to get a tan,  
Not a burn!

Poly Royal means rodeo time . . . be prepared for the spring sun and pick up your sunburn and tanning lotions ahead of time at Norton's Eagle Pharmacy where there is a complete line of cosmetics and pharmaceutical supplies. This little bit of advice also applies for the spring and summer beach weather.

## Student Classwork Is Electronic Feature

Electronics for the space age themes the Electronic Engineering exhibits in Engineering Building Rooms 84, 86, 21 23, and Classrooms 1, 2, 3, 4, featuring "Student inspired representations" of laboratory and classroom work.

These projects are part of the students' work in electronics, the branch of engineering concerned with the transmission, reception, and utilization of information, and the electronic control of mechanical and electrical operations.

Sandra Jackson is the official hostess for the department today and tomorrow.

Ron Banducci, senior, and Dick North, sophomore, are the co-chairmen for the department's activities. Ray Manning handled the arrangements and Pete Bauer publicity.

Class chairmen are Ted Glasner, senior class; Bob Re, junior class; Bell Werts, sophomore class; and Chuck Stefanetti, freshman class.

## Weapons System Display Is Part Of ROTC Show

The United States Army New Weapons System Display from Fort Ord will be part of the Military Science and Tactics Department display in the Ag. Engineering Building, Room 123 and the parking area behind the building. Paul Downing, First Lieutenant and senior Ornamental Horticulture major from San Luis Obispo, is the student representative from the MS&T Department.

## Poly Royal Is Big Show Compared to 1933 Start

By Jim Grundman

Poly Royal, Cal Poly's Annual "Country Fair On A College Campus" this year celebrates its 28th anniversary.

Poly Royal, often described as Cal Poly's "show window of progress" actually originated on March 31, 1933 when a Farm Management Instructor, Carl G. Beck, got a few senior stu-

dents to prepare their livestock for a local showing before entering the animals in fairs. In this first Poly Royal, students showed a few animals and a small sampling of some of the college grown horticultural products to a small group of Future Farmers of America, an organization that then held a campus charter.

The next year, in 1934, the idea of selecting a queen to reign over the festivities was originated by General Superintendent Bill Owens and Secretary Bill Troutner. Jan Horton, a student at San Luis Obispo High School, was chosen queen.

That same year a group of local horsemen and ranchers got together and decided to stage a horse show. Soon Cal Poly's "ag-gies" were getting all sorts of thrills and practice testing their riding and roping skills. This was how the Poly Royal rodeo was born.

Also, during 1934, the traditional Poly Royal barbecue originated.

Although the original theme of Poly Royal was agriculture, by 1937 Cal Poly's Engineering Division had entered the picture with an exhibit. In 1938 college officials decided to make Poly Royal its official "open house."

In 1941, the Poly Royal Board of Directors decided to invite coeds from other colleges to be queen for the event. This idea of a "guest queen" was met with a great deal of interest and enthusiasm, and until 1957, when Cal Poly became coeducational, this method of selecting a "campus queen" was used exclusively and proved successful.

The "borrowed" queens came from all over the state, ranging from San Diego State to Humboldt State, a college just below the Oregon border.

The first "local" queen, chosen in 1957, was pretty Val DeGues, an Elementary Education major.

In 1944 and 1945, during the war, Poly Royal was temporarily abandoned. However, in 1946, the Poly Royal tradition was revived, and fittingly enough, this first post-war Poly Royal was dedicated to former students who gave their lives for their country during World War II.

An interesting comparison between the first Poly Royal and last year is that in 1933 there were under 50 students connected with Poly Royal exhibits or events. Last year, all of the college's 4000 students participated in some way with the events during two-day festivities.

Another interesting comparison is that the first few Poly Royals had only 700 to 800 visitors, while last year's Poly Royal attracted more than 22,000 visitors.

## Princess Sandra

SMILE AND TYPE . . . Princess Sandra Jackson, Home Economics junior, plans to teach high school Home Economics after graduation. Sandra was chosen from a field of ten coeds as a Poly Royal finalist. She is pictured here setting type in the campus print shop.

## Barriers Shrinking for Many Foreign Students on Campus

Many barriers between Cal Poly's 260 foreign students and the American students are shrinking, especially in clothing, but the language, food and customs barriers still exist. This is the report of William Kirkpatrick, Agricultural Engineering instructor and advisor to 85 foreign students here under the UN Food and Agriculture Organization and the Federal International Cooperation Administration programs.

"Even the language barrier is getting smaller under the onslaught of effort and perseverance by these students."

"However, concerning mechanical aptitudes," explained Kirkpatrick, "these students often are not blessed with the opportunity to handle modern machinery at an early age as is the American youngster. In some cases their first experience with mechanical equipment is gained here at Poly."

The instructor pointed out that the students came from many countries and enter into widely varied curriculums for periods ranging from three months to four years.

Though dormitories are often available, many foreign students choose private, off-campus housing for greater privacy. "Native foods

and customs also require more than a shared room in many cases," added the instructor.

"The choice of schools and curriculum is no problem to the student," explained Kirkpatrick. "Their governments, in cooperation with ICA and the FAO, determine the program, the subject matter, and the schools. In addition, I help select the electives to fit into the student's program."

Kirkpatrick added that the school has no problems in getting the students from the port of embarkation to the school. The student goes directly to the ICA in Washington D.C. Here he is oriented and sent to a language school if he needs instruction in the English language. From there he proceeds to each school listed on his program.

"Upon completion of studies at Cal Poly, the student departs for another school or back to Washington," he said.

## The Authentic Buttondown

Now . . . in short sleeves

Two ideas to keep warm weather in the fashion front: a soft batiste with University styling . . . and luxurious hopsack oxford, in pullover model. The button-down collar with the perfect arched flare looks smart with or without a tie. Both \$5.00.

**ARROW**

Wherever you go . . . you look better in an Arrow shirt.

## Poly Students Easy To Please; Like, Dislike Same Foods

Many people have definite eating idiosyncrasies and most Cal Poly students like or dislike the same foods, thinks Charles Penwell, Cook Supervisor of Cal Poly's cafeterias.

He related that after serving a variety of steak for three consecutive days, one student queried, "don't you serve hamburger anymore?"

Joe Hampl, the North Cafeteria's Cook Supervisor, reports the patrons apparently dislike creamed foods. "The kids ask," he said "why we try to camouflage the food. Actually the creamed sauces lend a good flavor."

Green peas top the "like" list in the vegetable department. "They can't seem to dish them up fast enough," says Hampl. Carrots, corn, and green beans are also popular vegetables. Beets, Hominy, and cabbage are not as much in demand.

Fifty gallons of soup and five boxes of crackers are consumed daily by students.

Weiners and hamburgers appear to head the meat menu while lamb and corned beef are least liked. Penwell said that most students won't take lamb in any shape or form.

### DON'S SHOE SHOP

1821 Broad Street  
1 1/2 Blocks From Purity  
COWBOY BOOT REPAIRS  
SHOE REPAIRING

This airplane is actually a flying classroom. The course taught in it is Air Navigation, under real conditions. The students are young men who have been selected as possible future leaders of the Aerospace Team. Graduation after 32 weeks of training will win each of the students the honored silver wings of an Air Force Navigator and an Officer's Commission.

For certain young men, this training can open the way to a bright career of executive potential. Right now the Air Force is scoring impressive technological advances in the fields of navigation, guidance and tracking, electronics and radar. And here is where its highly trained and experienced Navigators will be expected to take over command positions of increasing responsibility.

To qualify for Navigator training as an Aviation Cadet, you must be between 19 and 26 1/2—single, healthy and intelligent. And you must want to build an exciting, interesting career in the Aerospace Age. If you think you measure up, we'd like to talk to you at the nearest Air Force Recruiting Office. Or clip and mail this coupon.

There's a place for tomorrow's leaders on the Aerospace Team.

## Wildflowers, Animals, Insects Feature 'Live' Science Display

More than 100 types of wildflowers and 25 wild animals will be on display today and tomorrow in the biological science wing of the Science Building, according to Robert F. Olson, general chairman for the Bio-Science Department exhibits.

The wild animals, the vertebrate portion of the zoology exhibit, are under the care of Stephen Cross, a Bio-Science senior from San Luis Obispo. According to Cross, the animals have been obtained for Poly Royal from either the state fish and game trapper near Paso Robles or from the Atascadero Zoo.

An invertebrate section of zoology, set up by Michael Coffy, a San Marino junior, includes sea animals such as sharks, oysters and clams that inhabit local tide pools.

The wildflower exhibit, featuring more than 100 species of flowers clustered around 40 families, has been arranged by Barbara Boris, a Los Angeles junior.

"An additional treat for botany-minded visitors is our hydroponics and cactus displays," says Richard Simpson, an Arcadia senior, in charge of the displays. Hydroponics are plants grown exclusively with water and chemicals.

An exhibit by the physiology and anatomy section of the department, headed by Bio-Science seniors Gary DeSoto of San Rafael, and Ruby Miller of Glendora, features tissue structure and identification, blood typing, and medical laboratory technician equipment.

According to Sandra Pleschke, Arroyo Grande sophomore and head of the entomology exhibit, many cases of mounted insects—stressing those found in California—will be on display for Poly Royal visitors.

Special emphasis will be made this year to acquaint the public with college health and safety checks, according to Lynda Ackerman of Oxnard and Jay Holliday of Canoga Park, junior Bio-Science majors in charge of the bacteriology exhibit.

"These checks that we are referring to are those made periodically on campus for health officials in connection with the cafeteria, water supply, and other eating and drinking facilities," they say.

### Soiree This Afternoon For County Library Staffs

Library staff members of Cal Poly will welcome staff members of all libraries of the area at a soiree today from 8 to 5 P.M. in Library 110.

Evelyn Reagan and Margaret Johnson are in charge of arrangements, assisted by Virginia Wasson, Carol Jasper, Dorothy S. Wright, Neva Babuck, Trudy Harrington, Helen Myers, Kay Schneider, Judi Plank, Nixie Hayo and Fred Genthner.

Presiding at the "April in Paris" refreshment table will be Pearl Turner, Frieda Hagmann, Jan Ferry and Chris Ericson.

The first NCAA cross country championships were held in 1928 at Michigan State University.

## Showmanship Tests In Beef, Sheep Begin Tomorrow

Showmanship contests in beef, sheep, swine and horses begin tomorrow at 9 A.M. in the track field, west of the baseball diamond. The event is sponsored by the Animal Husbandry Department and the Hoots and Spurs Club.

Students who have been grooming and fitting animals for over a month will compete for the trophies awarded the champion showman in each division. Onlookers are invited to try their skill in judging in placing the animals.

Trophies won by all department judging teams, rodeo teams, and teams and individuals at major livestock shows will be on display in the Animal Husbandry section of the Agriculture and Social Science Building.

### PROJECT SYSTEM

In each major department Cal Poly students are encouraged by their instructors to take part in project activities, either individually or as a group. A revolving fund for projects is available from which student may borrow money for an investment in livestock, ornamental plants, seeds, feed, machinery to be rebuilt, etc. No cosigner is required for a student who borrows from the project fund, and the fund is so operated as to guarantee the individual student against loss from project operation.

## Princess Jan

**BIG SMILE . . .** Princess Jan Devoto, Home Economics sophomore, and the only blond in the royal court, is from Lakeport. As a hobby, talented Jan sings popular and jazz music. Future plans include teaching high school Home Economics. (Photo Bureau—Taylor)

## Monterey Project Is Architects Feature

Architectural exhibits for Poly Royal feature five large display rooms as well as an exterior gallery and seminar room. The grounds will be completely landscaped with patio areas.

The display rooms will include a room for assigned problem displays, a senior project display room, and a movie highlighting the "Monterey Project," which has been in progress for the last year. Two display rooms will show typical working laboratories with partially completed work on the boards.

The AIA Student Chapter Awards Banquet will be held in the Veterans Memorial Building tomorrow, at 6:30 P.M. and will feature Richard Neutra, well-known architect from Los Angeles.

Awards will be given to the outstanding students in the Architecture Department: The John Badgley Award, the Albert Gustin Award, the Scarab Medal, the Graham Paint Store Award, the Little Award, the Moriarty Award, the Santa Barbara AIA Chapter Award, the Jones and Emmons Medal, the Madonna Award and the G. Hall Landry Award.

Architectural reunions are scheduled in laboratory "G" tomorrow beginning at 1 P.M. and will include the existing alumni board of directors reunion, class reunions, alumni meetings and the new alumni board of directors meeting.

## Art Work Featured In Library Room

Chez Poly Royal, an Arts and Crafts Show sponsored by the Staff Club and originated and produced by the Library Organization, will be held in Library 221.

The Library browsing room has been transformed into an April in Paris scene with colorful atmosphere of a sidewalk cafe, blossom laden flower cart, a Parisian book stall and prop shop fronts. Many well known San Luis Obispo County artists, members of Cal Poly's staff family, will be featured.

Over 70 entries have been registered including paintings, drawings, photography, mosaics, china painting, handweaving, lapidary, sculpture, ceramics, jewelry, woodcrafts and home arts.

For the children a display of Pearl Turner's marionettes will be shown. "Toby Tyler at the Circus" will be showcased in the foyer of the library and "Candyland Castle" will highlight a special book display.

The exhibit will be open today from 9 A.M. to 9 P.M. and Saturday, from 9 A.M. to 6 P.M. Joy Garrison Berghell of the Library staff is general chairman of the exhibit.

**UNDER-WAY . . .** Designed and engineered by eight Architectural Engineering seniors, this concrete folded-plate arch, shown under construction, is the entrance to the Architecture Department Poly Royal display. The arch, made of reinforced concrete, is an experiment in form and material. Seniors, left to right, Mel Rhodes, Bob Bator, and Dennis Ahern work on the structure to finish it in time for Poly Royal. Ed Clark, Roy Hall, Edley Watson, Jack Wagenaar and Ramon Rodriguez are the other seniors who made the structure.

## Air Conditioning Has Two Exhibits

Poly's Air Conditioning Department is not only putting forth a top display on campus but is also exhibiting at the Western Air Conditioning Institute in Los Angeles today and tomorrow.

The display on campus is in the engineering laboratory where all equipment will be operating and various tests being made.

A curriculum display centered around the senior project design of an air conditioning system in a restaurant and an air conditioning courtyard garden are featured.

Over-all chairman is Don Scott, junior from Berkeley. Mike Varner of San Luis Obispo has charge of the AC Engineering sponsored cider and popcorn concession at tonight's carnival. Junior Stanley Stanwyck of Van Nuys is at the helm of the Air Conditioning laboratory displays.

Refrigeration is involved in installations from the size of the household refrigerator to the large cold storage warehouse and in applications from the simple chilling of food to the production of dry ice. Refrigeration and steam are a part of nearly all complete

air conditioning systems. Air conditioning applications extend from simple comfort heating and cooling to complex industrial processing.

Air conditioning is essential in all factories dealing with textiles, paper, tobacco, flour, bakery goods, explosives and other hydroscopic materials.

## Puppet Display is Librarian's Hobby

Poly Royal visitors can get a real look at how students pull strings to get through college. But, this time they'll be shown by a staff member.

"Toby Tyler at the Circus" will be displayed in puppetry today and tomorrow in the Library lobby by Miss Pearl Turner, Curriculum Librarian here. Her hobby has been staging puppet shows for the past 15 years and her "Toby Tyler" circus characters were created years before Walt Disney made the popular children's movie of that title.

Miss Turner started making puppets when she was a freshman Elementary Education major in college. Her part-time hobby was

putting together old scraps of strings, clothing and various ingredients to turn out attractive life-like marionettes.

"Children started coming from miles around on Saturdays to watch the merry little performers tell them a story," Miss Turner recalls. The demand for her shows took too much study time so she gave them up temporarily and compromised by giving shows only during the summer.

Now that Miss Turner is back in college, this time as a staff member, some of her spare time is devoted to her more than 80 puppets. In addition, one of her new interests is being house-mother to five Cal Poly coeds.

## CONGRATULATIONS

## A Time to Remember

**Poly Royal  
1960**

. . . and you will be able to remember POLY ROYAL, 1960, with pictures that you took yourself. Remember everything with pictures . . . carnival, carnival dance, department displays, bar-b-que, coronation ball and all of the parties that you will be attending . . . Remember this year's POLY ROYAL with pictures.

## CAL PHOTO

**Welcome  
Visitors!**

Make us your headquarters for  
Kodak Cameras and Film during your stay

889 Higuera

San Luis Obispo

## Carnival Confusion

**AGAIN THIS YEAR**, a carnival will highlight today's Poly Royal festivities. The carnival is an annual event presented by many of the campus organizations and clubs. This year's carnival, containing 28 booths, will be held in Parking Lot "B," at the end of State Street, between Air Conditioning Auditorium and the Mechanical Engineering Building. Carnival booths open at 6 P.M. The above photograph shows a portion of the 6,000 persons milling around the carnival area last year. Games, candied apples, and guessing contests are all featured in this year's carnival. Nappy La Mare and his jazz group play for the dance after the carnival.

## Know Your Beans? Crops Exhibit Tells

Know much? You'll get a chance to test your knowledge of common California crops at a contest sponsored by the Crops Department. The contest will run continually during Poly Royal.

Crops exhibits will be located in Agriculture Social Science Building, Rooms 124, 126 and 128. The special judging contest will include the three major fields of crops: field, fruit and truck.

Norman Montague of Anaheim and Jonnie Galloway of Escalon are co-chairmen of the display. Mike Hegge, Richard Burns and Jack Swift are in charge of the various crop divisions.

Crops Department study is designed to prepare students for field, fruit and truck crop production. Instruction in field crops qualifies students for placement in specialized crop production and for general farming involving combination of both crops and livestock; for placement in such related fields as service and sales in seeds, weed and pest control, and fertilizers, as fieldmen in sugar beets and other crops; and for government employment as agronomists.

## Automobiles in Car Show Will Be Exhibited, Judged

"Concours d' Elegance," will be the theme of the car show sponsored by the Cal Poly Sports Car Club during Poly Royal.

Today, entered cars will be exhibited, and tomorrow they will be judged. Judging will be on the basis of general appearance, preparation, and cleanliness-inside, outside, and under the hood. Before judging, all cars will be divided into classes according to their base price. Trophies will be awarded in each class.

According to Tom Boyden, Poly Royal activities chairman, the exhibit and the judging will take place in front of the East Engineering Building.

"The car show should prove very interesting for everyone, as guides will be available to answer questions," says Boyden.

Officers in the four-year-old club are: Harly Harty, President; Loren Schmierer, Secretary; and Dick Brady, Treasurer. James Andresen, Mechanical Engineering instructor, is club advisor.

## Illustrations, Films Are Part of Soil Science Show

Illustrations of department and club activities and film entertainment will be featured in Science Building, A wing, by the Soil Science Department today and tomorrow.

Tomorrow evening the department banquet will be held for soil science students, wives, alumni and faculty at the Breakers Restaurant in Morro Bay.

Handling Poly Royal plans for the department are co-chairmen Natalie Dellavalle, junior from Madera, and Walter Haslemann, junior from Santa Clara. Dr. Logan Carter is department head.

# JUST HOW FAR OUT ARE YOU?

TEST YOURSELF!

If you see something wild in this ink blot, like maybe Lady Godiva fully clothed on a motorcycle, you're ready for non-directive therapy. That's the kind where the psychoanalyst doesn't say anything to you, and we ourselves are very interested in it because of its advertising possibilities.

With the non-directive approach, we'd just try to think you into smoking L&M's. We wouldn't have to tell you about how L&M, with its Miracle Tip, pure white inside, pure white outside, has found the secret that unlocks flavor in a filter cigarette. And about how this means fine tobaccos can be blended not to suit a filter but to suit your taste.

Following the non-directive approach, we'd simply show you the package. And this would give us more time to polish our wedge shot, which we seem to have trouble getting airborne. Or even moving.

Reach for  
flavor . . .  
Reach for  
**L&M**

©1960 Liggett & Myers Tobacco Co.

## What's Industrial Engineering? Question Answered In Display

How does Industrial Engineering affect our way of life? Is Industrial Engineering separate and distinct from other "traditional" areas of engineering? What is Industrial Engineering?

"Answers to these questions will be presented through displays organized by students of the Industrial Engineering Department," says Jerry R. Miller, department chairman.

Representative projects and course material from each of the four years of the industrial engineering program will be displayed. The exhibits will be located in the west wing of the Air Conditioning Engineering building.

Members of the Senior Class under the direction of Ernest Veal, will display senior projects and show the applications of these projects to everyday industrial problems. A motion and time study exhibit will offer visitors a chance to try their skill in a demonstration which will emphasize the importance of standardized methods in industrial operations.

The Junior Class display will show the similarity between work done by students in courses to work done by industrial engineers in industry.

"Projects prepared by students in their junior year will be compared with similar projects borrowed from major industrial concerns," says Junior Class chairman, Rudy Ramp.

Actual production of souvenir pencil holder key chains will highlight the Sophomore Class display under the supervision of Glen Douglas.

The Freshman Class display will feature the principles of Industrial Engineering learned during the first year of work, as applied to the problems of office management. Freshman chairman, Tom Zensius, says the display will also show the evolution of an Industrial Engineer through his first year under Cal Poly's "Learn by Doing" method of instruction.

### Modern Tool Operations Can Be Seen In Shops

Visitors interested in the workings of a machine shop can view the demonstrations of modern commercial tool operations in the Machine Shop Building today and tomorrow.

Machine tools used in the shop, toolings used to produce die castings, sheet metal stampings, and molded plastics will be on display.

Richard Brocket of Galt is in charge of the Poly Royal activities, assisted by members of the American Society of Tool and Manufacturing Engineers.

The Machine Shop is not designed to teach courses on a vocational level, but rather to give the student a knowledge which will further his progress in the engineering field, according to Francis Whiting, Department Head.

The shop is equipped as a commercial tool room.

### Special Tours Slated For New Men's Gym

The new men's gym will be open today and tomorrow for special tours sponsored by the Physical Education Department.

The new building seats 4,000 persons and has facilities for 4,500 men in locker rooms.

Two hundred tons of structural steel were used in construction of the gymnasium along with 292 tons of reinforcing steel. It has 70,280 square feet of space and folding bleachers which extend 85 feet from the wall.

The Physical Education Department also is providing various activities such as tennis matches, baseball games, and a swim meet. Coeds take part in the annual festivities to present a synchronized swim show.

Cathy Williams, Arroyo Grande, and Jack Hanford of Long Island, N. Y., are in charge of the department's weekend schedule.

#### FOUNDED IN 1901

Occupationally centered education which stresses preparation to meet actual job requirements is the special function of California State Polytechnic College, "Cal Poly," as the college is informally known, was established by the state legislature in 1901 as a statewide rather than a regional institution.

## Glass Blowing, Heat Sound Displays Are Science Exhibit

The Poly Royal theme, "Education - Experience - Opportunities," will be carried out by the Physical Science Department exhibit. Glass blowing, cholesterol and heart disease, paper chromatography, chemical magic, and atomic roulette will be featured in the department exhibits.

Heat, light and sound, use of the Geiger Counter, and movies also will be featured.

The exhibits are on display in the E Wing of the Science building.

The Physical Science Department serves the three divisions of the college by offering courses which help provide scientific explanations for work taken by students in the agricultural and engineering divisions. The department also contributes to the general education of all students by giving them a thorough foundation in the method and content of the physical sciences and the roles which they play in society.

The two major curricula of the department lead to the bachelor of science degree in physical sciences or in agricultural chemistry.

President of the Physical Science Club is John Dutton, a senior from Lompoc.

California State Polytechnic College has been fully accredited by the Northwest Association of Secondary and Higher Schools since September 1, 1948.

**HARD ON THE LUNGS . . .** It doesn't seem to be tough for Wilber Watte, Agricultural Chemistry major from Arlington as he demonstrates the art of glass blowing. Glass blowing will be only one of the exhibits displayed by the Physical Science Department today and tomorrow. Other features will show cholesterol and heart disease, paper chromatography, chemical magic, and atomic roulette.

Student government at Cal Poly operates the college-wide activities—athletics, music publications, and "Poly Royal."

Pacific Coast institutions with four titles have won more National Collegiate baseball titles than any other area in the nation.

**DON'T LET THE MONTH OF JUNE COME TOO SOON**

**It's an Important month for you...and for IBM**

June may mark the start of a career of rapid advancement for you with IBM. We need ambitious college graduates, with good scholastic records, for careers in direct and indirect marketing, applied science, programming, systems, and other areas. We've been expanding rapidly . . . and we promote from within.

Whether you're majoring in engineering, science, math, business administration, or liberal arts, you should know about IBM and what we have to offer.

See your Placement Officer for more information. If we have already interviewed on this campus, and you did not get to see us, please write or call:

## Fresh Gridders Post Tough Six Game Slate

Continued expansion of the freshmen athletic program is evident in the schedule listed for the frosh football team next fall.

The slate released by Athletic Director Roy Hughes includes six games for the Colts under the direction of Coach Tom Lee, whose frosh team posted an undefeated record in five games last fall. Heading the schedule are the UCLA freshmen.

Lee's Colts will begin practice September 1 and open the season against Taft Junior College at Taft, September 16.

### The schedule:

Sept. 16	Taft Junior College at Taft
Sept. 30	Antelope Valley Junior College at Lancaster
Oct. 7	Fresno State Frosh at Cal Poly
Oct. 14	UCLA Frosh at Cal Poly
Oct. 21	L.A. State Frosh at Los Angeles
Nov. 4	San Jose State Frosh at San Jose

**ROLLIN' IN DOUGH** . . . Donna Roberts, the little girl on the left makes cookies with other children in the Home Economics child-care laboratory. Free baby-sitting services will be offered visitors attending Poly Royal festivities from 9 A.M. to 5 P.M. Children from two to five-years old will be cared for in the new Home Economics Building.

Students who wish the more practical approach select Cal Poly and because of the training they thus receive, the majority of its engineering graduates are applying their knowledge in planning, product development, production, operation, management, service and sales.

## Sit The Kids; Free, Too

Free baby-sitting services are offered visitors attending the 28th annual Poly Royal festivities from 9 A.M. to 5 P.M. by Home Economics students today and tomorrow. Children from two to five-years old will be cared for in the new Mathematics and Home Economics Building.

The children will be cared for in a combination of classroom and home like atmosphere. Toy ironing boards, telephones, doll houses, play ground and art equipment are available to the children.

After dropping the youngsters off, the family will be able to tour the new Home Economics Building which was opened this winter.

"Close to 100 Home Economic majors are enriching their personal and family lives while training for occupational work," says Miss Marjory Elliott, Department Head.

In addition to training the individual girls, the department prepares students for obtaining credentials related to homemaking. Many courses are offered during the four years, from repairing simple equipment to managing a tearoom. Practical experience in food buying management, catering to large and small groups are in-

cluded in this department for those wishing to specialize.

General chairman for Poly Royal activities is Phyllis Eilers (Green) from Orange. Helping Miss Green are Joan Estes, Carlotta Ramirez, Nancy Smith, Irene Harris, Linda Lower, and Shirley Otto.

Alice Whitmoyer, Ruth Datho, Anna Pulling, Alice Campbell, Renee Vallon and Judy Sousa helped plan the Poly Royal activities.

### COMMERCIAL FLORISTS

Many courses in the Ornamental Horticulture Department at Cal Poly are designed to train students for commercial florist work. Students desiring to specialize in floriculture may complete a two-year technical program and receive a technical certificate or may, if they elect, complete the four-year degree curriculum.

To prepare more trained personnel for a large and growing industry, the California State Florists' Association has arranged for the offering of specialty courses in floriculture by the Ornamental Horticulture Department at Cal Poly at San Luis Obispo.

## What's ahead for you... after you join Western Electric?

Anywhere you look—in engineering and other professional areas—the answer to that question is *progress*. For Western Electric is on a job of ever-increasing complexity, both as the manufacturing and supply unit of the Bell System and as a part of many defense communications and missile projects.

These two assignments mean you'll find yourself in the thick of things in such fast-breaking fields as microwave radio relay, electronic switching, miniaturization and automation. You may engineer installations, plan distribution of equipment and supplies. Western also has need for field engineers, whose world-wide assignments call for working with equipment we make for the Government. *The opportunities are many—and they're waiting!*

You'll find that Western Electric is career-minded...and you-minded! Progress is as rapid as your own individual skills permit. We esti-

mate that 8,000 supervisory jobs will open in the next ten years—the majority to be filled by engineers. There will be corresponding opportunities for career building within research and engineering. Western Electric maintains its own full-time, all-expenses-paid engineering training program. And our tuition refund plan also helps you move ahead in your chosen field.

Opportunities exist for electrical, mechanical, industrial, civil and chemical engineers, as well as in the physical sciences. For more information get your copy of *Consider a Career at Western Electric* from your Placement Officer. Or write College Relations, Room 2008, Western Electric Company, 195 Broadway, New York 7, N. Y. Be sure to arrange for a Western Electric interview when the Bell System team visits your campus.

## Math Contest Draws Large High School Participation

High School mathematic wizards representing all parts of California will vie for awards during the Poly Royal Mathematic and Chalk Talk contest today.

The contest will have more than 175 high school contestants participating. According to Volmar A. Folsom, Mathematics instructor and contest chairman, this year's contest will draw one of the largest numbers of entrants in its history. He pointed out that Cal Poly graduates the fifth largest number of mathematics majors in the nation.

The contest this year, to be held in the Dexter Memorial Library, will be in three sections: high school seniors, general audience and high school juniors. In the "senior" division, the problems will range from simple arithmetic through complex geometry and trigonometry. Folsom said the contest is designed to stress reasoning ability rather than arithmetic and algebraic manipulation.

The contest for general audience is open to teachers, parents, students, and other interested persons.

The newest division for high school juniors will consist of a series of "chalk talks" in which contestants compete on an oral basis. There will be three rounds in this contest called the "previously assigned topic," the "extemporaneous" and the "research paper" round. The students will be rated by three judges.

Two \$100 scholarships will be awarded the winners. One scholarship donated by Bachino and Morris Insurance Agency of San Luis Obispo, is available to students entering into any major. The second scholarship will be awarded to a student entering into a mathematics major. In addition to the \$200 in scholarships, \$550 worth of slide rules and other tools of the trade will be awarded as prizes.

Entering students at Cal Poly are given a battery of placement tests that is designed to indicate subjects and sections in which they will have the best chance for success.

## Entire State Shown In Poly Enrollment

Following a pattern of more than a decade, Cal Poly's latest enrollment figures indicate student representation from every part of the state in direct ratio to general population.

According to the latest statistical data of the college 19.01 per cent of the enrollment is from Los Angeles County, 14.53 per cent is from San Luis Obispo County, 4.92 per cent is from Santa Barbara County and 3.46 per cent is from Alameda County.

Kern County produced 2.97 per cent of the college's students, San Mateo and Orange Counties each provided 2.67 percent of the enrollment, Contra Costa provided 2.59 per cent, and Santa Clara produced 2.54 per cent.

Sacramento County provided 2.41 per cent of the total enrollment, with San Bernardino providing 2.39 per cent and San Diego providing 2.37 per cent and Ventura producing 2.16 per cent.

## Mustangs Start Grid Drills Monday

Football fever will hit the campus again Monday as the 1960 edition of the gridiron Mustangs suit up for 20 days of spring practice. The spring rehearsals will end May 27 with the annual intersquad game, this year to be highlighted by a 20-minute tussle with alumni.

The game will be three 20-minute periods. The first two will pit a green squad against a gold squad, as members of the Mustangs will be divided evenly. The last period will see this year's varsity knocking heads with mem-

bers of Mustang squads from recent years.

Coach Roy "Silver Fox" Hughes hopes to have about 100 men out for this year's spring drills. The Mustangs are "loaded for bear" in the backfield, but this fall's grid success depends on the reinforcements Hughes can find for the line.

Returning to the Green and Gold are Mid-Bracket All-American end Curt Hill, All-League fullback Carl "Bumper" Bowser, 210-pound halfback Gary Van Horn, and 205-pound fullback Ray Lorrain.

Hughes will be hard-pressed to

match last year's line which included Little All-American guard Carlos Gonzales and his running mate center Rich Max, both of whom have signed professional football contracts. The "Silver Fox" must also find someone to fill in for Bob Williams and Pat Lovell, guard and tackle, respectively.

One newcomer to the varsity who is bound to make Hughes smile is 240-pound tackle Al Marinal. The huge tackle is the top prospect to enroll here in years and was a standout on the frosh

## New Booths, Prizes Carnival Features

Bill Duflock, Poly Royal Carnival Chairman, announces that eight new booths will be added to the carnival tonight.

The booths were constructed by Clive Remund, Agriculture Engineering Instructor, and students in the department.

The carnival will take place in parking lot B between the Mechanical Engineering Laboratory and the Air Conditioning Auditorium. Booths will be open from 8 P.M. until midnight.

Clean-up of the grounds will be done Saturday morning instead of tonight. Duflock announces that three volunteers for prize chairman are needed to award prizes during the carnival and to take an inventory tomorrow. A club with a prize chairman will be exempt from cleaning up the area on Saturday.

"All the booths will take tickets in 10 cent donations. The only booths not operating with tickets are the penny pitch and the dime pitch," says Duflock.

Booths will include a dunking game, photography, teddy bear, food and sponge throw.

Duflock says that the Poly Royalty board guarantees that all clubs will break even financially and should receive 80 per cent of the net proceeds.

Only program of its kind in the West, Cal Poly's agricultural journalism department is now one of the three largest among 17 in the nation.

## Something for Mom, Pop and Kids at Agriculture Shops

Nail driving contests for mom, an old time blacksmith shop for pop, and a merry-go-round for the kiddies are the main attractions at the Agricultural Engineering Department.

Today and tomorrow, while visiting department displays, mom will be able to show her nail-driving talent, while pop is examining the old blacksmith shop, restoring memories of the past.

The kiddies will be able to enjoy a miniature tractor merry-go-round while mom and pop are busy. Old machinery, restored by

team last fall. Other standouts coming up from the frosh team are Ken Lott, quarterback, and Mike Nichols, end.

The Big Green Machine will begin fall practice September 1 and will open the season September 16 against Brigham Young University at Provo, Utah.

The Schedule follows:

- Sept. 16 Brigham Young University, Provo, Utah
- Oct. 1 San Diego State\*, Cal Poly
- Oct. 8 Montana State, Cal Poly
- Oct. 15 Fresno State\*, Fresno
- Oct. 22 Long Beach State\*, Long Beach
- Oct. 29 Bowling Green University, Bowling Green, Ohio
- Nov. 5 Los Angeles State\*\*, Cal Poly
- Nov. 12 Adams State (Colorado), Cal Poly
- Nov. 19 Santa Barbara\*, Santa Barbara

\*\* Homecoming

## The Good Old Days...

**RESTORATION . . .** This Holt 45 tractor, pulling two Granger plows of the same vintage, has been completely restored by members of the Ag Engineering Society and is on display as part of the old machinery show in the Ag Engineering shops. Shown left to right are Rod Miller, John Dullam, Henry Ford and Dick Harris.

department majors, including a 1909 Johnson Iron Wheel Tractor and a 1918 Holt 45 Tractor are just a few of the outstanding things to see, according to Ted Colburn, chairman of the Ag Engineering Department's Poly Royal exhibits. In direct contrast to the old machinery display is

the latest in farm machinery which will be displayed by more than 80 farm machinery companies. A display of deep-well irrigation pumps, types of electric equipment including a mobile two-way radio, and construction equipment and its maintenance are other attractions to see.

Noted men in the Agricultural

Engineering field and majors and their families will attend a special banquet tomorrow evening at the Veterans' Memorial Building. Speaker for the banquet will be Russel L. Perry, Professor of Agricultural Engineering at the University of California Agricultural Experiment Station.

## BEST THING THAT EVER HAPPENED TO A SPORT SHIRT
