## CALIFORNIA STATE POLYTECHNIC COLLEGE

Vol. XXII, No. 21

SAN LUIS OBISPO, CALIFORNIA

Tuesday, February 14, 1961

**STACKED DECK.** . . All queen of hearts, Sandy McCaffery, Miss Knockout; Anne Miller, Poly Royal Queen; and Catherine DeGasperis, Military Ball Queen; appropriately depict Valentine's Day as they pose with a beautiful heart-shaped wreath of roses and carnations. (Photo by Norum)

## Love Birds Cautioned

Two students learned too late this week that a "parking permit" has its limitations.

The students, a young man and a young lady, both minors, are on disciplinary probation for using the back seat of a friend's legally-parked car for a noon-time trysting place. Although they denied having done anything wrong, they admitted using their friend's car for noon-hour "neeking" in lieu of lunch.

The love birds had undoubtedly been putting on a lunch-time noon show for construction workers on a nearby building project. The "show" had only a two-day run before college officials learned of it and stepped in to break up the "clutch." By that time, the story had been spread all over town by the interested viewers who added imaginative embellishments with each telling.

If students, particularly coeds, are not interested in their own reputations, they should be more thoughtful of the reputation of the college, said one of the construction workers. College officials have reported they will crack down hard on students whose conduct violates campus codes of acceptable conduct.

## Technical Arts Alumnus Slates Campus Speech

Roger Perso, 1960 Technical Arts graduate, will speak at the Technical Arts Society meeting Thursday night at 7:30 o'clock in Room 220 of the Aggie Building.

Perso, a member of the first graduating class of the department, was president of the Technical Arts Society while at Cal Poly, and is now employed by Daystrom Incorporated, La Jolla, as associate systems coordinator in the control systems division.

On his return to the campus, he will relate the how's and why's of industrial employment as well as his firm's progress in the field. Perso will also speak to the industrial sales class on his experiences as a college graduate employed in industry.

## Dime Movie Features Anastasia

"Anastasia," a movie based on the search for a surviving member of a Russian Imperial family, will be held in the Air Conditioning Auditorium Friday night.

The dime movie stars Ingrid Bergman, Yul Brynner and Helen Hayes and begins at 7 o'clock.

## State Reapproves Engineer's Building

The State Board of Public Works in Sacramento has re-approved construction plans for the West Engineering Building. This reversed their Jan. 20 decision, when they decided to postpone construction until the new state college trustees had reviewed the plans.

"Why they made the original decision postponing construction is beyond me," said George Clucas, Dean of Planning and Development. The Board of Trustees had already stated that they would approve any plan that the State Board of Education or State Legislature approved.

Plans call for the \$5,141,800 Engineering Building to begin construction within six weeks and to be completed by Sept. 1964.

The building will provide facilities for Mechanical, Aeronautical, Architectural, Air Conditioning and Refrigeration Engineering and Technical Arts. Included in the building will be metallurgy, aircraft stress and structure laboratories, and drafting facilities.

When the building is completed it will be in the form of a large U-shaped building with an open court center for outside architecture projects.

At present the Poly's Engineering Division has the largest undergraduate engineering enrollment in California.

When the West Engineering Building is completed it will be the largest single construction unit on campus.

## Books At High Noon To Review Roosevelt

Today's meeting of Books at Noon will present a critical review of the second volume of Arthur M. Schlesinger's four volume study of "The Age of Roosevelt."

Dominic Perello of the Social Science Department will analyze the book, "The Coming of the New Deal."

Of this volume, a critic comments: "For sheer enjoyment the best part of this excellent book is 'The Evolution of the Presidency.' Undoubtedly this is also one of the best evaluations of Franklin Roosevelt as President found anywhere."

## Drag-Racing Arrests

# Court Hearing Today; College Action Pending

Hearings for the 17 drag-racing students arrested last week will be held by Judge Fred Schenk in Morro Bay Justice Court today. Judge Schenk could order a maximum penalty of 90 days in jail and \$250 fines. College officials have taken no action as yet. College Dean of Students Everett Chandler

## Noted Educator Accepts Invitation To Be June Speaker

Louis H. Hallborn, president of the State Board of Education, has accepted an invitation to be the guest speaker at the annual Commencement Exercises, June 17.

Hallborn, also chairman of the board of trustees of the state college system, is now a San Francisco attorney. He holds a degree from the University of California in law, was formerly assistant dean of men and is a member of the Phi Beta Kappa, national honorary fraternity.

He has served in both state and federal governmental agencies, including the State Relief Administration, and the Board of Economic Warfare, Washington D.C.

He helped promote the educational television station in San Francisco and has been moderator of several educational programs on various television stations. Hallborn has been a trustee of the World Affairs Council, the University Student Center in Berkeley and is a past president of the Public Education Society of San Francisco.

## Song, Yell Leader Applicants Sought

Applicants are needed for the offices of head yell leader and head song leader for next year.

Qualifications for the positions are: a student must have had one year experience as yell or song leader at Cal Poly and must have a current 2.0 grade average.

"Applicants should be responsible and enthusiastic, because the spirit of the entire school will be in the hands of these two people," says the committee chairman, Bob Shieve.

According to Rally Committee spokesman, the head song and yell leaders will be chosen tomorrow, therefore all interested persons who meet the qualifications listed are urged to contact Shieve today.

declared that the school's disciplinary action will be based on the ruling of the courts.

"If the courts find them not guilty, they are not guilty in our eyes either," he said. "If they are found guilty, each case will be determined on its own merits. We will be seeking to determine if there are mitigating circumstances which should be considered."

The usual action taken by the college in cases which students run afoul of the law is suspension or expulsion from college for a period of from one quarter to one year.

The arrests of the 17 students, all 18 years old or under, was a result of a tip-off by residents in the Los Osos Road area.

All of the students were cooperative to the arrest and went calmly to jail and a \$250 as set by Judge Paul K. Jackson for "participating, watching or observing a speed contest."

The race was run on a three-quarter mile strip that starts at a point near Baywood Park and heads in the direction of Highway 101.

Seven California Highway Patrol officers in four patrol cars rounded up the students shortly after dark.

## Students Offered Educational Travel In Foreign Countries

Low-cost educational travel programs to Europe, Latin America and the Far East are offered to students by the travel office of the National Student Association.

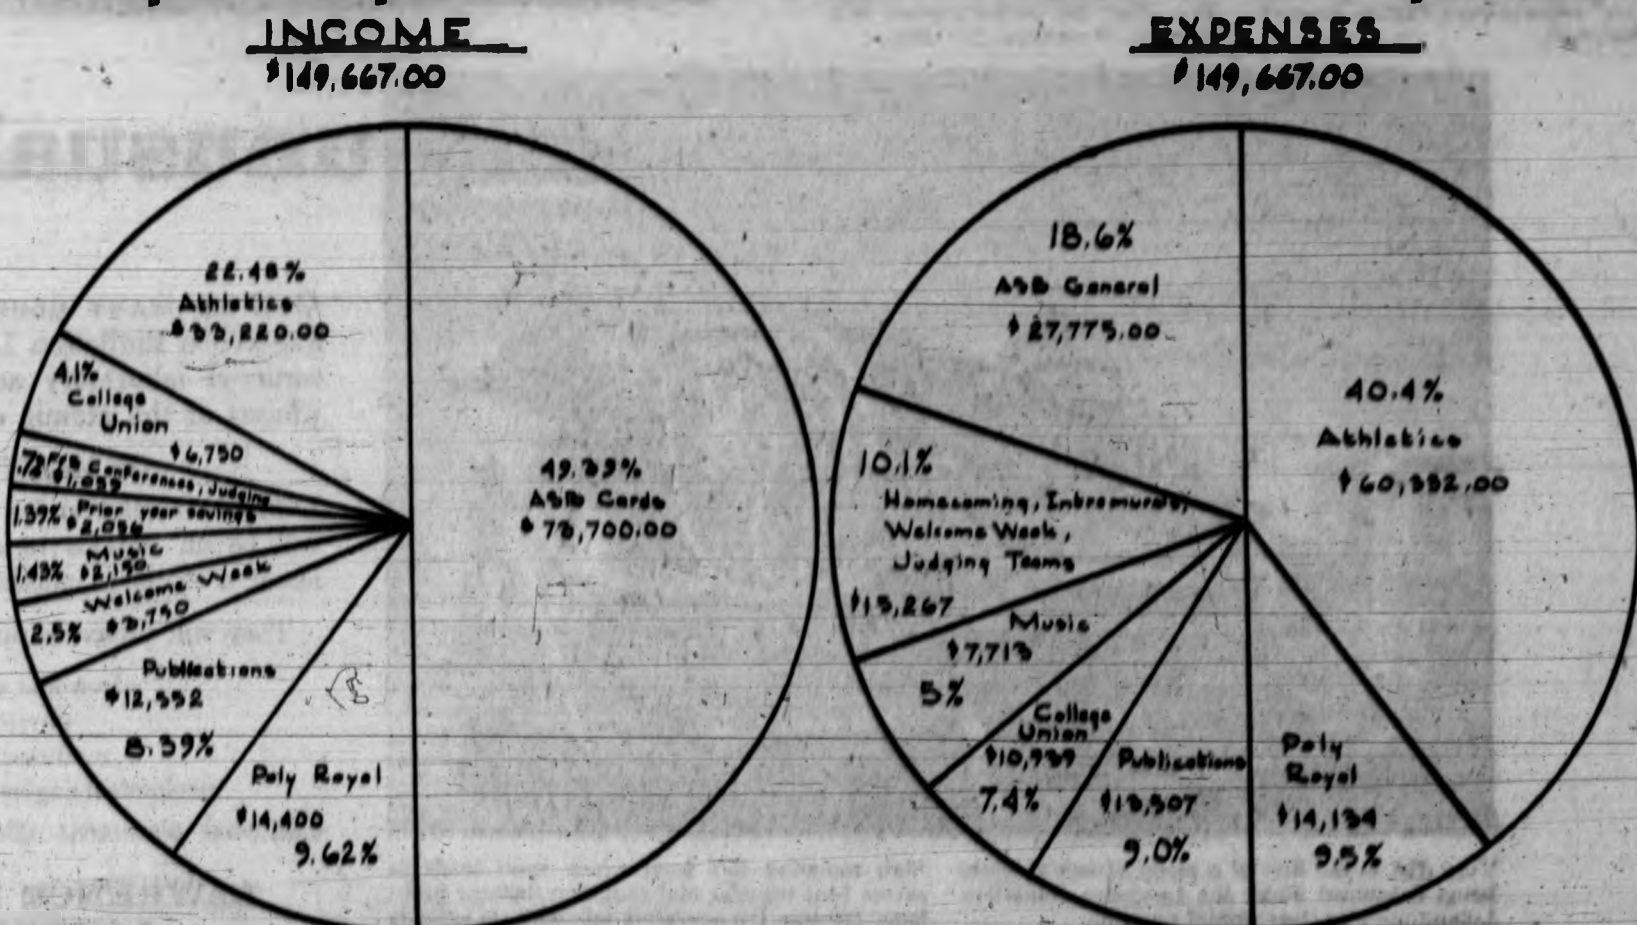

NBA offers thirty different programs to students during the summer and has study programs with scholarships for qualified students to Latin America, Africa, Japan and Europe.

For further information write: U. S. National Student Association, 2161 Shattuck Ave., Dept. S-T, Berkeley 4, Calif.

## Dorms Change Phone Number

Have trouble reaching the six new mountain dorms? It is probably because the number has been changed. The original number, LI-4-6666, has now been changed to LI-2-5555. All phoning procedures are still the same.

## Graphic Explanation Of ASB Income and Expenses

**YOUR PIE . . .** Here is a pie graph that shows the break-down of the sources of income of the Associated Student Body and how the money is spent. Half of the money is brought in by the sale of activity cards. Athletics, Poly Royal and publications are other big sources of income. The budgeted amount of \$149,667 has been apportioned to 18 budgetary groups

through the recommendations of the Finance Committee and with the approval of the Student Affairs Council. (Now in mind that Athletics include 13 sports, not just football). The actual requests of the 18 groups at the budget hearings totaled \$175,666.66, but had to be cut back to \$149,667 in order to meet the budget.

**In Disguise...** John R. "Dick" Jones, former special agent for the Federal Bureau of Investigation, makes a quick check of his law books before entering his first class. He started teaching business law last week, after retiring from FBI duty in Los Angeles. Jones has an education degree from the University of Minnesota, and a law degree from George Washington University, Wash. D.C. His more than 20 years in law enforcement have taken him to all parts of the U.S. as well as Puerto Rico and Latin America.

## 'Milky Way' Theme Of Dairy Banquet

"Along the Milky Way" is the theme of the 14th annual Los Lecheros Dairy Club Banquet to be held in the New College Dining Hall Feb. 18.

Every year the dairy club honors two outstanding persons in the dairy field. This year Alyce Lowrie, noted for her work as director of information for the Agricultural Council of California, and Richard Cronshey, Secretary of Challenge Creamery Company, will be honored.

Awards to the dairy cattle and dairy products judging teams also will be made.

The dairy cattle team has competed in the Great Western Livestock Show in Los Angeles, the Pacific International Exposition in Portland, Ore., and the Grand National Livestock Exposition in San Francisco.

The junior dairy products judging team took honors at the Pacific International Exposition in Portland, Ore., followed by the senior judging team competing for honors at the International Contest held in Chicago, Ill.

"This is expected to be the largest banquet ever held by the dairy club," reports Gary Taylor, banquet chairman.

## Music Department Plans Performance

Music Department will make its campus debut Thursday in the Air Conditioning Auditorium during College Hour.

The concert, featuring Collegian Dance Band, Women's Glee Club, and Majors and Minors barbershop group, is an annual affair.

"The ever-popular Collegians will change their style slightly from the familiar dance medium to a more sophisticated swing for the occasion," says manager Rich Andersen.

Featured numbers will be "Azure Mist," featuring Cecil Martinez on alto sax; "Brownsville Express," with soloists Bill Sharp on trumpet Harold Hinkle on piano, and Rich Andersen and Vic Dollente on sax; and "Opus in Chartreuse," with a solo by Vic Dollente.

The Women's Glee Club will sing "Done Caught a Rabbit," "Hey-Ho Nobody at Home," "Til There Was You," and a cha-cha novelty, "Cordella Brown."

Majors and Minors will harmonize barbershop ballads including "Coney Island Baby" and "You'll Never Know What A Good Fellow I've Been."

This program is one of the few times that the music groups will perform on campus for free.

## Cardinal Key Begins Tapping Ceremony

Cardinal Key national honor sorority, will begin its annual tapping ceremonies today. New members will be tapped during a regular meeting of one of the clubs to which they belong.

Some of the activities that Cardinal Key has participated in this year have been ushering for the memorial services, establishing and decorating the "pink room" lounge for women students, taking care of the children during the faculty memorial function, and attending the English laboratory to help foreign students learn the English language.

## Alpha Phi Omega Fraternity To Hold Smoker For Pledges

Alpha Phi Omega, the national service fraternity of former Boy Scouts, is holding a smoker for prospective pledges on Wednesday, Feb. 15 at 8:15 p.m., in Sci. E-30.

All scouts and former scouts, club, and explorers are invited to attend.

Refreshments will be served and proper dress will be coat and tie as El Rodeo pictures will be taken following the meeting.

Short sleeves \$4.00

Tory IIA is the first of a series of test reactors being developed under the Lawrence Radiation Laboratory's nuclear ramjet program.

A reactor for ramjet propulsion must operate at high power levels yet be of minimum size and mass. Its design must consider the very high pressure drop across its length, the stress loads due to flight maneuvering, and the extremely

high radiation flux level which itself leads to severe heat transfer and radiation damage problems. Because the operating temperature exceeds that at which most conventional structural materials fail, the core itself consists of bunched tubes of sintered uranium and beryllium oxide fabricated with central holes for continuous air passage.

## unusual

ONE OF MANY unusual projects at the Lawrence Radiation Laboratory—the only national laboratory active in virtually all phases of the atomic energy program.

ON MARCH 1 AND 2

Lawrence Radiation Laboratory staff members will be on campus to answer your questions about a career in nuclear research.

They will interview outstanding:

electronic engineers

physicists

mathematicians

mechanical engineers (MS, Ph D)

Call your placement office for an appointment.

(San Francisco Area)

## Gauchos Tap Poly, 69-55

Santa Barbara's Gauchos staged a second-half come-back to win 69-55 over the Mustangs Friday evening in a CCAA clash before some 8,000 fans—including 50 from the southern city.

The Green and Gold are now two and four in league play and were host to the Los Angeles State Diablos Saturday evening in another league meet.

The Mustangs rapped for an early scoring lead on some "set-em up" plays engineered by Dale Kay, Kendall and Rally Rounsaville. With ten minutes remaining in the first half, the Mustangs held a 14-4 advantage, due to some quick defensive play by Theo Dunn, Mal McCormick, and Joe Rysraw.

The Gauchos kept plugging away playing slowly and cautiously to work the ball in, came within two points at the mid-way point when the Mustangs were nursing a 29-27 lead.

With the start of the second period the Mustangs went down a couple points and never saw the lead again but came within one or two points several times.

Some last minute, fast-break antics by the Gauchos allowed them to rack up 12 points in the last two minutes of play.

Mustang center Theo Dunn was high scorer for the night with 23—17 netted in the first half—while Gaucha forward Joel Elias netted 20. Ray Bosch hooked in 18 and guard Buddy White looped 17 for the winner.

In the preliminary game, Coach Tom Sawyer's Colts stayed off a last minute rush by the Santa Barbara Frosh to post a 94-91 win.

## Ten Teams Posting Unbeaten Records

Freddie Martin of the Gatlin Raiders still holds the scoring lead in intramural basketball wars with 81 points garnered in three games.

The Raiders also remain unbeaten in league play with three wins. Bruce Anderson of the Horsehiders (4-0) is second with 65 points netted while Dickie Gatlin (Raiders) is third with 60.

Last week's scores, with records shown in parenthesis, looked like this:

**Monday-Seven**  
Unknowns (4-0) 60-Sequoia 2nd (2-2) 85  
Sequoia Valley (1-3) 41-A. C. (2-2) 18  
Poly Chi (2-2) 41-Muir Woods (1-2) 84

**Monday-Eight**  
Horsehiders (4-0) 67-I.R.E. (1-2) 81  
Fremont Height (2-1) 38-R.O.T.C. (1-2) 84  
Hero's Hall (2-2) 62-Muir Valley (1-2) 85

**Tuesday-Seven**  
Crops (2-0) 68-Bloate (0-2) 11  
Steamrollers (2-1) 86-Weber (1-2) 88  
Dallidet (2-0) 57-Valley Vultures (0-2)

**Tuesday-Eight**  
Hardman Hall (2-0) won by forfeit.  
Mat Pica Pl (2-1) 30-Whitney (1-2) 33  
Rodeo Club (2-1) 29-Bouncers (1-2) 20

**Wednesday-Seven**  
Bad Assets (2-0) 69-Shasta (0-2) 24  
Poly Phase (1-2) won by forfeit  
Tenaya Celtics (2-0) 45-Our efforts (0-2) 28

**Wednesday-Eight**  
Collegians (2-0) 45-Chase Hall (2-1) 22  
S. A. S. (1-2) 27-Sequoia Woods (0-2) 22  
T.A. Society (1-2) 22-Bolls (2-1) 22

**Thursday-Seven**  
Gatlin's Raiders (2-0) 14-Tenaya 11 (0-2) 17  
Rally Comm. (2-1) 22-Deuel (0-2) 27  
Tenaya I (2-0) 29-Sequoia Heights (1-2) 14

**Thursday-Eight**  
Oscodollers (2-0) 27-Diablo (2-1) 22  
Palomar (2-0) 22-Fremont (0-2) 16

## Mustang Boxers In CCBC League Pair

Mustang boxers had a rough weekend facing them—they were due to meet the University of California at Berkeley Saturday night and Fresno State at the valley city last night.

Coach Tom Lee took his regulars on the north trip. They included: Jerrold Gebbie (125); Darrell Fletcher (132); Frank Godines (139); Clayton Oilar (147); Bobby Gow (155); Bob LaBelle (165); and Don Tessier, heavyweight.

Although crippled by the loss of five of their regular starters through poor grades, Fresno States boxing squad was to open its season as scheduled against the Mustangs.

Only three or four of the bouts will count in match scoring.

Coach Lee expects to take his regulars along with three of four novices to make up a six or seven bout card.

Fresno Athletic Director Hal Beatty, emphasized that Fresno State intended to continue its boxing program in the future.

## Lightweights Prove Wrestling Margins

Coach Sheldon Harden's matmen went to Los Angeles State and Santa Barbara this weekend looking for wins seven and eight.

The Mustang grapplers suffered their first defeat of the season Thursday night when San Jose State breezed through with a 17-11 victory.

The following evening they got back on the win trail by knocking off the University of California 14-12, giving the Mustangs a six-win, one-loss dual meet record.

Harden can depend on his lightweights: Larry Owens (125 lbs.) who's posted seven wins, six of them pins; Jim Root (130) and Frank Garcia (137) who have 6-1 records in dual match competition.

From there on up, the Mustangs can go either way with Neil Pew at 147 (0-7); Halley Hebert at 157 (2-2); John Lilles at 167 (2-2); Bob Addington at 177 (0-2) and heavyweight Bill Graham (0-4).

Pew, at 185 pounds, finished second in the recent San Diego Naval Training center AAU meet. In dual competition, he meets heavier opponents and has a rough time of it.

## Two Records Fall In Intramural Swim Meet; Lenz Dashes

Two intra-mural records were set in last week's swim-dive meet as the Freshman class racked up 158 points to earn the perpetual trophy for the third straight year.

Sophomore Jim Wilson set a record time of 1:01.2 in the 100-yard sprint as well as a new mark in the 50-yard breast stroke of 1:22.8. He also won the 50-yard back stroke event in 1:20.1.

In the featured race of the two-day event, All-American Gene Lenz nosed out the team of Jess Olson, Coach Dick Anderson, Martin Gustafson and Bill Miller in a 200-yard medley relay.

Other results were:

Diving: Leonard Hupp, sophomore.

200-yard freestyle: Bill Murr, 2:04.5.

50-yard freestyle: Jim Rogers, 1:25.2.

100-yard freestyle: Roger Svendsen, 1:56.2.

50-yard butterfly: Phil Darney, 1:27.1.

200-yard freestyle relay: Ed Kiesel, Wayne Metalf, Dave Woolworth, and Roger Svendsen, 1:46.4.

## Late Sports

The Mustangs grounded Los Angeles State's so-called "sonic scramble" Saturday night in winning their third CCAA game of the season, 88-76.

Mustang grapplers earned two additional wins—scoring 28-10 over Los Angeles State and 22-8 over the Gauchos—to run their record to eight wins and one defeat.

## IBM WILL INTERVIEW FEBRUARY 21

Candidates for Bachelors or Masters Degrees  
are invited to discuss opportunities in:

### Systems Engineering and Sales

This is a unique opportunity to find out about the many career opportunities at IBM. The IBM representative can discuss with you typical jobs, various training programs, chances for advanced education, financial rewards, and company benefits—all important factors that affect your future.

### SOME FACTS ABOUT IBM

**An Unusual Growth Story:** IBM has had one of the exceptional growth rates in industry. It has been a planned growth, based on ideas and products having an almost infinite application in our modern economy.

**Diverse and Important Products:** IBM develops, manufactures and markets a wide range of products in the data processing field. IBM computers and allied products play a vital

role in the operations of business, industry, science, and government.

**Across-the-Country Operations:** Laboratory and manufacturing facilities are located in Endicott, Kingston, Owego, Poughkeepsie and Yorktown, N. Y.; Burlington, Vermont; Lexington, Ky.; San Jose, Calif.; Bethesda, Md.; and Rochester, Minn. Headquarters is located in New York City with sales and service offices in 128 major cities throughout the United States.

**The Accent is on the Individual:** No matter what type of work a person does at IBM, he is given all the responsibility he is able to handle, and all the support he needs to do his job. Advancement is by merit.

**The areas in which IBM is engaged have an unlimited future.** This is your opportunity to find out what that future has to offer you.

**Call or stop in at your placement office to arrange an appointment with the IBM representative for the date above.** If you cannot attend an interview, write or call the manager of the nearest IBM office:

Mr. W. C. Palmer, Branch Manager  
IBM Corporation, Dept. 822  
3223 Wilshire Blvd.  
Santa Monica, Cal.  
OL 1-1611

**IBM**

## International Night Festivities Planned

Assistance is needed from all interested students on campus in planning and presenting the Annual International Night program, according to Jo Jean Witcosky, publicity chairman for the event. The program is scheduled for Saturday night, and is to be co-sponsored by the International Relations Club and the College Union Social Committee.

"We would like to have every country represented in the event,"

says Miss Witcosky. "We urge all foreign students to share their countries' traditions with their fellow students and the community. Booths will be set up by the different countries and the entertainment will be a representation of various countries and their customs."

There will be a meeting of all interested persons tonight at 7 p.m. in Ag 158. Ideas and suggestions will be welcomed.

Abraham Lincoln in 1868 signed the first annual national Thanksgiving Proclamation.

## Out Of The Din

### Information Correction

Editor:

In all the confusion of fact and fantasy regarding the positive and negative side of the proposed AMB fee increase, it is essential that some statements in the recent "Benefits of Increase" article in EL MUSTANG be clarified and re-examined.

It was incorrectly stated that student body fees would be used to equip the Little Theatre, and that it would be a "student equipped building."

The state is furnishing the equipment of both the Little Theatre

and Music portions of the building. Overhead spot lights, special effects lights, step ladders, and tools and equipment necessary for the operation of the building are included in the approved equipment list.

With construction far ahead of expectation, George Clues, administrative dean of finance and development, stated that "unless unexpected delays should come up, the Little Theatre will be completed for use early in the Spring Quarter."

I hope these FACTS will clear up misstatements.

## ENGINEERS ...SCIENTISTS

You are cordially invited to attend a private interview with a Special Representative of Lockheed Missiles and Space Division. Objective: to pursue mutual interests by examining the almost limitless fields of endeavor being investigated at Lockheed.

Lockheed Missiles and Space Division in Sunnyvale and Palo Alto, California, on the very beautiful San Francisco Peninsula, is constantly probing all the sciences related to missiles and space projects. These cover the complete spectrum—from human engineering through celestial mechanics—providing a fascinating challenge to those whose interests lay beyond the ordinary day-to-day job.

Lockheed is the systems manager for the Navy POLARIS FBM, and the Air Force DISCOVERER, MIDAS and SAMOS satellite programs, involving some of the nation's most important and sophisticated programs. As one of the largest organizations of its kind, Lockheed Missiles and Space Division is able to provide the finest technical equipment available; for example, the Sunnyvale facility houses one of the most modern computing centers in the world. And every opportunity is given members of the technical

staff to participate in the initiation of advanced technological developments.

Further, Lockheed strongly encourages continuing education and advanced degree work, maintaining two programs in their support. Lockheed's Tuition Reimbursement Program reimburses seventy-five percent of the tuition for approved courses taken by professional and technical people who are working full time. The Graduate Study Program permits selected engineers and scientists of outstanding scholarship and professional potential to obtain advanced degrees at company expense while employed on research assignments.

## Polytickin'

By TOM BRAGG

AMB President

It may be interesting to know that our southern campus is presently in such financial straits that it has withdrawn all support from golf, aquatics, tennis, and wrestling as well as the rodeo team. Lack of funds have necessitated this extreme action and could force a similar situation here unless other funds are soon made available. It's something that we should all do some thinking about in relation to the forthcoming election.

Interest in the proposed student fee increase is growing and the Student Affairs Council has organized a group of speakers to attend meetings and explain the problem. Most campus organizations are being contacted but if you have not been and you are interested in having someone attend your meeting, leave your name, organization, meeting time and date in the AMB office. Student government is most interested in having an informed student body and will do as much as they can to meet this end.

"There's an item I thought I'd bring up that might assist you in writing your column. This is club participation in school activities. Trying to give the clubs some status and recognition, the Poly Royal Board has recently held two contests in which recognized groups or organizations (clubs, dorms) were invited to participate. They were the queen's contest and the theme contest. I'm not sure of how many organizations that there are on campus, but we had only 12 women entered in the queen's contest and only eight themes entered in the theme contest. Perhaps there are many other much more useful ways to help the student body. I don't know, but it seems that perhaps a little larger percentage than this would be interested in someone or something that is to represent the student body as a whole, especially for Poly Royal which is the largest display of the campus to the public of the year. What do you think?" Al Pease, General Superintendent, 1961 Poly Royal.

The above letter is an indication of the great deal of comment that has arisen concerning the method of the queen's selection. Some say that the fault lies with the students.

It is my opinion that if there is a problem it lies with both the student clubs and the student governing body. It is the student clubs' responsibility to ask a coed to run for queen. The coed should not have to apply but rather should be asked by a club if she would consent to having that club apply for her. This is the most logical way that applications can be made. It is up to the student governing body, on the other hand, to see that the clubs are informed as to application dates, methods, qualifications and other pertinent information. The entire program calls for the cooperation between these two groups and with this a more effective program is guaranteed.

### English For Foreign Students

English instructor Robert Boothe reports that he has application forms for the new basic English course to be offered at San Francisco State to foreign students of any college. The course begins March 1. Boothe can be contacted in Room 215, M&IE Building.
