

# Poly Royal to 'Mushroom'

## Eligible Mustang

CALIFORNIA STATE POLYTECHNIC COLLEGE

Vol XVIII No 32

SAN LUIS OBISPO, CALIFORNIA

Thursday, April 18, 1957

Dr. S. I. Hayakawa noted semantics expert, is today's assembly speaker on the topic of "Language in Action". Currently teaching at San Francisco State College, Dr. Hayakawa was previously scheduled for an assembly program in February but was "logged out." Semantics is the study of meaning and changes of meaning in language.

## Language Expert Speaks In College Hour Today

Dr. S. I. Hayakawa, one of America's most authoritative lecturers and writers on the science of semantics, will talk on "Language in Action" at today's 11 o'clock assembly hour in the Gymnasium.

Members of the student body, faculty and staff will have an opportunity to meet and talk with Dr. Hayakawa at an all-college "coffee-break" to be held in Lib. 118a and 118b from 2 to 4 p.m. today," announced Dr. David M. Grant, English Department head.

Semantics is the study of meaning and changes of meaning in language. Dr. Hayakawa has been quoted as defining it in two ways, illustrating his own application of his field of study. He offers first the definition that, "semantics is the study of health and pathology of communicative processes," and redefines it as "the study of what it is that goes haywire when people misunderstand each other or themselves and what we do about it."

Prompted into his study of general semantics by what he termed "Mass Baloney," Dr. Hayakawa foresaw the danger in the false propaganda which was proving successful in furthering Hitler's campaign in Austria in the early 1930's.

The use of semantics, Dr. Hayakawa has pointed out, could provide us with a description of ways of evaluating experience including words. He adds "Scientists hold that what they know or have discovered is tentative. The unscientific are those whose beliefs tend to permanence and are made up of slogans, formulae, and dogma."

Dr. Hayakawa was born in Canada of Japanese parents. He attended the Universities of Manitoba and McGill. Arriving in the

United States in 1929 he obtained his Ph.D. at the University of Wisconsin where he later taught before going on to teach at the Illinois Institute of Technology in Chicago. He currently resides in Mill Valley, Calif., and divides his time between writing, lecturing and editing ETC, the magazine of semantics, and conducting special classes in semantics at San Francisco State College.

## Model Builders Urged To Enter Aero Exhibit

A Poly Royal model airplane exhibit, open to all students, is being sponsored by the Aeronautical Engineering Department. Any student wishing to enter models in the exhibit is encouraged to do so, says Jack Hennessy, general chairman of the department's Poly Royal committee.

Students wishing to display models should contact Alfred Anunn, Box 529. A three-by-five inch card, indicating the type of model being submitted and the name of the builder, should accompany the model.

## Wanted: Three Chorus Girls

Three more "chorus girls" are needed for Poly's first student written and scored production, according to Drama Committee Chairman Bill Crow.

Those interested can see Crow Tuesday and Thursday evenings in Lib. 100 at 7:30. Drama Committee is planning to present "Tale of the Tiger," with both music and story written by students, in a tent show performance during Poly Royal.

## Draft Plan Told Here

Cal Poly's "draftable" college men have been notified, in an open letter from the Commanding General of the 63rd Infantry Division (Southern California), of a new Army Reserve Program.

In essence, the program provides for a six month active training tour and five and one-half years in the active reserve for men 18½ to 26 years old who currently face the draft.

As part of the Army's now drive to build up the reserve, the offering provides a chance to trade the present service requirement of two years active duty, two years active reserve, and two years standby reserve for the streamlined plan outlined above.

Other benefits, the letter pointed out, in addition to the short active duty period, were a minimum amount of time away from school, a choice of one night weekly or two weeks summer camp, and full Army pay throughout the training experience.

More information may be obtained by addressing the 63rd Infantry Division Headquarters, 822 South Western Ave., Los Angeles 5, Calif.

## Capitol Report

### Activity Building For San Jose Sets Sacramento Policy

Activity Building Action SACRAMENTO—(CIP)—The Finance Committee of the state Senate has set what observers called a major precedent when it approved a \$631,000 budget item for construction of a student activities building at San Jose State College.

The item already has been approved by the Assembly Ways and Means Committee, which is the budget-cutting group of the lower house.

Approval of the item constituted a new legislative policy of providing student activities buildings at all state colleges needing them.

New College Action Legislation on proposed new state colleges stepped up in volume as a senate subcommittee approved an omnibus bill calling for no fewer than ten new sites. The measure calls for "immediate construction" of five new colleges and for site acquisition for five others.

Passage by the full Senate Education Committee was almost assured by the subcommittee action, but the bill faces an uphill fight from there to the Governor's desk. Dr. J. Burton Vasche, state college director for the Department of Education, is on record as saying the state cannot afford more than "two or three" colleges during the next few years.

A similar omnibus bill was scrapped by the legislature two years ago.

Assembly Action Meanwhile, the Assembly continued its piece-meal consideration of each individual state college measure. The Education Committee has given approval for colleges in Alameda (continued on page four)

## Science Lounging Area Chosen as Senior Gift

A lounging area at the south-east end of the Science building has been selected as the 1957 Senior Class gift, according to Dr. Edgar Hyer, Farm Management Department head and senior class advisor.

John Hires, electronics major, is in charge of the lounge. Tentative plans call for benches, flowers and other lounging and aesthetic facilities adjacent to the building's E wing.

## Preparations Nearly Finished For Gala 'Silver Anniversary'

By Bob Flood

Cal Poly's Silver Anniversary Fair and Exposition is bearing down! Few visual effects of the forthcoming Poly Royal will probably be seen until one week from tonight when the college's three divisions move into fast action to convert Cal Poly's normally doleful campus into a huge fairground.

Behind the scenes, however, Poly Royal has been developing steadily since last year's Poly Royal came to a close.

Motel and hotel reservations in San Luis Obispo for the Poly Royal weekend have been filled for several weeks, according to Haydn Lee of Carpenteria, General Superintendent. Accommodations are also booked along U. S. 101 from Paso Robles to Santa Maria.

Poly Royal officially opens next Friday morning with the traditional ribbon-cutting ceremony in front of the library. Exhibits open at 9 a.m. both days and will remain open late both evenings.

Students will meet the Southern Pacific Daylight at 12:30 p.m., Friday when the Firehouse Five Plus Two disembark into a horse-drawn

Tickets for five separate Poly Royal events are on sale in the Student Body office, according to Poly Royal Publicity Director Bob Flood. The events include the rodeo, Firehouse Five, Barbecue, Coronation Ball, and Western dance.

fire truck, none the less, for a parade into town. The Hollywood firemen will appear in a special assembly in Crandall gym at 1:30, and also at the Carnival dance in the evening.

The Poly Royal intercollegiate rodeo, drawing contestants from five states, starts at 2:30 both afternoons. Rodeo sweetheart is Janice Seago, Cal Poly PE major, from Blythe.

Choice of sirloin steak or barbecued chicken will be offered to some 3,500 people expected at the "Barbecue of the Dons" on Saturday. The menu also includes one-half ton of beans, 5,000 garlic French rolls, tossed green salad, ice cream, 250 gallons of lemonade, and coffee.

Cal Poly's 45-piece band concert will augment the fiesta atmosphere of the barbecue.

For the first time in history, the full length of State street from the gymnasium to the new Engineering building will comprise the Carnival midway. Concessions include everything from penny pitch to tacos and a tent show.

Climax of the 1957 Poly Royal celebration, of course, will be the crowning of lovely Val DeGous, first "home-grown" queen of the college fair. She and her four princesses will reign as official hostesses during the Poly Royal weekend.

And speaking of "reign," West Coast weather observers have made no commitments yet as to weather conditions during Poly Royal. Optimistic Poly Royal officials assert, however, there will be no rain this year to discourage any of the 20,000 anticipated visitors to the West's famous "country fair on a college campus."

## Poly Receives Special Conference Invitation

"We were the only college invited," said James M. McGrath, faculty member of the Air Conditioning and Refrigeration Department when asked about his forthcoming trip to Los Angeles for the Western Air Conditioning, Heating and Refrigeration exhibit and conference May 4-8. Eleven western states will be represented.

A contingent of three air conditioning majors, Dennis Timmons, Jerry Howell and Jim Lynch, accompanied by McGrath, will make the trip to put on a combination pictorial and functional type of display showing the equipment and facilities used by student engineers in their air conditioning and refrigeration studies.

The invitation was explained in a recent letter to air conditioning head Norman Sharpe. The association expressed the opinion that Poly's curriculum for refrigeration and air conditioning engineers is considered one of the best.

## Vacation Schedule Told

Easter vacation begins tomorrow, according to official announcement from Registrar Leo Philbin. Classes will be held as usual this afternoon.

Classes will be dismissed beginning 1 p.m. Thursday, April 25, for Poly Royal, Philbin said, to allow last-minute Poly Royal preparations. Pre-Poly Royal departmental meetings are scheduled during college hour, 11 a.m., that morning.

## Campus Mail Delivery Continues 'As Usual'

"Campus incoming mail will continue as usual, regardless of the recently announced mail service cutbacks," reports Cal Poly Postmistress Margaret Hoyt.

"We will continue picking up our own mail at the San Luis Obispo Post Office, thus assuring Saturday campus delivery," Mrs. Hoyt added. The post office staff will be harassed, however, by the pile-up of mail in other post offices as a result of their discontinuing Saturday service she explained, since much of this mail will reach the campus in unusually large quantities at the beginning of each week.

## Easter Bouquets, Cut Flowers Available at Campus Unit

Easter lilies and hydrangeas are still available at the Ornamental Horticulture Unit for Easter decorations.

Cut flowers, including carnations and orchids, are also available. The department reports a trend towards cut flowers for Easter in recent years.

In addition, bedding plants for the spring season are for sale. These include snaps, stocks, marigolds, Virginia stocks, and cineraria, Tomatoes and peppers are also available.

Prices on the Easter flowers range from \$2 up, depending on the number of flowers in the bunch.

## President's Luncheons Planned by Councils To Explain Club Aims

Plans are underway for three luncheons to be given for President Julian A. McPhee by the three divisional club councils early in May.

The luncheons will be attended by presidents of clubs represented in the membership of each council, and the dean of that division. President McPhee will receive individual invitations from the chairman of each council, who will also serve as toastmaster for his council's luncheon.

The dates are: Arts and Science Council, headed by Guy Kuncir, math major, May 6; Engineering Council, headed by Clem Kalthoff, mechanical engineering major, May 7; and Agricultural Council, headed by Dick Wilson, May 8.

## Queen, Robe Are Reception Firsts

Two "firsts" will be honored during this year's Poly Royal April 25, in the Temporary College Union.

Val DeGous, junior elementary education major from Santa Maria, first "home-grown" queen chosen from the student body, will be an honored guest at the invitational tea.

Crimson and white, this year's (Continued on page two)

### Houlis Wins Annual Chemistry Award

Jerome F. Houlis, sophomore physical science major from Lodi, has won the achievement award of the Chemical Rubber Company in chemistry for this year.

College students receiving an "A" in General College Chemistry and Inorganic Chemistry are invited to compete in a special examination put out by the Chemical Rubber Company. Five students competed in the contest with Houlis as high man.

A copy of the 88th edition of the "Handbook of Chemistry and Physics," was presented to Houlis in recognition of his achievement. The handbook bears the name of Houlis in gold letters on the cover. Included in the same print is "Achievement Award for First Year Chemistry, California State Polytechnic College."

Houlis is president of the physical science club, Phy Sci.

In recognition of his outstanding achievement award in first year college chemistry, Jerome F. Houlis, Lodi, was recently presented a copy of "Handbook of Chemistry and Physics," complete with his name in gold letters. Shown presenting the award is Dr. W. D. Bowls, head of the physical science department.

### 'Gertie' Gladin Is New Housemother For Jespersen Hall

The girls in Jespersen Dorm have waved farewell to Mrs. May Nichols, their housemother. The reason—"I'm going to be a grandma," she says.

At the end of the quarter, May left for Louisiana where her daughter is living. She plans to come back in September for a new dorm, and hopes to keep all her girls together because, she says, "I love every one."

Mrs. Gertrude Gladin from San Luis Obispo, acquaintance of Mrs. Nichols, is acting as new housemother. Gertie, as she wishes to be called, can technically be called a replacement for the replacement, for Mrs. Nichols started as a substitute for Mrs. Charlotte "Mom" Smith, who broke her leg during the first quarter.

When May came to Poly in Oct. to take "Mom" Smith's place, she was really returning to an old scene. When the first coeds were here, May, a business major, was one of them. "There were only 80 or 85 then. We were like a little family. . . . We had our good times," said May. There were no dorms for women so all the girls lived in town. According to May, the girls stuck pretty close together since there were so few of them.

### Poly Royal Flashes . . .

M. C. Martinson, veteran instructor in the Aeronautical Engineering Department, will be honored at this year's Poly Royal, announced Haydn Lee, general superintendent.

Any group or club planning to operate a concession during Poly Royal is asked to pick up a contract in the ABB office or Cubicle G, says Lee Smith, treasurer of the Poly Royal Board.

### Pathologists Find Lower TB Percent In Campus Survey

A lower percentage of pathological abnormalities were discovered in this year's student tuberculosis survey than in the last four or five years, according to Dr. Earl Lovett, Cal Poly physician.

A total of 2,474 students and faculty members were x-rayed in the program. Of this figure, 2,440 showed normal chests, 17 were suspected of having TB, seven had abnormal heart blood vessel changes, and ten others had miscellaneous lung troubles, tumors or infections.

At present, Dr. Lovett said, two cases of the suspected 17 are under study, while the others have been found with no active TB.

"A tuberculosis program is necessary for three reasons," says Dr. Lovett, "for the protection of the individual and of other students, and for the education of the public about tuberculosis. In the near future Cal Poly hopes to maintain its own x-ray unit. Students will be x-rayed during their entrance physicals, and follow-up checks will be made each succeeding year."

### U.S. Girls Mature Sooner Says Aziz

High school without girls? This is what would happen if you were to attend high school in Egypt. Boys and girls are allowed to attend grammar school and college together but not high school.

"I think that is a good idea as it may prevent many of the problems which may occur during the adolescence period, but it does not mean that we have completely overcome these problems," said Abdel Hamid Fawal-Azis, high school teacher from Egypt attending Poly.

"Girls in the United States mature much sooner than the girls of Egypt, perhaps from the fact they are allowed to mingle at such an early age," he said.

Azis taught agriculture in Egyptian high schools for thirteen years. He has been working on his masters degree in agriculture education at Cal Poly since last September and will remain until July. He hopes to return to the United States to work on his Ph.D. degree in philosophy.

Azis was raised and educated in Cairo, Egypt. He has several brothers, one of whom is an officer in the Egyptian army and saw action at Port Said in the recent conflict.

### Library Use Report Shows 78,000 Rate

Head Librarian Francis S. Allen's recently completed Seventh Annual Report to President McPhee reveals Poly's phenomenal growth and academic advance in the last three years.

The total circulation during fiscal year 1956-57 was 51,888. During 1955-56 it was 78,000.

"These figures indicate that library use is accelerating at a rate faster than that which we anticipated from increased enrollment alone," says Mrs. Dorothy S. Wright, head of the library's public services. Mrs. Wright explains that this greater use of the library is due to Cal Poly's constantly higher academic aims as reflected in more courses requiring extensive outside reading and research.

Allen's report also shows a cost increase of 50 cents per volume, making the average cost of each new book \$3.98. The library purchased 8,851 volumes during the 1955-56 fiscal year, bringing the total collection to 47,804 books.

### Reception . . .

(continued from page 1) robe is the first owned by Poly Royal Board. Previous robes were borrowed from the city's Chamber of Commerce.

Poly Students Wives, hostesses for the event, expect some 850 guests to informally meet Queen Val in her royal robe.

Members of the royal court, Jan Angell, Los Angeles; Karna Thorson, Weiser, Idaho; Dorothy Tullock, Tempton; and Pauline Woods, Fortuna, will also attend the reception.

All students are invited to this reception, but in order to get an estimate of the number wishing to attend, students are asked to pick up printed invitations at the ABB office.

### Production Follows Tradition In Special Engineers' Class

Cal Poly has become one of the two largest engineering schools in the West through traditions that along with theory stress actual production methods.

Dean of Engineering Harold P. Hayes is chuckling over the following from one of his classes: "The group taking special elect-

ive work in public relations and publicity techniques takes pleasure in making this production report:

"Of 12 majors enrolled, 11 are married.

"Average age: 25.6.

"Total children represented: 86 7/8."

## Mustang Swimmers Host Spartans in Home Finale

Appearing in their last home meet of the season, the Mustang swimming team hosts the San Jose State Spartans, 1956 State College Swimming Champions, today in a dual match at 8 p.m.

The Mustangs of Coach Dick Anderson took second position last year behind the Spartans in the State College Swimming Meet and also captured the runner-up spot last weekend in the Cal Aggies "Picnic Day" relays at Davis.

The locals grabbed off 108 points against 110 tallies for the Spartans and 101 for College of Pacific, Fresno State College and the Aggies held down the cellar spot.

San Jose mentor Tom O'Neill will rely on Stan McConnel, outstanding swimmer of the '56 State College Championships in the backstroke events; and Jay Cross, who is slated for performance in the freestyle and butterfly.

Mustang hopes rest on Gene Lens, NCAA participant from Santa Maria, '56 State College Champion in the freestyle events; Jerry Coogin, diver from Monterey; Karl Bell, backstroker of Santa Maria and Ismael Sammarrale from Bagdad in the freestyles,

while Bob Loeffler from Napa will swim in the butterfly.

Following today's splash, the Mustang mermon will be preparing for the '57 State College swimming finals slated for April 25-26 in San Francisco to be hosted by San Francisco State College.

## Norm Gomes Cops Grappler's Trophy

Norman Gomes, senior dairy husbandry student from Hanford, has been named outstanding wrestler for the past season at Cal Poly.

Gomes, tipping the scales at 180 pounds, won seven and lost three during the past year. He was fourth in the Pacific Coast Intercollegiate tourney held at Eugene, Oregon. While a sophomore, Gomes took a third in the PCI tourney.

The Hanford youth has been awarded the C & K Packing Corp. trophy and will be one of the year's athletes to have his name on the Clarence Brown trophy which lists the outstanding athletes in all Cal Poly sports.

Gomes is student chairman of the college's Board of Athletic Control and has been active in dairy husbandry department activities.

John Lucas of Long Beach, New York, a sophomore air conditioning and refrigeration major, has been given the coach's award for the fastest fall during the dual meet season. He pinned his opponent from San Francisco State in 46 seconds.

Who says you can't walk on water — Norm Gomes, Poly diver, seems to be prancing along on the aqua in great style as he plunges into the drink in a recent meet at the Poly pool. (Photo by Jim Luther)

## Request for Locker Gets Mustangville A National Champ

A misunderstanding in the English language gave Poly its first national intercollegiate boxing champion.

Eduardo Labastida, top college 112 pounder who defeated Bob McCollum of Idaho State at the national college tourney recently, started his ring career because of a misunderstanding over a gymnasium locker.

The 20-year old Labastida, a native of Los Mochos, Mexico three years ago walked into the lish asked Boxing Coach Tom Lee gymnasium and in his broken English for a "locker".

Lee, busy with preparations to open the annual intramural boxing show that night but always on the lookout for a student interested in his program, thought the 18-year-old Mexican mumbled something about being a boxer.

Labastida, confused when handed boxing trunks and other equipment and told to report back that night, wondered if every student had to fight for a locker.

He boxed that night and won. In fact, he kept on winning. After the intramural title, Labastida went undefeated in dual matches and was a finalist in the 1955 Pacific Coast Intercollegiate tourney at 119 pounds. He lost that night to McCollum, whom he defeated this year for the 112 pound

crowd. In three years at Cal Poly, Labastida, an agriculture engineering student, has won 26 and lost 6 bouts.

## Crippled Tracksters Take On SF Gators

Suffering the loss of sprinter Bob Heffron, Coach Jim Jensen's track team will be badly crippled as they meet the San Francisco State Gators in the northern city Saturday.

The Mustang ace, who pulled a leg muscle in last week's meet with Santa Barbara College, has run a 9.9 second 100 yard dash this season. He has gathered a great many of the Mustangs' points on the cinders. Heffron suffered the injury in the century dash in Santa Barbara where he took second place. He has been clocked at 22 flat for the 220, but he didn't run the event in the southland.

Freddie Ford and possibly Cliff Rolland will be elected to take over for Heffron in the sprints. Ford captured third place in the 100 at Santa Barbara and won the broad jump. He also grabbed a third in the discus.

Don Moredth clipped off a 25.8 time to win the 220 low hurdles while Gordon Ustick, holder of Poly's pole vault record, soared 12 feet 6 inches into the atmosphere for the runner-up position. Newcomer Louis Miller is rapidly improving in the 880 yard run. He covered the half mile in two minutes flat for a second place. The former Fremont High ace posted a 1:53.9 time in the event last year in the state finals.

In their first home appearance this spring, the Mustang tracksters host Redlands University Thursday April 25. May 4 the Poly spokesmen entertain Fresno State, Santa Barbara, San Diego State, Los Angeles State, and Long Beach State in the CCAA meet.

California State Polytechnic college offers the state's only major in agricultural and agricultural-community journalism.

## Mustangs Meet Aggies Today Tangle with Fresno Saturday

With hopes of playing the spoiler role, the Mustang baseball crew meets the defending champion nine from Fresno State in a CCAA doubleheader starting at 1 p.m. Saturday in the Raisin City. Today the locals tangle with the Cal Aggies in a non-league affair. Game time is slated for 3 p.m. on the Poly diamond.

The proteges of Coach Howie O'Daniels were belted down twice in conference play in three contests over the weekend. The Mustangs defeated Santa Barbara College 7-4 in the nightcap of a twin bill. The Gauchos topped the Poly nine 5-2 in the curtain raiser.

Saturday saw the Mustangs downed by Los Angeles State 6-3. Jerry Hurley has been named to deal out the pitches to the Aggies. O'Daniels indicated that Ken Matson and John Freddi will be the

moundmen against Fresno. Freddi boasts a 3-1 mark for the season while Matson, the Poly workhorse, has a 1-5 record. Matson has worked 44 innings. Topping the local hurlers, his earned run average is 2.85.

Starting in the Mustang infield today will be Art Dyer, catcher; Carl Underwood, first base; Mako Tashima, second base; Charles Remund, third base; and Navor Lopez, shortstop. The outer garden will be patrolled by Lew Gentry, left field; Willis Hill, centerfield; and Bob Mannini, right field.

## Intramural Entry Includes 20 Teams

With an entry of 20 teams this year's intra-mural softball program promises to be successful as it started with a bang last week. The 20 teams are divided into four leagues with one each on Monday, Tuesday, Wednesday, and Thursday. Two diamonds are available for league play.

Teams entered include: AC Club, Mat Pica Pl, Poly Phase, Diablo, Pigskinners, Shasta, Off Club, Moonshiners, Deuel, IAS, Farm Center, IRE, Mariposa, Calaveras, Hawson House, Verville, Truckee, Lassen, Chase, and the Poultry Club.

Dan Haley, chairman, was instrumental in getting the league off to a good start.

## Grid Action Opens April 29

Spring football practice will open with the issuing of complete uniforms including shoes April 29 and 30 in the fieldhouse. Coach Roy Hughes indicates he wants to fill his 150 uniforms with interested personnel.

Anyone is welcome for the practice which will run for 20 days and will culminate with an intersquad game under the lights May 20. Experience is not necessary for the spring practices which is not the case in the fall. At that time eligibility for practice is by invitation.
