

**THURSDAY ATTRACTION** . . . One of San Francisco's famed musical groups, the Gateway Singers, will entertain students during College Hour Thursday. Popularity of the singers stems from their ability to take old songs and bring them "up-to-date" with modern musical settings and the beat of the present day jazz, yet keep the intensity and feeling with which they were originally sung. The concert will be held in Crandall Gym.

## Quartet Will Entertain At Thursday Assembly

by Julie Pratt

One of the biggest College Hour attractions, the Gateway Singers, will appear Thursday in Crandall Gym.

The Gateway Singers, four young people and three instruments, sing folk songs in inimitable style from all over the world, but with a new and present day setting and sound.

Elmerlee Thomas, gifted Negro contralto, Travis Edmonson, guitarist, Lou Gottlieb, bass fiddler, and Jerry Walter, the five string banjoist, form the unique and personable quartet.

The group was organized nearly four years ago when an ad agency called and asked them to put on a western, hill-billy show. The three men got together for rehearsal and after several days, it was all too obvious that hillbilly was a dead end for them. Feeling that a woman's voice was needed, Miss Thomas was asked to join the group. Thus common interest in folk music started the Gateway Singers on their way up the entertainment ladder.

A year and half was spent mostly unemployed, sometimes rehearsing, but most often plotting ways and means of coming by a job. Finally some three weeks at the "Hungry 1" in San Francisco and the Gateway Singers have been there some 19 months to date.

Starting with a Texas prison song, or perhaps a nonsense ditty from anywhere, going through a couple of dance songs from Mexico to Israel, and ending with the story of Rock Island Line or the tale of The Fox, the Gateway Singers bring a personal quality to all their songs, honing each number to shary effect.

Bass, banjo and guitar are used by the quartet, and between numbers the bass and banjo alternate with short, funny patter.

For a delightful, rocking, tea-tapping time, don't miss the Gateway Singers Thursday.

## Students To Get Awards At Joint Ag Clubs Meeting

Scholarships will be awarded at a joint meeting of Soil Science and Crops Clubs members Thursday night at 7:30 o'clock.

The meeting will be held in administration room 214.

H. H. Burlingham will award the National Plant Food Scholarships to Ken Beatty, field crops major from Westmoreland, and Jim Johnston, soil science major from Morro Bay.

Larence March, field crops major from Santa Cruz, and Wayne Sheldon, soil science major from Sebastopol, will receive the California Fertilizer Association Scholarships. Making the presentations will be Dean V. M. Shepard, agricultural division head.

Following the awards, Eugene Rittenhouse, placement officer, will speak on job opportunities for soil science and crops majors.

## Wanted: Pianist For Collegians

Three thousand male students and not a pianist in the crowd!

That's what music department students are commenting as the Collegians continue their hunt for a piano player.

The orchestra's talented piano player left school and a replacement is needed for the musical group which has earned a fine reputation as one of the best college dance orchestras. Any student interested in the position may report to Classroom 1 anytime before Dec. 7.

Sorry, but the Collegians are still an all-male group, gals.

## 'Brigadoon' At Bijou

College Bijou will show the movie, "Brigadoon", Friday, Nov. 23 in the air conditioning auditorium. Show times are 7 and 9 P.M.

## Crystal Exhibit

Crystals from a chrome mine near Morro Bay are being exhibited in the cases in the breezeway of the Science Building. The materials for this unusual exhibition were loaned by Cliff White of Morro Bay.

## Knock-Out Candidates

AND IN THIS CORNER . . . four Knock-out Queen candidates all entries for the championship. Betty Jo Griner, Gail Manley, Jo Ann Evans, and Sunne Kunis, are contestants for the International Novice Boxing Tournament "Knock-out" Queen. The boxer is Ernie Martinez, a novice entry. (Photo by Chuck Lotepolch)

CALIFORNIA STATE POLYTECHNIC COLLEGE

VOL. XIX, No. 10 SAN LUIS OBISPO, CALIFORNIA TUESDAY, NOVEMBER 19, 1957

## Christmas Formal To Feature Sale Of Hawaiian Leis

Leis imported from Hawaii will be one of the highlights of December's Christmas formal sponsored by the Hui O'Hawaii Club.

To correspond with the theme, "Christmas in Hawaii," flowers will be flown to San Luis Obispo and strung into colorful leis to take the place of corsages for the girls.

The leis will be sold at the door for 75 cents. Frank Ornellas, dance chairman, says that this will eliminate the traditional ordering of corsages by the boys.

"Christmas in Hawaii" will be presented Dec. 7, 9 to 12 P.M. at the Vets Memorial Building. This year's formal promises to be one of the most spectacular dances, according to Hui O'Hawaii members who are planning to stage Christmas in full Hawaiian style.

## Herdbook Sales Start Nov. 18

Herdbook sales will begin Nov. 18. For 25 cents, purchasers can get a listing of all students, sports schedules, staff members, church directory, school calendar, clubs and club officers. Proceeds from sales will go to the College Union Fund.

Herdbook sales will end Nov. 23, according to officials of Gamma Pi Delta, sponsors of the project.

## CSEA To Install New Officers On Friday

Installation ceremonies for new officers of the California State Employees Association Chapter 97 will be held Friday at 7 P.M. in Library 118.

Richard Malone, regional director will conduct the installation. Officers to be installed are Douglas Gerard, president; James Cantrell, vice president; Lorraine Ridgeway, secretary; Steve Hickenbottom, treasurer, and Dr. Milo E. Whitson, James Landreth, and Bert Fellows, delegates to the general council.

## Gives To Loan Fund

Cal Poly's Women's Club have turned over \$1,457.47 to the student loan fund.

The fund now totals \$8,664.47. Money donated by the club was earned at its recent Trash and Treasures Rummage Sale.

Last year Poly students borrowed \$10,552.00 from the fund.

## Architect's Plans Underway For New Poly PE Facilities

by Bill Cockshott

Plans are being drawn by a private firm of architects in San Jose for construction of a \$1,712,600 new gymnasium and physical education facilities for Cal Poly.

The building will be located south of the science building.

Featured in the building will be a 4,000 seat capacity gym which can hold three basketball games at the same time. It will be one of the most modern, up-to-date structures.

## Flu Bug May Bite Again; Vaccine Now Available

The next wave of Asiatic Flu is expected to hit the campus in January or February, predicts Dr. Earl Lovett, health center officer.

"We again urge all students to come in before Thanksgiving for their first shots," comments Dr. Lovett, "According to past performance of the flu virus, the recurrence is much more severe."

Flu shots are available anytime between 8 A.M. and 4 P.M. daily. Shots are free to students. Shots will cost non-students 50 cents.

## AH Club To Hear Champion Roper

A world's champion calf roper, B. J. Pierce, will speak to members of the Boots & Spurs Club, Nov. 21.

Pierce began his roping career in 1945 following high school graduation. Winner of the 1952 and 1955 World's Championship International Rodeo Association calf roping contests, he is presently west coast representative of the Western Horseman.

Pierce has also won roping contests at Salinas, Cow Palace in San Francisco, Walla Walla, Wash., Pendleton, Ore., Lewiston, Idaho, and the Los Angeles Coliseum.

The meeting is tentatively scheduled to be held in the air conditioning auditorium.

## ROTC Stages Turkey Shoot For Cadets

Cal Poly's ROTC is staging a three-day turkey shoot Nov. 18 to Nov. 22.

Tickets are 50 cents each with rifle and ammunition being furnished by ROTC. Because of limited facilities, only cadets may compete this year.

Profits from the shoot will be used for rifle team trip.

According to PE head Dr. Robert Mott, the building culminates five years of planning by the PE department's staff to aid in the professional preparation of physical education majors. It will also meet the needs of the required service program, recreational and intramural activities of the students and faculty.

A few of the planned accommodations in the gym will be a gymnastic room featuring a pit trampoline. This is believed to be one of the first of this type to be installed in the state.

There are also plans for wrestling and boxing rooms, modern locker and shower rooms, complete with drying rooms, rooms for issuance and storage of equipment, classrooms, first aid rooms, a press box, conference rooms, and offices for departmental staff members.

There will be ten badminton courts and ten outside tennis courts.

There will also be a turf area for use in such sports as touch football, softball, and soccer. A black-topped area will be provided for basketball, volleyball, and other recreational activities.

A patio with shuffleboard and ping pong areas will be available for students and faculty members.

Dr. Mott stated that, although present plans in the budget do not cover it, tentative plans are being made for a new swimming pool.

## Applications Being Taken For El Mustang Editorship

Applications are available for editor of the winter quarter's El Mustang, semi-weekly college newspaper.

Students may apply for the position by obtaining an application blank in the ASB office or Adm. 21. Deadline for applications is Nov. 23.

Any Cal Poly student, regardless of major or year in school, is eligible to apply for the position.

## 'Mock' Interviews Planned For Job-Seeking Seniors

"Mock" interviews for employment-seeking graduates will be conducted by the Senior Workshop Committee and members of the Counseling Center.

Drs. Henry Grace and John Coyne, and Louis Lewellyn have joined together in offering a "workshop" whereby the

### The Green Light

By Dave Green

FOR HEALTH SAKE: I looked in the mirror the other morning. I pulled out my tongue and it looked terrible. I looked pale and anemic. I felt terrible. I got SCARED! What I needed, I decided was . . . about a month of hard working out, or something. So, soon as I got to campus, I ran to Crandall gym full of enthusiasms.

I was going to regain my health, my vitality, my vigor—I figured to put on a little weight besides. 'cause my ivy-leaguers were about four sizes bigger than when I bought them. I knew that the Crandall gym COACHES would help me. First I talked to Charlie Plath, the trainer, and he told me to talk to Jim Jensen, track coach, who recommended that I see Sheldon Hardin, the wrestling coach, who sent me to Dick Anderson, the swimming coach.

I told him my story, and even let him see the pitiful condition of my tongue. "Why do you want to work out?" he asked suspiciously.

"Because I want to gain weight," I said.

"You don't look too bad," he said, pointing at my undernourished form. "That's the only reason?"

"I want to feel good again," I said.

"Say, did you ever try running?" He asked me. "It's great for giving you endurance."

"I don't want to endure," I said. I just want to get toned up and maybe gain a little weight."

"Well how about swimming? That will exercise every muscle in your body."

I was getting desperate. I ONLY want to feel good, and gain a little weight," I wailed.

"Try eating a little more," he said. "It's a proven fact that the calories you don't absorb will turn to fat."

"I haven't got THAT kind of money," I said.

"Well, Green," he says smugly, "I don't know what else I can recommend. Maybe you aren't supposed to gain weight anyhow. Now take me, I haven't gained a pound in 19 years."

"O.K. coach. Thanks a lot, you have been a big help," I said as I ran screaming out the door. I think I lost two or three more pounds just sweatin' through that interview. I STILL FEEL TERRIBLE!

FOR THE PHILOSOPHERS: somebody said that the only thing curious about women are men.

NEXT WEEK: Feeling tired? . . . next week I'll tell you why you feel that way.

### Engineers Will Review Satellite Activity

Societies of Automotive Engineers and Mechanical Engineers will meet Nov. 21 to hear current activity on the United States' participation in the International Geophysical Year.

The program will cover the background and planning of events, notably the earth satellite program and a review of geophysical information expected to be obtained from satellites and future satellite applications.

The meeting will be held in the mechanical engineering lab at 7 p.m.

### Foreign Students Will Be BPW Dinner Guests

All foreign students are invited to a potluck dinner, sponsored by the San Luis Obispo Business and Professional Women, Wednesday, Nov. 20.

The dinner, beginning at 6 P.M., will be held in Library 118. The group will move to the air conditioning auditorium following dinner for entertainment by Cal Poly's Majors and Minors and the Men's Quartet.

The first four-year degree in mechanical engineering was granted at Cal Poly in 1947 to one graduate. Currently there are 145 senior mechanical engineering students enrolled and anticipating graduation.

student can be dynamically tested by actually being placed in interviewing situations similar to those found in industry today.

There will be approximately six sessions for interview of one two hour duration conducted on a regularly scheduled basis. Any student should take advantage of this opportunity which is free.

The next senior class meeting to be held Tuesday, Nov. 26, at 11 A.M. in the engineering auditorium will provide this opportunity for the senior student to indicate his interest.

Beginning with the winter quarter, members of the senior class will be able to avail themselves of the opportunity to be placed in such a situation, hypothetically, conducted by the skilled members of the counseling center. The results of these sessions will demonstrate most clearly to the student his personality traits and suggestions on improvement will be offered.

The results of these interviews will be held in strict confidence. Such questions will be answered: what would be the reactions of the employee in employment situations which taxed his normal behavior? What are the employee's pitfalls? Where can he improve?

### Student Finds Right Number—Wrong Room

Things sure got mixed up! The job of running a college as large as Cal Poly takes the work of many hands and a mistake now and then just can't be helped.

A student brought a "mistake" to the attention of the Admissions Office recently.

The incident between the student and a receptionist went something like this:

"I want to see 'Miss Records Keeper,'" the student asked as he rushed in to the Admissions Office, red faced and nervous.

"She isn't in right now," replied the receptionist. "Are you in some kind of trouble?"

"I don't know, I'm not sure," mumbled the student, "but I think someone in this office sure has a poor sense of humor."

"How come," probed the receptionist.

"Well," explained the student impatiently and even more red faced, "I received a notice to report to Administration Building Room 128 to take care of some business with Miss Records Keeper."

"What is wrong with that?" asked the receptionist sincerely.

"Lady," growled the student as he headed for the door, "Administration 128 just happens to be the ladies powder room."

### Gamma Pi Delta Slates Annual Initiation

Gamma Pi Delta will conduct its annual fall initiation of new members, beginning Nov. 18.

The agricultural fraternity will and its initiation activities Nov. 23 with formal ceremonies at the Motel Inn.

Purpose of the fraternity is to honor and recognize outstanding agricultural students. To gain membership, students must be outstanding in scholastic ability, leadership, character, and personality.

### El Rodeo Staff Holds Presale Of Yearbooks

Staff members of El Rodeo, the college yearbook, are holding an other presale.

Yearbook sales will be held in the science building and will end Friday. Students having AER cards will pay \$4 for the book; non-student card holders will be charged \$5.

As of June, 1955, the engineering division will have granted a total of approximately 3000 bachelor of science degrees 1 percent of the national total of engineering graduates will graduate from Cal Poly in June, 1958.

The ratio of men to women in the Arts and Science division is four to three; in the Engineering division it is 190 to one, and in the Agricultural division it is 85 to one.

## New Polio Vaccine Supply Is Received By Health Center

Nine hundred polio shots, received by the Health Center Nov. 15, are ready for distribution, reported Dr. Lovett health center officer.

Dr. Lovett announced that the vaccine has been proven 80 percent effective and it is worthwhile for every student to take advantage of this program. He remarked that it was especially important for college students to have the shots because the only cases of polio that have occurred in San Luis Obispo have been in this age group and older.

Cal Poly was one of the first colleges to set up a polio program. To keep the program going, the Health Center announced that they are "ready to do business" between the hours of 8 A.M. and 6 P.M. Monday through Friday.

After receiving the first shot a waiting period from four to six weeks is necessary before administering the second. The third shot is given from nine to twelve months later.

New home of the industrial engineering department is currently being programmed and will be available for occupancy about 1960.

## College Library Sets New Policy For Late Books

Under the library's new policy to deal with overdue books, offenders will be sent two overdue notices. The first notice withdraws library privileges until the book is returned, and the second informs the student of an administrative appointment with his advisor.

Failure to keep this appointment will result in a \$2 charge by the college accounting office.

This new program is necessary to insure books will be available when needed. The library also wishes to announce that overdue books may not be renewed.

If a student receives an overdue notice for a book he has already returned he should report the mistake at once to the library to avoid further mistakes.

### Ag Teachers Dinner

The California Association of Agriculture Teachers dinner has been rescheduled for tonight at 6 P.M. in Library 118. A panel discussion of Region-at-large activities will follow the dinner.

Elgin Knott, the man with the greatest number of years service in engineering, has been at Cal Poly since 1941. He is now the assistant dean of engineering.

### PLACEMENT CALENDAR

Tuesday, Nov. 19, Wednesday, Nov. 20, WESTINGHOUSE ELECTRIC CORP., E. W. Morris, Manager, Engineering & Service, South Pacific District, and C. E. Hammond, Assistant Manager, will interview seniors in EE, EL, IE, ME, Math. (December graduates preferred.) General Meeting, Monday, November 18, Lib. 114, 4:00 p.m.

Tuesday, Nov. 19 UNITED STATES BUREAU OF RECLAMATION B. B. Barton, Placement Officer, and Walt Grady, Office Engineer will interview seniors in all engineering majors.

Tuesday, Nov. 19 FONTANA UNIFIED SCHOOL DISTRICT Alfred A. Aptus, Director of Personnel, will interview those teacher candidates interested in teaching in Fontana.

Wednesday, Nov. 20 U. S. ELECTRICAL MOTORS, INC. J. Martin Plummer, Supervisor of Personnel, will interview seniors in EE, EL, ME.

Wednesday, Nov. 20 NORTHROP AIRCRAFT, INC. Charles Griffith, Engineering Division, will interview seniors in Aero, EE, EL, ME, Math, Phys Sol.

Thursday, Nov. 21, Friday, Nov. 22 BENDIX AVIATION CORPORATION W. C. Walker, Engineering Employment Manager, will interview seniors in EE, EL, ME, Math, Phys Sol.

Friday, Nov. 22 MOTOROLA, INC. Casey Kasol, Personnel Manager, will interview seniors in EE, EL, Phys Sol, and ME for locations other than Riverside.

### Speaks At Convention

Norman Sharpe, head of the air conditioning and refrigeration department, will speak at the National Association of Practical Refrigerating Engineers' national convention in Chicago. Sharpe will speak Nov. 21 on "Humidity and Its Control."

## Hills holding you back?

Switch to Shell Premium with TCP and restore lost power while you drive!

Muffler Microphone Tests show why

Here's scientific proof that Shell Premium with TCP restores lost engine power. It neutralizes deposits which can cause even new engines to lose power in 3000 miles.

Before TCP

Muffler Microphone recording of an engine run on competitive premium fuel shows misfiring and power loss.

After TCP

After 3 tankfuls of Shell Premium with TCP, recording shows misfiring stopped, power restored.

Shell's trademark for this unique standing additive developed by Shell Research.

Only Shell Premium Gasoline has both **TCP** and **TOP OCTANE!**

## Big Green Bops '49ers, 41-7, For Sixth Victory

### Two Poly Entries In Bay Area AAU Gym Meet

Two Poly gymnasts—Herman Farlough and Artie Day—participated recently in an out-of-season meet when they entered San Francisco's Southern Pacific AAU affair at the Olympic Club.

Farlough, who amazed local followers last year with his rope climbing ability, garnered a first place in the event up in the Bay City. His time was 4.1 seconds. Day, a freshman, missed the scoring column and third place by 4/10 of a point in tumbling competition. Poly's gymnastic season starts next March.

### SJS and Long Beach Ruled Favorites In Water Polo Tourney

Long Beach and San Jose State's water polo squads are expected to fight it out for championship honors in the State Water Polo Tourney, hosted by Coach Dick Anderson's Mustang splashers, this Friday and Saturday, Nov. 22 and 23.

On the basis of season performance, Long Beach and San Jose are rated heavy favorites. Anderson feels that Long Beach should be given the nod because of depth and talented personnel. The southerners have one of the top five goalies in the nation in Dick Horn.

The locals fell to both SJS and Long Beach, but the Mustang mentor says he feels his own team could "get lucky" and defeat either of the favorites. He sees a fight between the Green and Gold and San Francisco State for third place honors. Los Angeles State is not figured in contention for top honors.

Action gets underway Friday night at 7 o'clock with games to be played.

In another session, two tilts

It was strictly "no contest" last Friday night as Poly's Big Green rolled to its sixth win of the 1957 grid campaign over the Long Beach State Forty-Niners, 41-7. The triumph saw the Mustangs of Silver Fox Hughes bounce back from the San Diego Marine defeat two weeks ago—the locals' only blot on an otherwise lustrous record.

Played on the losers' field, the contest saw the Big Green score on their initial march of the tilt. Walt Gurney boomed-in for the tally from one yard out to cap the 63 yard drive.

The Forty-Niners served notice in the first half that they were capable of playing a fine brand of ball, and held the locals to a 21-7 intermission lead. Mustang depth proved too much in the final canto, following a scoreless third quarter, when the Big Green tallied 20 points. Hughes cleared his bench against the losers, who have improved greatly over last year's contingent. Long Beach has been in football competition only a few seasons, and each subsequent Forty-Niner eleven has been an improvement.

Local followers' question of how the Mustangs would react following their first setback of the season, at San Diego, had the query answered Friday. (The Marines wound up their year by waxing the Hawaii Marines, 22-7, Saturday. They emerged victorious in ten encounters.) The decisive triumph over the southerners indicates the Big Green should continue their winning ways against San Francisco and Santa Barbara. Poly travels to the Bay City this Saturday night, and concludes the season Thanksgiving Day against Santa Barbara.

are scheduled for 10 a.m. Saturday. At 2 p.m. the final four encounters are to begin. Spectators interest has increased in the past season, and Anderson hopes for a large spectator turnout.

In 1925, Julian A. McPhen became the chief of the state bureau of agricultural education; in 1944, he accepted appointment as the state director of all vocational education in California.

See Here...

Pvt. Dunn

### Poly Cagers Show Promise In Scrum

A spirited scrimmage against Al Hobby's Colts last Friday indicated this Winter's Poly cagers will be a "typical" Ed Jorgensen club. The Mustangs displayed a lot of speed and hustle Friday—and a noticeable lack of height, Jorgensen, since his arrival at Poly, has never had an over-abundance of height, and has had to rely on smaller, scrappy, and speedy personnel. Despite an evidence of pre-season raggedness, the cagers did show spurts of promise in the scrum.

Biggest problem facing Jorgensen is to find a replacement for big Theo Dunn, who the Army has called. Flemen Hardy's unexpected departure was also a big loss. Dunn's 6' 5" frame, and 19.2 points per game average, will be sorely missed. The Mentor has

### Gauchos Defeat Poly Harriers

Santa Barbara College's Gauchos defeated Coach Jim Jensen's Poly cross country crew, 20 to 24 last Tuesday on the southerners' home course. The Gauchos captured the first four places, and the locals sopped the next five scoring places. Jensen's team travels to San Jose State, Nov. 18, to enter the SJS Invitational, and return to host the Conference run, Nov. 28.

been working Rich French, Jack Medrano, and Dick Russell at center, and has hopes that after football season, Bob Thetford will be able to give assistance in the position.

Coach Jorgensen stressed that although the team's chances this coming season have been narrowed by personnel losses, his cagers would still be out to make a "good showing" of themselves. The Mustangs open play Nov. 20 against an Alumni squad of former Poly cage greats.

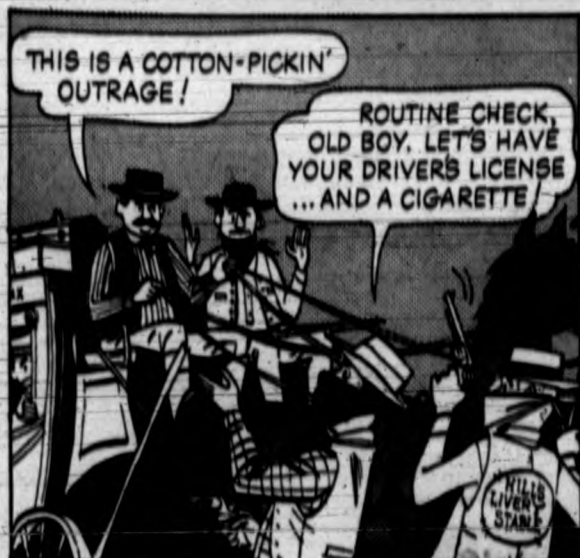

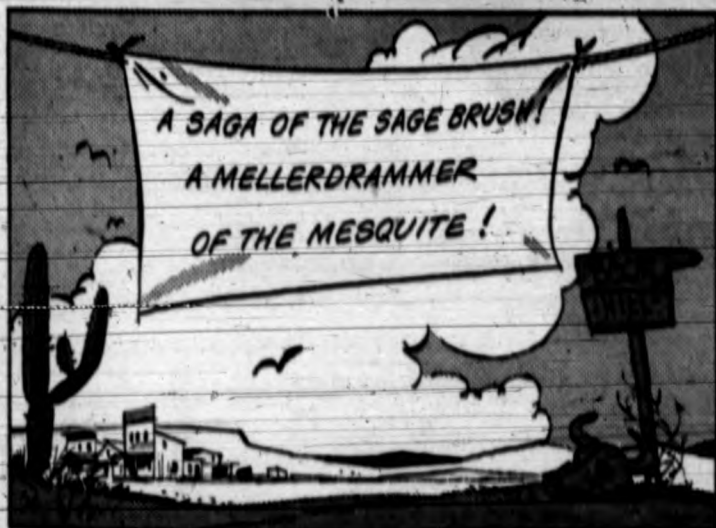

### Introducing—the Arrow Car Coat

Here's a wonderful coat for outdoor activity. It's windproof, water repellent, finger-tip in length—looks and feels great.
