## Foreman, Keyes, Mills Ready To Do Battle In Race For ASB Presidential Position

Lee Foreman is a junior Business major from Willits. His past experience in student activities are: Freshman Executive Council, Homecoming Committee Bonfire chairman, sophomore class president, Welcome Week Awards Committee, Inter-Class Council, vice-chairman, resident hall manager (Mariposa Hall), Homecoming Committee parade

Who is Jack Keyes? What has he done? What does he plan to do? These are three questions the majority of voters want to know. 1. Who is Jack Keyes? Jack Keyes is a junior, majoring in Aeronautical Engineering, minoring in Business Administration. His home is in Santa Barbara. 2. What Has He Done? He was Junior Class president,

A three way ticket is what presidential candidate Derek Mills is running on. He has teamed up with Dave Hettinga, vice-presidential candidate, and Peter Ashton, candidate for secretary. Mills is a junior, majoring in English and Social Science from San Luis Obispo. His qualifications are as follows: Board of Publications member,

LEE FOREMAN

JOHN (JACK) KEYES

DEREK MILLS

chairman, resident hall manager (Whitney Hall), Residence Hall Council, program chairman, Welcome Week Camp chairman. Foreman's platform consists of: 1. Plan to establish a program where by more students will want to take part in the activities sponsored by the Associated Stu-

## Three Vie For VP Position; Two Seek Secretary Job

Seeking the office of Associated Student Body vice-president are three candidates, two of whom represent the Arts and Sciences Division and the other is in the Agriculture Division. David H. Hettinga, a junior Dairy Management major from Westminster, lists the following as his qualifications: Los Lecheros Dairy Club president, 1960-61 and secretary in 1959-60; a member of the Western Regional Dairy Products Judging Team; and Alpha Zeta, honorary agricultural fraternity.

Hettinga's platform has been formulated jointly with Derek M. Mills, presidential candidate, and Peter Ashton, secretarial aspirant with combined efforts the three have promised to see that the minutes of the Student Activities Council are published in El Mustang, that the chairman of the Finance Committee is elected by the student body, to insure the students representation with the College Foundation, to establish an orientation program for foreign students and provide them with an advisor.

William Jan Arndt's experience in leadership includes: vice-president of the junior class, publicity chairman of the sophomore class, Fall and Spring Leadership Conferences, and Welcome Week executive and counselor.

His platform is based on a better informed student body. He intends to include more students in activities, indoctrinate new students to Cal Poly's way of life, complete the

incorporation of the student body, put campus radio into operation, and gather new ideas which will improve Poly Royal.

A third candidate for vice-president is Neil L. Norum, junior Business Journalism major from Pacific Grove. He has participated in the Press club, College Union Drama Committee and photo bureau.

His platform includes: Examination of the present election setup and suggestions for revision, placement of suggestion boxes around campus, more publicity of SAC and the printing of the minutes in El Mustang, the incorporation of planks of other candidates in the platforms of those who are elected to office, change of library hours so that it may remain open on Sunday afternoons, the appointment of defeated candidates to some position in student government.

In the race for ASB secretary are Pete Ashton and Mary Fran Crowe. The former is a junior Soil Science major from Northridge. He is a member of two Soils clubs, secretary-treasurer of the Soil Conservation Club and a member of Alpha Zeta.

Mary Fran Crowe, junior Ag Journalism major from Millville,

## Meet The Press Today At Noon

Today at noon in El Corral Snack Bar, a special program, "Meet The Press," is being sponsored by EL MUSTANG. The program is similar to the popular television show and will feature members of the EL MUSTANG news staff interviewing candidates for the offices of Associated Student Body President, and Vice-President.

Participating in the program will be Lee Foreman and Jack Keyes, presidential candidates; Jan Arndt, Dave Hettinga, Neil Norum, vice-presidential candidates.

The press will be represented by Mike Mattie, editor-in-chief, El Mustang; Bob Norton, news bureau chief; Jim Grundman, assistant public relations director, Poly Royal, and Bill Brown, associate editor, EL MUSTANG. Moderator is Robert Andreini, English instructor.

The program plans to be heated and exciting, with candidates being asked questions concerning their platforms. All members of the student body are urged to attend.

Her qualifications are: Board of Publications chairman, Poly Royal secretary this year and director of publicity last year. She is a past president and secretary of the Press Club.

Her objectives are: To give students a fair representation in student government, a more thorough communications system, enabling them to keep up on activities and events.

## Graves, Thomson Win Seats In City Election

Tuesday was a good day for two Cal Poly instructors as they were elected to the office of city councilmen and to the board of education in the San Luis Obispo city election. Winning candidates were R. L. Graves Jr., Architectural Engineering, and David Thomson, associate professor, Biological Sciences.

### SAC Report

## Defacing Campaign Material Forbidden

George Maybee, Election Committee chairman, asked Student Affairs Council Tuesday night for recommendations regarding action that will be taken against individuals who insist upon defacing campaign material. It was suggested the matter be handled by Security or the Advisory Commission, an organ composed of students and staff for the purpose of deciding jurisdiction of discipline.

Candidates seeking ASB office will attend a campus program Monday, 7:30 p.m. in the Air Conditioning Auditorium. "This is an opportunity for all the student body to ask questions of the candidates and we hope there will be a large attendance," said Maybee.

Glenn Douglas was accepted by SAC as representative from the Engineering Council. Douglas is replacing Herb Mueller for the remainder of the year.

A 25 cent admission will be charged for the Spring Sing performance May 7 on the Library steps. Money will pay for expenses incurred.

College Union Dance Committee was granted permission to keep \$356.71 left from their budgeted money. The unrealized income stems from the profit made at the Chris Barber dances held after fall quarter registration. They will use the money for future activities.

SAC accepted a recommendation by Finance Committee to charge admission fees of \$1 for adults and 50 cents for children to the spring football game, May 27.

A ceiling of \$5,000 was put on the amount of medical coverage that students can receive by SAC. The college will pay up to \$250 medical expenses which is the amount deductible on the insurance policy.

The Spring Leadership Banquet will be Sunday, June 11 in the student dining hall at 4 p.m. SAC members will be selling tickets to the steak dinner.

Graves defeated four other candidates for the city council position.

He received his degree of Bachelor of Architectural Engineering from the University of Kansas. At Auburn University he taught architecture and city planning. He is a past national president of Soarab, an honorary architectural association.

Thomson was elected to the board of education when he defeated five other candidates receiving 1946 votes, 869 more than his nearest opponent.

He received his Bachelor of Science degree in sociology at the University of Arizona and a masters degree in biology at Claremont graduate school, associated with Pomona College. At present he is working to complete his doctorate from the University of Oregon.

When notified of his victory, Thomson said, "I feel like an astronaut that has been just put in orbit. The send-off is successful, but now the big problems begin."

### Welding Instructor

## Tops In His Field

Richard C. Wiley, Metallurgical Engineering Department head, has been selected by the American Welding Society as one of the two most outstanding educators in the United States in the field of welding education.

Wiley was notified that he is a recipient of the Adams Memorial Award in recognition of his outstanding national contributions to the field of welding education.

He has been department head since 1946, following extensive experience in the welding industry. In addition to membership in the American Welding Society, he is affiliated with the American Society of Mechanical Engineers and the American Society for Metals.

The award will officially be made in New York City, April 17 by R. D. Thomas Jr., president of the American Welding Society.

## inter - nationally

Edited by RALPH HINDS

MOSCOW—Major Yuri Gagarin, 27, Russian officer, became the first man to enter orbit and be returned from orbit early this week, according to Radio Moscow. The five ton space ship kept him aloft 89.1 minutes for the 20,000 mile trip, ranging from 107 to 187 miles above the earth. Upon landing he said he felt "fine." Soviet scientists explained that the speed of the ship was too great for it to be controlled by mechanical devices and that the major went along "just for the ride." The ship was controlled along its path from the ground.

WASHINGTON—President Kennedy congratulated Soviet scientists and engineers for their feat in putting a man in space and returning him safely. The president said that American's Mercury man-in-space program "is directed toward that same end."

JERUSALEM—Adolph Eichmann sat "stony faced" in his bullet proof glass cage for nine hours listening to Israeli Attorney General Gideon Hausner attempt to prove legally the Israeli court's right to hear the Eichmann case. The previous day, German defense counsel, Robert Servatius, had tried to prove the country had no right to try the case and that it should be handed over to an international court.

CAPE CANAVERAL—Rough seas forced the Air Force to abandon a search for a 90-pound instrument capsule fired from here aboard a Blue Scout II rocket. It was part of 865 pound payload sent up to study radiation.

## 'Alexandria Quartet' Reviewed At Books At High Noon

Derek M. Mills, junior English major, will review Lawrence Durrell's intensely poetic "Alexandria Quartet" on April 18 during Books At High Noon to be held in the Staff Dining Room. The epigraph to the "Quartet" quotes from Freud, "I regard every sexual act as a process involving four persons." On this basis Durrell builds a series of four novels and examines his characters in relation to the four dimensions and to the city in which they live.

## Campaign Carnival Tomorrow Night In Crandall Gym

Under the direction of College Union Socials Committee, a campaign carnival will be presented in Crandall Gymnasium from 8 to 11 p.m.

## No Recognition To Discriminant Group

Recognition has been denied by the Board of Trustees of the California State Colleges to any fraternity or society which restricts membership on the basis of race, religion or national origin.

The action applies not only to fraternities and societies but to living groups, honor societies and other student organizations.

Under the resolution passed, no state college shall recognize any organization of this type which has in any fashion a membership policy requiring discrimination on race, religion, or national origin.

The state college trustees' resolution also deals with the question of penalties or discipline which the national governing body of an organization might attempt to take to enforce a membership policy of discrimination at any branch or chapter at a state college.

The penalty outlined by the trustees for such an attempt would be withdrawal of recognition by all state colleges.

Dr. Don B. Leiffer, administrative officer of the Trustees of the State Colleges, has written to the state college presidents asking that they supply the full facts on any discriminatory action so that the trustees may be informed and enabled to take the necessary action in conformity with the resolution which they have adopted.

## Architects Receive \$100 Donation

Joel A. Rottman, project manager for the Noxon Construction Co., Los Angeles, and a 1959 Cal Poly graduate, donated \$100 to the Architectural Engineering Poly Royal exhibit.

Rottman said he realizes the long hours and expenses incurred by students in constructing the departmental exhibit that annually draws thousands of people to the college and the department for bringing such high quality to its public exhibits.

George Hasslein, Architectural Department head said, "Mr. Rottman's interest and the Noxon Company's financial assistance is appreciated very much. They are interested in Cal Poly graduates and in our architecture program that is so closely related to industry".

Rottman has promised to appear at a senior seminar class this spring and will be in attendance at the department's annual banquet during Poly Royal, Saturday, April 29.

## Really Big Show At Home Concert

Tickets are still available for the Home Concert scheduled for tonight at 8 o'clock in the Men's Gymnasium.

The Home Concert is the major show of the year for students participating in music groups. Other than two College Hour concerts, this is the only time that the Men's and Women's Glee Clubs, Majors and Minors, and quartet and sextet give a performance which is open to the students and general public.

According to director H.P. Davidson, all proceeds from this concert will go into the Associated Student Body fund.

Tickets may be obtained from the ASB office, or from any student participating in one of the performing music organizations. The price of the concert is \$1.25 for adults and 75 cents for students.

## Program Initiated To Aid JC Students

A team of curriculum coordinators from Cal Poly met with educators at four Southern California junior colleges yesterday and today. The purpose is to aid students transferring from junior colleges to Cal Poly campuses.

The articulation sessions are part of a state-wide program being conducted by Cal Poly as a service to the state's junior colleges. The program is designed to familiarize the colleges with Cal Poly's curriculum requirements, so that students who plan to transfer to Cal Poly campuses at San Luis Obispo and Pomona can do so without losing college credits.

The team visited Palomar College, San Marcos and Oceanside College and Carlsbad yesterday. Today they are meeting with administrators at Palo Verde College, Blythe, and Imperial College.

Representing the San Luis Obispo campus are Roy E. Anderson, dean of Arts and Sciences; Lyman L. Rannion, head of the and J. Philip Bromley, curriculum coordinator.

## First Night Club Proves Successful

The first experiment in a new kind of College Union entertainment was introduced last Friday with the first opening of the College Union Night Club.

Forty-three couples attended the club, "which would classify as a great success," according to Bob Davidson, chairman of the College Union Dance Committee. "We wanted to find out if the campus wanted something of this type and it seemed to be fairly popular. We had requests for such a club on a weekly basis and requests for one on a monthly basis."

Davidson said that the committee will meet to discuss the probability of having 2 or 3 clubs a quarter.

## Roving Reporter

BY MIKE CASSITY

What is the most important single quality that a candidate should have to be elected to A.S.B. president?

This is the question that should flow through everyone's mind before student body elections next Tuesday and Wednesday. Here's how some of the students see the question:

Bill Pate, senior, Technical Arts. "Honesty! Honesty is self-explanatory in that it is the basis of any government—be straight for ward so that everyone will know what is happening."

Jayne Oman, freshman, Elementary Education. "The candidate should be willing to work hard and have good leadership. Their past experience in committees and other student body activities as far as leadership goes, should be considered."

Barbara Wright, senior, Physical Education. "Sincere interest in school. Active in a lot of things concerning the school in the way it is organized so that he may know what is expected of him."

Sal Jacobs, senior, Business. "Should have spirit or desire to work as hard as possible in a fair manner to represent all factions of the student body."

Hobbi Noeggerath, junior, Physical Education. "I think that a person is elected if he should put a great deal of time in work and shouldn't take it if he couldn't fulfill his duties."

Frank Garcia, junior, Physical Education. "He should actually try to set out to do what he says he will do. Set up a platform which he can back up."

## Noted Italian Architect Speaks At Santa Maria

Italy's Bruno Zevi, one of the world's foremost architectural critics, will address a public meeting at the Allan Hancock College Auditorium in Santa Maria, April 17 at 8 p.m. His address is in connection with the University of Southern California's 21-day Italian Perspectives program.

Architect, author, editor, publisher and educator, Zevi will fly from Rome to Los Angeles to appear on the USC program which salutes the Italian Unification Centennial and the culture contributions which Italy has made to the western world. "Italian Architecture Today" will be the subject of Zevi's talk.

## Swimmers Meet Fresno Tonight; Cal Aggie Relays Tomorrow

A 16-man contingent of swimmers from Cal Poly will be the hosts of Fresno State College tomorrow in a dual meet at the Bulldog's pool. Tomorrow the squad will travel to Davis to participate in the annual relays.

Last year the Mustangs took second at the relays, being edged out in the final events by the San Jose Spartans. Coach Richard Anderson was confident that the undefeated Mustang squad could do as well as last year and maybe even better than the second place finish of last season. The Mustang record this year stands at five victories and no defeats.

The traveling squad for these two contests consists of Bill Murr,

## Baseball In Trio Of Weekend Games

Coach Bill Hicks and his varsity horsehiders plan to get back on the winning track this weekend when they invade the San Jose Spartan campus to begin a three-game set, one game today at 8 p.m., and a double-header tomorrow at 12:30 p.m.

This will be a return match between the two clubs with the Mustangs holding a 2-1 advantage. In the previous meeting this season San Jose won the first contest 7-1. The Mustangs bounced back the following day to sweep the double-header in two close contests 7-6, 11-10.

Cal Poly carries an 11-18 record into the skirmishes. In CCAA play the squad now stands at two victories and four defeats after getting bounced around by the Fresno State Bulldogs last weekend.

The Mustang batting attack is led by Ken Anderson (.400), Cam Hunt (.328), Jim Harper (.329), and Jerry Williams (.350). Anderson and Williams have each smacked four round-trippers this year.

Renny Russell (.286), Rally Rounsaville (.210), Bill Locatelli (.192) or Wayne Maples (.176), and Walt Welmer (.245) will make up the probable starting line-up for the games. On the hill will be Dick Guerra (4-5), Bruce Anderson (2-2) or Ray Walters (0-1).

## Palm Springs Site Of Golf Tourney

Palm Springs' Bermuda Dunes Country Club will be the scene of the Southern California Intercollegiate Golf tournament today with Coach C. J. Hanks taking his squad into the tourney.

John Callin and Buddy Joe Petty head up Coach Hanks' list of performers. Terry Inglett, Warren Jones, Steve Wilburton and Ford Willey round out the squad.

In the last outing for the Mustangs, Santa Barbara was soundly beaten 50-4 on the San Luis Obispo fairways.

## Scholarship Awarded To Printing Student

Roy Crenshaw, Printing Engineering senior, has been awarded the 975 Ed Strong Award donated by the Ladies Auxiliary of the Sacramento Club of Printing House Craftsmen.

Crenshaw is a member of Mat Pica Pl, and has been accepted for membership in the Central Coast Printing Craftsmen's Club.

Basis for the award was scholarship, need and the potential of a continuing career in the printing or graphic arts fields.

## Intramural Sign-up For Softball Open

Intramural chairman Bill Miller has announced that there is still room for more softball teams to sign up for the league that will begin next week. Rosters for the teams may be placed in the Intramurals box in the new Men's Gymnasium.

Miller also announced that the six-man volleyball tournament will be held the week of May 8-12. Badminton will be May 18-19. Mixed volleyball will be May 22. Although no date has been set for the handball competition sign-up, Miller is taking the names of those interested.

April 24 is the date set for the meet which will feature all types of track and field events.

## Fresno State 4-3 Over Poly Netters

Fresno State played a rude host to Cal Poly last Monday when they edged the local netters 4 to 3 to give Coach Ed Jorgensen's men a one win-three loss record in CCAA action.

Marshall Wright and Rawson Lloyd were the only singles winners for the Mustangs. Wright downed Mike McNally 7-5, 6-3 and Lloyd defeated Mergs Morales 6-0, 6-1. Lloyd and Don Lord teamed up to grab a victory over Wayne Rixler and Morales 6-3, 7-5.

Rixler (FS) defeated Lord (CP) 6-3, 6-2; Terry Cress (FS) defeated Tom Lingham (CP) 6-2, 5-7, 6-3; and John Jerrett (FS) defeated Bhavash Bahador 8-6, 6-4, 6-4 in the other singles matches. Cress and Jerrett defeated Lingham and Bahador in doubles 7-5, 9-7.

Tomorrow the Mustangs travel to Santa Barbara to meet the Westmont Warriors in a return engagement. Westmont was on the short end of a 7-2 score in the last meeting.

## '59 Class Donate Money

The Class of 1959 has donated \$255.22 to the Cal Poly Memorial Fund. Daniel T. Haley, class president says, "It was brought to our attention that we had this money—and felt it was the best place for it. We hope individual members of our class, as well as those of previous classes, will increase this total."

## Santa Barbara Track Host

Still undermanned, the Cal Poly track team under the tutoring of coach Walt Williamson will storm into Santa Barbara tomorrow at 2:30 p.m. to meet the Gauchos of the University of California in a CCAA battle.

Though boasting some fine individual performers, the Mustangs lack depth and have also been hit by injuries this season. In tomorrow's meet, the Mustangs will be unable to field entries in the mile, low hurdles and relay, and in seven events they will have only one contestant competing for the top honors.

Louis Rodriguez, Tom Paganl, and Dennis Jones carry the strength of the team on their events, the 220, shot put and high

jump respectively. Along with eleven other Mustangs these three will be out to upset one of the tougher teams in the CCAA.

Coach Williamson will also enter in the meet: Andy Boyd, 100 and 220; Bill Hammet, 440; Jack Westford, two-mile; Ingo Hallsteinsson, javelin and high-hurdles; Bill Warmerdam, high jump; Bob Eberhart, high jump; Hiro Okawachi, high jump and broad jump; Leony Lafferty, broad jump; Fred Whittingham, shot-put and discus; Gary Kuhn, pole vault; and Bob Whitted, javelin.

The first NCAA-sponsored golf championships were held in 1920 at the Wakonda Country Club, Des Moines, Iowa.

## Is your future up in the air?

As the communications needs of our nation become steadily greater and more complex, the Bell Telephone System is continuing its pioneer work in microwave by "taking to the air" more and more to get the word across.

To this end, Western Electric—the manufacturing arm of the Bell System—has the monumental task of producing a large part of the microwave transmission equipment that knits our country together by shrinking thousands of miles into mere seconds.

In spite of its great technological strides, the science of radio relay is a rapidly-changing one. And new break-throughs and advances are common occurrences. A case in point: our Bell System "TH" Microwave Radio Relay. This newest development in long-distance telephone transmission will eventually triple the present message-carrying capacity of existing long-haul radio relay installations. A full-scale system of 8 working and 2 protection channels can handle 11,000 telephone messages at the same time.

To make microwave work takes a host of special equipment and components: relay towers, antennas, waveguides, traveling wave-tubes, translators, etc. But just as important,

it takes top-caliber people to help us broaden our horizons into such exciting new areas as communication by satellite!

And microwave is only part of Western Electric's opportunity story. We have—right now—hundreds of challenging and rewarding positions in virtually all areas of telephony, as well as in development and building of defense communications and missile guidance systems for the Government.

So, if your future is "up in the air," you owe it to your career to see "what's up" for you at Western Electric.

Opportunities exist for electrical, mechanical, industrial, civil and chemical engineers, as well as physical science, liberal arts, and business majors. For more information, get your copy of "Western Electric and Your Career" from your Placement Officer. Or write College Relations, Room 6186, Western Electric Company, 195 Broadway, New York 7, N. Y. And be sure to arrange for a Western Electric interview when the Bell System recruiting team visits your campus.

Principal manufacturing locations at Chicago, Ill.; Kearny, N. J.; Baltimore, Md.; Indianapolis, Ind.; Allentown and Laureldale, Pa.; Winston-Salem, N. C.; Buffalo, N. Y.; North Andover, Mass.; Omaha, Neb.; Kansas City, Mo.; Columbus, Ohio; Oklahoma City, Okla.; Engineering Research Center, Princeton, N. J.; Teletype Corporation, Skokie, Ill.; and Little Rock, Ark. Also Western Electric distribution centers in 23 cities and installation headquarters in 16 cities. General headquarters: 195 Broadway, New York 7, N. Y.

## Out Of The Din

Contributions to "Out Of The Din" should not exceed 175 words. Editors reserve the right to edit and/or condense all letters received and to decline publishing letters that are in the opinion of the editor, in poor taste or libelous. All communications must be signed by the writer. If a non de plume is desired as a signature, it is permissible, but the Editor must know the true identity of the author.

### Advice From Chandler

Dear Editor:

Recently an incident has come to our attention which caused a considerable public relations problem in the community. One of our student organizations went directly to the members of our community for solicitations of money and goods without approval of our Public Relations Director Vincent Gates.

If the event and the nature of the goods are appropriate and if there are not too many other people seeking the same type of items at the same time, Mr. Gates will provide an identification card and notify the Chamber of Commerce.

This prevents undue poor public relations from reflecting back on the entire college. It is realized that many groups are unaware of the necessity for such a check, but I am sure it can be understood when it is realized that we have many campus groups, each operating somewhat independently.

Everett M. Chandler  
Dean of Students

### Keep Up the Good Work

Dear Editor:

Congratulations to the El Mustang staff for a job well done on last Tuesday's issue. Your columns Internationally and Roving Reporter are examples of the type of news coverage we have needed more of in the paper. The story on the Peace Corps was also good.

Here's hoping that the staff will continue coverage of domestic and international news.

Stan Kellerup

### Foreman

(Continued from page 1)

dent Body.

2. Devise a program where the Student Body is more informed on what Student Activity Council does and why it does it. Encourage people to attend the SAC meetings and express their own feelings and views.

3. Investigate the possibility of doing something about the school calendar so that the students will receive a more deserving break between quarters.

4. Improve our activity program and provide more activities with the least amount of expense, such as additional 10 cent movies during the middle of the week, having the gymnasium kept open on weekends, and continuation and advancement of week-night dances in the El Corral.

### Kellogg-Voorhis Enrollment Up Twenty-Five Per Cent

Kellogg-Voorhis officials announced that the enrollment for Spring Quarter at the southern campus reached 8087 at the close of late registration April 8.

New students totaled 192, and 1845 were regular students. According to the division breakdown, 544 had enrolled in Agriculture, 1101 in Arts and Sciences, and 707 in Engineering.

The enrollment revealed a 25 per cent increase over the Spring Quarter last year.

### Keyes

(Continued from page 1)

tion"—students involved in activities on campus that benefit a larger part of the student body, should receive more recognition through the organization than they are presently receiving.

"Promote Greater Intra-Campus Communication"—students should be informed more on developments that occur on campus by greater use of El Mustang and the proposed campus radio. This would eliminate misinterpretation of happenings by students.

"Prevent A Cultural Desert"—that activities, concerts and events be geared to the tastes of the general student body. We should encourage name personalities and speakers to our campus so that the benefits will be gained by all majors.

If you think that to grow a beard is to acquire wisdom, a goat is at once a complete Plato.

— Lucian

### JIM SAYS . . .

BY JIM JOHNSON

This column will be an attempt to better inform the users of photography as to the latest developments in the field and also to take up specific problems that come your way as you try to obtain pictures for your senior projects or term paper or whatever your particular need may be.

We at the Cal Photo Supply have not only the latest and best in photo goods and supplies but more important we have experience in applied photography.

The teaching philosophy "learn by doing" has been demonstrated to be no better way to learn photography the practical method. I can think of than by doing. However it is a very broad field and to some people it is merely snapshooting while to others it involves some of the most difficult complex chemistry known to modern scientists.

Only within the last 10 years have photo chemists made any positive statements as to the action of light on a film. The action has been observed and put to practical use for many years but it was not completely understood and is not at this time.

Your questions and problems are hopefully collected in order to make this column of value, and of course for your photographic needs let us serve you at the

### Graduation Check

Students not enrolled during the Winter Quarter 1960-61 and who have returned for the current Spring Quarter expecting to complete graduation requirements should report to the Recorder's Office, ADM, 102, to make arrangements for a complete graduation check. This will involve the completion of application for graduation forms and the payment of the regular \$10 graduation fee.

Graduation applications for the June 17 commencement exercises must be made prior to April 20.

### Mills

(Continued from page 1)

Symphony host on KSLY Radio Station.

The Mills, Hettings, Ashton platform stresses great importance on student participation and action in student government.

They believe that students should have more voice in government, more direct control of finances and that student government should represent all students.

Their efforts are combined to include: Student Activity Council minutes be published in EL MUSTANG, chairman of Finance Committee be elected by the Student body, students have a voice in planning of the College Foundation. An International House, an orientation program and a foreign student adviser be established for foreign students.

### Saturday Night Movie Stars Bogart In 'Maltese Falcon'

"The Maltese Falcon," movie scheduled for this Friday, has been changed to Saturday with showings at 7 and 9 p.m. in order to avoid conflict with the Home Concert. The suspense filled mystery will be shown in the AC Auditorium.

### Add - Drop Cards

Monday is the last day to turn in add-drop cards and the last day to drop classes. All class changed cards must be turned in to the departmental advisor.

Failure to turn in means missing an administrative appointment with a fine of two dollars.

### Poly Guernsey Cattle Set New Records

Polytechnic Japan Mirth, a registered Guernsey cow, has set an official Herd Improvement Registry record. The new record is 11,809 pounds of milk and 870 pounds of butter fat, the American Guernsey Cattle Club has reported.

Polytechnic Knight Kathy, a registered Holstein cow, established a new high for junior 2-year-olds for her breed. Her record was set with an official 885-day production total of 80,540 pounds of milk and 885 pounds of butterfat.

A room hung with pictures is a room hung with thoughts.
