Edited by RALPH HINDS

MONTGOMERY Ala.—The Federal Government armed with a newly-issued court injunction against the Klu Klux Klan, took stern action to prevent further race rioting in Alabama. Governor John Patterson angrily threatened U. S. marshals with arrest if they attempted to intervene in the law enforcement.

WASHINGTON—The Federal Government appears ready to use whatever force it feels necessary to prevent recurrence of the bloody racial violence in Alabama.

GENEVA—Soviet diplomats issued veiled warnings that President Kennedy will meet with failure if he "talks tough" with Premier Khrushchev at the forthcoming meeting in Vienna.

NEW YORK—The Murphison Brothers of Dallas have won control of \$6.7 billion investment empire of Allegheny Corp. in the century's biggest proxy fight.

WASHINGTON—Senator Bridges (R-N.H.) endorsed the Joint Chiefs of Staff while Senator Gore (D-Tenn.) charged anew that the top military men "blundered incredibly" in the Cuban invasion and should be ousted.

WASHINGTON—James E. Webb, head of the federal space agency, said about a dozen women have undergone training at a New Mexico medical clinic as possible U.S. astronauts. Webb said, however, that there were no present plans to use them.

ALGIERS—Moslem nationalist rebels staged hit and run raids and terrorist attacks at several spots in Algeria in defiance of the French army's unilateral cease fire.

MIAMI—A search for millions of dollars to ransom 1,200 rebels held in Cuba went forward, inspired by the arrival of 10 representatives of the captives in Miami. Cuban Prime Minister Fidel Castro has offered to release the prisoners for 500 American bulldozers.

DUNOON, Scotland—American soldiers squirting fire hoses hurled back a wave of pacifist demonstrators trying to clamber aboard the Polaris submarine base ship Proteus in Scotland's Holy Loch.

Publications Jobs Selected By Board Gala Activities Set For Spring Weekend

Penny Gardner, junior Home Economics Journalism major from Santa Rosa, was elected to head the 1961-62 Board of Publications, the board announced this week.

A past EL MUSTANG day editor and present reporter on the paper's staff she will take over as chairman in the fall. Miss Gardner will also be the board's representative to Student Affairs Council.

William M. Brown, junior Community Journalism student from Torrance and present Friday editor of EL MUSTANG, was elected to the post of editor-in-chief for the Fall Quarter.

Next year's EL RODEO editor will be Sherwood "Woody" Smith sophomore Business and Industrial Journalism major from Martinez.

Mary Fran Crowe, the out-going board chairman and next year's ABB Secretary, was elected as business manager for publications. She is a junior Agricultural Journalism student from Millville.

EL MUSTANG advertising manager for next year is David Brown, an Agricultural Journalism Sophomore from Yucaipa.

Clarify Some Points

Kennedy, Hughes Explain Guidelines

Vice President Robert E. Kennedy and Athletic Director LeRoy B. Hughes issued a joint statement to clarify some questions raised as a result of the publication of recent articles on the college's "new athletic policy."

"Probably ninety per cent of 'new' athletic policy was based on previous practices and precedents spelled out in detail for the future guidance of coaches, administrators and student body officers," said Vice President Kennedy, who served as chairman of the Athletic Policy Committee at both the San Luis Obispo and Pomona campuses.

"Our athletic program under the guidance of Roy Hughes during the past eleven years has been highly successful. He has had to compete against colleges which had much more financial backing than the student body or the San Luis Obispo community could afford to provide. But the Mustangs did well despite any disadvantages. Coach Hughes has always stayed within the bounds of conference rules and ethical practices," Kennedy said.

"The attempt to intensify the intra-mural program is a logical step for a college with a large on-campus resident student body. It is incorrect to assume that expansion in this area of student activity will have an adverse effect on inter-collegiate athletics," Kennedy added. "It is our hope that Cal Poly teams will continue to have community support, particularly in terms of funds contributed for scholar-

ships to be made available through regular college scholarship screening procedures for student-athletes who meet all requirements and have better than average grade point record," he added.

Roy Hughes said, "Those who believe that there is a connection between the new athletic policy and my stepping down as head football coach after the completion of the Fall 1961 season are wrong. I applied in writing through Dean Everett Chandler, dean of students and my immediate supervisor, as early as January 1959, and on two other later occasions, asking to be relieved of my head football coaching duties. My desire to be relieved of that assignment was in no way connected with either the athletic policy or the air crash last Fall. I, personally, asked to coach the team in 1961 and then step down; this request was accepted."

"Under the new athletic policy student athletes will definitely be sought after if they qualify academically and athletically," said Hughes. "I hope that funds for scholarships will be furnished by the Booster Club, as they have in the past—only with more funds available for more scholarships to more deserving boys," Hughes said.

want the Booster Club and other interested townspeople to know that I am 100 per cent behind the athletic program guidelines and encourage them to support athletic programs at Cal Poly so we can continue to have representative teams in all inter-collegiate sports," Hughes concluded.

ships to be made available through regular college scholarship screening procedures for student-athletes who meet all requirements and have better than average grade point record," he added.

ships to be made available through regular college scholarship screening procedures for student-athletes who meet all requirements and have better than average grade point record," he added.

Slawson Here Today

Peace Corps Sets Test Dates, Times In San Luis Office

A list of Peace Corps testing dates and testing centers was released this week. Tests will be conducted Saturday May 27 and Monday June 5 in Room 2A, Temporary Post Office, 1285 Morro St., San Luis Obispo. The tests will start at 8:30 a.m. both days.

Paul Slawson, Peace Corps representative from Washington D.C., will be on campus today for consultation with students interested in the corps.

Interested students should pick up applications in the Placement Office, Adm. 203, to make appointments to talk with Slawson.

From a bulletin, R. Sargent Shriver, director of the Peace Corps, urged all interested students to take the Peace Corps Entrance test, the first step in joining the Peace Corps. The test will be given on the dates indicated below for volunteers with different interests.

Saturday, May 27. All volunteers who wish to be considered for the variety of Peace Corps positions should take this test. It will qualify volunteers for engineering positions, elementary education, English teachers as a second language, agriculture or animal husbandry, road builders, and constructors of schools and farm buildings, in community development projects, in health programs, and in similar projects.

Monday, June 5. This examination is for volunteers who wish to work only as secondary school teachers of English, biology, chemistry, physics, and mathematics. Candidates for this examination must have a baccalaureate degree by June 30, 1961. A teaching certificate is not required, though education courses will be helpful.

If desired, you may take both tests, however, only one is required for acceptance. Taking both tests would possibly qualify you for all projects.

The examination will start promptly at 8:30 a.m. There is no passing score for the Peace Corps test. Different assignments will require different abilities.

Third In Science Series

'Automated Instruction,' Varian Specialist Topic

Dr. Robert Mager, a nationally known research specialist in human learning, will speak on "Automated Instruction Increasing Individual Learning" tomorrow evening at 8 o'clock in the AC Auditorium. Dr. Mager, researcher, teaching machines, Varian Associates, Palo Alto, is a graduate of Ohio University and the State University of Iowa, where he received his doctorate in experimental psychology.

At the present, Dr. Mager is conducting basic research in the

DR. ROBERT MAGER

area of instructional automation for the Central Research Laboratory at Varian Associates, Palo Alto.

Three Pointed Objections:

Campus Radio Not Ready Says Finance Committee

Finance Committee unanimously voted NOT to include campus radio in the 1961-62 budget. The action came following a request from Student Affairs Council last week that Finance Committee review their previous decision on the radio issue. Campus Radio is asking a budget of \$800.

Finance Committee outlined objections to the radio proposal as follows:

1. Investigations by the Finance Committee indicate that despite all that has been said, campus radio does not at this time have clearance on a broadcasting headquarters.

2. The Finance Committee tried to interpret what they understood was the ABB feeling this year.

Injured Rodeo'ers Recovering Rapidly

French Hospital reports that there is a definite improvement in the condition of Dale Coyer, Technical Journalism major from Sioux City, Iowa, who was seriously injured during the Poly Royal rodeo.

Coyer, who has fully regained consciousness, is now allowed to sit in a chair for a short time and can have visitors during the regular hours.

Jim Brown, Technical Arts major from Maxwell, was injured last weekend while competing in the bareback bronc event at an amateur rodeo held in Maxwell.

The Cal Poly junior suffered a broken back and is now hospitalized in Colusa.

This was Brown's first try in the bareback event and he is expected to be in the hospital for three more weeks.

Prior to joining the Varian Research staff in early 1959, Dr. Mager served for five years as a research scientist for the U. S. Army's Air Defense Human Research Unit at Fort Bliss, Texas.

Dr. Mager is a member of the American Psychological Association, Sigma Xi, and past chairman of the El Paso Section of the Institute of Radio Engineers. He has lectured on and taught such subjects as broadcasting techniques, radio and television announcing, business speech, psychology, and learning techniques. He is the author of several scientific papers on various aspects of human learning and technical writing.

Major emphasis of Dr. Mager's research has been in discovering and defining new techniques in the field of human learning. He has employed his knowledge of electronics in searching for new equipment to aid, speed and improve the learning process.

This is the third illustrated talk in the "Science For The Layman" series presented by the Physical Science Club and California Student Teachers Association. The fourth in the series will be presented next Wednesday evening and will feature Gerald Lewis, assistant manager, Shell Chemical Co., Ventura.

This was that the absence of an affirmative vote on the election for an increase in fees, no new activity that was not self supporting would be budgeted.

3. The Finance Committee do not feel that their recommendation is the end of campus radio. They are against the attempt to tie up money on an idea that has not been completely worked out. If completed and approved plans are presented there undoubtedly will be funds available to finance it.

Summing up the proposal, Robert Beater, finance chairman said, "They have not presented enough material to show that they completely have worked out plans for the radio station."

Derek Mills, campus radio program director said, "Finance Committee has been very short sighted in calling campus radio a new group when it has been proposed for the last 10 years. Furthermore, I believe that each new activity should be weighed on its merits against old budget groups, thus giving all groups equal consideration."

A finance committee spokesman said that if SAC still wants Campus Radio in the 1961-62 budget, they will present budget adjustment recommendations for financing the \$800 request when the general budget is put towards SAC for its approval.

Change of Address? Notify Post Office

Students who plan to be away from their Cal Poly address this summer are urged to file a change of address with the Post Office. The action is necessary, Post Office officials pointed out, to insure efficient mail service.

Change of address cards may be obtained from the Post Office.

Roving Reporter

BY MIKE CASSITY

Recently, the educational film "A Normal Childbirth" was shown to various Family Relations and health education classes. As in the past, some students expressed strong objection. Should this movie and other enlightening topics be presented to co-educational classes at the college level?

Sherrie Lane, sophomore, Elementary Education, Fairfield: I thought the movie was very good but some of the fellows got sick. I think because it was co-educational they took it more seriously. And, to the people who object to this movie, all I have to say is that people are afraid of only what they don't know. It's about time people woke up to the fact that this is a changing society and we must adjust to it!

Mr. Robert Andreini, English Instructor: It should be done in junior high! If they don't know this information by the time they reach college it could potentially result in many unwed mothers. The people who object to this are

probably the ones that need it the most.

Bill Sutton, freshman, Electronics, Santa Cruz: Yes. Sex is a part of life and to understand life is to know sex. In college we should know about sex and if not, it's about time we learned. Certainly the movie should be shown.

Sandy Wherry, sophomore Home Economics, Los Gatos: Yes, it should. I think it's a normal process. When we're married discussion will naturally take place between husband and wife. Sex is something natural and should be discussed at early ages. In addition, each sex member would like to know the other's point of view.

FIM SAYS . . .

By Jim Johnson

Let's take a look at the composition of a typical compensating developer. First of all a reducing agent is needed to change the silver salt in the emulsion to metallic silver, thereby darkening it and forming the image on the film. The most common of these is Elon. This reducing agent has an affinity for Oxygen and after a short while in solution loses its strength if not protected. This is where Sodium ascorbate the Oxygen and protects the Elon from oxidation. Some formulas also have a small amount of Potassium Bromide in them to restrict the action of the developer and give it balance but the most successful method is to utilize the bromide that is released from the emulsion. This is the origin of the term Compensating. Because the highlight areas of the latent image received more light than the shadow areas, there will be greater build up of silver there and consequently a greater release of bromide. As this bromide is released it has a restraining effect on the development in that area and lets development continue in the shadow area. This is accomplished with near perfection and no other formula can hope to compare as far as the final image quality is concerned. More later. In the mean while, come see us at the

Applicants Sought For Writing Jobs

There are job opportunities for news writers open for Fall quarter. These jobs will be compensated at the going student rate of pay on campus. Direction will be under the College News Bureau, in cooperation with the Associated Student Body and graduate manager.

Duties will include reporting and writing of college athletics, student body activities, College Union events and similar news. This will necessitate personal coverage of some events and athletics at night. It is preferred that the writers have had some previous sports writing practice. An attempt will be made to correlate the work schedule with the successful candidate's academic schedule.

For further information contact Clyde Hostetter, Technical Journalism department head; John Healey, Journalism instructor, or Vincent Gates, college public relations director.

Picture Contest Deadline May 31

All pictures entered in the Campus Photo contest are to be turned in to the Activities Office to Arlene Vokoun before 5 p.m., Wednesday, May 31.

The contest is open to all students. The five divisions to be entered are: action, scenery, people, and snap shots (any size). There will be a grand prize of \$8 plus individual class prizes of \$2.50.

All pictures in the first four groups shall be 8 inches by 10 inches, black and white. A maximum of six prints will be allowed per person. All pictures will be returned, and no previous winning photos are eligible.

The Camera Guild darkroom facilities will be available for developing and enlarging contest entries.

Architects Win 13 Awards

Five hundred Architects, alumni, students and guests recently attended the Architectural Engineering Department Annual Awards banquet in the Veterans Memorial Building. Justin Merman, Executive Director of the San Francisco Redevelopment Agency, was guest speaker for the banquet, speaking on his concept of present and future city planning.

Receiving awards for excelling in scholarship with emphasis on major work in their respective college class were Fernando Chavez, freshman, receiving the John Badgley award; Sandy Merriam, sophomore, receiving the Dr. Albert Gasin award; Junior Connie Nash receiving the Law Little award and John Shaffer, senior, receiving the Hewson House award.

Robert Engman, sophomore, won the Graham Paint Store award of \$25 in materials; Dan Della, senior, was presented the Jones and Emmons Medal for outstanding ability in presenting designs graphically. Winner of the Clayton Kants award was Richard Dobell, senior, for outstanding ability in three dimensional presentation. Tom Mathew, won the William F. Cody award for the outstanding junior design student. The G. Hall Landry award was won by John Shaffer, for the outstanding engineering student in the senior class.

Edith Ritter award for the junior student contributing most to the Poly Royal exhibit was presented to Leland Dupper. Design competition sponsored by the Seagrab Fraternity was won by Art Kishiyama, sophomore.

Santa Barbara Chapter of the A.I.A. award was won by Don Mueller. The award is given to the senior who has done most to promote student and professional relations. Student Chapter of the A.I.A. awards were given to Al Melandras, senior; James Whaley, junior; Don Stalp, sophomore and James Hayes, freshman.

WAA Closes Year With Dinner Tomorrow Night

Climaxing the year's activities for the Women's Athletic Association is a turkey smorgasbord banquet in the Staff Dining Hall at 7:00 p.m. tomorrow.

Theme chosen for the banquet is "Around the World in Sports," announced Chairman Janice Leonard.

Following the banquet will be the installation of officers by the outgoing officers. Awards are to be presented to the outstanding WAA members and the championship basketball and softball teams.

The Fashion Set

By PDG

Summertime is not a time for primping. It's the time to look pretty . . . without having to work too hard at it. It's a time when you'll be in the fresh air almost constantly, whether riding in a convertible, playing tennis, sailing, swimming or doing any of the other wonderful summertime things.

And yet we must try to be chic. "In attempting to be chic, a woman may succeed only in becoming a carbon copy of another person," according to the summer issue of "Beauty Ideas." Seeing pictures of the First Lady in her bouffant coif, we must not forget that Mrs. Kennedy originally chose this style to flatter herself, not to follow someone else. Be yourself . . . and be beautiful.

"The basis of beauty—unless you were born to it—is illusion," according to "Beauty Ideas." Clothes and cosmetics can be used to further this illusion when they are chosen with care and not with an eye to current trends. And the magazine says, "Use clothes and cosmetics to express your good points while camouflaging your defects and you can be more of a stand-out than the conventional glamor girl."

Mind has something to do with it too. Walk into a room, head high, as though you were beautiful and your conviction will sway others to feel that you must have something—even if they are not quite sure what it is.

Excessively tall girls, while still using heels and standing straight, can cut down their inches through the use of illusion. Skirts and blouses, rather than a one-color dress, will stop the eye, break up that long vertical line. Horizontal lines will balance height if used judiciously—for instance, on slender rather than stout people. Hairdos that are low rather than piled high can help, if they suit your features.

Short people should stress the vertical line with one-piece or one-color outfits, slim-fitting clothes, high hairdos and hats. Heavy girls will do best with dark colors and slim sheaths.

"The formula amounts to something like this: Self-analysis plus a measure of camouflage added to a flair for the dramatic equals the beauty only you can be," says "Beauty Ideas."

While glancing through a recent fashion magazine an eye-catcher was that "transparent" bathing suits are due to hit the beaches in about eight weeks. Designers worked for a year, studying anatomy with the intensity of a Leonardo da Vinci, to make these transparent suits appear opaque wherever modesty demands. Clever printing in monochromes, does the trick. Avila Beach will definitely be "Where the Boys Are."

Hughes Comments

Grid Scrimmage Points Out Good, Bad Spots To Coach

Head Football Coach Roy Hughes was still optimistic about the coming season following last Saturday's inter-squad scrimmage in the stadium. "We are doing good for what we have to work with," said Hughes, "but we just don't have enough manpower." Although not thoroughly impressed with the scrimmage, Hughes was quick to point out the talents of some individuals. "Ken Tachiki and Al Muro were excellent on defense. The two were in on almost every tackle made during the hour and a half scrimmage."

"Halfbacks Bob Parker and Jim Fahey did fine on offense. Parker is really fast and moves real well," continued the coach. "Jack Jordan and John Ramsey played in their first scrimmage after coming off the disabled list but we'll probably have to let graduate John Panagakis see action in the alumni contest because the other quarterbacks are not in shape yet."

Hilmer Wyler and Brent Jobe, at ends, were also pointed out by the coach as being standouts in the scrimmage. "Jobe made a couple great catches and blocked and tackled good," said Hughes. "Our weakness lies at the center and tackle spots on the line right now. Our front line center, Dave Edmundson, is ill now but we hope to have him back for Saturday's game. And we only have four tackles right now."

"We are going to face the best players we've had graduate from Poly on Saturday and we'll have to really play our best. It should be a good game with lots of action," concluded Hughes.

The squad was divided into two teams for the scrimmage. They were designated as the green squad and the gold squad. The rosters included:

Gold Squad—Fred Brown and Fred Wittingham, ends; Bill Dauphin and John Brennan, tackles; John Albee and Connie Barger, guards; Dick Jacobsen and Marco Meyer, centers; Jack Jordan, quarterback; Bob Parker and Jim Fahey, halves; and Al Muro at fullback.

Green Squad—Clark Tuthill, Brent Jobe, Hilmer Wyler, and Gary Chilcott, ends; Dwayne Collins and Paul Ehrman, tackles; Bill Pierce, Ken Tachiki, General Owens and Ken Lum, guards; Dan Stone and Herb Aten, centers; John Ramsey, quarterback; Rudy Rosmarovich, Fred Ragatz and Dennis Saunders, halves; and Ron Attleberry, Rich Cabral and Jack Clark at fullbacks.

Sports Bulletin

The University of Redlands won their second straight district eight college division NCAA track and field trophy after scoring 87 points in the fourth annual meet in Fresno's Ratcliffe stadium.

Tom Pagani, Mustang weight thrower, set a meet record in the hammer throw event with a heave of 193 feet 11 inches. It was the third best toss this season in collegiate competition and broke a 21-year-old record. Pagani also grabbed a third in the shotput event with a 54 feet 2 1/4 inch toss.

Mustang high jumper Dennis Jones also walked away from the meet with a first place ribbon. Jones soared 6' 5 1/4" to top Ivory Howard of Long Beach State for the title. Jones and Howard had previously tied for the CCAA title. Distance runner Jack Wofford brought home a fourth place for the Mustangs with a fine finish in the three mile run.

Mustang Rawson Lloyd, who won the CCAA singles championship, defeated Ron Polton of Redlands 2-6, 6-1, 6-0, to win the District Eight National Collegiate Athletic Association singles title Saturday at the Fresno State College courts. In the semifinals, Lloyd defeated Mike Cummings of Sacramento 7-5, 5-7, 7-5 to move into the final round. Lloyd went undefeated in singles competition this season for the Mustangs.

Bowling Green University accepted an invitation to play in the Mercy Bowl football game next Thanksgiving Day in the Los Angeles Memorial Coliseum. Bowling Green's opponent will be a west coast team.

The record of drivers between the ages of 16-25 improved during 1960 but they still were involved in nearly 25 per cent of all fatal accidents—twice what their numbers would warrant.

FUMBLE . . . Mustang ball-carrier hit from behind drops the pigskin and the scramble for possession is underway. The Mustangs participated in their last scrimmage before Saturday's big game with the Alumni squad. Over thirty alumni are expected to turn out for the annual clash against the local varsity.

Engineers, Paddie Ramblers Top Poly Bowling League

Cal Poly's bowling league came to a close last Monday night at Laurel Lanes with the Rice Paddie Ramblers winning the second half of play. The Electrons came in a close second to grab a berth in the playoffs against the first half top teams, the Engineers and the Rackets. In the play-offs, held Friday

Out Of The Din

El Mustang Editor:

The skydivers wish to thank Mike Cassidy (El Mustang reporter) for the interesting article in a recent paper about sport parachuting. Several facts were in error, however, and we feel that some clarification is in order.

There is no such club as the "Cal Poly Sport Parachuting Club." Although this organization applied for college recognition, it was approved by the Associated Student Body but not by the Administration. The administration cannot encourage students to join a club where there is an element of risk involved, and thus cannot recognize our group.

Also in error is Mr. Cassidy's description of a "static line jump." In static line jumps, the ripcord, not the parachute, is pulled by the weight of the falling jumper. The ripcord is attached to the aircraft by an unbreakable nylon strap.

We never refer to ourselves as the "daring dozen," since safety is the watchword. Each jumper wears two complete parachutes, one on his back and the other on his chest. Also, we require approved crash helmets and boots, since a gust of wind could possibly throw a landing jumper off balance.

An inspection of our logbooks will show an enviable safety record. We are on a par with the clubs at the country's leading colleges and universities who, by the way, have inter-collegiate skydiving meets.

Rodeo Club Hosted By 'Bert' Fellows

A.M. "Bert" Fellows, Printing Department head, will be the featured entertainer at the Rodeo Club meeting tonight at 7:30 p.m. in Ag. Engineering, Room 123, announced Ray Hunnell, club president.

Fellows, a member of the Cal Poly faculty since 1945, will host Rodeo Club members and guests with guitar picking, western songs and stories of his own experiences in the Old West.

Before coming to Poly, Fellows was superintendent of the Santa Monica Publishing Co. for 12 years, during which time he served on the state legislature as a representative of the printing industries.

Well qualified for western story telling, he served with the cavalry in Texas and Oklahoma, went to work with a pack train in the Rocky Mountains, and (Grand Lake, Colo. During his early childhood, his family moved to Oklahoma, making their home in Indian territory.

He has worked on ranches and with his own livestock and worked with Will Rogers on the 101 Ranch.

Much of his early childhood and early army days set the stage for his outstanding entertaining ability which is similar to that of the famous Will Rogers.

James Green of the Boston A.A. the one-hour run at Gordon Field, broke the American record for Mass., Aug. 11, 1960. He covered 11 miles 018 yards.

Ag Engineers Given Life Memberships

Life memberships in the Cal Poly Agriculture Engineers Club were awarded recently to 15 members.

Receiving the awards were Pedro Agosoli, Jim Bermann, Clay Brooks, Charles Cully, James Darcy, Bill Green, Madrid Hanan, Don Horal, J. W. Hutchison, Leonard Johnson, Herb Knibrim, Henry Martin, Robert Osborn, Ami Tanel, Masad Taniguchi. The award is made to seniors in good standing who have been members of the club the last two years of college.

During the business session of the meeting plans were made for a barbecue at Routsen County Park on June 10. Members, their families and friends are invited.

Election of officers for the coming year was held. Elected were Ed Carnegie, president; Murt Lininger, vice-president; Denny Barnes, Agriculture Council; Charles Mueller, secretary; Jay Eaton, treasurer; Jim McKay, Poly Royal chairman; Cliff Hillebrandt, Executive Council representative, and Howard Martin, reporter.

After the business meeting, James Merson, department head, showed colored slides of his trip to Alaska.

Instrumental Ensemble Set For College Hour

College Hour plans an instrumental ensemble to be presented in the AC Auditorium at 11 a.m. "This is the first time a program for people interested in classical music has been presented as far as I know," says George Beattie, music instructor.

The ensemble will consist of a brass choir playing the music of Bach, Gabrieli, Purcell, and Miller.

A string quartet will present two movements of string quartet by Beethoven.

A cello quartet will present their rendition of a minuet and trio of the classic period an original folk song by one of the members, and a short selection by Beethoven.

The program will close with a special duet by clarinetist Clark Johnson and flutist Clifford Popper.

On October 1, 1949, Cal Poly was approved to grant the master of arts degree in education.

Cal Poly's unique project system of "learning by doing" and "earning while learning" has been progressively developing since 1924.

Budget Recommendations Presented To SAC Tonight

Finance Committee has completed budget recommendations for the 1961-62 year. However, the budget still must be approved by Student Affairs Council. According to Graduate Manager Bob Spink, "Several revisions have already been planned. The budget will be brought before SAC tonight."

The left column of figures gives the amounts of incomes planned for the next year; the middle column in the figures requested by the budgetary group; and the far right column is the amount recommended by Finance Committee.

**GREAT
KEDS
FEELING**

Other shoes may look like Keds, but only U.S. Keds® can give you "that great feeling." Because Keds have a patented shockproofed arch cushion and cushioned inner sole. And because Keds are built over tested, scientific lasts, to fit all feet perfectly, even narrow ones. Keds are right for class, gym, tennis court or dorm. Machine-washable (and they even look good clean). His: Keds "Court King." Hers: Keds "Champion." Get your U.S. Keds at good shoe or department stores.
