This appendix lists all changes submitted by department heads to the Committee for catalog copy for 1969-70. These changes include new course proposals, deletion of existing courses, modification of existing courses by changing title, number, or description, and changes in curricular layout.

The first three columns of each sheet of the appendix are obvious. If the title of a course is changed, the new title is listed; if the number is changed, the new number is listed. Those numbers in parenthesis are the courses which the Committee did not endorse.

In the column headed "Change," we have indicated whether the course is to be added, dropped, or modified.

In the column headed "Status," we have indicated:

Elect - course will be used as elective by one or more majors

N. E. - Not Endorsed

If a department abbreviation appears, the course will be required by that department.

If the column is blank, the course is an existing course being modified.

In the column headed "Units," if the course is a lecture course, only the number appears. Otherwise, L = Lecture, Lb = Lab, A = Activity.

Under "Remarks," a brief summary of Committee suggestions and comments is given.

To summarize, if the course number appears in parenthesis, the Committee does not endorse it. Otherwise, the Committee does endorse it.
