Poly Royal Code Hits SAC Tonight

BY WAYNE COX, Staff Writer

Gun smoke and dust kicked up last week at the Student Affairs Council meeting in "OK Corral" (Lib. 114), should have cleared the scene as SAC assembles again this evening at 7.

Heading tonight's agenda will be the official acceptance of the Poly Royal Election code.

According to ASB President Lee Foreman, SAC has been operating from both the original code and from the queen's section of the newly proposed code on a trial basis this year. Official action will be taken this evening.

Late last week, Poly Royal Publicity Chairman Frank Reische and ASB Vice President Dave Hettinga were in disagreement about the Poly Royal queen's election dates.

According to the code and from a publicity standpoint, Reische feels the election should fall on Wednesday and Thursday, Feb. 28 and March 1.

Hettinga wanted the election to be held today and tomorrow.

The code states the election must take place within 10 days or two weeks after the official announcement of the queen candidates which was made on Feb. 14.

College Union Board Chairman Jack Keyes will present a plan for an Activities Coordinating committee to assist in the scheduling of all campus activities.

Keyes' proposal probably results from SAC's refusal of the May 23 Limeliter engagement because it would have conflicted with several already scheduled campus activities.

SAC members felt the Limeliter engagement would definitely hurt the Spring Sing, Spring Prom, Poly Picnic and Spring Concert, scheduled for May 18, 19, 20 and 22, respectively.

Official decision should be reached tonight on Graduate Manager Bob Spink's four-point proposal on football stadium seating arrangements.

International Program During College Hour

Slides from all over the world will be shown at a special International Week College Hour presentation Thursday at 11 a.m. in the Little Theatre.

The slides were taken by various students and faculty members and will offer an "Around the World in 60 Minutes" presentation, according to the College Union Social committee, sponsoring of the show.

Engineering Firms Host Poly Students

Friday in Los Angeles will be a busy day for 85 Cal Poly Electronics Engineering students as they visit 17 different companies and plants representing almost every phase of engineering.

Sponsored by the Institute of Radio Engineers, Los Angeles Chapter, the I.R.E. Student Day will feature films, questions and answer periods, discussions, and guided tours of the companies from 10 a.m. to 4 p.m.

While visiting the firms, Cal Poly's engineering majors will join students from other colleges in the Los Angeles area that offer electronics.

Intramural Teams Score Big Wins

The Untouchables humbled the Shasta Nads Thursday, 45-36 in the Intramural Basketball league. The Misfits rode wild over Tenaya Pent, handing them a tongue-biting defeat, 55-28, and Tenaya's second floor team remained undefeated Wednesday by a 47-23 win over Hul O' Hawaii.

Mat Pica Pl edged the IE's 27-25. Dean Borgman's 15 points, propelled the Rockets 42-19 over Circle K.

El Dorado won 27-21 from Tehama Mamas and Hewson House

Queen's Middle Man . . .

QUEENCANDIDATES—All eagerly awaiting the election results of tomorrow's and Thursday's Poly Royal queen balloting are left to right, Zoe Boscak, Joan Estes, Emmitt Mundy, Poly Royal Superintendent, Lynda Webster, and Kay Smith. Standing left to right, Jan Madsen, Carol Ely, Dianne Bennett, Judy Church, Mary Hallahan, and Linda Schickley.

Satellite Communications Topic At IRE Meet March 9

The Institute of Radio Engineers will join with the Santa Barbara IRE to present Dr. J.W. Fitzwilliam of Bell Telephone March 9. The meeting, open to the public, is scheduled for 7:30 p.m. in the Air Conditioning auditorium.

Dealing with the problems encountered with reliable long distance communications over the ocean, Dr. Fitzwilliam's subject will be "Satellite Communications." He will tell of Bell Telephone's current plan for a system of 30 to 50 "active" satellites powered by solar cells in polar orbits 8,000 to 8,000 miles above

the earth. The satellites will work in conjunction with 36 ground stations strategically located on all parts of the globe. Each satellite will be equipped to receive transmission signals, reamplify them, and send them back to earth.

Such a program is estimated to cost \$170 million and will provide many hundreds of message circuits around the world. Bell Telephone is currently working with the National Aeronautics and Space Administration, with an agreement whereby NASA will put the satellites in orbit with Bell Telephone footing the bill.

'Miss Poly Royal '62' Election Set This Week

BY JIM McLAINE, Editor, El Mustang

Students will go to the polls tomorrow and Thursday to decide who will become "Miss Cal Poly, Queen of the Poly Royal" of 1962.

Until late yesterday morning the election dates were sort of up in the air, because Dave

Hettinga, Election committee chairman, had announced them as being today and tomorrow at last week's Student Affairs Council meeting. Publicity has already gone out stating that voting would take place tomorrow and Thursday, however. These dates were finally approved.

POLLING PLACES

Polls will be located at the ASB office, the Cafeteria patio and the Erhart Agriculture Building. Students will be required to show an ASB card before voting. Voting booths will open at 8 tomorrow morning and will remain open until 5 p.m. Thursday they will close at noon.

Ten senior coeds, who were selected from the top 25 per cent of their class by the Poly Royal Executive board are vying for the title. The girls, who were chosen on the basis of their participation in co-curricular activities and/or grade point average, and "queenliness," are Dianne Bennett, Zoe Boscak, Judy Church, Carol Ely, Joan Estes, Mary Hallahan, Jan Madsen, Linda Schickley, Kay Smith and Lynda Webster.

The coeds report that they are "just a little bit more than slightly nervous" as the election gets underway.

When the ballots are counted tomorrow afternoon, the girl with the highest plurality of votes will be elected queen, with the four runners-up comprising her court. The girls will participate in all functions and activities during Poly Royal, April 27 and 28.

Whoever is elected Queen will be crowned at the annual Coronation Ball, April 28.

A Queen Candidates' reception is to be held immediately following the counting of ballots, but the time and place for it has not been announced yet.

Dianne Bennett, a 21-year-old Physical Education major from Inglewood, says, "If I am elected queen, I will live up to the role by going all out for Poly. I believe Poly Royal is primarily a device to acquaint people with the campus and I don't necessarily mean outsiders."

Zoe Boscak, a 21-year-old Home Economics major who comes from San Bruno says that she thinks Poly Royal could be improved in some respects and that she thinks that the new method of queen selection is "a big improvement."

Judy Church is a Physical Education major and comes from Redondo Beach. She is 21. She says, "I want to represent the school for the students (I am elected queen). I hope my enthusiasm and devotion will stimulate the students' and townspeople's enthusiasm towards Poly Royal."

Carol Ely, a 22-year-old Physical Education major from Riverside, says, "I know this year's Poly Royal will top last year's—and that will be hard to do. Cal Poly has something to be proud of. Poly Royal is an excellent introduction to the college for prospective students."

Joan Estes, who comes from Burbank, is a Home Economics major, 21 years of age. When she was asked what her immediate reaction was when informed that she would be a candidate for Poly (continued on page 5)

LEARN THOSE LINES!

Male Animal Bows Thursday; CU Comedy In Three-Day Run

BY JUDY MEBANE, Staff Writer

"Let's get those lines learned!" said J. Murray Smith, English instructor and director of this quarter's College Union play, "The Male Animal" as he put his cast through another round of rehearsals late last week. James Thurber and Elliot Nugent's three-act comedy is scheduled to begin its three-day

run Thursday, Mar. 1 in the Air Conditioning auditorium at 8:30 p.m. Tickets went on sale yesterday at the Little Theatre boxoffice and will be sold there through Saturday. None will be available at the ASB office. Tickets are 50 cents for ASB card holders and 75 cents for those without.

After numerous hours of hard work, both the cast and stage crew are beginning to show results and should put on a highly convincing performance. Tension and excitement are mounting as opening night draws near for all connected with the production. According to Keith Nielson, technical director, last minute preparations are being completed on the set and props. "The only real problem has been that of lines not being memorized," reported Smith.

Neil Norum, a Technical Journalism major from Pacific Grove will play Tommy Turner, the male lead in the production. Marlene Pueta, a Home Economics Education major from Redondo Beach will play Ellen Turner, the female lead.

The cast also includes: Bob Handers, Electronics major from Carmel as Joe Ferguson; Gary Webb, Technical Arts major from Santa Monica as Michael Barnes; Jack Hymas, (continued on page 5)

Butzbach Will Review Book In 'High Noon' Talk Today

Dr. Arthur Butzbach of the Education department will review the book, "Excellence," by John W. Gardner at the "Books at High Noon" presentation in the Staff Dining room today at 12 o'clock.

A subtitle suggests the problem: "Can We Be Equal and Excellent, Too?" The book asks the question, "Is excellence possible in democracy, or does our devotion to equality condemn us to mediocrity in our schools and elsewhere?"

Dr. Butzbach plans to discuss the dilemma which has arisen from an apparent affirmative answer to the question above. It is, "that while we say that the best man gets the prize, we present the best opportunity in the world for the losers to refashion the rules so that he can win, too."

Worldscope

By KAREN JORGENSEN, Associate Editor

PALM BEACH, FLA.—President Kennedy told Soviet premier Khrushchev that he hoped a summit conference on disarmament could be arranged before June 1. In his latest message to the Soviet leader, the President insisted, however, that suitable progress must first be made at the 18-nation disarmament starting March 14 at Geneva.

ALGERIA—The outlawed Secret Army Organisation attacked the main mobile police barracks outside Algiers with bazookas Sunday night, setting it ablaze. The spectacular attack, one of the most daring anti-Gaullist raids, followed a day of slaying throughout Algeria.

DEN HAGUE—When Robert Kennedy and his wife, Ethel, arrived at Queen Juliana's palace Sunday a palace servant unwittingly slammed the car door on Ethel's knee. Accompanying her husband on a world wide tour, she has become eligible for a purple heart. In Rome she hit a car and fell while trying out a motor scooter, and in Japan she was struck in the stomach by a cheerleader.

Cal Poly Coods Cook Way to Graduation

Four girls from Cal Poly's Home Economics department will give their final cooking presentations in the Demonstration Techniques class for approximately 50 girls from Morro Bay high school, Thursday from 8:10 a.m. in HE 123 according to Mrs. Pauline Shaffer, course instructor.

"It is a requirement of the Home Economics department that girls give a demonstration of cooking to outside members of a school for credit toward graduation and the class," Mrs. Shaffer stated.

Sheila Burnaugh, Anela Dillon, Shirley Varnau, and Flo Tepper will demonstrate the proper procedures for making a simple but interesting meal.

Poly Royal provides two event packed days in 1962, its 80th year, on April 27 and 28.

300 Seniors Pick Up Portraits; Others Must Obtain By Mail

Three hundred seniors picked up portraits last Tuesday and Wednesday at the old Power House building while the commercial photographers who handled sittings in January were on the campus.

"A lot of mothers, mates and sweethearts are going to be happy with the results," announced Woody Smith, El Rodao editor. "But there were a few seniors who had placed orders and didn't stop by to pick up their pictures."

Dunlap-Turney Photography studios, the company handling senior pictures for Cal Poly, reports that seniors who didn't get their portrait pictures when representatives were on campus may obtain them by writing Dunlap-Turney Photography, 524 North Brand Boulevard, Glendale 2, California.

VIEWPOINT

Contributions to "Viewpoint" should not exceed 300 words. Editors reserve the right to edit, or condense, all letters received and to decline publishing letters that are in the opinion of the editor, in poor taste or libelous. All communications must be signed by the writer. If a nom de plume is desired as a signature, it is permissible, but the editor must know the true name of the writer.

'All Hail'

EDITOR

I would like to suggest a service which you could perform, pertaining to the college song.

I joined the faculty of Cal Poly in September 1961. Since then I have been in groups on three or four occasions where the school song was attempted with rather limited success. In fact, I have been connected as a student or faculty member with about 10 colleges, most of which were smaller than Cal Poly, and every one of which could do a better job on their school song. As a person who loves to sing, I feel very frustrated because I am willing and able, but to date I haven't even seen a copy of the music and words for this song. I feel that many other members of the staff and student body would sing if furnished an adequate opportunity.

Therefore I suggest that the music and words for the school song be published in El Mustang.

I would also hope that some organization would take the initiative of doing something to teach the song to staff and student body. I do not believe that the poor rendition of the school song at the conclusion of Chancellor Gallagher's speech contributed in any way to his resignation; however, I am sure it did not do justice to the fine spirit existing at Cal Poly.

Owen Harlan

EDITOR'S NOTE:

We agree with you, and are printing the words of the song. However, we are unable to print the music, as this would require a special cut, which is not available.

All Hail Green and Gold.
May your praises ever be told,
Of friendship and of courage,
And stalwart sons of old!
All hail Green and Gold.
No to California Polytechnic
Hail! Hail! Hail!

Whom To Blame?

It is a controversial subject as to whether we, the foreign students, are being accepted on campus by the native students. Mr. Miller wrote in the Jan. 26 edition of El Mustang that it is the duty of the native students to make sure that the guests feel at home.

On Feb. 3, we, the students from India, celebrated our Republic Day, with a variety of programs. This was done to create a better understanding between India and America. Through posters, newspapers, including El Mustang, and radio, we invited all the students and public, whom we could not invite personally. But to my utter dismay, I saw only six Cal Poly students at our program, whereas there were not fewer than 150 people from town, including a few faculty members.

Sir, may I know who is at fault? If you are, what should we do to get more cooperation from the native students?

Aren't some of the native students planning to work for the Peace Corps? Is there a better chance for them to learn about the culture and ways of living of other countries, than by participating in such programs as the one we had? Joshua Koprarambali

Our favorite fifth floor inspiration says that her new evening gown has just one shoulder-strap and that's to keep an attraction from becoming a sensation.

"What's the idea of hiring a cross-eyed man for store detective?" demanded the department store manager of the personnel director. "Well, just look at him," calmly replied the director. "Can you tell who he's watching?"

SPACE, MISSILE & JET PROJECTS AT DOUGLAS

have created outstanding career opportunities for

SCIENTISTS and ENGINEERS

B.S. degrees or better

Assignments include the following areas:

Servo-Mechanisms—relating to all types of control problems

Electronic Systems—relating to all types of guidance, detection, control and communications

Propulsion—relating to fluid-mechanics, thermodynamics, dynamics, internal aerodynamics

Environmental—relating to air conditioning, pressurization and oxygen systems

Human Factors—analysis of environment affecting pilot and space crews; design of cockpit consoles, instrument panels and pilot equipment

Heat Transfer—relating to missile and space vehicle structures

Structures—relating to cyclic loads, temperature effects, and the investigation of new materials, methods, products, etc.

Aerodynamics—relating to wind tunnel, research, stability and control

Solid State Physics—relating to metal surfaces and fatigue

Space vehicle and weapon system studies—of all types, involving a vast range of scientific and engineering skills

Student Chance For Study Abroad

San Luis Obispo Rotary club is looking for a student who qualifies for the Rotary Foundation Fellowship program, which will provide at least one fellowship in this district for the academic year 1963-64. The program provides a full year of study in a foreign land with all the expenses paid. Applicants must be sponsored by a Rotary Club, and applications must be filed by April 15, 1962.

The applicant must have his permanent residence within the San Luis Obispo area, be a U.S. citizen, single, and at least 20 years old, good scholastic record, a bachelors degree or equivalent by the end of the next school year, and working knowledge of the language used in the foreign country selected.

All Expenses Provided

The amount of the fellowship is based on the cost of transportation from a Fellow's home to the city of study and return, registration and tuition fees, essential books and educational supplies, board and room, incidental living costs and the cost of limited educational travel within the country.

The obligations of a Rotary Foundation Fellow include planning his course of study and academic load to fulfill his ambassadorial duties by visiting Rotary Clubs, homes, and places of business to inform himself of the culture and ideology of the country in which he studies and to acquaint the Rotarians of the area with the culture and ideology of his own country.

Upon returning home a Fellow is expected to visit Rotary clubs and other organizations of the sponsoring district to inform them about his year of study and observations of the country's people.

Prospective candidates are urged to contact the chairman of the San Luis Obispo Rotary Club Foundation Fellowship Committee, Donald S. Nelson, Cal Poly, business manager, for further details.

A short 12 week course in horse-shoeing is offered at Cal Poly in the Spring and Fall quarters.

Male Animal

(continued from page 1)
Printing major from Albany as Ed Keller; Billie Carr, Social Science major from Hakerafield as Myrtle Keller; Mildred Manning, Elementary Education major from Ingleswood as Blanche Damon; Karen Grant, Biological Science major from Cholame as Patricia Stanley; Stephen Baum, Electronics major from Arcadia as Wally Meyers; Don Miller, Animal Husbandry major from Lowden, Wash., as Dean Frederick Damon;

Bally Clark, Elementary Education major from Damon as Cleota; and Mary Dodder, Social Science major from Paso Robles as "Nutty" Miller.
Others working behind the scenes include Sylvia Bray, Susan Tebbe, Millie Manning, Rafael DeLeon, Bill O'Hara, Linda Byrd, Dave Harper, Don Shepley, Lyman Miller, Lonnie Allen, Diana Buck, Peggy Paul, Julie Dutton, Judy Paisly, Eresia-Marrie Colvard, Kathy Savage and Judy Mebane.
"The play shows signs of being one of the most entertaining ever presented at Cal Poly," says Lonnie Allen, co-publicity chairman.

Elections

(continued from page 1)
Royal Queen, she said, "I just couldn't believe it!"
Mary Hallahan, a 20-year-old native of Tarsana, is a Home Economics Education major. She says that when she heard that she was to be a candidate for Poly Royal Queen an engagement was being announced in her dorm. "When I heard the news about me, I almost screamed!" she says.
Jan Madsen, 22, is a Physical Education major from Santa Maria. "I hope that Poly Royal will be as big as it always has been. It is a definite part of Cal Poly. They go hand in hand."
Linda Schickley is a Biological Science major from Laguna Beach. Like the rest of the candidates, Miss Schickley "just couldn't believe it!" when informed of her candidacy.
Kay Smith is 21 and a Home Economics Education major from San Luis Obispo. "If I were elected queen, I would like to be a walking, talking public relations program for Cal Poly," she says.
Linda Webster, an Elementary Education major, from Creston, is 21. Very excited about her candidacy, she says, "I want this year's Poly Royal to be the biggest

Talks And Movies Held Until March 3

Only three days old, the first International Week in campus history has many more activities to fill its busy calendar.
and best that Cal Poly has ever had."
Incidentally, the method used in selecting Poly Royal Queen this year was chosen by the Poly Royal board and the Student Affairs Council on a trial basis. Its merits and its faults will be discussed tonight as SAC meets in LIB 114 at 7.
Tonight a panel discussion, "The Improvement of Better Foreign Relations," will be held in Sol B-3 at 7:30 p.m. Social Science instructor Dominic Perello will act as the moderator between three foreign and two American students.
Tomorrow night an Arab movie will be shown in the Little Theater at 7:30. During the regular College Hour, Thursday at 11 a.m. three foreign students will show colored slides on India, Iceland and Iran, also in the Little Theater.

AND DOWN GOES THE BEAR... Ed Scott of coach Tom Lee's Cal Poly boxing squad sends Willie Kelley of the University of California's Golden Bears to the canvas for a 10-count knockout with a sharp left to the jaw last Saturday night in the Men's gym. The Mustangs beat the Bears 7-2. (photo by Grundman)

Bulldogs Beat Poly In CCAA 'Crucial'

The Fresno State Bulldogs, who wrapped up the CCAA crown the night before by trouncing San Fernando State 109-59, added a little frosting to the cake by downing the Cal Poly Mustangs 76-68, Saturday at Fresno.

By defeating the Mustangs, the Bulldogs avenged an 85-71 loss handed them by Cal Poly in their first round of play last month.

Mike McPherson closed out his collegiate career with a bang as he stuffed in 36 points to pace the Bulldogs. Rally Rounsaville was the big man for the Mustangs, finding the range for 24 points, 17 in the first half.

The Mustang cause was hurt by the loss of high scoring Bob Horwath who suffered a shoulder injury in the first half.

The Mustangs close their season tonight when they meet the San Fernando Matadors in San Fernando. The Matadors, who have only one victory in CCAA play,

Writers' Forum Wants Material For Magazine

Material is now being accepted for Poly Syllables, campus literary magazine sponsored by Writers' Forum, according to Carol Rizzo, editor. Short stories, poems, and essays, either serious or humorous, will be considered. They should be either sent to Miss Rizzo at Box 802 or given to Mrs. Elizabeth Anderson, advisor, at Engl. 802. The magazine is scheduled for publication during Spring quarter.

The following officers were elected at a recent meeting of Writers' Forum: Boyd Willat, president; Tom Gartland, treasurer; Becky Charlesworth, recording secretary; John Ellis, corresponding secretary and Rob Wilson and Bob Worley, representatives to the Arts and Sciences council.

San Luis Obispo was founded in 1772 by Father Serra at the Mission San Luis Obispo de Tolosa. Cal Poly was founded 129 years later.

Photoengraver Is Due To Arrive This Week

A Scan-a-Graver, photoengraving machine costing \$3,980, is due for delivery to the Technical Journalism department by the end of this week.

The Scan-a-Graver makes plastic engravings for reproduction in the paper from ordinary photographs, and will permit a larger number of photographs to be budgeted for El Mustang since costs will be less.

Anyone interested in doing photography work for the student publications should contact the Journalism department in the Graphic Arts building.

Facts and Fallacies about Jewelry

By
BOB
FIELDS

FALLACY

Colored diamonds are not necessarily inexpensive or faulty.

FACT

It depends on how the color gets there. Natural colored diamonds can be rare and valuable. Modern methods of sub-atomic bombardment have also been used to enhance a color tone. This color is within the structure of the diamond and increases its value and beauty. But beware of "painted" diamonds merely coated with color.

CONCLUSION

Give your February Valentine the personal gift of an Amethyst ring. We have beautiful gifts of jewelry for every occasion.
